Hockey Club Directors Appointed; Shaping Plans for District League

Turn of the Season Stirs Popular Interest in Winter Sports Program

— By John H. Dunne —

The first meeting of the Lachute Hockey Club this season took place on September 25 at the Windsor Hotel, and the following executive and personnel were elected for the 1947-48 activities:

Honorary presidents — Georges H. Héon, K.C., M.P.; Philippe G. Roy.

Board of Control

President, W. S. MacKimmie; 1st vice-president, Laurier Carriere; 2nd vice-president, Hervé Gascon; 3rd vice-president; Rodrigue Chevrier.

Secretary-treasurer, Gabriel Valois.

Assistant secretary-treasurer Jacques Poitras.

Directors, Cecil Staniforth, Omer Lafortune, James Duncan.

Team manager, André Lacroix. Assistant, Jules Lamarche.

Coach, to be named by the Board at a meeting next week.

Equipment manager, Romeo Gagné.

First meeting of the players to participate as personnel of the club, was called by Gabriel Valois, secretary-treasurer, and André Lacroix, manager, on Monday at the Arena. The only players of last year's squad not in attendance were Ronald Hebert (Captain), who was away on holidays, and Goaler Frankie Bedard, who was in Montreal on invitation of the Junior Canadiens for a try-out; and Frank has an excellent chance of remaining with that organization. The following players were signed for the coming season—Jack MacKimmie, Rolland Gervais, Maurice Campeau, Leopold (Pitou) Girard, Gaston Millette, Jean Lys Millette, Guy Larocque, Dick Muir, Reynald Desjardins, Réal Landrialt, Maurice Pilon and Henri Plouffe. The club is anxious that any hockey players residing in Lachute or Lachute Mills, desirous of a try-out for the Lachute Club, will communicate with the manager, Mr. Lacroix (telephone 530-W or 780). Every place is open on the Club and everybody will have a chance; the management feels there must be other good hockey material in Lachute, so prospective players are urged to apply.

The new Quebec-Ontario Hockey League held its first assembly at the Arena on Monday, and five towns were represented. A schedule was proposed for adoption, and except for a few minor changes to be made, met with general approval. Many rules and regulations were discussed and approved. A president and secretary-treasurer will be appointed at the next meeting, to be held very shortly. Charles Berthiaume, of Hawkesbury, presided and Gabriel Valois, of Lachute, acted as recording secretary. Complete details of the League will appear next week in The Watchman's seasonal hockey column.

Two Fire Calls, Minor Outbreaks

A fire call last Tuesday evening around 8 o'clock summoned the brigade's equipment to the residence of Jack MacKimmie, Main Street East. A coal-oil stove had overflowed and the kerosene ignited, threatening to cause a blaze. However, with the fuel supply turned off, the fire was confined to the stove and pipes, and subsided before the firemen arrived.

At 11.30 o'clock Wednesday morning a fire crew was despatched to a point some distance east on the St. Jerome highway, where a Provincial Transport bus, approaching Lachute, had apparently caught fire. The interior had filled with smoke, so that it was impossible to enter and discover the source of the trouble. The driver having disconnected the battery leads, the danger was over and the smoke had cleared before the firemen reached the scene. There were no passengers in the autobus at the time.

Interesting Fare at Historical Society

The program at Carillon Museum last Saturday afternoon provided both topical and historical interest — with a graphic portrayal of Newfoundland, past and present, by the Rev. A. George Moore, and narrative in verse by Mrs. Phoebe Erskine MacKellar depicting past traditions and present impressions in Canadian life.

The occasion was the Argenteuil Historical Society's 13th annual meeting — the largest such gathering in the record of this organization, with almost 100 persons in attendance. The president, Dr. H. B. Cushing, reviewed the affairs of the Society and the Museum, also discussing the financial statement as prepared by Miss E. P. Simpson, treasurer. The secretary, Miss Beatrice Robertson, presented an excellent report of the year's activities. All officers of the Society were re-elected.

The Rev. Mr. Moore — a native of Newfoundland and present pastor of St. Mungo's, Cushing — in speaking of the island, believed there was no doubt that hundreds of years before its "discovery" by John Cabot, the Norse seafarers and explorers had set foot upon its soil. While such beliefs were founded on legend and tradition, the factual history showed however that Cabot, sailing from Ireland, landed at Bona Vista, the most easterly point, on August 10, 1497; he planted the British flag and was subsequently rewarded by the King for his discovery, with the princely sum of £10 sterling.

Newfoundland's commerical, economic and social progress through the years made an interesting story. Her varied experience in forms of government proved still more interesting, as relevant to the present time and the contemplated shuffle in Newfoundland's administration. Delegates of the National Convention have been in Ottawa and in London, and on their return three alternative choices will come before the people by public referendum; namely: (1) Continuance of the present Commission government; (2) Confederation in the Dominion of Canada; (3) return to Dominion status and responsible self-government. . . . . This elaboration of Newfoundland's problem was both timely and interesting to the audience.

Mrs. MacKellar — an exponent of Canadian verse, with a personal and particular interest in unpublished works — proved a vivid narrator. Her recital of French-Canadian epics, of Indian adventures, and of homely meditations, provided fare of unusual color and variety.

Following the program, many of the gathering enjoyed a social hour at the tea tables, and the event was voted a successful occasion in the progress of the Historical Society.

408 Lives Lost by Fire in Canada, 1946

Fire Prevention Week has become an accepted tradition since its inauguration some 25 years ago. It is given official designation by a Proclamation of the Governor-General.

Why do we have such a Week? The main purpose is to call attention to the devastating toll of life and property taken by fire each year, and to urge that every precaution be taken to reduce the tremendous losses suffered by this country and our neighboring country to the south. A total of 408 lives were lost and property damage amounting to nearly $49,500,000 was occasioned by fire in Canada in 1946 — compared with 391 lives lost and $42,000,000 property damage in 1945. These figures tell us that we are making progress in reverse, insofar as fire prevention is concerned.

What can be done to correct this condition? In the United States President Truman called a conference on Fire Prevention in Washington last May. It was hoped that by this means fire losses in the States might be reduced on a comparable basis to traffic fatalities following a conference on the traffic situation in 1946. It was felt that the keystone to success in fire prevention was publicity. Consequently we are going to hear much during the coming week concerning the prevention of fires. To many of us all these warnings will appear repetitious. How often have we been told to be careful in our smoking habits? How many times have we been cautioned to keep heating appliances in good condition and at a safe distance from combustible material? Can we count the number of times we have been warned against the use of gasoline for cleaning clothes in the home or kerosene for lighting fires? How about that old bugbear, "accumulation of rubbish?" Do we continue to build fire-traps in spite of other people's experiences with construction of that type? As evidence that we still carry on "in the good old way", stands the record of 55,400 reported fires in Canada last year.

Not only in Fire Prevention Week, but for the next 52 weeks, let us resolve to pay heed to the warnings which have been sounded. Remembering that eternal vigilance is the price of safety, let us apply the simple principles of fire prevention in our daily routine.

Organizers Visit Farm Forum Here

Joe Galway, national secretary of Farm Radio Forum, and the new provincial secretary - treasurer, Floyd Griesback, spent a week visiting eight county committees in Quebec — which included a visit to the Argenteuil committee in Lachute. At this meeting a number of new forums were suggested, and members were chosen to be responsible for them. It was also decided that the fall rally be in the form of a banquet, to be held on the evening of October 20 at Lachute High School; the arrangements will include a guest speaker, and other entertainment.

Members of the local branches congratulate Mr. Stuart Armstrong, past-president of the Quebec Council of Farm Forums, on his marriage, and extend to Mr. and Mrs. Armstrong sincere wishes for their happiness.

Picks Raspberries at Exhibition Grounds

While working at the Exhibition grounds last Monday, Wm. (Bill) Black picked a number of wild raspberries still in their prime. Long past their normal growing season, both vines and berries appeared flourishing and unharmed by frost.

Meeting to Arrange Drama Festival

A representative from local drama groups is invited to attend a meeting in Salon G of the Windsor Hotel, Montreal, on Monday, October 6, at 5.15 p.m. to discuss plans and to select committees for the 1947 - 48 Western Quebec Regional Drama Festival.

57th Anniversary Of County Couple

Rockway Valley — A pleasant evening was spent at the home of Mr. and Mrs. Ed. Sinclair, Sr., on Saturday, when members and relatives of the family gathered to congratulate them on their 57th wedding anniversary. Supper was served to about 25 guests. A beautifully decorated wedding cake inscribed "1890-1947", and topped with figures of a bride and groom, centred the table.

The living members of the family are William and Thomas A., of Rockway Valley; Mrs. W. E. Potter, of Montreal; Mrs. A. Pritchard, of Verdun; Edward S., of Lachine; and four deceased; also three grandchildren.

R. A. Giles Heads Weekly Press

R. A. Giles, publisher and manager of the Watchman Press, was accorded the presidential honors by his associates of the Canadian Weekly Newspapers Association, in the election of officers at their annual convention at Victoria, B.C., last week. He succeeds Walter Ashfield, publisher of The Sun, Grenfell, Sask.

Other officers elected were: J. Allbon, Springhill, N.S., first vice-president; Roy Bean, Waterloo, Ont., second vice-president; W. E. McCartney, Brampton, Ont., re-elected secretary-treasurer and managing director.

Selection of the 1948 convention city will be made by the directors next spring.

Mr. and Mrs. Robt. A. Giles, with Miss Lorna and Mr. John D. Giles, have been absent for two weeks attending the annual conference.

COMPENSATION CLAIMS FOR INDUSTRIAL ACCIDENTS INCREASED HERE IN PAST YEAR

Chief G. Y. Deacon Club Speaker, Fire Prevention Week

Geo. Y. Deacon, Fire Chief of Lachute for the past 30 years, and a consistent campaigner for fire prevention.

Along the lines of community service, Brownsburg Rotary Club is giving wholehearted support to the national Fire Prevention campaign next week, and as guest speaker on Thursday, October 9, the Rotarians have invited Fire Chief Geo. Y. Deacon to address the gathering. The Club feels that, "in view of the widespread fire losses throughout the land, it is a matter of extreme importance that everything should be done to make Fire Prevention Week a success".

Fire Chief Deacon's willingness to perform duties of this kind is publicly known and appreciated. Indeed, he has taken a commendable lead in the local observance of Fire Prevention Week, and with his crew of firefighters, has put every effort into stressing the message of this annual observance. Fire losses are more than a matter of cold facts and figures to these men. They reflect the reputation of the community and one of its essential services; moreover, they count appreciably in insurance rates—a detail which touches upon every home and property owner.

Until Tuesday of this week, it was a source of pride to Chief Geo. Y. Deacon that Lachute Town had received no fire alarms for the past four months. A call on Tuesday evening broke this good record, but fortunately the outbreak was of small consequence and incurred no loss.

One for Andy Clark

Andy Clark may furnish the correct horticultural term, if any; but hereabouts they call them "puff-balls" — those queer fungus growths that appear to spring from nowhere. And from Brownsburg this week came a specimen to top the 37-inch monstrosity mentioned recently in Andy's broadcast. . . Bruce, the son of Wesley Mason, found the puff-ball in a pasture off the Brownsburg Road. It weighs 20 lbs. and measures 57 inches around. In all but color and texture, it has the appearance of an oversized pumpkin.

'Stop Accidents Before They Stop You' Theme of Two-Day Safety Conference

Department of Labor Trophy Awarded to Dominion Ammunition Plant, Brownsburg

The Quebec Association for the Prevention of Industrial Accidents held its 188th Regional Conference last Thursday and Friday in Lachute. The two-day educational campaign started off at the Golf Club Chalet, where over 75 industrialists and keymen assembled, and viewed the many "safety first" devices and general aids toward accident prevention for many types of industries. These had been arranged by Mine Safety Appliances, under the personal direction of Mr. G. K. Claus, manager, and Safety Supply Co., represented by Mr. W. Green — two of the leading firms handling safety equipment.

It was considered appropriate that such a convention be held in Lachute, as statistics quoted revealed that, among 53 employers in this area who come under the Quebec Workmen's Compensation Commission, in 1946 there were 127 medical claims and 101 lost-time accidents, or a total of 228 so classified claims.

In 1945, with approximately the same number of employers 209 accidents had been reported. Things are evidently not improving throughout the province, for according to the first eight months of 1947, the increase in accidents over the corresponding period in 1946 shows an increase of 4.9%. Considering what is paid in by employers for workmen's compensation through assessment, and that paid out due to accidents, it was revealed that in the Lachute district eight employers showed at the end of 1946 an accumulated deficit of $27,468.

Dinner Meeting

The opening session was under the chairmanship of J. R. Legault, manager of Lachute Lumber Co. Ltd., and the following were seated at the head table—J. A. Lamarche, secretary-treasurer of the Town of Lachute, Hon. C. J. Arcand, former Minister of Labor; Paul A. Cooke, guest speaker; Thomas Ayers, director of Ayers Limited; H. M. Sherwood, manager of C-I-L Ammunition Division, Brownsburg; Philippe Roy, manager, Dominion Shuttle Co. Ltd.; A. G. McOuat, manager, T. McOuat & Son Ltd., and C. Brown, of Canadian Refractories Ltd., Kilmar.

In his opening remarks the chairman thanked and congratulated the local industries for the interest they were showing towards accident prevention. He also thanked the officials of the Industrial Accident Prevention Association for the splendid work they were doing throughout the province.

J. A. Lamarche, acting on behalf of the Mayor, welcomed the distinguished guests of the town and all those present. He hoped that Lachute would continue to be featured on the list of important industrial centres, and that the Association would hold further meetings of this kind in order that the population may benefit by its educational program to promote industrial safety.

"Stop Accidents Before They Stop You"

The main address delivered at the Safety Conference dinner was given by Paul A. Cooke, entitled "Stop Accidents Before They Stop You".

He first gave a graphic account of the accident situation in this province, pointing out that in 1945 there were 82,724, whilst in 1946 the number had increased to 90,900.

Safety, said Mr. Cooke, is the foreman's direct responsibility. In this, he must seek to develop qualities of leadership which will enable him to capitalize on the opportunities which his position creates.

Safety promotion is not a one-man job but rather a co-operative effort on the part of management, supervisory personnel and workers, and it is most essential that we have leaders in industry to create, maintain and stimulate interest in Safety work.

Statistics have a cold way of telling the truth. What do these figures suggest? . . .

(a) Are we to believe that industry is not properly organized?

(b) Are we to understand that there is indifference on the part of some of our employers?

(c) Is that an indication that the many appeals previously made have not been understood, and have been ignored?

"If so, it is my duty once more to enlighten you on the subject and point out a better way to safety", continued Mr. Cooke. "It seems that the main reason for failure in our efforts has been the lack of educating the workers. An elaborate educational program would undoubtedly help in fostering "employer-employee" relations, and this training or course of instruction should start with new employees.

Town to Purchase Snowplow Truck

Mayor Alex Bothwell presided at the regular Town Council session last evening. Routine business included the passing of accounts to a total of $6,424, and a resolution to purchase a truck for corporation use, equipped with a snow plow, at the cost of $8,939.71 (plus tax, if applicable).

A matter of popular interest was touched up when the Council passed a vote granting $105.50 towards proposed erection of a memorial plaque in the Auditorium — this being a sum accrued to the town salvage fund and not expendable for administrative purposes. As far as can be ascertained, the project to install a bronze plaque, inscribed with the names of fallen servicemen from this community, is not definitely settled; but it appears the idea has general approval. It is understood it is hoped to have this plaque ready for dedication at the civic Remembrance Day ceremonies.

Montreal "Bell" Employees Rebuild Fellow-Worker's Home at Dunany

Most men who have Saturday off from work usually play golf, indulge in a hobby or simply take life at a leisurely, week-end pace. But not a group of Montreal Bell Telephone employees after they learned that Harry Goodwin, a former fellow employee, had lost his home and nearly all his possessions in a fire at Dunany, just north of Lachute.

Rallying to the aid of the blind pensioner and his family, the men rise at 5 a.m. on Saturdays, drive the 50 miles to Dunany in order to build him a house themselves. They work from nine in the morning until seven at night, with their longest break 20 minutes at noon for lunch.

Until the house is completed, they intend to follow that routine. But it won't take long, as you can judge from the progress made the first Saturday. In the first photograph, you see the men at nine a.m. starting on the job. In the second, taken at about noon, the house has begun to take shape. In the third, you see the nearly-completed house.

All from Montreal, the Bell men shown in the photographs include Jack Dillon, Ernie Whitaker, R. W. Gardiner, Bill McIntosh, Leo. Bousquet, Dave Benson, Frank Wallis, Fred Costello, George Pafzona and Bill Franklin.

Recommendations for Match Plowing

Prepared by Col. the Hon. J. J. Duffus, N. G. McLeod, Clark Young and the Late Jas. McLean, for the Agricultural Societies Branch, Ontario Department of Agriculture

Plow

Select the most suitable plow obtainable for the type of work to be undertaken and see that it is properly equipped. Share, coulter and skimmer should be sharp. All attachments should be well oiled and freely adjustable.

Team and Hitching

A good plow team is essential. Long doubletrees are usually not satisfactory, having a tendency to force the plow to land. Generally, clevis holes should be not more than 40 inches apart and whiffletrees from 34 to 36 inches in length. A tightly hitched team is inadvisable. At least three links should be provided for use between the plow and the doubletree.

Stakes

After you have drawn your lot, ascertain which way you are to cast off and measure to your neighbor's land so as to be sure your own land is the same width at both ends. Straight stakes are indispensable. They should be 1 inch square by 4 feet in length. Longer stakes should be used as end stakes and in low places.

Setting Stakes

The end stake should be set to the left of lot number stake, one-half the distance you desire the scratch furrows apart. For example, if you prefer your scratch furrows 24 inches apart, set your end stake 12 inches from the left of the lot number stake, and a corresponding one at the other end of your land. Set a guide some distance beyond the far end scratch. Other stakes may then be lined up between.

Setting Coulter

The coulter for scratch furrows should be set about one-half inch back from the point and one-quarter inch above the outer edge of the share. Before starting heavy furrows, coulter should be set 1½ inches back from point and ½ to ¾ inch above the outer edge of the share. In order that your plow may run straight, place a straight edge along the left side of the coulter, about 5 inches from the share. In this position the back of the straight edge should have a clearance of from 1½ to 2¼ inches from the rear of the land side of the plow. This measurement varies with different plows and soil conditions. If your plow has a tendency to run wide, wedge the coulter out to the left at the back, and vice versa if your plow draws narrow towards the furrow.

Setting Skimmer

Place skimmer far enough ahead of coulter to allow good clearance. Set it with a good slope and to cut ¼ inch wider than the coulter. Skim as lightly as possible so long as all grass and trash is turned into the furrow. This will give the furrows more body and firmness, whereas deep skimming causes loose open plowing.

Ins and Outs

To keep Ins and Outs in a straight line, it is advisable to start the plow into the ground 4 inches before reaching the headland scratch and come out 2 inches before same.

Crown

Scratches must be even and straight. The width apart should vary according to the type of plow and conditions of the soil, usually from 21 to 23 inches, but should be sufficiently wide to permit the first two furrows to turn properly and meet without crowding. The plow should be held well-tilted to the land side and the scratch should be from 1 to 1½ inches deep and 2½ to 3 inches wide. (Slightly heavier and wider if starting in an old finish.) Scratches should be well-turned and packed smoothly in the centre. In placing the first pair of furrows, the first furrow should be 5 inches deep by 8 inches in width, the second the same width and slightly shallower. The plow should be well-tilted to the land side, the share cutting clean to the scratch and the top of furrows measuring 7 inches across. The second round should be plowed 10½ to 11 inches wide and deep enough to keep level with the first two furrows, with plow fairly level in order that the furrow will be properly turned. (This round usually shows poorer workmanship than any other on account of insufficient width and the furrow being left on edge.) The third round the plow must be held quite level, the furrows should be 9¼ to 9½ inches wide and approximately 6 inches deep, or deep enough to keep level with the preceding rounds.

Centre

The fourth round should be 9¼ inches wide and 6¼ inches deep, the following rounds should be 9 inches wide and sufficiently deep to shape the land properly and yet avoid coarseness, which is a common mistake. Before commencing to cast off you should again measure and see if your land is of equal width throughout. Crooks or inequalities should be eliminated gradually in the first two or three furrows of the cast off. The cast off should be plowed as carefully as any other part of the land.

Finish

The finish should be planned early by figuring out the number and size of furrows, in order to maintain uniformity. The total of the last three rounds should measure from 50 to 51 inchees, easing off in width and depth, leaving 15 to 16 inches for the last two standing furrows. The cast-off furrow should be about 7 to 7½ inches wide by 4½ to 5 inches deep leaving 8 to 8½ inches to turn toward the crown, which should not be plowed too deeply. The sole furrow should be cut 4 to 5 inches away from the bottom of the last cast-off furrow and brought up to within 4 inches of the top of the last furrow. Do not press the sole furrow too much, as this gives the finish a wide appearance.

Tractor Plowing

In starting a crown with a tractor, the plow should be tilted to the land side in order that front bottom will cut about 2½ to 3 inches in depth, and the rear bottom about 5 inches. When using a 3-furrow plow it should be tilted so that the front bottom

A NATIONAL INSULT

This picayune (old age pension) increase is wholly inadequate, unjust to the old and worn-out people of the country, and in solemn fact a national insult. In other and many ways the government wastes millions of dollars that might be better used in securing the comfort of the citizens of Canada in the evening of their lives. — Western Canadian

A STATEMENT OF POLICY

by

GENERAL MOTORS DEALERS

handling

CHEVROLET • PONTIAC • OLDSMOBILE • BUICK
CHEVROLET and GMC TRUCKS

Shortly after the war concluded, and because it was of timely importance, we — your General Motors dealers—issued a statement outlining our business policy.

In the interests of our customers and the community as a whole, we have decided that this policy should now be reaffirmed.

It will be our continuing purpose, therefore, in all our dealings with you to adhere to the following principles:

★ We will abide firmly by delivered prices on all New Cars and Trucks, as recommended by the manufacturer.

★ We will do our best, having the responsibility of being the sole distributors in this area of new General Motors Passenger Cars and Trucks, to allocate them as fairly as possible with proper regard for orders placed with us and dependent upon the availability of models.

★ We will ask only reasonable prices for all Used Cars and Trucks — based on an equitable resale valuation.

★ We will make allowances based on proper appraisal and a fair valuation to purchasers who have cars or trucks to trade.

★ We will give purchasers the benefit of those accessories which are available, but delivery of a new car or truck will not be conditional upon the acceptance of accessories other than those desired.

★ We will charge only the established prices for parts and accessories, and not more than equitable prices for all types of services. When requested we will gladly provide the customer with advance estimates.

★ We will, at all times, strive to be considerate of our customers' needs — and to serve with efficiency, satisfaction and courtesy.

A Sacrifice in Vain ?

EVERY YEAR fire takes a terrific toll of life and property in Canada. Deplorable as is the loss to property, life loss by fire is nothing short of a crime on our civilization, for the reason that in the majority of cases it is so needless.

In 1946, 408 men, women and children paid the supreme sacrifice demanded by the fire demon, and in the past ten years 3,067 persons have suffered the same fate. Of this latter number, 1,206 were children. The number of children who died by fire in 1946 was 164, the highest annual toll in the ten year period 1937-46.

Have these unfortunate victims made their sacrifice in vain? Such must be the case if we do not learn the lessons which these tragedies should teach. For instance, from a study of the causes of fire fatalities we find that 16 children died from fire last year when left alone in their homes. Parents should not, under any circumstances, leave helpless babies or even children of tender age exposed to the possibility of fire for even a few minutes. We see too that six children were burned to death playing with matches. The responsibility for such happenings is definitely that of the parents, and more particularly that of the mothers.

We note further that 21 persons died from fires started by stoves, furnaces and heaters; 12 from electrical appliances; 15 from carelessness in smoking; 11 because gasoline was used to kindle the fire; and 18 from the use of kerosene for the same purpose. We could enumerate a dozen or so other reasons for people dying by fire. They all add up to pretty much the same conclusion — needless death.

Will we, who hope never to suffer the same fate, learn to be careful with fire in all its phases, and thereby help to reduce the terrible toll taken of Canadian lives every year by that dreaded scourge? We can greatly improve our way of life, and incidentally live longer, if we observe the simple principles of fire prevention.

Why Sugar Rationing ?

WHY SUGAR users in Canada are not free to purchase what they need where and when they wish, without benefit of wartime rationing coupons, is a mystery to "Canadian Grocer", the grocery business paper, which cites these facts:

As of August 9, there were 81 million pounds more raw sugar and 4 million pounds more refined on hand in Canada than a year ago.

The new Cuban crop is only 3 months or so away, and, it is likely to be another big one, close to 6 million tons. More beet sugar is being produced in Europe and in the United States.

Sweeteners such as glucose and dextrose for industrial use are being granted import permits — they have to be paid for in United States dollars, which are scarce. Yet there is plenty of sugar available in Canada that can be released.

Cancellation, a few weeks ago, of all restrictions on sugar inventories by the United States indicates there is no shortage across the border. One of the largest sugar brokers in the United States has this to say about it: "Nobody should be hit over the head to know that the sugar shortage is over, that there is ample sugar not only for the balance of this year but next year."

"All these facts are known to the sugar controllers at Ottawa," says the grocery trade journal. "Why then cannot sugar users in Canada be free to purchase their requirements where they wish and when they wish?"

The Manpower Picture

A GOVERNMENT report on the state of the nation's manpower, heard last week at Ottawa, presents a picture in marked contrast to the condition so generally anticipated after the war. In this second year of peace it is a bright picture, overall — with no breadlines, no transients, no dole, or extravagant works to absorb our surplus labor. For, in brief, there is no surplus. . . Yet for some the picture is not so good—depending on whether you are a job-seeker, an employer or a prospective house-builder.

The Labor Department says that Canada is experiencing her most extensive labor shortage since the end of the war, with unemployment down to less than two per cent of the civilian labor force and unfilled jobs outnumbering applicants for work by 33,000. And, the department warned, by the first of next month the general scarcity of labor will likely be even more acute.

The department states that the farm labor situation, "always a problem at this time of year", is well in hand.

The tenor of the report was a healthy sign for the economy of the nation. It spelled high employment with a consequent high circulation of cash. But for Canada's reconversion to peacetime living, especially in the housing field, the report is not what one could term good news. It means that projects will still continue to be held up for lack of labor, particularly the building of the houses that Canada needs so badly. Construction men are particularly scarce.

Playing Fields of Moscow

ONE OF the major differences between the Eastern and Western worlds came to light in a recent Moscow dispatch in which an Associated Press correspondent reports watching spectators at a football game reading an account of a Vishinsky speech before the United Nations Assembly. Next day, the correspondent says, he observed the same thing at a Moscow racetrack.

To a Canadian sport fan, who wouldn't take his eye off the playing field unless an atomic bomb exploded in the next block, the story indicates a couple of telling points that perhaps should have been caught by the Russian censors.

1. The home team in that football game probably hadn't won a game in the last five years, and

2. The result of the horse race must have been subject to the Big-Power veto.

Perhaps it would be a good thing if Canadians took world politics a little more seriously, but even the most global-minded thinkers on this side of the world would concede that Marshall and Molotov should take a back seat to Joe Krol and Jackie Robinson on a Saturday afternoon.

And there's always the chance that it might have a beneficial effect on international relations if Pravda's editorial staff occasionally denounced the referee who robbed Moscow Dynamos of a last-minute goal instead of saving all their adjectives for world politics.

Still, it's a fascinating thought to imagine someone getting up in Ebbets Field in the middle of the deciding World Series game to read a few potent paragraphs of President Truman's latest speech on the European problem. It's safe to predict he'd attract the attention of everyone within 20 rows. Their reaction would be swift and unanimous. The reader would sit down before another ball was pitched.

There's a time and place for everything — including the next international crisis.

The weeklies say . . .

With very few exceptions, the meals served in "tourist's homes" are sub-standard and the only reason they are given any business at all is because of the fact there is no campetition in any form. Match Plowing . . .

(Continued from page 2)

runs idle, the centre bottom cutting about 2½ inches to 3 inches and the rear bottom about 5 inches deep, depending upon the condition of the land.

Tractor coulters should be set to cut about ½ inch wider than breast of plow and the centre of coulter directly over point of share. When crossing the field the first time, the rear coulter should be set about ½ inch wider, in order that this furrow be of sufficient width. In coming back the front coulter should be set about ½ inch narrower than usual, and it may prove advantageous to release some of the pressure off the front board in order that this furrow may not be too wide and have sufficient depth so that it will meet and match the first furrow; the other one or two furrows being deep enough to bring them up level with the preceding crown furrows. From now on all furrows must be of a uniform size and of correct depth and width.

Tractor Finish

The finish furrows should be a trifle shallower, the last cast-off furrow being from 4 to 4½ inches in depth. It is well to leave 3 to 4 inches of a standing furrow to be turned with the sole furrow. Extreme care should be taken in measuring, in order to have the correct number and width of furrows for your finish.

CAULK YOUR HOME AND SAVE FUEL

Waste in any form is a bad habit . . . this includes the extra fuel you will burn each winter if your home isn't weather tight. Once again winter is just around the corner—now is the time to prepare for it. Weather-strip the doors and windows . . . caulk your house —wherever cold air can get in and heat can get out. Your economy, multiplied by that of your fellow Canadians, will help make it certain that no one runs short. Sensible saving and the prevention of waste in all its forms are essentials of "Good Citizenship".

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citizenship.

Well Known Priest Died at Hawkesbury

Director of St. Joseph Academy at Hawkesbury and a well-known teacher in the Ottawa district for more than 25 years, the Rev. Brother Alban, of the Christian Brothers Order, passed away unexpectedly at Hawkesbury last week in his 64th year.

The former principal at Guigues School and later the assistant director of Notre Dame College at Hull, Brother Alban was a popular teacher there. Five years ago he became director of the St. Joseph Academy at Hawkesbury.

The funeral was held Thursday at St. Alphonse Church in Hawkesbury. Burial took place at Laval des Rapides, in the cemetery plot of the religious Order to which he belonged.

FAMILY BEREAVED AT RIVINGTON, QUE.

The Late John McVicar

Rivington, Que. — Sympathy of the community is expressed to Mr. and Mrs. Victor McVicar in the loss of their son, John, who passed away after a short illness in the Royal Victoria Hospital, on Friday, September 26. He was in his 21st year.

Born in Rivington, Que., John was well known for his cheerful disposition and ready smile, and was always active in the life of the community. Of late months he had been employed in Montreal, prior to his return home in August.

He leavees to mourn his loss his parents, three sisters, Freda, Stella and Elsie, and four brothers, Fraser, Arthur, Gordon and Alvin.

The funeral took place on Sunday last from the home of his grandparents, Mr. and Mrs. Henry Trineer, Calumet, to the Calumet Anglican Church, where service was conducted by the Rev. Ralph Turner of the Point St. Charles Baptist Church, assisted by the Rev. A. E. Hawes of Grenville Parish. Two favorite hymns of the deceased, "Will Your Anchor Hold?", and "What A Friend", were sung, and a solo, "Have Thine Own Way, Lord", was rendered by Miss Frances Balmfirth, of Montreal. He was laid to rest in the Calumet Cemetery, with Robert Todd, Gerald Trineer, Robert Leacock, Bud Tomalty, Leslie Pratt and Julien Julien as pall-bearers. Many floral tributes testified to the esteem in which the young man was held.

Correction

In an obituary of the late Mrs. Margaret Egan, whose death occurred recently at East Milton, Mass., the name of Mrs. Edward Morrison was omitted from the list of relatives. Mrs. Morrison, of Lachute, is the late Mrs. Egan's only surviving sister.

Couple in U.S.A. Died Within Short Time

Polio Victim Builds Successful Business

Nanaimo, N. C. (CP) — George Watson, 34, who lost use of both legs due to polio, triumphed over the disability and today owns a retail hardware store and a shoe store here.

Watson came to Nanaimo planning to go into the dairying business when he was stricken by the dread disease. With a wife and two children to support, he determined to make the best of a tragic situation.

He obtained shoe-making equipment, trained himself in cobbling for a few months, and hung out his shingle. Cobbling proved so profitable that he bought a hardware store as a sideline.

AMONG THE CHURCHES

Choral Activities Among United Church Groups At Brownsburg

Brownsburg—At the re-opening of the Young People's Union on September 22, plans were discussed for the coming season, and the group accepted a proposal for choral training. This idea was put into effect at the meeting last Monday evening, following devotional exercises and business items — with the introduction of Mr. Earl Morrison, of Lachute High School, who tried out the group in part and unison singing tests. . . . A Christmas concert will form part of the choral training each Monday evening beginning at 7.30. The meeting will be open at 7 p.m. for devotions and other items of interest to the group. The opportunity for this training, as well as the regular meeting, is offered to all young folks who might not be otherwise profitably engaged on Monday evenings.

The men's rehearsals for the Anniversary gatherings are progressing favorably under the leadership of Messrs. S. Rose and H. Barrie, accompanists on the organ and piano respectively. This, together with the direction given by Mr. W. Norman, of Montreal, who meets both the mixed choir and men's group each Thursday evening, will contribute much to the events now being arranged.

Two-Day Conference On Industrial Safety

(Continued from page 1)

"The first day of employment is considered as the time opportune and suitable; and there should be an informal chat with beginners, which should include items such as — the way to prevent accidents; a study of the job to be performed; the necessity of mechanical guards; the cost of accidents; and above all, the value of keeping intact the most important machine in the world, that of the human body. Any new employee would soon realize his duty, not only to his employer but also to his family and to the community.

"I believe", continued the speaker, "that a great weapon against accidents has not been used. In order to sell their manufactured products, industry has organized a sales staff. Salesmen have first studied the manufacturing processes and checked every item in order to fully know the product and be in position to correct any defect. The same thing should apply in training of employees — in order to assure not only production, but also the goodwill and cooperation of every worker.

"In view of the ever-increasing toll of industrial accidents, safety promotion should be considered as a national emergency, and it should be just as important to give a course of instruction to the worker as it is to educate him on the questions of health or public interest".

Following this, the Association representative awarded the Department of Labor trophy to C-I-L Ammunition Division, of Brownsburg — which trophy was won by C-I-L in the 1946-1947 Inter-plant Safety Competition, with an accident frequency of .6% and a severity of .03%; the plant operated 1,762,935 han-hours with one accident involving loss of time.

Hon. C. J. Arcand

The former Minister of Labor, Hon. C. J. Arcand, was of the opinion, socially speaking, that it is "everybody's duty to protect the lives and limbs of our fellow workers; and since we have been taught that we are at all times 'our brother's keeper', how could we remain indifferent and leave uncorrected any hazards which might become a contributing factor to accidents. Thousands of 'talents' have been lost because of a fatal accident to the head of the family. The family of such victim has lost immeasurably, and so has society as a whole. And if we are to deal with accidents from a humanitarian point of view, apart from the loss incurred in dollars and cents, down deep in our hearts something must remind us that we must always be on the alert, and strive to do our utmost to prevent accidents".

Thanks to the speakers was voiced in behalf of the audience by Philippe Roy, manager of Dominion Shuttle Co., and the chairman invited some of the representatives of industries among the gathering to express themselves on what they felt they could accomplish towards accident prevention.

Workers' Safety Rally

An industrial workers' Safety rally was held on Friday in the Lachute Auditorium, when the same speakers addressed the assembly. These brief "pep talks" were supplemented by the showing of safety films. Many valuable prizes were distributed, these have been supplied by local industrialists. The moving picture program was under direction of E. Fontaine and C. Toupin, in charge of the Safety Association's school car. The success of the two-day conference was largely due to E. E. l'Abbée, district representative of the Association.

"SHIP THE SAFE WAY"

In tune with the tempo of modern times BOYD'S LACHUTE EXPRESS LTD. continues to expand its fleet, until at the present time it consists of 25 units, with still another 26 ft. trailer yet to be delivered.

With the redoubling of freight due to their recent acquisition of the Montreal-Hull permit of Frank McKinnon Transport, Buckingham, even this extensive rolling stock will have to be increased continually in the future. . .

At the helm of this large fleet is Nat Boyd, President. Jack Davis, General Manager, serves as first mate, ably assisted by Miss Mariette Joly. Rex Ball also helps "keep them rolling" in Lachute. Burrill Todd, Fleet Superintendent, has a tremendous responsibility in seeing that every unit remains in a roadworthy condition at all times. Fred McLeod, Montreal Manager, directs the steady stream of freight through Montreal, in his usual capable manner, aided by Art Paquette. The Buckingham office is in charge of Frank McKinnon.

Walker Scott, senior employee, has been driving for the Company for 17 years, during which time he has amassed a total of over half a million miles. Following in point of seniority come Carl Demerse, Leo Larocque, Percy Griffith, Gordon Ritchie, Don Reilly and Marcel Desjardins, on the various highway units.

In Lachute, George Cox and Paul Jacobsen "deliver the goods", while amiable Archie Gordon handles the Brownsburg end. The late Fernand Pomminville was one of the Company's key drivers. In Montreal, Real Ré, Charlie Crane and Mel Noble handle the pick-up trucks, while Jack Neill loads the trailer lots. Bobby Gordon is responsible for the checking and transferring of freight at the Lachute warehouse.

The slogan of Boyd's Lachute Express has always been — "Ship the Safe Way" — and no effort is spared to see that this high standard is maintained at all times.

Boyd's Lachute Express now offer their services on the following points --

EVERY LONG DISTANCE operator has every telephone literally at her fingertips. Through her switchboard and over a network of lines and cables, she reaches out across the country — or across the world!

Every month we are adding some 10,000 new telephones, catching up with unfilled orders as materials become available. More telephones mean more calls — both local and long distance. To-day our operators are handling more long distance traffic than ever before.

Our aim is continuous improvement — better service. More service plus better service — and always at the lowest possible cost — means greater value to every telephone user.

Major Fire Hazard

"Do not use kerosene or gasoline to start fires in stoves," warns the National Fire Protection Association. "Flammable liquids, especially gasoline, are treacherous in that they may be used many times without accident where atmospheric conditions may not be right for an explosion. But properly mixed with air, the explosive power of a pint of gasoline has been likened to that of two sticks of dynamite."

Mabel

Mr. and Mrs. Kenneth Murdoch and little son, Grant, also Mr. and Mrs. George Lawson and daughter, Ruth, were Sunday guests of Mr. and Mrs. Archie Murdoch.

Mrs. James Black and children, Helen and David, spent Sunday in East Setlement with Mr. and Mrs. David Black, who have recently returned from Foam Lake, Sask.

Mr. and Mrs. Murray Nason, of Belleville, Ont., visited Mr. and Mrs. Perley Clark recently.

Mr. Cecil Clark spent Sunday in Montreal, visiting Mrs. Clarke at the Royal Victoria Hospital.

Mr. and Mrs. Thos. MacCullough, of Montreal, visited Mr. and Mrs. Geo. Murdoch on Wednesday of last week.

Lost River

Mrs. Felix Egner returned home after spending a week with her brother and sister-in-law, Mr. and Mrs. Gordon Richie, in Lachute.

Miss Barbara Johnstone spent the week-end visiting her parents, Mr. and Mrs. H. Johnstone, at Brownsburg.

Mr. and Mrs. Neil MacCrimmon, Eleanor and Earl, of Three Rivers, spent five days last week visiting with Mr. and Mrs. Rod MacMillan, also with Mr. and Mrs. Ken Dewar at Lakeview.

We are sorry to report that Mrs. Elmer Dewar is a patient in Dr. Kelly's Hospital at Hawkesbury.

Miss Flora MacLeod, of Gale House, visited her mother, Mrs. C. McLeod, for a few days last week.

Poppy Poster Competition

So that the memory of Canada's fallen heroes may be forever fresh in the minds of the growing generation, the Canadian Legion, B.E.S.L., has announced a Poppy Poster Competition among high school students. It is planned that the winning entries will be exhibited in each province and will also be used by the Legion in their poppy publicity.

The poppy poster should interprete in either color, or black and white the message of the poppy. Entries should not exceed 12" x 15".

Information about this competition can be obtained from any Legion branch.

FOOD FOR BABIES

Journal Urges Sale Of Margarine

Latest argument voiced against legalization of the sale of margarine in Canada is that it is a synthetic product, reports Canadian Grocer. If this ban on margarine is continued because it is synthetic, then what about the scores of other synthetic products on the market in the food industry and elsewhere, asks the grocery business paper.

"Is shortening a synthetic product because it is largely made from imported vegetable oils?" inquires a Canadian Grocer editorial. "What about all the synthetic essences and flavorings for drinks that are freely sold in Canada?

"Canada appears to be the only country on the globe that won't permit its production, importation and sale", states the trade journal.

Lachute Boy Scouts

Lachute Scout Troop got off to a good start early in September with a new slate of officers, as follows:

Scoutmaster, J. N. Robinson.

Assistants, S. Milnes and C. Rapson.

Troop Leader, Gordon Jamieson (King's Scout).

Quartermaster, Donald Barbour.

Wolf Patrol Leader, Keith Wilson.

Crow Patrol Leader, Otis Stewart; Second, Bob Giles.

Fox Patrol Leader, Victor Shearsmith.

Eagle Patrol Leader, Lester Kelly.

Lion Patrol Leader, Grant Riddell.

Bulldog Patrol Leader, George Barker; Second, Don MacRae.

The roll now stands at 36 after nine Cubs and four new boys were inducted into the Troop last week by District Commissioner C. L. Duncan. There is room for more, and any boys wishing to become associated with the Boy Scouts should get in touch with the Scoutmaster or Troop Leader.

A full season of activities is promised for the Scouts, including Church and Remembrance Day parades, hikes, Hallowe'en party, parents' night, and instruction in all matters pertaining to Scouting.

Lachute High School Opening Exercises

The High School opening exercises will be held Friday evening, October 3, at 8 o'clock in Lachute Auditorium. The presentation of prizes will be a feature of the program. All parents and friends of the school are invited to attend.

"ALONG THE FAIRWAYS"

By Lachute Golf Club's Special Contributor

After two weeks of absence, this is almost "hail and farewell". —Not quite farewell, however, since the golfers around these parts have one more fling before giving way to time and the changing seasons. Be on hand for the big Closing Tournament, Sunday afternoon, October 5. Play will be in two-ball mixed foursomes, and you may make up your own quartets or arrange them after you arrive at the clubhouse. Tee-off time is 1 p.m. sharp. — See you there next Sunday!

Dinner will be served at the club after the tournament, and following that, prizes will be distributed for the year's events.

• • •

Speaking of the changing seasons reminds us that unusually hot weather held up the playing for the President's Prize for Ladies. Not more than a few weeks ago, either. However, the ladies closed out the season last Wednesday, September 24, with a field day somewhat dampened by late afternoon rain. At the close of activities prizes were presented for the competitions of the afternoon, as follows:

For Wednesday, September 24 —

Approaching Competition : 1st Mrs. F. Barnes, 2nd Fleur-Ange Carriere, 3rd Mrs. Dorothy Rigg.

Two-Ball Foursome (three twosomes tied with net 87) — Mrs. Peg Jamieson and Miss Ruby Parsons. Mrs. S. Milnes and Mrs. R. Coté. Mrs. F. Barnes and Mrs. J. McIndoe.

Putting Competition — rained out.

Presentation of prizes for the season's fixtures followed dinner at the club and a closing meeting.

Ayers Cup — Bobby Ogilvie (by default from Mrs. P. Valois).

J. S. Drew Trophy — Mrs. P. Valois, winner; Bobbie Ogilvie, runner-up.

President's Prize — Mrs. Joe Martin.

Ringer Competition — Class A, Bobbie Ogilvie, 31. Class B, Fleur-Ange Carriere, 41.

Lowered Handicap — Shirley Leggett, who cut her handicap from 34 to 28. (We heard the other day that Shirley was on No. 4 green in two, on one of her rounds. This is a feat which merits honorable mention, or mention in despatches, or something like that.)

• • •

The inter-club matches between Lachute and Islesmere were played Sunday, September 14, at Lachute, and last Sunday, September 28, at Islesmere. . . . Islesmere took the trophy by a comfortable margin. The September 14 play has been previously reported under separate cover. That was the day our club champion turned up with a disgruntled countenance and an eleven on No. 9. We had the Art but not the science!

By all accounts, those who turned out for the Islesmere show last Sunday had a very good time indeed, and our members returned with a fair share of the prizes. The list is not available as we go to press. We picked up odds and ends here and there. Jack McIndoe, who has lost his shirt more than once in a golf game, came out this time one shirt to the good. Jack Reade won a couple of prizes, one being for the longest drive. Bobbie Ogilvie took the long drive for ladies — a 220-yard wallop.

• • •

Congratulations to Nick Besner, our assistant pro, who copped second place in the C.P.G.A. Zone 2 Assistant Pro Tournament, on Thursday of last week. Nick goes on to the Canadian Assistant Pro Championships at Cataraqui, Kingston, this Thursday.

• • •

Jack Archer and Bobbie Ogilvie put up a very creditable show at Summerlea on September 22 in the Lady-Pro Tournament, when they tied for second place.

• • •

We ask all hunters to please proceed with caution. If you see something bounding along the fairways it may be a deer — and then again it may be a late season golfer trying to keep warm!

Heavy Roll for Criminal Assizes, Opened Tuesday

SPECIAL PANEL OF JURORS FOR TRIAL OF FIVE STRIKE AGITATORS

The Criminal Assizes for the District of Terrebonne were officially opened on Tuesday, with Mr. Justice Phil Cousineau, J.S.C., presiding. Georges H. Héon, K.C., will act as senior Crown Attorney, with Lucien Thinel. The first case has been set for October 10, and the last case on the roll will not be called before December 15. This means that jurymen assigned for the term will have to remain at the Court's disposal for a period not less than two and a half months.

Among important cases to be tried will be those of Leon Thibault and Fernand St. Louis on charges of manslaughter; Paul Hamelin, Albert Martin, Jean-Paul Goulet, Jean Durocher on individual charges of armed robbery; Omer Lacasse, P. E. Ouellette and Armand Lacasse, on separate charges of seditious libel.

Of considerable interest locally will be the trial of Madeleine Parent, Kent Rowley, Azellus Baucage, Georges Bédard and Edouard Gauthier, on charges of seditious conspiracy arising out of the Lachute strike. Trial date has been set for November 17. With the possibility of mass challenges for cause against the prospective jurymen, in view of the wide publicity given to the strike, the Crown has sought and obtained an order from the Court to call a special panel of 150 jurymen for this particular trial.

Another interesting angle is that Crown Attorney Héon has asked the Attorney-General to be relieved of his duties insofar as this particular case is concerned, and Noel Dorion, K.C., of Quebec, will act as special Crown Attorney.

OFFICERS NAMED, CATHOLIC CONVENT WOMEN'S GROUP

L'Amicale Ste. Antastasie held its annual meeting Saturday afternoon at the Lachute Convent, where a great number of former pupils and teachers were gathered. The following executive was elected for a three-year period :

Honorary presidents—Mrs. L. P. Sauvé, Mrs. D. A. Duchesneau, Mrs. J. F. Lavigne.

Honorary Counsellor — Miss Aline Charlebois, R. N.

President — Miss E. Mariette Joly.

Vice-President — Mrs. E. M. Jones.

Secretary — Miss Magella Filfe.

Treasurer — Miss Madeleine Guénette.

Counsellors — Miss Fleur-Ange Carriére, Mrs. Hervé Fournier, Miss M. Thérèse Raymond, Miss Adéla Carrière, Miss Blanche Trichard, Miss Gisèle Clément.

Mrs. Raoul Savage for the Montreal Section.

Matters Before Brownsb'g Council

Brownsburg—An application to the Brownsburg Council for a water line which would entail digging the surface of the asphalt on Route 31 in the neighborhood of the post-office, would — the secretary stated — require a motion of the council to go before the Roads Department at Quebec. One of the councillors thought that a formal application for permission would be sufficient, but it was learned that before such authority was granted the Department required an accepted cheque to cover probable expenses. Arrangements were made to have the motion ready, but meanwhile the mayor was to apply to the provincial office in Lachute for instructions on procedure.

A letter was received from Georges H. Héon, K.C., expressing dissatisfaction on behalf of a client at the manner in which the sidewalk in front of his premises was erected. The letter asked to have the matter rectified or court action would result. Councillor Lafleur stated that the adjoining resident was also dissatisfied and wanted to have the entrance to his driveway reduced from the present height of 11 inches. The council decided to accede to the demand and endeavor to satisfy the people concerned. Councillor Somers wanted a legal opinion on the position, so that such a contretemps could not arise in the future. Councillor Somers also proposed a motion, seconded by Councillor Golphin, that the contractor, Brisson, be asked to implement his contract before October 14 or the contract will be determined.

Bronze Plaque in Auditorium Will Honor War Dead

LIST TO BE FINAL THIS SATURDAY

Plans are materializing to erect a bronze memorial plaque, inscribed with names of the fallen heroes from this town, in a conspicuous place in Lachute Civic Auditorium. It is designed to have this plaque in readiness and officially unveiled at the Remembrance Day ceremonies, November 11 next.

In view of these arrangements, Mayor Alex Bothwell voices an urgent request that townsfolk communicate any names omitted in the following list, of Lachute servicemen who lost their lives in the recent war — the list to comprise men whose homes were within the Town Corporation limits at time of enlistment or during the war period. Any doubt on this subject may be discussed with Mayor Bothwell (phone 145) or with Fernand Legault (phone 60), to whom the names should be referred not later than SATURDAY, OCTOBER 11.

Following is the list to date, as furnished by Mr. Legault, secretary of the committee in charge of the project:

Anderson, Norman
Belair, Gaetan
Boyd, George
Clark, Garfield
Cruise, Lloyd
Drew, Cyril
Gall, Hugh
McKenzie, Cameron

Firewood Prices Increase

Increases in the cost of commodities are now so prevalent that no one could consider them as news; but with the universal converting to oil, it was expected that firewood would be a drudge on the market. Not so. The difficulty and uncertainty of obtaining oil supplies became so exasperating that many users discarded their burners and returned to firewood. As the demand went up, so did the price.

School Opening

The annual school opening was held on Friday evening and prizes distributed. There was a very large gathering of parents and pupils. The entertainment feature consisted of two cartoon films, which were much enjoyed. The Women's Institute donated several books which were offered as prizes, and the School Board gave a large number of books to those obtaining the highest percentage of marks in each grade.

A Smash Hit

When coming down towards Brownsburg the school bus driven by Mr. Morrow ran into a tree at Campbell's dam, and was very badly smashed up. Fortunately it was not on its usual mission of transporting children to school, the vehicle being unoccupied at the time.

Fire Chief Active Campaigner in "Prevention Week"

FIRE ALARM EXERCISES STAGED IN FOUR LOCAL SCHOOLS

In connection with the national Fire Prevention Week campaign, forceful posters have been placed around town, and other means to stress the theme have been promoted by Fire Chief Geo. Y. Deacon, Police Chief D. Villeneuve and the fire brigade.

The parade of fire equipment with banners was staged Monday evening, and during the week fire drill has been held in the four Catholic and Protestant schools within the town. The results of these tests drew approval from the Fire Chief. A notable example was the sounding of an alarm at Ste. Anastasie Convent at 9.15 p.m. on Tuesday, after the regular hour of retirement, when it is reported the 25 nuns and 40 resident pupils vacated the building in 1 minute 8 seconds.

This evening Fire Chief Deacon will address the Rotary Club at Brownsburg to further emphasize the Fire Prevention message.

By apt coincidence, the chimney-sweeping crew is now making the rounds of the town.

Organize Boys' Clubs at Arundel

(Our District Correspondent)

Arundel — A new club has been formed for the boys of Arundel under 12 years of age. Under leadership of Mr. K. Fenton, the group will call themselves the "Pathfinders".

All boys are welcome to this club, and will find interesting programs to occupy their time. The gathering had its first get-together in September, and had as their first program a paper-chase, followed by a ball game. The club will meet every Saturday afternoon at 2.30 o'clock on the church grounds.

A similar venture is being formed for boys over 12, and all interested are invited to meet on Saturday evenings at seven o'clock in the church basement. This group will also be under leadership of Mr. Fenton.

A report of the Argenteuil Plowing match, and other news, is held over for next issue through lack of space.

Closing Activities At Golf Club Well Attended

FINE AUTUMN WEATHER HELPS TURNOUT

With the weatherman apparently in a mood to make amends for holding up the season's opening last spring, a large number of players turned out last Sunday to take part in Lachute Golf Club's Closing Tournament. Activities consisted of a nine-hole two-ball foursome (mixed) event, with tee-off time at 1 p.m. After their match rounds, many of the members took advantage of the fine day to take another turn around the course.

A turkey supper was served in the club house in the evening, and proved one of the largest closing banquets to date. Under the able direction of Roger Gravel, club captain, prizes were distributed for the year's fixtures. Mr. Gravel outlined briefly some of the problems which will face next year's Match Committee. The club president, Gilbert E. Ayers, spoke concerning future plans for the course, and while praising those members whose efforts had helped make this year a success, added a plea that all members be ready to lend assistance when called upon to do so.

Jack Archer, club pro, thanked the members for their co-operation during the past season.

An event of the evening was the presentation of a purse of money from the members to Mr. Archer's assistant, Nick Besner. The donation was in recognition of the honor Mr. Besner had brought this club by his victory last Thursday in the finals of the Canadian Assistant Professional Championship at the Cataraqui course, Kingston, Ontario.

Prize list for the closing tournament and season's fixtures will be published next week.

School Opening Ceremonies Play Effective Part in 'Public Relations'

Importance of Parent Co-operation Stressed before Capacity Audience

Prize Distribution at Annual Function

The Lachute High School opening ceremonies and prize distribution, held last Friday evening at the Auditorium, drew a capacity audience; and in matters of community education the occasion might be counted an effective gesture in "public relations". Parent-teacher-pupil collaboration was a theme stressed by the various speakers; and the insight they gave into the aims and procedures of the school program, undoubtedly contributed something towards that ideal.

Seated on the platform, besides the school board and principal, were representatives from various sections of the community — the clergy, the civic fathers, the Women's Institutes, the prize donors, the Catholic school board, the Central and the St. Andrews East Protestant boards.

The platform was tastefully decorated in the school colors. Interludes of entertainment were provided by two choral groups — juniors in character songs, under direction of Miss Elva Ness, and Mr. Earl Morrison's senior choir in part songs — all very creditably presented.

School Board Chairman Presides

In opening the ceremonies the chairman, James W. McGibbon, referred to two newcomers on the board — Ross Muir, who had since been entrusted with the problems of transportation, and Douglas Bradford, former chairman of the Chatham School Board, now consolidated with the Lachute school district.

The school enrolment, said Mr. McGibbon, was the highest on record, with almost 500 pupils attending this year, in a building normally intended to accommodate half that number. Plans for the school extension, he said, would be in the hands of the Commission sometime this month, to be subsequently taken up with the Department at Quebec.

"As the school goes, so goes the community", quoted the chairman, who reminded his listeners, however, that it is the school spirit and not the building, that makes a great school.

The importance of parent co-operation could not be over-emphasized, added the speaker, and he urged that all parents take occasion to confer with the teachers at the various parents' nights arranged for this purpose.

In introducing the school principal, Chairman McGibbon paid a sincere tribute to Mr. F. H. Royal for his achievements since assuming that office.

Principal's Address

Mr. Royal cited some interesting figures. The pupil enrolment last year was 467, and the total per capita cost for transportation and education was approximately $117 — which compared favorably with the other rural high schools and was lower than average costs in the city areas. Out of the graduating class of 29 last year, 21 had successfully passed in the June examinations, and four of these pupils were now attending university. There were 22 teachers at present on the staff — 17 women and five men.

"We naturally aim for academic standing", said Mr. Royal, "but that is not our ultimate aim. The school exists primarily for the pupils, and it is qualities of character, health and general well-being which we seek to foster in the pupils. . . 'Citizenship' is to be our watchword at Lachute High School this year; our ideal is to lay the foundations of future citizenship in Canada."

Mr. Royal elaborated on the Department of Education's pass system — the required standard having been raised to 60 per cent; also on the rating system to be presently applied in reports of the pupils' progress. The designations will be similar to those employed by the Department in publishing the June examination standings.

The "guidance program" in Grades IX and XI, conducted by A. E. Thompson, Grade XI teacher, would be extended to other grades. This was not exclusively vocational guidance, explained Mr. Royal, but rather a personal study of the child, to develop special abilities, to overcome handicaps, and generally speaking to help the pupil "grow up".

Commissioner G. F. Calder then voiced a sentiment of thanks to the prize donors, also presenting a letter of regret from Georges H. Héon, K.C., M.P., on his inability to attend this function.

Mrs. Geo. Y. Deacon was called upon to reply, on behalf of the donors. As president of the Lachute Women's Institutes, she affirmed that her organization

Brownsburg—Work has started on the bridge at Dalesville which toppled into the river a year ago. Steel girders of considerable strength will replace the wooden beams of the former bridge, and it is expected that when the work is finished a lasting and graceful structure will serve to improve this section of Route 31.

Reporting on the Weekly Editors' Convention Tour to Pacific Coast

Impressions by Member of the Giles Family who Represented The Watchman at Recent Gathering

— By Lorna A. Giles —

On September 24, approximately 500 weekly newspaper publishers arrived in Victoria, B.C. for their 28th annual convention. The trip out by C.N.R. had been extremely interesting and enjoyable, as all the people in our railway car were convention-bound and old friends. Most of the days we spent admiring the passing scenery and in the evenings we played bridge, read or talked till bedtime.

Our first stop-over was Winnipeg, and after contacting a few old friends by telephone we hopped into a taxi to get a quick look at the city. We saw the shopping, business and residential sections and the old Fort Garry Gate, and in 40 minutes were back aboard the train and on our way again.

Saturday was a sparkling clear day, and for those who had never been west before, the first view of the Rockies was a sight they will never forget. As we pulled into Jasper and saw the towering mountains topped with snow and the bubbling little brooks of turquoise blue, it all seemed just like fairyland.

Our railway car was put on a siding for we were to stay here overnight, and open cars were waiting to take us on a short trip. Our destination was Maligne Canyon. It was a beautiful ride, and we stopped frequently to take pictures of the mountains reflected in the lakes. Arriving at the Canyon we left the cars and began to walk, following a brook which flowed swiftly along its bed of rock. As we proceeded we saw how the mountain stream had cut deeper and deeper into the rock until its bed lay several hundred feet below ground level, and we were told that in the spring the glacial waters flowing downward make it a raging torrent the roar of which can be heard for a great distance.

Leaving the canyon we drove on to Jasper Park Lodge. Although the lodge was closed we were able to drive around the grounds viewing the luxurious cottages, and admiring especially the one occupied by our King and Queen when on their visit here, also the spacious main lodge with its rustic furniture and large stone fireplace. It would have been nothing unusual to see a dog or two romping on the lawn, but when we looked out and saw nine big brown bears on the terrace we could scarcely believe our eyes. Yet there they were, sunning themselves, climbing trees, and playfully boxing one another about

Quebec-Ontario Hockey League Now Organized; Anticipate Good Season

Various Clubs to Play Part of Schedule on Home Rinks, Remainder at Local Arena

— By John H. Dunne —

The second meeting of the newly formed Quebec-Ontario Hockey League was held Monday evening. After months of preparation it required only two conclaves, with two representatives from each of the towns in the league, to reach an agreement on all points. A schedule (to be printed in the forthcoming Arena Annual) was adopted unanimously. It allows four home games for each of the clubs outside Lachute. This will take some pressure off the Arena, but more important still, it will also allow teams to play some of their encounters before a spectator-gathering of 75% home-town fans. All of these clubs have fine outdoor rinks. It is understood that Brownsburg will have a new or reinforced outside rink, due largely to collaboration of the Brownsburg Legion, the Brownsburg Rotary Club and Emile Longtin, new proprietor of Carriere's Hotel. The Burg has always turned out good hockey clubs, and should follow the same pattern this year under the following directorate:

President, John J. Seary; manager, Emile Longtin; asst. manager, W. L. Tessier; secretary, Gordon Elliott; treasurer, G. Léo Leroux.

The new St. Jerome Hockey Club is owned and managed by Pierre Brosseau. He is an old campaigner in the game and has been associated with the development of local players in that town. He is backed financially and otherwise by the leading citizens of that sector. The other new St. Placide outfit, like St. Jerome, have been making preparations to join a league associated with the Arena since last spring, and are the only team in the league allowed to sign players outside their own town, i.e., they are allowed players from St. Eustache, Ste. Therese and Oka, or within that circle. All other clubs are interested only in the development of home-town players — while recognizing however that St. Placide in itself is

Bereavement to Lachute Family

Late Mrs. Arthur Larocque

At her home in the east ward last Friday, the death occurred of Mrs. Arthur Larocque, in her 62nd year. Widow of the late Arthur Larocque—who was prominent in the business and civic affairs of Lachute—Mrs. Larocque was the former Blanche Belanger, a native resident of this community.

She is survived by three daughters, Miss Isabelle, Mrs. Gaetan Guilbert (Marthe), Mrs. Guy Gosselin (Francine), and two sons, Arthur and Guy; also her brother, Joseph Belanger.

To the members of her family and relatives, all well known in this town, sincere sympathy is extended in their bereavement.

Average family expenditure on fuel is about $40 a year for all Canada. Fuel bills for the central provinces and for larger homes will average much more, while farm homes using wood cut on the farm will be much less.

Lachute's Fire Loss Was $12,145 in 1946

Lachute suffered a total property loss of $12,145 in 1946, according to figures given by the Dominion Fire Commissioner in Ottawa. The per capita fire loss was $2.33. Total fire loss for 1945 was $13,395 — the past year thus showing a slight improvement over 1945. Property loss for the whole Dominion amounted to nearly $50,000,000, with 166 men, 78 women and 164 children dead as a result of fires in 1946.

SILVER WEDDING AT RIVINGTON, QUE.

At a family gathering in Rivington last Saturday Mr. and Mrs. John Meyer were honored on the occasion of their silver wedding anniversary. The presentation of a chest of silverware was made by members of their family, and a silver dish from Mrs. Meyer's brother and sister-in-law, Mr. and Mrs. Wm. Currie, of Lachute. Mr. and Mrs. Robt Currie, of Gramont, were also guests on this happy occasion.

Speed the Plow

Admitting that future experimentation and machine development may change the agricultural picture, the facts today are that:

1. Plow substitutes have not proven universally acceptable.
2. Plowing is still essential to soil tilth on most soils.
3. Plowing gives better yields where fertilizers must be used sparingly.
4. Plowing consumes more power and labor than its substitutes which may of course be quicker in preparing soil for some crops.

In spite of this last point may we say "make haste slowly" by keeping in mind the first three facts of soil management as stated above. Then, where your better judgment says "plow", remember that a properly adjusted plow takes materially less power to operate than does one that is improperly hitched or with its bottoms and coulters out of adjustment. To help you make these plow adjustments accurately and conventiently you may secure a copy of a bulletin from the Department of Agriculture, Queen's Park, Toronto, entitled "Principles of Tractor Plow Adjustment" (Circular No. 72, of the Ontario Agricultural College). This well illustrated pamphlet explains in a very easily followed manner perplexing problems of tractor plow hitching and adjustment. — Ontario Agricultural College News

Care of Equipment

By Archie Stone, N. Y. State Institute of Applied Agriculture

Preserving and maintaining the machines on our farms is a matter of national concern. A plow or harrow which breaks down or fails means a gap in the ranks of our food producing machines.

Two essentials in maintaining plows and harrows are lubrication and rust prevention. Rust is the greatest enemy of the plow Rust not only shortens its useful life but a rusty plow cannot "scour" properly; it cannot shed the sticky soil or turn and pulverize the furrows well. Many centuries of thought and effort have gone into the design of our present-day plow moldboards. The curve and shape of the moldboards affect nearly all the qualities of plowing, such as inverting the furrow, pulverizing it and covering surface trash and stubble.

Why Plows Do Not Scour Well

A plow that does not "scour" well is not really a plow, it acts more like a hoe which, when dragged through the ground pushes the soil in all directions. Rusty moldboards mean bad plowing, imperfect seed beds and scanty yields.

There are several reasons for poor scouring, a wrong hitch for instance, coulters out of adjustment, or improper plowing speeds. But rust is the most common cause.

It takes only a little time to protect the plow from rust. Coating the moldboard with oil or grease or special rust-proofing compound will stop rusting and also maintain the mirror-like land polish which the moldboard acquires while plowing. This high polish is necessary for good plowing and light draft. In fact, all the surfaces which make contact with the soil acquire a land polish. Such parts include the share, landside, coulter and jointer and each of these should be carefully protected from rust when the plow is not in use.

Adjustment Is An Art

Adjusting a plow gives an expert a chance to test his skill, for good plowing is, indeed an art. When nicely adjusted the plow slides through the soil with the least possible resistance, turning the furrows evenly and uniformly. Moldboards meet the soil at the correct angle, beams run parallel with the line of travel, the plow is level crosswise and lengthwise. Hubs of the rolling coulters are set approximately above the share point and the coulter should cut well through the surface trash so that such material can be thoroughly covered and mixed in the fresh plowing.

The jointer aids also in covering surface growth and stubble. It should be set deep enough to permit all of its miniature moldboard to work. To cover trash well, this little moldboard also requires a good land polish and it must scour well. If it is rusty, soil will stick to it and good covering will be impossible.

Wheel bearings should be well lubricated. One advantage of wheeled plows over their forerunner, the walking plow, is that the weights and pressures set up by cutting, turning and pulverizing the furrow may be carried on lubricated bearings, if the plow is properly adjusted.

These bearings reduce friction and lessen the draft. But the pressures thus placed on the wheel bearings are complex loads; the rear wheel especially must resist the heavy side pressure against the moldboards. Wheel bearings can carry these pressures easily only when suitably lubricated.

If the levers work easily, the plowman will use them frequently and thus obtain the niceties of adjustment needed for expert work. But if lever latches stick and bind, the levers may not respond quickly enough or their use may be neglected. A little oil on the lever latches, detents and plungers insures free, easy action.

Coulter bearings, too, require careful lubrication. Frequent greasing makes the coulter revolve easily and also seals the bearings against dirt and moisture.

Many Plows Not Correctly Adjusted

Field demonstrations during a four year period by Agricultural Engineers of the New York State College of Agriculture revealed that about 75% of the plows were out of adjustment. The most common troubles were found in hitching.

Late Archdeacon Was Former Rector Here

MARRIED LACHUTE LADY

Archdeacon Herbert Charters died suddenly last Thursday at his home in Sutton, Que., in his 71st year. He had been active in his diocesan duties up to his death. The funeral service was held Monday at Sutton, attended by prominent clergy of the Montreal Anglican diocese; burial was made in Mount Royal Cemetery.

Archdeacon Charters was born in Montreal in 1877. He was educated at Montreal High School, and at McGill University, where he obtained his B.A. degree in 1901. He studied theology at the Montreal Diocesan College and obtained his L.Th in 1902, being ordained priest that year by the late Archbishop Bond.

His charges were Frelighburgh in 1903, and Lachute in 1905 until 1912, during which time he was married to Ethel Maude Simpson, daughter of Mr. and Mrs. W. J. Simpson of this town. In 1912, he became rector of Sutton and Abercorn. He was made rural dean of Brome in 1915, and a Canon of Christ Church Cathedral in 1929. He was made Archdeacon of Bedford by the late Bishop J. C. Farthing in 1933.

Served as Chaplain

In 1931 he was elected president of the Montreal Diocesan Theological College Alumni Association. Archdeacon Charters was a past Provincial Master of the Oddfellows, and a Past Master of Sutton Masonic Lodge as well as a Royal Arch Mason. For some years Archdeacon Charters served as chaplain of the 17th Duke of York's Hussars. He was also a member of the Eastern Star and the Rebeccas in Sutton.

Archdeacon Charters is survived by his wife, of Sutton, Que., a son, Desmond Charters, of Mansonville, and a daughter, Miss Mona Charters, who lives with her parents; three grandchildren; a brother, William Charters, of Holland, Manitoba, and a sister, Mrs. J. E. Ireland, of Buckingham.

Weekly Editors' Tour To Pacific Coast

(Continued from page 1)

the ears. The candid cameras went into action and some thrilling shots were taken of the big fellows sitting up begging for sugar from our fingers.

After this exciting day we were more than ready for a good dinner and relaxation at the hotel. Most of us turned in early, though hesitating a few moments beforehand to watch a full moon rise over lovely Mount Edith Cavell, which we were to visit in the morning. Eight o'clock came early, and by nine we were well started on the 20-mile drive to the mountain. This ride was winding and steep, coming uncomfortably close to a sheer drop here and there; but we all tried to be brave, surmising we had quite a reliable driver! The mountain looked fairly close when we left the cars and started to walk towards it; but it was a long time before the loose pebbles beneath our feet gave way to snow and we were walking on the great ice glacier. We could no longer see the sun, being in the shadow of the mountain, and several of the party started out afresh thinking it would be fun to reach the top of the glacier and touch the sheer cliff. Only two including myself made it, and scrambling up the last few feet on all fours we reached over the deep crevice between mountain and glacier, and took a little pebble from a ledge for a souvenir.

This marked the end of our pleasant visit at Jasper, and soon we were on our train again speeding towards Vancouver. Early Tuesday morning we arrived and were taken by bus to the ferry for the five-hour voyage to Victoria. Fortunately the sea was calm, and after luncheon we strolled about the deck enjoying the sea breeze and throwing tit-bits to the seagulls, which they swooped down and caught in mid-air, one even becoming brave enough to take food from my fingers.

As the ferry docked we could see the lovely vine-covered Empress Hotel which was to be our home for the next three days. After registering we walked out to view the city and were thrilled with what we found. The streets were clean and well kept, and on each lamp post were two large baskets of flowers, which are put up in the spring and bloom all summer long. The homes were attractive and neat, and very few were without a colorful garden. Especially attractive and unusual to us were the large bushes of holly. There were many things to see and do in Victoria, and fortunately the ladies were able to get around while the men were attending business sessions. On Wednesday afternoon we were taken on a bus trip to the lovely Butchart Gardens. These gardens were built up by Mrs. Butchart, a great lover of flowers, over 30 years ago. Her husband had a large cement plant, and while looking at an abandoned quarry one day, she conceived the idea of turning it into a sunken garden. She began by putting several feet of rich earth in the bottom and planting flowers and shrubs, and now, what was once a desolate pit of rock has become one of the prettiest parks in the vicinity. A pleasant afternoon was spent walking about the grounds, admiring and learning about the great variety of flowers grown in the gardens.

(To be continued next week, when we hope to have other pictures to show of the trip.)

"THE MOOSE"

Based upon a picture painted especially for Carling's.

This is one of a series of illustrations on the subject of the Conservation of Canada's natural assets designed to emphasize the fact that the beauties of unspoiled nature that we enjoy today are a precious birthright which we must protect for tomorrow.

† COPYRIGHT BY CARLING'S, 1945

"Give Him a Sporting Chance"

Wily, courageous, resourceful, the Canadian moose asks of mankind only a sporting chance of survival. In the vast forests which are his home, he is king—able to overcome most of the dangers that beset the creatures of the wild.

His sharp hooves and antlers are a match for predatory wolves—his thick coat and mighty frame equal to the hardest winter—his skill, speed and endurance are such that he can be expected to survive even the high-powered rifle of the huntsman — *providing that the hunting is carried on according to the reasonable and just laws of conservation.*

Things that he cannot survive are indiscriminate hunting, the destruction of his feeding grounds by fire, and the disturbance of the "natural balance" by which Nature protects all wild-life. The destruction of beaver causes marshes to be drained and the moose are deprived of their best feeding grounds. The destruction of smaller game will cause wolves to turn in ravenous packs upon deer and moose. Thus we see how conservation protects not one, but all wild creatures.

Conservation is not just a doctrine to be preached to hunters and fishermen. It is a vital part in the continuance of our national economy, and must, of necessity, fail if its measures do not receive the full support of all Canadian citizens.

Musty

IT WAS in the city of Halifax during the last federal by-election, that political campaigners were required to post bonds before placing election posters about the city — as a precaution to ensure their removal after the contest.

We do not care to think this community is more lackadaisical than other sections of the countryside, but the number of outdated posters left in store windows and on telephone poles is really amazing. Thus the Lachute Spring Fair is still heralded in late autumn, and dance events long after the occasion has been forgotten, with the colors long since faded on these placards. One classic example is the Victory Loan sign which has graced the wall of the Town Hall for the past two years (removed this week on The Watchman's instigation). Surely at the seat of civic dignity, there should be some proud incentive to keep up with the times. Storekeepers can help too, and if only for appearances' sake, remove the entertainment posters, auction sale bills, etc., which they are kind enough to display on their premises.

Hunters, Fishermen – You Can Help

THE SEASON has arrived when the game law violator has the opportunity to do great damage to our resources of fish and game. It is easy to net trout off spawning beds. It is easy to attract and shoot deer and moose with jacklights or in the deep snow of winter. It is easy to kill ducks and geese with live decoys or at forbidden hours. However, this illegal hunting and selling of fish and game simply means that over 125,000 men and women in the Province of Quebec, who enjoy these sports, will see them disappear, in addition one of our greatest tourist attractions will be lost. Right-minded sportsmen are asked to help by communicating information of law violations to the nearest inspector or local game warden.

Just Good Neighbors

CANADIANS are variously amazed, amused or nettled at the little most Americans know about this country.

Perhaps they should not be unduly concerned, for balancing the lack of knowledge is an almost sub-conscious goodwill towards Canada.

This goodwill wasn't won by turning handsprings for publicity's sake, but with due modesty may be taken as a tribute to the general solidity of the national character which in the long run makes itself felt across the border. "They take us for granted", is a common expression among Canadians assigned to the United Statees. "We don't have revolutions, we don't make trouble, we're just comfortable neighbors".

Canadians do what they think necessary in speaking for their country when abroad. They don't, however, carry chips on their shoulders or make themselves bores on the subject. Part of company manners when away from home is to be wary of discussing the affairs of the country which is your host. Otherwise someone will quickly ask, "What business is it of yours?"

A Canadian's native reserve helps him. Otherwise he especially would find pitfalls in the United States. He is Canadian first, but he is also North American, and fits so easily into the Amercan scene that he is likely to find himself taken for an Amercan most of the time.

A returning Canadian newspaperman reports that he has found himself in the midst of heated United States domestic arguments and been criticized for lack of responsibility when he withheld his opinion. If he stated he was not an American and wished to stay out of it, he might be asked:

"What are you, English?" (Asked, alas, often with a slight tone of reserve)... He replies: "I'm Canadian"... "Oh, well, that's just the same as us". He might then express his view if he wished, and on sounder ground than if it had come out later that he was an alien in the land.

The nearest to danger in the experince of our returning newspaperman, was when he tried to keep peace between a Georgian and a North Carolinian. In aftermath he figured he was lucky to get out of that one without pistols at dawn.

October's Pockets

AUTUMN brings another blessing which hitherto has passed unsung. Many of our male readers will share these sentiments so aptly voiced in "The Printed Word" . . . .

In October the man of the temperate zone can put his coat on again and get some work done. During the warmer weather he has been frustrated by the lack of pockets. His shirt has only one pocket — two at the most — and there are only four or five trouser pockets. No man can hope to carry much equipment in so few pockets. His pipe is almost always missing and has to be hunted down before any work can be done. Then his tobacco pouch is missing. No! here it is in his hip pocket. Well, where are those spectacles? Left them in the car — probably along with the key ring and the card case and that list of things to get at the hardware store.

In October a man can carry his working kit with him. October brings out the waistcoat, which has four pockets and even in rare specimens of waistcoats a fifth pocket on the inside, an excellent place to carry money and lose it forever. Then there is the jacket. A jacket is not reliable in summer. It is eventually remembered to be hanging on the back of a chair in another room or in the garden at Aunt Sadie's. October's jacket is much more likely to be nearby when a man needs to go through its pockets. Besides, there are the topcoats for really bulky pieces of luggage.

In October, contentedly laden with his belongings, a man becomes almost as efficient as a woman. Women scorn pockets. They carry handbags and assert that men look funny scratching through twenty and more pockets for the theatre tickets. Women prefer to lose everything in one place.

Visitors' Criticism

FREQUENTLY we read in the newspapers statements by British visitors to the Dominion criticizing the wastage of food in Canada. Recently an Englishman expressed his indignation at seeing a Canadian restaurant patron leave a bun after finishing his meal. The Britisher said he was so angry he wanted to strike the man, and that the act was nothing short of criminal. Realizing the serious food shortage in Britain, we can understand the Englishman's attitude. However, the failure of a Canadian to eat a bun won't have any effect on British diet,

What the ordinary man in Britain cannot understand, evidently, is why they are faced with such terrible shortages of food and clothing, while in Canada and the United States there is such an abundance of everything. The reason for the British plight is that Britain does not have enough dollars to purchase all that she needs. The American loan has disappeared all too quickly — a small part of it unfortunately, having been used on the importation of Hollywood films rather than on food.

Canadians are most anxious that Britain regain her prosperity as quickly as possible. The Dominion has given tremendous aid in the shipment of supplies, while individuals are sending more food parcels than ever before. And despite the fact that a Canadian may waste a bun at his meal, we are vitally concerned with British recovery and want to help all that we can.

DURING the war we wondered what newspaper editors would do for headlines in the new era of peace. They don't seem to be having much trouble yet.

A MAN 95 years of age once tried to buy insurance protection on his life. He was informed that at his age he was a poor risk. In reply, and with some heat, he pointed out that less than one half of one per cent of the population die after they are 95 years old.

"Dedicated to Freedom"

NATIONAL NEWSPAPER WEEK EDITORIAL

Specially Written by Robert U. Brown, Editor of the Magazine "Editor and Publisher"

Not so long ago in terms of history, a homicidal maniac gifted with silver tongued oratory drove his bloodthirsty hordes across Europe and succeeded in plunging the world into history's most devastating war. Individual liberties, freedom of all kinds vanished wherever his foot trod.

The world will wonder, how could such things happen in a modern civilization?

The answer is simple. It happened because this man understood one thing: control the press and communications facilities and you can control thought: that accomplished, all democratic processes can be eliminated at will.

There were some great newspapers in Germany when Hitler was running an underground movement, meeting in beer halls, developing his strong-arm methods. Hitler talked a good game; he promised much for the future; he persuaded some of those newspapers to support him. Their editors agreed that his program was good for Germany, that a few liberties and freedoms would have to be sacrificed for the good of the country.

When Hitler rode into power with the help of an uninformed electorate and an unsuspecting government there were still powerful newspapers who could have exposed him and his gang of cutthroats. But it was too late. Those last few who dared to speak out against him were quickly silenced. Their voices were added to the other newspapers and radio stations which became merely the amplifiers for his "wisdom".

The press of Canada will not forget what happened in Europe. Actually it did not need this example to be forewarned. A similar thing almost happened, and could have happened in the United States if it had not been for the vigilance and fearlessness of some newspaper editors.

We're speaking of Huey Long, the potential dictator. He had Louisiana by the throat and was taking steps to silence opposition from the newspapers by taxing them out of existence when those papers won a costly and lengthy Supreme Court battle. No one knows what might have happened, how far Huey Long might have gone, if those newspapers had not been alert.

Individual liberties are a cherished thing here which set this country apart as the mecca for oppressed peoples everywhere. And yet, these liberties and freedoms are taken for granted by the vast majority of the people who are neither interested nor vocal enough to recognize and fight the threatened encroachments on those rights.

The press of Canada is the medium dedicated to that proposition. National Newspaper Week gives us the opportunity to rededicate ourselves once again to that purpose.

Freedom of the press is not an intangible prerogative granted to the owner of a printing press. It is a guarantee to the Canadian people. Freedom of the press belongs to you. It is merely exercised in your behalf by the existing publishers. It includes your freedom to read and hear whatever you wish, the same as it is your privilege to buy the literature you wish, to agree or disagree, to praise or criticize the points of view expressed therein.

Your newspaper is acutely aware of its responsibility to inform its readers on the important news of the day. Because all news items by themselves are not readily understandable or may have wider significance, your newspaper also is aware of its responsibility to analyze and comment on such news.

Freedom and responsibility go together. Your right and duty to vote is interlocked with your freedom to speak. Your right to individual happiness depends on your freedom to go anywhere, whenever you please. An in the final analysis, all individual freedoms rest on the first one — your right to read and be informed.

If your newspaper is restrained in any manner in its function of telling you what is going on, you have begun to lose your individual freedoms. And the rights and privileges that you enjoy as a Canadian citizen will slowly but surely begin to crumble away.

It is because of that your newspaper is a jealous guardian of all freedoms. Perhaps we are sometimes too petty in our editorial comment. Some of our criticisms and warnings may not be warranted in the long run. But if mistakes are made, they are honest ones honestly made in the effort to ward off the continuing onslaught against our Canadian heritage, our precious individual freedoms.

Your newspaper is dedicated to freedom — the Canadian type.

Fire Loss Factor in High Cost of Living

Careless fire is upping the U.S. cost-of-living, according to the National Fire Protection Association. A study reveals that the average American family of five will pay a 1947 fire tax of over $50 on the basis of the $700,000,000 fire loss forecast by this group plus indirect fire costs that double the total.

1947 fire losses are at a 17-year high, the NFPA charges, thus aggravating present scarcities. The non-profit fire control educational organization blames the skyrocketing fire loss on substandard construction, public indifference, inadequate protection.

BIRTHS

FORTON—To Mr. and Mrs. F. G. Forton (née Edna Aitkin), on October 5, 1947, at the Catherine Booth Hospital, a son.

LOGAN — At the Royal Victoria Hospital, Monday, September 30, 1947, to Mr. and Mrs. W. T. J. Logan (née Lilian Watchorn), a son. Both well.

OSWALD — At the Providence Hospital, Lachute, September 27, 1947, to Mr. and Mrs. Albert Oswald, a daughter.

ACKNOWLEDGMENTS

BOA — The family of the late John Boa wish to express appreciation for the many acts of kindness, expressions of sympathy, and for beautiful floral offerings during their recent bereavement.

LAROCQUE — The family of the late Mrs. Arthur Larocque express their thanks for the kindness of many friends, and for sympathy and floral tokens tendered in their bereavement.

IN MEMORIAM

LANGILLE—In loving memory of our dear son, Melvin, who passed away October 12, 1934. — Ever remembered by Mom, Dad, sisters and brothers,

"Always smiling, happy and
content,
Loved and respected wherever he
went;
Years will not darken, nor
shadows dim
The beautiful memories we have
of him".

McFAUL — In loving memory of Mrs. Wm. R. McFaul, who passed away October 19, 1939. — Fondly remembered by her husband and family.

"God knows how much we miss
her,
Never shall her memory fade,
Loving thoughts shall ever
wander
To the spot where she is laid".

LEFEBVRE — In fond memory of our dearly loved Dad, Antoine Lefebvre, who passed away October 6, 1945. — Always remembered by his daughter, Rita.

"Two years have passed since that
sad day
When one we loved was called
away;
The blow was hard, the shock
severe;
We little thought his death so
near,
Only those who have lost can tell
The pain of parting without
farewell.
Sleep on, dear Dad, for it is true
You suffered much and told but
few.
The one who saw you needed rest
Was God alone, and He knew best".

LEFEBVRE — In loving memory of a wonderful Dad, Antoine Lefebvre, who entered into eternal rest. — Always remembered by his daughter, Thérèse and Fred.

"Today recalls sad memories
Of a dear Dad gone to rest,
And the ones who think of him
today
Are the ones who loved him best.
When all is still and silent
And sleep forsakes my eyes,
My thoughts are in the silent
grave
Where my dear Dad lies".

TOMALTY — In loving memory of a dear son and brother, Gordon Robert Tomalty, who passed away October 14, 1945. — Loved and remembered by Mother and Sisters.

"Not now, but in the coming years,
It may be in the Better Land,
We'll read the meaning of our
tears
And there, sometime, we'll
understand.
God knows the way, He holds the
key,
He guides us with unerring hand;
Some time with tearless eyes
we'll see,
Yes, there, up there, we'll
understand".

TOWNSEND — In loving memory of Pte. Warren E. Townsend, killed in action in France, October 6, 1944. — Ever remembered by Mom, Dad, Dwayne and girls.

"In memory of one we loved
Who served his country's call;
For those he loved, he fought and
died
And gave his very all".

was "deeply interested", and counted it a privilege to assist in this and other ways possible. Mrs. Deacon placed the teaching profession in high esteem. The teachers were entrusted with an immense responsibility; here at Lachute High School they were literally molding the destinies of 500 children, future citizens of Canada. To those pupils nearing the end of high school years, Mrs. Deacon recommended that they seriously consider making teaching their profession. Also on the need of parent co-operation, already repeatedly stressed by the speakers, Mrs. Deacon added a forceful note.

Prizes were distributed for the past year's work among the pupils — including $372.50 in cash awards; and the proceedings closed with the national anthem.

Finest Car in the Low-Price Field
PONTIAC

A PRODUCT OF GENERAL MOTORS

Many of Pontiac's most important qualities are so obvious that you can readily see them for yourself.
You can see, for instance, that Pontiac stands alone for distinctive beauty. You can see the luxury and quality of its Fisher bodies. You can take the wheel for half an hour—and learn what a matchless performer it is.
But the greatest Pontiac quality of all is known only to its owners. For, above everything else, Pontiac is a *GOOD* car—and its greatest virtue is its *extraordinary dependability.*
The thrill of the first month of Pontiac ownership lasts and lasts. In fact, the longer you own a Pontiac, the happier you'll be with your investment. So make *your* next car a Pontiac—a good car through and through!

The stack of orders piled up for the new Pontiac are gratifying testimonials to the quality and beauty of this finest of the famous Silver Streaks. Unfortunately, so many orders also mean that many who choose Pontiac must wait. So if your car-wise head and heart say 'Pontiac' . . . your present car will give you better, safer service while you wait if you have it serviced by your Pontiac dealer.

Here's What Makes Pontiac Good — Through and Through!

SMOOTH, POWERFUL L-HEAD ENGINES — Your choice of a six or an eight. 100% Full-Pressure Metered Flow Lubrication, Gaselector, Scotch-Mist Manifold, Vacuumatic Spark Control and All-Weather Engine Temperature Control.

Pretty Wedding At St. Philippe

Derouin - Seguin

The marriage of Miss Rollande Seguin, daughter of Mr. and Mrs. Louis Seguin, to Mr. Lawrence Derouin, son of Mr. and Mrs. J. H. Derouin, was solemnized Monday morning in the parish church of St. Philippe.

The Rev. Fr. Corbeil officiated, and the church was beautifully decorated for the ceremony. Miss Francoise Marchand was at the organ, and Miss Jeannette Laframboise, soloist, sang the "Ave Maria" and other appropriate selections.

Given in marriage by her father, the bride was dressed in pale blue brocaded satin. Her floor-length gown was fashioned with a tight-fitting bodice, a long, full skirt with bustle effect, long sleeves ending in points at the hands, with a yoke of sheer blue net and a circular neckline. Her waist-length veil and halo hair ornament were of the same sheer blue net with velvet appliqués, and she carried a bouquet of white roses.

A reception was held in the Knights of Columbus Hall in Lachute, where a buffet luncheon was served to about 100 guests.

Mr. and Mrs. Derouin left by motor for a trip through the Eastern States. For travelling, the bride wore a two-piece grey suit, grey hat in matching tone, and black accessories. . . The groom's gift to the bride was a pair of matched travelling bags.

Out-of-town guests included among others, Mr. and Mrs. Fred Derouin, Mr. and Mrs. Jack Derouin, of Campbell's Bay, Mrs. Hector Seguin, of Ottawa, uncles and aunts of the groom; also Mr. and Mrs. Eric Cohill, of Calumet Island, the groom's cousins.

B'burg Council

(Continued from page 1)

The secretary, Mr. Hebert, explained to a taxpayer who complained of the manner in which accounts were rendered, that the fees for garbage collection were not shown as a separate item on the bills; the charge complained of was a clerical charge for additional posting in collecting arrears. "The first notification of tax due was mailed at the cost of the corporation. After 30 days non-payment, a second notice was sent by registered mail, and under a late ruling of the department it was mandatory to add a charge of 25 cents plus postage".

On the proposition of Councillor Somers, seconded by Councillor Denault, the council decided to accept the bid of Messrs. W. H. Kelly, Ottawa, for the extension of the waterworks system at a sum of $26,803.25 plus $7 per cu. yd. for excavation of solid rock as described in the contract — the work to be completed by August, 1948.

The secretary of the Winter Roads Association, Mr. A. J. Quinn, applied to the council for assistance in meeting the cost of the project this season. The letter stated that 35 miles of road had to be kept open; the Provincial Government contributed $2,975, which was insufficient to meet the cost. A contribution of $75 was granted, on motion of Councillor Lafleur and Councillor Wilson.

Autumn Weddings of Local Interest

Campbell - Marsh

At the home of the bride's parents in Wilkesport, Ont., baskets of pastel gladioli and asters formed an attractive background for the wedding of June Patricia, daughter of Mr. and Mrs. Marsh, to Mr. Sandy Rory Campbell, fourth son of Mr. and Mrs. W. J. Campbell, of Mooretown, Ont. (formerly of Harrington, Que.). The Rev. A. V. Robb, of Courtright, performed the ceremony, and the wedding music was played by Mrs. Malcolm Campbell, sister-in-law of the bridegroom.

Given in marriage by her father, the bride wore a street-length dress of blue aura crepe, with a halo of blue and white flowers and white silk shoulder-length veil. She wore white gloves and a corsage spray of Pinochio roses and fern.

Miss Lila Marsh was bridesmaid for her sister, wearing a street-length dress of pearl mist crepe and a halo of blue flowers, with a veil of blue silk net, blue gloves and a corsage of yellow gladioli, Johanna Hill roses and fuchsia ribbon.

Mr. Fraser Campbell, brother of the groom, was best man.

A buffet lunch was served at the home of the bride's parents, with 40 guests in attendance.

For her daughter's wedding Mrs. Marsh wore a flowered silk jersey dress. Her corsage was of Talisman roses with stephanotis bloom and pink gladioli. The bridegroom's mother wore a light blue two-piece figured dress of silk jersey and a corsage of pink roses, baby mums and cream gladioli blooms.

The bridegroom's gift to the bride was a matched set of pearls and earrings.

Out-of-town guests were Miss June Carswell and Mr. Arnold Williams, of Palmerston, Ont., also many friends and relatives from Sarnia, Brigden, and from neighboring points.

The newlywed couple left for a trip to Carleton Place, Smiths Falls, Calumet, Harrington and Montreal; for travelling the bride wore a grey English wool coat with brown accessories.

Brazeau - Welden

The marriage of Miss Gladys Welden, eldest daughter of Mr. and Mrs. Herbert Welden, of Grenville, Que., and Mr. Clarence Brazeau, son of Mr. and Mrs. Thomas Brazeau, also of Grenville, took place on September 20 at St. Matthew's Anglican Church in Grenville. The Rev. A. E. Hawes officiated. Mrs. R. Owens played the wedding music and during the signing of the register Mrs. M. Dewar sang "Ave Maria". Gladioli and other autumn flowers decorated the church for the occasion. It was a double-ring ceremony.

Given in marriage by her father, the bride wore a gown of brocaded satin fashioned with a fitted bodice, having a net yoke and a full skirt of the same material; the long sleeves ended in points over the hands. The floor-length veil was held in place by a halo of orange blossoms. She carried a full cascade bouquet of American Beauty roses and white gladioli. The bride's only ornament was a pendant, a gift of the groom.

She was attended by her sister, Miss Eunice Welden, as maid-of-honor, and Miss Rita Bowen as bridesmaid. Both were gowned alike in floor-length taffeta gowns, and carried semi-cascade bouquets of roses and gladioli.

Mr. Rolland Brazeau acted as best man for his brother, while the ushers were Mr. Ronald Matthew and Mr. Stanley Brazeau.

The bride's mother wore a street-length dress of black crepe and a corsage of pink roses. The bridegroom's mother wore a street-length dress of blue crepe and a corsage of American Beauty roses.

A reception was held at the home of the bride's parents and later the couple left for Montreal. They will reside in Grenville.

The bride wore for travelling a grey wool suit and a black top coat and black accessories, with a corsage bouquet of yellow roses.

Out-of-town guests at the wedding included—Miss Inez Dewar, Miss Mildred Varnen, Miss Ann Sixt, Mr. Jack Brayton, Mr. and Mrs. R. Johnson, all of Montreal; Miss Eileen Farquhar and Mrs. Charles Farquhar, Huntingdon; Miss Theresa Bowen, Mrs. E. Woodbury, Miss Gwen Stewart, Mr. M. Roberts, Miss B. MacIntyre, Misses Ida and Phyllis Welden, all of Ottawa.

MEMO TO CHILDREN

The young people need to remember the great benefits they have had from their parents, how these parents have sacrificed and gone without things for the sake of their children. That should make the youngsters willing to listen to their advice. The family where age and youth are harmonious, and disposed to work together and consult about their problems, is an inspiring sight.

Shirtwaist Girl Gotham Revival

New York (AP) — Look for a return of the shirtwaist-girl this fall and winter. Girls who live on a budget are compromising with new fashions by buying separate blouses and skirts cut on the new longer lines instead of making major investments in dresses.

Stores here are doing a landslide business in skirts of all kinds—flared flannels and tweeds for daytime wear, ballerina length velveteens and broadcloths for cocktail dates, full-length velvets and satins for evening.

NEW SURGICAL WING

Winnipeg (CP) — A new $270,000 surgical wing at Grace hospital here was recently opened by Hon. R. F. McWilliams, Lieutenant-Governor of Manitoba. It was suggested that the wing be named the "Patton Wing" for Brig. Pearl Patton, Salvation Army superintendent at the hospital.

Q.W.I. Broadcasts

In two sections of this province, the Quebec Women's Institutes are finding the radio a valuable method of publicizing their work. The counties of Gaspé and Bonaventure are served by the local station at Campbellton, N.B., where a five-minute period each week is devoted to news and items of interest to Institute members. Station CKTS, Sherbrooke, is continuing to provide a 15-minute period on the third Thursday of every month. A recent speaker was the provincial president, Mrs. C. E. Conley, who spoke on the development and policies of the Quebec Women's Institutes.

To ensure a clear supply of water in the hot water taps, drain one or two gallons of water every week from the bottom outlet of the range boiler, thus removing any deposit of sediment.

Pies and Pastry

Whoever used the saying "as easy as pie" to mean the task was simple, must have meant "as easy as eating pie" rather than referring to the making of pastry.

To make a perfect pie is the aim and object of every bride and of a great many other women also. The hesitation of an inexperienced cook often means a heavy hand, and over-mixing, thus resulting in tough pastry.

The home economists of the Consumer Section, Dominion Department of Agriculture, say that making good pastry is really quite easy if certain points are kept in mind. However if there is any doubt they suggest hot water pastry. It never fails.

With fat at a premium and luscious fruits plentiful, deep fruit pies with a top crust or open face pies are the answer to the problem.

Hot Water Pastry

¼ Cup lard or mild-flavored fat, ½ cup boiling water, 1½ teaspoons salt, 3 cups all-purpose flour (or 3½ cups pastry flour).

Cream the fat and stir in the boiling water a little at a time; cool slightly. Add salt and flour, mixing with a quick, cutting motion; do not stir. Chill before rolling. Makes enough pastry for 3 nine-inch pie shells; of 3 dozen two-inch tart shells

Deep Dish Plum Pie

1 Quart fruit (canned without sugar), ⅛ teaspoon salt, ⅛ cup sugar, ¼ cup flour, 1 teaspoon almond extract, 1 tablespoon fat, pastry.

Drain fruit, heat juice to boiling. Mix salt, sugar and flour. Stir slowly into boiling juice. Place drained fruit in a deep baking dish. Pour thickened syrup over fruit. Dot with fat. Roll out plain pastry to ⅛" thickness. Make several slits in the centre. Fit pastry over the fruit, press down well over the edges of the dish. Cut and flute the edges. Bake 30 minutes in a hot oven, 425°F. Six servings.

Apple Meringue Pie

Pastry, 2 large apples (sliced), 2 egg yolks, ⅓ cup sugar, 1 cup milk, 2 egg whites, 2 tablespoons sugar.

Line a 9" pie plate with the paste. Peel, core and slice apples and place in the pie shell. Beat egg yolks, add sugar and milk. Pour this mixture over apples. Bake in hot oven, 425°F., for 10 minutes, then reduce temperature to 325°F., and bake 30 minutes longer. Top with meringue made from the 2 egg whites and the 2 tablespoons of sugar. Return to moderate oven, 325°F., to brown meringue. Yield: one 9"pie.

WHOOPING COUGH DANGEROUS ILL OF CHILDHOOD

Cannot be Considered Lightly; Vaccine Effective Preventive

Whooping cough in "one of the deadliest killers among the communicable diseases of childhood", it is stated by Dr. R. J. Wilson, in the current "Immunization Week" issue of the magazine "Health", official publication of the Health League of Canada.

Dr. Wilson is Research Associate, Connaught Medical Research Laboratories, Toronto, and Associate in Hygiene and Preventive Medicine, University of Toronto. In his article he tells how whooping cough can be controlled through use of whooping cough vaccine.

Canada's fifth annual "National Immunization Week" is being observed this year from October 5 to 11. It is sponsored by the Health League in co-operation with health department.

Dr. Wilson says that for years whooping cough in Canada caused more deaths in children under two years of age than diphtheria, scarlet fever and measles together. He added that among the children who contracted whooping cough, but who did not die, many suffered serious complications.

"With these facts in mind", he writes, "it is easy to see that whooping cough cannot be lightly considered as 'just one of those things' that children get, and dismissed as such. Too frequently it is accepted as an annoying but almost inevitable occurrence in the life of a child".

The writer reviews the history of production and perfection of whooping cough vaccine, and states that immunization of children against the disease should start when they are six months old. This was necessary because two-thirds of the deaths from whooping cough occurred in children under one year of age, and over three-quarters in children under two years.

In answer to any possible objections that the giving of whooping cough vaccine would mean another set of inoculations—in addition to vaccination against smallpox and immunization against diphtheria — Dr. Wilson says diphtheria toxoid and whooping cough vaccine can be given at the same time, in a combined dose.

Thanksgiving

For sunrise o'er the eastern hills,
For each awakening bird
that trills,
Its song with mirth the morning
fills,
O Lord, we offer thanks.

For wind-tossed lakes, whitecapped
with foam,
For azure blue of the sky's high
dome,
For forest glades where wild deer
roam,
O Lord, we offer thanks.

For drowsy, tranquil autumn days,
For mountains crowned with
purple haze,
For haunting lure of woodland
ways,
O Lord, we offer thanks.

For changing, snowy landscapes
white,
For moon and stars that shed their
light
O'er hill and vale on winter's
night,
O Lord, we offer thanks.

For countless blessings of this
earth,
For harvest time, and spring's
rebirth,
For dear friends 'round a glowing
hearth,
O Lord, we offer thanks.

Sarah Beaven Bennett.

400,000 Left Feet that never push a clutch!

400,000 Left Feet . . . left without a thing to do! Because Hydra-Matic Drive eliminates the clutch pedal and all clutch pushing. 400,000 right hands . . . on the steering wheel where they belong! Because Hydra-Matic Drive shifts gears *automatically*.

Oldsmobile first introduced this revolutionary advancement almost 8 years ago! And since then, nearly 400,000 owners of Hydra-Matic Oldsmobiles have found a new freedom in driving. These owners have driven literally billions of miles—without ever shifting, or pushing a clutch.

GM HYDRA-MATIC DRIVE has been proved by nearly 400,000 Oldsmobile owners in billions of miles of "no-clutch, no-shift" driving!

After these 8 years, Hydra-Matic Drive is still the only "drive" that eliminates the clutch pedal and shifts gears automatically through four forward speeds. The lowest-priced car to offer GM Hydra-Matic Drive* is the smart new Oldsmobile. It's ahead in performance—*automatically*. Ahead in appearance—*dramatically*. That's why people say—*emphatically* . . . "It's SMART to Own an Olds!"

The demand for Oldsmobile with the new GM Hydra-Matic Drive* is so widespread that it still greatly exceeds the supply. Make sure your present car carries you conveniently and safely through the waiting period by having it serviced regularly by your Oldsmobile dealer.

Quebec-Ontario Hockey League

(Continued from page 1)

too small to recruit a team exclusively from that community to measure up to the strength of the other teams.

Hawkesbury and Lachute are the two hold-overs from last year's league. The executive behind the Ontario boys should ice a strong well balanced outfit, 100% home-bred. Lachute should turn out a more experienced team for this season, and as mentioned in last week's article, a coach will be appointed in the very near future to train the boys whom Manager Andre Lacroix has asked and is seeking to turn out.

Representatives of the clubs who voted in the league officers were as follows :

Lachute — Gabriel Valois, sec.-treas.; Andre Lacroix, manager.

Hawkesbury — Charlemagne Berthiaume, manager; Emilien Lacelle, asst. manager.

Brownsburg — Gordon Elliott, secretary; W. L. Tesiser, asst. manager.

St. Jerome — Pierre Brosseau, owner-manager; Marcel Beaulieu, sec.-treas.

St. Placide —Bernard Lalande, sec.-treas.; Jean Lavigne, manager.

The foregoing representatives can be changed by their respective clubs if deemed advisable for future meetings, but all matters voted on by them are accepted by the league. Each club has two votes, i.e. besides the League Executive, in any discussions, with the Arena manager acting as scrutineer. All clubs will do their utmost to start games on time, and have assured the Arena of their fullest co-operation in this important detail. Clubs have the privilege of signing 24 players. (All other league details and comment will be included in the Arena Annual).

League Executive

President — Aldege Carriere, Brownsburg.

Vice-President — Dr. A. Perrier, Hawkesbury.

Secretary-Treasurer, Guy Gosselin, Lachute.

Directors — Mayor Charles Aubry, St. Jerome; Georges Masson, St. Placide.

This correspondent would like to add that the league executive were chosen by the delegates primarily because of their devotion to the sport of hockey. Mr. Carriere, to this writer's memory has always been connected with the game. No longer connected with the Brownsburg Hockey Club, he is a sound and wise choice as president of the league, and the public may rest assured that he will miss very few games. Dr. Perrier as vice president is another admirable choice. This gentleman missed very few games last season and is extremely impartial in all decisions. Guy Gosselin needs no introduction as the secretary-treasurer. He knows the routine and his work is valued highly not only by the league but by the Arena. Mayor Aubry of St. Jerome and Mr. Masson of St. Placide, although comparatively unknown in this sector, are ardent hockey enthusiasts and spoken of very highly in their own locales.

In recapitulation, may it be added that if the organizations behind these five clubs are a barometer of what is to come this winter, then the public may rest assured of the most competitive hockey season around these parts in a long, long time. The Arena, as in the past, will be in charge of the Q.A.H.A. officials for all games (outside rinks included), and hockey enthusiasts may count upon impartial refereeing at all times. The rules and regulations of this new league are severe but they were made for all clubs; so in closing, may the best team win the trophy and the accolades, come the Ides of March.

"ALONG THE FAIRWAYS"

By Lachute Golf Club's Special Contributor

It seems we were out there playing in the early spring ooze only yesterday. Wasn't such a long time ago at that. Well, if the weatherman gave us a bad start, he came through all right in the clutches, and far from spoiling any of the fixtures with rain, was just a bit too bright at times.

• • •

Closing tournament was no exception, just about perfect for golf. Everybody is hoping of course that, "closing" notwithstanding, the season may stretch out a bit yet. Looks promising from here, or did we speak too soon?

• • •

Afraid the World "Serious" bit into our observations last Sunday. But we saw one couple start out in high hopes with a beautiful birdie on No. 1; we were around too when they crept off No. 9 with a terrible ten. You guess who.

• • •

Some additional trophies were donated this year, and many thanks are due the donors. Should help the competitive spirit, and that all adds to the game.

• • •

It was most encouraging to see such a good turnout for the closing banquet, but may we adjure members in future to please signify their intentions by turning in their names. There were 66 seated and only 15 names turned in! Let's give our steward a break. He has to prepare ahead of time, and can only accommodate you if he knows you are coming.

• • •

Our assistant pro, Nick Besner, is also Canada's top assistant pro — no mean honor for both Nick and our club. Says his putting was terrible, but he still canned the ball cagily enough to win out at Cataraqui.

• • •

Shirley says she took three, not two, to get home on No. 4. It sounded so good we couldn't resist, but hasten to correct our error. Says she will endeavor to make the rumor a fact at the earliest possible date.

• • •

See you out along the fairways for a while yet — we hope. Jack Reade got a hole-in-one on No. 3 last year on Thanksgiving Day. So you see, you still have time to make news. Unless you do, this is all — there isn't any more.

REORGANIZING "SPITFIRE" TEAM

The Watchman is informed by Georges Bedard, manager of the Lachute "Spitfire" hockey team, that he is reorganizing his club for the coming season. A dozen or so merchants from the town have already given donations towards financing the team, and others will be approached shortly to give similar assistance. Quite a few players have already signed contracts to play on the team this season, it is stated by the manager.

JUNIOR GROUP ARE GUESTS OF KIWANIS

Miss Lorrain McOuat, Robt. McCrea, Louis Leonard and Pierre St. Jacques, who won distinction in the junior judging competition at Lachute Fair, are being entertained by the Kiwanis Club at a luncheon in Montreal today. Accompanying the group is Mayor A. Bothwell, secretary-treasurer of the Argenteuil Agricultural Society.

. The 1st Lachute Boy Scout Troop spent the entire day last Saturday in the hills north of the town, where general Scout instruction was given under the direction of Scoutmaster J. Robinson.

Six senior Scouts who have passed their First Class first-aid work, are to be given instruction by Fire Chief Geo. Y. Deacon on the new inhalator recently donated to the town by Lachute Lions Club. These Scouts will be available to help in any fire, drowning or other emergency.

Arrangements are now being made for a Hallowe'en party.

Dairy Products Manufact'rs to Convene Here

AROUND 400 EXPECTED TO TAKE PART

Lachute will be the gathering place for members of the Province of Quebec Dairy Industry on Sunday, October 26, when milk-products manufacturers and their ladies will meet for social and business matters, including discussions of interest to the trade.

The program will include special mass at Ste. Anastasie, and a visit to Lachute Creamery Ltd. with inspection of the Blanchet butter wrapping machine in operation at the company's plant. At the noon luncheon in Lachute Auditorium J. P. Nadeau, manager of the Belle Vallée Dairy, Valleyfield, will be the special speaker. An afternoon tour and tea at the Golf Club are provided for the lady visitors while the Association continues discussions, and a banquet will be served at the Auditorium in the evening, with the Hon. Paul Beaulieu, Quebec minister of Trade and Commerce, and the Rev. Father E. Bouvier, S. J., as guests of honor. The Rev. Bouvier, who is director of the Industrial Relations department of Montreal University, will speak on "The Social Responsibility of the Employer".

The Mayor of Lachute, the Federal and Provincial representatives for Argenteuil, and others will be present to welcome the assembly, which is expected to include around 400 persons.

Critically Injured In Train-Auto Crash at Cushing

Two brothers, Neol Gerard Lavigne, 20, and Midor Lavigne, 25, were injured when their automobile crashed into the C.N.R. Hawkesbury-Montreal morning train at Cushing last Friday. The driver, Noel, is in a critical condition at the Neurological Institute, Montreal, having suffered a fractured skull. The elder brother had his shoulder and several ribs broken, and other injuries of a minor nature. Both were taken by ambulance to Dr. Smith's Hospital at Hawkesbury, Noel Lavigne being admitted to the Neurological Institute the following day.

The accident occurred shortly after 7 a.m. as the pair were driving to Brownsburg, where Midor Lavigne was employed. Proceeding north on the "monty" near their home — which joins Highway No. 8 at the old tannery site near St. Philippe — they collided with the eastbound passenger train at what is known locally as Dobbie's crossing. The automobile was completely demolished, and the occupants were unconscious when trainmen and neighbors hurried to the scene.

The young men are sons of Joseph Lavigne, a river-front farmer.

Details of the accident were investigated by Cst. Albert Legault, traffic patrolman. It is stated the automobile crashed into the side of the passing train.

Separate Agency Established for C.P.R. Express

Due to the growth of business in Lachute and in anticipation of continued prosperity in the district, the Canadian Pacific Express Company have established a separate agency here.

Hitherto all railway operations came under the supervision of the local Railway Agent. For some time it has been apparent that traffic generally has reached such proportions that an Agent and a staff, devoting their time to express matters exclusively, was indicated. The new arrangement went into operation last week.

The new Agent, Elston L. Reid, has been in the Express Company's service since 1928, having commenced as a Junior Clerk in the Superintendent's office in Montreal. After holding various clerical positions in that office, he was appointed Agent at Bedford, Que., in December, 1946. He brings a wide general knowledge of Express transportation to the service of the local shipping public.

"Competition is the life of trade" was the old slogan, but is it today? Does one dealer try to undersell his competitor? All this belongs to a past era.

J.W.McGibbon Is Speaker on -- Our Economic Future

LACHUTE WOMEN'S INST. 'EDUCATION' TOPIC

At the Lachute Women's Institute on Tuesday, October 7, under the program theme of "Education", Mr. James W. McGibbon spoke on the subject of "Our Economic Future".

Mr. McGibbon remarked in opening, that after a war such as we have just experienced there is bound to be chaos, and that the tendency of many people is to swing to a new order. The socialistic form of government in Britain and Europe today is evidence of this. If this order fails, history shows that a dictatorship can be expected to follow.

In Canada, he reminded his listeners, we are fortunate to find ourselves enjoying a very high standard of living and the greatest prosperity our country has known. Our manpower and industries suffered little of the wear and tear of war, and they are producing as never before. But the way our export markets have shrunk, and are still shrinking, should give us cause for concern.

Up to 1939 our export and import trade had maintained a healthy balance, but the war had changed this condition. The speaker referred to the Lend-Lease plans, the gifts, and finally the loans — and just how temporary these means are. Since the war, Europe has needed all kinds of materials, goods and food, but cannot pay for them. So far these needs have been paid for from the loans made by Canada and the United States, but these credits have been used up at an alarming rate. Both Canada and the U.S.A., and Britain as well — had underestimated the time it would take for recovery.

It was Canada's concern over this state of affairs, that brought about the visits of Mr. Gardiner and Mr. Howe to Europe, and caused Mr. Abbott, finance minister to warn that — unless Canada could get cash for her overseas exports, with which to pay for our U.S. imports, she, Canada, was faced with a radical and revolutionary change in her entire economic structure.

The advantage the Communists are taking of these conditions abroad, was shown by the speaker; he then spoke of the Marshall plan, and how it can help to improve matters.

We can look for time to settle many of these points; but now, two years after the war, the administrators at Ottawa are wondering just what to do next. Some way has to be found to feed Europe and to balance our accounts too — or we will find ourselves unable to buy many things essential to the maintenance of our present standard of living. It might be well to be prepared for that time, if it is to come, by curtailing our spending, and saving for the future.

Mrs. K. Campbell was convener of the W.I. program.

Piano Recital and Lecture at Catholic Ladies' League

Over 200 ladies gathered together at the Ste. Antastasie parish hall on Tuesday afternoon, when an interesting lecture, under auspices of the Catholic Ladies' League, was given by the Rev. Fr. Schelpe, S. J., a well-known speaker of Belgian birth. The Rev. Schelpe was presented by Mrs. Horace Lamarche, of Lachute, and thanked by Mrs. Jean-C. Marchand, of St. Jerome.

Miss Juliette Rodrigue, well known local pianist, gave an impressive recital including a group of piano works by Schumann, Chopin and St. Saens; as an encore she interpreted "Music Box", by a Russian composer, Liadoff.

Mrs. Germain Filion, on behalf of the ladies, presented Miss Rodrigue with a beautiful bouquet of roses. The Rev. Fr. Lacourse spoke a few words of thanks to the organizers of this very successful event.

Tea and refreshments were served by several ladies of this town, among whom were — Mrs. G. H. Héon, Mrs. E. M. Jones, Mrs. Gaetan Cousineau, Mrs. L. Turcotte, Mrs. Jacques Beaudoin, Mrs. Germain Filion, Mrs. Richard Ayers, Mrs. Gabriel Valois, Mrs. Marc Papineau, Mrs. Hervé Fournier, Mrs. Reg. Courtien, Mrs. H. G. Beaulieu and others.

Ship's Bell Presented To Gatineau County And Women's Inst.

In a fitting ceremony, the bell of H.M.C.S. "Gatineau" was presented recently to the Gatineau County Women's Institutes and the County Council. Scrolls in French and English, both beautifully illuminated and signed by the Minister of National Defence, Hon. Bruce Claxton, accompanied the bell. These gifts are to be suitably mounted and kept in the council chambers. Acknowledging these gifts in the name of the Women's Institutes, Mrs. H. Ellard, the county president, made an earnest plea for unity and co-operation between our peoples in order that the war which was fought and won abroad would not be lost at home.

Remembrance Day as Usual, November 11 By Official Statute

Ottawa (CP) — Remembrance Day in Canada is still November 11, despite the fact that the United Kingdom will observe Sunday, November 9, as Remembrance Day for the dead of the First and Second World Wars, a State Department official said this week.

The official stated it was the practice in England for the King to direct by proclamation the day to be put aside for this purpose, while in Canada, Remembrance Day is fixed by Statute as a November 11 holiday; the date could be changed only by an Act of Parliament. Remembrance Day has never been a holiday in the United Kingdom.

Erecting Steel for New Bus Terminal

A scene at St. Andrews East recently, when steel girders were erected for the new Duhamel Bus Lines terminal on Main Street. This bus service, operated from St. Andrews on three routes to Montreal, Grenville and Lachute, is owned by Georges Duhamel, who is also mayor and a progressive businessman of the municipality. The building, 80 x 90 feet, will be of concrete block with stucco finish, providing a waiting room, ticket office, garage, etc. The $30,000 structure will be completed in two months. Potier Frères, of St. Andrews East, are the contractors.

Provisions for Recreation of Mill Workers

Viewing the organized sports activities enjoyed by the employees of Ayers Limited, there appears a well rounded program now meeting tastes of various groups, with some provision for future pastimes among younger residents of the mills area. These recreations include the following:

Bowling is now underway for the winter season, the first games having started October 3. A women's league of four teams and a man's league of eight teams have entered into this activity.

The Ayers hockey league, comprising four teams, is in formation for the approaching season, to play each Sunday afternoon at the Lachute Arena.

Two tennis courts provided by the Company have been well patronized in the past months, while a croquet court has been maintained by a group of employees, and games organized.

Skating Rink, Bathing Pools and Recreational Centre Planned

A skating rink for the Ayers workers and their families will be in readiness for the coming season. It is stated that the welfare committee is organizing a social event to be held at the Auditorium on November 8 to raise necessary funds for the building of this rink with a heated shack, and for their maintenance. A drawing of a cutlery set will also take place the same evening — tickets having been sold among the employees and their families.

Work has also started on the swimming pool, to be in readiness next spring. Measuring 45 x 105 feet, the pool will graduate from 3 to 10 feet in depth. It is stated by the Company authorities that, on completion of this tank, a wading pool for children will be constructed, 25 x 30 feet in dimensions, with a depth of from 1 to 2 feet.

In addition to these facilities, more ambitious plans are on the board for a recreational and sports centre, which will make available practically all indoor and outdoor sports, also with a cafeteria for the employees and a small auditorium for concerts, shows and films.

Residents Bereaved

The funeral was held on Sunday, at Mille Roches, Ont., of Mrs. William Heath, who had been a patient in the Cornwall General Hospital for several weeks. Mrs. Heath died last Thursday, at the age of 86. . . Mrs. John Falconer and Mrs. Earl McMartin, of this town, are daughters of the deceased, to whom many friends extend their sympathy. Three other daughters and three sons also share the sorrow of their bereavement.

Boy in Hospital With Rifle Wound

Jean Guy Beauchamps, 17, of Lachute west end, was seriously injured when a .22 calibre rifle discharged and wounded him in the abdomen Saturday evening. Chief Donat Villeneuve, of Lachute, said that the injured youth was with a companion, Joseph Beausejour, 17, at the time of the mishap, and the Beausejour lad was apparently playing with the rifle, which he believed unloaded. Beauchamp was taken to the St. Luke Hospital, where he was placed under observation pending removal of the bullet.

The boys live at what is known as the Sandy Hill, off the St. Philippe road west of Lachute.

Canadian Blankets As Wedding Gift to Princess Elizabeth

A wedding gift of fine Canadian blankets for Princess Elizabeth, including some of local manufacture, will be on display at the 25th annual meeting of the Canadian Woollen and Knit Goods Manufacturers Association to be held in Montreal on October 28-29. To be presented by the Canadian blanket industry, the gift will be delivered by air express to add a warm and colorful gift that is typically Canadian to the many gifts which will be sent to Princess Elizabeth from all over the world. — The Watchman is informed this collection will include several pairs of blankets, superfine marino with satin bindings, from the Ayers Limited mills.

"Owing to our climate, necessity has resulted in our producing excellent blankets in Canada", a spokesman for the industry said. "To be modest, the blankets being sent to Prince Elizabeth are as fine as any produced in the world. In cold fact, they are finer than any blankets produced in other countries".

Marking the 25th anniversary of the Association, woollen, hosiery and knit goods manufacturers from 160 municipalities in every province of Canada will attend the annual meeting at the Mount Royal Hotel.

Plowing Match And Horse Show Successful Event

With favorable weather, and a good turn-out of competitors and spectators, the annual field day of the Argenteuil Plowmen's Association proved a successful occasion. The event was held Wednesday, October 8, at the farms of T. E. Kettyle and John Walker, Bethany Settlement, on the Montreal highway. Many fine turn-outs drew admiration, and there were some excellent teams and single horses competing for the honors.

Through the instrumentality of Georges Héon, K.C., M.P., a special grant of $200 was secured from the Quebec Department of Agriculture to assist in this project. The president of the Plowmen's Association, E. Emmett, also expresses appreciation to the numerous business firms who gave prize donations of cash or merchandise. The list includes;

Wilson & Gordon Reg'd, Food Lockers Ltd., George Y. Deacon, Lachute Farm Equipment, Pollock & Graves Motors, Douglas Simon, Muir Bros., Albright & MacAdam Reg'd, Lachute Automotive Equipment, Farmers Supply Co., Farmer Brown Motor Sales.

Gordon & Lyster Reg'd, Russell Rodgers, R. Roussel, P. Nepveu, St. Hermas, E. Cyr, St. Hermas, H. Cadieux, St. Hermas, J. P. MacKimmie & Sons, Wm. Blakeley, W. M. Cottingham, Kilwin Farms, W. M. Scott, Boyd's Express Ltd., M. Pinsky, Bell & Sons Ltd.

Winners of the competitions are listed on page 7.

Couple Feted on Silver Wedding

The home of Mr. and Mrs. John Pete Bradley, Lachute Road, was the scene of a happy occasion recently when a gathering of 50 neighbors and relatives, both young and old, tendered a surprise visit to honor this couple on their 25th wedding anniversary. Several gifts of silver were given by their friends, also a three-storey wedding cake, while little Carol and Donald Parker presented Mrs. Bradley with a bouquet of roses from the gathering. Mrs. Bradley voiced sincere appreciation on behalf of herself and her husband. A social evening and card-playing were enjoyed by the party, and the ladies served refreshments. Master of ceremonies was Col. Leslie M. Hooker.

Local Scouters Impressed by Spirit Of First Post-War Prov'l Pow-wow

Leaders' Conference Held at North Hatley; Laurentian Boy Scouts Divn. Represented

After a lapse of several years due to the war, the Provincial Scouters' Conference was held again this year, over the Thanksgiving week-end at the Pleasant View Hotel, North Hatley, Que. Scouters from all parts of the province, from Arvida in the north, Lachute in the west, and Gaspé in the east, gathered in the true Scouting spirit — lads of 18 years to grey-haired men.

The meeting was held under the auspices of the Quebec Provincial Scout Headquarters, with W. H. Miner, of Granby, the newly appointed Provincial Commissioner. The principal speaker was Wm. A. Speed, Executive Scout Commissioner for Nova Scotia, and those officiating and taking an active part included G. Robley Mackay, C. S. Blake, V. O. West and W. J. Hewetson. The newly formed Laurentian Division was represented by District Commissioner C. L. Duncan of Lachute, G. H. Quinn, secretary of the Brownsburg Scout Committee, J. N. Robinson, Scoutmaster, of Lachute, and A. Waller, Assistant Scoutmaster, of Brownsburg.

From supper on Saturday, till Monday afternoon, the time was completely filled with a very fine program, including motion pictures on various phases of Scouting, and talks, lectures and discussions by men who find it worth while to take time out from their busy lives to help in this great movement which tends to make worthy citizens and men of our growing boys.

One of the most stirring features of the meet was the Scouts' Own service on Sunday morning, on the brilliant sun-drenched shores of Lake Massawippi with the gorgeous autumn-tinted hills forming the background. The deep-toned singing of nearly 200 men was most impressive in the open, and the Rev. Elton Scott, Chaplain of the Sherbrooke Scout District, told the the gathering of "The Things That Belong to Peace," showed where Scouting in the past had been a great influence towards world brotherhood, and how in the present unsettled days it could be one of the deciding factors in world peace.

Adult men, some of them grandfathers, took part as Scouts in many activities — preparing themselves for teaching their own Scouts during the coming winter, and amply demonstrated that no man is ever very far removed from boyhood. Dominion and Provincial officials, Scoutmasters and Cubmasters all got a great uplift from every phase of the meeting; they felt that it was well worth missing their Thanksgiving week-end at home, and left feeling that our way of living and our form of democracy were safe while our boys have the leadership of this class of men, and have them as living examples of Baden-Powell's teaching that "All Scouts Are Brothers".

Authority Talks On "Development Of Communications"

"If one might compare the progress made in the sphere of communications throughout the centuries to a 24-hour clock, then all the worthwhile progress has been made in the last 3 minutes", said E. J. Awishus, speaker today at the Rotary Club meeting in Carriere's Hotel, Brownsburg.

Traffic representative for the Canadian Pacific Railway at Montreal, Mr. Awishus traced "the development of communications" from the earliest times. After the invention of the telegraph in 1844, and the telephone in 1874, great strides were made in the transmission of messages by wire, until "today we have come to depend upon communication for every phase of our social and economic life".

"Today, in addition to the telegraph and telephone, we have the radio-telephone, the wireless telegraph, teletypwriter, television and many other electrical marvels. We can hurl voice-waves thousands of miles through space without the aid of wires, and by means of telephotography we can see a picture in the afternoon issue of a Canadian newspaper that was taken in London only that morning". . . . Many other phases and developments of communications were dealt with in this interesting topic, which was duly appreciated by the Rotary membership.

Commemorate Hitler's Victims

Dissatisfaction on Memorial Plaque

CITES INJUSTICE OF DATE RESTRICTION

CORRESPONDENCE TO THE WATCHMAN

Lachute, Oct. 13, 1947

To Whom it May Concern:

A year or so ago our Town Council did great advertising and talking of a "Welcome Home" for our returning men. Somehow the talk fizzled out and nothing was done. Now we hear that a memorial plaque is to be placed in the Auditorium with the names inscribed of some of the boys who did not return to take their place in the community.

My brother joined the forces very early in the war — served nearly five years overseas — was the first boy in the county to join as a private and work up through the ranks to become an officer — was mentioned in dispatches for gallantry — returned from overseas on a stretcher — BUT, because he lay suffering and died a lingering death a few months after the date decided upon by our "City Fathers", his name is not to be included on the plaque as one who gave his life for his country.

To those "City Fathers" I say SHAME! and I know from public opinion that a good number of Lachute's citizens endorse my feelings.

— Yours truly,

(Signed) Lulu Miller

Seasonal

FARM TOPICS

Edited by E. H. PETERS, B.S.A.

Now Is the Time to Clean Up Gardens

At this season of the year many insects are looking around for suitable spots in which to spend the winter. Practically every garden offers many opportunities for the insects to hibernate. Garden plots should be made as uninteresting to hibernating insects as possible.

Many of the most injurious species of insects pass the winter adhering to the plants on which they were feeding when cold weather overtook them. Others crawl beneath piles of plant refuse and hibernate at the base or in the centre of the piles. A few work their way down into the layer of dead organic matter. All such may be looked upon as a definite menace, because a large proportion of the insects will survive the winter to attack growing plants the following spring.

Therefore, every effort should be made to discourage insects from hibernating in and around the garden. This can be done in a number of ways. All standing crop remnants should be pulled and burned. Crop refuse lying on the ground should be raked up and destroyed. It is advisable, also, to turn over waste land surrounding the garden, and headlands in particular, to kill any eggs or hibernating insects.

It is sound practice to collect and burn all insect egg masses or cocoons. These are frequently found on shrubs and low trees, on fences, or garden furniture or even deposited on houses and outbuildings. Cleaning these up in the autumn will prevent them causing trouble next spring.

Where possible, plough or dig up the garden in the fall, so as to expose many of the insects in the soil to be killed by the severe cold in the winter.

Royal Winter Fair

Diversified enterprises related to Canadian agriculture are to be featured at the Royal Winter Fair to be held at Toronto November 18-26. Apart from enlarged classes and bigger prizes in major live stock, cattle (beef and dair breeds), sheep and swine, the fruit and vegetable sections are being extended and brightened. Valuable trophies are being offered for the first time to top winners in wheat, barley and oats. This is part of plans to make the Royal Seed and Grain Show independently Canadian in tone and merit. There has been an enthusiatic response among farmers in Canada to this new move.

Honey and other bee products, maple sugar and syrup, farm preserves, and perhaps even nuts, are to be classed for competition. Egg-raising methods and devices for large and small poultry flocks will be prominent at the Royal Poultry Show.

A new standard of farm stock exhibiting is to be encouraged by herdsmen's contests. Points will be counted, not on the quality of the animals but solely on the neat and orderly way in which stalls and aisles are kept by the working staffs.

Extensive modern refrigeration is being installed in conjunction with the Dominion Department of Agriculture so that farm products in finished form as desired by wholesale and retail trades at home and overseas may be shown at their best.

Cattle From Scotland

Because there has been no outbreak of Foot and Mouth disease in Scotland since early this year, the Agriculture Department has announced that cattle, sheep, goats, other ruminants and swine, as from September 13 may be imported into Canada under the following conditions:

"The animals must be embarked at a Scottish port, and the vessel conveying them must come direct to Canada without touching at an English, Irish or foreign port.

"In addition to the usual health certificates the animals must be accompanied by an affidavit of the shipper declaring that the animals so embarked have been in Scotland for a period of sixty days immediately preceding date of embarkation.

"That such animals are accompanied by an affidavit of the shipper that the feed taken on board for feeding these animals en route has been grown in Scotland."

Reporting on the Weekly Editors' Convention Tour to Pacific Coast

— By Lorna A. Giles —

(Continued)

On Thursday we had an interesting luncheon, for at it the CBC Farm Forum program was broadcast right from the dining room. Many of us hear this program every day over our radios, and it was extremely interesting to see just how it is done, everything timed right to the second and the sound man popping up with the right gadget at the right moment for the needed sound effect.

After luncheon the ladies were free for the afternoon. Some went shopping and others took advantage of the time to swim in the lovely Crystal Pool. This is by far the nicest pool in Canada, having a glassed-in roof and heated salt water which gushes in at one end.

On Friday a real treat was in store. After luncheon we gathered outside the hotel and were taken in buses to the Naval base of Esquimalt, where we boarded H.M.C.S. "Ontario" for a short sea voyage. We were received royally and given an interesting tour about the ship while she carried us several miles out to sea. The voyage ended too soon for our liking though, and we were driven back to town to attend the annual Trophy Dinner, which marked the close of the convention. After dinner a farewell dance was held at Crystal Pool Gardens, and at midnight we regretfully bade farewell to Victoria and departed for our various homes in small towns across Canada.

Some returned to Vancouver by boat, and others who were not so fond of the water, flew. Our party had made plans to stay over a day in Vancouver and consequently were able to see a good part of the city and enjoy a ride through Stanley Park.

Returning home we left our train at Lake Louise and travelled by bus to Banff. On the way we saw elk, moose, mountain goats and a little bear cub who was waddling up the centre of the highway! The animals seem quite used to tourists. At Banff we strolled about the grounds of the lovely Banff Springs Hotel, and shortly before train time my brother John and I drove up to the hot springs for a fast dip in the sulphur water. This was quite an experience as the temperature is 110° and one gets quite a pleasant surprise on diving into it.

Time passed quickly on the way home as we talked about the wonderful time we had had, and regretfully bade farewell to members of the party as they reached their home towns along the way. The weather grew colder as we came eastward. Soon it will be winter time, and as we sit before our fireplaces all across Canada there will be pleasant memories of the press trip to Victoria in '47, and hopefully dream that we may on some future occasion have another such convention.

• • •

P.S. The above description of our trip, though greatly curtailed, will give some idea of the beauties of the Rockies and of the western cities.

The trip out was made by C.N.R., while on the return we came by C.P.R. As stated previously our party occupied one car and every comfort was afforded us by both railways. Courteous and efficient service in the dining car made one enjoy the meals just that much more, and we would strongly urge all who can to take this trip and view the wonderful and fascinating scenery of Western Canada, stopping of course at Jasper, Lake Louise and Banff.

The convention at Victoria, held in the beautiful Empress Hotel, was full of activity in the three days allotted to business and pleasure.

Friday was a red letter day for yours truly when he received the great honor of being elected as President of the Association and was presented at the annual dinner at which some 500 members and guests were present. It was an honor indeed, not only a personal one, but also to our paper "The Watchman", and to the Town of Lachute.

Time did not permit our looking up any friends, but on our arrival at Vancouver, when returning, we were surprised and delighted to see Wing Commander "Eddie" Beaton, who looked us up at the Hotel. Taking us to his home we met Mrs. Beaton and were able to pass on a lot of news of friends in the old home town. After a delightful lunch and an interesting drive with them, they left us with Dr. and Mrs. Hunter (formerly Miss Winnie Riddell), where news of home was again passed on and we enjoyed dinner and a most pleasant evening.

On the way back just before arriving at Lake Louise and while in the diner we looked across the aisle to see Mr. and Mrs. Arthur Campbell, who having been on an extended tour were wending their way home and have since arrived home.

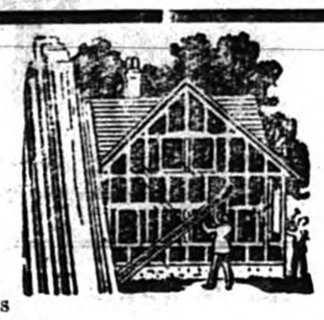

We just couldn't go through Winnipeg without saying Hello to the Styans. I had sent a wire on ahead and sure enough there were Ray and Eva down to meet us. Only had half an hour, but though short, it was most enjoyable and we talked of old times and various people until the gong went and once again we were headed eastward.

It is impossible to thank individually or mention all the various ones who made our trip so enjoyable, but we have tasted of western hospitality and can truthfully say that "It is hard to equal."

If it's Value you want it's Plymouth you want

PLYMOUTH gives you VALUE you can see and measure. Your Chrysler - Plymouth - Fargo dealer has a new Quality Chart which shows that Plymouth is most like the high-priced cars in quality features. Of 21 important features found in high-priced cars, Plymouth has 20, car "b" has 9 and car "c" has 8. More quality features mean greater VALUE.

Plymouth gives you VALUE in Safety. Safety-Rim Wheels for protection in the event of sudden tire failure. Equal Pressure Hydraulic Brakes for more stopping power with less pedal pressure.

Plymouth gives you VALUE in Economy: Although Plymouth is a big, comfortable car and gives you more quality features, it is nevertheless *priced right down with the lowest.* Plymouth's thorough engineering makes it a long-lasting, economical car to own and operate.

Plymouth gives you VALUE in Performance and Style. A powerful 95 horsepower engine gives you smooth performance at all speeds. Plymouth's smart styling and flowing lines give it that "big-car" appearance. No other car gives you *all of these features* at Plymouth's low price—so, if it's VALUE you want, it's Plymouth you want.

VALUE IN CONVENIENCE
Plymouth's roomy luggage compartment gives you value in convenience. The lid swings up easily because the weight is counterbalanced. The lid won't come down until you want it down. The spare tire is conveniently located.

VALUE IN SAFETY
Plymouth gives you value in safety with Equal Pressure Hydraulic Brakes. Stopping power is increased one-third with 25 to 30% less pedal pressure. Plymouth Safety-Rim Wheels reduce the hazards of sudden tire failure.

Seasonal Alarm

CONCLUSION of the fishing season, and the opening of the annual hunting spree, prompted us last week to voice a plea for the conservation of Canada's wild life. Our fish and game resources are important — but still more valuable is human life itself. The season's first accident with firearms — youths playing with a rifle — impells us now to urge the preservation of life and limb. Hunting accidents come as a perennial reflection on our common sense. Most of them are totally unnecessary and a direct result of carelesseness.

A drive through the Laurentian hills last weekend recalled those immortal lines of the Light Brigade, "Cannon to the right . . cannon to the left"; and while foliage still limits the vision in autumn woods, hunters are particularly exhorted to remember the direction of nearby farms and highways, so that innocent passers-by may be spared the penalty of a stray rifle shot. Such mishaps levy a costly price on the pleasure of hunting.

Up Goes the Index

THE EFFECTS of decontrol have not quite justified those grave premonitions we entertained in the recent past; but they are bad enough. When industry was clamoring for decontrol, and the consumer fearfully urging caution, Ottawa — and Donald Gordon as helmsman of the W.P.T.B. — had a difficult road to hoe. Now the climax is here — but not quite. Finance Minister Abbott told newsmen in Ottawa last week that the Canadian cost of living will increase still further; he thought the index, now at 139.4, might settle somewhere between 140 and 145.

A factor in wartime measures was the cost of living bonus; this underwent periodical adjustments to meet the index, which was then patently fictitious. Now there is little restriction remaining on prices — the cost of living index is starkly real — and, salary earners, the white collar class and the pensioners, one may hear them murmur, "Alas for decontrol!"

Time for Thinking

AS HE GOES about the more leisurely task of making his place snug for winter, the man on the farm often finds these days that he has a few free hours. Indian summer weather, with a suggestion of frost in the crisp air morning and night but with mellow sunshine in the afternoon, lends itself to thinking.

With hay and grain in his barn and the silo filled with fodder, it is almost inevitable that the farmer should turn his thoughts to the farmers in Europe, who know only want on their war-devastated farmlands. He resolves to do what he can to help them, although how to transfer North America's bounty to hungry Europe may puzzle even the statesmen.

But that is one of the big thoughts that come into the farmer's mind as he scuffles through fallen leaves or tramps the brown stubble of the empty fields. His mind, freed from worry over the cares of crop production, often turns to matters nearer home. He may think, for instance, of an act of kindness to be done close at hand, of a community problem needing solution, or of a local improvement that could be made. Sometimes muses over his ambitions for his acres, and compares what he has accomplished with his long-term aims.

The clear autumn air makes for clear thinking. Ideas stand out as sharply as the stout trunks and branches of the trees. . . . This is one of the rare times for relaxation on the farm and sometimes the post-Thanksgiving reverie almost induces laziness. But the sight of wild geese winging southward and of squirrels building their hoard of hazelnuts point to winter ahead, and perhaps a chance to make autumn dreams come true.

For Veterans' Housing

ON A SUBJECT which merits our earnest study, there again seems cause for optimism. We refer to the veterans' housing problem, where the outlook appears brighter, as recommendations come to light from the recent petitions to Ottawa, on which this column pinned high hopes.

The biggest housing news of the week came from Vancouver, where Reconstruction Minister Howe announced that Canadian municipalities had been asked to co-operate with the Dominion in a plan to provide veterans with 12,000 low-rental homes during 1948. The minister said under the new plan dwelling units would rent for between $27 and $37 a month.

The houses would be built and financed by the Dominion in municipalities which agreed to provide land and services. And if the cost of the land and service exceeded $600 per unit, the Federal government would make up the difference.

In addition the Dominion would boost payments to municipalities in lieu of taxes from their present $24 to $30 a year per unit to $70, $75 and $80 annually on four, five and six room houses. And the new houses will be of modern design to get away from the stereotyped style of wartime-built dwellings.

— These are the sidelights on financing, which in terms of the dollar may bring the housing problem down to earth for many a harassed veteran. But obviously, every silver lining has a cloud; and the Central Housing Mortgage Corporation adds this touch of gloom. Here, officials state that building costs have gone up 11 per cent since the first of the year and probably will go higher; that it is taking contractors longer to complete houses now, and that future prospects are that more and more families will be clamoring for homes. . . We hope the officials are wrong!

Good Manners

ETIQUETTE is a part of mental health practice, according to current reasoning; it rounds out the picture of a healthy mind in a healthy body. "Manners, in addition to making the man, makes the healthy and happy man". — This statement is based on the assertion that the mannerly person, being socially more acceptable, is correspondingly happier, and hence healthier.

Postponable Worry

WE MENTION for the benefit of those who have to have something to worry about that, for the fifth time in its history the earth is to be swallowed up by ice in a renewed "ice age". The authority for this bleak prospect is Andrew C. Lawson, professor emeritus of geology of the University of California. As Canada was one of the starting points of the preceding ice ages, and probably would be so again, Professor Lawson's reflections are of interest. "I believe", he says, "that the ice ic going to come again. I see no reason why we should expect the pattern to change. It won't be long, geologically speaking".

If you have any pressing worries however, you can file this away for a time. "It won't be long, geologically speaking", the professor explains, simply means a matter of some 200,000 years.

Thanksgiving

By M. V. Trayers

This week our nation has briefly paused for the great festival of Thanksgiving. It is a day of stocktaking in our midst, as we review the bounties that have been added between seedtime and harvest. This year of all years, Thanksgiving Day has a richer significance, because the harvest has been great and good.

The student of international affairs may retort — "Thanksgiving, a mockery! What thanksgiving, with the world spending millions a day preparing for the next war? Perhaps for dissolution of the world itself. What cause for thanks in a world criss-crossed with class and nationalistic hatreds? What have we to be grateful for when semi-starving millions throughout Europe and Asia are being moved as pawns in a chess game of sinister design which, for unscrupulous and insidious principals, would put Machiavelli to shame or reveal him as a mere piker? Thanksgiving — while the shadows of new dictatorships cast a widening stain of fear across the globe! And in the offing is heard the vaunting cries for new world conquest. Thanksgiving! Don't make me laugh".

Focused against the sombre scene of International affairs I am afraid our Thanksgiving has a hollow ring. Nevertheless, our family festival of the harvest has been a day of reverent gratitude. Canada, thank heaven, is still exempt from the frightful toll of the gaunt horseman of the Apocalypse. Our nation has not yet fallen prey to the class and nationalistic hatreds that abound elsewhere. We are a family at peace with ourselves and with our neighbors. The boundary line separating us from a friendly power remains as one of the few symbols of sanity in an otherwise insane world.

Our harvest festival of Thanksgiving is timely and appropriate. The seedlings planted by our forefathers have produced a richer harvest than they dared dream of. We endured the enormous toll of a great war. We survived the worst depression the world has ever known. And we have emerged as a stronger, wiser and even richer nation. This fall, thousands of young men and women have entered our halls of learning. They are full of hope and energy for the greater task which lies ahead. They have greater cause for Thanksgiving for the greater opportunities which loom ahead than ever their elders had, and their advantages are illimitably greater. Thanksgiving: we have lots to be thankful for. We are thankful for the vision and foresight which enabled our forefathers to people this great country that scarcely sufficed to maintain a hundred thousand savages. We are thankful for the channels of occupation open to every one of us. We are thankful for the solid foundations which underlie our future, awaiting our initiative and daring to grasp the prosperity and peace which is up to us to mold to our purpose. And we are thankful to God, who has watched over us and and guided us aright so that we might follow in His footsteps to the greater peace and security which lies beyond. . . Thanksgiving this year should mark a period of deep gratitude for all.

Auto Insurance Rates And Quebec Legislation

The Quebec Legislature will be asked to name a special committee "to recommend a type of responsibility law which would suit our code and which would be adopted at the next session", if the Congress of the Junior Chambers of Commerce of the province follow a suggestion made at a recent meeting of the Quebec Region.

At the last convention of the Junior Chambers in this group a resolution was passed calling attention to the fact that this is the only province in Canada which has no financial responsibility law and that, largely due to this, "only 25% of automobile owners carry insurance for damage to other people and accidents to other persons". As a result, the members feel that "the public is badly protected". . . In the other eight provinces of Canada and in 36 American States, such a law, they maintain, "has the effect that 80% of auto owners insure themselves for public responsibility and thus provide the public with efficient protection".

The Junior Chambers in Quebec Region do not favor compulsory automobile insurance because experiments with this type of legislation "have had the result of increasing the number of accidents and of tripling insurance losses".

The present situation in Quebec, the group contends, is responsible for automobile insurance rates which are "double the rates in other provinces without assuring adequate protection to the public".

On what friends could your wife depend?

A man may have scores of friends — good ones too — but it's a rare, rare case where he could depend on or expect his friends to look after his wife and family in the way they deserve, if anything happened to him.

The best friend a man can make for his wife and family — and one that he can depend on for practical help — is well-planned life insurance designed to fit his circumstances and his family's needs.

The Mutual Life of Canada has been providing just that kind of protection for nearly 80 years.

THE WEEKLIES SAY..

CAN AFFORD SAFETY

In Ontario there are many hotels without adequate fire protection. What good is a rope hanging by a third storey window? All hotels should have modern fire escapes and plenty of them. The practicability of automatic sprinkler systems should also be investigated. . . Owners can well afford to guarantee the safety of their guests, in every possible way. — Cobourg (Ont.) World

WELCOME IDEA

Decision of the town council to place a $5,000 minimum on all buildings to be constructed in this town, is a start towards building a town of beauty. The desire has been expressed a number of times by various council members to begin a proper zoning and building program with the long-range view of developing the town into an attractive community, with the present many disgraceful sights removed.

— Cambellton, (N.B.) Tribune

CHIEF'S GOOD WORK

Chief of Police Fox is to be congratulated upon the excellent way in which the police department conducted a special "safety week campaign" to combat the carelessness and recklessness of motorists. Whether the motoring public will profit by the campaign and govern their driving by the rules of common sense, courtesy and the traffic laws, remains to be seen.

Lifelong Resident Of East Settlement

The Late John Boa

On September 30, at the home of his son in East Settlement, there passed away after a lengthy illness one of the oldest inhabitants of that vicinity, in the person of John Boa. He was born some 92 years ago, the youngest son of John Boa and his wife Catherine Smith, on the homestead where he since resided. In 1887 he married Margaret Nicol, who predeceased him in 1916.

He leaves to mourn his passing one daughter and three sons — Mrs. Peter Gordon (Katherine), of Bethany, Leonard, of East Settlement, William, on the homestead, and Thomas, of Lombard, Ill.; also 11 grandchildren and three great grandchildren.

The funeral, conducted by the Rev. W. B. Rosborough, was held from Lachute United Church to the local Protestant cemetery. The pall-bearers were his six grandsons, Keith, Albert, Donald, William and Thomas Boa, and Elgin Alguire. Those attending from a distance included Mrs. John S. Boa, of Chicago, Ill., Mr. and Mrs. Thomas Boa, Lombard, Ill., and Mr. and Mrs. E. Alguire, Williamstown, Ont.

90-Year Former Teacher Visited by Old Pupil

Mrs. Poupore and Miss Bleau, of Fort Coulonge, spent the latter part of the week visiting Mrs. Annie Funcheon at the home of her son, Mr. W. H: Robert, Monalea. Mrs. Poupore, who was formerly Miss Anna McDonald, of Portage du Fort, was a pupil of Mrs. Funcheon's when she taught school in that town 65 years ago, and makes an annual visit to her old teacher.

Incidentally, Mrs. Funcheon celebrated her 90th birthday on Thanksgiving Day. She is a native of Cushing, being formerly Miss Annie Whelehan, and has a sister, Mrs. Elizabeth Hart, of Concord, N.H., who is also a nonagenarian, now in her 94th year. Both ladies are enjoying good health.

Mabel

Mr. and Mrs. David Black, of East Settlement, were guests of Mrs. James Black on Sunday.

Miss E. Kelly, of Montreal, visited Mr. and Mrs. Perley Clark on Thanksgiving Day.

Mr. and Mrs. Milton Townsend and children, of Port Credit, Ont., also Miss Edna Husband, of Montreal, visited Mr. and Mrs. Raymond Warwick during the holiday week-end.

Miss Shirley Heatlie, of Montreal, spent Friday with her parents, Mr. and Mrs. John Heatlie, before joining a group of young people from the B.U.P. Unions of Montreal, who spent the Thanksgiving week-end at Mr. and Mrs. Andrew Nicoll's home in Upper Lachute.

Mr. and Mrs. Truman Clarke, of Orillia, Ont., also Mrs. Richard Clark, of Brownsburg, visited Mr. and Mrs. Perley Clark on Tuesday of last week.

Mrs. John Heatlie was hostess to the Grenville Baptist Mission Circle on Tuesday evening last.

Grenville

Mrs. Duncan MacLellan, former resident here (her late husband having been the local C.P.R. agent for 20 years), has spent a month visiting in Lachute, also with her brother Mr. Hugh Cameron at Vankleek Hill, and calling on friends in this community. Mrs. MacLellan now resides at Hamilton, Ont.

Mr. Ward, Baptist student pastor in the Grenville field, who made many friends here during the past summer, has returned to college to resume his studies.

Miss Vera Gauley, of Montreal, spent the week-end here with her father, Mr. John Gauley, and her sister.

Mrs. Willie Gauley spent a few days recently in Montreal, visiting relatives.

Service was held Sunday afternoon at the home of Mr. and Mrs. R. Bennett, and was largely attended. The Rev. Wm. Leaton, pastor of Brownsburg, Grenville and Ogdensburg, conducted the devotions.

Brownsburg

The Rev. B. B. Brown, of Montreal, well known in this community as a former minister, will be guest preacher at the anniversary service in the United Church next Sunday morning, at 11 o'clock. Mr. A. S. Bird, also of Montreal, will be the special soloist.

Couple Bereaved

Sympathy is extended to Mr. and Mrs. Albert Gagné in the death of their little daughter, Linda Josephine. The funeral took place on Monday, conducted by the Rev. S. J. Pike, minister of the United Church.

Mr. Warner Norman, of Montreal, conducting the choral group in the United Church here Thursday evenings, was the guest of Mr. and Mrs. Russell Graham last week.

Christmas Fare for Overseas Families

The Senior Women's Association's afternoon tea and sale of home-cooking, in the United Church hall on Friday of this week, is a gesture to aid in their special effort to provide families in Britain with Christmas boxes. In this connection containers will also be placed at the church entrance on Sunday, and at Miss Kilgour's store during the week, to receive parcels and especially contributions for children.

Church Anniversary

Mr. Douglas Walkington, of Montreal, a recent speaker at the Rotary Club, will deliver the address at the service in the United Church next Sunday evening. Mrs. Johnston, also of Montreal, will be the soloist. The service is in connection with the church anniversary.

Boys attending the Scout meetings will be accommodated at the choral practices at the United Church for the Y.P.U. by Mr. E. Morrison, of Lachute High School, on Monday at 8.30 p.m. following their Scout meeting.

61 Years Married

Mr. and Mrs. John Graham, Sr., received congratulations last Sunday on reaching their 61st wedding anniversary — numerous friends and relatives calling to tender their good wishes. They also received the bouquet from the Broadcasting Station CJAD, "News on the Hour".

Michigan Wedding Of Interest Here

Odette - Smith

On Saturday, October 11, at 6 o'clock in the evening at St. Paul's Episcopal Church, Flint, Michigan, Frances Margaret Smith became the bride of Robert James Odette —the Rev. Charles May officiating at the candlelight ceremony before 250 guests.

The bride, younger daughter of Mr. and Mrs. James B. Smith, 3425 West Pasadena Avenue, came down the aisle in a gown of candlelight satin fashioned with bustle-back, sheer yoke and a bertha caught with pearl orange blossom clusters. Orange blossoms also held her finger-tip veil, and she carried a bouquet of feathered mums interspersed with Rapture roses.

Wearing a gown of fuchsia moire and carrying yellow mums, Mrs. Leo F. Mayer was matron of honor for her sister. Bridesmaids Dorothy Reese and Joan Odette wore lime green and pale orchid gowns respectively. Their flowers were deep red and pale pink. Carolyn Borden, the flower girl, wore yellow moire. David Rees was ring bearer.

Best man for his brother was John Odette. The ushers were James and Donald Smith, brothers of the bride, and David Reese.

Immediately after the reception at D.A.V. Home, Mr. and Mrs. Odette left for Alpena, the bride attired in a brown dress with yellow accessories. They will make their home at 2107 Pasadena Avenue in Flint.

The bridegroom is the youngest son of Mr. and Mrs. Preston L. Odette, of Clio, Michigan. The bride is the granddaughter of Mr. and Mrs. John Cunningham and Mr. S. E. Smith, of Lachute.

Visit to Granby And Kiwanis Club

Returning just recently from the west, and its beautiful scenery, it was our privilege last week-end to spend a few days in the district of Granby, where though not as rough and rugged as the Rockies, there are mountains almost as high and grandeurs which captivate the eye.

We were guests of Mr. Walter Legge, Editor of the Granby Leader Mail and Mrs. Legge, at their summer home on Lake Libby, 18 miles from Granby. From this lake on which there are about 50 cottages one can look for miles and particularly at this time of the year, with the varied color foliage and rows of hills in the background the scenes are most pleasant. Here and there a red roof with green pastures and well kept hedges reminds one very much of a "bit of old England".

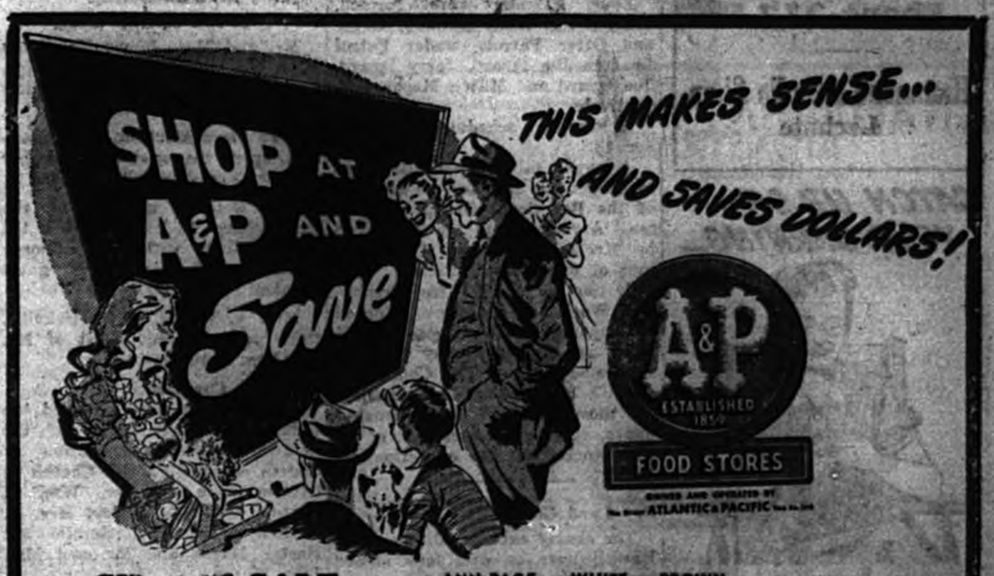

Many lakes surround this district and as we took a drive through to Orford we were delighted with their beauty.

Returning Monday to Granby we were privileged to give a talk on "Newspaper Week" to the Kiwanis Club, later going through the new and up-to-date building and printing plant owned by Mr. Legge, leaving about 9.30 for home, after a delightful Thanksgiving holiday.

"As clear as if you were here!"

THROUGH THE YEARS, neither time, effort nor expense has been spared to give you clearer, better telephone service. Indeed, today's telephones are actually four times as clear and free from noise as those of not so many years ago.

You get more service, too. We're completing unfilled orders — just as fast as we can get the necessary equipment. And as more telephones are added, it means more people whom you can call—more service, clearer service, and always at the lowest possible cost. Altogether, telephone users today get greater value than ever before.

Brownsburg Boy Scouts

Brownsburg—The First Brownsburg Troop Boy Scouts commenced activities for the season last week under Scoutmaster R. B. Elliott, assisted by Messrs. Arnold Waller, Joe Prell and Jack Reade.

Four Patrols were formed, namely the Wolf, Bulldog, Eagle and Otter Patrols, under Patrol Leaders Jim Izzard, Jerry Izzard, Joe Izzard and Milton Mason, respectively.

A hike was scheduled for October 18.

A paper salvage collection was made October 4, under the auspices of the Boy Scout Group Committee. Arrangements were handled by Mr. John Duncan. About two tons of paper was collected. This collection preceded Fire Prevention Week and therefore afforded an opportunity to dispose of old paper and help a worthy cause at the same time. The Committee greatly appreciates the kindness of those citizens who donated paper, also the co-operation of all who worked on the collection.

KEEP WELL INFORMED ON TODAY'S NEWS

There is only "one world" and that is your world! It is in your own interests to keep abreast of the daily happenings at home and abroad—today's news. Some events will concern you and affect your everyday life. Only by a better understanding of them will you be able to distinguish between conditions that can and should be changed, and those which can't be changed and must be accepted. In this way, you will be better equipped to help your own community and to practice "Good Citizenship".

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citizenship.

Hello Folks!

"An important part of my diet ever since my first bottle has been Crown Brand Corn Syrup. Now, that may be all right for a little character like myself, but let me tell you, these grown-ups sure are lucky what with Mom serving them Crown Brand Corn Syrup with so many of their dishes. And she uses it in her baking, too, as a sweetener. I can hardly wait until I'm old enough to have some hot waffles or pancakes smothered with delicious Crown Brand. If it's as good as it is in my cereal—mmmmm!"

For years doctors have recommended the use of Crown Brand Corn Syrup as a satisfactory carbohydrate acting as a milk modifier for bottle-fed infants.

Sandwiches for the School Lunch Box

Nutritionists say if Junior is to make good grades at school he must be well fed. His lunch box must rate high marks — and, about this time, Mother is seeking new ideas for the lunch box.

The lunch should supply its full quota of necessary foods if the day's meals are to add up to 100%. A good lunch contains a protein (in the form of meat, fish, cheese, eggs, nuts or dried beans), a fruit or vegetable, frequently raw, and milk in the form of beverage, creamed soup, or dessert, as well as energy foods in the form of Canada-approved bread.

Many schools, nowadays, provide either milk or soup for the children, but it still is up to Mother to pack a lunch that "packs a punch".

The home economists at Ottawa offer some suggestions for substantial sandwich fillings. They also say that is simplifies making up lunches if a preparation corner is stocked with the equipment such as wax paper, little jars for carrying salads, the lunch box, etc. This saves many steps usually wasted in rounding up these items when the time comes to pack the lunch each day.

Savoury Liver Sandwich Spread

½ Pound of liver (pork or beef), 1 teaspoon salt, 2 cups of boiling water, 8 slices cooked bacon, ¼ cup sour cream, 2 tablespoons prepared mustard, 2 tablespoons of minced onion, ¾ teaspoon salt, ⅛ teaspoon pepper.

Simmer liver with the one teaspoon salt in boiling water for 30 minutes or until tender. Drain and cool. Put through meat chopper with bacon. Add remaining ingredients. Store in covered jar in refrigerator. — Yield, about 1¼ cups of spread.

Peanut Butter Apple Spread

1 Cup peanut butter, ½ cup of apple sauce, ½ cup chopped fresh apple.

Mix peanut butter with the apple sauce. Add fresh chopped apple on whole wheat bread. — Yield, enough for 8 large sandwiches.

Note: If desired, apple sauce may be omitted and peanut butter blended with a little mayonnaise or salad dressing and chopped fresh apple.

Fruit Cottage Cheese Spread

1 Cup cottage cheese, ¼ teaspoon salt, ½ cup raisins or drained chopped canned fruit, cream, salad dressing or mayonnaise.

Chop fruit. Mix thoroughly with cheese and salt. Moisten with cream or dressing to spreading consistency. — Yield 1½ cups.

TO BE POPULAR insist on serving Maxwell House coffee. It's packed 2 ways. In *Super-Vacuum Tin* (Drip or Regular Grind) or *Glassine-lined Bag* (All Purpose Grind).

Manitoba Family Has Gathering of Local Clan

Octogenarians, Born in This District

Mr. and Mrs. Ed Hammond of the Woodbay district — reports a recent issue of The Western Canadian (Manitou, Man.)—have had a gathering of the Hammond clan lately, the reason being that Ed's mother, Mrs. Margaret Hammond, 84, was entertaining her two sisters, Mrs. May (Cruise) Lockheed, 86, of Montreal, and Mrs. Clara (Cruise) MacLean, 82, of Wainwright, Alta.

These three ladies were natives of this community, born and brought up at Louisa, and it is 49 years since they were together.

Another member of the party — states the western journal — was Mrs. Mary (Smith) Reed, 86, of Winnipeg, who was a former Lachute lady; also a friend Mrs. McMullen, of St. Lambert, who accompanied Mrs. Lockheed on the trip west.

"X-ray is a wonderful invention, but women have been seeing through men for ages".

Wolf Cub Pack

The 1st Lachute Wolf Cub Pack met Monday afternoon to enjoy a hike to the mountain lookout. The program consisted of a treasure trail, and a ball game on return to the High School. The boys enjoyed their lunch on the mountain overlooking the town. Cub Kenneth MacTavish was the winner of the hunt, but in his haste he twisted his ankle. This gave the boys an opportunity to try their skill at stretcher making, at which they proved themselves experts. At least, Kenneth withstood the ride as far as Farmer Brown's!

At the regular meeting on Tuesday the Black Six led in the points contest, with 170 points. All enjoyed the evening and are planning for a Halowe'en party on November 1.

Special Events For Anniversary Of B'burg Church

INSPIRING MESSAGES AT SUNDAY SERVICES

Brownsburg — Services at the United Church, Brownsburg, very appropriately observed its 106th anniversary, the 95th milestone of the first building, and the 39th of the present structure. Despite the slight break in the weather large congregations gave striking evidence of their appreciation of the occasion. The Rev. B. B. Brown, interim-minister of St. James United Church, Montreal, was guest preacher at the morning service and brought a heartening message on "Fellowship", as applied particularly to the life and work of the Church.

Taking his texts from Acts 2:42 and I John 1:3, Mr. Brown spoke on the three-fold measure of Fellowship which was "Of the Spirit," "Of Service" and "Of Suffering". Mr. A. S. Bird, also of Montreal, sang an inspiring solo, "Jesu, Lover of My Soul," accompanied by Mrs. Bird. Both Mr. and Mrs. Brown were glad to renew acquaintances of former days and exchanged many gretings at the close of the service.

The evening service was under auspices of the laymen, and the speaker was Mr. Douglas Walkington, of the C-I-L, Montreal, his subject being, "Words, Words, Words". The speaker made much of the words so often misplaced and misapplied with entirely different meanings. The word "cleave", for example, meaning to part asunder, and also to "cleave unto". Again with the word "let": free to do and yet denoting against, an impediment. Introducing his address from I Cor. 14:9, Mr. Walkington used the word "Christian", giving it its proper connotation in character building and application in true "Christlike" living. Concluding this very practical message, Mrs. F. Johnston, also of Montreal, sang "I Want to be a Christian in My Heart". The men's choir led the singing for the service, accompanied by Mr. S. Rose, a special number being "Greater is He that is in You, than He that is in the World".

Mr. and Mrs. Walkington were also accompanied by Mr. and Mrs. G. Russell as well as Mrs. Johnston who, with the members of the choir, were entertained at the manse following the service; there, with other numbers by the group, Mrs. Johnston sang "The Stranger of Galilee".

• • •

The anniversary concert on Tuesday evening in the church auditorium under the Men's Choir was a great success. The various numbers under the direction of Mr. S. Rose were well acclaimed, including the opening and closing choruses. Those taking part included Messrs. H. Barrie and R. Wallace in an instrumental duet, and E. Morrison, of Lachute High School, in a piano solo; a male quartet, T. J. Anderson, F. Hazel, T. G. Pasco and F. Hosgood; and a saxophone trio, A. Clarke, D. Reid and J. Paell, accompanied by L. Lupien. Songs were rendered by T. G. Pasco, Owen Todd, J. Heatlie and F. Steere, a piano-accordion solo by G. Anderson, and readings by C. J. Wheeler, A. Waller and the Rev. S. J. Pike. Accompanying the various vocal numbers were S. Rose and E. Morrison. All the items were warmly encored.

The concert, which according to certain predictions, may be repeated elsewhere, opened with "O Canada", and closed with the national anthem after due thanks were extended to the various artists and especially to Mr. Sam Rose as the master of ceremonies.

Two License Plates For Ontario Cars

Discontinued during the war in the interests of economy, dual license plates will again appear on Ontario vehicles in 1948, the Ontario Department of Highways announces.

Next year's plates will have white figures and letters on a dark blue background. The design of the plates has not been altered except for a change in the Crown at the top of each plate.

Reports now indicate that most of the provinces and states are reverting to the two-plate system, which is recognized as essential in the interests of law enforcement.

DON'T TOUCH FAWNS

Unless a fawn is obviously in trouble . . it should be left strictly untouched by human hands. . . . Once a fawn acquires the "human scent" the mother will desert it and the fawn will likely die.

Salvation Army 'Red Shield' Drive

The Salvation Army's annual Red Shield Campaign — concerning which this newspaper has carried advance notices — is being conducted in this district during the current week, October 20-28. While no personal canvass is being made, the appeal has been directed by mail to the attention of local citizenry. The work of the Salvation Army in the Montreal area during 1948 will require an estimated $125,000, and it is hoped to attain this objective in order to carry on all phases of this worthy enterprise. The support of all well-meaning citizens is solicited in the campaign.

Honary treasurer for the collection in this community is Eric A. Hibbard, manager of the Bank of Montreal, and any donations handed or mailed to him will be forwarded to headquarters and gratefully acknowledged.

Waiting for Tragedy On Civic Doorstep?

Internal injuries — facial disfigurement — a severed tendon causing probable permanent handicap — another auto for the junk heap. . .

This list of casualties (only part of the toll in Saturday night's crash at Barron's Bridge) may stir some casual interest. And it may at last stir the Lachute Town authorities to action.

There have been many costly accidents at the curve approaching this bridge. Hitherto The Watchman has been a lone campaigner for safety measures to warn all strangers of the hazard. Now, there is a certain public indignation to impell the cause.

But why this delay? It should require no withering criticism . . it should need no corpses on the civic doorstep to incite concern for human life.

The remedy may be one of several devices — a flashing light, a checkerboard, a reflectorized sign, or ever improved street lighting — the matter needs study. But concerning the responsibility, there can be no doubt. It is urgently up to Lachute Town Council to call upon the Quebec Roads Department to remedy this hazard. And now!

Rotary Announces Courtesy Contest

Brownsburg — Believing that one often takes for granted many of the little courtesies or services extended in their daily life, the Vocational Service Committee of the Rotary Club are sponsoring a contest for the best letter sent in, describing one or more of these courtesies or services which the writer may have considered to be just a little more than he expected. A prize of five dollars will be offered to the person writing the best letter submitted weekly. The contest begins on November 6. Further details will be announced as the date approaches.

Late Clergyman Was Favorably Known Here

Many acquaintances here will regret the passing of the Rev. Dr. Lawrence H. Fisher, of Hampstead, Que., whose death occurred Tuesday in his 71st year. Prominent in the Montreal-Ottawa clergy of the United Church, Dr. Fisher retired from the active ministry last June. He was related in this town, and had occupied local pulpits on various occasions. . To his son and daughter-in-law, Dr. and Mrs. T. L. Fisher (the former Mary Hope), of Ottawa, and to his wife and daughter, friends extend sympathy in their bereavement.

WRONG TARGET

Protesting the "morbid and sensational headlines" is shooting at the wrong target. A newspaper can no more oppose public desires in its news pages than can the grocer who must stock the brands his customers want.

K. of C. Council Annual Banquet At Auditorium

200 ATTEND FUNCTION OF LOCAL COUNCIL

Tuesday evening was a gala occasion for the Knights of Columbus local council, No. 2752, when the annual banquet of this group was held at Lachute Auditorium under presidency of J. G. Lamontagne, Grand Knight. About 200 persons — members and their ladies — were in attendance.

Among the guests of honor was a well known and popular cleric of this district, Mgr. H. D. Brosseau, of Montebello, who spoke on the role of Christian womanhood in regard to the ideals of the K. of C. membership. Mgr. Brosseau also proposed the toast to the Church and to the Pope. Georges H. Héon, K.C., M.P., visualized his concept of true Canadianism. Dr. E. Lalande, district deputy of the Order, introduced the guest speaker of the evening, Justice T. A. Fontaine, who spoke eloquently on the theme of "Service".

Mme Bernard Gosselin entertained the audience with vocal selections, and was warmly applauded. The door prizes were won by Mme Gaetan Cousineau and Romeo Rousel, both of Lachute.

The event was considered one of the finest rallies in the experience of the K. of C. organization here, and a sincere tribute to Mr. Lamontagne, as Grand Knight and chairman of the occasion, was expressed among the gathering.

Runaway Car Hits Pedestrian

While parked Saturday night in the centre of Main Street, a car headed northward started to roll down the sloping grade and struck a man at the roadside. The pedestrian, Leo Decoste, of Lachute Mills, was conversing with three bystanders on the sidewalk while waiting for a bus. With his back to the auto, which had gained considerable momentum, he was hit unawares and suffered a fractured right leg. He was taken to the Providence Hospital and placed under medical care.

The mishap was investigated by Csts. A. Legault and H. Jones. The owner of the car, Jack Fraser, Lachute Road, stated he had left the auto in gear while he went to a nearby restaurant. The accident occurred shortly after 10 o'clock.

Urges Independent Roads Supervision

FREEDOM FROM POLITICS AND PATRONAGE

The Provincial Government was doing all it could to improve highways in Quebec and $40,000,000 was voted for that purpose at the last session, the Hon. Onesime Gagnon, Provincial Treasurer, told delegates to the 12th annual convention of the Province of Quebec Chamber of Commerce meeting at Quebec City recently.

Mr. Gagnon explained that $40,000,000 was voted to the Roads Department, $3,000,000 to the Colonization Department for roads in new districts, while $1,000,000 was being spent on roads into mining districts.

Mr. Gagnon criticized unfavorable comparisons made during the first sessions of the convention between Quebec highways and those of other provinces and the United States.

"Quebec cannot be judged on the same basis, because of its size and its climate. In the industrial zone of Ontario, for instance, a snowball melts away within a week and there is no snow left between Toronto and Hamilton as early as February".

It would take hundreds of millions of dollars to give Quebec a highway network comparable to that of the State of New York.

De Gaspe Beaubien, president of the Royal Automobile Club of Canada, said that "the traffic on your streets and highways has reached such proportions that it has become imperative to have a new over-all authority to supervise both urban and rural traffic".

Mr. Beaubien urged the establishment of an independent organism to supervise roads in rural districts and streets in urban centres of the province

"The entire administration of roads, construction of highways, transformation of streets and general maintenance, should fall under the full jurisdiction of this new body", Mr. Beaubien stated. "It would be a permanent one. It would be free from all political influences. It would be totally independent. Naturally, this body would report to the Government on expenditures, but patronage would become a thing of the past. The chief interest would be good roads".

Farm Forums Hold Rally at Arundel

(By Our District Correspondent)

Arundel — A Farm Forum rally was held in the United Church hall, at which there were 75 members present. The meeting was under the chairmanship of Dr. R. B. Henry. Principal speakers were Floyd Griesbach, secretary-treasurer of the Quebec Council of Farm Forums, and Mr. Johnston, of Carleton County, Ontario, who gave an interesting address on the work and projects of the Agricultural Federation in that county.

A motion was passed requesting the Minister of Agriculture to continue the ceiling price on grain and present feed essentials, also to cover any additional freight rates from the national treasury for the present crop year.

Mail Couriers Protest "Tenders"

The Rural Mail Couriers' Association of Canada, representing Canada's 5,000 couriers, met in convention at Guelph, Ont., to discuss the varied problems relating to rural mail delivery, and having especially in mind the deletion of the word "Tender" with all that it implies, from the present "tender contract" system.

At the present time practically every route is operating for an individual price on an individual contract. This is quite as it should be, but it is not right or just that three or four routes operating from the same office, practically the same miles to travel, and the same number of boxes to serve, should be working under contracts with hundreds of dollars difference in the contract price — the mail carriers contend. A circular issued by the organization states that this condition, in general, is not the courier's fault, but because he has a tender contract that has been set at a price determined by any person who wants to put in a tender. So often the bidder has some other field of endeavor and rural mail is the sideline. More often the tenderer has no experience concerning the work to be done, nor knowledge of the expense that rural mail delivery incurs, seeing only a monthly Government cheque coming in. Before the first cheque arrives he realizes that he has tendered too low.

The Postmaster General has told Parliament that the only qualification necessary is the ability to provide the necessary equipment. The Association, however, is made up entirely of rural mail contractors, and the members are fully convinced that a good courier requires more qualifications than just to be able to provide a horse and buggy.

Officers Elected in Rouge River Vets

(Our District Correspondent)

Arundel — Rouge River Branch 192 of the Canadian Legion met last week in the United Church hall, and the following officers were elected for the year:

President, Douglas Cooke, Arundel; 1st vice-pres., R. A. Craig, Weir; 2nd vice-pres., Dr. W. Morrison, Arundel; sec. A. Brown, Arundel; treasurer, J. G. O'Reilly, Kasil.

Executive — Dr. R. B. Henry, Arundel; F. W. Sutherland, Kasil; Harold Gordon, Arundel

Sergeant-at-Arms, G. Crone, Kasil.

Entertainment, R. R. Turner, Kasil.

The next meeting will be held on November 3 in the United Church hall, where plans will be completed for the church parade to be held Sunday, November 9. (Further details will be announced in the press).

All veterans who are interested in joining the Legion are invited to attend the next meeting.

SKYLARKS

Victoria (CP) — The English skylark, famed for its beautiful song, thrives in southern Vancouver Island, Dr. Clifford Carl, director of the Provincial Museum, said here. So far as known this is the only part of the North American continent where the bird has been introduced where it could live.

2 Seriously Hurt In Crash at Bridge

Two men in an automobile approaching Lachute from Brownsburg Road were seriously injured Saturday night, when their car overshot the curve at Barron's Bridge and broke through the cement curb and rail at the United Church manse, crashing into two trees. The accident occurred at about 11 o'clock, and according to witnesses the car was travelling down the highway at a considerable speed.

Injured were the driver, Pierre André Beaupré, 30, and his companion, Maurice Hétu, 26, both of Ste. Therese. Taken from the battered car in a semi-conscious condition they were conveyed by ambulance to the Providence Hospital, Lachute Mills, where they were attended by Dr. F. W. Fitz-Gerald. During the night they were taken to Montreal in two local ambulances and admitted to the Notre Dame Hospital.

Pierre Beaupré, the driver, was suffering from concussion and possible internal injuries. Maurice Hétu sustained a broken jaw and a cut near the right ear which required six stitches, also multiple lesions about the head, and a severed tendon in his left hand.

Considerable damage was done to the cement work and railings bordering the manse property. The automobile, owned by the Désy Drive-Yourself enterprise at Ste. Therese, was a complete loss. A considerable crowd gathered as the injured and the wreckage were removed from the site.

The accident was investigated by Traffic Officer Howard Jones, of Calumet.

Intriguing Story of Contrasts Told In Man's Conquest of Time and Space

Club Topic — "Development of Communications"

Brownsburg — The progress of communications — a marvel of everyday living which we accept more or less as a matter of course — was interestingly reviewed by E. J. Awishus last Thursday before the Rotary Club. Mr. Awishus, traffic representative of the C.P.R. in Montreal, was introduced to the members by Rotarian John Chalmers.

From the speaker's well developed topic, a few brief extracts will convey the trend of the story —an epic of human ingenuity recorded through history, from the earliest elementary signals to the latest miracles of electronic transmission. . . . .

In the days of the Pharaohs in Egypt, about 3500 years ago, it was a real labor to send a message even a short distance. An embassy had to load itself down with presents which were merely bribes to insure a warm welcome for a message.

Some of our telegraph messages of today would resemble a six-storey apartment house if put into the Assyrian form of imprints on bricks and cylinders of sun-baked clay or stone.

According to Greek legend when the city of Troy, after a long siege, fell, the news of the victory was sent to Argos in Greece by a series of fire beacons. Eight courier fires were used. When the first beacon on Mount Ida blazed out, to be followed by others along the route to Argos it meant only one thing — the fall of Priam's city.

In the middle ages, messengers and beacons were still used, but the carrier pigeon was added to the approved means of communication. However, pigeons had been known long before this period. In Solomon's time they were trained to carry messages.

As war dramatizes whatever it touches, it is interesting to contrast certain military events before and after the invention of the Telegraph. The United States declared war on Great Britain on June 18, 1812, chiefly because of British activities under so-called "Orders-in-Council". In an effort

Hit-Run Driver Traced to Papineau

A 3-ton truck backing into the Laframboise Hotel yard at St. Philippe Village at 11 o'clock Sunday night, dislodged four posts and left the veranda in a precarious position — the driver allegedly having left the scene without concern as to the damage. A neighbor drove hurriedly in the direction of Lachute and took note of the license number on the truck, which was reported to the traffic police.

On the following day Patrolman Albt. Legault, of Brownsburg, and Det. Leopold Dauphin, of Lachute, proceeded to Notre Dame de la Paix in Papineau County, and apprehended the driver of the vehicle. The latter reportedly admitted having caused the damage. He stated he was driving home Sunday night, but at St. Philippe, deciding to return to Lachute on account of fog, had turned his truck in the hotel yard. The man will face a charge of leaving the scene of an accident.

25 Years Superintendent Of Sunday School at Morin Hts. United

(Our District Correspondent)

Morin Heights — A Thanksgiving service in the United Church was conducted by Dr. Fisher, of Montreal. A pleasing feature during this service was a presentation made to Mr. J. D. Davis from the congregation, in appreciation of his 25 years as Sunday School superintendent.

Lachute United Y.P.U.

The meeting of the Lachute United Y.P.U. this week was convened by T. Clarence McNaughton on the topic of Citizenship, and the program consisted of a quiz, directed by Mr. B. A. Miller, and a sing-song, led by Mr. E. Morrison.

Next Wednesday the group will sponsor a Hallowe'en party, and all members and friends are requested to attend in appropriate costume.

Hawkesbury Legion Asks Grant for Hall

Hawkesbury — At the last meeting of Hawkesbury Town Council a request was voiced on behalf of the local organization of the Canadian Legion, for a grant of $300 to be used for making necessary repairs to a certain hall the Legion wishes to occupy as recreation centre and meeting place. The Council took no immediate action, but stated that the matter would be taken into consideration.

Neighbors Hold Shower For New-wed Couple

Mr. and Mrs. Stuart Armstrong were pleasantly surprised when feted at a kitchen shower last Wednesday at the home of Mr. and Mrs. Arnold Parker, Lachute Road. Master Donald and little Carol Parker entered the room with a gaily decorated basket filled with gifts, which the little girl presented to Mrs. Stuart Armstrong with a becoming speech. Mr. and Mrs. Armstrong thanked their friends for the gifts and good wishes. A social evening followed, and dainty refreshments were served by the hostess.

W. I. Aims in Post-War Transition Stressed at Semi-Annual Conference

Mrs. C. E. Conley, Provincial President Guest Speaker at County Gathering

"Battle of Bullets Now Battle of Ideas"

The semi-annual convention of the Women's Institutes for Argenteuil County was held in Lachute High School on Saturday, with Mrs. Robt. McFaul, county president, occupying the chair.

After the opening exercises two minutes' silence was observed for members who had "passed on to higher service" since the convention held last May.

The first discussion in the afternoon's proceedings was the matter of changing the day for future conventions, as some of the branches find it impossible to attend on a Saturday. This would necessitate the change of place, also, as the High School would not be available on weekdays. The secretary, Mrs. W. Shearsmith, was requested to contact members of the United Church Board, to arrange for future gatherings. Mrs. N. E. Smillie asked that a letter of thanks be sent to Lachute School Commission for use of the school premises in past years, and to suggest that if possible, when more rooms are available, the Institute might have the use of the school again.

A lengthy discussion took place on the County Scholarship, which the W.I. has sponsored for rural schools only, in the past years. As it was understood there is only one rural school operating in the county at present, it was felt this could not be called a "county" project. As opinions differed, it was decided to leave the matter over for further consideration, and that some definite conclusion be arrived at when the convention is held next May.

Since Mrs. Harvey Miller was not able to carry on as Home Economics convener, Mrs. Earl Rogers was appointed in her place.

Mrs. F. Barker, convener for Fair Work, read her proposed list for 1948, and asked for suggestions. As the list did not provide for the exhibit of "conservation" articles, some of the members felt that, with present high prices, conservation work should be greatly encouraged. A motion was passed that the Fair list be left in the hands of the Fair Work committee, and judges also be selected by that committee and their Home Economics conveners.

The roll-call showed a good attendance of members and visitors. Miss Shirley Heatlie led in community singing, with Mrs. J. Heatlie as pianist.

At this point Mrs. McFaul announced to the meeting that she had a pleasant surprise, and called upon Mrs. C. E. Conley, provincial president of the W.I., to address the gathering.

Mrs. Conley remarked this was her first visit to Lachute, and she was much impressed with the town and its surroundings. In a few well chosen words, the speaker asked the members to continue to strive for the aims and policies of the Quebec Women's Institutes — to widen their horizons and direct their thoughts not only to local and provincial affairs, but also to matters of national and international concern and "gain the lasting peace for which we are working". . "Canada now stands at the crossroads, and our battle of bullets is now to be a battle of ideas. As long as we have homes to which men turn, we have hopes. We can have no peaceful future unless based on spiritual power. No one generation can own the earth, and it is our duty to hand it to our children in as good condition as when we got it", said Mrs. Conley. She reminded the W.I. branches of the Quebec Service Fund; membership in the Associated County Women of the World; F.W.I.C. seals; the Personal Parcel scheme; the Save-the-Children Fund; Junior W.I. work. It was the responsibility of W.I. members to keep themselves well informed on price control, and all must concentrate their efforts to control soaring prices.

The watchword of W.I. members must be: "If you know something worthwhile, pass it on". The success of the largest organization is due to the democratic things of life, and the democratic way of living, concluded the speaker.

Mrs. J. MacKenzie thanked Mrs. Conley for being present and for her interesting talk. The chairman expressed a hope that the provincial president would visit here again at some future date.

The secretary was instructed to write Mr. A. Bothwell, county agronomist, concerning a Fair grant for 1948, and thanking him for past favors; also a letter of thanks to Mr. H. Dando, of Brownsburg, for plastic paper used in protecting Fair Work materials at the last Spring Fair.

There being no further business, the meeting was adjourned, and a social tea hour was enjoyed by the gathering.

Couple Retire to Live in Lachute

(Our District Correspondent)

Grenville North — Mr. and Mrs. Austin Lowe — who for many years owned and operated a general store and later moved to the old Cameron farm which they successfully operated — have now earned a rest and have moved to the town of Lachute. Mr. and Mrs. Lowe are very highly esteemed in their old locality, and friends and neighbors regret that they have left, even to reside in Lachute.

Raising Good Dairy Calves

(Experimental Farm News)

As the cost of raising a poor calf is almost as great as raising a good calf, the successful dairyman replaces his herd with calves from his best cows that have been bred to the highest quality bull obtainable.

Raising the dairy calf begins with the pregnant cow which has had proper feeding and care, particularly before freshening.

At the Central Experimental Farm, Ottawa, says V. S. Logan, of the Animal Husbandry Division, the calf is removed from the dam immediately. The dam's first milk is fed for the first few days. The importance of feeding this colostrum is most important as it contains both laxative and disease resistant qualities.

Whole milk is fed for the first four to eight weeks and is gradually changed to skim milk over a two-week period. Less robust calves are kept on whole milk for a longer period than the healthier calves. Care is exercised not to overfeed calves, about one pound of milk for each ten pounds of body weight. As the change-over from whole milk to skim milk is made, the butterfat is replaced by scalded flax seed meal which forms a jelly. As the calves develop, a mixture of three parts of ground sifted oats and two parts of flax seed meal, scalded, making a porridge to be added to the milk. The feeding of this porridge is gradually increased until at three to four months of age the calves are receiving a cupful of skim milk. At four weeks the calves are encouraged to eat a dry grain mixture of five parts ground oats, three parts bran, three parts oil cake meal, one part malt sprouts, one per cent salt. This is placed in a trough within easy reach. At five months a calf should eat up to two pounds per day.

Only the best quality hay available should be fed to calves. Second cut alfalfa or fine clover carefully cured makes a very good roughage. This is made available at about three weeks of age and fed in quantities that the calves will clean up. Succulent feeds such as silage or roots are fed, starting at about six months of age. Fresh clean water should be available at all times.

The feeding of vitamins to calves is recommended by some authorities. At the Experimental Farm no vitamin supplement is added, as it is considered that sufficient vitamin content is supplied in the ration. Under certain circumstances of apparent vitamin deficiency, the addition of vitamin capsules will alleviate scours and other types of unthriftiness.

To get the maximum returns from a dairy herd it must consist of well grown healthy cows. Careful attention paid to the type of calves raised and their early feeding is the best insurance toward this goal.

DANGEROUS DARES

Although they do not advise unduly curbing the spirit of adventure in adolescents, medical authorities say that there are some "experiments" which young people would be well-advised to leave until later in life. For instance, trying out the effects of tobacco and alcohol on a "dare" is dangerous business. Mature judgment and self-control are required to cope with such situations, and anyway, it is pointed out, neither tobacco nor liquor increase ability to study or result in lasting popularity in the fraternity.

OBITUARY

Many at Funeral of Former Railroader

The Late Jas. S. McAdam

Scores of friends and relatives, C.N.R. personnel and members of several Ontario lodges, paid sincere tribute at the funeral of the late James S. McAdam, former assistant superintendent of the C.N.R. in Montreal, who died recently at his home in Cumberland, Ont. He formerly resided in Ottawa.

The long cortege proceeded from the funeral parlors to Parkdale United Church, where service was conducted by the Rev. Dr. Norman Goll and the Rev. G. D. Campbell. Burial was made in Beechwood Cemetery.

Among those present were — Ald. George Pingle, R. H. Simmonds, C. W. Hawley, Harry Bond, George A. Wallace, A. J. Holtby, D. R. Holtby, J. G. Wilson, John R. Usher, H. E. London, J. H. P. MacLeod (president, C.N.R. Old Boys' Association), Major E. D. Wallace, H. R. Booth, Howard Matthews (general agent, C.N.R.), W. H. Greenway.

The late Mr. McAdam was born in Argenteuil County 80 years ago. His wife, the former Christina Cameron, predeceased him four years ago. He is survived by a sister, Mrs. Hillman of Montreal, and by two neices, Mrs. McMeekin of Montreal, and Miss Loretta Cameron of Cumberland.

Among those attending from a distance were Mrs. J. O'Brien, of Chatboro, Mr. W. R. McAdam, of Chapleau, and others.

Mr. McAdam was a member and a steward of Parkdale United Church. For several years he served as an elder of St. Giles Presbyterian Church, Ottawa.

Know Quebec Better . . . .

"A Bird in the Hand . . ." — *Photo Courtesy Service de Ciné-Photographie, Province de Québec*

Do you know Quebec? Do you know, for example, that our Province is a sportsman's land of plenty which offers a wide variety of game. Take partridge hunting. These wary birds with the quick-beating wings abound throughout the forests, and particularly the hard wood stands. The season for Spruce Partridge and Canada Grouse extends from Sept. 20 to Nov. 19. The bag limit is 5 birds per day, possession limit 15 per person. Such a heritage of wild life is wisely protected, not only by the government's Departments of Lands and Forests, Game and Fisheries—but by the far-sighted policies of individual rod and gun clubs and conservation groups which have now formed into a conservation federation.

Such guardianship assures good hunting in days to come not only for our own people, but also the millions of visitors who annually spend their vacations in Quebec. Similarly applied to Quebec's other national resources, conservation means the wise development of this land of promise . . . a direct contribution to the future of Canada and the widened opportunity of individual Canadians.

The Cost of Living

ABOUT the rising cost of living — upon which we ruminated last week from the sorry viewpoint of the pensioners and white collared gentry — Finance Minister Abbott has had something to say in a radio address from Ottawa.

Mr. Abbott issued a warning to business men that it would be unwise and poor business to "make a killing" through price increases. Business in its own long-run interest, as well as in the national interest, must keep its prices down and its profits within reason.

Even if the government believed in price control in peacetime, the Dominion is not allowed by the constitution to control prices, said Mr. Abbott, and it had done so only through war-time and post-war emergency legislation that soon was to expire.

Getting back to the Canadian business man, the Finance Minister warned him flatly that, in order to survive, the system of private enterprise must justify itself by results. In other words, Canadian business should keep its profits modest and its prices within reason.

. . . So much for private enterprise. But the matter of moment is the high cost of living — now soaring to an ultimate peak of 140-145, if Mr. Abbott's anticipations are accurate. High prices, and the H.C.L., still to a considerable degree hinge upon high taxes, however; and this is where the Minister of Finance is more directly concerned. The treasury is rolling up a sizeable surplus. In the six months to October 1, the Federal income increased $37-millions this year and its spendings decreased $326-millions, making a surplus in that fiscal period four times greater than the corresponding total in 1946.

In consequence, if taxes are not very substantially reduced with the next budget — the income tax, the tobacco tax, the luxury tax, and all such imposts levied upon long-suffering citizens — then it will be facetious for Mr. Abbott to blame the cost of living index wholly on private enterprise.

Health Factor in Personality

CLEANLINESS may be next to godliness, but it's also linked up with self-preservation. . . In one of a series of bulletins aimed at getting parents to keep their children on the straight and narrow path to physical and mental well-being, the Health and Welfare Department at Ottawa warns that: "It's sheer self-preservation to keep hands and nails clean, for disease can spread rapidly from the germs they may harbor."

Everything from etiquette to the human voice is touched on in this collection of advice from the department — and it all is tied up with health and happiness.

Voices influence others, and if a person has a pleasing voice, that improves the personality and acceptability. Monotonous, shrill and high-pitched voices as well as slurred and mumbled words lessen chances for happiness.

Temper tantrums, grouchiness—the average person may get away with such behavior on the occasional "off day," but if he's continually in a mood then he had best see his family doctor. Chronic crossness and irritability is a sure sign of poor health — the well, and well-poised, person has all emotions under control.

"Martyrs" to illness are urged to battle their ailments. Instead of "grinning and bearing it" the person who actually seems to enjoy being an invalid should strive for better health. In many cases such fear and worry is nothing more than a form of self-indulgence, the health authorities claim.

And finally the health factor is important if it's a pleasing personality you're after. The fit person is more likely to be cheerful, full of life, and above all, tactful.

Co-operation Counts

INTERDEPENDENCE in Canada-United States trading relations were illustrated at the recent conference in Toronto of a committee of the United States House of Representatives with the Canadian newsprint industry.

Conversations indicated that careful cultivation of goodwill is required, and that it would be well if Canadians and Americans with mutual interests met together often to talk things over.

Right now United States publishers couldn't operate without Canadian newsprint; similarly Canada's great manufacturing industry wouldn't exist in its present form without the American market.

It was said, however, that resentment had developed among some small American publishers who felt they were not getting their share of newsprint and that some of this had been directed at Canadian mills. It also developed that a very small redistribution would have avoided most of the bad feeling.

A minority of American distributors were blamed for the trouble and Canadian manufacturers felt they were not at fault. All sides to the discussion agreed, however, that any problem could be solved through co-operation, leaving some listeners wondering whether such vital co-operation could be arranged to operate more quickly.

The discussion revealed that tremendous political pressures can come on Congress through discontents here and there and indicated that if one operates in the American market it is well to be familiar with all factors that make up the American way of life.

The American chairman, Clarence Brown, made out the best case he could against increase in prices. Aside from the merits of the matter this was probably his duty. However, he did point to one of the hazards to which Canadian-American business is liable when he said there was already legislation before Congress advocating establishment of newsprint mills in United States territory with government subsidy.

The American market for Canadian newsprint seems relatively safe, however, at least for the time being, because there is nothing in sight to replace it, though even small competition might be felt in more rigid times.

Also, the Canadian industry has a fund of goodwill among many publishers who feel it might have sought higher prices elsewhere.

Carillon Power

SENTIMENTS of the neighboring Ontario counties as regards Carillon Power, are voiced by Le Droit (Ottawa) as follows:

Hawkesbury is particularly interested in the establishment of new industries and of making use of the potential hydro-electric power resources at Carillon. To attract industry cheap power is a first essential. Hence development of that power must have first priority. Industry will follow the power. This is a project which merits the support of all the population of Eastern Ontario.

Slow-Down

IN BOSTON, the painters' union prohibits the use of brushes more than four inches wide. Why? Here's the answer by Ernest A. Johnson, secretary-treasurer of that city's Building and Construction Trades Council. He says:

"If a larger size were used it would not be physically possible for the workman to push a bigger brush all day. Try it some time and find out."

But out West, where men must be stronger, the Los Angeles union allows a brush 6½ inches wide to be used on most surfaces. So far there have been no reports of painters dropping from exhaustion.

— Wall Street Journal

Man's Conquest of Time and Space . .

(Continued from page 1)

to smooth over a delicate situation, the British rescinded these orders but did so eight days after war had been declared and without any knowledge whatsoever of such a declaration.

The invention of the telephone is of particular interest to Canadians. We should not forget that it was at Brantford, Ontario, that Alexander Graham Bell conceived the idea, in 1874, of an instrument which would transmit the sound of the human voice. Bell's first telephone was a crude affair — just a wooden framework with a piece of membrane stretched over the opening after the fashion of a drumhead and in touch with a magnet.

Today, while Morse telegraphy is still being used, the teletype has brought as great a miracle of communication as when Morse sent his first message. By means of the teletype any typist can send a telegraph message which can be received even when the receiving station is unattended.

Further developments were, however, taking place right along. In 1904 Dr. Lee De Forrest quite accidentally stumbled on the idea of the vacuum tube; telephone scientists undertook to make of this audion tube a telephone repeater, and out of that undertaking came all the great advance in communication science which shortly followed.

As you know, this vacuum tube amplifies electrical waves and sends them along with renewed vigor. Up to this time telephone conversations were limited to 1500 miles, but this invention removed all distance limitations and today, you can pick up your telephone and converse with any one of 38 million telephone subscribers throughout the world.

The next important step was the development of the carrier telephone system. The same principle also provided carrier telegraph systems. By this method it is possible to carry on a number of separate telephone conversations, or in the case of carrier telegraph, to obtain as many as 36 separate telegraph circuits from one pair of wires.

This in turn has made possible the Radio Broadcast Transmission service, which without this system would have required the stringing of a considerable number of additional wires at a considerable cost and which even then would not have been of the high quality required for this service.

Today radio programs from all over the United States and Canada, and short wave programs across the Atlantic and Pacific, are carried over wire lines to all the stations in Canada.

We who live in this wonderful age are inclined to accept the miracle of communications — and miracle it is — as a matter of course. Today, in addition to the telegraph and telephone, we have the radio-telephone, the wireless telegraph, teletypewriter, television and many other electrical marvels. We can talk across the Dominion; we can send messages from continent to continent; by means of radio we can hurl voice waves thousands of miles through space without the aid of wires; and by means of telephotography, we can see a picture in the afternoon issue of a Canadian newspaper that was only taken in London that morning. . . Suppose they were all suddenly removed! Imagine the confusion that would prevail! Imagine what it would do to your own way of living. Indeed, we live in a marvellous age.

The speaker, was thanked by Rotarian John Davis. Chairman of the gathering was Rotary President Wesley Freeland.

When I look at our Savings Bonds... I see a modern kitchen

WHAT WOMAN doesn't want to improve her home . . . whether she lives in city or country? . . . Kitchen, bathroom, living room, playroom, verandah . . . there is always something that can be done to make work easier, life more comfortable. But such plans take money — and most women want to be sure they can be properly carried through before they start.

That means savings, and that's where Canada Savings Bonds come in. You may purchase up to $1000 in any one name. They are as safe as Canada, and may be cashed at your bank at full face value any time. They pay 2¼% interest for good measure, and are registered in the owner's name for protection in case of loss. They may be bought for cash or on easy instalments.

The whole family can get behind your plans to make your dreams come true with Canada Savings Bonds. Consult your bank or investment dealer today.

You'll never be sorry you saved!

Births, Marriages and Deaths

Births, Marriages, Deaths and In Memoriam, etc., 50c; 5c per type line extra for verses with In Memoriam.

DEATH

FLETCHER — At Brownsburg on October 19, 1947, in his 58th year, William J. Fletcher, beloved husband of Minnie Guthrie. Funeral held Tuesday from his residence to Brownsburg United Church; interment in Cushing Cemetery.

IN MEMORIAM

ARTHURS — In loving memory of my dear mother, Mrs. Joseph Arthurs, Sr., who passed away October 24, 1945. — Always remembered by her daughter, Hazel.

CROSS — In loving memory of my dear husband Walter Thomas Cross, who passed away October 23, 1946. — Ever remembered by his loving wife.
"God takes our loved ones from our homes,
But never from our hearts".

GAIN — In loving memory of Robt. Gain, who departed this life October 23, 1944. — Ever remembered by Wilma.
"Three years ago today, dear brother,
God took you home on high,
And though we're parted here on earth
We'll meet some day on high".

GAIN — In loving memory of my dear husband, Robert A. Gain, who passed away October 23, 1944. — Lovingly remembered by his wife, Edith.
"You really have not left me, Bob,
I constantly think of the past,
Each day I remember something and say
'Bob used to do this and that'.
And so it will be each day
As I journey along life's way,
It's the beautiful memory you left behind
That eases my heartache today."

TEACHERS SCORN MASS EDUCATION

Vancouver (CP) — Mr. and Mrs. J. L. Burtt, who have spent 25 years teaching in small British Columbia towns, said in an interview here that they believed the country youth is better off than youth in the city.

"Small town methods of schooling for the younger children offer the best opportunities," said Mr. Burtt. "We may be a bit old-fashioned, but we have no use at all for present day 'mass production' education and its spoon-fed students."

IN MEMORIAM

CROSS — In loving memory of our dear father and grandfather, Walter Thomas Cross, who passed away October 23, 1946. — Ever remembered by Olive and Eddie.
"Loving and kind in all his ways,
Upright and just to the end of his days,
Sincere and kind in heart and mind —
What a beautiful memory he left behind."

KETTYLE — In loving memory of Jimmie, who passed away October 20, 1943. — Always remembered by Doris and Eddie.
"Sweet are the memories that never fade
Of one we loved and could not save".

McFAUL — In loving memory of my dear wife, Mary, who passed away October 16, 1929. — Ever remembered by her husband, Archie.

STONE — In loving remembrance of a beloved husband and dear daddy, Alton Stone, who entered into rest October 29, 1944.—Ever remembered by his wife and children.
"Time speeds on, three years have passed
Since death, its gloom, its shadows cast
Within our home, where all seemed bright,
And took from us a shining light".

MOST MOTHERS DO THIS

If Baby Has A Cold

AT BEDTIME rub throat, chest, back with VapoRub. Relief-bringing action starts right away...

WORKS FOR HOURS while child sleeps. Often by morning most distress of the cold is eased.

Best-known home remedy you can use to relieve distress of children's colds is comforting Vicks VapoRub. Even while you rub it on, VapoRub starts to work to ease distress...and it keeps on working during the night. No wonder most mothers do this when a cold strikes. Tonight, try VICKS VAPORUB

Special Speakers at Devotions Next Sunday, St. Andrews United

(Our District Correspondent)

St. Andrews E. — The service at the United Church on Sunday morning, October 26, will be of special interest to men. Mr. F. N. Stephen, principal of the Commercial High School, Montreal, will be guest speaker. Mr. Stephen has been superintendent of the Calvary Sunday School for many years, and also president of the Dickens Fellowship. He was associated with the Rev. Capel at the Knowlton Conference Camp for a number of years, and later he conducted a summer camp at Knowlton. . From these and other interests in the educational and religious circles of Montreal, Mr. Stephen has gleaned wisdom and understanding. He impresses one as a man with an unquenchable zest for living — real living.

The autumn Thank-Offering service of the W.M.S. of the United Church will be held on Sunday evening, October 26, in the United Church. Mrs. F. N. Stephen, president of the Montreal Presbyterial, will be guest speaker. Mrs. Stephen has held office on the Presbyterial executive for many years, having served as literature secretary, baby band secretary, on the nominating committee, and other offices.

Ministerial Association

The regular monthly meeting of the Argenteuil Protestant Ministerial Association will be held at 10 a.m. on Monday, October 27, at the United Church manse in St. Andrews East. All the Protestant ministers of the district are urged to attend.

Religious Film To Be Presented Saturday Night

Under auspices of the Saturday Night Rallies, the Christian sound color film produced by the Moody Institute of Science, "God of the Atom", will be shown in the Lachute Auditorium on Saturday of this week, at 8 p.m.

"God of the Atom" is a 50-minute presentation dealing with atomic energy, and including sequences of the cyclotron and the Bakini tests. This is the second picture in a series. "The God of Creation" was shown last year. A film now in preparation deals with undersea life.

This picture has been widely in demand in its first introduction to Montreal, and has been shown in churches, high schools and colleges. Parents, students and teachers are particularly urged to see this film.

An additional feature of this week's Rally will be three automobile loads of singers and musicians from Montreal, to take part in the program. Everyone is welcome. A free-will offering will be received.

Pretty Ceremony at Presbyt'n Church

McFaul - MacRae

The marriage of Annie Christina, daughter of Mr. and Mrs. Donald MacRae, of Lachute, Que., to Mr. Stuart Edmund McFaul, son of Mr. and Mrs. Stuart John McFaul, of Lachute, took place Saturday afternoon, October 18, at four o'clock in the Margaret Rodger Memorial Presbyterian Church, the Rev. Chas. Maclean, B.A., officiating. Mrs. W. M. Cottingham played the wedding music and Miss Helen McFaul sang "I Love You Truly" during the signing of the register.

The bride, who was given away by her father, wore a gown of white slipper satin with fitted bodice, a net yoke with a bertha collar, long sleeves ending in points over the hands, and a full skirt with train. Her veil of tulle illusion, which had been worn by the bridegroom's mother at her marriage, fell from a halo effect caught with clusters of orange blossoms and she carried a bouquet of red Briarcliff roses and bouvardia. Her only ornament was a double strand of pearls, the gift of the groom.

The bride was attended by her sisters, Mrs. Campbell Munroe as matron of honor, and Miss Florrie MacRae and Mrs. John Brown, sister of the groom, as bridesmaids. They all wore frocks of gold corded taffeta on lines similar to that of the bride, with short sleeves, and long brown gloves and matching headdresses. Their bouquets were of yellow and bronze chrysanthemums.

Mrs. MacRae, mother of the bride wore an Arabian blue crepe gown with black accessories, her corsage being of Talisman roses. Mrs. McFaul, the groom's mother, wore a gown of grey crepe, with a turquoise hat and black accessories; her corsage was of red Briarcliff roses. Mrs. E. H. McCoy, grandmother of groom, was gowned in black crepe and she wore a corsage of Sweetheart roses.

The groom was attended by his brother-in-law, Mr. John Brown. The ushers were Mr. Reg MacRae and Mr. Hugh Brennian.

The Girl Guides, of which the bride has been Leader in the Lachute group, formed a guard of honor as the wedding party left the church.

A reception was held at the Lachute Golf Club, where autumn flowers adorned the tables, and over 140 guests were in attendance.

The bridal couple paid a visit to the bride's grandmother, Mrs. MacRae, who was unable to be present. Mr. and Mrs. McFaul left later by automobile for their wedding trip, the bride travelling in a grey gabardine suit with matching accessories. She wore a corsage of white gardenias. They will reside in Lachute.

Many guests from Montreal, Quebec City, Belleville, Ottawa and other distant points attended the wedding.

Couple to Reside At Howick, Que.

Younie - Simon

The marriage of Mary Isabel, eldest daughter of Mr. and Mrs. Douglas G. Simon, Lachute, Que., to Mr. Robert Wallace Younie, younger son of Mr. and Mrs. Wallace R. Younie, Howick, Que., took place Saturday afternoon, October 11, at half past three o'clock, at "Leawood", the home of the bride's parents, with the Rev. Charles Maclean officiating. Miss Joyce Walker, cousin of the bride, played the wedding march, and during the signing of the register, Largo was played.

The room was decorated with autumn leaves, yellow and gold chrysanthemums. Pink streamers held by eight guests formed an aisle in which the bride entered on the arm of her father.

The bride wore a floor-length gown of French dotted net over taffeta, fashioned with a tight bodice and a round yoke, baby sleeves and a bouffant skirt. She wore a scalloped-edge fingertip-length veil of tulle illusion, and carried a colonial bouquet of Talisman roses and bouvardia.

The bride was attended by her two sisters. Miss Helen Simon, as maid of honor, wore a floor-length gown of peach nylon taffeta, with matching mittens and headdress, and carried a bouquet of bronze mums. Miss Jean Simon, as bridesmaid, wore a matching gown of aqua nylon taffeta with matching mittens and headdress, and carried mauve mums.

Mr. Douglas McDonald acted as best man and Mr. Merill Tannahill as usher.

Mrs. Simon, mother of the bride, wore a pearl grey crepe dress with black accessories and a corsage of red roses. Mrs. Younie, mother of the groom, wore a vintage wine crepe dress with black accessories and a corsage of pink roses.

A reception followed the ceremony, after which the couple left by motor for the Muskoka Lakes. For travelling the bride wore a fawn tailored suit, brown accessories, and carried a brown gabardine coat.

The bride is a graduate of the Phillips Training School for Nurses, Montreal.

Mr. an Mrs. Younie will reside in Howick.

PREVAILING HABITS

The Christian Science Monitor tells of the personnel manager in a large organization who insisted on keeping a large bowl of goldfish on his desk. When someone demanded a reason for this rather novel bit of office equipment he explained that it was a relief to have something around that would open its mouth without asking for a raise.

PONTIAC

"The Finest Car of All in the Low-Price Field"

♦ Only a few dollars difference in price between Pontiac and the *lowest-priced* car! but oh — what a difference in power and performance! What a difference in comfort and styling! And what a thrilling discovery for owners of new Pontiacs! From every part of Canada they write to express their jubilant satisfaction with the silken-smooth engine performance — big, roomy body — marvelous handling and driving ease — unsurpassed dependability. Truly, their letters say, the 1947 Pontiac—the finest of the famous Silver Streaks — is also the finest car of all in the low-price field.

The stack of orders piled up for the new Pontiac are gratifying testimonials to the quality and beauty of this finest of the famous Silver Streaks. Unfortunately, so many orders also mean that many who choose Pontiac must wait. So if your car-wise head and heart say 'Pontiac' . . . your present car will give you better, safer service while you wait if you have it serviced by your Pontiac dealer.

A PRODUCT OF GENERAL MOTORS

• *"The writer has driven his new Pontiac over 10,000 miles without having any need for other than the 2,000 and 5,000 mile check-over. It's as quiet and smooth as the day it was driven out."* W. R. Shaw, President, Sturgeons Ltd., Toronto, Ontario.

• *"Our many drivers have only compliments to express when speaking of our Pontiac cars. The steering ease and driving comfort over cobblestone roads and narrow winding streets makes driving a pleasure."* A. Gagnon, Quebec, P.Q.

• *"I feel I have the best car in the low-price class for appearance, comfort, dependable performance, and economy of operation. I feel right up with the leaders, and for economy of operation my Pontiac beats any car I have driven."* K. H. Lazen, Truro, N.S.

• *"The new Pontiacs have demonstrated to us, without any doubt, to be the complete answer to our aim to provide good reliable automobiles to our many satisfied U-drive clients."* Andrew L. Grame, Andy's Service Taxi & U-Drive, Fort William, Ontario.

• *"As a motor mechanic familiar with all cars, Pontiac's powerful but quiet L-Head engine is my choice."* A. Brown, Regina, Sask.

• *"I am a farmer and I find that my new 1947 Pontiac model gives me perfect riding on all kinds of roads and in all kinds of weather. The large trunk space gives me plenty of room for all my produce."* Michael Klaibes, Medicine Hat, Alta.

• *"The 1947 Pontiac Six Sedan which I purchased from you has now travelled 21,350 miles in taxi service. In my opinion it combines more power, safety, comfort, style and durability than any other car in the low-price field."* James Rivers, Chatham, Ontario.

• *"During the past I have driven several makes of cars, but I find my new Pontiac beats them all for a really comfortable and luxurious ride. I feel Pontiac is the best buy of all."* Murray F. McLean, Truro, N.S.

• *"I have had a number of different cars in my taxi business but none that gives me the satisfaction of my 1947 Pontiac. Pontiac's powerful 90 horsepower L-head engine and straight stop brakes are very important in my business."* Alex Ott, Medicine Hat, Alta.

• *"I have no hesitancy in recommending Pontiac as the outstanding low-price car of the year."* Murray J. Wetherald, Dresden, Ontario.

• *"Truly Pontiac has finger-tip steering, I've never had a car handle as easily."* H. Bennett, Regina, Sask.

• *"We have several 1947 Pontiac cars, each of which has been driven more than 9,000 miles, and which has given extraordinary performance. In other words, they offer the same quality as much higher priced automobiles."* G. Gendron, Beauharnois, P.Q.

Steamed Pudding Desserts For October Appetites

The frost has touched the pumpkin and the leaves have carpeted the landscape. Those light, cool desserts so pupular during the summer months give way to something more hearty to satisfy October appetites.

Steamed or baked puddings and betties served with hot rich sauces are always favorites, and allow plenty of variety in desserts, especially if the storage shelves are well filled with canned fruits. Speaking of steamed puddings, many homemakers like to make their Christmas puddings early and put them away to mellow so that their flavors are well blended. There is also an added advantage in getting some of the extras done early so they are out of the way before the last minute.

One-crust custard and cream pies and deep meringue satisfy the sweet tooth. The home economists at Ottawa give these hints for a good meringue — one that holds its shape, remains dry, does not shrink or slide on top of the pie filling. The sugar must be thoroughly dissolved in the beaten egg white. The filling should be cool when meringue is spread on, so that no steam forms beneath it. The meringue should be anchored by spreading over to the edge of the pastry. A moderately slow oven 325°F., will brown a meringue to a golden color and cook it right through. This requires 12 to 15 minutes.

Steamed Christmas Pudding

1 Cup all-purpose flour (or 1 cup plus 2 tablespoons pastry flour), 1 teaspoon baking powder, ¼ teaspoon baking soda, ½ teaspoon cinnamon, ¼ teaspoon cloves, ¼ teaspoon nutmeg, ¼ teaspoon allspice, ½ cup raisins, ¼ cup mixed peel, ¼ cup candied or maraschino cherries, ½ cup suet (or ¼ cup mild flavored fat), ¾ cup soft stale bread crumbs, ½ cup milk, ½ cup molasses.

Mix and sift flour, baking powder, soda and spices. Mix fruit and suet (cut in small pieces) or fat into dry ingredients, using hands. Add bread crumbs, molasses and milk. Stir until well combined, — about 1 minute. Turn into a pudding mould, cover and steam 2½ hours. Six to eight servings. Pudding may be made in advance and reheated thoroughly before serving.

Hot Fluffy Chocolate Sauce

1 Square unsweetened chocolate (grated), 1 cup cold milk, 1 tablespoon flour, ¼ cup sugar, pinch of salt, ½ teaspoon vanilla, 1 tablespoon butter.

Add chocolate to milk and heat in double bolier. When chocolate is melted beat with egg beater until mixture is smooth and blended. Mix flour, sugar and salt. Blend with a small amount of milk mixture. Add to remaining mixture and return to fire. Cook until smooth and thickened, stirring constantly. Add butter and vanilla. Serve hot.

Maple Pudding

3 Egg yolks, ½ cup maple syrup, ¼ teaspoon salt, 1½ cups milk, 1 cup soft stale bread crumbs (well-packed), 3 egg whites.

Beat egg yolks, add ¼ cup maple syrup, salt and milk. Pour over bread crumbs. Place in a greased baking dish and oven-poach at 350°F., for 1 hour or until well set. Cool. Beat egg whites with a pinch of salt. Gradually add remaining ¼ cup maple syrup, beating until mixture will hold in peaks. Place on top of pudding and brown in a slow oven 300°F., for 20 minutes. Six servings.

Brownsburg Girl Guides

The Brownsburg Girl Guide and Brownie meeting on October 15 was in the form of a "Coming-Up Ceremony". Three Brownies, N. McCormick, A. Hazel and D. Golden, were welcomed into the Guide Company. The following presentations were also made:

Golden Bar — S. Tomalty.

Armlets — B. Johnston, Sixer, Elves Patrol; D. Ball, Second, Elves Patrol; P. Bessnier, Sixer, Fairies Patrol; A. Morrow, Second, Fairies Patrol; B. Moncrieff, Second, Little People Patrol; S. Tomalty, Second, Pixies Patrol.

The District Commissioner, Mrs. F. W. FitzGerald, the Girl Guide and the Brownie Committee, were all present.

An inspiring talk was given by Mrs. FitzGerald, giving the girls and their leaders encouragement in their fine undertaking.

After the recreational period, refreshments were served.

B'burg Scouts and Cubs

Brownsburg — A "Going-Up" Ceremony was held in the Consolidated School Monday evening, for Bernard Golphin, George Pasco and Reggie Mason, who said farewell to the Brownsburg Wolf Cub Pack and were duly inducted into the Scout Troop.

Flashlights were awarded to each member of the Bulldog Scout Patrol, consisting of Ronald Cumbers, Arthur Morrison, Jim Izzard, Russ Hazel, Deane Prosser, Paul Ingram and Ronald Kennedy. This group won the last inter-patrol competition.

Parents are always welcome to attend a Going-Up Ceremony and are urged to do so, especially when their own children are promoted to the senior troop.

The Scout Troop had their first outing of the new season last Saturday, when 12 of the boys hiked out to the Quarry. They were favored with weather warm enough for some to pass their swimming tests, outdoor tracking and cooking. There were no casualties reported, even among those who had to eat their own cooking, and the Patrol Leaders are planning another hike for next Saturday.

SCHOOL RECESSES

Need for strict observance of breaks in class routine in school, is the subject of a pronouncement from the Department of National Health and Welfare, Ottawa. The health officers point out that recesses should be observed carefully. Class rooms should be given a chance to air, and both teacher and pupil given the benefit of a short spell of freedom from instruction and study.

Croquet Club Ends Season

The season's program of the Croquet Club (Lachute Mills) terminated last Sunday. With Albert Bedard as president, the club enjoyed an active round of engagements, competing with leading croquet players of the district, including teams from Montreal, Cornwall, St. Eustache and other places; and the local teams are reported to have made a good showing.

Antoine Desforges eliminated his opponents to claim the local championship, winning first prize and a trophy. Runners-up were Dan Labonté and Lionel Danis.

The club anticipates still greater enthusiasm in the game next year, and possible participation in a croquet league. The organizers also take occasion to thank all who contributed to the success of this recreation during the past summer.

Driver Held Criminally Responsible in Fatal Accident at St. Philippe Village

At an inquest into the death of Ovila Pilon, 25, of St. André Avelin, following a hit-and-run accident at St. Philippe Saturday night, a Lachute Road resident, Albert Cyr, was held criminally responsible. Cyr, 24-year-old laborer, was held as a material witness following the mishap, and was arraigned in St. Jerome Court today before Magistrate Barrette. Preliminary hearing, on a charge of manslaughter, will be held probably next week.

At Lachute town hall on Tuesday evening, with Coroner Jules Lafleur, M.D., presiding, the jury heard evidence of several witnesses. Ovila Pilon, it appeared, was a truck helper working for André Major, St. André Avelin. At 11.30 p.m. on Saturday he was standing outside the Desforges Garage at St. Philippe while repairs were being made to the truck. Evidence showed that Albert Cyr, driving eastward at a considerable speed, had lost control of his car; the machine, approaching for over 40 feet in the ditch, crossed the garage yard, striking Pilon, who was carried another 50 feet by the auto. Dr. Roger Lavigne of Lachute Mills was summoned to attend the victim and ordered his removal by ambulance to Montreal, where the man died at the Notre Dame Hospital shortly after being admitted. He had suffered a fractured skull and multiple injuries.

Det. Ubald Legault, of the Montreal homicide squad, conducted the investigation. Traffic Officer Albert Legault, of Brownsburg, who had been called to the scene, was confirmed in his evidence by A. Leroux, garage mechanic, who had assisted the constable in measuring the tracks of Cyr's car. Rodrigue Desforges, proprietor of the garage, had been conversing with the victim at the time he was struck. The garageman then hailed a passing motorist, James Donaldson of Brownsburg, and they followed the driver to Lachute, where he was placed under arrest by Cst. Aldege Pagé. Dr. R. Lavigne also testified as to the nature of the victim's injuries. The arrested man allegedly made a declaration admitting he had been under the influence of liquor; he stated he had no clear recollection of what happened, but being frightened after striking Pilon, he had hurried on to Lachute without stopping. The car, for which he had no operator's permit, belonged to his stepfather, Sam Vivarais.

After hearing the foregoing evidence, the jurors, led by Albini Lamarche, pronounced their verdict holding Cyr criminally responsible.

Meeting of Legion Local Branch

The regular monthly meeting of the Canadian Legion, Argenteuil Branch 70, was held last evening in the Lachute Auditorium. The meeting was well attended and the guest speaker was Sid Stillwell, chairman, for the Laurentian Zone. Comrade Stillwell gave a short talk on Legion organization and urged Legion members to keep up the good work in Polio prevention.

Arrangements were made to hold an Armistice parade on November 11. The veterans will form a parade at Muir's Service Station at 10.30 a.m. and march to the Auditorium, where the usual Remembrance Day service will be held.

Arrangements were also made to hold two church parades each year, and Comrade McMartin was elected chairman of the committee in charge.

• • •

Comrade Jas. A. Pillage, as delegate to the provincial convention in Montreal last June, submitted an interesting report of proceedings.

Senator T. D. Bouchard, as guest speaker on that occasion, stressed the need for finding a system whereby complete unity could be obtained by the entire world, and all countries able to live under their own Government without fear of invasion. War, acting as a common enemy, had united us with other countries against fascism. "The job now, is to work together to fight for goodwill towards all people", he said.

Among the resolutions at this conference was one to abolish the "Comrade" title. After much debate it was voted that the word remain in use. The fact that the word "Comrade" had become associated with certain alien philosophies and anti-democratic forces was not sufficient cause to abolish the prefix to members of His Majesty's Forces, it was felt.

The housing committees are hard at work trying to secure low cost housing for veterans—reported Comrade Pillage. The two main objects are — first, to secure accommodation for veterans at rents they can afford to pay; second, to try and secure a Government home-ownership plan on reasonable terms for veterans.

The Poppy Fund Committee report that sales are increasing annually and that 1946 had reached record proportions.

At a Regional meeting, held during the Convention, Sid Stillwell was re-elected as chairman for this zone.

Discuss Extension To School Building At Arundel, Que.

A joint meeting of the Central School Board and the local Boards of Arundel and Montcalm was held at Lachute High Scool last Friday afternoon, with W. M. Cottingham presiding.

Mr. E. S. Giles, Inspector-General of the Department of Education, was also present from Quebec to attend this meeting, which was called to discuss the building of an extension to the Arundel school.

A ratepayers' meeting, held in Arundel the day before, felt unanimously that something must be done as soon as possible to relieve the overcrowded condition of the school. This has become so serious that it has been necessary to open a classroom in the basement of the United Church, and to engage an additional teacher. It is planned to build an extension consisting of four new classrooms and a gymnasium-assembly hall. (Arundel would then have an eight-room school, so that a hall is almost a necessity).

As the Staniforth building in Arundel has changed hands and is no longer available to the public, the community is without a public hall of any kind. Consequently, there has been considerable discussion of late concerning the construction of some sort of community meeting place. If the school were to build a gymnasium, this could also be used for public meetings, thereby solving the problem of a community hall.

Mr. M. Champagne, of Lachute, has been engaged as the architect with instructions to prepare plans as soon as possible.

Canada's First Bank Manager

A Chance to Express Your Appreciation

Have you been given a courtesy or service recently which you thought was a little more considerate than usual? Perhaps in your dealings with the butcher, the baker, the banker or the bus driver you have had a courtesy extended to you over and above what you expected. The Vocational Service Committee of the Brownsburg Rotary Club will pay $5 each week for the winning service or courtesy letter describing such an incident. The contest starts on November 6. Read next week's "Watchman" for complete contest rules.

Note for Hallowe'en

The youth of this community might give a thought to the moral of the season. . It takes little ingenuity to hatch up pranks for Hallowe'en which involve no damage to property or anxiety to peaceable citizens. Mischief of this kind is uncalled for — and young folk will rank a notch higher in public esteem if they celebrate in a considerate way.

Cow and 2 Autos Casualties in Week-End Mishaps

Minor Injuries to Six Occupants

Two cars — one driven by Léo Lecuyer, of L'Orignal, proceeding south, and the other travelling north in charge of a local driver, Rolande Lalande, Lachute Mills— collided on the Grenville side of the interprovincial bridge shortly after midnight last Friday. Four occupants of the Ontario car and two in Lalande's car were struck by flying glass, and received treatment for facial cuts at Dr. Smith's Hospital, Hawkesbury. Both cars were considerably damaged.

On Sunday at 5.15 p.m. Raymond Madden, driving west on the St. Philippe highway towards Calumet, struck a cow which was crossing the road to the farm buildings of Philippe Cadieux on the Bradford property. The animal, belonging to Cadieux, was killed, and following the collision the driver swerved into the guideposts beside the road, also damaging the car.

Patrolman Albert Legault, of Brownsburg, was summoned to both accidents.

Legion Preparing Skating Rink At Brownsburg

(Our District Correspondent)

Brownsburg — The local branch of the Canadian Legion have been active in preparing for a skating rink for the coming season. The ground has been levelled off and the work is in progress. The community welfare committee also has everything prepared to continue its winter activities on an even larger scale than in past years, and its fine rink on the French Hill will be in operation when the season permits. Neither rink is covered, and very little expectation of a covered rink can be entertained until building materials become more plentiful and less costly.

HIS LAST CHANCE

Elsewhere, we've noted . . . objection is being taken to excessive noise being created by wedding parties. We refuse to join in anything that will limit the full enjoyment of a marriage celebration. It is probably the groom's last chance to raise his voice above a whisper and we are determined nothing in these columns will restrict him. Let cans and old shoes add their bit to the occasion. Let all be merry and bright.

Women's Inst. October Meetings

Arundel Women's Institute had an attendance of 23 members and three guests for the October meeting, which was under convenership of Mrs. E. Craig. Mr. Melvin Graham showed three films, on — the culture of bananas, the culture of citrus fruits, and the breeding of horses in Hidden Valley. A paper on the culture of bananas was also read by Mrs. Alvin Graham.

Brownsburg — A "personal parcel" was sent to England by this branch, and a gift was presented to a member leaving for the West. Mrs. Geo. McGibbon was the guest speaker.

Frontier branch had 15 members present. A "personal parcel" was sent to England, and fruit was sent to a member suffering from a broken wrist. An address was given by Dr. F. W. Fitz-Gerald, of Lachute, on the advances in medical treatment in the last 10 years.

Lachute W.I. had a large attendance of 42 members. This branch voted money to provide a prize in Grades VI to XI of Lachute High School, to the pupil writing the best essay on the subjects of Fire Prevention and Citizenship. Mr. Jas. W. McGibbon gave an instructive talk on "Our Economic Future".

Lakefield. — This branch met in Lachute at the home of Mrs. Lorne Dawson, where Dr. F. W. Fitz-Gerald was guest speaker. The raffle of a cut-glass bowl netted $14.75.

At Mille Isles branch, the Blue Cross hospitalization plan was discussed at length and efforts are being made to form a group. A letter of thanks was read from Miss Powell, recipient of an overseas parcel sent from this group. The sale of "yule logs", made and donated by a member, netted $4.00. F.W.I.G. seals were also sold and more ordered.

Pioneer. — 14 members and five visitors attended this meeting. Fair Work was discussed. A letter was read fom the recipient of a "personal parcel" in England, and plans were made to send a blanket in another such parcel for Christmas. A life membership was presented to Mrs. L. M. Hooker from the branch, by Mrs. Geo. Armstrong. Rev. J. Nickerson, of St. Andrews East, gave an interesting address on Nova Scotia, dealing with its early history.

Upper Lachute - East End had 15 members and one guest. This branch catered for a wedding. Papers on Polio and Home Economics were read.

Youth Injured in Sawmill Mishap

While engaged at work in the W. L. Dawson sawmill, George Rowe, 16-year-old son of Mr. and Mrs. David Rowe, Bedard Blvd., suffered a painful injury to his left hand which necessitated amputation of the second finger and caused impairment of the third. The accident occurred Monday afternoon while Rowe was operating the trimmers at the mill. Rushed to the Providence Hospital he was treated by Dr. F. W. FitzGerald, assisted by Dr. Roger Lavigne, after which he was taken to his home.

There is only one real failure in life that is possible, and that is, not to be true to the best one knows.

— Farrar

Canada's First Bank Building

Taken from an old hand-colored engraving, this winter scene is a view of St. James Street, Montreal, as it appeared in 1830, thirteen years after the Bank of Montreal's founding. The building on the right was the first head office of the bank, which served as headquarters for the B of M from 1819 to 1848. This was the first building especially constructed for banking purposes in Canada. Today a post office stands on this site, while adjacent to it, facing historical Place d'Armes, is situated the bank's present head office building completed and occupied in 1848.

Sidewalk Congestion

An order to the local police has particular concern to those who congregate outside restaurants or converse in groups on the Main Street sidewalks. The practice obstructs pedestrians, especially on busy evenings, and Police Chief D. Villeneuve has orders from the authorities to correct this unnecessary inconvenience.

Over 400 Attend Prov. Convention Of Dairy Products Manufacturers

Chamber of Commerce Assisted with Conf'ce Arrangements and Entertainment of Guests

Distinguished Speakers Heard at Sessions

On Sunday, October 26, the provincial convention of the Dairy Industry was held in Lachute, under the auspices of the Federation of Manufacturers of Dairy Products. "The New Orientation of the Dairy Industry" was the general theme of this convention. Over 400 delegates, from every part of the province, were present at all sessions. After the formality of registration, the delegates attended solemn High Mass at 10 a.m. in Ste. Anastasie Church, where the parish priest, the Rev. Wm. Lacourse, delivered a sermon developing the theme of the purpose of the association. A visit to the Lachute Creamery gave the delegates an opportunity to see at first hand the efficiency of the moulding machine and automatic butter wrapper in operation at this plant.

During the dinner held at Lachute Auditorium under the chairmanship of Horace Lamarche, president of the Federation, J. P. Nadeau, proprietor of the Belle-Vallée Dairy at Valleyfield, and president of the Dairy Industry Technicians Association of Quebec, stressed in his discourse the urgent necessity of a new orientation at the heart of the Dairy Industry. He was presented by Dr. H. L. Berard, director of the Provincial Dairy School, and thanked by Romeo Seguin, president of Region No. 13 of the F.M.M.P.

Early in the afternoon, the ladies of the party present were guests of the Lachute Chamber of Commerce and were taken on a tour of the town. On their return they had the pleasure of hearing the Rev. J. A. Deschambault, vice-chancellor of the St. Boniface diocese and secretary of C.K.S.B., the French radio station of Western Canada.

The study period, presided over by Roland Camirand, general inspector of Dairy Products establishments, was instructive and well conducted. Messrs. Horace Lamarche, president of the Federation; Raymond Beaulieu, secretary general of the Federation; Jean-Marie Bonin, general manager of the Co-operative Agricultural Society of the Granby district; Fernand Jolicoeur, chief of the secretaries' office of the Catholic Syndicates of Joliette; D. B. Goodwillie, Assistant Chief in the classification service and inspection of Dairy Products for the Federal Government; Albert Pinel, agronomist and general manager of Franco-Canadienne Dairy Products Ltd. gave talks on problems present and future inherent to the Dairy Industry. A forum was held terminating the study period.

A banquet, under the distinguished patronage of the Hon. Paul Beaulieu, Minister of Commerce and Industry, with over 400 guests, closed this provincial convention. His Worship Mayor A. Bothwell welcomed the guests. The Rev. Father Emile Bouvier, S.J., director of the section of Industrial Relations of the University of Montreal and advisor to the Professional Association of Manufacturers, was guest speaker, and presented the problem of the Social Responsibility of the Employer in its three important aspects — the humanitarian duties of the employer; the necessity of intelligent business administration; co-operation which should exist between employer and employees.

Presented by J. P. Nadeau, ex-administrator of the Dairy Products Section, Wartime Prices and Trade Board, the Hon. Paul Beaulieu expressed unbounded confidence in the future of the industry in the Province of Quebec. He emphasized the importance of the Dairy Industry, which has developed enormously, and which has attained a considerable mark in business during the latter years. The federal member for Argenteuil, Geo. H. Héon, K.C., thanked the minister and gave a brief summary of the deliberations of the convention. The F.M.D.P., he said, is a young organization which since its foundation has gone from success to success, and doubtless will have a brilliant future.

It is opportune to emphasize the valuable collaboration given by Lachute Chamber of Commerce in connection with the conference. Co-operation, in the finest sense of the word, was the order of the day.

The success of this provincial convention of the Dairy Industry proved most gratifying and it was unanimously felt that the Federation of Manufacturers of Dairy Products can look to the future with confidence.

Fashion Show at "Ladies' Night"

Last Friday evening, approximately 120 persons, members of Lachute Lions Club, their wives and guests, gathered at the Golf Club for the semi-annual "Ladies' Night".

The general opinion heard following this event was that the evening was an unparalleled success. Many members entertained their guests in their homes prior to going to the Club, where they joined in the fun-packed program. This included novelty dances, card playing, and a treasure hunt. The highlight of the evening, however, was a fashion parade in which "Lion Joe's little gals" have probably revolutionized the future trend in feminine apparel. (The names of the Lions who participated in this event have been withheld by the reporter as a safety precaution!).

Tanganyika Gift to Include Diamond from Williamson Mine

A diamond from the Shinyanga mine of Dr. J. T. Williamson, formerly of this County, will be part of Tanganyika's wedding gift to Princess Elizabeth, according to a Reuters despatch from Dar-Es-Salaam. The mine at Shinyanga was described as the world's largest when Dr. Williamson discovered it last year.

Rev. W. B. Rosborough New President of Ministerial Association

At a recent meeting of the Argenteuil Protestant Ministerial Association, held at the home of the Rev. J. S. Nickerson in St. Andrews East, the Rev. W. B. Rosborough, B.A., B.D., of the United Church in Lachute, was elected president for the ensuing year. Mr. Rosborough succeeds the Rev. G. T. Spriggs, who was largely responsible for the formation of the Association and who acted as its first president.

The Ministerial Association is eager to have all the Protestant clergy in the county join their fellowship, and will be pleased to welcome any who might care to attend their meetings in the future.

Stiff Fines for Use of Nets in Ottawa River

L'Orignal, Ont. — Victor Campbell and Telesphore Schryer, both of Pointe au Chene, Que., were fined $100 and costs each by Magistrate Raoul Labrosse when they pleaded guilty to charges of illegal use of nets in the Ottawa River.

Fernand Schryer, of Pointe au Chene, who was arrested by Game Overseer Wayne Robinson of Ottawa following investigation into illegal fishing activities in the L'Orignal area, appeared before the magistrate and was fined $100 and costs on a charge of illegal possession of nets.

The charges against the three were the outcome of a drive by Ontario and Quebec fish and game authorities against what was termed a "fishing racket" that had played havoc with the fish population in the Ottawa River during the past summer.

Two more men, Leo and Augustin Lavole, both of Pointe au Chene, were arrested along with Campbell and Telesphore Schryer, and were scheduled to face trial in Hull on charges of illegal fishing.

WHAT'S THE REASON?

One of the better things about price control was that when the price of an item was increased the consumer was told why — or thought he was — and felt happier for feeling in the know. But since the cessation of ceilings on most commodities, the price just goes up and up for no apparent reason.

Treatment for Lice On Dairy Heifers

Great losses to milk and beef production are caused annually throughout the country by cattle lice. For some unexplained reason these pests attack the animals during winter and lie dormant in the summer.

Young dairy heifers are probably more susceptible to their attack than other livestock, it has been found. When they are taken off summer pasture and placed in stables, lice become particularly active. Their blood-sucking activities sap the animals' strength, reducing the desired growth rates and prevent heifers from developing into high producing cows.

Cattle lice are detected when the animals begin rubbing against staunchions and bars until patches of hair have been rubbed away. The long hair of young heifers appears to be highly conducive to development of lice.

Recent tests have shown commercial products containing rotenone and sulphur are highly effective in cattle lice control. Recommendations, based on the results of such experiments, are that young heifers should be treated as soon as they are taken off pasture and stabled. Treatment should be repeated two weeks later and again after one week to kill any newly hatched larvae. The dust treatent does not kill the eggs, which necessitates the repetition of treatment.

Conserves Nitrogen

The world supplies of nitrogen commercial fertilizers are extremely short. Farmers can help ease this critical shortage in Canada by following nitrogen conservation practices at home.

One method of doing this is the application of a phosphatic fertilizer called "Stable Phos" in the gutters of barn floors, advises G. R. Snyder of C-I-L's agricultural chemicals division. When mixed with manure this ingredient fixes nitrogen so it will not be lost in the form of ammonia. It also adds much needed phosphorus and helps to keep down objectionable stable odors.

Late Blight, Loss To Potato Growers

While complete reports on potato losses through late blight have not been made, there is sufficient evidence to show this fungous disease took a big cut of Canada's 1947 crop in many areas. Despite early warnings of possible infection, many fields were untreated and left susceptible to attack by fungous spores.

Several fungicides such as fixed copper are now available for economical protection against blight. According to specialists of C-I-L's agricultural chemicals division, treatment with these must be made before the fungous growth invades the plant tissue. Once this occurs control by means of sprays or dusts is impossible.

Killing potato tops with chemicals a few days before harvesting has also proven effective in preventing late blight tuber rot. Besides making harvesting easier, dead tops prevent fungous spores from reaching the potatoes.

Fertilizer Business

Production of chemical fertilizer in Canada has expanded rapidly. Dollar value of the output in 1939 was approximately $13,000,000. The 1946 production was valued at more than $50,000,000. While some increase in prices is reflected in these figures, production itself jumped by over 200 per cent during the same period.

Since agriculturists have come to realize the value of chemical fertilizers in producing greater yields, chemical consumption has shown a general climb upwards. In 1930, 154,950 tons of mixed fertilizer were consumed. This leaped to 232,926 tons in 1939. Statictics for 1946 placed the consumption for that year at 542,497 tons. While these may seem to be rather astronomical figures it should be pointed out that from a fertilizer consumption viewpoint, Canada still lags far behind many European countries. For example the small country, Denmark, is supposed to have used almost 800,000 tons this year.

Canada Went from Barter To Banking 130 Years Ago

Bank of Montreal, Canada's First-established Bank, Gave Colonists Their First Real Money — Founded Canadian Branch Banking System in 1817

B OF M COMPLETES THIRTY YEARS ON ITS SECOND CENTURY OF OPERATION

When Bank of Montreal offices in Canada and abroad open their doors next Monday morning, the occasion will have more than ordinary significance — for the day will mark the 130th anniversary of the B of M, the nation's first permanent bank, which was founded on November 3, 1817.

In all the intervening years, Canada's oldest bank has never missed opening for business on a single banking day. This impressive fact demonstrates how continuously the Bank of Montreal has been woven into the progress of the country since colonial times.

When nine Montreal merchants founded the bank in 1817 — half a century before Confederation — Canada was a scattering of lonely colonies on the dark fringe of the forests. England lay three supremely uncomfortable months away by sail. The settlements had great difficulty keeping in touch with one another. Even a trip between Montreal and Quebec meant three jolting days by stagecoach.

The population — then only about half a million — carried on trade by barter, and to a lesser extent by the use of American, British, French, Spanish and Portuguese money. Montreal, already the centre of commerce, numbered fewer than 20,000 citizens.

Shortly after the bank opened, the directors had to ask the British garrison for a sentinel to guard their modest office. It was not until the following year that Montreal's first police force began. Known as the "night watch", its members acted also as lamplighters.

Canada's First Money

At the outset, the Montreal Bank, as it was then known, issued its own bills in small denominations and, later, copper tokens. This currency was, indeed, Canada's first real money. The innovation did much to stabilize and speed up trade, which had hitherto been subject to the varying rates of exchange of the several currencies in use.

This was but one aspect of the bank's major contribution to the Canadian economy of those days—a contribution which eventually ended the chaos in which business was transacted and served as a primary step in organizing the first native financial system of Canada.

So well did the bank succeed that this system has since evolved without ever losing stability, no matter how critical the times or how rapid the country's growth. Thus, through more than a century and a quarter, the Canadian economy has survived two major wars and several smaller ones, as well as periodic depressions and civil unrest. It has expanded many times since 1817 and won world recognition for its dynamic growth and steadiness.

(Continued on page 5)

We doubt if the family doctor will ever disappear from the Canadian scene — too many people need somebody to listen to their troubles.

Books and Life

CANADIAN Book Week is to be observed from November 2 to 8. It is quite reasonable for the Canadian Authors Association to establish a yearly period, among the many devoted to various public service causes, to centre attention on the craft of writing and the business of bookselling in this country. The really important thing about the week, of course, will not be the authors' meeting and the set address to club or radio. It will be the obscure labor of the novelist, the story-teller, the poet, the script-writer, struggling to get down on paper the semblance of life or, in the words of Theodore Roberts, "to fix in ink the radiance of a dream." The value of the "Week" as such will be in the degree in which it serves to increase public interest in what these craftsmen are doing.

Almost without realizing it, Canada has become a country which is producing a number of careful, responsible artists and artisans in words who are recognized, here and elsewhere, as working on the same level as British or American writers — whose largest reading field is, in fact, the United States and Britain.

This is an interesting fact. It is not one about which we do too much shouting; we should take it as a natural development in any country of this size. Writing in Canada in the past has been too much obscured by public over-valuation or private dismissal based on national consciousness rather than on merit.

The most important fact even for Canada, about the writers working in and around Halifax, Montreal, Toronto, in the Prairie towns and on the Pacific coast, is not that they are Canadians but that they are men and women who have the insight, the feeling for character and atmosphere, and the craftsmanship, to create in words a living story of their time.

It is really incidental that they live and work in Canada. Their contribution to their generation would have its value for mankind regardless of where they did their writing. But it gives any Canadian a sense of satisfaction that the topography, the idiom, the social habits and the industrial pulse of this country are proving to be material of worth and interest to the world's reading public — and also to ourselves.

Aftermath

PEOPLE are inclined to discount the atom bomb, as a sort of nine day wonder. Two professors who have returned from determining conditions in the Bikini Atoll report that bit by bit the radioactivity is being dissipated. You could visit there now and stay for a while and eat radioactive cocoanuts, fruit and fish "without early harm." Note the careful adjective. It is all pretty indefinite. There is just one thing. Don't stay too long as the rays have been distributed in everything that grows. Sooner or later their cumulative effect would get you. And that is the atom bomb after a year.

. . Incidental to this thought on the far-reaching effects of atomic energy, we note a development in Britain which will provide the groundwork for a generation thoroughly atom-conscious. One hundred and sixty boys and girls are being chosen to form the vanguard of the nation's future experts in nuclear energy. A Government apprenticeship scheme has just been announced by which they will be trained in atomic engineering and jet propulsion, as well as receiving practical instruction in radar and telecommunications. They are being recruited by the usual method of competitive examination for appointments in Britain's Civil Service. Girls will be eligible for work at the Royal Aircraft Establishment where research into supersonic flight is carried out and also at the Telecommunication Research Station, which is responsible for the study, practical application and potentialities of radar. Only boys will be chosen for training in atomic energy, but they may also apply for any other vacancies under the scheme.

Prices

THERE IS only one fair way to carry on business — let your prices rise and fall with the market (writes our Ottawa philosopher, R. J. Deachman). That is the means by which merchants maintain their friendly relationships with their customers, and what is equally important, it is the right way to do business.

Prices have been going up for a long time. They did that in the first Great War. Then they went down for a long time. This will happen again. There will always be a few, a very few who get out at the peak, but the man who stays in business and makes money is the one who treats others as he would have others treat him.

IF YOU are thirty-five years old, you have, on the average, about seventeen million more minutes to live. When you take a chance just to save a minute, you are putting those millions of remaining minutes on the wager. It might seem that the odds are too high.

IN THE United States, a man aged 98 eloped with his girl friend, aged 92. You can never tell what young people will do in this modern world.

THERE HASN'T been a single suggestion lately that we should "give this country back to the Indians" — a sure sign that local residents are happy about the fall we're having.

U.K. Regulations on Sending of Christmas Parcels to Britain

(U.K. Information Office)

1. All parcels entering the United Kingdom are liable to the appropriate rates of duty and/or purchase tax. There is no exemption for Christmas gifts, wedding gifts or any other sort of gifts. Nor is there any exemption for parcels below a certain value.

2. The conditions applying to gift parcels are:

(a) They must not weigh more more than 22 lbs. (20 lbs. if to be sent by parcel post).

(b) They must be bona fide unsolicited gifts, and must be marked as such.

(c) They must be itemized as to list of contents.

3. So far as concerns duty and purchase tax, the main points are:

(a) No duty or tax is at present levied on food parcels.

(b) Infants' clothing (of cotton or wool) and used clothing which shows a reasonable amount of wear are completely free.

(c) No duty is levied on Canadian goods, with the exception of liquor, tobacco, and a few luxury items such as silks (and nylon), furs, perfumes, watches, gramophone records, etc.

(d) Purchase tax is levied on almost everything except (a) and (b) above. It is difficult to give any useful summary, but speaking very broadly

i. On basically essential items (clothing of cotton and wool, plain crockery, etc.) the rate is 16⅔%.

ii. On slightly less essential, but still necesary items (hats, gloves, toys, piece goods, pens and pencils, etc.) the rate is 33⅓%. Most articles of ordinary daily use come into this category.

iii. On luxury articles (silk, fur, jewellery, cut glass, etc.) the rate is 100% (or in a few cases, nylons being the most important, 66⅔%).

4. As regards the surrender of coupons, the United Kingdom Customs state that "it is not normally the practice at present to ask for the surrender of coupons in respect of gifts of articles subject to rationing in the U.K."

5 Duty can not be paid in Canada. The only way to relieve the recipient of the burden of paying duty is to send an international money order or other similar negotiable paper for the appropriate amount.

The one-track mind generally doesn't have much traffic.

TO THE EDITOR

Sees Many Changes in Ottawa Valley Section

While driving along No. 8 Highway from Montreal to Ottawa, it is hard to believe all the changes made in the past few years. Just to mention a few familiar places that I take special interest in, are Grenville, Pte-au-Chene, Calumet, and especially the old Magnesite Mines. Here, all the buildings erected only a short number of years ago, are torn down and new ones are being built. Only the dwelling houses now owned by Mr. Bigelow, Mr. Champagne, and Mr. Druce (who has recently resigned his position at Canadian Refractories, to make a new home and gas station) remain where all the other mine buildings were. Times have changed; not more than 25 years ago I made my first visit to this part of the County. Where these buildings and Route 8 are now, was practically all bush. It never passed my mind that I should ever see such a nice view of Ontario from this highway all along the mountainside north of Calumet Village. Another 25 years will see wonderful changes again.

Last Tribute Paid To B'burg Citizen

The Late William J. Fletcher

Brownsburg — Wide-felt regret was occasioned by the passing of William J. Fletcher, a well known Brownsburg resident, whose funeral on Tuesday, October 21, was attended by a large gathering from the town and surrounding district. The service, conducted by the Rev. S. J. Pike, was held at the United Church followed by interment in the old St. Mungo's graveyard at Cushing, his birthplace.

The late William Fletcher, the son of Joseph Fletcher and Suzanna Little, had been in poor health for the past seven years. His death occurred at his home on October 19, in his 69th year.

Moving from Cushing to Brownsburg in 1892, he was one of those associated with Captain "Gat" Howard in the early powder industry. Later, in 1894, he entered the employ of the Dominion Cartridge Company, and retired in 1940. He was a staunch member of the Oddfellows Order, active for 33 years in Laurentian Lodge, of which he had been Noble Grand, and was the holder of a 25-year veteran's jewel.

He is mourned by his wife, the former Maimie Gathrie, to whom he was married in 1905; also by two sons and two daughters — Miss Alma Fletcher, R.N., of Ottawa, Melville, of Brownsburg, Chester, of Montreal, and (Ida) Mrs. G. Price, of Quebec City. There remain also three grandchildren.

Honorary pall-bearers at the funeral were Messrs. A. Campbell, Harry Gardiner, Wm. Cooper, Jack Roberts, Hugh Cunningham and Fred Jordan. The remains were followed by many sympathizing friends to Cushing cemetery, where the last rites of Oddfellowship were read by the Provincial Grand Master, Walker K. McArthur, of Lachute.

St. Andrews Girl Bride at Westm't Church Ceremony

Adam - Giroux

The marriage of Miss Georgette Giroux, daughter of Mr. and Mrs. Wilfrid Giroux, of St. Andrews East, to Mr. Roger Adam, B.A., O.D., son of Dr. and Mrs. Alfred Adam, of Montreal, took place at nine o'clock on Saturday morning, October 18, in the Church of St. Léon, Westmount, Que. The Rev. Father L. P. Laniel officiated. Mr. Louis Bourbon was soloist.

Miss Evelyn Bédard was bridesmaid, while Mr. Paul-André Adam, brother of the groom, and Mr. Réné Robillard, brother-in- law of the bride, ushered.

The bride, given away by her father, wore a gown of white bridal satin fashioned with a round neckline, long tight sleeves ending in points over the hands, the fitted bodice buttoned down the back with tiny satin buttons and the very full skirt extending into a train. Her veil of tulle illusion was held by a bandeau of ostrich feathers; her arm bouquet was of deep red roses.

The bridesmaid wore a floor-length gown of canary crepe and a bandeau of midnight blue and canary feathers. She carried a colonial bouquet.

Mrs. Giroux, the bride's mother, wore a crepe dress and felt hat in autumn grey, with black accessories, and a corsage of Talisman roses pinned to her lamb jacket. Mrs. Adam, the groom's mother, wore a pearl grey dress and black accessories, with a bolero of silver fox, her corsage being of Johanna Hill roses.

After the ceremony a reception took place in the Venetian Room of the Queen's Hotel, where the table, centered with a three-tier wedding cake, was gaily decorated with pink carnations.

Mr. and Mrs. Adam left later for a wedding trip to Lake Placid, New York and Boston. For travelling the bride wore a suit of navy blue ottoman silk, a cherry red coat, and navy blue accessories. They will reside in Joliette.

Out-of-town guests included Mr. and Mrs. W. Giroux, Mr. and Mrs. E. Woods, Mrs. A. Larocque and Miss Claudette Larocque, of St. Andrews East, Mr. and Mrs. Lucien Adam, of St. Michel, Que.

From Barter to Banking

(Continued from page 2)

B. C. GARDNER, vice-president of the Bank of Montreal, who is also president of the Canadian Bankers' Association and a vice-president of the American Bankers' Association.

Spreading Branches

Much of the strength of the nation's economy derives from another principle which the bank introduced in Canada. This was the branch-banking system. Within a fortnight of the opening of the first office in Montreal, an agency was started in Quebec City. The first bank in the ancient capital, this branch was the foundation-stone of Canada's future banking system. As the years passed, the bank spread its branches all over Canada, facilitating the flow of capital into the young industries of the country.

Despite popular misgivings, the bank's directors had the vision and courage to help finance the country's first continent spanning railway, the Canadian Pacific. In the opening up of the West which followed, B of M branches became part and parcel of pioneer life and were soon established at key points from coast to coast.

In both world wars, the bank placed its resources at the service of the nation, contributing vitally to many phases of home-front activity. Members of the staff served with distinction in the armed forces during each conflict.

Bank Grew With Canada

Since 1817, Canada has grown from colonial infancy to robust nationhood. The old bank which did so much to make possible the high standard of living and swift progress of the young country has also grown.

The Bank of Montreal began with a capital of $250,000. At the present time, the B of M's capital and reserves amount to $78,000,000. Its resources are close to the two-billion level. Just as spectacular has been the increase in staff — from seven persons in 1817 to more than 8,000 in 1947! The bank has over 500 offices, including branches in Newfoundland, London, New York, Chicago and San Francisco. Its depositors number more than 1,500,000 — about one out of every five depositors in Canada.

If all these people and their dependents, plus all the others whom the bank serves in other capacities, were counted together, their number would form a surprisingly high proportion of the Canadian population. And so the bank that nine men started in such a modest way 130 years ago, has become, indeed, an integral part of the life of the nation.

Anniversary Year, Local Branch

Here in Lachute, the Bank of Montreal has already celebrated one anniversary this year, the 30th of the establishment of its local office. Opened on March 22, 1917, as a branch of the Molsons Bank, which later merged with the B of M, the office has been noted during all its three decades here for the efficient service it renders to the public.

The bank's office, a neat-appearing red-brick structure, is the third building which the branch has occupied since it began operating in Lachute. A year after opening, under the managership of Vernon Barry, the bank exchanged its small rented premises on Main Street for larger quarters in the Desjardins building, where it remained until construction of the present office was completed in 1931.

ERIC A. HIBBARD, manager of the B of M Lachute branch.

Aiding the town and the surrounding district in industrial and agricultural endeavors alike, the bank has been fortunate in its local managers. Eric A. Hibbard, in charge of the office since 1945, is its sixth manager. Completely bilingual, and with 31 years' banking experience to his credit, Mr. Hibbard is well qualified for his present post. As did his predecessors, he takes part in a number of local organizations, belonging to the Golf, Curling and Lions clubs, and holding office as honorary treasurer of the Argenteuil Agricultural Society.

Second Look

"I got off a street car this morning", said a doctor, "and being in no hurry, I began moralizing on the actions and probable character of three men who had alighted just before me. The first one was already half way down the block. There, I thought, goes a hustler, a man bound to succeed. The second man was walking slowly but with an air of purpose. He might, I thought, do fairly well perhaps. But the last fellow was just dawdling along in a shiftless sort of way. That man, I thought is no account. Just then the startling thought flashed through my mind. All three were ahead of me."

OBITUARY

Lifelong Resident, Son of Pioneers, Is Mourned at Arundel

Late James McGrandall

Arundel — With the passing of Mr. James McGrandall, Arundel loses another of her older sons. Mr. McGrandall had reached almost 81 years of age, and had been a lifelong resident of Arundel. He was loved anad respected by both French and English friends alike, and his passing will leave a tender memory in their hearts. His father came over from Ireland and was one of the earliest settlers in Arundel.

The funeral was held in Crystal Falls Presbyterian Church, where the deceased held the office of elder for a great many years. The Rev. Chas. Maclean, of Lachute, conducted the service, while Mrs. Walter McMahon played the organ, and during the service a duet was sung by Mrs. T. Evans and Mrs. Arnold McMahon.

The pall-bearers were Messrs. Ernest Evans, Arthur Scott, Arthur McGrandall, Stanley McMahon, Robert Hess and William Proudlock. The remains were laid to rest in Crystal Falls Cemetery.

The deceased leaves to mourn his loss one son, Mr. Gordon McGrandall of Arundel, and two sisters, Mrs. R. Brent of Waltham, Mass., and Mrs. M. Crowe of Foxborough, Mass.

Among the large gathering of friends and relatives who attended the funeral from out-of-town were the following — Mr. and Mrs. Galley, Messrs. Arthur and Stuart McGrandall, Miss Inez Scott, of Montreal; Mr. and Mrs. R. Moss, Sr., of Morin Heights; Mrs. J. Gibson, of Edmonton, Alta.; Mr. A. Decarlos, Sr., Mr. and Mrs. Paul Decarlos and Mrs. Arthur Lavergne, of Montreal; Mrs. H. McDonald, Vankleek Hill, Ont.; Mrs. Hooker, Mr. and Mrs. Sydney Bazinet, Mr. and Mrs. Henry Bazinet, of Lachute.

Leadership

Elbert Hubbard once wrote: "If you set ten girls at work in a room, you will find by the third day that nine of these girls are asking the 10th girl these questions:

" 'Is this all right?'

" 'Where is the thread?'

" 'What shall I do next?' "

There always has to be somebody to start things moving. To originate, initiate, take risks, guide others, provide work.

Any economic system which discourages leaders, levels all people down to the lowest, is flying in the face of Nature and is harming mankind.

9 Men of Vision...

PROVED THEIR FAITH IN CANADA

...130 Years Ago

An exhausted Europe—torn by decades of war—was breathing more easily . . . two years before, the Napoleonic Wars had at last ended at Waterloo. In the New World, the three-year-old Treaty of Ghent had ended an attempted invasion from the south . . . and the peoples of North America began a friendship that is the admiration of the world today.

1817 . . . Sturdy colonists of British North America—half a million of them—were scattered over as many square miles. To the west and north lay another two million square miles, unsettled and untouched. Merchants and traders did their business by barter and with a hodge-podge of foreign currencies, whose changing values spelled chaos. Trade development languished.

INTO this scene came nine men of vision . . . nine English and Scottish merchants who realized that, without a solid financial foundation, the colonies could never reach nationhood. Together, they determined a course of action. With their own money and the backing of 209 other pioneering citizens, these nine men founded the Bank of Montreal, which opened its doors for business on November 3rd, 1817. Never once since then has the Bank failed to open on a business day.

AT the very outset, the Bank issued its own bills and coins. Here was Canada's first real money. The currency won immediate acceptance . . . goods moved more quickly . . . and the stability the nine men hoped for came rapidly. The people proudly welcomed this Canadian currency—and, as its circulation spread, so did the reputation of the new bank. Within a year of its founding it became the Government's banker, and its currency officially replaced the British money used by the Government up to that time.

JUST two weeks after the Bank started, Canada's first branch bank was founded . . . the B of M's Quebec agency opened—and, thus, the Canadian branch banking system began. The following year saw agencies opened at Kingston and York, now Toronto, and branches spread as the years went on. Hailed throughout the world for its strength and flexibility, this system of branch banking—begun 130 years ago—has proved ideal for a country vast in area and small in population.

BUT all was not easy. There were hard, trying days ahead—each decade had its ups and downs. From 1836 to 1840, Canada experienced a succession of bad harvests, political convulsions, commercial changes and failures. Rebellion had depreciated the value of property and seriously hindered the improvement and further settlement of the country. The Bank of Montreal survived only by the most careful use of its resources and the confident loyalty of its depositors.

RECOVERY was rapid during the middle years of the century. Then came 1867 . . . and a nation was born. But a trans-continental railway was a condition of Confederation, and now the Canadian Pacific had to be pushed through. To speed the construction, the enterprise was placed in private hands. The work went fast, and the last spike was driven five years earlier than expected. With faith characteristic of its nine founders, the B of M had backed to the limit this great national project.

1900—the century opened with a new flood of prosperity which lasted for more than a decade. Two more trans-continental railway systems . . . a great influx of new settlers . . . abundant crops . . . thousands of new industries—and then . . . World War I! Through the trying times which followed . . . the inflated days of the 20's and the depressed days of the 30's—through a second World War in our time . . . Canadians worked and fought, and Canada became a world power.

—Peace . . . new plans . . . new hopes . . . rehabilitation. Life in Canada still takes work, courage and, above all, vision . . . the kind of vision which spurred nine men to pioneer the nation's economy 130 years ago. From a corporal's guard in 1817, the staff of the B of M has grown to an army eight thousand strong . . . working closely with Canadians and their industries in hundreds of communities from coast to coast . . . supplying the lifeblood of credit to an expanding nation . . . seeking always—through sound counsel and friendly service—to give practical help to the million and a half customers who put their trust in the Bank.

What of Tomorrow . . . ? Just as history foreshadows the future, so the record of Canada and of her first-established bank working together gives promise of bright tomorrows for the nation. "The twentieth century belongs to Canada" . . . and for that future we pledge ourselves anew to work constructively with Canadians in every walk of life.

QUEBEC and the B of M Have Grown Up Together

The Province of Quebec—cradle of the nation—was the birthplace of Canada's first-established bank.

Here, in Montreal, whose population was but 20,000 at the time, began the Bank of Montreal in 1817 . . . and with it the branch banking system of the nation.

Thus, the province that was the springboard for discovery and colonization of Canada's vast areas, also gave birth to the country's financial system which helped make Confederation possible and provided fertile soil for the seeds of nationhood.

Today, the B of M serves the people of the province through 104 branches and is constantly adding to this number.

It would appear that senior football in Canada has reached a point in its development where it must make decisions that will continue its evolution on lines similar to those followed by hockey.

When the Stanley Cup was offered for competition in 1893 as hockey's No. 1 trophy, the ice sport was a hodge-podge cumparable to senior football and its Grey Cup competition today. Teams with wealthy backers and paid players competed against clubs that operated on shoestrings and with members paying their own freight.

Hockey wealth then rapidly became concentrated in a few clubs which could buy the best players. At that point hockey made the move that football should make now. The Stanley Cup became a professional trophy and the seniors got the Allan Cup for themselves.

Football today needs a new trophy and competition similar to the Allan Cup in amateur hockey. Then the Grey Cup could become recognized as either a professional trophy or one for clubs which could be classified as having unofficial but strong financial support.

It would give the other centres in Canada a chance to compete on an equal basis with other teams.

Football, as did hockey years ago, should chart its future course through well-defined pro, semi-pro and amateur channels instead of clogging its progress with an out-of-date set-up that can result only in confusion and unequal play.

Action by the Interprovincial Rugby Football Union in barring Frankie Filchock from playing with Hamilton Tigers was the first decisive step taken by the Big Four executive since the end of the war.

The banning of Filchock shows that Canadian football is willing to fight for its good name. Filchock, formerly a member of the New York Giants professional grid squad, was barred for failure to report a bribe offer.

There is no black mark against Filchock's name. There was no proof that he accepted a bribe, or even considered doing so—but the fact is, he witheld the fact that gamblers were trying to currupt the sport.

Jump at Chance To Learn A Trade

"Problem Boys" Justify Experiment of Nova Scotia Legislator

Amherst, N. S. (CP) — The so-called "problem child" had troubled Martin J. Kaufman, M.L.A., of Amherst for many years.

Several weeks ago he decided to do something about it. He cleared one of the floors of his clothing factory, set up a special group of sewing machines and advertised for "problem boys."

They were not just "help wanted" ads. They were addressed to parents and guardians of "boys who are not academically inclined and are willing to learn a trade." They had to be between 16 and 17 years of age.

He was swamped with replies. He accepted the first 50 and advised the others to keep waiting.

The verdict, after one week's trial. "Fine — better than I had expected."

After a three-month training period the boys are allowed to take their place in the regular production line — if they wish. They are under no obligation to stay.

Mr. Kaufman estimates that it cost his company $200 to $300 to train a boy before he gets any production in return, but the joy it brings him in helping out the children is worth it, he says.

RACIAL PREJUDICES

Racial discriminations do much to disturb the peace of the world. Political and religious differences also play their part in withholding the natural affections of people from a better understanding of one another. Hidden differences and unfounded grievances, too, provoke conditions that, no matter how trifling, serve to keep human beings at arms-length when actually the relationship should be warm and enduring.

20,000-MILE TOW

Victoria (CP) — A 20,000-mile tow, longest ever taken out of the Pacific Northwest, will be made from here with the transport of six steel United States army tugs by barge to Buenos Aires. The tug Snohomish, now undergoing tropicalization, will take the huge tow to South America.

40-YEAR-OLD PUMPS

Regina (CP) — A pair of patent leather dancing pumps, purchased 40 years ago to permit their owner to attend an "extra-special" dance, are still being worn by Col. N. S. Edgar, city financial agent, who says they are the most comfortable hot weather shoes he owns.

Overcoats for Needy in France

Toronto — Fifty cases of men's and women's overcoats have reached Paris for distribution among needy French people. The overcoats were collected, renovated, packed and shipped by The Salvation Army in Canada in response to appeals from French Officers of the organization, said Lieut.-Colonel Wm. Dray, O.B.E., Public Relations Secretary.

Distribution of the overcoats is under the supervision of Colonel Wycliffe Booth, head of the Salvation Army in France and grandson of its founder, William Booth.

The overcoats were especially welcome, Paris Salvationists said, in view of the fact that coal will be very rare in France this winter, causing real hardship for the aged and infirm.

DEDICATED TO FREEDOM

If your newspaper is restrained in any manner in its function of telling you what is going on, you have begun to lose your individual freedoms. And the rights and privileges that you enjoy as a Canadian citizen will slowly but surely begin to crumble away. Your newspaper is dedicated to freedom — the Canadian type.

New Series of Radio Fun Programs

A pair of light hearted funsters, Frank Shuster (left) and Johnny Wayne (right), heard in a new series of music-and-comedy programs over the CBC on Thursday of each week at 9.30 p.m. With the comedy team on the "Wayne and Shuster Show" are actor Bernie Braden, announcer Herb May, Samuel Hersenhoren and his orchestra, songstress Georgia Dey, and Dick Nelson, often billed as "the man with a thousand voices".

BIG-CAR QUALITY
. . . particularly when you ride at
LOW COST!

Even the spacious trunk compartment tells you that you can't get a body like this *anywhere* except on Chevrolet and higher-priced cars. It's a Unisteel Body by Fisher, with the most modern styling, genuine No-Draft Ventilation, extra-roomy seats, and every feature for your comfort, convenience and safety.

CHEVROLET

Yes, indeed, you'll enjoy *everything, including economy,* when you set forth in one of these bigger-looking, better-looking Chevrolets for 1947. It offers you BIG-CAR QUALITY AT LOW COST — big satisfaction at big savings — in all items of purchase price, operation and upkeep.

Starter — accelerator — *action!* Threading through traffic — leveling a hill — streaming along the straightaway . . . you'll get *plenty* of action in this outstanding low-cost performer. For beneath that hood is a *Valve-in-Head Thrift-Master Engine* with the longest, strongest record of performance of any automotive engine built today.

With all its thrills for the eye — for the pulse — and for the thrifty pocketbook — Chevrolet also provides all-round security for its passengers. It brings you Fisher Unisteel construction — the Knee-Action Ride — Positive-Action Hydraulic Brakes — a combination of features found only in Chevrolet and higher-priced cars!

Settle back, settle down — and *you'll settle for a new Chevrolet!* For your own thoughts will tell you there's no other car in its field that rides like this — so smooth, so steady, so safe! That's the direct result of Unitized Knee-Action, and Unitized Knee-Action is exclusive to Chevrolet and higher-priced cars.

Remember — it will pay you to keep your present car in good running condition by bringing it to us for skilled service, now and at regular intervals, until you secure delivery of your new Chevrolet.

"THE MOOSE"
Based upon a picture painted especially for Carling's.
This is one of a series of illustrations on the subject of the Conservation of Canada's natural assets designed to emphasize the fact that the heritage of unspoiled nature that we enjoy today are a precious birthright which we must protect for tomorrow.
† COPYRIGHT BY CARLING'S, 1946

"Give Him a Sporting Chance"

Wily, courageous, resourceful, the Canadian moose asks of mankind only a sporting chance of survival. In the vast forests which are his home, he is king—able to overcome most of the dangers that beset the creatures of the wild.

His sharp hooves and antlers are a match for predatory wolves—his thick coat and mighty frame equal to the hardest winter—his skill, speed and endurance are such that he can be expected to survive even the high-powered rifle of the huntsman — *providing that the hunting is carried on according to the reasonable and just laws of conservation.*

Things that he cannot survive are indiscriminate hunting, the destruction of his feeding grounds by fire, and the disturbance of the "natural balance" by which Nature protects all wild-life. The destruction of beaver causes marshes to be drained and the moose are deprived of their best feeding grounds. The destruction of smaller game will cause wolves to turn in ravenous packs upon deer and moose. Thus we see how conservation protects not one, but all wild creatures.

Conservation is not just a doctrine to be preached to hunters and fishermen. It is a vital part in the continuance of our national economy, and must, of necessity, fail if its measures do not receive the full support of all Canadian citizens.

Thank-Offerings Held At Two Churches in St. Andrews East

(Our District Correspondent)

St. Andrews East—The autumn thank-offering of the W.M.S. of the United Church was held Sunday evening, October 26. A 15-minute singsong preceded the meeting. The vice-president, Miss M. L. Lamb, conducted the meeting, using the theme, "There's a destiny that makes us brothers". Passages of scripture were read by Miss Elsie Dorion. Miss Lamb led in prayer. The singing of hymns was accompanied by Miss A. L. Wales at the organ and Mrs. Nickerson at the piano. A beautiful vocal trio was given by Mrs. F. A. Robertson, Mrs. Nickerson and Miss Mary Robertson. While Miss Wallace and Mrs. Robt. Robinson received the offering, a piano duet, "In the Cross of Christ I Glory", was played by Miss J. G. Wales and Mrs. Nickerson, with organ obligato by Miss A. L. Wales. A vocal duet was a most impressive item as rendered by Mrs. Nickerson and Mrs. Robertson. The guest speaker, Mrs. F. N. Stephen, president of the Montreal Presbyterial, was introduced by Mrs. Lilly; she gave a very sincere and inspiring talk.

At the close of the meeting, Miss Lamb called upon the Rev. Dr. Wm. MacMillan to pronounce the benediction.

• • •

The W.M.S. of the St. Andrews East Presbyterian Church held their Thanksgiving thank-offering service in the church on Wednesday evening, October 22. The guest speaker was the Rev. C. H. Maclean, of the Margaret Rodger Memorial Presbyterian Church, Lachute.

The Women's Guild of the United Church met on Wednesday afternoon, October 22, in the Sunday School hall. Plans were made for the tea and sale to be held on October 30. Mrs. L. M. Hooker served refreshments.

Notable Speakers for Men's Supper Meeting At Lachute United

The annual Supper Meeting for the northern section of the Presbytery of Montreal (United Church of Canada) will be held in Lachute United Church on Monday, November 3, at 6.30 p.m.

One of the speakers will be the Rev. R. DeWitt Scott, B.D., who has been recently appointed to succeed the late Dr. William Munroe as secretary of the Presbytery of Montreal, and of the Conference of Montreal and Ottawa. This will be Mr. Scott's first official visit to this section of the Church.

The other speaker will be Prof. Wm. S. Taylor, Ph. D., of Indore Christian College, in Central India. The following notes regarding this renowned educationalist, who is to be the principal speaker, may be of interest to those who propose to attend this meeting:

"Dr. Bill Taylor went to India 17 years ago upon graduation from Victoria College, University of Toronto, and has since been engaged in educational work in Indore Christian College for the United Church Mission in Central India. He is the son of Dr. J. T. Taylor, recently retired after doing excellent work for the evangelistic cause in Central India.

"During his last furlough, Dr. W. S. Taylor, realizing the need in educational work, took his Ph.D. in Toronto and London, England, in Psychology. During the short time he has been in Canada on this furlough, he has won the admiration of many hundreds for his ability to interpret not only the work of the Church in Central India, but the whole problem of India in the world today".

Brownsburg United Young People's Group

Brownsburg — At the meeting of the Young People's Union on Monday evening it was decided that the gathering for next week would be on Tuesday evening, owing to the Missionary Supper meeting, for this area of the Presbytery, to be held at Lachute on Monday, November 3.

A new order has been drawn up for the meeting on Tuesday next. From 7 o'clock to 7.30, devotions and business; from 7.30 to 8, recreation; and from 8 to 9, choral practice, after which light refreshments will be served. With the new Refreshment and Recreation committee appointed at last meeting a good time is anticipated.

The concert — for which the choral practice is now in progress, under the direction of Mr. Earl Morrison, of Lachute High School —is scheduled for Friday evening, December 12, and will be of a Christmas nature, with other features.

Warning or Threat

Usually when you hear a siren sounding its continuous wail you anticipate a lawful demand to make way and provide a clear road for some emergency — such as some fellow-citizen in pain being rushed for medical attendance — or you may surmise that firefighters are rushing to utilize those first precious minutes which count so much in gaining control of a threatened conflagration. But when some moron presses his auto horn button and dashes madly through a quiet village on a Sunday evening, takes a right angle turn on two wheels for the inane purpose of being first to a grass fire, you read the week-end accident column next day with a new understanding and perhaps wonder why the toll is not larger.

Fish Were Not Biting

That's what we thought as we whipped the Ottawa River in futile expectancy during the many evenings we sat perched on a stone along its inviting shore-line. But now we know different. Five tons of fish were scooped or snared from its broad bosom in a manner that the disciples of Izaak Walton would heartily disapprove. Twenty-eight gill nets and five hoop nets which were stretched right across the river at L'Orignal Bay were seized by the Ontario and Quebec police and confiscated. The nets were valued at $1500 and a fine of $100 was imposed on each of their owners. Five tons of fish, considering the sort of meat we get now, should easily pay the loss and fines, leaving a neat profit — while our mis-spent time was well mis-spent with the fish at the wrong end of the rod!

Retreat at St. Louis de France

For the past two weeks large crowds have been attending the Catholic Church, where the Capuschin Fathers are holding the annual retreat for the French-speaking members. Services are held morning and night, closing on Sunday next.

The English retreat takes place from November 19, when the Rev. Wm. E. Power, Vice-Chancellor of the Archdiocese of Montreal, will deliver a series of sermons to the English-speaking congregation. Fr. Power is a well known radio speaker and great interest is centered in his forthcoming visit. This is the first time that a purely English-speaking retreat has been conducted at Brownsburg, and it is made possible by the efforts of the curé, the Rev. V. Bouchard, P.P.

Meets Old Friend After 37 Years

In 1910 the late Mrs. J. S. Giles and her son Bob (then 17 years old) crossed over to England on the Royal Edward. On board ship an acquaintance was formed, during the week of travel, with a young lady of 9 years, Miss Rosalie Carson, of Chicago. During subsequent years occasional letters were exchanged until after the First Great War when correspondence ceased. Miss Carson married in 1922 and with her husband, was this week visiting in Montreal. Remembering our short friendship quite well, she phoned Lachute on Thursday evening and a meeting was arranged for Friday in the city. Of course both she and the writer Bob Giles had changed a whole lot during the 37 years since they had met, but a pleasant hour was spent talking of the ocean trip and exchanging notes on the many happenings since that time. Passage on our boat returning to Canada, took exactly one week — we had tea in Bristol, England, on Thursday evening and arriving in Montreal, came up by the night train and had supper in our own home the following Thursday. The price of a one way passage was $50 in those happy days. The former Miss Carson is now Mrs. Lind of Chicago, and is hopeful of visiting Lachute on her next trip to Canada.

Mr. and Mrs. Frank Janson, Miss Joyce Street, Mr. Jimmy Janson and Master Harty Corbett, of Montreal, spent last week-end at the home of Mr. and Mrs. Hans Jacobsen. . . Miss Mary Jacobsen and little Marjorie Thom were also here from Montreal to spend Sunday with the former's parents.

Who Should Pay for Maintenance of Provincial Highways?

Thirty years ago very few visualized the tremendous increase in the number of motor vehicles that would be in operation on the roads of this country, and as a consequence failed to set up Highway Departments on a sufficiently sound basis to successfully meet the insistent demands which are pressing on us on every side for more and better roads.

From reports of the various highway departments, I think it is not unreasonable to state that practically the same system of financing and administration prevails in most of our provinces.

Dealing with the matter of financing, it is generally conceded that the necessary funds required for an efficient highway system should proceed from taxes raised from two sources, first from the users of our roads, and secondly from those who benefit therefrom.

One of the problems which has been a bone of contention for some years is just what would be an equitable proportion for each source to bear. In 1928 a Royal Commission was appointed in England which gave this matter very thorough consideration, and at that time reached the conclusion that the users of the highways should bear two-thirds of the cost — the remaining one third to be borne by those who benefit from improved roads.

— Excerpt from a paper by T. Mahoney, presented before the Canadian Good Roads Association.

In 1932 a Royal Commission on Railways and Transportation appointed by the Bennett Government, after an investigation carried out in all the Provinces of the Dominion, arrived at the same conclusion, and in the Province of Ontario the matter of the apportionment of highway taxation became such a live issue that the Hepburn Government appointed a Royal Commission on Transportation under Justice Chevrier, which carried out an exhaustive investigation extending over a year. The conclusions of this Commission were that the following benefits were received by the community and citizens at large, as distinct from the benefits received by the users of the roads:

1. A means for the passage for horses and other animals, horse-drawn vehicles, agricultural machinery, bicycles and pedestrians.
2. Free access to or egress from private properties.
3. Unimpeded access to schools, churches, public buildings, markets and places of business or amusement.
4 Drainage of adjacent lands.
5. Facilities for the transportation and delivery of the mails.
6. Facilities for police and fire protection, including sites for the erection of standards, boxes, signals, signs, hydrants, etc.
7. Facilities for ambulances, school buses, publicly-owned vehicles and local transportation services.
8. Accommodation for pole lines, conduits and manholes necessary to the provision of power, telephone and telegraph service and for water and gas mains and convenient facilities for their maintenance.
9. Increased utility and consequent enhanced value of adjacent lands by reason of the facilities that have been made available.
10. Facilities for advertising.
11. Military uses.

and that in consideration of these benefits the communities at large should contribute from $2.50 to $3.00 per capita, as a reasonable contribution to highway construction and maintenance. If this ratio was carried out in the Province of Ontario it would mean that the province as a whole would contribute about twelve million dollars for road expenditure — the remaining forty millions to be borne by the road users.

Easy on Taxes

The Milk River (Alberta) council recently levied a dog tax of $1 for male dogs and $3 for female. But citizens aren't complaining. It's the only tax levied besides the land tax. There is no village tax on buildings or businesses.

Another Factor

Under the heading "Why Housing Costs Are Prohibitive" the Quebec *Chronicle-Telegraph* quotes from a Vancouver newspaper this advertisement, showing schedules of wages offered to workers in lumber camps of B.C., one line being significant: "Dishwashers May 1946, $5.41 per day; now 6.61; new offer, $7.41."

Former Arundel Couple Bereaved by Accident

Arundel — Seriously injured when his car collided head-on with an approaching car, Ross Simon, 18-year-old son of Mr. and Mrs. Austin Simon, of Monteith, Ont., died 12 hours later in Ansonville Hospital.

The youth with two companions, who are also in hospital in critical condition, was returning home from Val Gagné, three miles distant. He was driving off a narrow bridge when a car driven by a Mr. Lacosse, accompanied by his wife and three children, hit the boy's car.

Besides his mother and father, he leaves two sisters, (Jean) Mrs. Robert Moonie, and Joyce, and two brothers, Earl and Murray.

Mrs. Simon was the former Anna Morrison and his father Austin Simon, both formerly of Arundel, Que.

A story that never ends...

THE TALE your Telephone Directory tells is never finished. Year after year more names are added, more people whom you can call, and who can call you. Right now we're busy with unfilled orders . . . adding still more telephones just as fast as materials become available.

More people are using their telephones more often. Our constant aim is to make the service better, too, better in every way.

More telephones . . . better service . . . and always at the lowest possible cost. It all adds up to greater value for every telephone user.

Recipes With Apples

It is believed that the apple as we know it originated somewhere in south western Europe but they are now cultivated in all temperate countries. Several of the most desirable apples have been developed in Canada. Whenever or whatever the origin, however, the apple is the standby fruit of the Canadian household.

The home economists at Ottawa suggest recipes for slightly different apple deserts and an appetizer:

Spiced Apples

3 Medium-sized tart apples, ¼ cup brown sugar, ¼ cup molasses, ½ cup tomato catsup, ¼ teaspoon salt, 2 tablespoons butter.

Wash and core the apples, but do not peel. Cut in half crosswise and place in baking dish. Blend together the brown sugar, molasses, catsup and salt. Pour over apples and dot with butter. Bake in a moderate oven, 350°F., until tender, about 35 minutes, Turn apples once during baking and baste with sauce. This makes an excellent accompaniment for vegetable plate, fish, meat or poultry. Six servings.

Apple Meringue

6 Medium apples, 1½ cups custard souce, 2 egg whites, 2 tablespoons sugar, apple jelly.

Remove cores from apples. Prick the skins, place in a casserole and bake in a moderate oven, 350° F. When tender, remove from oven, pour sauce over and around apples. Beat egg whites until stiff but not dry, then beat in sugar. Top each apple with meringue and garnish with a spoonful of jelly. Oven-poach in a moderately slow oven, 325°F., until meringue is brown, about 10 minutes. Serve hot or cold. Six servings.

Hungarian Apple Pudding

4 Large sour apples, 3 tablespoons fruit juice, 1 cup fine, soft bread crumbs, 1 tablespoon butter, 2 egg yolks, ⅓ cup sugar, ½ teaspoon salt, 2 egg whites, 3 tablespoons sugar.

Pare and grate apples. Add fruit juice and blend. Add bread crumbs. Cream butter, add egg yolks, sugar and salt and beat thoroughly. Add to first mixture and combine well. Beat egg whites until light, add remaining sugar gradually, beating until mixture will hold in peaks Fold into first mixture and turn into lightly greased baking dish. Oven-poach in a moderate oven 350°F., for 1 hour. Serve with hard sauce. Six servings.

Mother Fix-It

"Appliance repairmen are hampered by a shortage of parts." — News item.

When the radio's out of commission
Do we call in an expert electrician?
Oh, no! Mama gives it a couple of blows —
And it goes.

If the lawnmower gets stuck and won't run,
Does an expert say what's to be done?
Not so; if it sticks, Mama kicks it
To fix it.

When the toast is just done to a turn
And the toaster decides it should burn,
And no matter what lever you throw,
The toaster just will not let go,
Mama gives it a bat —
And that's that.

Mama's idea of a piece of machinery
Is something inhabited by ornery, meanery,
Imps of perdition that frequently nap
And all they require is a really good slap.
And the thing about Mama's mechanical quirk
Is: It really does work!

Woman Prospector At 66 Seeks Gold

Bralorne, B.C. (CP) — Mrs. D. C. Noel, who came to this district with her husband 47 years ago to search for gold, is still, at the age of 66, seeking the elusive high grade.

The short, chunky, white-haired woman scampers up and down forbidding mountains with agility, and she is one of the very few prospectors hereabouts who has prospered.

Stories are legion about discoveries made by Mrs. Noel and her husband, who died about a year ago. A well-known mining man here estimates her fortune at $75,000 or more.

Mrs. Noel is keeping her current prospecting purpose a secret, but it is believed that she has discovered a rich lime deposit.

Anyway, she's back in the hills where she started and completely happy.

BEAUTY

Women with short, stubby hands and stubby fingernails frequently ask whether they should use nail polish. The answer, according to Drug Merchandising's beauty expert, is yes.

The writer warns, however, that deep reds and brown reds should be avoided. Light, bright shades —pinks and true reds — will give the shorter hands a well-groomed appearance without emphasizing their stubbiness.

Another point for the cosmeticians is that long fingernails don't suit stubby hands — they just look silly. Such hands should have short, gracefully rounded nails for best effect.

Lachute Boy Scouts

Advantage was taken last Saturday of what may prove to be one of the last fine week-ends, for another Scout hike to the Lookout, when six Scouts passed their fire-lighting and cooking tests. These were Buddy Cook, Robert Duncan, Donald Jackson, Jack McMartin, Ross Walker and Arvid Nymark.

The previous week the Scout Troop attended a lecture and demonstration on life saving and artificial resuscitation, given by Mr. Temple of Montreal and arranged for by Mr. Geo. Y. Deacon, who is a member of the local Scout Group Committee.

Frank Bedard has re-joined the Troop as an Assistant Scoutmaster. Frank is a qualified King's Scout, and should prove a valuable addition to the troop.

Oh, the very worst of phrases
All through motordom today
Is that selfish bit of wording
That is known as "right of way";
It has filled the graves of many
Who have sped some road along,
Since Death never asks the question,
"Is the driver right or wrong?"
