Central and Local Boards in Accord on School Tax Rates

Special Meeting Called to Approve Budgets and Establish Rates in Various School Municipalities

A special meeting of the Central School Board was held in Lachute High School on Monday, August 24, with W. M. Cottingham, M.L.A. presiding. All members of the Board were present, together with representatives from all the local boards within the two counties. Mr. L. N. Buzzell, chairman of the Finance Committee of the Protestant Committee of the Council of Education, was also present as a guest.

This meeting was called for the purpose of approving the budgets of the local boards and setting the tax rates for the year 1953-54.

The chairman stated that, whereas the Central Board had originally planned that each board would balance its own budget and manage its own finances as of July 1, 1953, the Quebec Municipal Commission preferred to deal with the Central Board only, in regard to financial matters. Due to the fact that it is difficult, if not impossible, for school boards to obtain sufficient revenue from taxes in time for the opening of schools in September, it is necessary to borrow temporarily. Rather than each local board applying to the Quebec Municipal Commission for permission to make these temporary borrowings, arrangements have been made, as in the past, for the Central Board to borrow on behalf of all local boards. The chairman pointed out that it was imperative that each local board proceed with the collection of its taxes without delay, and that every attempt be made to balance all budgets. It was recommended that each local board show revenue from government grants sufficient to meet the total operating deficits and two-thirds of the capital deficits, the remaining third to be paid from revenue from taxes over a period of five years.

James W. McGibbon, chairman of the Lachute local board, stated that his board has set a rate of 15 mills general and 3 mills special, based on municipal valuations. The revenue from these tax rates would result in a surplus.

M. P. Reilly, chairman of the local board of Brownsburg, stated that his board had set a general tax rate of 9½ mills and a special rate of ½-mill, based on adjusted school valuations. The revenue from these rates would result in a surplus for his school municipality.

The local boards of Dunany and St. Andrews East each agreed to impose a general tax rate of 15 mills based on municipal valuations. The local board of Gore agreed to a rate of 22½ mills on existing municipal valuations. The children from these three school municipalities will continue to attend Lachute High School, as in the past.

The Grenville local board stated that they had set a general tax rate of 23 mills and 2 mills special; the local board of Morin Heights, 13 mills general and 2 mills special; the local board of Rouge River, 21 mills general; the local board of Lake of Two Mountains, 13 mills general and 2 mills special, based on adjusted school valuations. It was agreed that the local boards of Harrington No. 2 and Montcalm would impose tax rates which would result in the same revenues as for 1952-53; and it was agreed that the local board of Arundel would impose a general rate of 23 mills and a special rate of 7 mills.

A vote of thanks was extended to Mr. L. N. Buzzell for his attendance at the meeting and the interest he had shown in the problems of the Central School Board. Mr. Buzzell stated that he had noted a fine spirit of co-operation among all the boards concerned, and promised to do everything he could to help find a solution to the financial problems of the Board.

Two Drownings, Lake Farmer And Otter Lake

Marcel Carriere, 37, of Montreal, was the victim of a drowning at Lake Farmer, St. Michel de Wentworth, around 6.30 p.m. last Thursday.

It is reported the victim was in a rowboat which capsized in the lake throwing him into the water. His body was recovered three hours later and artificial respiration was applied, without avail. The body was brought to the local morgue, and the district coroner, Dr. Jules Lafleur, gave a verdict of accidental death by drowning.

Traffic Officer Albert Legault investigated the tragedy, and a provincial police officer from St. Jerome, Sgt. Det. Aimé Bertrand, reported the circumstances to headquarters.

• • •

The second drowning in this district within a week was reported last Monday from Otter Lake, Huberdeau. The victim was a seven-year-old boy, Jean Labonté, whose parents, Mr. and Mrs. Clodomir Labonté, of Montreal, were vacationing at the lake.

The lad was playing at the water's edge with 14-year-old Therese Martin, a neighbor, when he toppled in and disappeared beneath the surface. The little girl raised the alarm, and would-be rescuers dragged the lake, recovering the victim only 10 minutes later some distance from the spot.

Artficial respiration was practiced and oxygen applied from an inhalator, under supervision of Dr. Caron, but these efforts failed to revive the little victim.

Investigation was made by Det. Maurice Lamoureux, and Coroner Dr. Jules Lafleur pronounced the death accidental.

Echoes of the Assoc. Country Women's World Triennial Conference in Toronto

By Janet Pollock Graham

So many persons ask, "What is the A.C.W.W.?" The answer is—it is the only world organization of countrywomen. It represents 5½-million women. Its members come from 26 different countries, and belong to 121 different societies.

Its head office at present is in England. Its past president was Mrs. Raymond Sayre, of Iowa, U.S.A. The new president hails from Australia, and is Mrs. A. Berry, who seems, like Mrs. Sayre, to be a splendid speaker and will no doubt carry on the work just as effectively. Mrs. Sayre had filled her second term, and her departure from the office was accepted with reluctance because of her friendly disposition and abilities as a world leader.

The World's Convention was held in Toronto, at the Royal York Hotel, August 12 to 22, when new friendships were made and old ones renewed, as some of the delegates who attended the Western Regional Conference of the A.C.W.W., held in Ottawa, were again present at the World's Convention.

At Stoney Creek, where the idea of the first Women's Institute was created — also the first world's Association — five of the original world's first Institute members were present to greet the delegates from every land. In speaking there, Mrs. Sayre said, "Ideas can be more powerful than an army, a navy or an atom bomb", and admonished her hearers, "Never be afraid of yours".

One special study was the work of the United Nations, and one delegate claimed that "the strength of the United Nations is in the interest taken by the rank and file of local groups."

Prof. F. R. Scott, of McGill University, former Technical Assistance resident representative in Burma for the United States, told members of the conference in his address that, "Positive steps that women's organizations can usefully take are — support of the United Nations programs and well-considered plans to their governments for the extension of welfare activities". Prof. Scott felt that less-developed areas in the world today were the chief problems and that the advantages of the women in well-established lands should be shared with them.

The aim of the entire conference seemed to be teaching us countrywomen, as individuals, how to take a more active part in the International work; also that conserv-

LUMBER SHIPMENTS

Port Alberni, B.C. (CP) — Lumber shipments from this Vancouver Island port totalled 8,903,330 board feet during July. Shipments to the United Kingdom accounted for 5,251,830 feet.

50 Years in Business at Brownsburg

Ira McFaul Has Long Record as General Merchant

— Photo by Syd Drew

It was just 50 years ago today — September 3, 1903 — that Ira McFaul entered into business at Brownsburg, when he and his brother Vincent bought the branch of an old Lachute firm, McFaul Bros., situated in that village. The business was then in the Hardie Building, site of the present Brownsburg Pharmacy. Two years later they moved across the road to the present site, and in 1908 Ira purchased his brother's share of the business.

Mr. McFaul (RIGHT) is pictured above at the counter of his general store, with his old-time employee of 40 years' service, Thomas Anderson (LEFT). Roland Harding is another employee of the firm.

George Ira McFaul was born Christmas Day, 1875, on a farm in Brownsburg, the fourth of five sons of the late Archibald McFaul and Elizabeth Gordon. In 1902 he married Margaret Anne Hutchin, who passed away in 1929. Ira is a charter member of the Brownsburg Rotary Club, highly esteemed by his fellow clubmen. His favorite pastime is fishing.

Employers, Group Members, Meet On Blood Clinic

The Red Cross blood clinic will be held, as previously announced, at Lachute Auditorium on September 30 and October 1.

These blood clinics permit the Red Cross to supply free blood to patients requiring it, in 77 hospitals of the Province of Quebec, including the Providence Hospital, Lachute.

The Canadian Red Cross, through these clinics, also supplies blood to Armed Forces and build up substantial reserves of blood plasma for Civil Defence and all other urgent needs.

In order to obtain the best possible results in this coming clinic and a record response from Argenteuil County, employers of groups of over 10 employees, and representatives of Social and Service Clubs were summoned by the committee chairman, Horace Lamarche, to a meeting last night in the Legion Hall, Lachute — where workers gave encouragement to the organizing of full support from industries and clubs. It is hoped by these means to enrol and record attendance of volunteer donors.

Back around 1900, Robert Swain, now a retired elevator agent at Altamount, Man., bought an old violin from an Englishman travelling through, for a few dollars; it went to his son after many years and lay in an attic in Sudbury, Ont. Now a Sudbury musician has discovered it is an original Stradivarius, which might be worth anywhere from $7,000 to $150,000.

Mabel Hedemark of Blindman, Alta., was chosen for a "stand-in" for Shelley Winters in a movie currently being filmed at Banff by Universal Pictures. It also stars Alan Ladd. Miss Hedemark, thrilled to the core, was chosen also because she is an excellent horsewoman and will play in scenes where riding is called for.

Provincial Revenues Reach Record Total

By Bertrand Thibault

Quebec (CP) — Provincial revenues reached the record total of $283,617,541.43 for the 1952-53 fiscal year ended March 31, for a surplus over ordinary expenditure of $28,887,819.10.

Final figures for the 1952-53 term, published in the Quebec Official Gazette, showed the trend of increased revenues is continuing.

Ordinary expenditures for the year totalled $254,729,722 against $183,130,620 for 1951-52 and capital expenditures were $67,007,015, compared with $60,262,344 for the previous term.

Over-all expenditures for the year ended reached the unprecedented total of $321,736,737.77, compared with $275,672,790 the previous year.

Corporation, motor-vehicle and gasoline taxes continued to be the main supplier of revenue to the Provincial treasury. Corporation tax on profits was slightly down while corporation tax on capital was slightly up. Corporation taxes provide roughly 25 per cent of revenues, gasoline and motor vehicle taxes, roughly 20 per cent.

Sales tax yield was $38,782,812 against $29,224,747 in 1952. Out of this $19,281,595 went into the education fund which, with another $6,018,381 from stumpage dues and hydraulic resources, and other miscellaneous revenues reached $26,376,079.

Ordinary expenditures were generally up. Exceptions were agriculture down to $12,940,386 from $13,729,278, the provincial secretary's department from $4,225,277 to $4,179,666 and public debt charges from $11,675,313 to $11,411,024.

Main capital expenditures were for roads with a total of $47,102,900, not including colonization and mine roads. The figure compared with $44,206,189 in 1952.

Charges Laid in Robbery Cases

Sequel to a robbery on May 23, 1953, when the premises of Brownsburg Lumber Company were broken into, was the arrest of two Brownsburg youths by Det. Maurice Lamoureux last week-end. The two miscreants, both 17 years of age, will appear at court in St. Jerome on charges of breaking and entering, plus the theft of $42.15 in cash, $15 in unemployment insurance stamps and a carton of cigarettes.

• • •

Seven Brownsburg youths (including one apprehended in the above case) will also face trial at St. Jerome on a charge of trespassing on C-I-L property and removing 1,100 lbs. of copper wire. Arrests, in this instance also, were made by the local detective.

Two Treated at Providence Hosp'l

Two motorists from Deux Montagnes County, Gérard English and Roger Leduc, both of Ste. Dorothée, came to grief on the Montreal highway near St. Hermas last Friday, and were brought here to the Providence Hospital suffering from injuries. They were treated by Dr. Marc Papineau, who ordered that the patients be transferred to St. Jerome hospital.

Traffic Officer Albert Legault, who investigated, stated that the automobile hit a pole at the roadside.

Approximately 38 per cent of the total Canadian consumption of raw cotton is processed into clothing.

Prohibit Use of Hoses, Sprinklers And Fountains

EMERGENCY MEASURE IN VIEW OF WATER SHORTAGE

In view of the current water shortage, urgency measures have been adopted by Lachute Town Council in applying the by-law to prohibit use of hoses, garden sprinklers and fountains. The police have orders to strictly enforce this provision, namely:

By-law 143, Article 13: The water committee or superintendent shall have power to prohibit the use of water for fountains and hoses at any time found necessary.

And Article 21, which provides for the levy of $20 fine and costs for any infraction of this law.

The measure will apply to all consumers connected with the Lachute water system, both within the town limits and in adjoining areas.

On improvement of the present critical situation, and lifting of this ban, due notice will be given to the public by the town authorities.

Movement of grain by river in the United States has revived considerably in recent years. Since the end of the war the downstream flow of grain on the Mississippi has been several times larger than it was in the so-called "golden age" of river shipping.

Duck, Partridge Season Opens Sept. 19 th; Deer, Sept. 25 th

Dates for the hunting season as affecting Argenteuil County are cited by the game authorities from the provincial summary of regulations just issued.

The season for deer (male, female and fawns) is September 25 to November 24 (Zone C).

Moose — prohibited in this county.

Ducks — September 19 to November 17.

Geese — ditto.

Partridge — September 19 to November 15.

Pheasants — September 19 to October 4. (10,000 of these birds have been released in Argenteuil by the Fish and Game Department.)

A resumé of the regulations is published in more detail on page 6; or further information may be obtained here from the department's officer, Fernando Lamarche.

Another Safety Award For Brownsb'g Employees

Brownsburg — Employees of the Brownsburg ammunition works of Canadian Industries Limited have been awarded the Department Manager's prize for having achieved a record of 750,000 consecutive manhours without a lost-time accident. This is the equivalent of one man working 375 years without a mishap.

Works manager L. C. Thomson said individual awards will be presented shortly to the employees, who are now trying for the next award, the President's Prize, which they can win late in October by maintaining their accident-free production record until that time.

Expect 1,000 Farm Forum Meetings on Reopening of Season November 2nd

Farm Radio Forum opens its 14th season on November 2 with a broadcast on "The Ag. Rep. and the Farmer" — Floyd Griesbach, National Farm Forum Secretary, has announced.

It is expected that a thousand meetings will take place in farm homes across Canada that night, as some 20,000 farm people gather in Farm Forum groups to consider how farmers and agricultural representatives or district agriculturists can work more closely together.

"Farm people appreciate the services of their 'ag. reps' (agronome) very much", Mr. Griesbach says, "but they sometimes feel that while the ag. rep. is greatly overworked, there are many farmers who never use his services. How can the ag. rep. reach more farmers without having to increase his own activities?" asks Mr. Griesbach. "We hope that ag. reps., D.A.'s and agronomes will sit down with farm people on November 2 and thresh over this problem with them."

The important part played by the farm wife as a partner with her husband, will be the subject for discussion in Farm Forum the following Monday, November 9, under the title "Partners All". This will be followed on November 16 by a look at the dairy industry, when "The Challenge of Dairy Substitutes" will be considered.

Other Farm Forum topics in succeeding weeks will include: "Telling the Farmer's Story" (December 14); "Stop, Look and Listen" — the level crossing problem (January 18); "Barriers to Trade" (February 1); and "The School Tax Problem" (March 1).

All broadcasts will be heard on Monday evenings on the Trans-Canada network of the CBC, and will be followed by local group discussions.

Junior Farmers Place Second in Provincial Livestock Judging

Mr. and Mrs. Alex Bothwell left on Sunday by motor to attend the Sherbrooke Exhibition. They were accompanied by Ross Oswald, the Club Leader, George Pasco and John Oswald, the two boys from this district representing the Ottawa Valley to compete in the Inter-County Livestock Judging Competition at the Exhibition.

A communication by wire from Mr. Bothwell on Tuesday indicates that the Lachute boys placed second in the judging competition for this province, John Oswald tying for first place. John also won the Ayrshire Association trophy.

Mr. Bothwell, district agronomist, personally trained these boys in cattle judging.

Visit of His Excellency Bishop Emilien Frenette To Notre Dame de Lourdes Shrine

Scenes at the Notre Dame de Lourdes Shrine, Brownsburg Road, during the recent observance of the Assumption and celebration of mass by His Excellency the Bishop of St. Jerome.

Top Army Nurse Home from Korea

Vancouver (CP) — Canada's senior woman army nurse in Korea, Capt. E. B. Pense, of Kingston, Ont., was included in a draft of 16 Canadians returning home at the end of July.

"I had a very interesting year over there", she said, "but it's wonderful to know there will be no more casualties". She and the other veterans were in Tokyo when the truce was signed, and were the first to reach Canada since then.

Captain (Matron) Pense was in charge of the Canadian field dressing station north of Seoul, and also the Canadian section of the British commonwealth hospital at Kure, Japan.

She noted that use of helicopters made a tremendous difference to the handling of casualties. "It can get a man to the hospital within a half hour", she said.

A Salmon Arm, B.C., man, Frank Magee, repaid a debt of nine years ago when he welcomed to town J. Van Hendrick Guens, who arrived with his wife and children to start a new life there. As a member of the Dutch underground movement he saved Magee's life when he was shot down in a bomber in 1944. Guen, half Javanese, will learn Canadian agriculture methods.

More kinds of knitted wool outerwear are produced in Canada than in any other country.

Ban Lifted on Woods Travel in Province

Quebec — This year has been one of the worst for forest fires in Quebec province, Henri Kieffer, chief of Quebec Forest Protection Service, said last week.

At the same time, Mr. Kieffer announced all bans on forest travel imposed as a result of numerous fires have been lifted — including forests in Saguenay where a fire north of Forestville has destroyed about 185 square miles of timberland.

A few weeks ago most forests were closed as a result of tinder-dry conditions in the bushlands. Banned regions included a 600-mile stretch of forest along the St. Lawrence river shore extending from Montreal to Sept Iles.

Mr. Kieffer said it was too early to estimate total damage caused by forest fires this year. He said his department would have to wait for reports from all regions of the province before estimating the total loss in terms of dollars and cents.

Most devastating and threatening fire was the one near Forestville about 200 miles east of Quebec City.

Some 600 volunteer fire fighters fought the blaze at its peak.

Since 1943 Canadians have made greater users of airline than of rail-

Gatineau LINES

A Labour Day Tribute

Science has done much to advance to the present stage of efficiency the materials, machines, and equipment which are used to deliver electricity.

These, however excellent they may be, would be entirely without avail were it not for this Company's army of workers — over 700 — your own neighbors and friends — who guide the hidden forces locked up in electricity into safe channels, so that they may properly perform the service which scientists have made possible.

This week, on the eve of Labour Day, tribute is paid to the Company's loyal and conscientious group of workers!

Gatineau Power Company

DIG FERTILIZER DEEP IN NEW-HOME SOILS

New home owners who plan planting grass seed this fall should fertilize their soil to a good depth. That was the advice of Bob Keith, CBC Ontario Farm Gardener, broadcast to his listeners last Sunday morning.

Sometimes on acquiring a new house the soil about it is nothing more than the sub-soil which was dug out for the foundation. In such cases, fertilizer should be dug in to a depth of about 4 to 6 inches, instead of the usual 3 to 4, says Bob.

Seasonal

Farm Topics

Artificial Insemination In United Kingdom

London — There has been a vast increase in Britain in the use of artificial insemination for cattle since 1944-45, the first year of operation in Britain.

In some parts of Britain, notably in the West, artificial insemination accounts for some 60-70% of the birth rate for all cattle. Overall, 63% of dairy cattle are born through artificial insemination, 20% of dual purpose, and 15% of beef. The British service, organized through the Milk Marketing Board, is considered to be the equal of any in the world.

In the United Kingdom ten years ago, the proportion of cattle bred to pedigree bulls was only 50%, while today it is almost 85%.

Livestock Insect Investigations

Ottawa — More effective service in pest control to the livestock industry is planned by the Federal Department of Agriculture in a reorganization of research work on livestock insects carried out by the Division of Entomology.

Effective on October 1, the Livestock Insect Laboratory at Lethbridge, Alberta, will become the major research centre on livestock insects for Western Canada. Mr. R. H. Painter, B.S.A., M.Sc., who has been in charge of the laboratory since 1947, will be Livestock Insect Liaison Officer working closely with provincial authorities to carry out provincial programs for the control of livestock insects.

Mr. Painter is well known to the livestock industry and has unrivalled knowledge and experience of the insect problems affecting the industry in Western Canada and of methods of dealing with them.

Additional research staff will be transferred from Kamloops to Lethbridge to meet the needs of the enlarged research program there. It is also planned to develop a comparable research centre in Ontario to serve the industry in Eastern Canada.

Securing Soil Sample For Analysis

Generally speaking, after the crop has been harvested in the fall is the best time to take a soil sample. Early spring applications of fertilizers can then be made according to recommendations.

If the field is fairly uniform in soil type, one composite sample will be sufficient. Soil should be taken from eight or 10 different points in the field, then thoroughly mixed together in a clean basket or pail which is free from rust. About half a pint of the composite sample is sufficient to forward for analysis. If the field contains a knoll or extremely low area, separate samples should be taken from these parts.

To take a soil sample, dig down five or six inches and throw aside this spadeful of soil. Next cut a thin slice down the face of the hole and while the soil is on the spade, with a knife cut off the sides and about half an inch of the bottom. Then put the remainder of the soil in the pail or basket and go on to the next point of the field to be sampled.

The composite sample should be put into a small cotton bag or cardboard box and firmly tied. Attach a tag giving your name and address on one side and address on the other side to your nearest soil-testing station. Be sure to number and keep a record of where it was taken, for your own information. Your local agricultural representative will supply you with soil-sampling boxes, questionnaires and any additional information on request. There is no charge for soil-testing service.

A letter should be forwarded in a separate envelope along with the sample, giving, as far as is known, the crop history of the field from which the sample was taken. If the soil analyst has some idea of the drainage conditions, topography (flat, rolling or hilly), and whether a legume crop has been grown recently, etc., he will be in a better position to recommend soil improvement management and rates of application for fertilizers and manures.

Twitch Grass Control Measures

Twitch grass, couch grass, and scutch grass are some of the more printable names applied to a very well-known weed that is the cause of many headaches to farmers in their efforts to eradicate it from their fields.

Twitch grass looks innocent enough, just another type of grass with dark green heavily ribbed leaves, stems up to three feet high and the seeds formed in a narrow, flat spike. The seed is about one-half inch long, narrow, light in weight and is frequently found as an impurity in grain or grass seeds.

The shallow, creeping, perennial rootstalks are the chief cause of grief, clogging the harrows, cultivator and seed drill. The roots continue to thrive after plowing down, or cultivating up. When scattered over a field by farm implements they readily establish a new patch of twitch grass to plague the farmer.

Control measures should aim to bring these root stalks to the surface during the dry part of the summer. Shallow plowing in June or July, after a hay crop is removed, should be followed by frequent working with a cultivator until time to sow fall wheat. Immediately after the fall wheat crop is removed shallow plowing should be done again and surface cultivation continued until freeze up. A one-way disc or disc plow is satisfactory for the midsummer plowing operation. However, the disc harrow, or double disc is to be avoided because it chops up the root stalks, each part of which will grow again at the nodes.

Much of the value of plowing or cultivating is lost if the weather is wet, therefore, take all possible advantage of the hot, dry weather of July and August. Poorly drained land also increases the difficulty of controlling twitch grass. Tile drains may thus provide another indirect benefit.

The Crops, Seeds and Weeds Branch of the Ontario Department of Agriculture reports that chemical control of twitch grass is not yet practical on a large scale. At rates sufficient to control twitch grass, chemicals would destroy the crop, and the cost would be about equal to the cost of cultivation to achieve similar results. TCA is the chemical which has given most success. The first application is made on freshly plowed ground using about 30 pounds of TCA per acre. A subsequent application is usually necessary to control regrowth. The cost of chemical treatment would range between $20 and $30 per acre.

A recent test at the Ohio Experimental Station showed that in combining wheat the grain, the loss averages between half a bushel to two bushels per acre. The loss in combining wheat was the greatest at the cutter bar. This was due to improper adjustment — too high or too low — accumulation of trash and fine material, overloading and improper adjustment of the reel.

Labor Day

Seest thou a man diligent in his business? He shall stand before kings. — Proverbs 22: 29

80 m.p.h. Chase Thro Hawkesb'y

Montreal Trio Arraigned on Breaking-Entering Charge At Chute à Blondeau

Hawkesbury — After an 80-mile-an-hour chase through Hawkesbury, police arrested three Montreal youths last Thursday in an allegedly stolen car following reports of a break-in and theft at a restaurant in Chute à Blondeau at 6 a.m. that day.

The car was later reported to be a taxi stolen in Montreal the previous night.

When police finally stopped the vehicle they found two knives and a fully-loaded combined rifle-shotgun in the back.

Constable J. J. Trudel, of the Ontario Provincial Police, setting out to investigate the break-in noticed a car at the eastern end of Hawkesbury's main street, and after a chase, a road block in front of the Hawkesbury post office caught the car and its three occupants.

Constable Trudel had been given the first three numbers of the car's license by a witness in Chute à Blondeau. The constable was assisted in the chase by Constables C. Lacelle and R. Villeneuve of Hawkesbury.

They had seen the chase as they were leaving their office to go off duty. The Provincial Police car had a flashing red light on top, and the siren was wide open during the two minutes the hunter and the hunted twisted and turned through the town. Brakes squealing at every corner, the chase could practically be followed by the sound.

Constables Lacelle and Villeneuve, of the Hawkesbury police force, gauged the direction of the chase, decided it would reach the post-office sooner or later, and set their car across the road. . . They guessed right.

The cab came screaming round a corner a half block away, and skidded to a halt inches from the road block.

'TWAS GREAT DAY IN NEW HAMBURG

—Central Press Canadian.

Normally, New Hamburg, Ont., is a quiet town of 1,800 persons. But on Derby Day, the population swells to 7,000 and they're anything but quiet, as everyone from children in arms to great-grandfathers join in the festivities. Top interest in the community celebrations is the pacing derby, this year won by High Lee, a new name in racing events. Mike Motze, five, led the ponies which led the pacers to the track before each race.

Saskatchewan Calm Amid Oil Fevers

Saskatoon (CP) — Although some geologists claim Saskatchewan is "floating on a sea of oil", it appears unlikely that any future development would leave the province with the oil fever that dominates Alberta, its sister to the west.

The average per-capita income of Saskatchewan's 800,000 residents in 1951 was $1,319, compared with Alberta's $1,252 and Manitoba's $1,136. Total Saskatchewan income that year was computed at $1,097,000,000.

Saskatchewan citizens apparently can't be steered away from the fact that agriculture is the province's bread and butter. They were little impressed with oil companies' announced plans to drill as many as 1,200 wells in the province this year; or that more than 9,000 mineral claims were staked in the first five months of 1953.

Saskatchewan's vast farm production is achieved in spite of the fact that more than one-third, possibly closer to one-half, of the cultivated land in the province lies within an area once described as a "desert".

Captain John Palliser, who explored land conditions in the west for the British Colonial office in the years 1857 to 1860, saw little merit in the land later to be known as the Palliser Triangle.

Palliser saw a great treeless plain, its soil light brown and low in organic matter, its covering a short grass. He concluded that "this district, although there are fertile spots throughout its extent, can never be of much use to us as a possession."

This extension into Canada of even drier lands in the United States is actually in the shape of a shallow triangle, based on the 49th parallel from longitude 100, near Boissevain, Man., to 114, in Southern Alberta. Its northern vortex comes near parallel 52, a short distance south of Saskatoon.

Rainfall in the area is slight. The average annual precipitation of 19.8 inches at Winipeg contrasts with the average of 12.8 inches in Medicine Hat, Alta.

And then, as every farmer knows, the rain is likely to fall at the wrong time, curtailing seeding as was the case this year in some districts, or marring the harvest. Also, hot winds during the growing season mean high evaporation and add to the danger of crop failure.

But even with these odds against them, more than 500,000 people live and prosper within the semi-arid area of the Palliser Triangle.

Bank Robbery At St. Augustin

Montreal — Two men held up the St. Augustin, Que., branch of the Banque Provinciale du Canada and escaped with about $4,000 last Wednesday. The holdup was the second within three months at the same branch, about 25 miles north of Montreal. Two armed men robbed the bank of $1,000 on June 4 and Provincial Police suspect that the same pair are responsible for the two robberies.

Miss Bernadette St. Jacques, 50, manager and sole employee of the bank, who was alone in the place during both robberies, said that two men, both in their thirties, well dressed, and not masked, entered the bank shortly before noon.

"One of them pointed a gun at me", she said, "and ordered me to let them into the cage. They emptied the cash drawer and then forced me to open the safe, which they rifled before fleeing in an auto."

Stolen Car Recovered Five Miles Away

A stolen car was later recovered about five miles west of St. Augustin and Lt.-Det. Albert Basaillon, head of the Provincial holdup squad, said it might have been the getaway car.

Lieutenant Bisaillon said both holdups looked like the work of the same pair of bandits, but added that police were hampered by the fact that Miss S. Jacques was so unnerved to give a description of either the men or the auto.

On June 4 two men entered the bank, waited for a customer to leave and then levelled a pistol at the manager. They escaped with only the money in the cash drawer and fled in what police believed to be a stolen auto.

U.K. DOCTORS ATTEND MONTREAL CONGRESS

London — 97 U.K. doctors are attending the International Physiological Congress at Montreal August 31 to September 4. Subjects under investigation include — survival in extremely cold temperatures; the thyroid-hormone and the effect of insulin on the body.

A FALSE HEMLOCK

The famous Douglas fir tree is not a fir tree. It is a false hemlock. Neither is the red cedar a cedar, it is a true cypress.

MEMBER AUDIT BUREAU OF CIRCULATIONS

Labor Day

IN ITS ORIGINAL conception, Labor Day was one set aside to honor the industrial worker and the achievements of trade unions. Today it is still marked officially only by organized labor. Everyone else takes a holiday but pays little attention to the significance of the day itself.

Yet the day has a meaning for all of us. Trade unions themselves would be the first to acknowledge that the day of outright hostility between labor and management has ended; that narrow-mindedness on both sides has no place in the building of a greater Canada. And just as the factionalism of yesterday is outdated, so has the significance of Labor Day moved with the times.

On September 7 every employed person in Canada, from the company president down to the office boy, will be taking a holiday. It is these millions of people, whether they belong in the labor or the management sections of industry, who are contributing to the building of this country.

There lies the real meaning of Labor Day — Canadians, laboring to achieve a better, more prosperous Canada; a finer place in which to live and bring up their families. Let there be trade union parades and celebrations on September 7 — but let there also be a moment's reflection by each of us on the broader concept of labor in Canada — the creation by our own free efforts of the kind of country we want our children to inherit.

◇ ◆ ◇

Anticipating the Toll

THE TREND towards more long week-ends, such as Labor Day, is responsible for an alarming increase in traffic deaths and injuries, say officials of the All Canada Insurance Federation.

An estimated 70 deaths and hundreds of injuries are expected this coming Labor Day week-end in Canada unless above-average precautions are taken.

When a holiday falls on a week-end motorists tend to drive farther and faster into unfamiliar territory, say safety experts. The confusion of hastily planned trips and long hours of driving brings on fatigue which is responsible for large numbers of traffic accidents.

Mechanical failures, bad roads, and poor driving conditions cause only a small percentage of all accidents; 99 per cent of accidents are caused by carelessness, and therefore could be avoided.

Some safety measures are recommended for week-end drivers, as follows:

1. Plan trips carefully. Long distances are tiring, and should be left until summer holidays.
2. Have car checked before leaving.
3. Never load too many people into car.
4. Remember that speeding, drinking while driving, driving on wrong side of the road, and ignoring rights of way of other motorists are the factors responsible for 70 per cent of all traffic accidents.
5. Never drive with glaring headlights or fogged windows.

◇ ◆ ◇

SCOOP — The Independent Grocers' Alliance "has found newspaper advertising to be its most effective medium" and has proved it profitable to increase its newspaper advertising budget each year". . . The Watchman "scooped" this discovery years ago. And the Grocers' appropriation of $2-million for newspaper advertising in 1954 should be a pretty convincing argument for a few dollars' investment by local merchants in The Watchman!

School — and Opportunity

AND AFTER Labor Day comes — School. If perchance there are school-age readers of this column (we doubt it), they need no reminder of this perennial milestone which they approach with mixed emotions — with regret at the curtailment of their summer freedom — with pleasure in the anticipation of renewing school acquaintances, in becoming a part of the great community which absorbs their youthful lives, and in encountering new experiences as the school year dawns again.

It is not for the school-agers that we add a note of exhortation — that would be fruitless, since they have no interest in editors' views — but for the parents, whose influence imposes a weighty responsibility. . . It has been the general experience in business (our own is no exception) to engage youthful newcomers, some with willingness and energy, some even with technical training and business aptitude, only to find that their efficiency is continually impaired by lack of the first elements of education — English, French and Mathematics. This deficiency points to one thing, namely, failure to apply themselves at school.

Reckoned as a cornerstone of future careers, school should be rated as invaluable. Sad to admit, it is beyond the concepts of the average child to appraise his education in these terms; and it therefore behooves the parent to impress this viewpoint and exert all influence upon their children to grasp the benefits which, in later years, are less easy to acquire.

◇ ◆ ◇

Uncertainty in Abundance

SUMMER rainfall seems to have guaranteed a bumper grain crop in the West this autumn. Already the golden wheat is tumbling over the chattering blades of combines and swathers.

The present forecast is for more than 600,000,000 bushels of wheat alone — second largest crop in history. Most years there would be rejoicing through the land, for a good crop should mean prosperity through the West and by reflection through the country.

But this year the harvest season brings uncertainty. The bumper crop comes on top of a July 31 carry-over from last year of 362,700,000 bushels. This is bound to create storage and transportation problems.

Country elevators are jammed from Manitoba to the Rockies. Storage facilities on the Great Lakes and Atlantic coast also are full. Storing the new crop and starting it on its way to overseas markets will be difficult.

To complicate the situation, overseas buyers are not purchasing in quantity. Their requirements for the rest of 1953 are about filled, according to reports from recognized grain-trade experts.

Canadian farmers are paid only when they deliver grain to elevators. Until the grain starts moving to seaboard, deliveries from farms must be sharply curtailed. The West's grain wealth for the time being will be unusable.

The unknown factor in the situation is Britain. Her millers are already covered for the bulk of their requirements up to or beyond the year-end. They are in no hurry to buy the rest of their needs because they believe prices may fall off somwhat in view of the world wheat glut that is developing.

Still, there seems plenty of ground for confidence that the problems in due course will be surmounted. Trade Minister Howe has expressed belief Britain will buy about the usual amount of Canadian wheat in 1953-54. And J. H. Wesson, president of the Saskatchewan wheat pool, said recently Canadian wheat exports will continue strong in the new crop year — and with "a considerable degree of stability in price."

ALL ABOARD

◇

By Our Columnist,
G. E. MORTIMORE

A San Francisco carpenter who calls himself "Canada Ernie" recently toured the United States from coast to coast preaching a "Crusade for Canada's Independence".

Canada Ernie, whose real name is Ernest Schallenbaum, Jr., feels that Canada should throw off the chains of British rule and start her own government. As a further sign of independence, this country should then join the United States, Ernie says.

Independence for Canada, eh? How is it that we Canadians never thought of an idea like that? All these years we have been mousing along in the same old subordinate way, sending a telegram to the King or the Queen to ask for new traffic lights, writing to the Colonial Office in London for permission to paint the back door of the post office.

We knew SOMETHING was amiss, but we couldn't tell what it was until Ernie spoke out loud and clear. Quick as a wink, a foreigner solved a problem which had baffled generations of Canadians. Independence! That was the answer. There is no doubt that Ernie is right. Canada should have her own parliament.

And if we proved after a period of probation that we could govern ourselves, we might be admitted to the union as the 49th or 50th state.

There is no telling how many American eyes Ernie opened during his cross-country tour. All kinds of people who used to think Canada was a Central American state have been set right. They now realize that we are a British colony dangling from the northern tip of the United States.

The people down there can tell that Ernie knows what he is talking about, because he went to school near Winnipeg for some time. Geography and history courses in Manitoba must be unique, to say the least.

Ernie should follow up his successful tour of the U.S.A. with a lecture tour of Canada. After that he might tour France urging the people to rise in arms and overthrow Napoleon. Then he could carry on through Europe and Asia, exhorting the tribes to unite against the menace of Genghis Khan.

I can visualize Ernie making a triumphal return to the United States and embarking upon yet another patriotic journey: nothing less than a tour of the American colonies, during which he would stir the people to rebellion against the wicked rule of George III. He might take as his slogan "No Taxation Without Representation", or some such phrase to catch the fancy of the multitude.

Of course he wouldn't have to use exactly the words I have suggested. I'm sure a keen and original mind like Ernie's can create a better slogan than that.

While there are more single men than single women in every province, the proportion of unmarried men is highest in British Columbia, Alberta and Saskatchewan. In the Yukon there are two unmarried men for every single woman.

SCOTT'S SCRAP BOOK by R. J. SCOTT

MONTREAL — MAELSTROM AND MILLSTREAM

By GEOFF.

Did somebody say summer was over? Well, don't look now, son, but if summer isn't still with us, for the love of Mike, turn off the heat.

Two people, at least, aren't complaining about the high temperatures. Seems two lost souls from Hades met yesterday morning at the corner of Peel and St. Catherine streets. After watching the thermometer reach for the 90 degree mark, the one turned to his pal and said:

"Well, Bill, is it cool enough for you today?"

* * *

I was a guest at a "demonstration" dinner the other evening. Quite the idea, and a lot of fun, too.

Having spent the best part of a week-end with some recently acquired friends, I hardly expected to find myself on their doorstep on the Monday. However, while I was making a pass or two at some office work, after the week-end, I was called on the phone.

"Can you come to dinner this evening?"

I confess I was quite unprepared for the invitation.

"Well, really", I replied, "I don't know that I should. After all, I have been parked on your doorstep for the best part of the week-end, and one can easily wear out a welcome."

"Don't be silly", the hostess replied, "you've got to come. We need you to make up the tenth."

I knew the hostess didn't lisp, so that ruled out the possibility that I might have to put up or take down a tent. But then I could not think of a game that required ten players, so I ventured a query.

"The tenth what?"

"The tenth guest at our dinner", she answered. "The fellow that sells waterless cooking pots is putting on a dinner here tonight. We have to have ten people. You have been chosen as the tenth. Will you come?"

"Why, yes", I faltered, "I'd be delighted."

So, in due course, I found myself on the doorstep once more. The cook-demonstrator's assistant was, unfortunately, a trifle late. However, the dinner got under way by eight, which made it, perhaps, a little more exotic. Using nothing but meats, vegetables, waterless cooking pots, a low flame and a basic knowledge of cooking, the demonstrator produced a most enjoyable meal.

We had beef, cabbage, carrots, potatoes, beans and gravy, followed by cottage pudding, coffee and mints. Never, in a lifetime of eating in homes and restaurants, have I tasted such delectable fare. We were treated to flavors we never knew existed. These, apparently, were the natural juices of the meats and vegetables which, in boiled fare, are poured down the sink drain. It was a succulent meal and I was sorry that it had to end.

We were asked, later, to state our preference for any one or two particular dishes that had been served us. Then, too, we were asked when the demonstrator might come to discuss the matter of waterless cookware with us.

In me, unfortunately, he drew a blank. Were I married, I'd buy a set forthwith. But, being a bachelor, I don't need them. And, besides, I wasn't of much help to the poor gent. The two items I liked best in the waterless dinner were the pudding sauce and the coffee, both heavily loaded with H2O.

Joking apart, however, if you haven't eaten a waterless meal, arrange to do so immediately. If you don't know where the cook-demonstrators can be found, let me know. I'll send this good fellow along. He supplies the grub, you invite the guests. He does the work, and washes the dishes! No fuss, no bother, no muss. And he gives the ladies a present for throwing the party, too. No kidding, you'll get the best meal you've ever tasted. Try it and see!

Labor Day

There is nothing truly valuable that can be purchased without pains and labor. — Horace

Sentence Endings, Mealtime Sport

Millions of people are already playing this game of Sentence Endings. It's been going on for years and years, for generations. Adam or Eve probably started it by finishing a sentence for the other. Today the thing is big and needs only a bit of organization for its success to be realized. There could be various leagues, say, with negotiation lists and waivers and the like. Nearly every home mealtime is a training centre. Anyone can start playing as soon as he or she can talk, and they usually do. When papa, for instance, pauses for that precisely correct word as he nears the end of a sentence, most everybody else in the family helps him out by proffering a word or clause. In a normal family it is not unusual for the winner to go right on helping papa with a whole new sentence, followed by other sentences — until somebody stops him in turn as he slows for a hurdle of phrasing.

In scouting future stars for this projected gigantic sport organization, the main qualifications to be looked for in the butters-in or conversational coup de grace players are a loud voice, impatience and a cheerful absence of thought. Qualities needed in players starting sentences and trying to get finished without being interrupted are a loud vocie and fast, not too much nicety about grammar and syntax, grim determination and a thick hide. The clever player, who compares to the stick handler in hockey, can sometimes win points by concocting a sentence with a trap at the end, so that the player who is trying for the conversational coup de grace will butt in with the wrong word; but, in the average family melee, finesse of this kind seldom makes much impression.

Fish Tags Record Strange Journeys

Fish are finloose creatures, and once they take it into their heads to go wandering there's no saying where they may make their next stop. Proof of this comes daily to the Quebec Biological Bureau of the Department of Game and Fisheries in the shape of returned tags from fishes released to improve the fish populations of rivers and other watercourses.

A Montreal angler, A. Marleau, was fishing in the port of Montreal when he hooked a 19-inch, 2-pound dore which, as it turned out, had been tagged in Vermont and wandered into Canada through the islands of Lake Champlain.

How a sturgeon tagged by the Quebec Biological Bureau, at the Ile Juillet in the St. Lawrence, weighing 6 pounds, was caught eight years later in Ontario weighing 19½ pounds, is the story told by the tag returned to the Bureau by George Vanston of Mallorytown, Ontario. He caught it in July this year. It was released in June, 1945. It had grown from 30 to 42 inches in length.

Listen now to the story of three fish that stayed near home. Fernand Burelle, of Beloeil, Vercheres County, went fishing in May and June along the Richelieu River, which borders his town. In that period, at spots not many miles apart, he caught three tagged dore, all of which had been released a year before at Missisquoi Bay which, considering this fish's capacity for taking long hikes, is a mere strolling distance away.

A reward goes with the return of these tags; the Biological Bureau is glad thus to learn more about the habits of fish. What anglers appreciate even more, however, is the fact that they also receive a typewritten statement of where the fish was released, how much it then weighed and other facts of interest.

Attractive Souvenirs Of Coronation Year

The Watchman publishers have a number of Coronation spoons for any who would care to own these attractive souvenirs. Purchased to fill requests following our subscription premium dates — these teaspoons are now on sale, at practically cost price, 50 cents each, or six for $2.50. Readers may order by mail or call.

In 1939 Canadians paid less than $1,250,000,000 to municipal, provincial and federal governments. In 1952 they paid more than $6,750,000,000.

DISTRICT NEWS FROM OUR COUNTY CORRESPONDENTS

Mabel

Mr. and Mrs. Leslie Tomalty and son, Nelson, also Mr. and Mrs. Austin Morrow, of Dalesville, left last week by motor for Western Canada and California.

Mr. and Mrs. Ed Murphy, of London, Ont., visited Mrs. Robt. Black and other friends here last week.

Mrs. Thelma Townsend is visiting Mr. and Mrs. Lorne Wert in Normetal this week.

Miss Helen Andrews, of Saint John, N.B., is visiting at present with Mr. and Mrs. Perley Clark.

Miss Eunice Warwick is spending a few days with her cousin, Miss Eleanor Warwick, at Vide Sac.

Messrs. Mervin Townsend and John Clark left this week for the harvesting in Western Canada.

Northern Grenville

Master Mackie McLean, of Harrington, is spending a holiday with his cousins, Heather and Jimmie Stone.

Mrs. Earl McIntyre accompanied her daughter and son-in-law, Mr. and Mrs. Scott MacLean, of Harrington, to Port Arthur, Fort William and Dorion, Ont., to visit friends and relatives.

Miss Hilda McCart and Miss Barbara Murphy, of Montreal, spent the week-end at the former's home.

Mrs. Wyman Young and son, Willis, accompanied by Miss Nelson Young, of Montebello, motored to Ottawa on Tuesday.

Mr. and Mrs. Reg Bennett and family visited Mr. and Mrs. Lawson Taylor, of Lachute, recently.

In Auto Mishap

Friends are sorry to hear of the recent auto accident in which Messrs. Asa and Willis Young suffered injuries — when the brakes of their car gave out on a long hill in the Avoca district, causing them to hit a tree. Mr. Asa Young suffered a severe neck sprain and facial lacerations requiring 20 stitches. Willis Young suffered a slight cut on his forehead, as well as leg bruises and cuts.

(Intended for last issue)

Mr. Roy Nixon, of Gaspé, is spending a holiday at his home here.

Mrs. L. H. Cooke, of Windsor, who has been visiting here, has now returned to her home.

Mr. and Mrs. T. Brazeau motored to Temiskaming recently to attend the funeral of the former's brother-in-law, the late Mr. Gustavson.

Mr. L. H. Campbell, of Gaspé, spent some time at his home here.

Mr. and Mrs. Gordon MacKenzie and daughters, Roberta and Marilyn, of Lake Orion, Mich., accompanied by Mrs. Chesser Waite, of Pointe au Chêne, visited Mr. and Mrs. W. Young recently.

Mr. and Mrs. Edley Woodbury, of Ottawa, visited in this district last week.

Quite a number from this district attended the Gladiolus Show held in Hawkesbury recently.

Misses Elsie Cousins, Minnie Rainey and Maureen Varden, of Ottawa, spent the week-end at the former's home.

Approximately 62 people gathered at the home of Mrs. Fred Cousins on Thursday evening, August 27, in honor of Mrs. Wm. Gauley's 64th birthday. She was presented with two pairs of blankets from her friends, and Mrs. Harold Reeves presented a basket of mixed flowers. A pleasant evening was enjoyed by those present.

97th Birthday

Congratulations are extended to Mrs. Mary Morgan on having recently observed her 97th birthday. Mrs. Morgan, who enjoys good health and spirits, is from Ottawa but has for several years spent her summers with Mr. and Mrs. Thos. Hoare, Sr.

Births, Marriages, Deaths, etc.

MARRIAGE

COUTURE - MUGFORD — Mr. and Mrs. Charles C. Lummis announce the marriage of their daughter, Mary Joyce, to Ross E. Couture, of Montreal. The marriage took place July 31, 1953, at St. Simeon's Church in Lachute, the Rev. C. R. Lang officiating.

DEATH

PAQUETTE — At l'Hôpital St. Joseph des Convalescentes, Montreal, Thursday morning, Sept. 3, 1953, Corinne Lavigne, widow of the late Omer Paquette, in her 80th year. Funeral Saturday 10 a.m. from the residence of her daughter and son-in-law, Mr. and Mrs. E. M. Jones, Bethany St., to Ste. Anastasie Parish Church; interment in Lachute.

IN MEMORIAM

GRAHAM — In loving memory of a dear wife and mother, Jennie, who passed away Sept. 6, 1948. Always remembered by her husband and family.

"Love and memories will never cease. Of one we loved and sadly miss."

Brownsburg

Baptism

The sacrament of Infant Baptism was observed last Sunday morning in the United Church, when the young daughter of Mr. and Mrs. Arthur Keatley was given the names Barbara Marion. The Rev. S. J. Pike performed the ceremony.

Flowers on the communion table at the service in the United Church last Sunday were in memory of the late Gilbert James Thompson, placed by his family to mark his birthday, which was August 31.

Morin Heights

Miss Grace Gillingham spent a pleasant holiday at the home of Mr. and Mrs. Harold Gillingham in Toronto.

Mrs. R. B. Bell returned to Verdun on Thursday, after visiting with her daughter-in-law for the past month.

Mr. and Mrs. Stanley Bell and son, Wayne, spent a couple of days recently as guests of Miss Vera McCullough.

Mrs. Wm. Rowland and son, Jimmy, are spending this week here.

Mr. and Mrs. Wm. R. Bell, accompanied by their daughter, Miss Beverley Bell, spent a pleasant holiday at Virginia Beach.

The afternoon tea and sale of work held by the Guild of Trinity Church in the Red Cross room last Friday afternoon, proved very successful.

Miss Joyce Seale attended the Craig - Smith wedding in Arundel on Saturday, August 22.

Miss Vera McCullough returned recently from a trip to Niagara Falls and the Adirondack Mountains.

We are sorry to report that Mr. David Wells is a patient in the Jewish General Hospital; friends wish him a speedy recovery.

Mr. and Mrs. Frank Lucas and children have returned to the city after spending several weeks at their cottage here. They had Mrs. Thomas Weira and family for several days last week, and Mrs. L. Aumais and Mr. Weir over the week-end.

Bell Falls

Mrs. Wyman McLean and children have returned home after visiting in Cornwall.

Mr. and Mrs. Joseph Page spent the week-end with Mr. and Mrs. Guy Nixon in Grenville.

Mrs. N. E. McCaig was the guest of Mr. and Mrs. Clarence Bennett recently.

Mr. Coral Swail, of Arundel, called on his sister, Mrs. Neil MacCallum, last Saturday.

Master R. Taylor, of Westmount, was a recent guest of Mr. Leslie Kerr.

Miss Mary Bennett is spending some time at Camp Kwasing in the Muskoka District.

Miss M. J. Stewart is visiting at present with her brother, Mr. Joseph Stewart and Mrs. Stewart.

Miss Kathleen McMahon has returned home from Toronto, where she visited with friends.

Miss Hilda Page and Mr. R. Eastwood visited relatives in Montreal last week-end.

Mrs. O. Robillard and Mrs. MacKinnon, of Port Arthur, are guests of Mr. and Mrs. G. Campbell.

Friends of Glendon Page, who is a patient in the Montreal General Hospital, extend wishes for his speedy recovery.

The W.A. held their monthly meeting on Wednesday afternoon at the home of Mrs. Neil MacCallum.

Miss Enid Bates has returned home after spending some time with relatives in Namur.

Service will be held at 11 a.m. in the Harrington United Church; Sunday School prior to service, at 10 a.m.

Avoca

Mrs. Edward Andrews and Gloria spent a week visiting relatives in Vankleek Hill, Grenville and Pte. au Chene.

Miss Maria Young spent a week with her aunt, Mrs. Chesser Waite, at Pte. au Chene.

Coffee prices could still move up, reports The Financial Post. Frost damage in Brazil, which provides some 50% of world's export coffee, is main factor in strong market tone.

Former Grenville Man Celebrates 90th Birthday

Family Reunion and Dinner in Montreal

James A. Stewart, formerly of Grenville, Que., now residing with his daughter, Mrs. D. I. Johnstone (2320 Tillemont St., Montreal), celebrated his 90th birthday on August 29 with a family reunion and turkey dinner.

Telegrams of congratulation were received from the Hon. Geo. Drew, Mr. and Mrs. René Soulierre, Myrtle, Milton and Jim Anderson, all of Ottawa; Mr. Philippe Valois, M.P., of Lachute; also his son, D. J. Stewart and family, in Kamloops, B.C.

The Rev. N. Noseworthy, minister of Bishop Carmichael Memorial Church, proposed the toast and expressed good wishes for continued good health. Those present of his family were Mrs. Cecil Bates and son, Glenn Bates, Timmins, Mrs. Ken Johnson, Bronte, Mrs. Milton Anderson and son Ronald, Ottawa, Mr. and Mrs. Wm. Stewart and Mr. and Mrs. Henry Stewart, of Grenville, Que., Mr. John Stewart, Ottawa, Mr. Edward Stewart, North Gower, Mr. Carl Paige and sons, Lyman and Stewart, of Mont Tremblant, and a niece, Mrs. H. S. Lee, of Calumet, Que.

Ogdensburg

Mr. and Mrs. W. Wert and Mrs. T. Townsend have returned home from Normetal, Que., where they spent the past week.

Successful Exhibitors

Messrs. John Heatlie, Jr. and Sr., attended the Ottawa Exhibition, where they took a number of prizes with their horses, which included a Grand Championship and also a number of firsts and seconds.

Mr. and Mrs. L. Plummer spent Sunday in Lachine. On their return they were accompanied by their daughter, Joyce, who had spent two weeks with her aunt and uncle.

Harvesters Go West

Mr. Donald MacKiddie, Ben and Charlie McAndrew, and Mervin Townsend, left for points in Western Canada on the harvest excursion Saturday night.

Mr. and Mrs. Elliott, of Montreal, spent the week-end with Mr. and Mrs. W. Lawton.

Mr. and Mrs. L. Wert and family, also Mr. and Mrs. C. Wert and family, of Normetal, are spending a few days with their parents, Mr. and Mrs. W. Wert.

Friends of Mr. Wm. MacKiddie will be glad to know he is well again after having been confined to bed with pneumonia.

At Enderby, B.C., the council is investigating to see what can be done to prevent women from appearing on streets wearing a variety of bathing costumes.

Annual Car Drawing At Lions Golf Tournament

More than ten months of planning by district Lions Clubs will terminate on Saturday and Sunday, September 12 and 13, with the staging of the eighth annual Lions C.P.G.A. of Quebec Golf Tournament at the LaSalle Golf Club.

Stan Horne, winner of last year's tourney, will defend his title against many outstanding golfers of the Quebec C.P.G.A., including Jules Huot, top Canadian in the Labatt Open, Jack Archer, Stan Baird, Diamond Gauthier, Jim Swarbrick and Rudolf Huot.

The pros will compete for over $5,000 in prize money and the coveted fifty-pound Lions trophy in 54 holes of medal play, 36 of which will be played on Saturday and the remaining 18 on Sunday.

Of interest to both golfers and non-golfers alike, will be the antics of the trick-shot wizard from Ormond Beach, Florida — Paul Hahn, who, in addition to conducting this year's golf clinic, will entertain with a repertoire of fast moving Hollywood gags and an amazing exhibition of trick shooting.

A drawing will be held for a 1953 Chevrolet Car and an RCA Victor 17" television set, as well as scores of daily attendance prizes. Tickets are still available from members of the Lions Club in this district. Net proceeds from the tournament will be used in Lions welfare projects throughout Montreal and district.

Friend of Birds Has Many Patients

Yorkton, Sask. (CP) — To many boys and girls in this area Mrs. Jake Meekma is known as "the bird lady".

Most of Yorkton's sick or injured birds eventually find their way to the Meekma home. Almost every week during the summer, and frequently during the winter, Mrs. Meekma answers the door to be greeted by the remark: "We have a hurt bird".

She applies tiny splints to wings and legs, bathes cuts and wounds, and keeps the birds warm.

Her biggest task is to obtain food. "Swallows and martins will take only live insects, for instance, and it is quite a chore to go hunting water insects for snipes", she says. Sometimes she suggests that the youngsters take the bird back to where they found it so it can fend for itself.

Her most frequent "patients" are robins. She has cared for more than a dozen robins this summer. She has also tended wrens, bluejays, thrushes, orioles, grackles, hummingbirds and flickers.

Mrs. Meekma's home is surrounded by trees that shelter many birds, and a large colony of purple martins make their home in the back yard.

"Sometimes", she said, "they eat the queerest things. Like that blamed goldfinch who ate all the flowers off my ladyslippers."

PIONEER PILOT

Kelvington, Sask. (CP) — Jeff Home-Hay, 66, pioneer western Canadian bush pilot, died at his farm home here. He retired in 1952 after 25 years of flying over the north. In the early days he operated from Saskatoon in a plane called "Lady Wildfire".

English Harbor, Nfld. (CP) — Fishery Officer Gerald Patten reported a 30-foot, toothless fish was caught when it became entangled in a net. When cut up the fish yielded 10 barrels of oil.

Vaccination Call in India

Loudspeakers mounted on rickshaws call the people of Delhi, India, to visit specially established vaccination centers at the nearest street corner, to get their anti-TB inoculation. This is part of the tuberculosis control program now being carried out by India with aid from the U.N. International Children's Emergency Fund (UNICEF).

INSURANCE FOR CANADA'S FUTURE

—Central Press Canadian

Though not widely publicized, one of the best forms of insurance for Canada's economic future is being undertaken by collaboration of government and industry in reforestation. Experts say that with controlled replanting of forest land, Canada could supply the world with timber forever. To mark the planting of the 1,000,000th tree this year in the Kapuskasing, Ont., area, G W. Phipps, timber company executive, and woods manager Fred Flatt do the job by hand.

The Week at Ottawa

By Anthony Dickason,
Canadian Press Staff Writer

Ottawa, Sept. 1 (CP) — There is plenty of grain ripening in Canada this fall, but too little space in which to store it.

After the crops come off the fields, the problem will be still greater. The situation is not caused by lack of export markets, officials claim, but merely by a shortage of space in which grain may be stored. Western farm elevators are choked, as are the terminals. The situation will be eased, at the earliest, in October when grain starts moving overseas.

The Bureau of Statistics estimates the 1953-54 wheat crop will be more than 600,000,000 bushels, the second highest in history.

But despite the shortage of storage space, described as "serious", one senior grain man said: "It's all going to be money in the bank, if we keep our heads".

Country elevators in the west have storage capacity for some 311,000,000 bushels. Little space is expected to be available for the new crops.

But there is a positive move on the farm front. The federal government has announced an expansion of its effort to control livestock pests in western Canada. The livestock insect laboratory at Lethbridge, Alta., will become the major research centre on livestock insects for the west.

Good Incomes

The west was to the fore on the personal income front also. DBS showed that residents of Trail and Kimberley, B.C., had a higher average income than any other city in the country in 1951, last year for which statistics are available. In these mining centres the average income was $3,486.

Back in Ottawa, there were a lot of further statistics on other subjects. DBS reported 37,462 births during July, about 1,200 more than in June and a 2,557 increase over July last year. The seven-month period for this year was an all-time high — 233,766 babies registered since January, compared with 226,863 for the January - July period of 1952.

Canada's domestic exports in July hit about $393,000,000. This was lower than June but higher than the July, 1952, figure of $370,000,000.

Bad Books

The subject of salacious and indecent literature has again reared its head, this time in Ottawa at a meeting of the Canadian Library Association. The group plans to tell a senate investigating committee that it thinks censorship is "a dangerous and delicate instrument". The group said they believed the prohibitive approach to the problem was negative. The most effective means of combatting the bad book, said this body, was by substituting the good book.

Russian Diplomat

On the diplomatic front, the Canadian government is considering appointing a new ambassador to Moscow. This was the reaction to the Moscow announcement of the appointment of D. S. Chuvakhin as Russia's ambassador to Canada.

Chuvakhin is the first Russian ambassador to Canada since Georgi Zarubin was recalled in 1945 at the time the big Russian spy ring was unearthed here. Canada has had no ambassador in Moscow since Dana Wilgress was moved to another post, in 1946.

Canada's senior representative in Moscow at present is chargé d'affaires Robert Ford. He has served 2½ years, although the normal posting is two years.

Distinguished Visitor

Meanwhile, the Capital had a distinguished visitor, Field Marshal Viscount Montgomery. In an address, Viscount Montgomery called for an aggressive, integrated western policy to meet the threat of international Communism anywhere in the world for the next 25 years.

He urged a "global" policy, and said that in the Far East the British and Americans "hardly speak the same language as to what is the western policy towards eastern Asia."

Montgomery said "there is difficulty in getting political agreement among nations of the free world", and he predicted that world tension today has not yet reached its peak. "I think the present strain is going to continue and get more intense."

Also: "In the strengthening of the North Atlantic Treaty Organization lies the best hope of preventing a third world war."

Brighter Note

Trade with the United States, long an integral part of the Canadian economy, got a little encouragement from south of the border. President Eisenhower has urged "liberalization" of U.S. trade policies with Canada. The statement of the President was received with optimism by members of the trade department here, hoping it might spell an end to current restrictive trade practices.

District Governor Wilf Buckley On Official Visit to Rotary Club

Wilfrid A. Buckley

Brownsburg Rotarians received their annual visit from the Rotary Club District Governor last week.

Mr. Wilf Buckley, of Kingston, Ont., has a distinguished record of community service as General Secretary of the Y.M.C.A., in which capacity he has been well known throughout Ontario and Quebec for many years.

In his message from Rotary International, Mr. Buckley congratulated the Brownsburg club on their excellent record, making special mention of attendance, which he took as an indication of an active club.

In speaking briefly on the aims of Rotary, he stressed that as an organization it has no religious or political affiliations. Instead, by exemplary conduct on the part of members, it is hoped to serve the community by setting high ethical standards in business practices. In restricting membership to one person from each business classification, the organization can be kept more truly representative of all community enterprises rather than one particular group.

The Rotary organization is composed of four main committees. Mr. Buckley spoke in turn of the function of each part of each committee, indicating the contribution made to the smooth operating of the club.

The Club Service committee is responsible for choice of weekly programs, club information service and general fellowship within the group.

The Vocational Service committee, of which all members are a part, have responsibility for sharing Rotary principles with non-Rotarians by using them as a guide in everyday contacts with people.

Under Community Service members are urged to take a lead in worthwhile activities.

Through the International Service committee Mr. Buckley expressed the opinion that Rotary can be a potent force in promoting international goodwill and he suggested that contact should be kept with distant clubs as a means of fostering mutual understanding.

In concluding, the District Governor reminded the members that the organization can only be successful if the principles and ideals of Rotary are applied to everyday contacts.

Mr. Buckley was introduced by Jack Reade and thanked by Stew art Jones. Dr. Clifford Smith, Montreal, was a guest of the cl at this meeting.

It was reported by Wes Fre land that the swimming class conducted by Mr. Lundy Pearso at the Rotary Park had been co cluded. An official Red Cross re resentative conducted tests, an badges are to be presented to a successful candidates in the vario classifications.

LAW OF THRIFT PAYS OFF FOR GIRL GUIDES

Montreal — The law of thrift paid off for Girl Guides in the 4th Company at St. Lambert recently when they boarded the CNR "International Limited" bound for Chicago.

Ever since last summer they have been earning money by selling marmalade and candy, doing housework, editing a small newspaper, putting on luncheons and card parties and showing movies. The girls saved every penny earned to finance the trip and tie the final knot in the first International Friendship Link established with a Quebec Girl Guide company.

The link between the St. Lambert Guides and Girl Scout Troop No. 32 of Des Plaines, near Chicago, was established in 1951 by the International Friendship Commissioner.

In August of last year Troop No. 32 visited Montreal, toured the city and camped with the St. Lambert girls at the Girl Guide camp near Morin Heights. This year the St. Lambert girls have been visiting their American friends, paying expenses with the money earned and saved in their thrift campaign.

ALBERTA PIONEER LOVES OPEN LIFE

Calgary (CP) — Travelling on a train without dining-car or sleeping-car facilities didn't faze anyone back in 1883, says Mrs. George Lane, one of the first settlers in this community. "The family just packed a lunch and came along", she says.

Mrs. Lane, a member of the Southern Alberta Pioneer and Old Timers' association,, came from Quebec. She says she has always loved the freedom of life on the prairie. In 1912, she joined with 40 other Calgarians to organize a western rodeo which grew into the famous Calgary Stampede. She was one of the few entrants in the first exhibition and won prizes for her homemade bread.

The only way to have a friend is to be one. — Emerson

AMONG THE CHURCHES

Brownsburg Minister, Rev. S. J. Pike and Wife Honored at Gathering

Brownsburg — On Thursday evening of last week there gathered in the United Church, Brownsburg, an exceptionally large representation of the congregation and organizations of the church, to pay their respects and tributes to their minister and his wife, the Rev. and Mrs. S. J. Pike, who will soon be leaving Brownsburg after 17 years in this pastorate.

The program consisted mainly of music, in which the choir and male quartet took an leading part, under the capable chairmanship of Mr. Sam Rose. Messages of greeting were brought by the Rev. J. R. Watson, of St. Mungo's United Church, Cushing, and the Rev. H. N. Brock, of Maple Avenue Baptist Church, Brownsburg. The highlight of the evening was reached when Mr. Erskine McOuat, with fitting remarks, presented Mr. Pike on behalf of the Official Board and congregation, with a well-filled purse, and Miss Catherine MacPherson, on behalf of the ladies' organizations, presented Mrs. Pike with a beautifully bound leather travelling handbag. Both Mr. and Mrs. Pike made suitable replies to these tangible expressions of goodwill and fellowship, intimating that the apparent break did not mean a separation, but rather a strengthening of the relationships thus formed over the years.

A social hour followed, arranged by the ladies' organizations through their presidents, Mrs. Thos. Izzard, Mrs. Wyman Hazel and Miss Eleanor Hanson, of the Senior and Junior Associations and Woman's Missionary Society, respectively. Refreshments were served and an opportunity was enjoyed for friendly intercourse and extending good wishes to the honored guests of the evening.

The Rev. S. J. Pike will continue to supply the church during September before moving to Montreal, where Mr. and Mrs. Pike will take up temporary residence.

In 1952 the United States' industry exported 201 million yards of cotton fabrics to Canada, while in 1951 shipments totalled 143 million yards.

Pretty Wedding at St. Simeon's Church

Noble - Derrick

On Friday, August 21, at 7 o'clock in the evening, St. Simeon's Anglican Church was the scene of a pretty wedding when Agnes Elsie, daughter of Mr. and Mrs. Richard Noble, of Lachute, was united in marriage to Mr. Gerald Tapp Derrick, son of the late Mr. and Mrs. Andrew M. Derrick, of Stonefield, Que.

The Rev. C. R. Lang officiated at the ceremony, and Mrs. Jas. Pollock played the organ. Mrs. Robert Blakely, as soloist, sang "Because" before the arrival of the bride, and "Through the Years" during the signing of the register. The church was tastefully decorated with standards of multi-colored gladioli.

The bride, given in marriage by her father, was attended by her sisters, Miss Geraldine Noble, as maid of honor, and Miss Edna Noble as bridesmaid. Mr. Llewellyn Bradshaw acted as best man and Mr. Melvin Noble, brother of the bride, and Mr. Russell Noble, cousin of the bride, ushered.

The bride wore a floor-length gown of lace over satin, styled with a fitted bodice and a Queen Anne collar, and long sleeves ending in points over the hands. Her finger-tip veil of embroidered tulle illusion was held in place by a heart-shaped crown of matching lace, and she carried a bouquet of deep pink roses and white carnations.

The attendants were attired in similar strapless dresses of tulle over taffeta, with matching lace boleros. Their headdresses and mitts were also of matching lace, the maid of honor being in mauve and the bridesmaid in yellow. Both carried Colonial nosegays of mixed summer flowers.

The bride's mother chose a dress of navy blue shantung, worn with matching hat and white gloves, and she had a corsage of pale pink carnations pinned to her shoulder.

A reception for over 200 guests was held in the Legion Memorial Hall.

Later the bridal couple left on a motor trip to Beach Lake, Ont., the bride travelling in a powder blue linen suit with white accessories and a shoulder spray of deep pink carnations.

Mr. and Mrs. Derrick will reside in Toronto, Ont.

Out-of-town guests were from Calgary, Regina, Ottawa, Cornwall, Montreal and Calumet.

Vancouver (CP) — Compulsory installation of automatic shut-off devices on all domestic gas equipment here will be recommended to city council by a committee of experts. Gas has claimed 26 lives here this year.

WRONG PLACE

Winnifred, Alta. (CP) — A weasel wandered into the lobby of the post office here. The chicken-stealer was caught and killed.

Quick Canadian Quiz

1—How many miles wide and long is Hudson Bay?

2—What industry pays the most in taxes to the federal treasury?

3—Although B.C. has no native ore for this new industry and will import all its raw materials, the province will soon be a big producer of what metal?

4—What percentage of Canada's forest resources are publicly-owned, Crownland timber reserves?

5—From 1941 to 1951 did the number of Canadians working in agriculture increase or decrease?

ANSWERS: 5 — Decreased from 1,082,074 to 827,030. 3—Aluminum. 1—800 miles long, 595 miles wide. 4—90 per cent. 2—The forest products industry.

(Material supplied by the editors of Quick Canadian Facts, the handbook of facts about Canada).

Pollen Count Lowest West of Great Lakes

Ottawa (CP) — Thousands of people across Canada are raising their seasonal outcry against ragweed.

They are the hay fever sufferers, estimated at 100,000 in eastern Canada alone and thousands of others in the west.

Cause of their trouble hinges largely on the somewhat frowzy appearing ragweed which grows, for no very good reason, in most parts of Canada.

But for the people who sneeze and snuffle during the ragweed season — late July through September — the Canadian Government Travel Bureau has issued a consoling booklet. The title: "Canadian Havens from Hay Fever".

Main point would seem to be that if one is a hay fever victim he should stay away from Hamilton, Ont.

According to the technical method of measuring pollen in the air, called the air pollen index, Hamilton has the highest count in the country. A record taken in 1951 registered 79. Next was St. Martin in the Montreal area where the count was 65.5, and then Farnham, Que., where it registered 64.

Good and Bad

The booklet points out that for hay fever sufferers, any city or town with an index above 10 is not recommended; between five and 10 is fairly good; below five is good, and below one is excellent.

As a district, the Montreal area bodes well to be the sneezingest in the country. While the city itself has a pollen index of 39.7, far below that of Hamilton, communities in the area have a high count. Dorval registered 62.4 at the last check and the Indian village of Caughnawaga 61.2.

Ideal areas for victims are Alberta, Saskatchewan and British Columbia, though both Manitoba and the Maritimes are relatively free of irritating pollen.

"All flowering plants", the booklet says, "produce pollen, but not all pollen is important in hay fever."

Then it lists plants that cause trouble: ragweeds, sages, wormwoods, Russian thistle, goose foots, pigweeds, plantains, timothy hay, meadow grasses, orchard grass, and a few trees such as aspen, cotton wood, oaks, ashes, birches, alder, beech, elms and maples.

Many areas where ragweed is abundant have instituted control programs to help the hay fever sufferer.

You are invited to attend.
Pastor E. G. McNutt.

IN MEMORY OF SIR JOHN SIMCOE

—Central Press Canadian

A monument to the memory of Sir John Graves Simcoe and his wife, is unveiled by Ontario's Premier Leslie Frost in St. Catharines, Ont., near where Sir John held the first parliament of Upper Canada at Niagara-on-the-Lake in 1792. Here, looking at the monument, are Premier Frost, Hon. Charles Daley, chairman of the Niagara Parks commission, and Rt. Rev. Walter E. Bagnall, bishop of Niagara. Sir John was one of Canada's most competent governors before Confederation.

Resting in Christ

(Tune — "Only Trust Him")

1. My soul has found a resting-place,
In Jesus' sheltering arms,
Where I can view His lovely Face,
And contemplate His charms.

Chor. —
Safely sheltered, sweetly resting,
Nothing now alarms,
For I know that fought can harm me,
Resting in Christ's arms.

2. A perfect rest, a peace divine,
I constantly enjoy,
A tranquil life of ease is mine,
Which nothing can destroy.

3. The Saviour's love now thrills my heart,
His Spirit dwells within,
His Life, which permeates each part,
Means victory over sin.

4. My life is hid with Christ in God,
This thought dispels all fears,
So I shall worship, praise and laud,
My Lord, till He appears.

5. Then I shall see Him as He is,
And I shall like Him be,
And share, through grace, His perfect bliss,
Throughout eternity.

— Rev. Arch. Penman,
Aug. 13, 1952 Toronto, Ont.

After Armageddon — God's New World

Here in a printed booklet of 32 pages is the memorable address by the president of the Watchtower Society at Yankee Stadium, New York, July 26. The mammoth stadium overflowed with the largest crowd in its entire history; and many, many thousands of people in the trailer and tent city in New Jersey heard by direct telephone wire. Radio station WBBR flashed the hour-long speech over the air simultaneously so that millions not at the stadium would have the opportunity of hearing this heart-cheering Bible discourse.

If you are interested in news that is really good news, then send for a copy of this booklet. Better still, write for seven copies, on a contribution of 25 cents, and let your friends, neighbors and relatives enjoy the best news people could possibly hear today. "After Armageddon — God's New World" is a booklet you should not miss reading. — Write to 40 Irwin Ave., Toronto 5, Ontario.

— J. M. Doherty, sec.-treas., -1c Rouge River School Board.

SPORTS AND JUVENILE ACTIVITIES

Canadian Ascendancy, Home-Grown Footballers

SPORT CAMERA
By Don Peacock,
Canadian Press Staff Writer

There is likely still a trace of the cool, clean smell of whitewash hanging over Winnipeg's new $500,000 football stadium as the 1953 season moves into full swing this week. And rising through that fragrance, so long familiar to cow barns and chicken coops and now remembered by Toronto Argonauts as well, is the hint of a question:

Is the day coming when an all-Canadian football team will be able to beat a squad padded with highly-paid Americans?

Anyone who'd come right out at this point and say "yes" likely has been sitting too long in the sun. Still, the sight of 12 Canadians scoring a touchdown over a "money team" like the Argonauts, complete with American imports, certainly is one to stir pride in the breast of almost every Canadian football fan.

That sight was seen in the 16,000-seat stadium at Winnipeg in mid-August when the burly Blue Bombers shut out the touring Argos 24-0 in a game that helped give the four-team Western Interprovincial conference six of its eight exhibition tilts with members of the eastern Big Four.

Added Insult

But that's not all. To further humiliate the current holders of the Grey Cup, Winnipeg coach George Trafton sent out an all-Canadian team for the last five minutes. In seven plays, those home-grown Blue Bombers rolled through the Canadian champions for a touchdown.

A young graduate of McGill University, Geoff Crain, called the plays. He marched the "nationals" down the field from his own 39-yard line and then pitched a 32-yard pass to Bill Larochelle, former end with Ottawa Rough Riders and Montreal Alouettes, for the touchdown.

That helped explain what Trafton means when he says: "A team is just as good as its Canadian players".

The Blue Bombers beat Ottawa 18-11 two days before their triumph over Toronto, but whether Trafton's Canadians — and he has so many around this year that he doesn't know whom to discard — will provide the depth he feels his team must have to win the Grey Cup this year will be decided in the next couple of months.

A much fonder hope is that in a couple of years, some coach — Trafton or otherwise — will field an All-Canadian team worthy of combat with any part-American squad in the country.

And by all-Canadian, we don't mean a bunch of Americans who have played in Canada for the four years required by present rules to be classified as Canadian players.

We mean players born in, say, Calgary or Ottawa or Saskatoon or Hamilton — and maybe even a couple from Okotoks and Pugwash Junction.

Passengers on the Cunard liner "Samaria" from Quebec last week included 35 Canadian hockey players bound for Scotland, where they will play for various teams this winter.

SAM CHUCK

A notable grappler in his category, who teams with Marcel Ouimet in a four-man bout on the next mat card at Brownsburg Arena. Chuck stands for no monkey-business, they say, and his opponent, "Tiger" Deslile, will be on his toes or else.

HUNTING CONSERVATION

Wildlife conservation efforts would be more effective if every hunter matched his killing appetite to his eating appetite. Gifts of excess game to friends may add fleeting lustre to hunting prowess, but it also shortchanges future generations.

Summary of Game Laws Issued for 1953 Season

The Hon. Camille-E. Pouliot, M.D., Quebec Minister of Game and Fisheries, announces that his Department has just issued a booklet containing a summary of the Game Laws and Regulations for the 1953 hunting season.

Hunting male moose (female and young are protected the year round) will be permitted from October 9 to 25, in Zones C, D and E, but Zones A and B will remain closed to hunters. Deer hunting will be permitted in Zones A and B between the 1st and 30th of November; in Zone C, from September 25 to November 24; in Zone D from October 1 to November 30; and in Zone E, from September 15 to November 14. Hunting female deer and its young will be legal in Zone C, D, E but only one head to every license-holder.

A few changes appear in the hunting regulations as to Migratory and Domestic Birds. With a special permit, purchased at a cost of $1.10, hunters may shoot pheasants, male or female, from September 19 to October 4. As last year, the Department of Game has set free a few thousand pheasants and it was thus possible to fix the daily limit to three birds, season limit to nine birds, but there are no dates nor quantity to the possession limit. Birch and Spruce partridge can be hunted between September 19 and November 15. September 19 to October 11 is the hunting season for Hungarian partridge. Possession limit for the Hungarian, the birch and spruce partridge is January 6, 1954. The hunting season for ducks and geese will be opened in the northern district from September 12 to November 10, in the Central district from September 19 to November 17 and the Southern district from October 3 to the first of December.

The cost of licenses has not changed since last year — for small game, residents, $1.10, and non-residents, $5.25; for pheasant, residents and non-residents can purchase a special permit at the cost of $1.10; for deer only, residents; $2.10, and non-residents, $15.50; for moose only, residents, $7.25, non-residents, $30.50.

Hunters throughout the province may purocure a copy of the Summary when purchasing their hunting license.

Only the provinces of Saskatchewan and Alberta do not border on salt water.

MARCEL OUIMET

ex-champion RCAF boxer, who after winning several fights turned to wrestling and now ranks among star mat attractions.

Lachute **TIGERS**

By J. C. PETITCLERC

Games Played

Wednesday night at Valleyfield —

LACHUTE	000	312	330	12	14-2
Valleyfield	100	100	060	8	8-3

Winning pitcher, Bourbeau.
Losing pitcher, Robitaille.

Saturday night AT LACHUTE — 1st Game:

Ste. Therese	000	000	0	0	1-1
LACHUTE	010	003	x	4	8-1

Winning pitcher, Luciano.
Losing pitcher, Desroches.

2nd Game:

Ste. Therese	010	100	020	4	9-1
LACHUTE	000	010	100	2	8-1

Winning pitcher, Latour.
Losing pitcher, Hoffman.

Sunday afternoon at St. Eustache—

LACHUTE	501	404	330	19	26-1
St. Eustache	031	050	000	9	10-1

Winning pitcher, Malone.
Losing pitcher, Mulholland.

Sunday night at St. Jerome —

LACHUTE	000	030	000	3	5-0
St. Jerome	010	103	000	5	11-4

Winning pitcher, Thwaites.
Losing pitcher, Bourbeau 19-3.

At Saturday night's games Fitz Luciano pitched one of those wonderful exhibitions, this time giving Ste. Therese only one hit.

Well now, after a fight to the last, the Lachute Tigers finish the season in second position, behind Lachine.

Tuesday of this week the playoffs begin, at Lachute. If ever there was a time the Tigers need the cheering of the crowd, it will be in this series — so come and bring your friends!

But by the time you read this column, at least one if not two games will have been played against St. Jerome. Let's hope for the best.

• • •

Gagnon Club, $1,322.65

At Saturday night's double-header five prizes were drawn, which netted $131.70 to the Gagnon Club, bringing the total to $1,322.65.

1st prize, a Bulova watch given by U. Nadon, Jeweller — won by Gaston Pagé, Lachute.

2nd prize, $5 credit given by Guy Belanger, Jeweller — won by Marcel Paquette, Ayersville.

3rd prize, $5 credit given by Lachute Auto Parts (Miville Trickey) — won by Joseph Mansault, Carillon.

4th prize, $5 credit given by H. M. Lavigne Inc. — won by Rolland Husereau (who has helped the Association by selling programs at every game).

5th prize, $5 credit given by Cliff Cunningham, tobacconnist — won by Judes Charlebois.

Thanks

René (Rex Café) Gagnon wishes to thank especially the generous sports fan who bought $10 worth of tickets last week. Thanks to this gentleman, from ourselves personally, and also to René for his continued good work.

• • •

Lachute Tigers' Night

Lachute Tigers' Night will be held at the local Auditorium on Thursday, September 17, at 9 p.m. This event is under auspices of the Gagnon Club (dance and refreshments, $2.) All Tigers supporters should rally round to make the evening a success, and to meet all the players.

• • •

Play-Offs

L'Association de La Jeunesse Sportive de Lachute Inc. decided at its last meeting that the fans who have cheered the Tigers all summer will be able to enjoy the same seats for the play-offs as during the season, by reserving same before 3 o'clock the day of the game. Also as a mark of appreciation to the supporters there will be no increase in admission price. . . So the Lachute Stadium should be packed to the rafters starting this Tuesday.

• • •

Final Standing

as per Sunday, August 30—

Lachine	50	33	607
LACHUTE	49	35	583
Joliette	42	41	506
St. Eustache	42	42	500
St. Jerome	38	45	458
Ste. Therese	36	47	434
Valleyfield	3	49	410

Playoffs — No. 1 vs No. 4; No. 2 vs No. 5; No. 3 vs No. 6

Winner 2 5 vs Winner 3 6.
Winner of these two, vs winner 1 4 for the championship.

• • •

Suspensions

After Showman Lapointe of St. Jerome, Alla of Lachine was also suspended by Dr. Cherrier, president, for arguing with the referee.

"Following Saturday night's game I am not surprised by a lot of argument from manager and players, for some of the referees are certainly not up to the standard of play of the Laurentide League".

• • •

Jerry Cotnoir

Latest rumors concerning the Tigers' manager indicate that he may be in the nets for Sherbrooke Hockey Club next winter. Well Jerry, good luck; and when you play in Montreal or around here, the fans from Lachute will be cheering for you. The same goes for Pete Taillefer, who is returning to the Chicoutimi Champs. . .

What about hockey in Lachute?

What about an arena in Lachute?

Briard	649
Yeager	618
Haig	345
Malone	223

• • •

Average

We will give you the Tigers' averages when the season's performance has been completed and compiled.

At the present stage a vote of felicitation goes to Hardy, Kimball, and to the pitchers Bourbeau, Luciano, Hoffman and Groulx; also to the best manager of the league's 1953 season, Jerry Cotnoir, and business manager Ted (Marché Moderne) Vachon. Also in line for congratulations are all the members of the Association, for the good baseball we've had all summer. Let's hope that they will bring the championship cup to Lachute.

• • •

Bud Kimball

Let's all hope that Bud, the Tigers' 3rd baseman, appears in uniform for Tuesday and the rest of the playoffs. On Saturday night at the beginning of the first game of the double-header with Ste. Therese, Bud was badly bumped by a Ste. Therese player and had to leave the game with a bad shoulder. But we hope Bud will be right there in good shape, catching impossible hits at third, also hitting the ball all around the field — and once in awhile over the fence.

• • •

Last Minute Comment

All summer Lachine has been lucky heading Laurentide League, and up to the last minute the Lachute Tigers scared them, putting up a good fight even to the last game of the season.

Now that the play-off season is at hand, the "Poor Sportsmanship" outfit, knowing that they have a very small chance to win the championship, have retired with the slimmest of reasons, namely, that they don't want six clubs in the playoffs. What a reason!

Sportsmanship? Gentlemen from Lachine, d'you remember when the unknown pitcher, Bourbeau (19-3), had to pay $1 to get into the Lachine Stadium?

Or is it that Mr. Brown has not yet digested the double-header when they were whitewashed in the two games, and specially when Fitz Luciano did not let a single Canuck to first base by pitching a perfect game — 27 Canucks at bat, 27 out.

Anyway, the playoffs are to be staged without Lachine; and to everyone in the series, the best of luck, and may the best club win. Of course, I'll be cheering for the Tigers.

Tea at its best!

ORANGE PEKOE

Semi-Finals of Softball League

Semi-finals Standing:

	GP	W	L	Pts
Lowe Bros.	4	3	1	6
Royals	4	2	2	4
Lions	4	2	2	4
St. Andrews	4	1	3	2

The Lowe Bros. team eliminated Frank Ladouceur's St. Andrews Squad Sunday afternoon with a score of 13 - 6 in the fourth game of a 3-out-of-5 semi-final series, to qualify for the final with the winner of the Lions - Royals duel. Gerard Jacob pitched an excellent game for the winners. Gerard Larocque suffered defeat at the mound for St. Andrews. Fernand Larocque, of Lowe's, hit a homer that helped his team win this important game.

In the second game of the afternoon Buzz MacRae's Royals suffered defeat at the hands of Roland Descoste's Lions — score 6-5. This Lions' victory tied the wins at two each; the decisive game is to be played this Sunday at Lachute. The winer will meet Lowe's for the championship of the league and the new J. René Laurin Trophy.

"NOW ON TOUR"

Correspodence From Overseas

Brighton, Aug. 28, 1953

Dear Readers:

Here it is exactly one week since we landed and the time has simply flown, but I will try to give a resumé of our doings during that time.

As I closed my last letter we were soon to reach port although still a considerable distance out. Suddenly we heard our whistle or horn sound the distress signal. About 14 sailors rushed to a life boat and with two officers were lowered to start rescue of a small sail boat, which had come too close to us and capsized, throwing its four occupants into the chilly water. With currents and wind we drifted far apart but after hard rowing for upwards of thirty minutes the unfortunate ones were taken from the sea and brought aboard for medical attention. A patrol boat later towed the sail boat to shore, and though regrettable, it was thrilling to watch.

Docking about 4.30 at Southampton we were among the first off, had our baggage O'K'd by the customs and by 5 o'clock were on our way to Brighton by taxi. Of course the first difference we noted to our Canadian way of life was that of driving on the left hand side of the road, with the wheel on the right hand of the car. Seemed strange at first, but it soon comes natural. Trains and buses are the main means of ordinary travel, with of course, countless numbers of small cars such as we term "Baby Austins", skimming in and out of traffic, with the greatest of ease and with remarkably few accidents. One reason for so few smash-ups is that people drive at a reasonable speed and are most considerate of others. Indeed this country can teach us a very great deal especially in consideration and politeness, not only in driving, but in every walk of life, and it is really a change to be treated so kindly after some of our experiences at home.

During World War I we were stationed at Shoreham, just 7 miles from Brighton, and spent considerable of our spare time here, so on Friday, I spent the day just wandering round and viewing some of the old familiar spots we used to visit. The Oddfellows Hall where we had many a good dance, still looks the same, but is now a recruiting station for the Marines. Although changed by numerous partitions the main part was as of old, 35 years ago, and brought back happy memories. The Theatre Royal and Hippodrome are still going strong and changed very little. The Palace Pier flourishes as usual and I walked along the front watching the thousands enjoying their holidays by bathing, or sunning themselves along the beach.

'Tis hard to describe the beauty of the flowers and the countless gardens so well kept and cared for — to put it simply it is a mass of varied colors, and really has to be seen to be appreciated. For miles and miles, along the sea front, there are sections set out, with varied plants so arranged as to make it most picturesque, and these with colored lights playing on the numerous fountains make the sight one long to be remembered.

I would like to mention the efficiency of the bus service and feel that it could well solve the problems of many of our Canadian cities if put into practice there. All are double deckers and carry 50 persons. They are compact and move along so quickly, that they put our tram cars to shame. They run by trolley or by gas and slide in and out of traffic quite easily. Of course in London, with its suburbs and a population equivalent to that of the whole of Canada, the tube or underground is also required to cope with the huge crowds.

Trains though much smaller than ours are very comfortable and definitely run to schedule and on time. We came to London from Brighton today and are visiting with friends at Wembley. Tonight we attended a showing of "Chu Chin Chow on Ice", similar to our Ice Capades and held in the huge Wembley Stadium, a building surpassing in every respect the Montreal Forum and holding over 10,000 people. This afternoon we called at Canada House and signed the register, then after a look round had a peek at some of the Canadian newspapers. Getting there by taxi from Victoria Station we passed Buckingham Palace and viewed some of the Coronation decorations which were still up. Then at Trafalgar Square there was the familiar scene of the hundreds of pigeons which are so tame that they will eat from your hand.

Well tomorrow is another day which we know will be full of interest and we will be seeing some more of the downs which in other words, are rolling hills, either covered with grass or grain, much of which is now being cut, with modern and up-to-date machinery and presenting a beautiful sight with here and there a pretty little hamlet settled in its midst.

With the strike now over (we hope definitely) we are off to the Continent and are flying to Paris on Monday, so au revoir for now and more news later.

— R. A. Giles

CURRENT SHOWS AND ENTERTAINMENT

MARLENE STEWART IN CBC SPORT STORY

The CBC has announced that its "Champions of Sport" program will feature the story of Marlene Stewart on its Trans-Canada network broadcast of Sunday, September 6, at 5.30 p.m. EDT.

Marlene — the pint-sized golfer from Fonthill, Ontario, who recently startled the world by becoming the first Canadian ever to win the British Women's Open — is also the first currently active star to be written up in the CBC's weekly parade of sport greats.

Award Winner

Roma Butler, 21-year-old mezzo-soprano from St. John's, Newfoundland, is currently walking on air since a grand prize award on the CBC's Opportunity Knocks program started her out on a new network series. The attractive young lady hasn't always had the desire to sing; in fact, she started out on her career by studying the piano for eleven years. However, when she moved to Toronto to continue her studies she turned to vocal lessons and Canada has been richly rewarded by her choice.

Everest Conquerors To Tell Story on CBC

Canadians will hear a first-hand description of the conquest of Mount Everest when CBC Wednesday Night of September 9 broadcasts a BBC transcription of the story of the climbers themselves.

Among others, listeners will hear Colonel Sir John Hunt, the leader of the expedition, and Sir Edmund Hillary, the New Zealand beekeeper, who reached the summit.

The broadcast traces the climb step by step to the final stage of the assault when the strain on human endurance at heights of 29,000 feet slows reactions down to the point where it takes two hours to pitch a tent in the teeth of a merciless wind. The listener feels something of the anxiety of the leader of the expedition as Colonel Hunt watches his carefully-laid plans working out in terms of tiny figures moving along perilous slopes thousands of feet up the mountainside.

Hillary himself describes his feelings and those of his companion and guide, Tensing the Sherpa, when they finally set foot on that "symmetrical, beautiful snow cone" that is the highest point on earth.

The broadcasts will be heard at 7.30 p.m. EDT.

MEETS PEN PAL FOR FIRST TIME

Montreal — An 18-year-old lad from London, Eng., ended a visit to Canada with a promise to return to a pen-pal sweetheart in Vancouver in two years.

He is John Battenbury, a member of the Rhodes Trust Educational Tour for British high school boys, which passed through CNR Central Station recently for Quebec City, where the group embarked for Britain after a two-week visit in eastern Canada.

During the tour, John saw his pen-pal, Glenda Arnold, for the first time since he was introduced to her by mail some four years ago. Glenda travelled from Vancouver to Toronto to meet him.

Otter Lake Music Centre Reviews Successful Venture

Plan Series of Concerts For Winter Season

A representative and enthusiastic audience attended the final concert of the Otter Lake Music Centre in Huberdeau, Que., on Sunday, August 23, to hear an excellent program of chamber music played by John Newmark, Walter Joachim and Hyman Bress. The second Music Week-end of the Centre also included a lieder recital by the gifted young Canadian contralto, Maureen Forrester, accompanied by John Newmark, and a concert by the Montreal Bach Choir, directed by George Little. Music-lovers from Montreal, Toronto, Ottawa, Vancouver, Saskatoon, and other points in Canada and the United States met in the picturesque Laurentian village of Huberdeau to hear choral, vocal, and instrumental music by such composers as Schumann, Brahms and Mozart, as well as French and English Renaissance music, and works by contemporary composers. First performances included the world premiere of a string trio by composer Violet Archer, as well as the Canadian premiere of her "Landscapes". "Five Songs" by Stanley Bates were also given their first Canadian performance.

To the members of the Centre, who had come to Otter Lake from widely scattered points in Canada and the United States to make music together, the playing of the Dvorak Dumky trio was the end of two inspiring weeks of music. In the friendly, outdoor atmosphere of the Centre, amateur musicians mingled and lived with professional musicians, with composers, musicologists and performers, gaining a keener love and understanding for the art through these invaluable associations. It was a moving experience to see students who had arrived two weeks earlier unable to imitate a musical sound leaving with the ability to sing simple tunes at sight and to play melodies on the recorder. More advanced students returned to their communities with the intention of establishing recorder and choral groups there, passing on to their friends and neighbors the knowledge, repertoire, and inspiration acquired at the Centre.

As the members left, saying "See you next year", many expressed the wish to help in assuring the future of the Centre. This year's directors, Carl and George Little, with their colleagues, Mario Duschenes and Ruth Blanchard, and the artists and guest lecturers who contributed so much to the remarkable success of this season, summarized their impressions as follows: "Already the Centre has gained such momentum that we are being borne along to further developments in spite of ourselves."

The enthusiastic and encouraging response of the local population, of the members, and of the week-end concert audiences makes it imperative to have a larger Centre next year, when accommodation for 50 students will be available during the two weeks beginning August 16th. Canadian composers will be commissioned to write works for perforance at the concerts, and it may be possible to have a chamber music department. With proper financial support, the contribution the Centre has made to Canadian musical life can continue.

This winter the Centre will give a series of four concerts in Montreal, in the auditorium of the YWCA on Dorchester Street, to be known as "The Otter Lake Concert Series".

Disabled Fisherman

By Lewis Milligan

There may be some people who are attracted to Georgian Bay out of curiosity by the Thirty Thousand Islands, but I think that for most people who go there, especially from the United States, the sole attraction is the thirty and more thousand fish that are taken out of those waters every season. I never saw so many dead fish outside of a fish market as I saw being brought ashore at the end of the day by those amateur toilers of the deep. It was Billingsgate, without the smell or the bad language. The tired anglers lifted their strings of pike, pickerel and bass on to the wharf and proudly posed for pictorial evidence of their prowess to prove to their friends at home that alone they did it! And as proof positive they had the fish gutted, placed on ice and finally packed in sawdust for shipment to as far south as Nashville, Tennessee.

My idleness was not due so much to old age as to a bad ankle which disabled me from climbing over rocks or navigating a row boat, and it set me wondering if there was any etymological relationship between the words ankle and angling. I had always thought that the word angling aptly described the angle formed by the rod and line in the act of still fishing, and that the word dangling was derived from the same action. To dangle, according to my dictionary, is to "hang loose, shaking or waving; to be a humble officious follower, to hang about a person;" and a dangler is "one who dangles, a man who hangs about women." The latter I personally reject, for my trouble is to avoid them. The root meaning of the verb angle, as applied to fishermen, is "crooked" or a "hook" as seen also in the word anchor, which is a double hook. And I find that the word ankle is of the same origin. So there I was, an old angler, instead of dangling a fishhook, forcibly content with sitting and dangling a bad ankle. I was an ankler.

I have always claimed that fishing was one of the best excuses for doing nothing, for I am one of those disciples of Walton who have frequently toiled all day and sometimes all week and caught nothing, or nothing worth writing home about. Angling is a sport, but there are too many who regard it as an exploitation and who would be more suitably employed fishing with a net off the banks of Newfoundland.

You may attribute this criticism to sheer envy on my part at the sight of those able seamen bringing in their spoils of the deep, while I as a disabled angler had to dangle my ankle and look on. No, there was no envy in my heart — at least not after a few days of ankling. I resigned myself to the situation and made friends with an old Scottish collie dog that kept me company on the veranda. He was a dog that had had his day and he lay stretched out dreaming of the days that are no more and letting the rest of the world go by. All old dogs are philosophers.

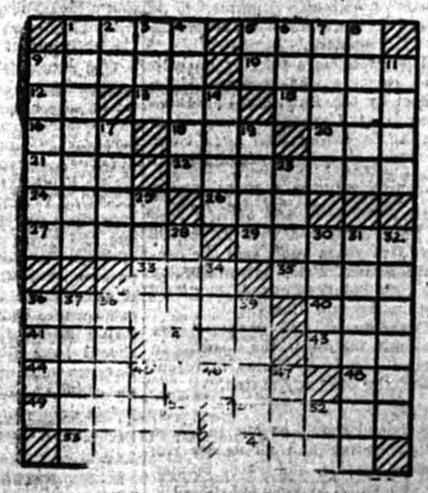

Alec Guinness, celebrated English actor who played the title role in Tyrone Guthrie's production of Richard III for the recent Shakesperean Festival at Stratford, Ont., sailed for England from Quebec last week in the Cunard liner "Samaria". He was accompanied by his wife and their 13-year-old son Matthew.

News Roundup Editor

Norman DePoe, editor of CBC News Roundup, calls on 250 reporters located in all parts of the globe to keep listeners posted on world and local happenings. He spends many hours listening to tape-recorded reports that come from points far and wide, selecting those that give an accurate account of topics in the news. CBC News Roundup, heard every week-day evening, was inaugurated ten years ago to give on-the-spot coverage to World War II; in recent years it has increased its scope to cover any subject that is of interest and importance to Canadians.

Hotel and Restaurant Fare in Britain

London — The following letter to the Editor appeared in "The Times" of London, August 21:

"Sir: When we wish to complain of the food and service in English restaurants and hotels we write to you to publish our grievances. Justice requires that when English catering calls for praise, that also should be printed in your columns. I recently had occasion to travel for five days by car in East Anglia, constantly on the move and stopping for meals, or the night, wherever it was convenient. The meals served at prices between 6s. (84 cents) and 12s. 6d. ($1.75) were, without exception, excellent. A wide choice was offered, the cooking was very good, the menus frequently showed imagination, the service was everywhere brisk and amiable. In many restaurants and hotels not only was the wine list good (in one case altogether remarkable), but wine was offered, by the glass, at a reasonable price.

Having, earlier this year, travelled, also by car, nearly 2,000 miles in France, Italy and Switzerland, I was in a position to make comparisons. I believe that on the whole English food is now better than Continental food at anything like comparable prices. Moreover, as to such matters as the comfort of beds and the quality of linen there can be no doubt at all that English hotels are better than those of France and Italy, and nearly as good as those of the Swiss, with whom hotel-keeping is a major industry. I suggest that British hotel-keepers should be congratulated on an astonishing and gratifying improvement.

Yours faithfully,

(Signed) Edward Hyams"

Of Canada's larger cities, Edmonton, Alta., had the greatest percentage increase in population from 1941 to 1951.

AMERICAN TEACHERS TOUR FRENCH CANADA

Montreal — Bringing the world of French-Canada to their class rooms in 15 states for the fall term, some 25 American teachers passed through CNR Central Station recently after completing a tour of Quebec.

The teachers were armed with Quebec handicrafts, and fresh memories of Quebec at first glance. They were favorably impressed with Percé Rock in the Gaspé region. They plan to present their newly-acquainted first hand knowledge of French Canada to their pupils during the regular teaching periods this fall.

The lone man on the tour, Roland A. Wirt, of Highland Park junior high school, Illinois, is a science teacher. He'll tell his students about the rich mineral and timber resources of Quebec.

I don't expect a friend always to please my particular taste, nor do I expect always to please him.

— Gelett Burgess

Women's Interests -- The Homemaker's Section

Peaches!

"A big peach year", that is what crop reporters from the Canada Department of Agriculture are predicting for 1953 — fully expecting that this year's crop will be just as big as last year's. In other words, by even the most conservative estimates, there will be plenty of peaches this year.

Some early peaches have already appeared on the market but the "V" varieties are still arriving — the Veteran, the Vedette and the Valiant, and later on the late-ripening Elberta peaches. No matter what variety of peach you buy, look carefully at the complexion. That is the real background under the rosy marking. The peach complexion should be lightish green or yellowish. If it is dark green, it is pretty certain that the peach will never ripen satisfactorily. Instead it will shrivel and become tough and rubbery and when you try to eat it, there will be no flavor. Naturally any shopper will avoid peaches that show signs of brown rot, worm holes or growth cracks. If peaches are good and ripe when purchased and the homemaker is not quite ready to use them, she should spread them out on a tray so that they will not bruise and store them in a cool place until ready to be used. However, if the peaches are a little on the green side, they will ripen in a warm room.

Frozen peaches are a very acceptable product and the lucky people who have home freezers or frozen lockers should get busy now and freeze plenty of peaches for next winter. Any family will enjoy peach shortcake or peach salad when snowy, cold days arrive.

When freezing peaches, be sure to choose firm, ripe peaches. Dip them in boiling water one half to one minute, then in cold water and remove the skins and pits. Slice the fruit directly into the containers and cover with a cold moderately thin syrup to which ascorbic acid has been added. This special ascorbic acid treatment helps to prevent the darkening of peaches. This is the method recommended by the home economists at Ottawa. They say to use one thousand milligrams of ascorbic acid in each quart of syrup. If the ascorbic acid is in tablet form, crush the tablet in a small amount of syrup and then dissolve in the remainder of the cold syrup. However, if the ascorbic acid is in powder form, dissolve a half teaspoon of ascorbic acid powder in the cold syrup. This ascorbic acid can be bought from the druggist either in tablet or powder form. The use of ascorbic acid certainly helps to prevent the darkening of peaches after they have been peeled. It must be remembered that the use of it increases the cost of the frozen peaches slightly, but the home enomists say that it is well worth the little bit of extra cost.

Everywhere about this time, homemakers are busy storing away food for winter. They are making pickles, jams, jellies and an abundance of wonderful foods. The home economists have an excellent recipe for cantaloupe and peach jam, which is timely for both fruits are in good supply. Here is the recipe:

Cantaloupe and Peach Jam

5 Cups peeled, diced cantaloupe; 3 medium oranges with grated rind and juice; 5 cups peeled, diced peaches; 5 cups sugar.

Mix all ingredients and let stand until sugar is dissolved — about 1 hour. Bring to boil and boil, uncovered, to jam stage — about 30 minutes. Pour into hot, sterilized jars. Cool slightly and seal. Yield: about 6½ cups.

Demonstrator on Local Program

Miss Ghislaine Montpetit,

who will conduct the Canada Packers' Cooking School here next Thursday, September 10, under auspices of the St. Simeon's Church Guild. The event, at 8.15 p.m., will be held in Lachute High School auditorium. Gordon Hynes will be master of ceremonies. Miss Montpetit is a graduate in Dietetics and Nutrition from the University of Montreal.

Recipes With Peaches

1 Package flavored jelly powder (lime, lemon or orange), 1¼ cups boiling water, 1 pint vanilla ice cream, 2 cups sliced peaches, 1 9-inch pie shell.

Dissolve jelly powder in hot water. Cut ice cream into hot gelatine mixture and blend with a slatted spoon or fork until the ice cream melts and is thoroughly blended with the gelatine. Chill in refrigerator and allow to partially set. Fold sliced peaches into the partially set mixture and turn into baked pie shell. Chill until set, about 30 minutes. The pie may be garnished with slices of peaches. Yield: 1 9-inch pie.

Peach Angel Pie

1 Cup sugar, ¼ teaspoon cream of tartar, 3 egg whites, ⅛ teaspoon salt, 7 medium peaches (4 cups sliced), 3 tablespoons sugar, ½ pint whipping cream, 1½ tablespoon sugar, ½ teaspoon vanilla, 1/16 teaspoon salt.

Thoroughly mix the sugar and cream of tartar. Combine egg whites and salt and beat until stiff but not dry. Add sugar in four portions, beating after each addition. Continue beating until meringue is very stiff and glossy. Place a piece of ungreased white or brown paper on a cookie sheet. Using an inverted 9-inch pie plate, trace a circle on the paper. Heap the meringue into this circle and using a spoon, form it into a hollowed pie "shell" shape, using the pencil line as a guide. Bake in a slow oven, 225°F., 1½ to 2 hours or until quite dry and delicately browned. When cold remove "pie" from brown paper with a spatula and place on serving plate. Just before serving, peel and slice peaches, add sugar and mix gently. Place in "pie". Whip cream, add sugar, vanilla and salt and blend thoroughly. Top pie with mounds of whipped cream. Yield: one 9-inch pie.

Peach Crisp

7 Medium peaches (4 cups sliced), 2 tablespoons fruit sugar, ½ cup shortening, ⅔ cup brown sugar, 1/16 teaspoon salt, 1 cup all purpose flour (or ½ cup flour plus ½ cup fine rolled oats).

Blanch peaches in boiling water, dip in cold water and peel. Cut into fairly large slices. Add the fruit sugar, mix lightly and place in a buttered baking dish. Cream shortening, add brown sugar and salt and cream well together. Blend in flour or mixture of flour and rolled oats and sprinkle evenly on top of fruit. Bake in a moderately hot oven, 375°F., until fruit is tender and top is a golden brown, about 30 minutes. Yield: six servings.

POSTMAN'S ANKLES LOSE FLAVOR WITH CANINES

Canada's 1,500,000 dogs are forsaking the postman's ankles in favor of canned vitamins, it is reported by would-be authorities on such matters.

The good news for the nation's mail carriers was contained in a report by the American Can Company that Canada's canine population is eating well over twice as much canned dog food as five years ago.

"Dog owners fed their pets more than 60,000,000 cans of dog food in 1952, compared with 27,950,000 cans five years ago", said the can-making firm, which helped develop the first balanced canned dog food diet in the late 1920's.

Convenience and economy are the main factors in the upswing in canned dog food volume in recent years, the company stated.

A friend should be one in whose understanding and virtue we can equally confide, and whose opinion we can value at once for its justness and honesty. — Robert Hall

THE COMFORTS OF HOME

FAMILIARITY is apt to delude us with a false belief — that our "Home, Sweet Home" is the ideal of cosiness and convenience. . .

But honestly now, how comfortable IS your home? We mean in those particular details of heating and sanitation — even to the kitchen and bathroom, the plumbing and fixtures, that may be causing continual annoyance, adding to Drudgery instead of contributing to the Comfort of your home.

Now is a good time to take stock of these things — things so inseparably related to the Art of Living.

PAINT A ROOM WITH Kem-Tone FOR THE PRICE OF TWO PAIRS OF NYLONS

BIG MOMENT IN THEIR LIVES

—Central Press Canadian

The eyes of Prince Charles and Princess Anne fairly dance with excitement as the train taking them to a summer vacation at Balmoral Castle slowly approaches Aberdeen station, Scotland. The little prince assumes the role of big brother as he whispers in Princess Anne's ear interesting and exciting details about the depot. The resemblance of princess—who recently celebrated her third birthday at Balmoral—to her mother is becoming more pronounced.

Echoes of ACWW Conference

(Continued from page 1)

ation of natural resources be taught, at all levels of education in all countries of the world. Dr. McConkey in his address felt that all countries should make a national survey of their natural resources. Metal and minerals have no political boundaries. Their development and supply is an international matter. Metals and minerals play a large part in our daily living, and although they are fairly abundant throughout the earth's crust, it is the dispersal of them that creates the problem.

Only voting delegates were allowed to speak at the conferences. Each had to hold aloft their blue cards when voting for or against, also had to present them at the door of the lecture rooms before they were allowed to enter. Only they, and those who had press privileges, were allowed to enter, and a strict observance of the regulations seemed to be the order of the convention.

One of the delegates hit the nail on the head when speaking as the conference neared its closing point. She said, "We women come to conferences full of enthusiasm, take notes of the resolutions . . but when we go home, what do we do about it? One resolution discarded was regarding wages of women; someone had urged that the A.C.W.W. struggle to make it ensure the passing of a bill that would make it possible for women to have the same wages as men. While recognizing the fact that most women should have that privilege, farm finances made it impossible to face the equal wages."

One dainty little Irish lady from Emon de Valera's domain felt that it was wonderful to be present at this conference, where there were no politics and no religious hates. This little lady wore the typical Irish costume all through the sessions — the full red woollen skirt, the darker waist with its tiny green shamrocks, and the small tight-fitting green shoulder-shawl. Her husband had accompanied her across the ocean to this strange, unknown land, and, together with several other men who had accompanied their wives, was treated to a bus tour of farms in that part of Ontario.

There were treats, too, for the ladies of the convention: That of the bus trip to Niagara Parks and Falls, given by kindness of the Ontario Hydro-Electric Commission, when 25 busloads of ladies were carried to the Falls on what was termed "the Sir Adam Beck Tour" — Adam Beck in days of yore having been the much-laughed-at man who had temerity to foresee the strides that electric power development would make in the future; the man who predicted all of the uses that electricity are being put to today.

The Hydro Company not only provided the buses but served a wonderful turkey dinner at their camp cafeteria, after their commentator had told us that we had ridden over the old Indian trail that they used when portaging their canoes around the falls in order to reach Queenston. He also told of the portions of land that would be inundated when the Hydro turned it into a lake. It seemed regrettable that homes should be destroyed in this thirst for more power. He also claimed that there would be a little less water going over the Falls when the Hydro had its project complete. Some local residents thought that that might be beneficial to the Falls and stop the inroads being made on their rocky banks by too heavy a flow of water.

After a complete exploration of the park around, Welland County Women's Institutes served a picnic tea on the pavilion, with extra tables set down in front of it.

Some 300 picked delegates were guests of Mr. G. Leitch, president of Toronto Elevators Ltd., at a luncheon at the Royal Canadian Yacht Club and taken by ferry to attend it. There were also Press Club luncheons, and a civic luncheon, and the closing banquet, to which all accredited delegates and those with press privileges were welcomed.

At the closing banquet a very pleasing feature was the band playing snatches of songs especially traditional to every state of America from which delegates had come, the ladies from each rising to their feet in response to the music. "Alouette", too, came in for a fair share of attention, the song being led through its entirety by a member of the Cercle des Fermières. This number caused the members from India to request a national number of their own — which, however, the band could not supply, so the two ladies were given the privilege of supplying their Indian National Anthem themselves, one singing to the piano accompaniment of the other. Even Old MacDonald's farm received approval, and Irish airs brought little Mrs. Murr and her husband to their feet with delighted, approving bows. A few minutes later when the band struck up an Irish dance, Mrs. Murr could not refrain from starting to dance by her table. An invitation to the platform saw her dance the measure through, applauded by the vast audience, not only of the privileged (who dined on Newfoundland Hors d'Oeuvres, British Columbia Melon Supreme, Quebec Pea Soup, Alberta Sirloin of Beef, Prince Edward Island Potatoes, Nova Scotia Salad, Saskatchewan Rolls and Butter topped off with coffee and Manitoba Frozen Log with Ontario Peaches), but also applauded by a group of outside spectators on the upper gallery of the ballroom, who were seated there enjoying the after-banquet program of juggling acts, dancers, acrobats, harmonic playing, as well as soprano solos by Doris Swan and those in the well-known baritone of Ernest Adams.

The Canada Day program had been one long to be remembered, as greetings were brought from all of the countries represented during the afternoon, and musical numbers, vocal and otherwise, by the Junior Farmers' Choir of Oxford County, Ontario, and Kathleen Stokes of the Happy Gang.

The pageant "Dominion of Destiny", was historical, instructive, and beautiful beyond description in ordinary words.

The final banquet was closed by singing the old familiar "Should Auld Acquaintance Be Forgot", with joined hands, which was a fitting ending to the World's Convention of the A.C.W.W. — an organization whose demand is that anything sponsored by the Association must be "fair, accurate and just."

Wife Preservers

When you buy an ironing board see that it stands steady. It is difficult to do a good job of ironing on a wobbly board. Also pad your board well for easier and more satisfactory ironing.

FOR PARENTS ONLY...

A Weekly Feature of Helpful Hints on Child Training

Clothes Are Important

— By NANCY CLEAVER — (Copyright)

Oliver Goldsmith once wrote: "A modest woman dressed out in all her finery is the most tremendous object of the whole creation!"

Quite a number of homemakers spend most of their thought and money on clothes worn when they "step out" to a social gathering, to shop or to church. But the clothing worn at home is just as important, but in a different way, as their "Sunday Best". Washable, attractive dresses for home wear, which have style and wear well, can be made by the woman who sews with a comparatively small outlay of cash on material and patterns. The woman who makes her own clothes and is clever at sewing can keep track of her purchases in order to find how much more economically she dresses than her friend who buys her all apparel ready-made.

An interest in sewing can start at an early age. The small girl who sees her mother happily making garments usually catches her enthusiasm. She wants to sew for her dolly. Her eagerness to make doll clothes is often the first step in becoming a good amateur dressmaker.

The girl who has a mother who encourages a sewing hobby has a real future asset. Training in this art should not just be left to the schools. It is true that in many places a fine job is being done of teaching sewing to the upper grades in public schools and in collegiate courses in home economics.

Night classes for adults in sewing are very popular and a number of shops such as the Singer Sewing Centers feature short daytime courses for beginners and more advanced sewers. At the Canadian International Hobby and Homecraft Show held at the Coliseum, Toronto, in February of this year, one of the most attractive corners was called "Buttons and Bows". There professional seamstresses demonstrated the newest dressmaking ideas and the latest gadgets for those whose hobby was sewing.

But there are some women who have little knack for sewing or who find they simply have neither time nor the desire to make their own things. The woman who buys her clothes often finds the lure of the Bargain Sale a real pitfall. A "bargain", no matter how much it is reduced in price, is never a genuine "bargain" unless it fits into the wardrobe and is becoming and suitable for the particular woman who purchases that special article. There is something pathetic as well as humorous about Helen Hokinson's cartoon which pictured an eager shopper asked a clerk "Where is whatever is reduced fifty per cent?"

Clothes can be selected more carefully if a buyer is not trying to "take advantage" of "bargains". The initial cost of any article should be divided by the number of years it is likely to be worn, in judging whether or not it is a "good buy".

It is the wise mother who takes her child along when buying new clothes for her son or daughter. Children learn from experience, from mistakes as well as success, in purchasing clothes. If they have had a part in their choice they will co-operate much more willingly in the care of their garments.

Do you ever stop to estimate to what a great extent clothes add to or substract from your every-day happiness? With more time and thought almost every girl or woman can make the money set aside for clothes stretch a bit farther. It is not the number of dresses or outfits but their becomingness and suitability, along with good grooming, which give an individual the reputation of being "well-dressed". A neww cut "basic" dress with contrasting sets of accessories, gives variety for different occasions.

Even a small girl, as well as a grown woman, can thrill to what she sees in her mirror, when her clothes add to her pleasing appearance. When her mirror, not just on "special occasions", but on ordinary days gives back the reflection of a happy person pleased with what she sees, and when members of her family, or friends indicate A well cut "basic" dress with compliment that they like what she is wearing, then a girl or woman realizes afresh that "Clothes Are Important!"

DISTRICT NEWS FROM OUR COUNTY CORRESPONDENTS

Cushing

Miss Isabel Ross, of Kingston, who was the guest of Mrs. W. Y. King for the past month, has now returned home.

Mrs. L. M. Gaston returned Sunday evening from a motor trip to Syracuse, N.Y., with Mrs. N. Humphries, of Ottawa.

Mrs. W. Cowie and daughter, Barbara, of Toronto, have been guests of Mr. and Mrs. J. Bradford for a couple of weeks.

Mr. A. T. Graham spent Thursday in Ottawa and attended the Exhibition.

Mr. and Mrs. I. H. Fuller, also W. Robert, M. Byrne, Mrs. A. Starnes and son, Walter, and Miss M. Smith, visited the Ottawa Fair on Wednesday.

Mr. and Mrs. H. Bailey and little daughter, Kama, who have been spending some time with Miss A. Davidson, have returned home to Montreal; Mr. Bailey was proceeding to Winnipeg for new duties.

Mr. and Mrs. W. H. Canning, who accompanied Mr. and Mrs. Geo. Drew, of Verdun, on a week-end motor trip to Niagara Falls, returned home Wednesday evening. Mr. and Mrs. Drew were their guests over the week-end.

Mrs. Leonard Nicolls, of Asbestos, was the guest of Mrs. James O'Brien on Wednesday; she also visited Mrs. Swail.

Mrs. A. Graham returned home Tuesday evening from attending the A.C.W.W. convention in Toronto. While there Mrs. Graham visited Mr. and Mrs. N. A. Clark, of St. Catharines, on August 22 on the occasion of their silver wedding anniversary. Mrs. Clark was a foster-daughter of the late Mr. and Mrs. Andrew Graham, Sr., and has four sons, a daughter and a granddaughter. En route home Mrs. Graham spent two days in Ottawa as the guest of Miss Maud Mumford.

Mrs. D. W. Candlish, of Shawville, who has spent the greater part of the holidays with Mr. and Mrs. A. Graham, was called to Montreal over the week-end because of the passing of her sister-in-law, Mrs. George Sleep, of Verdun.

Mrs. William McAdam, of Toronto, visited Mrs. James O'Brien.

Mrs. Ina Sanders and sisters, the Misses Janet and Betty McDowell, have been holidaying at "Glenifer Cottage".

Mr. and Mrs. I. H. Fuller were guests of Mr. and Mrs. Ed Croll, of Hudson Heights, on Sunday.

Guests of Mrs. W. Villeneuve and Mr. W. Bryerton the previous week were Mr. and Mrs. Robt. Bryerton, of Black River, N.Y., Mr. and Mrs. Harold Shufty, of Watertown, N.Y., Mr. and Mrs. Allan Fagen, of New York.

Mrs. W. Villeneuve is the guest of her brother, Mr. R. Bryerton, of Black River, N.Y.

Mr. W. Godwin spent the week-end at "Glenelen" and had as his guests Mr. and Mrs. Roy Hall and son, Jimmie, also Mr. J. Peters, all of Montreal.

Mr. and Mrs. Roy Dobbie are spending some time this week at Toronto Fair, also visiting with Mr. and Mrs. Ross Warwick at Niagara-on-the-Lake, Ont.

Avoca

Mr. J. Stafford and Mr. Davidson, of Montreal, were callers at the home of Mr. George Andrews on Friday last.

Mrs. Starke, of Verdun, is visiting her mother, Mrs. James Arthurs.

Mrs. A. McPhee spent the week-end visiting her little granddaughter, Kathleen Kelly, who is a patient in the Ottawa General Hospital.

Mr. and Mrs. J. H. Bates, of Montreal, spent the week-end at their home in Calumet.

Mrs. Eric Gretton, of Regina, is on a visit to her father and sisters in Pointe-au-Chene.

Mrs. Charles McKale is seriously ill in Dr. Smith's Hospital at Hawkesbury. Friends wish her a speedy recovery.

Mr. Elmer Andrews, of Montreal, and Mr. Houben, of Niagara Falls, visited their respective homes over the week-end.

Visitors of Mr. and Mrs. A. McPhee on Wednesday last were Mr. and Mrs. W. L. Dawson, of Lachute, and Mrs. John Baugh and little daughter, of Pointe Claire, Que.

Mr. and Mrs. S. McArthur, of Arundel, and daughter, Mrs. Rhodes Oulton, of Montreal, visited friends in Avoca last Saturday.

Mr. and Mrs. Wm. Andrews and family spent a holiday in Quebec City last week.

Miss Catherine Nixon spent the week-end with Mr. and Mrs. Larry Fox in Harrington.

Sympathy of this community is extended to Mrs. Charles Duncan and family in the loss of their husband and father. The late Rev. Mr. Duncan was well known in these parts, having been a student in the Baptist Church some years age. He had been prominent in Baptist circles ever since. Of late years his home was in Grimsby, Ont.

Grenville

Mrs. Earl McIntyre, accompanying her daughter and son-in-law, Mr. and Mrs. Scott MacLean, of Harrington, left last Friday on a motor trip to Dorion Station and Port Arthur, Ont.

Miss Esther Gauley is returning home this week from a holiday spent with her sister, Mrs. Manford Brydges and Mr. Brydges, in Galetta, Ont.

Miss Ruth Roberts, of Westmount, was the guest last week of her aunt, Mrs. J. F. Owens, and Miss Geraldine Owens.

Mrs. W. Harkness and daughters, Diana and Sheila, with a party of friends, are spending a holiday in Massena, N.Y.

Mr. and Mrs. A. F. Mimee are spending this week visiting with friends in Montreal.

Miss Margaret Smith, of St. Lambert, Que., and Mr. Leslie Dawson and son, Bruce, of Otterburn Park, were week-end guests of Mr. and Mrs. Ray Dawson.

Mr. and Mrs. Dean Moncrieff, with their daughter Florence and son Kenneth, of Kilmar, accompanied by Mrs. Stanley Dewar, left Monday for a holiday trip to Bellamy's, Ont., and will visit Mr. and Mrs. Geo. Porteous and other relatives in the district of Brockville.

Mr. and Mrs. Hugh Mortimer are returning home this week from a motor trip to Shearwater, N.S., where they spent a month visiting with their son and daughter-in-law, Chaplain and Mrs. Hugh A. Mortimer, and family.

St. Andrews East

Miss A. M. Lilly, of Westmount, who was the guest of Mrs. H. W. Hill for a week, has returned home.

Mr. and Mrs. S. Wolkow, of Westmount, are visiting Mrs. G. A. Lilly, aunt of Mrs. Wolkow.

Miss Annie Dewar, of Ottawa, was the guest of Miss Mary Lamb for several days.

Miss Margaret Taylor spent the week-end at Wakefield, Que.

The Rev. and Mrs. Harry Kay and daughter, Sandra Jane, of Vinelands, Ont., visited friends here on Monday.

Dr. and Mrs. Geoffrey York, Masters Richard and Stephen York, and Mrs. F. A. Mackay, of Ottawa, also Mr. and Mrs. Leighton York, of St. Andrews, occupied "Redlac" at 16 Island Lake for a week.

Mrs. Mabel Danford returned to Montreal on Monday after two weeks' visit with Mrs. W. H. Simpson.

Miss Sheila Trottier, of Halifax, N.S., is visiting her grandmother, Mrs. W. H. Simpson.

Committal

The ashes of the late Rev. E. Geoffrey May, former rector here, were interred in the family plot at Christ Church burial ground on Tuesday afternoon in the presence of his son and daughters, Mr. Stephen May, of Montreal, Mrs. S. E. Rider, of Bedford, Que., and Miss Barbara May, of Toronto, besides a number of sympathizing friends. The Rev. G. T. Spriggs conducted the graveside rites.

The late Rev. E. G. May died June 15 last at Sweetsburg, Que., in his 84th year. The funeral service was at Christ Church Cathedral, Montreal, conducted by the Rt. Rev. J. Dixon, Bishop of Montreal; the remains were then cremated.

Morin Heights

Mr. and Mrs. Peter Whalley and girls, Martha and Elizabeth, returned home last week after spending the summer at Kingston, where Mr. Whalley was an art instructor at Queen's University summer school.

Mr. Matt Dey spent last week in Otterburn Park visiting his son and daughter-in-law, Mr. and Mrs. Ross Dey.

Mr. Norman Michie and twins, Barbara and Duncan, of Winnipeg, left here Tuesday after spending a week with his sister, Mrs. C. E. Seale and Mr. Seale.

Miss Shirley Williams returned home on Thursday after spending about two months visiting friends at White River, Ont.

Mr. Jean Carreau, of St. Johns, spent last week-end as the guest of Mr. and Mrs. Ed Greer.

Miss Bernice Lacken left last week-end for Calgary, Alta., where she has accepted a position with a business firm.

Mrs. P. Temple and her son, Mr. Bill Temple, spent the week-end at their cottage here.

Mr. Colin Cameron spent a few days last week in Drummondville, where he attended the Hong Kong-Dieppe Reunion.

Mr. Alex Decarie, of Montreal, spent a long week-end at Rockcliff Inn.

Mrs. J. E. Seale had Mr. and Mrs. G. W. Knight as guests for the week-end, and Mrs. Cammy Seale for Sunday.

Mr. and Mrs. Fred Watchorn and daughter, Miss Barbara, accompanied by his brother, Tom, of St. Jovite, motored to Carleton Place on Sunday to visit Mrs. A. Watchorn and Mrs. Creswell.

Pre-Nuptial Shower

Mrs. J. H. Davis and Mrs. J. D. Davis were joint hostesses Saturday afternoon at a bathroom and lingerie shower in honor of Miss Laura Diolio, of Montreal, whose marriage to Keith Nesbitt has been arranged to take place on September 19.

Mr. and Mrs. Carl Carruthers returned to Montreal on Monday after spending the past week with his mother, Mrs. Robt. Carruthers.

Misses Joan Elder, of Mille Isles, and Shirley Dey, returned home Sunday after spending last week in Ottawa as guests of the former's aunt and uncle, Mr. and Mrs. Albert Noble.

Cushing West

Mrs. D. McPhail and children, Susan and Peter, of Noranda, were guests of Mr. and Mrs. C. Edgerton for the week-end.

Mr. and Mrs. Eric O'Brien, of Montreal, were guests of Mr. and Mrs. Ken Hartley at the Hartley cottage for the week-end.

Miss Ora Watson arrived Thursday from Louiseville, where she spent a week, and is now vacationing at her home here.

Mr. and Mrs. Fred Prior entertained a party of friends at their summer home for the week-end.

Mr. and Mrs. C. Lepage, of Montreal, also Miss Helen Rayson, returned to the city Sunday evening after being guests of Mr. and Mrs. Hugh Rayson.

Miss P. Dawson, of Stonefield Heights, Miss M. Smith, of St. Lambert, and Mr. L. Dawson, of Otterburn Park, were guests of Mr. and Mrs. A. R. Vowles on Sunday.

Mr. W. R. McAdam, of Toronto, spent part of last week with his sister, Mrs. Ida MacKinnon, Grece's Point.

Master Ralph McAdam, of Shawinigan Falls, spent last week in Grece's Point as the guest of his aunt, Mrs. I. MacKinnon.

The Misses Rita and Anna MacSween, of Montreal, are guests of Mrs. Alex Stalker this week.

Mrs. D. Campbell, Mrs. S. Armstrong and Mrs. Paintin accompanied Mrs. J. D. Weir to Ottawa on Tuesday.

Mrs. M. Mallette returned on Sunday night to resume her duties as teacher in Grece's Point School.

Mr. R. Hampton is spending some time in Toronto.

Celebrate Double Event At St. Andrews East

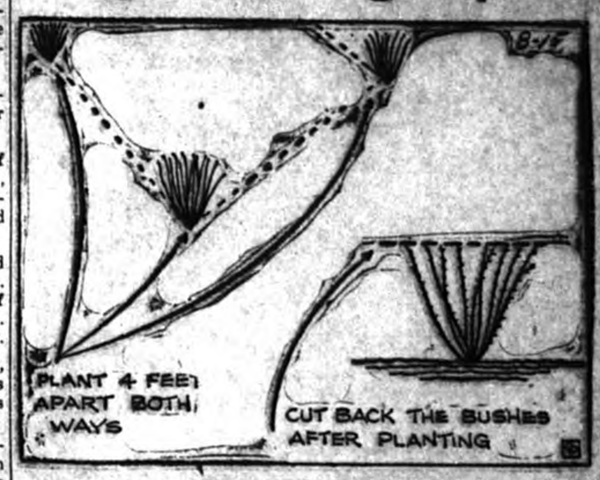

St. Andrews East — On August 29 at the home of Mr. and Mrs. Alex McPhee, St. Andrews East, a double surprise party was held to celebrate both the 75th birthday of Mr. Alex McPhee and the silver wedding of Mr. and Mrs. Archie Reid, of Toronto. Mrs. Reid is one of Mr. McPhee's seven daughters, who were all present with their husbands and children.

Mr. McPhee was presented with a smoking jacket. Mr. and Mrs. Reid were given silver dollars.

Among those present were — Mr. and Mrs. Jack Masters and Janet Masters, of Cowansville, Mr. and Mrs. Charlie Eikle and Shirley Eikle, of Montreal, Mr. and Mrs. Harry Mack and Janice Mack, of the Town of Mount Royal, Mr. and Mrs. Harold Evans and Rodger Evans, of Montreal West, Mr. and Mrs. Wells Laraway and Beverley Laraway, of Sutton, Mr. and Mrs. George Cameron, Donald Cameron and Keith Cameron, of Montreal.

Garden-Graph

Any location and soil that has grown good vegetables can grow good bush fruits.

Of the bush fruits, currants are the most suitable for the home garden. They also have considerable ornamental value, for they can be grown as an informal hedge.

There are three types of currants, red, white and black. The red is the most popular for home gardens. The black is banned in most states because it is an alternate host of the destructive pine blister-rust disease.

Fall planting is preferred for both currants and gooseberries. The wood of both ripens early, in good time for fall planting. Both currants and gooseberries start growth early in the spring, and the buds are usually well out before the ground is ready for planting.

Plant the bushes four feet apart both ways as shown in the accompanying Garden-Graph. Plant them at the same depth as they formerly stood in the nursery. After planting cut back the bushes, as illustrated.

Among the red currants the variety Red Lake is recommended. It produces heavy crops of big, red berries in long clusters. The berries make a beautiful sparkling bright red jelly. New Cascade is also an extra big fruited currant, which ripens a week earlier than Red Lake.

Gooseberries can be grown the same as currants in the home garden. The new "Pixwell" variety is extremely hardy and produces berries which hang two inches below the branches and are much easier to pick than other kinds. Another heavy yielder of good sized fruit is the Carrie gooseberry.

Bullet-Proof Vests Made from Nylon

New Protection for Well-Dressed Police Officers

The well-dressed police officer of the not-too-distant future may be wearing nylon — in the form of body armor — and it promises to be a lifesaver.

In actual tests, the lightweight, vest-like garment has repelled a wide variety of bullets, fired from virtually point blank range.

For example, a .45 calibre lead bullet was repelled in a demonstration at the recent annual convention of Quebec provincial police and fire chiefs in Quebec City. A second bullet, fired from 30 feet by crack shot H. Y. Matanda into the identical spot, was stopped by the third of the five layers of nylon fabric.

The demonstration also included firing of a .38 service revolver at the garment by Quebec constable Guy Dorval from 12 feet. In previous Canadian demonstrations, it withstood the force of a steel-jacketed .45 and a copper-jacketed .38 shell as well as the bullets from a walloping nine millimetre revolver and a Thompson sub-machine gun.

The body armor, a Canadian development, has been widely demonstrated in recent months to law enforcement groups including the Federal Bureau of Investigation in the United States and municipal police forces and private detective agencies. Interest has been shown by industrial and commercial security officers.

The Toronto police force has two vests in regular use, a private detective agency is planning to equip 10 patrol cars with them and about a dozen city police forces are considering using the vests.

A similar material is produced for the Canadian armed forces. Spokesmen for the forces have reported "a great number" of lives saved and injuries prevented by the use of nylon body armor by troops in Korea.

The standard police vest, which weighs 7¾ pounds, is priced at about $200. It makes use of a secret, specially-woven nylon fabric originally developed and patented by Dr. J. V. Weinberger, who subsequently joined the Directorate of Interservice Development, Department of National Defence, Ottawa. It is manufactured by Mine Safety Appliances Co. of Canada Ltd., Toronto.

It is made up of five layers of the nylon fabric, two layers of fortesan —a shock-absorbing material — and an outside covering of white or blue duck. It has an apron or sporran which tucks up easily for running or other action where unobstructed use of leg power is required. The vest is zippered at the shoulders to make donning it easy.

How does the vest stop bullets? The high-tenacity nylon material strongly resists an outside force separating the fibres. But when a bullet does enter, pushing the fibres aside, the fibres contract around the bullet, slowing its speed.

In demonstrations, the vest is draped on a sandbag. W. G. Claus, representing the manufacturers, says that results would be even better if it were worn by a person, with greater flexibility than the sandbag. The bullet striking the vest would tend to force the wearer backward, lessening the extent of penetration of the bullet. The only effect a policeman might suffer is a bruise.

SOLUTION TO CROSS-WORD PUZZLE (Page 7)

Tuna Vanishing Off Pacific Coast, Experts Puzzled

Ottawa (CP) — The mystery of the missing tuna off Canada's west coast still has fisheries officials puzzled after three years.

In 1939, tuna of the albacore variety, a streamlined fish weighing from 10 to 20 pounds, moved into British Columbia waters for the first time in history. There were not many at the start and the war curtailed commercial possibilities. However, from 1944 on the catch increased and during the 1948-1950 peak period, 6,500,000 pounds were landed with a value of $1,300,000.

Then the fish began to vanish. The 1951 catch was a mere 190,000 pounds worth $33,000.

At first fisheries department patrol boats kept a sharp lookout for the evasive tuna, without success. Fisheries department officials here say that patrol vessels now have almost ceased their vigil.

Fisheries department experts offer two theories: that the temperature of the warm Japanese current which swings past the west coast of Vancouver Island has dropped; that the current itself has swung farther out to sea and tuna have followed.

One spokesman said, "we don't really know the answer."

But one point stands out: where warm water exists, tuna can be found. No tuna is caught in waters of less than 60 degrees Fahrenheit and records show that off the B.C. coast nearly 70 per cent of tuna were caught in waters registering 61 degrees or better.

During the heavy run, tuna became one of B.C.'s most highly prized commercial fish. The albacore variety (thunnus alalunga) is similar in appearance to the huge tuna caught off the east coast, but much smaller.

Fishing was carried out by trolling boats which worked offshore, up to 150 miles out, between the California coast and the Queen Charlotte Islands.

Barbless hooks were used as tuna strike very fast. Each tuna boat had six or nine lines tended by two or more fishermen.

Nowadays there are only four or five boats fishing for tuna from B.C. ports, and they operate off the Washington and Oregon coasts. In the tuna top year of 1949, 124 licensed vessels brought in a 2,231,000-pound catch.

Tuna are valuable not only as a table delicacy — they taste much like a mild salmon — but also for liver oil which provides vitamin A. There are still tuna packing plants in B.C., but they pack fish imported from Japan, the United States and Australia.

AUSTRALIA'S TRADE WITH CANADA

Australia's trade with Canada has continued in the post-war pattern, with Australia purchasing over double the value of goods sold to Canada. Only once since the war has Australia had a favorable trade balance with Canada, and then only because of terrific increases in the price of wool. During the past year Canada was Australia's fifth most important supplier, and as a market for Australian goods, fourteenth. Australian exports to Canada consisted mainly of wool, sugar, dried fruits, canned meats and fruits, wines and sausage casings. The scope for Australian goods in Canada is limited largely to these commodities.

Main imports from Canada are automobile parts, lumber, newsprint, copper, aluminum, asbestos and tobacco. Canada's exports to Australia are limited by the severe import restrictions.

Have You A Question ON UNEMPLOYMENT INSURANCE OR EMPLOYMENT?

In this column we publish questions about unemployment insurance and employment, together with answers received from the Unemployment Insurance Commission.

If you are uncertain about any point do not hesitate to send your question to your district Unemployment Insurance office. We will obtain an answer and publish it in this column.

Q. For the past five months I have been unemployed and drawing benefit. Now I want to get married. I would like to know whether I shall lose all entitlement to the benefit still owing to me. If I have to go back to work after my marriage how long will I have to be employed before being entitled to benefit?

A. If a woman gets married while unemployed she cannot draw further benefit until she has worked for at least 60 days with an employer who is not related to her.

* * *

Q. If a married woman keeps the same employment up to two years after her marriage and then gives notice, is she entitled to unemployment insurance benefit?

A. The Married Women's Regulations are effective only up to two years following marriage. If you become unemployed more than two years after marriage and are otherwise qualified you would be entitled to benefit.

* * *

Q. Am I allowed to be represented by a lawyer before a court of referees?

A. Yes.

* * *

Q. If I am sure I will be engaged in casual employment on my report day, why can't I report on the previous day if I am then unemployed?

A. There is nothing to prevent your reporting on the day prior to your commencing casual employment.

More People Buy CHEVROLET than any other car!
Make no mistake about it
CHEVROLET is the LEADER!
1st in Sales!
1st in Value!
1st in Demand!

Only one car can be the leader! Only one car can be the favorite! Only one car can be the most-sought, most-bought car in Canada! That car, year-in, year-out, is Chevrolet. In the first six months of 1953, according to the latest official registration figures, Canadians bought 41,660 Chevrolets. This is 12,401 more cars than were sold by its nearest competitor — dramatic proof of Canada's continuing preference for Chevrolets!

The tremendous popularity of Chevrolet means lower production costs. It means big savings that are passed on to you! And because Chevrolet value lasts, there are extra dollars for you when you trade in your Chevrolet, for Chevrolet consistently shows highest trade-in values of any car in Canada! Final proof of good value is the loyalty of Chevrolet drivers, a loyalty that grows stronger with every new year — with every great Chevrolet we build.

Although other cars are available, thousands of Canadians are waiting patiently to get their Chevrolet. No other car will do! Surely this is proof of Chevrolet's superiority . . . and its unchallenged place in the hearts of Canadian motorists.

Protest to Council on Main St. Night Disturbances

Petition to Provide Parking Facilities In Store Section, Vicinity of Fire Station

A request for light work, two petitions from town residents, and several letters of civic interest were received and read at the September meeting of Lachute Town Council. All councillors were present at the meeting, held in the Auditorium under chairmanship of Mayor Dr. Jules Lafleur, and the minutes of the previous session were read and approved.

Henri Larocque, a former town employee who was injured in a dynamite blast on Sydney Street a year ago, applied for a light-duty job with the town as his compensation had been reduced by 50% and he was now permitted to do light work. It was moved by Ald. J. E. Charlebois, seconded by Ald. Réal Morrissette, that Larocque be hired as caretaker at $25 a week, and that Aurele Chevrier, the present caretaker, be employed by Joseph Senecal, town foreman — Larocque's wages subject to adjustment after the first day of December. It was moved in amendment by Ald. D. G. MacRae, seconded by Ald. W. Cousineau, that this matter be tabled until the next meeting. A vote was taken and the main motion was carried 5 to 4. Larocque commenced work the following day.

A petition signed by 30 residents of Central Main Street was received and read to the Council, requesting that immediate action be taken regarding the noise that results from parking of transports, semi-trailers and cattle trucks in this area at night, and requesting that the parking here be prohibited. The latter measure was impossible, as Main Street is a section of Provincial Route 8, but the police force were instructed to eliminate the noise nuisance.

A second petition, signed by the merchants of Main Street West regarding parking in the vicinity of the Fire Station, was received and read. Parking is prohibited in that area. . . A letter concerning the same matter was received from the Chamber of Commerce, suggesting that the town purchase a certain strip of land from Geo. Y. Deacon and allow parking on the corner. This matter was tabled for further consideration.

Joseph Bellefeuille, garbage collector, requested an increase in wages of $20 a week, and a $10 increase was granted effective immediately. With this raise, his wages are $90 for a four-day week. Out of this he supplies his own truck and two assistants.

Gaetan Leclerc requested construction of a concrete sidewalk on the south side of Sydney Street from Barron Avenue to Mary Street. The mayor said that, due to the cost of repairs to the water intake, it was not possible to build this sidewalk for the time being. Instructions were given to Joseph Senecal to repair the sidewalk at the corner of Gilbert and Charles Streets, at the request of Perley Murdoch.

Ald. W. S. MacKimmie, seconded by Ald. Alcidas Laurin, moved that an oilburner and accessories be

(Continued on page 2)

Personal Traffic Count

An observer on the Laurentian highway near St. Jerome last Monday, Labour Day, made a check of vehicles passing in a five-minute period between 9.15 and 9.20 p.m. This was well past the peak period of week-enders returning to the city, but the count of vehicles descending the highway at an estimated 60 m.p.h. was 120 — which may be calculated as 1440 vehicles an hour, easily accounting for the "bottleneck" congestion in Cartierville and suburban Montreal.

Named Parish Priest of St. Eustache

REV. L. J. RODRIGUE,

whose appointment as priest for the Parish of St. Eustache, is announced by Cardinal Paul Emile Leger.

Son of the late Dr. and Mrs. Alexandre Rodrigue, of Lachute, the Rev. Louis Joseph Rodrigue was ordained to the clergy in 1929. He served as a professor at the Ste. Therese Seminary, then pursued a study course of two years in Rome and Paris, later returning to Ste. Therese where he became Superior of the Seminary. In 1952 he was appointed Superior of the Bourget Normal School and chaplain of l'Association de la Jeunesse Catholique.

His sister, Miss Juliette Rodrigue, noted musician, and his brother, Henri Rodrigue, notary (Montreal), are also well and favorably known in this community.

"Red Shield" Annual Appeal Sept. 21 - Oct. 3

Campaign dates here for the Red Shield Appeal on behalf of the Salvation Army, have been set for September 21 to October 3 — two weeks in which the local public will be specially invited to contribute to this great humanitarian work.

Aiming for a substantial contribution from this area — comparable to or exceeding previous years — the district chairman, Donald M. Hay (manager, Bank of Montreal, Lachute branch) emphasizes that every dollar given is "a working dollar". . . Dollars given to the Salvation Army are a sacred trust, to be used for the relief of suffering and the reclamation of human lives. The Salvation Army spends money where it will do most good. In the Army's hostels, havens, homes and hospitals, its trained and devoted workers labor unceasingly to restore to men, women and children who have fallen by the wayside, the opportunity and desire for upright, self-reliant living. Costs of administration are kept to a minimum. Salvation Army workers lead dedicated lives of service.

Local Committee

The campaign committee for Lachute District includes: D. M. Hay (chairman), Geo. Y. Deacon, Leopold Carrière, Dr. F. W. Fitz-Gerald, Dr. Jules Lafleur, T. D. Titman, F. A. Ranger, John Connelly, Leighton W. York.

Unidentified Man Killed by Auto On Highway 8

An unidentified man was killed instantly at 9.15 p.m. Saturday when he was struck by a passing car on Route 8. The accident occurred at the Lafleur montée near Chatboro.

Henri Paul Campeau, accompanied by three passengers, was preceeding towards Grenville when the victim stepped onto the road in front of his car. Campeau stopped immediately after the accident.

An attempt was made to notify the local Provincial Police through their office here, and when this failed, Montreal headquarters was notified and they communicated by police radio with Traffic Officer Albert Legault who, assisted by Traffic Officer Roger Massie, investigated.

The case was turned over to Det. Maurice Lamoureux, who with other officers of the Provincial Police, is attempting to establish the victim's identity. The latter had a wallet, with no papers in it, also a wrist watch and a pocket watch.

Witnesses in St. Philippe said that the victim, who was seen in several places in that village, had been enquiring the direction to Vankleek Hill. Contact with the police there and in surrounding centres has brought no results to date.

The body was brought to the local morgue pending identification. Provincial Police have taken pictures and fingerprints which are at present at RCMP headquarters, Ottawa. No trace of his identity was found in the Montreal or Quebec files. The victim is said to be about 50 years or age, has greyish hair, weighs about 150 pounds, and is 5'9" tall.

4-H Calf Club Field Day and School Fair

The Lachute 4-H Calf Club Achievement Day and the Chatham School Fair were held last Saturday at the Lachute Spring Fair Grounds. Although the weather did not co-operate wholeheartedly, the day turned out to be a success, with 19 exhibitors showing 35 calves. Mr. R. Roy Simmons, of Finch, Ont., did an excellent job in judging the Calf Club exhibits.

The prize-winners were:

Junior Ayrshire

1 Carl Rodger, 2 Clifton Matthews, 3 Anna Todd, 4 Bobby Tomalty.

Junior Holstein

1 David Touchette, 2 Donald Parker, 3 Bernard St. Jacques, 4 Gerald Dawson, 5 Eileen Elder, 6 Stewart Robertson.

Year-Old Ayrshire

1 Ross Rodger, 2 George Pasco, 3 Angus Todd, 4 Carl Rodger, 5 Jack Leishman, 6 John Oswald.

Senior Ayrshire

1 Ross Rodger, 2 Henry Todd, 3 Jack Leishman, 4 Joan Oswald, 5 John Oswald, 6 Angus Todd, 7 George Pasco.

Senior Holstein

1 Lawrence MacGibbon, 2 Jean-Maurice St. Jacques.

Year-Old Holstein

1 Jean-Maurice St. Jacques, 2 Bernard St. Jacques.

Two-Year-Old Ayrshire

1 Henry Todd, 2 John Oswald, 3 Ross Rodger, 4 Carl Rodger, 5 George Pasco, 6 Jack Leishman.

Ayrshire Herd

1 Ross Rodger, 2 George Pasco, 3 Carl Rodger, 4 John Oswald, 5 Jack Leishman.

Ayrshire Championship

1 Henry Todd, 2 Ross Rodger.

Showmanship

1 Ross Rodger, 2 John Oswald, 3 Jean-Maurice St. Jacques, 4 Joan Oswald, 5 George Pasco, 6 David Touchette, 7 Henry Todd, 8 Donald Parker, 9 Bernard St. Jacques.

Two-Year-Old Holstein

1 Jean-Maurice St. Jacques, 2 Stewart Robertson.

Holstein Herd

1 Jean-Maurice St. Jacques.

Holstein Championship

1 Lawrence McGibbon, 2 David Touchette.

The Walker McArthur Rose Bowl for the Best Herd was won by Ross Rodger and presented by George Pasco, president of the Lachute 4-H Club. Mr. Sydney Patterson donated a trophy to the boy or girl who had taken best care in feeding, grooming and training of his or her calf during the past year; this was won by David Touchette and presented by Mr. Patterson. The judges for this trophy were Keith Russell, Ross Oswald and Donald Robertson, Federal Fieldman.

The School Fair prize-winners, judges, etc., are listed on page 6 of this issue.

Re-adopt Commerce Course In Local School Curriculum

Five Newcomers on High School Teaching Staff; Enrolment This Week Numbers Over 600 Pupils

Lachute High School opened Wednesday with a staff of 26 teachers, of whom five are newcomers. The pupil - enrolment yesterday, the first day of school, was 600, according to Principal F. H. J. Royal — with 15 additional pupils yet expected. There was a total of 70 tots in Grade I.

Total enrolment of pupils last year was 635.

Miss Nina Banfill, B.Sc. in Home Economics from Macdonald College, is taking over the Household Science Department. She is a native of the Eastern Townships, and, after a few years' experience there, has during the past year been teaching in British Columbia.

The Commerce Department is being re-opened, under direction of Miss Ada Sudbsbury, a Maritimer, who taught commerce for several years in Quebec High School and has recently been a member of the RCAF. The Commerce Department has been re-organized on a new basis. Commerce will be offered only in Grades X and XI. Pupils in this class will take only English, French, Algebra and the three Commerce subjects, which will lead to a High School Leaving Certificate and a complete Commerce Course. Special certificates in Commerce will be issued to successful students.

Mrs. P. Clark, a resident of this area, is the class teacher for Grade VI-B. Mrs. Clark taught in Lake of Two Mountains High School last year.

Miss Annikki Nieminen is taking over Grade V-A, and the former teacher of this grade, Mrs. Elva Armstrong, is teaching Grade III-A. Miss Nieminen comes from Val d'Or. She received her Intermediate Teacher's Diploma from Macdonald last spring.

Miss Evelyn Brown, a graduate of Macdonald College School for Teachers, is the class teacher for Grade IV-B. She has taught in Three Rivers High School during the past year. Her home is in Glenelm, Que.

The school cafeteria will open on September 14 with Mrs. Geo. MacKenzie and Miss Elizabeth Strong on duty in the kitchen. The cafeteria service is available to all pupils in the school and eight full-course meals will be available for $2.75.

The School Opening and Prize-Giving will be held on September 18 at 8 o'clock p.m. Parents and friends are invited to attend. Over $400 worth of prizes and scholarships will be donated for outstanding academic achievement and pupils who have made worthy progress during the past school year. Other prizes are donated for sportsmanship and leadership.

Five Arrested; Robbery Attempt At St. Andrews

The newly formed Provincial Police night patrol arrested five men near St. Martin at 5 a.m. Wednesday, at least two hours before it was learned that thieves had attempted to crack the safe in the CNR depot at St. Andrews East.

The suspects were taken into custody after a routine check on their automobile revealed several crowbars, axes and hammers, and a portable neon lamp. A few hours after their arrest, police learned that thieves had made an unsuccessful attempt to open the safe in the station at St. Andrews.

Det. Lieut. Albert Bisaillon, chief of the hold-up squad, said he hoped to clear up several other safe crackings in this area. The CNR depot at St. Andrews has been looted five times and the post-office twice since June 1952.

The airplane is becoming increasingly valuable in North America as an instrument for the quick and widespread spraying or dusting of crops and woodlands with pesticides and insecticides. Across the world, in New Zealand, it has found another farm use — the spreading of fertilizer. Agriculturists report that acres of rugged, hilly country there have been converted into excellent pastureland, capable of supporting many times more cattle and sheep than previously, by fertilizer spread from the air.

Local Lions Club Renews Activities, Opening Meeting

A well attended meeting in the Legion Hall marked the opening of the Lions Club season Tuesday evening — Lion Edward M. Jones presiding, with Phil Tremblay in the role of secretary.

Horace Lamarche, chairman of the Blood Donor Clinic committee, bespoke the club's support to this venture, to be held here the end of this month. He made special mention of Gatineau Power Company as a source of volunteers at the last Red Cross Clinic, besides other industries, and felt that all clubs, organizations and individuals should give support in this effort. George Y. Deacon advocated scheduled hours for group attendance and Police Chief Donat Villeneuve volunteered to undertake the organization of voluntary donors from the Lions Club.

Roger Régimbal reported the midsummer dance had proved successful, both socially and financially. Léopold Carrière also reported creditable results in the car raffle sales, which will conclude at the district golf tournament at LaSalle Golf Club this coming week-end. Ian Gordon, in charge of the season's programs with three other committeemen, discussed plans to make the club meetings both interesting and profitable.

Don Titman reported briefly on the International Convention in Chicago, which he had attended as one of the Lachute delegates, and was requested to reproduce in the local press his report appearing in the regular club bulletin.

Roland Paquette, chef par excellence, is in charge of the catering again this season.

Ch. of Commerce District Congress Here Next Sunday

Chambers of Commerce in the Laurentide Region will visit Lachute next Sunday. The executive of the local Chamber are gratified that this town has been chosen for the Laurentide congress, anticipating that the community will benefit thereby in favorable publicity, and that the visitors will have the opportunity of seeing Lachute and meeting its people.

All members of district Chambes of Commerce are cordially invited to attend, to exchange their views and ideas, and to stimulate enthusiasm for the provincial congress of these organizations, which is scheduled for the following week.

Joint chairmen of Sunday's gathering will be A. Ratelle, of Ste. Agathe, and Horace Lamarche, of Lachute, administrator and vice-president respectively of the Laurentide group; and details of the program are in charge of the Lachute executive.

Following is an outline of the day's program:

9 a.m. Registration at Golf Club and inspection of the club's attractions.

10 a.m. Tour of Lachute Town.

11 a.m. Mass at shrine on Brownsburg Road.

Noon. Luncheon at Legion Hall; speaker, Huet Massue, Doctor of Applied Sciences, University of Montreal.

2.30 p.m. General meeting.

5.00 p.m. Election of officers.

5.30 p.m. Refreshments.

7.00 p.m. Closing banquet; speaker, Hon. L. P. Cécile, Minister of Tourist Department, Province of Ontario.

Special diversions have been planned for the ladies, who will also be cordially welcome.

Red Deer, Alta., according to a survey by a U.S. firm, stands about highest for rich markets of any place its size in either Canada or U.S.A.; the average income per family is computed at $3,695.

Heading in the Barrie, Ont., Examiner, "Threatens Driver who splashed him with Revolver".

Imports of textiles into Canada during 1952 cost this country's textile workers 1,553,280 man-hours, E. F. King, president of the Silk and Rayon Institute, told the annual meeting.

Surprise Party for Veteran Merchant Feted by Rotary

Gathering for Ira McFaul Held at Home of His Daughter, Mrs. H. White

Members of the Brownsburg Rotary Club were guests of Rotarian Edgar Pollock at his cottage at Lake Louisa last Thursday. A general fellowship meeting was held, and the beautiful surroundings were much appreciated by all present. Special guests of the club were Mr. James McGibbon, Mr. Keith Hickson, and Mr. Herbert Graves, all of Lachute.

Later in the evening the members adjourned to the home of Mrs. Harry White, where a surprise party had been prepared for her father, Mr. Ira McFaul, marking his completion of 50 years in business at Brownsburg.

On behalf of the Rotary members, President Keith Rutherford presented Mr. McFaul with an engraved tray and expressed the good wishes of all present for many more years of successful enterprise. Mr. McFaul spoke briefly of the changes that have taken place in Brownsburg since he first established there, pointing out that only Mr. Leonard Wilson, of all those present, was living in the town at that early date.

French School Recently Dedicated

"L'Ecole Supérieure de Lachute", the local Catholic High School, where dedication ceremonies were held recently in the fine new building on Mary Street and Bedard Boulevard. With 26 classrooms the school now gives instruction up to and including Grade XII. It is under the direction of the Clercs St. Viateur, religious brotherhood, with the Rev. Paquin in charge of academics and the Rev. Levac religious director.

With Lions International in Chicago

— By Don Titman —

Extracts from a report in Lachute Lions Bulletin, reproduced by special request as worthy of wider interest

In reporting these impressions of the Chicago Convention let me first confess my sins of omission. My conception of Lionism had been largely confined to its functions in this community. My club was primarily a part of my town; and to both I have given such efforts as my humble role permitted. . . Still I was a "parochial" Lion; my outlook was decidedly narrow. . .

Chicago changed all that! At the Lions International Convention (July, 1953) the full breadth of this organization impressed me, as never before. When I saw the scope of its world-wide representation — when I sensed the Christian spirit of its leadership, its fine humanitarian service across the world, I felt a reverence which sometimes gripped my throat.

The dignity and immensity first struck me at the Canadian Breakfast, which was the initial function for delegates from north of the border. Seated beside me was a Canadian, formerly of T.C.A., Toronto. It surprised me when he was called to the head-table and was introduced as the new Public Relations Officer for Lions International. A big job, that — and a feather in the cap of Canadian Lionism. We heard reports on the progress of the movement in England, Scotland, Australia and the Netherlands. A Holland delegate personally acknowledged the Lowlands Flood Relief of over $100,000 donated by the Lions Clubs. (My thoughts turned back to home — we in Lachute had played a part in that.)

But the expanse of the great Lions organization was evidenced further, in the full-dress sessions in Chicago Stadium (one of the world's largest, packed with Lions and their ladies over 30,000 strong). Apart from the testimony of many speakers, our affiliations were dramatically developed in the Presentation of the Flags. This was a spectacle of flood-lit color, a theatrical masterpiece — a ceremony in which the 46 countries in the Lions membership (eight countries have been added in the past year) were introduced, with native costumes and national flags. I felt as if I were sitting in on a session of the United Nations! This, indeed was the largest, most active service club in the world! The Necrology Service, in tribute to those "passed on to higher service", was an equally impressive affair. The Big Parade — in which Canada was again worthily represented by bands, marchers and floats — was a procession one-and-a-half miles long, in which every State in the Union competed to captivate the crowd, and the various aspects of Lions Club service — youth recreation, rehabilitation of the blind, education, etc. — was ingeniously portrayed in the passing floats. It was a remarkable show.

The Lions were cordially welcomed by the Governor of Illinois. That's something BIG; State Governors don't step out every day to greet conventions. We were welcomed by the Mayor of Chicago; that's plenty big, too. . . But among the speakers I must specially mention the famous Helen Keller, whose mastery of her handicaps is astounding. Blind, deaf and mute since her infancy, this great woman is a source of inspiration and America's leading light in organized assistance to the blind. With the aid of her companion and interpreter, she contrived to speak before this mighty crowd; she appealed to them for financial aid in the printing of Braille (the written language of the blind) in South American tongues.

There were other impressive speakers, but the most notable figure, to my mind, was the retiring president of Lions International, Edgar M. Elbert. How inadequate are words to convey the depth of a personality! Edgar Elbert is Dynamic — Sincere — Lovable — Infectious! He has personified Lionism to perfection in his year of office.

And his successor, Lion President S. A. Dodge? . . . We in the ranks can vouch for his enthusiastic acclaim! How they yelled — how they applauded — how the Texans raised the rafters with their six-shooters, and Michigan (his home State) raised the cheers! And when he spoke, we too knew that President S. A. Dodge is a REAL FELLOW, to whom the progress of Lions International is well entrusted for the coming year.

There was amusement too, and entertainment, but too little time to take full advantage of the program.

Lachute's two official delegates, "Bill" Steeves and yours truly, were both accompanied by our wives and sons, and we enjoyed every minute. International Counsellor "Jack" Giles was the other representative of the club. He enjoyed it too — and it was our pleasure to note his popularity among so many old convention friends.

Advertisement in Lacombe, Alta., Globe, wanted to sell — "Seismograph truck, fully equipped with ancillary equipment, worth $25,000; will sell cheap for salvage; truck and equipment may be seen in 20 feet of water at bottom of Gull Lake."

Time was when a gallon of gasoline would take you pretty far at a fair price. Today a man is lucky to be able to afford a drive downtown and have a penny left over for the parking meter.

— Kamloops (B.C.) Sentinel

Canada Pays Its Share of U. N. Technical Aid

Canada has turned over to the United Nations the sum of $800,000 as its contribution to the U.N. Expanded Program of Technical Assistance for 1953. Canada's contribution represents full payment of the amount it pledged for the current fiscal year. Here, Ambassador David M. Johnson, Permanent Representative of Canada to the United Nations (right) hands check to U.N. Secretary-General Dag Hammarskjöld. The program now operating in nearly 100 different countries and territories is already achieving effective results.

Goat on Grace Street

Strange creatures have been seen ambling on the streets of Lachute. The town census, taken a little over a month ago, included dogs, horses and even a few cows. But there are other species beyond mention — roosters that waken people in the morning, besides a billy-goat that was seen walking down Grace Street mid-morning on Tuesday.

No doubt there have been quite a number of two-legged goats around town, and there will likely be more of this variety in the future, but this instance is the first of its kind in a good many years to be noted in the pages of this paper.

Plan Organization Details for County 3-Day Blood Clinic, Sept. 29-30, Oct. 1

Red Cross Clinic Organizer Answers Questions On Affiliated and Non-Affiliated Hospitals

A three-day Argenteuil Blood Donor Clinic (instead of the planned two-day session) was decided on by the local committee and Louis M. Poitras, director of the Red Cross Provincial Blood Donor Service. The committee — meeting in the Lachute Legion Hall — discussed its plans with a number of the local business and industrial representatives and decided to hold a clinic in Brownsburg on September 29 as well as the one in Lachute on the two days following.

Chairman Horace Lamarche found in looking over last year's records, that the general public had not responded to the appeal for blood, and that the majority of the 228 bottles of whole blood collected came from the men working in the larger industries in town. "Everyone will have to turn out, in order to meet and pass our 600 bottle objective", Mr. Lamarche said. "The Canadian Red Cross needs your blood, and it is up to you to see that they get it, so they can continue to save lives as they have done in the past", he added.

Steve M. Istvanffy, Brownsburg representative on the committee, requested information concerning the Red Cross Blood Bank in comparison to the one at the Royal Victoria Hospital with which C-I-L is associated. Mr. Poitras said that the Red Cross had given the Royal Victoria Hospital 58 bottles of blood in the month of July alone. He said that many organizations had Blood Banks of their own at the Royal Victoria Hospital, and that, on paper, their credit was good, but if the hospital was called upon to supply a large amount of blood in case of an emergency, they would not be able to do it by themselves and would have to call on the Red Cross Blood Bank as they had had to do in the past.

"While this may not have been the case in 1949, it is now, and has been for some time", Mr. Poitras added. In connection with the C-I-L Blood Bank at the Royal Victoria Hospital, Mr. Poitras asked Mr. Istvanffy to supply him with a list of names of C-I-L employees or their families who had received blood at the Vic, and he would tell him how many, if any, had received Red Cross blood and not blood from the Royal Victoria Blood Bank.

"Anyone will be able to receive free blood in any hospital in Canada or the United States when they need it, as the blood that will be collected in Argenteuil and elsewhere will help build up our supply", Mr. Poitras said. "In all hospitals under contract with the Red Cross, blood is given free of charge as a public service to donors or non-donors; this procedure is carried out in all hospitals if a request is made to Red Cross headquarters." As yet no person has been appointed for this area, but in case of an emergency in which blood is needed, those concerned should contact Horace Lamarche, chairman of the Argenteuil Blood Donor Clinic, and he will see that headquarters are notified of the situation.

Mr. Lamarche was approached by a local businessman whose daughter, now in hospital, went to school in Lachute. This former resident has contracted T.B.; she has to have half of one lung removed, and needs at least 20 blood transfusions which will cost over $500. Mr. Lamarche was requested to see what the Red Cross could do about the situation, and when he asked Mr. Poitras, he received the following reply: "The blood will be at the hospital tomorrow morning, or tonight if necessary." The local businessman will have his family, friends and business acquaintances replace the blood at the local clinic, and although this is not necessary when obtaining blood from the Red Cross, it does help keep the supply of blood on hand in case of an emergency.

Mr. Poitras, in making a plea for donors, stated that the Red Cross Mobile Unit, "does not go around the countryside for the fun of it", as it takes valuable time and money, and the volunteer workers and nurses here to work also

Gatineau LINES

Don't Throw Stones

As the school children return to their classes — full of vim and vigor — insulators on the poles of transmission lines appear to present an almost irresistible target.

Aside from the considerable expense to the Company in replacing broken insulators, especially in outlying districts, where work crews must travel many miles, there is another unfortunate result from broken insulators.

Very often the flow of power is interrupted, causing inconvenience to customers. Such interruptions coming at critical times can be most annoying to people who depend on electrical power to perform many functions around the home and farm.

At this time of recommencement of school classes, the inconvenience and expense resulting from broken insulators can be decreased considerably if parents will kindly caution their children to refrain from this practice.

Remember — it may be YOUR service which will be affected!

Farm Topics

Once Sandy Tract Now Feeds Cattle

Toronto (CP) — Sandy, impoverished soil can be reclaimed. A. C. McDermott of Goodwood has taken 450 acres of such soil near Uxbridge and now it is supporting 80 head of Shorthorn breeding stock.

McDermott's venture started in 1941 when he first planed down the eroded, sandy knolls with a bulldozer. Manure was harrowed into the remains of the grass roots and fertilizer added. Rye was sown and then plowed in as a well-grown green manure crop. Then the land was sown with alfalfa and brome grass.

Now he grows several alfalfa crops a year and corn for feeding. Next year he is going into grass silage. He is confident his venture will more than repay all the time and money he has put into it.

Old-Time Harvester Yields to Progress

Swift Current, Sask. (CP) — The days when farmers threshed crops with old-time threshing machines and 10-man crews ended in this southwestern Saskatchewan district this summer when Nelson Gowan pulled into a field of grain with a new combine.

Gowan, owner of the Circle Dot Bar ranch, was the last man in the area to give up on the old-time threshing machine.

One of the reasons he gave up on threshing and horse-power was the lack of teampsters in the country. In the previous years, he had men on his threshing outfit who came all the way from Nova Scotia, Vancouver and Texas. When his own crop was harvested, he did custom threshing for other farmers.

Loss of Farm Youth To Cities Deplored

Concern is expressed that present increasing industrailization in Quebec and Eastern Ontario will have severe adverse effects on farming operations.

Professor L. H. Hamilton, director of Diploma Courses at Macdonald College declared in an interview that "we cannot maintain farming in a healthy state if we continue to lose our most intelligent and progressive farm young people to city employment".

The Diploma Course Director warned that farming is a career for the best trained, the most intelligent, the most progressive and the most independent thinking. "We cannot afford to lose the most gifted to industrial employment year after year", he concluded.

Professor Hamilton suggested that it would help solve the problem if parents, 4-H Clubs, Women's Institutes, Farm Forums and Farm Organizations were to encourage farm boys to take the two-year Diploma Course in agriculture. In the case of Macdonald College, the Diploma Course runs for two consecutive winter terms, the director points out. Prof. Hamilton stated that for little more than $200.00 including fees and room and board in the College, a farm boy or girl from Eastern Ontario or Quebec can avail himself of practical training in the Diploma Course at Macdonald College.

Butterfly "Farm" Is World Famous

Bexley, Kent, Eng. (CP) — Virtually every famous kind of butterfly on earth — from the lovely swallow-tail, the largest seen in Britain, to such notable overseas insects as the giant silk-moth — is bred in the garden of a house here.

The "farm" was founded in 1894 and now is operated by L. Hugh Newman. In glass-fronted cages or mesh-covered tubs hundreds of brightly colored butterflies and moths feed on flowers or on pads soaked in honey. From this tiny farm hundreds of boxes filled with eggs, caterpillars and chrysalises are sent to collectors, museums and universities all over the world.

Auction Sale

On the farm of
W. J. BOYD,
two miles from Lachute
on the Brownsburg Road,
Saturday, Sept. 19, 1 p.m. sharp:

14 Head of cattle, 6 cows freshened since July 10, 2 more to freshen, 4 1½-year-old heifers, 1 Reg. Ayrshire cow 3-years-old, Reg. Ayrshire bull 2 years-old, 14 sheep, 2 work horses.

Mowing machine, Massey-Harris grain binder, Oliver tractor plow, 2 walking plows, 4-section smoothing harrow, hay loader, horse rake, disc seeder, double wagon & rack, set express sleighs, 2 sets heavy sleighs, 2 sets heavy double harness, 2 cream separators, 2 ice-saws, 2 sets ice tongs, 1,600 lb. platform scales, circular saw and frame, 60-in. circular log saw, 75-ft. endless rubber 6" belt, cutter, set light harness, double harness, 4 collars, cement mixer.

2 Sets disc harrows, a lot of second-hand tin roofing, 3 crosscut saws, axes, wrapping chains, cant hooks, Stenn saw, grindstone, heavy block & tackle, 1936 Dodge car.

Sewing machine, Quebec heater, 3-ft. box stove, cook stove, gasoline washing machine, 2 bureaus, 2 washstands, settee and five chairs, 3 bedsteads, and a lot of other articles not mentioned.

Terms, cash.

Ferguson tractor and plow (almost new) — terms on tractor made day of sale.

A Blood-Testing Technician

A volunteer Red Cross Blood Donor Clinic worker is testing various bottles of blood to double-check the type before shipping to outside hospitals. It is absolutely necessary that the proper type of blood be injected and every precaution is taken to ensure all patients of this provision. You can help the Red Cross Blood Clinic, and at the same time save the life of a neighbor, relative, friend or even someone that you have never met, by giving blood in Brownsburg on September 29, or in Lachute on September 30 and October 1. — Help save a life, give your blood to those who need it!

10 Points for Sound Farming

After studying the changing farm picture throughout the world, a group of agricultural economists recently outlined a 10-point program for more efficient farming which should be a useful guide to farmers. These points are:

1. Make the farm an efficient operating unit by careful planning for the best use of land, labor, machinery, cash and credit.
2. Use more lime, fertilizer, good seed and modern methods of efficient production to obtain highest returns per acre and per man.
3. Continue sound management of grasslands to support the growing livestock and poultry industry. Make use of soil, water and labor resources with an eye towards their conservation.
4. Produce meat, milk, eggs and other livestock products needed to feed the growing population. Practice closer culling, improved breeding, better feeding and efficient management to increase production and income per animal and per man.
5. Use approved methods and materials to fight crop and livestock insects, diseases and parasites, household insects, rodents, weeds and other pests.
6. Give farm woodlots better management and fire protection. Do a better job of marketing the timber crop. Reforest lands best suited to trees.
7. Provide and use more processing and storage facilities for farm products. Study consumer demands and produce and prepare products to meet them. Market products through most efficient channels.
8. Build a good family life with attractive homes having adequate storage space and modern conveniences efficiently used. Keep family healthy and happy by providing opportunities for education, religious training and social life.
9. Train rural youth in improved methods of farming, health, citizenship and leadership.
10. Keep informed on agricultural policies and programs, and actively support local and national farmers' organizations.

HEIFER IS BEST MONEY RAISER

—Central Press Canadian

Rosie, the heifer held by Helen Pring of Harriston, Ont., has so far raised $1,900 towards purchase of a $70,000 community centre. The heifer was first donated to the committee raising the funds. She realized $1,500 in a draw, but the winner gave Rosie back to the committee. Then she was auctioned for $155 and again given back to the committee. So now she is up for sale again with many bidders.

Protest and Petition Aired At Council

(Continued from page 1)

purchased from Gauthier & Raymond for the sum of $560. It was moved in amendment by Ald. J. E. Charlebois, seconded by Ald. Réal Morrissette, that the oilburner be purchased from R. McArthur & Son for $347.50; and it was then moved in sub-amendment by Ald. W. Cousineau, seconded by Ald. L. Gibeault, that the conditions remain as they are without an oilburner. A vote was taken and the main motion was carried.

A letter was received from Aldège Pagé, taxi driver, asking Council to amend the by-law regarding compulsory property-damage insurance for taxis. This insurance is set at $1,000 and all taxis are also required to be covered with five and ten thousand dollars public liability. This matter was tabled for further discussion.

An application for a dance hall permit was received from Mrs. Henri St. Onge, and it was moved by Ald. W. S. MacKimmie, seconded by Ald. H. G. Beaulieu, that this permit be granted in accordance with By-law 190.

An application for a gasoline station was presented by Geo. Y. Deacon, the gas pumps to be erected on his property on the corner of Millway and Main Streets. Permission was granted, subject to the approval of the road committee.

It was moved by Ald. Réal Morrissette, seconded by Ald. L. Gibeault, that 15 tons of Welsh Anthracite coal be purchased from H. Lafleur. It was moved in amendment by J. E. Charlebois, seconded by Ald. E. Pollock, that the coal be bought from L. J. Dumais Reg'd. the prices to be in accordance with tenders received. The main motion was carried 6-3.

Ald. W. S. MacKimmie, seconded by Ald. H. G. Beaulieu, moved that 15 cords of 16-inch hardwood be bought from Ernest Provost at $8 a cord.

Mayor Dr. Jules Lafleur pointed out that the water supply was low and suggested that By-law 143 be put into effect. It was moved by Ald. W. S. MacKimmie, seconded by Ald. H. G. Beaulieu, that By-law 143, Articles 13 and 21, be enforced. (These will be found on page 6, in the form of a public notice).

Accounts to the amount of $9,167.97 were approved for payment.

Building permits were granted to Arthur Pariseau, for a house on St. Jacques Street; Philippe Masson, for a restaurant on the corner of Sydney Street and Baron Avenue; and to J. Leger, for a four-apartment building on Fraser Street.

Ald. D. G. MacRae was appointed pro-mayor for the next three months.

There being no further business, the meeting was adjourned.

Cauliflower is nothing but cabbage with a college education.

Macdonald Study In Poultry Nutrition

Radio active materials in large doses are one of our greatest fears these days. Yet in small quantities as radio active tracer elements they are a big help to scientists.

One such study has been completed recently at Macdonald College using small amounts of radio active iodine in poultry feed. In the study the iodine was traced in the body of the chick and it was calculated how much was retained.

Working together on this problem were Professor Nikolaiczuk of the Poultry Husbandry Department, Dr. W. F. Oliver of the Department of Physics, and Mr. Dan Keenan, a graduate student.

Professor Nikolaiczuk reported the findings of the research team at the American Poultry Science Convention last month. Also attending the convention from Macdonald is Professor W. A. Maw, Chairman of the Poultry Husbandry Department.

HOME IMPROVEMENTS made simple, economical with amazing asbestos FLEXBOARD

EASY TO SAW

EASY TO NAIL

● Johns-Manville's Flexboard, the flexible sheet of stone, is ideal for lining garages, porch ceilings, kitchens, bathrooms, laundries; for building children's playrooms in basement or attic . . . and for many outdoor uses, too.

Made of asbestos and cement, compressed under great pressure, Flexboard is fireproof, rotproof, rodent-proof. It has the permanence of stone, yet it is surprisingly inexpensive.

Flexboard can be cut with an ordinary carpenter's saw and nailed close to the edge without drilling. No painting needed! Can be curved considerably. Comes in handy sheets, 4' x 8' and in thicknesses of 1/8" and 3/16". Let us show you samples. Call . . .

MEMBER AUDIT BUREAU OF CIRCULATIONS

Monstrous Intrusion

THE TIME has come for the Federal Government to enforce a rigid embargo on imported monsters. The home-grown Canadian variety is being stifled by foreign competition.

Time was when such native horrors as Ogopogo and Cadborosaurus reigned with a quiet dignity, occasionally lifting a fearsome head or lashing a scaly tail for the benefit of nearby residents and visiting tourists.

But an appearance by Ogopogo in his Okanagan haunts or by Caddy in his Vancouver Island playground barely rates a second glance today. Their thunder has been stolen by new freaks from abroad.

Fishermen off both our coasts are showing up with elephant-skinned tropical sunfish and unappetizing mud sharks, said to be visitors from southern waters. Even the little Nith River of New Hamburg, Ont., is getting into the act with a local monstrosity, said to dine on rat tails and portions of human swimmers and tentatively identified as an escaped baby alligator that grew up.

Apart from their alien status, all these newcomers are guilty of violating the basic regulations of the monsters' union. No self-respecting Canadian monster would ever assault a swimmer for fear of frightening away the tourist trade. And — above all — no authentic monster ever allows itself to be caught, or even scientifically identified.

Canada always has extended the welcome mat for distinguished foreigners of good reputation. If Scotland's Loch Ness monster ever wishes to pay us a visit, arrangements could be made for its reception under suitable conditions in some not-too-remote section of the Canadian wilds where its admirers could pay adequate homage.

But Canada's position should be made clear. Visiting monsters that don't know how to play football and have no other satisfactory credentials should be stopped at the border.

◇ ◆ ◇

IT IS EASY to go astray in our recollection. When the dry spell of weather broke, Saturday, September 5 — if one had asked another when we last had rain, most people would say "three to five weeks ago." A carefully kept record, however, shows we had rain on August 24 (only two weeks previously), also on August 10. In July we had 16 days of fairly hot weather without rain (6th to 23rd).

◇ ◆ ◇

The Blood Clinic

THE CANADIAN Red Cross has taken on the responsibility of collecting 170,000 bottles of whole blood to supply plasma to civilians and the Armed Forces, and to stockpile it for civil defence. Of this, 100,000 is for Armed Forces use. This job was undertaken at the specific request of the Department of National Defence. Only an efficient, well organized, properly staffed and adequate National Blood Transfusion Service such as that of the Red Cross could be of such an inestimable value to our country.

Greater reserves of whole blood are going to be needed, not only for military hospitals, but to build up supplies to cope with any emergency. Plans for the new program of blood for supply include the concentrated enrolment of donors throughout Canada. It is impossible to exaggerate the need for blood.

Fortunately, blood banks do not wait until the patient is dying before they ask us to replenish their supplies of whole blood and plasma. They do not ask a sufferer what country he is from or what his religion is. It is sufficient that he suffers. This heart-warming generosity blankets all who are entangled in the suffering of disease or disaster.

The necessity for blood is based partially on a new medical concept of the value of transfusions. They literally pour blood in sometimes, but lives are saved, and that is what counts at such a crucial time. Of every 1,000 wounded who entered the mobile hospitals in the Korean war, 983 come out alive. This priceless gift of life will always be the most precious gift of any young Canadian soldier.

Unfortunately there is only one source of blood plasma, that being the human body. Money can't buy it, factories can't produce it. This is where you and I fit into the picture.

Anyone between the ages of 18 and 65 can donate blood. On previous campaigns, reports are that young people between the ages of 18 and 21 were conspicuously absent at the blood donor clinics. It is quite obvious that the greatest potential supply of blood donors are in this age group. Should we of the younger generation allow such reports to continue? We who have such abundance of health and strength, can certainly [illegible] one pint of our six or eight quarts of the rich nourishing blood that flows through our body.

The procedure is completely painless and blood is extracted, quickly and easily, in a mere seven or eight minutes. It doesn't weaken your body in any way because you will speedily manufacture more to take its place. It costs nothing — but, it does this: It will save the life of a fellow Canadian, possibly a friend of yours that is in dire need of blood.

Let us not forget that we are expected to share some of the responsibility in the building of our future nation. The least we can do is to give our healthy blood that injured Canadians may live. Men and women, both young and old, could safely give of their blood to help save the lives of people suffering on their beds, possibly miles away from their homes and loved ones. Many people have gladly given blood, but there are thousands in the younger age group who have neglected this great privilege. Why is this? The Red Cross blood clinics will be ready and waiting for your visit and contribution in Brownsburg and Lachute on September 29-30, October 1.

If you have a few minutes to spare after your work on any of these three days, visit your local blood donor clinic. If you can't find the time, then make it, as your few minutes at the clinic may mean 70 years of life to a fellow human being, who may die without your blood. After your gift you will walk out into the world a happier person. You will carry a feeling of pride in knowing that you did your part, and many an unknown will bless you from his heart that you just kept beating by giving your blood.

◇ ◆ ◇

Diplomas Pay Off

AFFIRMING our remarks last week on education as the basis of earning-power, schoolchildren may take is from statistics that a university degree is still the best job security; it eases the way to top salaries. For there's no end in sight on industry's grab for grads — especially those with scientific or professional training, says The Financial Post.

There's still a shortage of engineers, dentists, doctors, science specialists, nurses and dietitians, according to a Department of Labor survey. Generally there's not expected to be any serious lack of balance between the demand and supply over the next few years, barring a major business recession.

◇ ◆ ◇

Labor Aptly Defined

A SHORT TIME ago we ran across a comment by Queen Mother Elizabeth that seemed to suggest a thoughtfulness and a deep sense of responsibility not too prevalent these days.

"Work", she said, and she is reported to have said it to her youngest daughter, "Work is the rent we pay for our place on earth."

Now the place on earth that she occupies is a conspicuous place. It used to be assumed by kings, and some of them very good kings, that their place was a place of special privilege. But not so today. There is a rent for special positions and it can only be paid by the acceptance of obligations. For queens and princesses, work is the rent for their place on earth.

We mention this because it rather seems that there has been a tendency to think of work as something to be escaped, not as an obligation to be assumed. It seems worth while to remind ourselves that, while we rejoice in the life we live, it is not in the broader benefits of being looked after, that we evidence our rights to our place on earth. There is an obligation involved. Not for somebody else to do something for us, but quite the reverse.

We have our rent to pay. Work is our justification for our place on earth. —J.L.R.

ALL ABOARD

◇

By Our Columnist,
G. E. MORTIMORE

Animals and reptiles have been bobbing up in places where they have no right to appear.

A "monster", believed to be an alligator, is terrorizing New Hamburg, Ontario. A four-foot-long rat attacked a swimmer in England. A seal raised its head in British Columbia's Shuswap Lake, far from the sea. Somewhere I heard that anacondas, large and nasty serpents which usually live in the Amazon valley, had escaped from zoos and established themselves in Florida.

At first glance these reports look like strong arguments for prohibition. But water-drinkers saw the creatures too.

In an attempt to catch the New Hamburg monsters, they hired a man named Tuffy Truesdale, who "makes a living wrestling alligators", a highly specialized field if I ever heard of one. Truesdale must go a long time between matches. There are very few alligators in the wrestling game today.

Tuffy and four tame alligator decoys have been lying in wait for the "New Hamburg Monster" on the banks of the Nith River. I don't wish Tuffy any real harm, but I hope he finds the alligator and gets eaten by it. Perhaps he will have been eaten by the time this reaches print. There are too many interfering people in the world. The monster was minding its own business and Truesdale should do the same.

The seal in Shuswap Lake has mercifully been left alone. So have the anacondas in Florida, if they really exist. Most people are inclined to hold their anger in check where anacondas are concerned, showing that they sometimes have Fine Humanitarian Feelings.

The fact that the anaconda grows up to 30 feet long may have something to do with it, too.

As for the four-foot-long rat that attacked a swimmer, it was really a coypu, a big South American water rat, if that makes the swimmer feel any better. Coypus were bred for their pelts. Then some of them escaped and apparently set up a colony on the River Avon.

Zoologists say coypus are vegetarians, but this animal had not been properly briefed by a zoologist, so he came at the swimmer with teeth bared. I don't know what the authorities can do about the coypus. Perhaps they might send them some vegetarian pamphlets.

Transplanting animals from one place to another is a fascinating business, as the man said when he took the first rabbits to Australia. It makes you feel like a mad scientist. There is something comic about an animal straying out of context. Of course the amount of laughter depends on the species of animal. An escaped monkey is a lot funnier than an escaped tiger.

The report from New Hamburg reminds me of a favorite project. Two or three years ago I thought of releasing a young crocodile or alligator in the lake where I live, to keep the population of noisy children in control. But the children became quieter and better-behaved, so I dropped the idea. Besides, alligators cost $10, which is too expensive. I wonder how much the pet shops charge for a young hippopotamus.

Based on an index of 1939 equals 100, wages in the Canadian primary textiles industry were 307.5 at the end of 1952, according to Dominion Bureau of Statistics.

MONTREAL – MAELSTROM AND MILLSTREAM

By GEOFF.

One of the great delights of Montreal is its cosmopolitan atmosphere. While French and English predominate, every nationality of the world is represented here. Along the busy thoroughfare, at the docks, and in the cafés, one hears Polish, Dutch, Ukranian, Russian, Chinese, Japanese, Indian, a veritable Babel. Yes, one even hears Urdu and Korean.

But if you were to ask me what I consider the most fascinating feature of Canada's metropolis, I should at once reply that it is that section of the city bounded on the north by St. Catherine Street, on the east by St. Lawrence, west by St. Urbain and south by Lagauchetiere. That is where the traveller finds the city's China Town, with all its atmosphere of the far, Far East.

Here is where one finds the little two-by-four shops with their intricate ivory carvings selling for a song. Joss sticks toss perfume to to the air and mingle with elusive scents of jasmin tea and oriental spices. Here, too, one can always find fireworks for sale, side by side with costly silks and satins, at prices far lower than those demanded by the centre-town shops.

Then, of course, there are the myriad restaurants with their strange, enchanting dishes. There's the New Lotus and the Nanking and a host of others, all catering to the palates of the epicures. Soo Gai, Chop Suey, Chow Mein, Sweet and Sour Spareribs, and the lovely Chicken Fried Rice, rub shoulders on the menu with succulent Egg Rolls encased in their glistening Wun Hoon skins. What better treat could one ask for than two or three or four egg rolls, all smothered in tangy mustard and plum sauce and all piping hot? Also, if you are possessed of a strong stomach, you can even order and receive the famous Birdsnest Soup, and enjoy it, too! And the prices are quite fantastic. A seven-course meal in China Town will cost you much less than occidental fare in the city's average restaurant.

Is it any wonder, then, that I find my footsteps straying to China Town every so often? And why do I love it so? Well, why not? In China Town, one can slip into a store or restaurant at any time of the day or night, and there, if only for a brief moment, come face to face with a civilization as old as time itself.

Exotic? Enchanting? Stimulating? Yes, indeed! A visit to our China Town is all these and more. And, too, it's fun.

Foresees Tragedy If Speeding Continues On St. Andrews Stretch

CORRESPONDENCE TO THE EDITOR

St. Andrews East, Que.

Editor, Lachute Watchman.

Dear Mr. Editor:

I have seen various timely items in The Watchman relative to the senseless, excessive speed of certain drivers of cars in Lachute and on surrounding country roads. I say "certain" drivers — for, thank God, and I say it reverently, all drivers are not guilty of the foolishness of excessive speed.

The time has come when I must register a complaint about the excessive speed of some drivers of cars and trucks on Route 29, between the bridge over the North River at St. Andrews East, and the curve at the foot of Carillon Hill. There is an old proverb about locking the stable door after the horse had been stolen. If something is not done pretty soon, along this one-mile stretch of road, the aforesaid proverb will become applicable over the body or bodies of some victims of foolish speed.

Thanking you for your courtesy and attention, and asking you to issue another urgent warning in your well-read and timely editorials.

Yours very truly,
G. Percy Hall.

THE WEEKLIES SAY

VITAL SERVICE

All the emotions of the human race go channelling through the postal system. The sentiments of love, hope, fear, encouragement, pass from one person to another, linking or separating families, bringing people together or dividing them — a most potent form of communication.

— High River (Alta.) Times

CARELESS HUNTERS

More and more farmers throughout the Prince George district are posting their land with "no shooting" signs. Many of them have had no alternative if they wanted to protect their stock, their gates and fences and their crops.

— Prince George (B.C.) Citizen

IMPORTANT BODY

The County Council is unique among all forms of government. First of all, it is closer to the people than any other government, from the civic to federal. Secondly, the County Council rules on many matters having a direct bearing on our way of life and for this reason we should see that council members are wisely chosen and fully supported in their work.

— Campbellton (N.B.) Tribune

YOUTH NEEDS DISCIPLINE

Discipline and respect has its place in our everyday life at home as much as it has in our army, and juvenile irresponsibility evident on all sides indicates that we are falling down a little in attaining it.

— Stanstead (Que.) Journal

FOREST FIRES

From a small, underpaid, poorly-equipped band of men who fought what appeared to be a losing battle against forest fires in our northland, has grown a fire-fighting brigade, wise in the techniques of combating the destroyer. But their work will still be tripled by careless smokers and their discarded matches and cigarette butts.

— New Liskeard (Ont.) Temiskaming Speaker

STITCH IN TIME

If teachers and parents would take a little time to instruct children in safety rules, many unnecessary accidents might be eliminated.

— Kimberley (B.C.) News

Assistant Director of Red Cross Blood Bank

Dr. L. Gratton, who becomes Assistant to Dr. Cecil Harris, medical director of the Blood Bank of the Canadian Red Cross in Montreal. The free transfusion service now covers 77 hospitals in Western Quebec.

DELAYED ACTION

Many of the chaps are doomed to go through life as bachelors, it seems, mainly because they believe in periods of courtship and engagement far longer than the ordinary human can endure. Obviously little reasoning is being used by the fellows in stretching into a decade a phase of life accomplished by the average couple in periods ranging from a week to a year.

— Drumheller (Alta.) Mail

Quick Canadian Facts

An up-to-date review of all significant aspects of Canadian life is contained in the 1953-1954 issue of Quick Canadian Facts. In its 112 pages the ninth annual edition of this pocket-size book contains information on the Dominion, the provinces, government, latest census figures, trade and industry, natural resources, finance and taxes. Distributed through book stores and newsstands, the new edition of Quick Canadian Facts has just recently been released across the country.

ANOTHER NEW BANK CUSTOMER

Johnny's bank account is one of nearly 9,000,000 now carried by Canadians in the chartered banks — 3,750,000 opened in the last ten years alone. Today, practically everybody goes to the bank. Competition among the banks in all forms of banking service is one of the reasons why you, like Johnny, can expect prompt, efficient, courteous attention to your needs at your own local branch.

THE BANKS SERVING YOUR COMMUNITY

Good Deeds you may have done unknowingly

1. Here's a new home you may have helped provide for one of your neighbours — *if you are a life insurance policyholder.* For part of your premium money is invested by your life insurance company in ways that provide funds for building not only houses, but schools, roads, power plants, other developments.

2. Perhaps, too, you can take a small part of the credit for Tommy's recovery from a serious illness. Medical science is always learning more, through research, about how to combat disease. And *you* may be providing some of the funds that life insurance companies contribute to such vital research projects.

3. Ever help a man get a job? You may have — unknowingly. For life insurance money, invested in ways that enable an industry to expand, has played an important part in providing new jobs for *many* workers — including, perhaps, *yourself.*

4. As a life insurance policyholder, you do *all* your fellow-citizens a service. For the financial security you've provided for your family reduces the chance of their ever becoming a burden to others. The more protection you own, the more that chance is reduced.

In all these ways, millions of life insurance policyholders are building security for their future — and helping to make Canada a better land to live in!

AT YOUR SERVICE — A trained life underwriter, representing one of the more than 80 Canadian, British and United States life insurance companies in Canada, will help you plan for your family's security and your own needs in later years. Why not him?

OBITUARIES

Late 'Charlie' Miller Was Veteran Railway Employee

The death of Charles Robert Miller occurred on Thursday, September 3, at the home of Mr. and Mrs. David Rowe, Bedard Blvd., following a long illness.

Mr. Miller, a well known figure in this community, was the only son of the late Robert Miller and his wife, Mary Jane Padget. He was born in St. Canut, July 22, 1877, and spent his early life in that district. After his marriage to Miss Elizabeth Copeland, he moved to California, where he took up residence. He was there during the disastrous earthquake in San Francisco, after which he returned to these parts, and engaged in farming for a number of years, finally moving to Lachute. Here he was employed first by the C.P.R. and later by the C.N.R., for which company he worked 28 years. After being pensioned off he was employed by the Town Corporation, as caretaker of the Park and Auditorium.

His wife predeceased him 19 years ago. He is survived by one son, W. N. Miller, in Montreal.

His funeral took place on Saturday, September 5, service being conducted by the Rev. A. Penman. The remains were interred in the Lachute Protestant Cemetery. Pall-bearers were — James Robertson, Alan Boa, Clarence Miller, Rosario Miller, Randolph Miller and George Rowe.

Late Mrs. Omer Paquette Was Lifelong Resident, Well Known in Lachute

Mrs. Omer Paquette, the former Corinne Lavigne, died in the early hours of Thursday morning, September 3, at l'Hôpital des Convalescentes in Bordeaux, following 16 months of illness.

Eldest daughter of the late Joseph Lavigne, she was born almost 80 years ago and was married to Omer Paquette on October 19, 1898.

She came to live in Lachute when she was a few months old, and remained here all her life, being in business on Main Street for 43 years.

She is mourned by her only daughter, Mrs. E. M. Jones (Pauline), her son-in-law E. M. Jones, three grandchildren, Billie, Eveline and Bobbie, a sister, Miss Jeanne, and a brother Dr. Albert Lavigne.

The funeral service was held in the St. Anastasie Church on Saturday, conducted by the Rev. Laurin; the remains were buried in the Lachute Catholic Cemetery.

Cushing Resident Mourned by Neighbors

Late Miss Leila Cleland

Cushing residents are mourning the loss of one of the community's most loved members, in the sudden passing of Miss Leila Cleland on Wednesday, September 2.

Miss Cleland had been visiting Cushing from her Montreal home since her infancy, first occupying rented cottages with her parents and sisters for the summer months, until her parents built a summer home adjacent to that of the late Mr. and Mrs. Orrin Leroy. About 15 years ago Miss Leila and her sister, Alberta, moved to Cushing to make their permanent home. Both have been active in all of the organizations connected with St. Mungo's Church. Miss Leila was an active member of the Women's Christian Temperance Union, and in 1952 was made a national life member by her local fellow-members.

Although her vision was much impaired, Miss Leila Cleland spent her days happily and cheerfully, an inspiration to many who enjoy perfect eyesight. She was always ready to help in every way that she could, and had assisted in St. Mungo's choir for many years, until she could no longer see the printed words.

Sincere sympathy is extended to the close members of her family, and in particular to her sister, Miss Alberta. Other sisters are Mrs. Lloyd, of the United States, Mrs. J. Richardson and Mrs. George Burton, of Montreal. A large number of nieces and nephews, and some grandnieces and nephews, also mourn her loss.

The funeral service was conducted by the Rev. R. Watson, of St. Mungo's, in Collins' Parlors, Sherbrooke Street, Montreal, on Friday. Interment was in Montreal.

Father of Local Resident Was Active N.B. Citizen

Late George C. Elliott, of Saint John

George C. Elliott, of Saint John, N.B., (father of Mrs. Clifford Armstrong, Grenville) died in the Saint John General Hospital recently. He was 61 years old.

Mr. Elliott had 40 years' service in the Canadian National Railways. He went to Saint John in 1917 as a telegraph operator and for the past 10 years was the local freight agent there, a position he held at the time of his death.

Active in church affairs, Mr. Elliott was one of the original charter members of Park Avenue United Church, East Saint John, which was founded in 1924. He was church treasurer for the past 29 years, a member of the Board of Stewards and of the Men's Brotherhood.

Among other organizations, Mr. Elliott was chairman of the advisory board of the Boys' Industrial Home and a member of the parole board of the same institution. He was also a member of the Municipal Parks Commission, as well as being connected with various railway organizations.

He is survived by his wife, the former Minnie H. Theall; one son, Ralph, of East Saint John; four daughters, Mrs. John Prokopy (Irene), Laflin, Pa.; Mrs. Clifford R. Armstrong (Verna), Grenville, Que.; Mrs. Jr. E. Roistone (Enid), East Saint John; and Mrs. Bruce Matheson (Winnifred), Kingston, Ont.; his mother; two sisters and three brothers, as well as eight grandchildren.

Interment was in Cedar Hill Cemetery Extension, Saint John, N.B.

Late James (Jim) Fish Was Well Known To Older Residents

James Alexander Fish, a long-time summer resident of this district, died at the home of his daughter, Mrs. Gavin Walker, in the East Ward yesterday morning. He was 72 years of age.

Born in Sorel, Que., on June 12, 1881, he married Edith Isobel Williams. They had three children. He was an active member of the Church of England and of various other organizations. He has been retired for almost 20 years and has since spent much of his time in Florida, whence he had just returned to Lachute.

Left to mourn his loss are his wife, a son, William, of Montreal, a daughter, Mrs. Gavin Walker (Vida), and a granddaughter, Miss Joan Walker, both of Lachute.

The funeral will be held from the Walker residence, Main Street East, at 11 a.m. Friday, and interment will be made in Sorel.

Late Donat Ouimet Was Noted Diver

The funeral was held recently of Donat Ouimet, who died suddenly at his home here in Lachute.

Mr. Ouimet, 48 years of age, was well known as a diver.

He is survived by his widow, the former Germaine Carriere, and by eight daughters, Jacqueline, Jeannine, Georgette, Mariette, Monique, Marie-Paule, Lise and Michelle; three sons, Lucien, Rolland and Jacques, all of Lachute; three brothers, Joseph, Armand, and Albert, all of Chute à Blondeau, Ont.; and two sisters, Mrs. Matthew McGarr, and Mrs. P. Bellefleur, both of Montreal.

Two Cows Killed by Lightning at Riverfront

(Our District Correspondent)

Cushing West — An unfortunate loss occurred Saturday afternoon on the farm of Mrs. C. L. Cooke, when their two cows were struck by lightning and killed instantly. It was not until early evening, when Miss Agnes White went to attend to the milking, that the cows were discovered.

Births, Marriages, Deaths, etc.

BIRTHS

HEATLIE — To Mr. and Mrs. John Heatlie, Jr., at Smiths' Clinic, Hawkesbury, on Sunday, August 30, a baby girl — Heather Frances. Both well.

TOMALTY — Born Sept. 1, 1953, to Mr. and Mrs. James Tomalty, Grenville, a daughter (Debera Ann) 10 lbs. 7 ozs., at the Smiths' Clinic, Hawkesbury.

ACKNOWLEDGMENTS

CARDINAL — Mrs. Hermas Cardinal and daughter, Georgette (Mrs. R. Desgardins), wish to thank all those who extended sympathy on their recent bereavement, in the death of René Cardinal.

PAQUETTE — Mr. and Mrs. E. M. Jones and relatives of the late Mrs. Omer Paquette (Corinne Lavigne) express their gratitude for kindnesses and sympathy extended in their bereavement.

IN MEMORIAM

BEATON — In loving memory of our dear mother and grandmother, Ellen Beaton, who passed away Sept. 12, 1947. — Ever remembered by Christie and Ross and grandchildren.

"You live with us in memory still.
Not just today, but always still."

CHAMPAGNE — In loving memory of a dear father and grandfather, Felix Champagne, who passed away four years ago today, Sept. 11, 1949. — Always loved and cherished by all the family.

"Asleep in God's beautiful garden,
Sheltered from sorrow and pain,
Safe in God's wonderful keeping
Until we meet you, dear Papa, again."

CHAMPAGNE — In loving memory of my dear husband, Felix, who passed away Sept. 11, 1949. — Always loved and remembered by his wife, Dolly.

"I'll always remember in my heart
The happiness we both knew,
We travelled life's pathway together,
It was beautiful because of you.
A cluster of lovely memories
Of a husband who was my pride and joy.
For memories are a gift of God
That even Death cannot destroy."

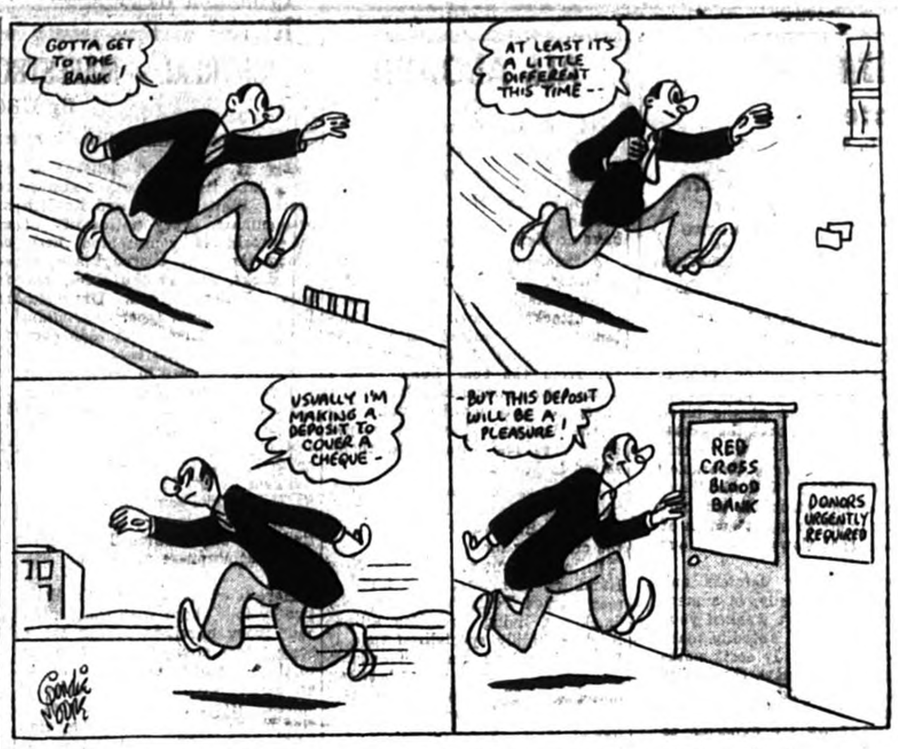

IN MEMORIAM

WAITE — In loving memory of a dear husband and father, Chesser S. Waite, who passed away Sept. 12, 1948. — Ever remembered by his loving wife and family.

"God took your hand, we had to part,
He eased your pains but broke our hearts.
What happy hours we once enjoyed
When we were all together;
Death has left a loneliness
And many silent tears."

YOUNG — In loving memory of a dear wife, mother and grandmother, who passed away very suddenly Sept. 7, 1948. — Husband, Asa; daughter and son-in-law, Ruby and Wyman, and grandsons, Willis and Carl.

"Oh happy days we once enjoyed,
How sweet their memories still,
But death has left a loneliness
The world can never fill."

DISTRICT NEWS FROM OUR COUNTY CORRESPONDENTS

Brownsburg

Mrs. P. MacAdam and Mrs. M. Cowley were in Montreal on Tuesday.

Mr. and Mrs. R. H. Morrison spent the week-end with relatives in Rock Island.

Rodger's Canned Chicken Products

RODGER'S CHICKEN IN BROTH, 7 oz. and 16 oz., is made from the best of chickens freshly killed and packed in their own juice (BROTH) — No cold-storage chickens are used and no synthetic flavoring or gelatine is added.

If jellied chicken is desired chill can in refrigerator for an hour or more before serving.

To remove broth for salads or sandwiches warm slightly and broth will pour off.

Do not stir while heating. Chicken is cooked ready to serve and stirring will break it up.

If more broth is desired for sauce try Rodger's Chicken Broth, 20-oz. can, which is of the same quality used on the canned chicken.

Try "Rodger's Whole Chicken" and "Chicken Sandwich Spread" which is of the same fine quality as the boneless chicken. Canned food is the purest food obtainable.

When you buy "RODGER'S CANNED CHICKEN PRODUCTS" you are buying the best.

DISPLAY — general commercial advertising must be in the hands of the publishers by Monday of each week.

DISTRICT NEWS — should reach this office not later than Wednesday noon.

Australian Delegate to ACWW Conference Visits Lachute W. Inst.

Lachute branch of the Women's Institute held its monthly meeting, the first of the season, on Tuesday in the Legion Hall. Mrs. Angus Taylor, president, occupied the chair.

Mrs. E. B. Jost, as delegate to the June provincial convention, reported on all sessions attended. She also displayed a copy of the "Dutch Oven Cook Book", some 5,000 copies of which have already been sold by the women of Lunenburg, N.S., for the purpose of building a hospital there.

The guest speaker was Mrs. Bott, from Australia, who had been a delegate to the A.C.W.W. Conference held recently in Toronto. She spoke briefly on Australian farm life and answered numerous questions on points of interest. Mrs. Bott was thanked by Mrs. A. Geo. Leggett, who also had brought souvenirs given by the various countries to the delegates at the Conference.

The meeting then adjourned for tea.

Fashion Show Held At Brownsburg Under Auxiliary Auspices

Brownsburg — A fall fashion show sponsored by Miss E. Malacket was held in the Brownsburg Legion Hall on September 3. The local models were introduced by Mrs. C. Martin, as commentator. The show began by showing attractive "after-five" dresses, followed by suits and sportswear. Highlight of the evening was the modeling of fur capes and lovely evening and cocktail dresses.

During the entire evening soft piano music was played by L. Lupien.

Those modeling were — Misses R. Ross, M. Lowe, F. Hamilton, L. Raymond, R. Hebert, L. Brunelle, Mrs. R. Goldthorpe, Mrs. D. Maitland, Mrs. Sid Seary, Mrs. R. Summers and Mrs. F. Brunelle.

At the close of the evening a light lunch was served by the Legion Women's Auxiliary, Branch No. 71.

Thomas Sugg, 108, voted at St. Johns, Nfld., on August 10 and said that he is in excellent health and looking forward to celebrating his next birthday.

High River, Alta., was unique in one respect at the recent election, for horses were used to transport voters. The Times bemoaned the fact that elections have lost their color and the Rodeo Association got busy and hitched up a pair of pintos for the job.

Garden-minded Mr. and Mrs. Eric Hopkins of Vernon, B.C., have raised a passion flower, thought to be a rarity in that climate; raised it from seed, too.

2-Column head on the front page of Wadena (Sask.) News: "Creamery smell aired at council meeting."

Couple Pledge Vows At St. George's, B'burg

Draper - Barnes

The marriage of Justina, daughter of Mr. and Mrs. Frank H. Barnes, of Brownsburg, to Mr. William Arthur Draper, son of Mr. and Mrs. Arthur Draper, of Toronto, took place on Saturday afternoon, August 29, in St. George's Church, Brownsburg, the Rev. C. R. Lang officiating. Mrs. Norman Somers played the wedding music and white and pale pink gladioli were used to decorate.

The bride, who was given away by her father, was in a gown of white and pink nylon net over corded taffeta. Her fingertip-length veil of tulle illusion was held by a braided coronet and she carried a bouquet of white gladioli blossoms and stephanotis.

Miss Mary Lee Houston, of Port Hope, Ont., as maid of honor, was in a frock of deep rose taffeta. She wore a matching hat, trimmed with ostrich features, and carried a bouquet of summer flowers.

Mr. John Foster, of Toronto, acted as best man for Mr. Draper and the ushers were Mr. Jack Reade and Mrs. K. B. Bourne.

Mrs. Barnes, the bride's mother, wore a suit of slate green shot taffeta with a navy blue hat and accessories and a corsage bouquet of gardenias.

Mrs. Draper, mother of the bridegroom, wore a gown of slate grey crepe with a navy blue hat and accessories and a corsage bouquet of gardenias.

The reception was held at the residence of the bride's parents, where white and pale pink flowers were used as decorations. Later Mr. and Mrs. Draper left by car for the United States, the bride travelling in a frock of red and beige linen, under a linen duster, and wearing a black hat and a corsage bouquet of red carnations.

Among the out-of-town guests were Mr. and Mrs. A. Draper and Mrs. Gwen Dixon, of Toronto; Mrs. C. Thompson, Mr. and Mrs. Harry Joyce, Mr. C. H. Savage, Miss Barbara Hume and Mr. David Hume, of Montreal; Mr. and Mrs. Fred Hardy, of Harrison, Ont.

Edmonton Wedding of Interest in Brownsburg

Creeley - McClintock

The marriage of Ellen Marilla, daughter of the late Louis Edward McClintock and of Mrs. G. Charest, of Edmonton, Alberta, to Mr. William Frederick Greeley, son of Mr. and Mrs. Robert Greeley, of Brownsburg, took place on Saturday afternoon in St. James Church, Edmonton, the Rev. Father McAnnally officiating. The wedding music was played by Miss Shirley O'Connor, and Miss Kathy Gangle and Mrs. R. Lefebvre sang during the service. White gladioli and chrysanthemums were used as decorations in the church.

The bride, given away by her stepfather, Mr. George Charest, was in a gown of white lace and nylon tulle over satin. Her fingertip-length veil of tulle illusion was held by a seed pearl trimmed coronet, and she carried a spray of red Sweetheart roses and stephanotis over a white prayerbook.

Miss Cecelia McClintock, as maid of honor, and Miss Vivian McClintock, as bridesmaid, wore ballerina-length frocks of nylon marquisette over taffeta, the maid of honor being in rose, and the bridesmaid being in aquamarine. They carried Colonial bouquets with pink carnations, and wore wreaths of white flowers in their hair.

Mr. Donald Rooney acted as best man, and the ushers were Mr. James McCabe, and Mr. Ernest Maisonneuve.

Mrs. Charest, the bride's mother, wore a gown of powder blue taffeta and lace, with a white picture hat, and a corsage of pink roses.

The reception was held at the residence of the bride's parents, where gladioli and lilies were arranged on the bride's table.

Later, Mr. and Mrs. Greeley left for a trip to Quebec and Ontario, the bride travelling in a navy blue suit, with a red nylon blouse trimmed with white, a navy blue and white hat, navy accessories, and wearing a corsage bouquet of red roses, and a pearl necklace, the gift of the bridegroom.

The out-of-town guests included Mrs. McClintock, grandmother of the bride, of Vancouver, B.C.

Social and Personal

Mr. Angus Strong and Miss Elizabeth Strong spent last week vacationing at Portland, Old Orchard Beach, Boston and other points in the New England States.

~

ARUNDEL — Graham's Store.

Quebec Session Opens Nov. 14

"This Week at Quebec"

By Bernard Dufresne

Quebec, Sept. 14 (CP) — Quebec's 24th legislature will meet for its second session November 18, Premier Duplessis announced last week.

Among government bills which will be introduced at the opening of the session, he said, will be one providing for an expert study of the province's needs for convalescent hospitals.

Now that a basic hospital system has been established, he told his regular Friday press conference, it will become necessary to study closely the need for convalescent homes.

These homes would render special services and help improve crowded hospital conditions, he added.

The session, opened by the customary reading of the speech from the throne by Lieutenant-Governor Gaspard Fauteux, will be adjourned for the Christmas and New Year's holidays, and resumed in mid-January.

For the first time since 1949, the leader of the Quebec Liberal party will sit in the legislative assembly. Georges Lapalme, chosen Liberal chief in 1950, was elected in a by-election in Montreal-Outremont last July 9. He was defeated in the general election in 1952.

Since former Liberal Premier Godbout was defeated in 1948, George Marler, liberal member for Westmount-St. George, acted as house leader. He now will become the opposition's chief critic of government financial policy.

Two new members of the assembly, elected at by-elections during the summer, will move and second adoption of the speech from the throne. They are Clovis Gagnon, Union Nationale member for Matapedia, and Rosaire Chalifour, Union Nationale member for Portneuf.

Mr. Duplessis said all intended government measures will be introduced at the opening of the session. He urged sponsors of private bills to announce their intentions as soon as possible.

Present standing in the assembly is: Union Nationale, 68; Liberals, 23; Independent, one; vacant, none; total, 92.

NEIGHBORLY HELP

Calgary (CP) — Mr. and Mrs. Frank Matchett and their two children have moved into a new home built by neighbors. Their original home was burned while the father was in hospital and the others were away.

A Splendid Combination

"The New World Translation of the Christian Greek Scriptures" and the book 'What Has Religion Done for Mankind?" are a splendid combination for Bible students and those interested in the history of religion. The New World Translation, 800 pages, in modern English, sets forth in splendid fashion the sayings and doings of Christ and his disciples, which provide a basis for true worship. Complete with more than 27,000 cross references, copious footnotes, a valuable appendix, diagrams and maps, the translation may be had for only $1.50.

"What Has Religion Done for Mankind?" a book of 352 pages, sets forth the history of religion from its start down to the confusion of religion in modern times. It looks into the future and confidently predicts the re-establishment of one true religion in all the earth. A contribution of 50 cents will bring this book to your home. Write for both publications today — The Watch Tower, 40 Irwin Ave., Toronto 5, Ont.

1853 BELLES MARK TOWN CENTENNIAL FESTIVAL

—Central Press Canadian

Centennial celebrations of Barrie, Ont., include this bevy of beauties, all togged out by a local merchant in the dresses worn 100 years ago. Barrie Old Boys will convene from all over Canada and the U.S. on Aug. 1 to participate in the festivities.

DAIRYMAN PASSES

Port Arthur, Ont. (CP) — John Davis, once known as "the Dairy King of Thunder Bay", died aged 66. He had the first accredited herd of Purebred Jerseys in the district and for 14 consecutive years won the T. L. Kennedy trophy for the district's champion herd.

ROMANTIC MEMENTO

Niagara Falls, Ont. (CP) — Mr. and Mrs. Richard Seppala of Helsinki, Finland, wrote to the chamber of commerce here recently asking for one of the Niagara Falls honeymoon certificates. They were here last June but didn't hear about the certificates until they were on their way home.

The Most Rev. Albert Lemenager, Bishop-elect of Yarmouth, N.S., was consecrated August 31 in the largest wooden church in North America, St. Mary's, Digby County.

Public Notice on Town Water Supply

The Water Committee of Lachute Town Council hereby notify all users of Lachute Town water that the following by-law has been put into effect:

By-law 143, Article 13:
The Water Committee or the superintendent shall have the power to prohibit the use of water for fountains or/and hoses at any time found necessary.

Article 21:
Any person offending any provisions of the present by-law shall be liable for each and every infraction to a fine not exceeding twenty dollars ($20.00) and the costs of prosecution and in default of the immediate payment of said fines and costs, to an imprisonment in the common gaol for a period not exceeding thirty (30) days, the said imprisonment to cease upon payment of said fine and costs.

Girl Guides Offer Tribute of Service To Queen Elizabeth

London (CP) — One of the most moving gifts received by the Queen during her Coronation Year was that offered by more than 700,000 Girl Guides from all parts of the United Kingdom and most countries of the Commonwealth. It took the form of a special tribute of service.

Each guide unit kept a record of its service and a number of representative record cards were taken recently to Buckingham Palace for the Queen's inspection.

Guides everywhere did all kinds of jobs for other people as part of their tribute.

Three kennels for guide dogs for the blind have been endowed with more than £750 the girls earned and saved. Other contributions will endow beds for blind people who attend the principal training school and provide them with dogs. Poor children have been given a two-week holiday.

Varied Activities

Every lighthouse round the coast of Britain has been adopted by different Guide units. Gifts both in money and kind were sent to hospitals, settlements, children's homes and other organizations including the British Empire Leprosy Relief Association.

There were many notable tributes of service. One company adopted a blind baby and accepted responsibility for its future. Guides helped with housework and shopping for old people. Some old people's homes now have television sets bought entirely by Guides' earnings.

Other Guides have cleared waste spaces and planted gardens in towns and villages, made miniature gardens for invalids, sewn and knitted rugs, blankets and clothes for old people in Britain and also for lepers in overseas settlements.

FUNNY FISH

Louisebourg, N.S. (CP) — Fish dealers Herbie Hopkins and Billy Gallant found a "laughing fish" in their ice house. About 2½ feet long, the fish had jaws which curled into an enormous leer.

For Rent

FLAT — to let, 5 rooms, garage, large cellar, Hamford & Hammond Streets. — J. A. Tessier, tel. 449.

HOUSE — to let, 4 rooms, shower, hot-water tank. — Apply 510 Meikle; phone 851-M. -1p

HOUSE — water, electricity, 6 rooms, $25 a month, at Pointe au Chene, Que. — Phone 609, Lachute. -1p

Prize-Winners In Chatham School Fair

Boys and Girls, 8-10 Inclusive

Class 1. Bunch of Five Beets — 1 Cameron Rodger, 2 Jean Berry, 3 Richard Clark, 4 Lloyd Elder, 5 Kenneth Rodger, 6 Shirley Smith, 7 Grace Gordon, 8 Sandra Silverson.

Class 2. Bunch of Five Carrots — 1 Jean Berry, 2 Richard Clark, 3 Audrey Oswald, 4 Judy Hadley, 5 Lois Oswald, 6 Lloyd Elder, 7 Garry Cruise, 8 Doreen Leishman.

Class 3. Trace of Five Ears of Corn — 1 Doreen Leishman, 2 Garry Cruise, 3 Grace Gordon, 4 Lloyd Elder, 5 Nancy Graham, 6 Lois Oswald, 7 Linda Douglas, 8 Audrey Oswald.

Class 4. Five Green Cucumbers — 1 Audrey Oswald, 2 Pat Warwick, 3 Judy Hadley, 4 Garry Cruise, 5 Cameron Rodger, 6 Margaret Robertson, 7 Lois Oswald, 8 Lloyd Elder.

Class 5. Bunch of Five Onions — 1 Linda Douglas, 2 Thomas Dwyer, 3 Shirley Smith, 4 Lloyd Elder, 5 Grace Donaldson, 6 Audrey Oswald, 7 Pat Warwick, 8 Nancy Graham.

Class 6. Two Heads of Cabbage (Home Crop) — 1 Lois Oswald, 2 Audrey Oswald, 3 Lloyd Elder, 4 Nancy Graham, 5 Shirley Smith, 6 Garry Cruise, 7 Linda Douglas.

Class 7. Five Ripe Tomatoes (Home Crop) — 1 Audrey Oswald, 2 Pat Warwick, 3 Linda Douglas, 4 Richard Clark, 5 Kenneth Rodger, 6 Jean Berry, 7 Lloyd Elder, 8 Thomas Dwyer.

Class 8. One Pumpkin — 1 Grace Donaldson, 2 Richard Clark, 3 Lloyd Elder, 4 Audrey Oswald, 5 Lois Oswald, 6 George Armstrong, 7 Margaret Robertson, 8 Doreen Leishman.

Class 9. One Squash — 1 Richard Clark, 2 Grace Donaldson, 3 Margaret Robertson, 4 Marjorie Graham, 5 Audrey Oswald, 6 Linda Douglas, 7 Keith Scott, 8 Lloyd Elder.

Class 10. Bouquets of 12 stems of Petunias — 1 Lois Oswald, 2 Audrey Oswald, 3 Jean Berry, 4 Grace Gordon, 5 Grace Donaldson, 6 Nancy Graham, 7 Kenneth Rodger, 8 Lloyd Elder.

Class 11. Bouquet of 12 stems of Cosmos — 1 Jean Berry, 2 Lloyd Elder, 3 Grace Gordon, 4 Garry Cruise, 5 Linda Douglas, 6 Cameron Rodger, 7 Lois Oswald, 8 Audrey Oswald.

Class 12. Bouquet of 12 stems of Snapdragons — 1 Audrey Oswald, 2 Lois Oswald, 3 Cameron Rodger, 4 Thomas Dwyer, 5 Lloyd Elder, 6 Shirley Smith, 7 Margaret Dawson, 8 Garry Cruise.

Class 13. Bouquet of 12 stems of Asters — 1 Thomas Dwyer, 2 Linda Douglas, 3 Grace Donaldson.

Class 14. Mixed Bouquet of 12 stems from School Fair Seeds — 1 Cameron Rodger, 2 Lois Oswald, 3 Audrey Oswald, 4 Jean Berry, 5 Lloyd Elder, 6 Garry Cruise, 7 Linda Douglas, 8 Grace Donaldson.

Girls Only, 8-10 Years

Class 15. Health Chart — 1 Audrey Oswald, 2 Lois Oswald, 3 Grace Gordon, 4 Grace Donaldson, 5 Pat Warwick.

Class 16. Knitted Dish Cloth — 1 Margaret Dawson, 2 Lois Oswald, 3 Audrey Oswald.

Class 17. Chocolate Cake — 1 Doreen Leishman, 2 Nancy Graham, 3 Audrey Oswald, 4 Marjorie Graham, 5 Sandra Silverson, 6 Judy Hadley, 7 Lois Oswald, 8 Grace Gordon.

Class 18. Brown Sugar Candy — 1 Marjorie Graham, 2 Audrey Oswald, 3 Doreen Leishman, 4 Nancy Graham, 5 Grace Gordon, 6 Grace Donaldson, 7 Judy Hadley, 8 Lois Oswald.

Class 19. Oatmeal Cookies — 1 Grace Donaldson, 2 Grace Gordon, 3 Lois Oswald, 4 Doreen Leishman, 5 Judy Hadley, 6 Marjorie Graham, 7 Nancy Graham, 8 Linda Douglas.

Boys Only, 8-10 Years

Class 22. Wooden Door Stop — 1 Garry Cruise.

Class 23. Sheaf of Oats — 1 Lloyd Elder.

Class 24. 15 Pounds Threshed Oats — 1 Kenneth Rodger, 2 George Armstrong, 3 Richard Clark.

Class 25. 10 Potatoes in Basket — 1 Lloyd Elder.

Class 26. Sheaf 10 Stalks of Corn — 1 Kenneth Rodger.

Boys and Girls, 11-13 Inclusive

Class 27. Bunch of Five Beets — 1 Hugh Pollock, 2 Robert Nicoll, 3 Marjorie Hay, 4 Gail Dwyer, 5 Freddie Dixon Smith, 6 Ronald Clark, 7 Helen Black, 8 Ronnie Bain.

Class 28. Bunch of five Carrots — 1 Ronald Clark, 2 Robert Nicoll, 3 Eleanor Hay, 4 Marjorie Hay, 5 Hugh Pollock, 6 Ernest Morrison, 7 Glen Swall, 8 Ronnie Bain.

Class 29. Trace of Five Ears of Corn — 1 Hugh Pollock, 2 Grace Tomalty, 3 Claire Cruise, 4 Robert Nicoll, 5 Marjorie Hay, 6 Ronald Bain, 7 Brooke Copeland, 8 Carol Parker.

Class 30. Five Green Cucumbers — 1 Grant Rodgers, 2 Grace Tomalty, 3 Ronald Clark, 4 Ernest Morrison, 5 Kenneth Brown, 6 Claire Cruise, 7 Marjorie Hay, 8 Robert Nicoll.

Class 31. Bunch of Five Onions — 1 Kenneth Brown, 2 Gail Dwyer, 3 Carol Parker, 4 Marjorie Hay, 5 Hugh Pollock, 6 Ruby Morin, 7 Ronnie Bain, 8 Robert Nicoll.

Class 32. Two Heads of Cabbage (Home Crop) — 1 Ruby Morin, 2 Kenneth Brown, 3 Freddie Dixon Smith, 4 Robert Nicoll, 5 Claire Cruise, 6 Ernest Morrison, 7 Grace Tomalty, 8 Helen Black.

Class 33. Five Ripe Tomatoes (Home Crop) — 1 Glen Swall, 2 Linda Silverson, 3 Marjorie Hay, 4 Helen Black, 5 Ronnie Bain, 6 Gail Dwyer, 7 Robert Nicoll, 8 Grant Rogers.

Class 34. One Pumpkin — 1 Grant Rogers, 2 Carol Parker, 3 Hugh Pollock, 4 Ronnie Bain, 5 Kenneth Brown, 6 Ernest Morrison, 7 Ruby Morin, 8 Ronald Clark.

Class 35. One Squash — 1 Hugh Pollock, 2 Grant Rogers, 3 Kenneth Brown, 4 Ronald Clark, 5 Robert Nicoll, 6 Marjorie Hay, 7 Freddie Dixon Smith, 8 Brooke Copeland.

Class 36. Bouquet of 12 stems of Petunias — 1 Hugh Pollock, 2 Grant Rogers, 3 Ruby Morin, 4 Robert Nicoll, 5 Carol Parker, 6 Ernest Morrison, 7 Linda Maslin, 8 Kenneth Brown.

Class 37. Bouquet of 12 stems of Cosmos — 1 Glen Swall, 2 Hugh Pollock, 3 Ruby Morin, 4 Ronald Clark, 5 Robert Nicoll, 6 Claire Cruise, 7 Linda Maslin, 8 Marjorie Hay.

Class 38. Bouquet of 12 stems of Snapdragons — 1 Grant Rogers, 2 Robert Nicoll, 3 Ruby Morin, 4 Gail Dwyer, 5 Brent Oswald, 6 Marjorie Hay, 7 Freddie Dixon Smith, 8 Dale McAdam.

Class 39. Bouquet of 12 stems of Asters — 1 Glen Swall, 2 Dale McAdam, 3 Marjorie Hay, 4 Linda Maslin, 5 Gail Dwyer, 6 Ruby Morin.

Class 40. Mixed Bouquet of 12 stems from School Fair Seed — 1 Glen Swall, 2 Hugh Pollock, 3 Robert Nicoll, 4 Ruby Morin, 5 Marjorie Hay, 6 Carol Parker, 7 Claire Cruise, 8 Gail Dwyer.

Girls Only, 11-13 Years

Class 41. Cotton Print Apron — 1 Eleanor Hay, 2 Katherine McGibbon, 3 Gail Dwyer, 4 Claire Cruise, 5 Carol Parker, 6 Grace Tomalty, 7 Linda Maslin.

Class 42. Embroidered Linen Tea Towel — 1 Eleanor Hay, 2 Linda Silverson, 3 Katherine McGibbon, 4 Linda Maslin, 5 Helen Black, 6 Ruby Morin, 7 Marjorie Hay, 8 Grace Tomalty.

Class 43. Chocolate Cake — 1 Katherine McGibbon, 2 Claire Cruise, 3 Grace Tomalty, 4 Linda Silverson, 5 Linda Maslin, 6 Gail Dwyer, 7 Eleanor Hay, 8 Helen Black.

Class 44. Brown Sugar Candy — 1 Eleanor Hay, 2 Gail Dwyer, 3 Marjorie Hay, 4 Helen Black, 5 Ruby Morin, 6 Linda Maslin, 7 Linda Silverson, 8 Grace Tomalty.

Class 45. Oatmeal Cookies — 1 Marjorie Hay, 2 Ruby Morin, 3 Carol Parker, 4 Claire Cruise, 5 Katherine McGibon, 6 Linda Silverson, 7 Grace Tomalty, 8 Eleanor Hay.

Class 46. Mail Box—1 Robert Nicoll, 2 Ronnie Bain.

Boys Only, 11-13 Years

Class 47. Chicken Feeder — 1 Robert Nicoll, 2 Hugh Pollock.

Class 48. Model Sail-Boat — 1 Robert Nicoll, 2 Ronnie Bain.

Class 50. 15 Pounds of Threshed Oats — 1 Brent Oswald, 2 Robert Nicoll, 3 Ronald Clark.

Class 51. 10 Potatoes in Basket — 1 Ronnie Bain, 2 Kenneth Brown, 3 Bruce Hay, 4 Hugh Pollock, 5 Robert Nicoll, 6 Glen Swall, 7 Grant Rogers, 8 Ernest Morrison.

Class 52. Sheaf of 10 stalks of Corn — 1 Brent Oswald, 2 Hugh Pollock.

Boys and Girls, 15 Years and Up

Class 53. Bunch of Five Beets — 1 Kenneth Pollock, 2 Jackie Gordon, 3 Jackie Leishman, 4 Campbell Stephens, 5 Bertha Pollock, 6 Lorna Clark, 7 Eileen Elder, 8 Jean Clark.

HIGHWAY GIANTS

There is one disturbing factor about our roads, and that is the matter of overloaded transports. No road can indefinitely stand up under traffic for which it was not intended, and if the blacktop starts to show signs of deterioration, new weight limits will have to be decreed and enforced.

— Grenfell (Sask.) Sun

Lachute TIGERS

By J. C. PETITCLERC

Play-Off Games To Date

St. Jerome at Ste. Therese (1st game) —

St. Jerome	302	300	050	13-13-3

Lachute Tigers' Night

Don't forget, win or lose . .
Don't forget, rain or shine . .
Don't forget, Thursday, 17th, at 9 p.m. . .
Don't forget to come!

It's Tigers' Night at the Auditorium, Lachute.

• • •

Play-Offs

Up to now, Tigers are getting the best of St. Jerome, but the championship is still far away. So come all to cheer the local boys, to the last play of the last game.

• • •

Accident — Fighting Spirit

Well, after Bud Kimball, 3rd baseman, Jerry Cotnoir had an accident at St. Jerome — but the Tigers are still fighting to a finish.

Jerry "Jerome" Cotnoir, capable manager of the Tigers, has shown the fans how much he has the team at heart, for last Friday at St. Jerome during practice time, Jerry was accidentally hit in the eye by a ball that knocked him cold, also gave him a very nice "shiner". Well, coming back, Jerry just shook his head, put up his mask, mitt, etc., and caught 9 innings, seeing the Tigers beat St. Jerome. After the game Jerry had the doctor fix him with four stitches, also telling him to "take it easy".

Well, Saturday night — with a shiner, a headache, bandages, etc. — Jerry was behind the plate giving his usual best performance. I personally think that Jerry deserves our applause, congratulations, etc., for his show. And if we do get the championship cup, all the credit should go to the man that has shown so much courage, catching, managing and playing, alike, all through the summer.

Also Bud Kimball, with a very sore shoulder, was back at 3rd base for the game in St. Jerome; he had two hits, and in Lachute had another one, helping the Tigers eliminate St. Jerome from the play-offs.

• • •

Player of Distinction

Mr. Frank McKercher from Calvert Distilleries, presented Claude "Tiger" Groulx with a beautiful trophy for being the player voted by the fans as the man most useful to his team, the Tigers, during ing the 1953 season.

Personally I think that, if a player ever deserved it, it is Claude Groulx, for his spirit in fielding, pitching, batting, etc., and all the while working in Montreal during the daytime. Sunday afternoon, being short of a pitcher, Claude asked Jerry to pitch, and won his game versus St. Jerome, making it 8-2.

Well, Tiger, let's hope to see you again next season in the same uniform, winning the Calvert Trophy twice in a row.

• • •

Home Runs

Sunday afternoon in St. Jerome, Ricciani hit his third homer of the season, and his timely homer brought victory to Lachute.

Here at Lachute Sunday night, Jerry Cotnoir scored the last point against St. Jerome by hitting a home run, some 350 feet from homeplate over the fence.

And to finish the semi-final in style, Hardy, S.S., Breard, 2nd B, and Paules, 1st B, made a very nice double-play.

• • •

Looking Back

Looking back over the schedule, here's how the Tigers stood at different dates during the season:

Date	P	W	L	%	Diff.
Manager — Pearson					
May 1	2	2	1	667	
June 1	4	9	9	500	5½
Manager — Herchok					
June 15	LAST	14	19	424	9½
Jerry Cotnoir takes over.					
July 3	6	15	22	405	12
Aug. 1	4	30	29	508	8
Aug. 29	2	47	33	588	1
Final	2	49	5	583	2

I think this record, with sickness, accident and what-not, suggests that Lachute fans should be proud of the showing, especially since July 3, when Jerry took over the management. July 3, 12 games behind, 405%; then 34 wins and 13 losses; 2 games behind, 724%, under Jerry.

Gagnon Club $1,576.00

The Gagnon Club had five prizes drawn again Sunday night, given by local merchants of Lachute, Lachute Mills, and Ayersville.

No. 20189. — Will the lucky fan with Gagnon Club ticket No. 20189 report to René (Rex Café) Gagnon with his ticket for the Grand Prize — either a suit or costume, given by a real Tigers suporter, Albert Malacket, Main Street, Lachute. The winner should report to Rex Café, 515 Main Street.

• • •

Fred Hoffman

At Sunday night's game Fred Hoffman asked Cotnoir if he could pitch the opening game vs Joliette, and have a taxi ready, for Fred had to take the midnight plane at Dorval. Jerry accepted Fred's offer, and I think it was real sportsmanship on Hoffman's part, just before entering University. He may be back in Lachute if the series against Joliette goes the limit. Well, Fred, thanks for the gesture, and one way or another, here's hoping to see you in the Tigers' uniform next season!

Field Day Event Held by Legion At Morin Heights

(Our District Correspondent)

Morin Heights — The Legion Field Day, held annually by the Morin Heights Branch 171 of the Canadian Legion, was attended by favorable weather. The children spent an enjoyable afternoon. Over 300 parents and youngsters were present to enjoy and take part in the sporting events, which took place on Ken and Eddie's spacious field. Ice cream and soft drinks were provided free to the children.

Race officials were Messrs. B. Bell, E. Holgate, P. Whalley and F. Muncey. The prizes were distributed by F/O E. Cott.

Following are winners of the events:

5-Mile Race — 1 Philip LaRose (31 min.).
1-Mile Race — 1 E. Clark (5.30 min.), 2 P. LaRose (5.40), 3 B. Neilson (5.48).
Boys and Girls, 3 years — 1 Ronda Boyd, 2 Keith Matthews, 3 Wayne Clark and K. Stewart.
Boys and Girls, 4 years — 1 Randy Boyd, 2 Verna Goodfellow, 3 Bradley Foote and Garry Baumel.
Girls, 5 years — 1 Donna Muncey, 2 Alice Gransow.
Boys, 5 years — 1 George Shapcott, 2 Regent Belisle.
Girls, 6 years — 1 Karen Matheson, 2 Judy Watchorn, 3 Phyllis Goodfellow.
Boys, 6 years — 1 Bobbie Morrison, 2 Stewart Muncey, 3 John Taylor.
Girls, 7 and 8 years — 1 Corinne Beaton, 2 Suzanne Muncey, 3 Evelyn Goodfellow.
Boys, 7 and 8 years — 1 Reggie Matheson, 2 Morrie Morrison, 3 Donald Wood.
Girls, 9 and 10 years — 1 Bonnie Gillingham, 2 Charon Atkins, 3 Collette Guenette.
Boys, 9 and 10 years — 1 Jimmie Marsden, 2 Frank Matheson, 3 Joe Seale.
Girls, 11 and 12 years — 1 Sandra Seale, 2 Beverly Wood, 3 Valerie Clark.
Boys, 11 and 12 years — 1 Murphy Shapcott, 2 Grant Wood, 3 John Matheson.
Girls, 13 and 14 years — 1 Susan Clark, 2 Barbara Delves.
Boys, 13 and 14 years — 1 Tony Sugden, 2 Michel Millard, 3 Douglas Wall.
Girls, 15 and 16 years — 1 Margaret Ireland, 2 Betty Baldwin.

CURRENT SHOWS AND ENTERTAINMENT

School Days Are Here Again

These two pre-school youngsters are quite happy that school days are here again. Their favorite program, "Kindergarten of the Air", returns to the air-lanes September 14, and is heard each week day morning on the CBC's Trans-Canada network. Even the dog seems interested. As in other years, "teachers" Dorothy Jane Goulding and Ruth Johnson take turns conducting the broadcasts.

MOVIE MEN BRING THEIR OWN TREES

Jasper, Alta. — Fifty pine trees arrived here recently by fast freight for use in the movie "The Far Country", which is being made in Jasper National Park. Some of the scenes being filmed at the glacier at the base of Mount Edith Cavell called for pine trees, which are conspicuous by their absence in this particular spot. As park regulations prohibit the cutting of any of the Jasper National Park trees the movie people had some sent from their Hollywood studio.

A beard fad has hit the "Hollywood for the Canadian Rockies" hard. Ever since Jimmie Stewart, complete with a week's home grown stubble, reached Jasper Park Lodge with Ruth Roman and Corinne Calvert to work on the Yukon technicolor thriller, the "beard" has caught on. Players in the picture have to wear natural beards to portray their roles as 1898 sourdoughs, and so the streets of Jasper village and even the lounges of swank Jasper Park Lodge are filled with bearded gentry of the films and local citizens "getting in on the act."

YOUNG EXPERT

Medicine Hat, Alta. (CP) — Three-year-old Everett Krohn of Medicine Hat, with some assistance, landed one of the biggest fish of the season at Elkwater Lake provincial park. He hauled in a pike weighing four pounds 12 ounces, measuring 28½ inches.

FIREMEN HELP

Berwick, N.S. (CP) — Firemen came to the rescue when power failed at a fruit cannery here, shutting off water being pumped to cool cans of peas. The firemen pumped water into the cooling system, saving an estimated 5,000 cans.

Open New Automatic Weather Service Unit

Montreal — High ranking RCAF and Department of Transport officers inaugurated the world's first fully automatic facsimile transmission service here recently.

Air Marshal C. R. Slemon, C.B., C.B.E., C.D., pressed the button that started recording machines from coast to coast. Lionel Chevrier, Minister of Transport, placed the first chart on the transmitting drum.

The "weatherfax" system is designed to provide faster, more economical means of getting weather information to air force stations. With a master chart transmitted over the network showing the weather picture from the Aleutians to Iceland, meteorologists at the air force stations will be freed of much of their present map making and devote more time to an intensive study of conditions over the operating area.

To connect the various forecast offices and air force stations across Canada, Canadian National and Canadian Pacific Telegraphs, owners of the facsimile equipment have set up over 5,000 miles of specially designed telephone circuits over which the recorders and transmitter will operate.

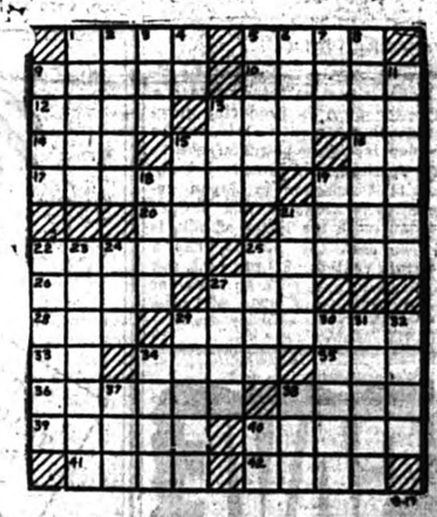

Regina (CP) — A young hawk, about six weeks old and unable to fly, was discovered in a Regina beer parlor. The SPCA, to which it was turned over, said the bird likely was found on the highway by some person who abandoned it in the beer parlor.

CNE Sideshow Recalls Swimming Epic

SPORTS CAMERA

By Don Peacock,
Canadian Press Staff Writer

Toronto (CP) — It was as hot on the midway at the Canadian National Exhibition last week as anywhere else, perhaps hotter. All the familiar sights and sounds were there, but there was something else, not so familiar. It was the name on the billboards in front of one of the midway shows: George Young.

Inside that particular tent George was swimming in a tank of water. In the water he looked as smooth as ever — the same machine-like crawl, the flutter kick imitated by so many young swimmers.

But otherwise you'd hardly know George anymore. He's put on quite a bit of weight and he's not so young. More than anything, he seems to be lonely.

George didn't always swim in side-shows. This was the first time, in fact. But he's swum before.

Catalina Epic

Take in 1926, the year the gum man, William Wrigley, Jr., of Chicago, offered an award for a Catalina channel swim. George won it. He rode his second-hand motorcycle all the way from Toronto to California to swim that channel.

Everybody knew who George was then. The next year when Wrigley sponsored the first marathon swim at the CNE, the name of George Young as an entry attracted one of the biggest crowds in the Toronto fair's history. But George lost.

That first marathon was 21 miles. The frigid water paralyzed George and many others The Black Shark of Germany, Ernst Vierkoetter, was the winner.

Later, when the marathon was shortened to 10 miles, George tried again and won. He easily defeated all competitors in other matches over a shorter distance. Each year George being in the Ex swim meant huge crowds.

Then George went to the United States. But before he left, he probably took more kicking around than any other sports competitor. Others could fail to finish swims in icy waters and not be criticized, but not George.

During the last 15 years, he has worked in railway shops in Philadelphia. But a few weeks ago, he came back to Canada with his wife's body. She was buried in Niagara Falls. She had died after a lingering illness.

George told a Toronto reporter that his wife's death ended the only really happy years he had known.

He could have returned to the Philadelphia railway shops after the funeral, but then this chance to swim in the side-show came along. He took it to cover expenses while he decided on his future. Maybe, he said, he'd stay in Canada.

"If things work out, I'll become a Canadian again", he said. "Swim? Heck, no. Why, I hadn't had a pair of trunks on in five years when I joined this show. Not any more."

Picking Out Their Christmas Trees

It's months until Christmas but experienced serviceman stationed in the Yukon already are picking out their Christmas trees.

There's method in their madness.

With the Yuletide season the Yukon is wrapped in a cloak of darkness through much of the day. It's not easy, therefore to find a suitable tree Christmas Eve in the dense bush.

The idea, one soldier pointed out, is to find a good tree now, while there's still daylight. This is usually at a spot along the Army's Northwest Highway System outside of town and near the edge of the road. You keep your eye on the tree each time you pass until you know exactly where it is almost without looking.

Then, on Christmas Eve you drive to the spot, swing the lights of the car round so that they light up the area and — "chop chop" you've got your tree.

That is, of course, if someone hasn't been watching the same tree and got there first.

Plan Details For County Blood Clinic

(Continued from page 1)

fury to get their equipment set up, get the blood, take the equipment down, load it and leave for the next scheduled centre so they can start all over again.

The response from Brownsburg and district being so great, the committee decided that an extra day in that town would be in order, so Mr. Poitras made the necessary arrangements to come to Brownsburg on September 29.

Two plans for canvassing the town have been worked out by Syd Seary and his committee; they are in brief, with C-I-L and without C-I-L, depending on whether C-I-L remain with the Royal Victoria Hospital or switch to the Red Cross. The committee plans to canvass the town house-to-house. This has been done with some success in previous campaigns of a financial nature, and from these much has been learned that will help with the appeal for blood.

The St. Andrews East representatives, Miss B. M. Hadrill, R.N., and Mr. Labreche, Chamber of Commerce representative, informed the committee of their plans and were assurred of any assistance that might be necessary in this smaller, more residental community.

Keith Clarke, representative of Legion Branch 70, assured the Red Cross of the Legion's co-operation and stated that, if the community as a whole could obtain blood free of charge through the Red Cross, the Legion would not hold a blood clinic as originally planned.

Gérard Lefebvre, Lachute Chamber of Commerce president, informed the gathering of various methods he has in mind to assist the coming clinic.

An appeal is being launched for cars to bring the donors to the Auditorium and take them home after they have given blood. (If readers have cars available for any length of time on the days of the clinic, please contact Horace Lamarche, Lachute.)

The Mobile Unit is capable of handling from 50 to 60 donors an hour, and it is absoluetly necessary that this number of people are there to keep things rolling, and blood flowing, to make the Argenteuil campaign a success.

Everyone will receive a card, either through the mail or through their employer, and it is hoped that these cards will be filled out and returned so the committee will have some concrete idea of the number of people to expect, and when to expect them.

The Argenteuil clinics are to be held in Brownsburg on September 29, in Lachute on September 30 and October 1. . . Let's make it Lachute vs. Brownsburg FOR ARGENTEUIL, and in that manners, make sure we get results that count!

Quick Canadian Quiz

1—What is, and where would you find, a beluga?

2—Of Canada's 164,000 immigrants in 1952, how many were children, women, men?

3—Canada's largest manufacturing employer, the primary textiles industry, makes what products?

4—Are there more passenger cars or more freight cars in use in Canadian railroads?

5—Name the largest cities in Alberts, Nova Scotia, Saskatchewan, New Brunswick.

ANSWERS: 5—Edmonton, Alta.; Halifax, N.S.; Regina, Sask.; Saint John, N.B. 3—Primary textile mills produce fibres, yarns and fabrics of wool, cotton, rayon and nylon; they make all types of hosiery and knitted goods; they do dyeing and finishing. 1—A beluga is the white whale, found in Hudson Bay. 4—6,000 pasenger cars, 180,000 freight cars. 2—45,000 children under 18, 53,000 women, 66,000 men.

Corn In Season

Long before Columbus discovered America, corn was a favorite dish in the Western hemisphere. That corn was quite different from the corn we know, however, it was a colorful vegetable with red, yellow, blue and white kernels and it had neither the tenderness nor the sweet flavor of our corn. The corn season is on now and homemakers are shopping for sweet Golden Cross Bantam, for it is the variety they find most often in the stores. Golden Bantam and Golden Rocket are two other sweet corns frequently found on the market.

When shopping for corn, try to buy corn that is fresh and that has been kept in a cool place. Corn to be at its best should be picked, bought and used all in one day. Only buy what you can use quickly, actually just enough for one meal. In selecting the ears at the store, the home economists at Ottawa suggest that you pick out those with fresh-looking, lively golden husks and dark brown silk. Each ear should be filled with plump, tender, milky kernels. Always store corn in a cool place until it is ready for use. Just before cooking, remove the husks, then the silk — a stiff brush does this job very well — and wash the cobs quickly.

When cooking corn, the pressure saucepan will cook it in a hurry — just 3 minutes at 15 pounds pressure. You can also boil corn in a kettle and if this is the way the family likes it, place the corn in boiling salted water to cover, and boil until the kernels are tender, about 8-10 minutes. No matter which way you cook corn on the cob, be sure to remove the steaming ears from the saucepan just as soon as they are tender and serve them immediately.

On cool, bleak winter days when the family needs bright, fresh-colored vegetables to tempt their appetites, can you imagine a more welcome vegetable than sunshine yellow corn? If you have a locker or a home freezer, you can have it — and very easily too for the whole corn freezes very well. Unfortunately the results for corn on the cob are not always very good. There is a tendency for corn on the cob to develop off flavors during storage, so that it is not always palatable when frozen. However, many people have great success with corn on the cob and the directions from the home economists of the Consumer Section, Canada Department of Agriculture, are as follows — select ears with rounded kernels, milky juice and sweet flavor being sure to avoid cobs with hard and immature kernels. Remove the husks and silk, wash in cool water and blanch 11 minutes for large ears, 9 minutes for medium ears and 7 minutes for small ears. After the corn is blanched, cool quickly in ice water and drain thoroughly. Wrap each cob in moisture-vapour-proof paper, sealing or tying the ends securely. Whole kernel corn is prepared in very much the same way. It is important to choose good quality corn but the cobs should be blanched only 3 minutes. After blanching and cooling, the kernels can be cut from the cob and packed dry into freezer containers.

Cool September days and wonderful golden corn go well together. The home economists say that at least once while corn is in season the family will want to have an old-fashioned corn roast. Actually, corn roasting is an old Indian custom and they still put their corn in the husks right on the hot coals to roast. Today, we prefer to give the corn a more modern treatment. After husking and removing the silk, you spread the corn with butter, sprinkle it with salt and pepper and wrap each ear securely in aluminum foil. This can be done early in the morning and the foil wrapped corn placed in the refrigerator until roasting time. When the time comes for the corn roast, place the foil wrapped ears on the outdoor grill. It will take about 20 minutes to roast and the corn should be turned at least once. If you do not have an outdoor grill, you can still have a corn roast by following the same procedure — that is, putting butter over the corn, wrapping it in foil — but you roast it in the oven of your stove until it is tender. No matter which way you prepare it, roasted corn will be a treat for the family.

Pickle Recipes

Dutch Relish

2 Cups chopped or ground green tomatoes, 2 cups chopped or ground peeled cucumbers, 1 sweet red pepper, chopped or ground, 1 green pepper, chopped or ground, 1 large head celery with leaves, chopped or ground, 2 cups chopped or ground onions, 3 tablespoons salt, boiling water to cover, 3 cups cider vinegar, 4 tablespoons dry mustard, 1¼ teaspoons turmeric, 1⅔ cups sugar, ⅓ cup flour, ½ cup cold water.

Combine first six ingredients. Add salt and stir well. Add boiling water to just cover. Allow to stand 30 minutes. Pour into a sieve or cheesecloth bag and drain thoroughly. Cover with the vinegar and bring mixture to a boil. Meanwhile combine mustard, turmeric, sugar and flour and blend to a smooth paste with the water. Add to the vegetable mixture, mix well and bring to a boil. Boil 2 to 3 minutes. Pour into hot, sterilized sealers, and seal. Yield: about 10 cups.

Pickled Whole Beets

40-50 Small beets (1" to 1½" in diameter), 4 cups cider or blended vinegar, 1½ cups water, 1 cup sugar, 1½ teaspoons salt, 3 tablespoons mixed whole pickling spice (tied in cheesecloth bag).

Select small beets. Leave 2 inches of stem and all of roots on beets and cook until tender. Dip in cold water and remove skins. Pack in sterilized sealers. Boil vinegar, water, sugar, salt and spices together for 5 minutes. Remove spice bag. Pour over beets to completely cover them. Seal and store in a cool, dry place. Yield: about 4 pints.

Note: Do not use more than 1 small red chili pepper in the spice mixture when making up this amount.

Pickled Onions

2 Quarts small white onions, 8 cups hot water, ½ cup salt, 4 cups white vinegar, 1 cup white sugar, 1 stick cinnamon.

Cover onions with boiling water, let stand 2 to 3 minutes, drain, cover with cold water and peel. Make a brine of the water and salt. Pour over onions and let stand overnight. Drain, rinse thoroughly with cold water and drain again. Heat vinegar, sugar and cinnamon to boiling point, boil 5 minutes and remove cinnamon. Add onions and bring just to the boiling point. Pack immediately into sealers, filling with boiling syrup. Seal. Yield: 2 quarts.

Note: If a more spicy flavor is desired, one chili pepper may be added to the above recipe, removing the pepper with the cinnamon.

In place of the cinnamon and chili pepper, 2 tablespoons of mixed pickling spice may be used. Tie these loosely in a small fine cheesecloth bag, boil with vinegar and sugar and remove before pouring the syrup over the onions.

CANADIAN FASHIONS SAID BEST DEAL

Marie Moreau, fashion editor of the Vancouver Province, writes: "Canadian women are getting a better deal in fashion right now than are women in any other country of the world including the U.S., as far as what their money will buy is concerned."

Steak Tastes Scrumptious — With Peppers

"GOOD as all get out!" That's how the comments fly when you serve the plates with Pepper Steak.

Take a piece of beef and you have something precious anyway. Then when you cook it in this mouth-watering way, you come out with a dish that's plain irresistible. The zippy topping combines generous strips of green pepper, savory tomato soup, thin slices of sharp lemon, onion, and garlic. Cooked all together, it's a glorious tasting mixture.

You can take your choice of cuts of beef for the dish — either round or flank steak or another less tender piece. If using flank, be sure to score it well by cutting across the long fibers with a sharp knife. As meat cooks, you can quickly prepare the rest of this meal: Buttery mashed potatoes, tossed mixed greens for salad, fresh apples and grapes for dessert.

Pepper Steak

1 pound round or flank steak (1½ inch thick)
¼ cup flour
½ teaspoon salt
¼ teaspoon pepper
1 large green pepper, cut in 8 strips
1 medium onion, sliced
¼ cup shortening
1 clove garlic, minced
1 can (1¼ cups) condensed tomato soup
½ cup water
½ teaspoon salt
1 tablespoon lemon juice
4 thin slices lemon

Sprinkle steak with flour and seasonings; pound until thin. Cut into 4 serving pieces. Cook pepper, onion and garlic in hot fat; remove from skillet. Brown steak. Add cooked onion, pepper and garlic; blend in remaining ingredients, placing slice of lemon on each piece of steak. Cover. Simmer 1 hour or until tender. 4 servings.

SOUP SCOOPS

Pack Beans for Picnic: Getting toward the end of the picnic season, you want to make the last outings the best yet. Beans 'n pork and hot dogs will be welcome, you know. Heat the beans in a big skillet over the campfire while the crowd toasts franks on sticks. First brown chopped onion and green pepper in hot shortening in skillet. Use 1 large onion and green pepper. Then stir in 2 cans of beans. Heat till bubbly, and flavor is blended. Pile onto paper plates, alongside toasted franks, pickles and crisp celery. Later pass a basket of doughnuts and apples.

Onion Soup Like a Chef's: For onion soup that's grand as a chef's, use this simple recipe based on condensed bouillon. First cook 1 cup thinly sliced onion until limp in 2 tablespoons butter in saucepan. Add 1 can condensed bouillon and 1 soup can water. Simmer gently for 30 minutes. Serve topped with toasted slices of French bread, sprinkled with grated Parmesan cheese.

Fashions

Medium gray yarn-dyed worsted is used for an excellent suit good for all but really warm weather wear and a nice number under fur coat or jacket on cold days. Covered ball buttons close the fitted bodice and there are two curved tabs with jeweled buttons, one at the neck below the small, rolled collar, the other below the waist holding down the peplum. The skirt is slim and straight.

TEXTILE INDUSTRY USES LOT OF SOAP

The housewife who grumbles over the size of the weekly wash should find some consolation in the fact that Canada's primary textile industry each year scours to the extent of using some 5,000,000 pounds of soap.

While complete figures are not kept for soap consumption among the country's more than 700 mills there are many processes during which fibres and fabrics require washing, and there are some facts available.

For instance, in one year woollen textile mills used nearly 2,000,000 pounds of soap, dyeing and finishing plants went through more than 1,225,000 pounds, the knit goods industry bought 744,278 pounds and hosiery producers another 335,750 pounds.

Husbands! Wives! Want new Pep and Vim?

Successful Frosting Makes the Cake

By Jane Ashley

The wonderful aroma of a home-made spice cake puts the family in a state of pleasant anticipation. But seeing the cake covered with a luscious frosting puts the sparkle in the eye. The first step is making the Spice Layer Cake. The corn syrup gives the cake good keeping qualities, if you are lucky enough to have any left for the second day.

Spice Layer Cake

2 Cups sifted cake flour, 2 teaspoons baking powder, 1 teaspoon salt, 1 teaspoon cinnamon, ½ teaspoon nutmeg, ¼ teaspoon cloves, ¼ teaspoon allspice, ½ cup sugar, 1 cup dark corn syrup, ⅔ cup milk, ⅓ cup butter or margarine, 2 eggs, unbeaten.

Have all ingredients at room temperature. Measure dry ingredients into sifter. Combine corn syrup and milk. Place butter in a bowl and stir with spoon to soften. Sift dry ingredients over butter. Add unbeaten eggs and half of syrup-milk mixture. Mix to combine all ingredients, then beat until thoroughly blended, about one minute. Add remaining liquid and beat again until blended, about 2 minutes. Turn batter into 2 greased and floured 8-inch layer pans. Bake in moderate oven (375°F.) 25 minutes. Cool and frost.

Choose from these two frostings. For a marshmallow type, we suggest the following recipe.

7-Minute Frosting

2 Egg whites, ½ cup dark corn syrup, ½ cup brown sugar, ¼ teaspoon salt, 1 teaspoon vanilla.

Place egg whites, corn syrup, sugar and salt in top of double boiler. Beat with rotary beater until partially mixed. Place over rapidly boiling water and cook, beating constantly with rotary beater until frosting stands in peaks, about 3 to 4 minutes. Remove from heat and continue beating about 1 minute longer. Add flavoring, beating in well. Makes enough to cover top and sides of two 8 or 9-inch layers.

When you want a chocolate frosting use this excellent butter-cream type frosting with a new twist. The addition of corn syrup gives it rich, creamy smoothness and good keeping qualities.

Black Beauty Frosting

¼ Cup butter or margarine, ¼ cup dark corn syrup, ¼ tsp. salt, ½ teaspoon vanilla, ½ cup cocoa, 3½ cups (1 pound) sifted confectioners' sugar, 1 to 2 tablespoons milk.

Cream butter. Add corn syrup, salt and vanilla; blend. Add cocoa; mixing well. Add confectioners' sugar alternately with the milk, beating until smooth and creamy after each addition. Additional milk may be added, if necessary, to make a good spreading consistency. Makes enough to cover tops and sides of two 8-inch layers of cake.

Snow Queen Frosting: Follow recipe for Black Beauty Frosting. Use light corn syrup. Omit cocoa. Increase vanilla to 1 teaspoon.

Country Women on CBC Broadcasts

Beginning Monday, October 12, Trans-Canada Matinee will broadcast a series about countrywomen in many parts of the world. The talks, given by women of different countries, will deal with life among their farmwomen.

The speakers taking part are all members of the Associated Country Women of the World, the only international organization of rural women in the world. The seventh triennial conference of the A.C.W.W. was held recently in Toronto, with nearly one thousand delegates and visitors from fifteen countries in attendance.

Speakers will deal with living conditions in areas as far apart as Ceylon and Canada, and the last two programs in the series will present excerpts from two of the prize-wining essays on "The Rural Home". This was a world-wide competition held by the A.C.W.W. and the first prize was won by Mrs. Laura Penttinen, of Finland. Mrs. Leigh DeLong of Queen's County, Nova Scotia, was also among the prize winners, so the series will wind up with a talk on the interests and activities of a Canadian farm woman.

Trans-Canada Matinee is heard at 2.15 p.m. EDT.

COOKING SCHOOL RETURNS TO AIRWAVES

One of the CBC's most popular daytime programs comes back on the air September 14 on Trans-Canada Matinee with the return of Cooking School of the Air. Eustella Langdon will again bring her knowledge of the art of cooking to the microphone, and the series is scheduled to get off to a start with expert advice on how to produce the best in Apple Charlottes. As in the past, recipe clip sheets will again be sent out to listeners who write in for them.

Trans-Canada Matinee is heard at 2.15 p.m. EDT.

POWDERED SILK FROM JAPAN

Under a new patented process, a Japanese firm is producing powdered silk, which, it is said, can be blended into face powders, creams and lipsticks, the Canadian Commercial Counsellor in Japan reports. The atomized silk powder is white with the lustre of silk, is 90 per cent silk protein, has a moisture content of 9 per cent, ash 0.5 per cent and, with an apparent specific gravity of 0.204, will pass a 250-300 mesh.

Laughter in Your Home

— By NANCY CLEAVER — (Copyright)

It is a genuine gift to be able to amuse other people — really amuse and not bore them! There is a saying in the Koran: "He deserves Paradise who makes his companions laugh". When a youngster gets to the stage when he wants to occasionally tell a funny story to the family, Dad and Mother should be willing to "lend an ear!" There is nothing so annoying as the parent who is too busy to listen, or too serious to appreciate humor.

Real humorists are born, not made, but anyone can cultivate the attitude of not taking themselves too seriously and laughing at minor set-backs instead of moaning over them. It is impossible to continue to be tense and anxious and to laugh whole-heartedly too — and laughter often restores one's perspective. Years ago Horace said: "Mingle a little folly with your wisdom" and in a similar strain La Rochefoucauld made this observation, "Who lives without folly is not as wise as he thinks."

The nonsense in many Mother Goose rhymes appeals to children. What else can account for the popularity of Edwin Lear's "The Owl and the Pussy Cat went to sea in a beautiful Pea-Green Boat?"

A sense of humor is an individual thing and different families react quite differently to the same comic situation. But there can be no question of the value of laughter and fun in the home. Think over the last month — has laughter echoed often in your household? — or is life such a serious business that fun and nonsense are completely crowded out? If that is so, it is a great pity. "I wonder", boasted Charles Kingsley in a letter to his wife, "I wonder if there is as much laughter in any home in England as in ours?"

David McCord once pointed out that humor was a very special and excellent kind of art and should be appreciated for the rare stuff it was. Parents in their eagerness to do a good job in bringing up their children sometimes forget the importance of laughter in family life. It is a bond between the members of the household. A laugh often dissolves tension and misunderstanding. Stephen Leacock, the prince of Canadian humorists, whose Nonsense Novels and other books are such fun to read aloud, once made this observation, "Humor springs best from happiness; a jail is no place for it."

Every child goes through a scrap book stage and a Family Book of Jokes and Cartoons is fascinating to compile. It is also a very nice sort of book to loan to a friend who is convalescing.

Making up silly limericks is a pastime which has provided laughter for countless people. Some families have great fun indulging in this indoor sport. There is a delightful Pocket Book of Humorous Verse with a number of anonymous limericks which conclude with this one:

"There was an old person of Leeds,
And simple indeed were his needs.
Said he: "To save toil,
Growing things in the soil,
I'll just eat the packet of seeds!"

Thackery once said that people who do not know how to laugh are always pompous and self-conceited. Possibly that is one reason so often the affected, self-important individual is shown up in a humorous story.

Today's parents, many of them, realize that they do not have to pretend to be perfect in their child's eyes. They can even laugh at their own mistakes! The children in a family are fortunate indeed if either mother or dad can pass on to them the willingness to look for the funny side in an unexpected mishap instead of bemoaning their bad luck, or blaming someone else.

Attractive Souvenirs Of Coronation Year

The Watchman publishers have a number of Coronation spoons for any who would care to own these attractive souvenirs. Purchased to fill requests following our subscription premium dates — these teaspoons are now on sale, at practically cost price, 50 cents each, or six for $2.50. Readers may order by mail or call.

BIG WINNER

North Battleford, Sask. (CP) — Something of a record was set at the local agricultural society fair by Mrs. S. W. Drul. She entered 80 exhibits and won prize money for 73. She had 43 firsts, 20 seconds and 10 thirds.

Laziness, in moderation of course, is a worthwhile art that many of us need to regain so that we may renew the vigor of our minds and bodies to meet the pressure of the energetic times in which we live.

DISTRICT NEWS FROM OUR COUNTY CORRESPONDENTS

Avoca

Mrs. David R. Bates visited many of her relatives and friends last Wednesday. Mrs. Bates (who has spent the summer with her daughter, Mrs. Gill, in Grenville, and sons, James and Hugh) returned to her home in Boston, accompanied by her son, James and Mrs. Bates, also her granddaughter, Margaret, all of whom spent the week-end in Boston.

Mr. and Mrs. A. McPhee spent the week-end in Aylmer, Que., visiting their daughter, Mrs. Wm. H. Kelly, also their granddaughter Kathleen, who underwent a serious operation last week, and is now making good progress towards recovery.

Mrs. Neil McCallum is spending a few days in Lachute.

Mrs. George McArthur left for Montreal on Sunday. Mr. McArthur leaves shortly for Montreal; their friends will greatly miss them in this community.

Mrs. Thos. J. Young, of Grenville, was the guest of her brother Allan and Mrs. McPhee, last Wednesday.

Mr. Charles Bates attended the funeral of his uncle, the Rev. Charles Duncan, in Grimsby, Ont., last week.

Messrs. Everett Arthurs and Jonathan Bates spent the holiday in Port Colborne, Ont.

Messrs. Cecil and Gordon Young visited their respective families over the holiday.

Sympathy is extended from this community to Mrs. E. Lemieux and family, in the loss of their husband and father.

Mrs. Stark, of Verdun, visited her mother, Mrs. James Arthurs, last week. Mrs. Arthurs, who celebrated her 91st birthday on Sunday, is still enjoying excellent health.

Mrs. R. Stringer, who is in her 95th year, has been in very good health until recently.

Miss Joyce Bates, of Montreal, who has been on a visit to her parents, left to spend a holiday with her brothers in Eganville, Ont.

Mr. Emmett Nixon, of Montreal, spent the week-end at his home here.

Mr. and Mrs. P. Borden, Mr. and Mrs. Noel Cormier, of Montreal, spent the week-end with Mr. and Mrs. Ed Andrews.

Mr. and Mrs. James Waite, of Vankleek Hill, and Mrs. Wm. MacLean, of Pointe-au-Chene, called on Mr. and Mrs. Ed Andrews on Sunday.

Mrs. Everett Young is a patient in Dr. E. P. Kelly's Hospital at Hawkesbury.

Weir

Mr. and Mrs. R. Philips and family, of Brockville, were recent guests at Mr. and Mrs. W. H. Williams'.

Week-end guests at the home of Mr. and Mrs. W. D. Morrison included Mr. and Mrs. B. Morrison and family, Mr. and Mrs. Royce Morrison and family, Miss M. Stone and Mrs. Glen Morrison, all of Montreal.

Mrs. E. J. Craig returned home Wednesday after spending a fortnight with Mrs. Carl Craig in Val d'Or.

Mrs. M. Waters, with her daughters Carolyn and Bonnie, left for their home in Akron on Wednesday, after spending the summer here.

Mrs. R. B. Owen arrived last week from Montreal to spend some time at the home of her son, Billy and Mrs. Owen.

Miss E. Adams, of Montreal, spent the week-end as the guest of Mr. and Mrs. W. H. Williams.

Mr. and Mrs. R. A. Craig, with their son John, of Valois, spent the week-end at Mr. and Mrs. E. J. Craig's.

Mr. and Mrs. O. Purcell, of New Liskeard, accompanied by LAC. Harold Bailey, of Chatham, N.B., called on Mr. and Mrs. E. J. Craig on Sunday.

Mr. and Mrs. Geo. Clifton, of Montreal, accompanied by Mrs. Robt. Williams, visited friends here over the week-end.

Mr. and Mrs. Geo. Cleland, of Dalesville, accompanied by Mrs. L. Hyde and sons, of Cornwall, visited friends here on Sunday.

Mrs. Gordon Beaven, with her son Ralph, spent a few days last week visiting friends in Montreal and Mascouche.

Week-end guests at Mr. and Mrs. Victor Courte's included Mr. and Mrs. Arthur Loudin and daughter, Claudette, Mr. and Mrs. E. Tremblay and Mr. Leo. Ladouceur, all of Montreal.

Mr. and Mrs. A. Pennington, of Montreal, spent the week-end as guests at Mr. and Mrs. Wm. Owen's.

KIDNEY ACIDS Rob your Rest..

Many people never seem to get a good night's rest. They turn and toss—blame it on 'nerves'—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well get and use Dodd's Kidney Pills. Dodd's help the kidneys so that you can rest better—and feel better. 136

Dodd's Kidney Pills

Cushing West

Mr. and Mrs. W. Fitchett and son, Bert, of Montreal, were guests of Capt. and Mrs. T. W. Weir on Sunday.

Mr. and Mrs. Ken Hartley were guests of Mr. and Mrs. R. D. Hartley for the holiday week-end.

Mr. and Mrs. A. Stalker and family, also Mr. and Mrs. R. Casement and family, returned to the city on Monday after spending the summer months at their cottages.

Mrs. Robson, who has been the guest of Mrs. Wm. Usher for a few weeks, accompanied her son, Mr. R. Robson, to Montreal on Labour Day.

Mr. and Mrs. J. Birch and daughter, Linda, of Montreal, and Miss Marilyn Miller, of Detroit, were guests of the Rev. and Mrs. R. Watson last week.

Mr. and Mrs. T. C. R. Walsh, of Sackville, N.B., spent the holiday week-end as guests of Mr. and Mrs. F. Peel. Miss Stella Robertson, of Toronto, is spending a few weeks with Mr. and Mrs. Peel.

Miss Ella Prindiville, of Toronto, spent the week-end as the guest of her aunt, Mrs. E. M. Mattinson.

Miss Isabel Abraham, of Montreal, spent the week-end as the guest of Miss Edna Young at "The Bungalow".

Miss Ann Russell, of Ottawa, was the guest of Mr. and Mrs. Cal Edgerton for the week-end.

Mr. and Mrs. Lorne Prior, of Montreal, spent the week-end as guests of Mr. and Mrs. Walter Prior at "Shangri La".

Mr. and Mrs. A. Talbot and family, of Montreal, entertained a party of friends at the rivershore for the week-end.

Mrs. C. Guillen and family returned to the city after spending their holidays at the Wegg cottage.

Since the end of World War II the textile industry has bought $805 million worth of new machinery and equipment.

Mille Isles

Harvest Thanksgiving

The annual Harvest Thanksgiving service held at Christ Church, Mille Isles, on Sunday evening was one of the best attended services for many years, and the church was attractively decorated with fruits, vegetables and flowers for the occasion.

The rector, the Rev. Horace G. Baugh, officiated, and Mrs. Norman Patterson was organist.

Cushing

Mr. and Mrs. Geo. Drew, of Verdun, were Labour Day week-end guests of Mr. and Mrs. W. H. Canning.

Mrs. D. W. Candlish, of Shawville, will spend the greater part of this month as the guest of Mrs. Archie Graham.

Mrs. L. J. Maw and family, of Montreal, occupied "Lilac Lodge" for the week-end.

Mr. W. H. Godwin occupied "Glenelen" for the week-end, having as his guests Mr. and Mrs. Gibeau and daughter, Carol, who recently arrived from Ireland.

Mr. and Mrs. J. C. Dougall, of Cote St. Luc, were guests of Mr. and Mrs. Archie Graham for the holiday week-end. Their little son, Graham, who has been spending the summer with his grandparents, returned home with them.

Mr. and Mrs. Roy Dobbie returned Saturday evening from their vacation trip in Ontario.

Mrs. A. J. Scott, Miss Joan Pollock and Mr. A. Hammond were guests of Mr. and Mrs. A. Graham on Labour Day.

Mr. and Mrs. F. Pitt and son, Danny, of Montreal, occupied their summer home over the week-end.

Miss Annie and Mr. Jack McDowell, of Montreal, occupied "Glenifer" during the week.

The Misses Jeannine and Lilian Leclair and brother, Lionel, also the Misses Susanne Raymond, of Montreal, and Patsie Menard, of Lachute, motored to Toronto to attend the C.N.E., and remained over the long week-end.

Mr. and Mrs. C. Hooper and son, Kenneth, of Ville LaSalle, spent the long week-end with Mr. and Mrs. J. Coney, of "Stonehaven".

Messrs. Joe Dawson and Stan Gouldson, of Outremont, arrived Saturday and remained until Monday evening. Mr. L. Martin and children, Carol and Bryan, of Montreal, were Sunday guests.

Mr. Peter Chapman, who is residing with his grandparents, Mr. and Mrs. S. R. Coates, of Verdun, accompanied them to Cushing for the long week-end and they were guests of Mr. and Mrs. W. A. Chapman at "Hill Top Cottage".

St. Mungo's Church Sunday School picnic was held on Mrs. W. Y. King's lawn on Friday afternoon, with races and games for the children; a very enjoyable time was experienced by both young and old.

Mr. and Mrs. L. R. McGain, Mr. and Mrs. J. Brown, also Mr. and Mrs. Hollingsworth and children, of Montreal, were week-enders at the McGain cottage.

Mr. and Mrs. Hooper, Sr. and Jr., occupied "Cedar Ridge"; Mr. and Mrs. G. Cushing and daughter, Sherrie, were at "Millside"; and Mr. R. Coghill was at "The Mill" for the week-end.

Mr. and Mrs. A. A. Campbell, also Miss Doris and Masters Douglas and Bobbie Leblanc, who have spent the summer in Cushing, have now moved to Toledo, Ont.

Mr. Keith Pitcairn, of Montreal, visited his mother, Mrs. W. J. Pitcairn, last week. Dr. and Mrs. W. A. Pitcairn, of Como, Que., and Mr. and Mrs. Dawson, were her guests on Sunday.

Miss M. E. Rodger, of Montreal, spent last week with Mr. and Mrs. D. A. Rodger, Lachute Road.

Mr. and Mrs. Ernie Woods and little daughter, of Dickenson's Landing, Ont., visited friends here on Sunday.

Mrs. Bertha Wilde, who has spent the summer here, returned to Montreal on Monday.

Mr. and Mrs. Jack Muir, of Montreal, spent the week-end with Mr. John Muir.

Miss Ruth Wallerstein, of Madison, Wis., arrived by plane from France on Wednesday, and is spending a week with the Misses Wales en route to the West.

Mrs. Pearse, who spent the summer with Miss Mary Lamb, returned to the city on Sunday.

Mr. and Mrs. F. Rejall spent the week-end at their home here.

Miss Shirley O'Brien, of Carillon, spent the week-end at 16 Island Lake.

Mr. and Mrs. A. Lemieux and family have returned to their home in Winnipeg after spending a week's holiday with their parents, Mr. and Mrs. Buchanan Robertson.

Grenville

Mr. and Mrs. W. Harkness and daughters, Diana and Sheila, closed their cottage on Monday and returned to their home in Lachine. They had as their guest for the holiday week-end Mr. Richard Kemp, of Montreal.

Mr. and Mrs. Garth Dawson and two children, of Montreal, were Labour Day guests of Mr. and Mrs. Roy Dawson.

Mr. and Mrs. Walter Dewar and daughter, Caroline, of Brownsburg, were Sunday guests of Mr. and Mrs. Stanley Dewar.

Mr. and Mrs. Douglas Scharf and two children, of Ottawa, were holiday guests of Mrs. G. C. Conway.

Mr. Hartland Dewar left this week and will visit with Mr. and Mrs. R. W. Loise, of Westmount, before going on to Pointe-aux-Trembles, where he will be attending school this year.

Mrs. Walter Bigelow and sons, Wayne and Keven, of Val Barrette, Que., are visiting with Mr. and Mrs. Corl Gauley.

Northern Grenville

Miss Hilda McCart, accompanied by Miss Barbara Murphy, of Montreal, spent the week-end at her home here. . . Mrs. Bernard McCart, Misses Anne and Hilda McCart and Barbara Murphy, spent Sunday with Mr. and Mrs. E. Lowe at Lachute.

Week-end visitors at Mr. and Mrs. Adelard Dinelle's were their daughter and son-in-law, Mr. and Mrs. Rosario Bellefeuille and family, of Lachute, and their son and daughter-in-law, Mr. and Mrs. Rosario Dinelle and family, of Stonefield.

Mr. and Mrs. Louis Boyer and son, Brent, of Hawkesbury, visited Mr. and Mrs. Fred Cousins on Labour Day. Mr. Howard Cousins, of Ottawa, also spent the holiday week-end at his home.

Miss Lucy Boyd visited Mr. and Mrs. Roy Brown in Ottawa recently.

Mr. and Mrs. Davis Shaw and daughter, Ethel, of Presque Isle, Maine, spent a few days with Mr. and Mrs. Wyman Young and Mr. Asa Young.

Mr. Asa Young and Willis Young wish to thank all those who have called to see them following their recent auto accident. The former, who was quite badly hurt, is now recovering favorably.

91 Years Old

Friends are sorry to hear that Mrs. Richard Stringer, of Avoca, who will be 91 years old on September 16, is at present on the sick list.

Sunday visitors at Misses Mary and Ethel Keys' were Mr. and Mrs. Harrison Cross, of Vankleek Hill.

Hawkesbury Hospital Gets $26,000 Grant

Notre Dame Hospital in Hawkesbury was one of the hospitals named this week by Ontario Health Minister Mackinnon Phillips to be recipient of grants totalling $109,000.

Notre Dame Hospital is to receive $26,000 for 23 active treatment beds, one labor bed and six nursery cubicles.

Q.W.I. Technician Leaves for Japan, With Can. Red Cross

Miss Ida R. Bruneau, Handicraft Technician for the Quebec Women's Institutes, left this week for Japan. On a year's leave of absence from the Q.W.I., Miss Bruneau has accepted a position with the Canadian Red Cross, under the Department of National Defence, and will be engaged in occupational therapy with the Canadian troops stationed in that country.

Miss Nellie Hasel, Assiniboia, Sask., a graduate of the Handicraft Department, Macdonald College, has been secured to take her place with the Q.W.I. for the year. This means there will be no lapse in the schedule of courses in crafts for local Institutes, as arranged by Miss Bruneau for the balance of this year.

Applications for courses in 1954 should be sent in as usual before the first of December of this year. A revised Program Manual is now being compiled by the Q.W.I. office and will be distributed to all Institutes shortly, together with application forms. Promptness is essential in returning these forms.

When chewing gum is imbedded in clothing or tramped into a carpet, rub it with a piece of ice and scrape it off. If a stain remains, sponge with carbon tetrachloride.

It has been estimated that canvas awnings can reduce room temperatures as much as 14 degrees. Due to the deteriorating effects of sunlight and outdoor exposure, these awnings usually have to be resewn after three or four years. Because "Orlon" acrylic fibre is highly resistant to degradation by sunlight and exposure, awnings are now being sewn with thread spun from this fibre.

School Reports Puzzle Parents

Victoria (CP) — Parents who have complained that they cannot understand British Columbia school report cards have been promised that interpretation will accompany the cards in future.

Education Minister Tilly Rolston said notes with the cards will tell parents how to unscramble the "hieroglyphics" and to learn how their children are doing.

"Present report cards are confusing", she said. Education officials have shied away from giving set marks for grades because they do not believe in pinning labels — such as "dumb" — on children. The present system grades a child's progress according to his native ability and environment.

Mrs. Rolston said that in the next year she hopes to revise the curriculum to strike a balance between liberal and practical education in the province.

Mimi James, of Westview, B.C., was awakened in the night by pounding and noises downstairs; husband Art went down burglar-bent, and discovered it was a headless fish he had put in the 'frig, a ling-cod; it had splattered blood all over the other food in the 'frig.

Maritime Command Busy RCAF Group

Chalks Up Notable Record In Variety of Operations

Halifax (CP) — As one of Canada's first lines of defence, planes of the RCAF's Maritime Command have probably taken part in more operations than any other group in the country. They've also squeezed in hundreds of hours searching for missing aircraft.

The first unit was formed at Greenwood, N.S. in 1949 and given the task of training crews in anti-submarine work. Graduates from this course became the nucleus of 405 "Eagle" Squadron, the first post-war coastal squadron to be formed in Canada.

It has since been joined at Greenwood by 404 "Buffalo" Squadron and another coastal unit, 407, has been formed at Comox, B.C.

Most of the pilots are wartime-trained, says the air force, while co-pilots have mostly all joined up since the end of the war.

This year the command is trying out a system of squadron training that is new in the RCAF. It is designed to place responsibility for training directly on the individual by providing him with a syllabus of what his course covers.

Go Far Afield

Maritime squadrons have taken part in exercises from Resolute Bay in the Arctic to Florida and from Vancouver to St. Eval, England.

The first mission by 405 Squadron involved flying reconnaissance patrols for United States navy ships engaged in a joint Canada-U.S. supply operation in the Arctic archipelago.

In June, 1951 "Eagle" Squadron flew out of St. Eval during a three-week NATO anti-submarine operation in British waters. It had hardly returned to its home base when it was sent to the Arctic for another supply operation.

During 1952 the two Greenwood-based units took part in six anti-submarine exercises. During one three-week exercise they logged more than 1,200 flying hours flying out of Key West, Fla.

Last October's Exercise Emigrant found Air Comm. A. D. Ross of Winnipeg, chief of the command, directing British, American and Canadian aircraft off eastern Canada. Squadrons 404 and 405 were credited with three "kills" of undersea craft.

Using long-range Lancaster bombers, Maritime Command fliers have also chalked up hundreds of hours hunting for lost planes. Two Lancasters crashed during these searches, killing 15 airmen.

SOLUTION TO CROSS-WORD PUZZLE (Page 7)

NEW TRANSPORT CAN DO OTTAWA-B.C. FLIGHT IN 4½ HOURS

—Central Press Canadian

Sqdn.-Ldr. Stuart Olsen, pilot of the RCAF's record-shattering Comet jet transport, is greeted by Hon. Brooke Claxton, minister of national defence, at Uplands airport after the historic transatlantic flight. The $1,200,000 British-built plane made the trip from London to Ottawa in 10 hours and 20 minutes — believed to be the fastest transatlantic crossing any transport plane has made. Capable of speeds of 450 miles an hour, the 50-ton plane can make the flight from Vancouver to Ottawa in four and a half hours. Pilot Olsen told officials the transatlantic flight was just like riding in a car.

Labor Strikes – Nobody Gains, Everybody Loses

By Lewis Milligan

"Two Big Unions Agree to End French Strike". So ran a headline on the front page of my morning paper, and I read that the "unions early today ordered members to return to work in France's paralyzed postal, telegraph and telephone services.

"Sixteen days ago the big unions ordered the walkout and it spread rapidly until more than four million Frenchmen had left their jobs and snarled the country's daily life and tourist business. Public transport was halted, communication interrupted, gas and electricity services drastically cut and the highly profitable tourist industry disrupted."

The foregoing is an extreme example of the effect of labor strikes. The nearest to it in Canada was the railway strike of about two years ago. The Dominion's regular transportation and communication systems were suspended when one big labor union ordered its members to walk off their jobs. Fortunately for the nation as a whole, most strikes have immediately affected only local communities.

Mut the total economy of a country is dependent upon the economic condition of the various industrial communities, because they are all inter-related. When a union orders the suspension of a local industry, the partial paralysis begins to spread more or less through the body politic.

The miners' strike in Northern Ontario and Quebec is no local affair. The stoppage in the production of gold and other industrially important metals has not only impoverished the people of the local communities. The nation as a whole is the poorer. It has so much less gold to back its currency and less copper to supply its industries and export trade. People unconcerned in the strike are put out of employment and money is lost by investors in the mines and related industries.

All of which simple facts go to show that nobody gains and everybody loses by labor strikes. Labor leaders may gain "union security" in their jobs by the "check-off" and and the closed shop, but whatever gains their members may obtain by wage increases are offset by subsequent rise in prices and inflation.

But what struck me chiefly in reading the report of the strike in France was the enormous power wielded by the two big unions. First we are told that the "unions ordered members to return to work in France's paralyzed postal, telegraph and telephone systems.".

That reads like a gracious and generous act on the part of the union leaders, and the four million French who obeyed the order were doubtless grateful for the permission to go back to work and earn a living for their families. That was all to the good, but if the French people generally felt like expressing their heart-felt thanks to the big labor unions for their kindness, they must have hesitated at the remembrance that it was the same big fellows who in the first place ordered the walkout which paralyzed the public services of the country.

The possession of such power to command the immediate obedience of four million Frenchmen to work or not to work — that is the thing to wonder at in a country whose motto is "Liberty and Fraternity". Like the Roman centurion of old, the labor leader today can claim: "I am a man under authority, and I can say to this man, Go, and he goeth; and to another, Come, and he cometh; and to my servant, Do this, and he doeth it." The issuance of an order to strike is just as simple and easy as that.

In a letter to the Hamilton Spectator, a striking truck driver's wife with three small children wrote: "I think this strike is the silliest thing I ever heard of, and so is their union. The big shots tells you to go on strike, so you do. . . Don't tell me they are men, because as far as I'm concerned, they are the meekest mice I have ever heard of — including my husband."

NIGHT TRAFFIC COURT SUCCESS IN MONTREAL

Montreal (CP) — An experiment into handling of traffic violations in Montreal has been termed a "distinct success".

Since its inception eight months ago the Montreal Night Traffic Court has handled more than 15,000 cases and the number of persons appearing nightly on charges of traffic violation had increased from an average 75 in January to 125 in July.

All traffic offenders are given the choice of appearing at morning, afternoon or evening sessions of the traffic court. . . More people now appear during night sittings than at the morning and afternoon sittings combined.

Have You A Question ON UNEMPLOYMENT INSURANCE OR EMPLOYMENT?

In this column we publish questions about unemployment insurance and employment, together with answers received from the Unemployment Insurance Commission.

If you are uncertain about any point do not hesitate to send your question to your district Unemployment Insurance office. We will obtain an answer and publish it in this column.

Q. Why do you deduct ⅓ of the number of benefit days in the past three years in determining duration of benefit?

A. In determining the duration of a claim contributions for the previous five years are counted. Some contributions are therefore counted again and again so that without the deduction of one-third of the benefit taken in the previous three years, the recurring claimant would be getting an undue advantage.

• • •

Q. What is the basis of establishing the single ratio of benefit and the dependency rate of benefit?

A. It must be remembered that this is a social insurance scheme. The fact that a person with a dependent has to maintain that dependent is recognized in the higher rate.

Saskatoon (CP) — After a hailstorm, district farmer Jim Busby reported hail stones the size of pigeon eggs were piled a foot deep against his farm fences.

FLOOD RECOVERY IN NETHERLANDS

Approximately 90 per cent of the more than 370 thousand acres of land flooded in southwestern Holland five months ago is dry again. Of the 67 major dike breaks, only four remain to be filled. The most difficult problem is that of the flooded Island of Schouwen-Duiveland, which is not expected to be dry this year. However, it is hoped that the breaches in the dike can be closed by September.

Meet Cpl. Henry T. Bowen*
Driver-Mechanic of the Infantry
*Army trained, Corporal Henry Bowen's job as a Driver-Mechanic has allowed him to see a great deal of Canada. He has also served in England and the Far East. Proud father of three children, Corporal Bowen and his wife both agree on the many advantages of Army service.

Get Expert training in Automotive Trades
Young men interested in mechanics can learn skills in automotive trades when they serve with the Soldier-Tradesmen of the Infantry. Expert instructors give complete training in modern schools and with most advanced methods and equipment available.

Men like Cpl. Henry Bowen know how important their jobs in the Army are to Canada's safety. In the Army, they also know that they are building good sound futures for themselves. For soldier-tradesmen like Cpl. Bowen enjoy many advantages in our modern Canadian Army: excellent pay, financial security through long term service pensions, the best medical and dental care—outstanding chances for promotion. There are challenges and the job is a big and important one to all Canada.

You are eligible if you are 17 to 40 years of age, (skilled tradesmen to 45), and able to meet Army test requirements. Applicants should bring birth certificates or other proof of age when applying for interview.

Apply right away: Write or visit the Army Recruiting Centre nearest your home.

Greatest power range in Mercury Truck history!
5 GREAT V-8 ENGINES 106 Hp. to 155 Hp.
Completely NEW
MERCURY TRUCKS

"DRIVER ENGINEERED" CABS

MAKE DRIVERS' JOBS EASIER
Mercury "Driver-engineered" Cabs are "built-around-the-driver". There's new roominess, new comfort and new visibility. New cab suspension cushions bumps to prolong cab life. New "cockpit" cluster of big instruments and 18 new features make the driver's job easier, safer, more efficient. New exterior design—smart new interiors.

THERE'S A MERCURY TRUCK POWERED TO SAVE MONEY AND EARN MORE ON YOUR JOB
Mercury Trucks are powered to do your hauling economically and stand-up on the job. FIVE-thrifty V-8 engines—each is teamed with proven Loadomatic Economy. Synchro-silent transmissions are "standard", provide smooth easy operation year after year. New durable axles—new axle ratios "tailor" truck to your job. This great power range makes it easy to choose the Mercury Truck built with the "just right" power combination for *your* business.
Mercury Trucks offer completely new truck design and many dollar-saving features. Here's the greatest line of Mercury Trucks ever built—8 series—17 wheelbases—over 100 models from 4,000 to 27,000 lbs. G.V.W. and up to 55,000 lbs. G.C.W. Ask your Mercury Dealer about the Mercury Truck that's powered to save money and earn more on *your* jobs.

120 Hp. V-8 ENGINE—Canada's Heavy-Duty "Champ"—has big power reserves that handle tough truck assignments while saving gas. Has a piston displacement of 255 cubic inches.
SYNCHRO-SILENT TRANSMISSIONS ON ALL MODELS—at no extra cost—Steering column gearshift is "standard" with all three-speed transmissions. Automatic Transmission or Overdrive available on Series M-100 at extra cost.

Mayor L. Chantal of Calumet, Warden Appointed at County Council Session

Quarterly Meeting Held in Lachute, September 9; Report Shows Court House Net Valuation $82,713

The regular quarterly meeting of the Argenteuil County Council was held in the Court House at Lachute on the afternoon of September 9. The following were present: Warden Charles Campbell (Mayor of Morin), Mayors A. Kyle (Gore), A. Davidson (Mille Isles), C. Neil, (Wentworth), Bazil Clark (pro-Mayor, Chatham), R. McRae (Harrington), R. B. Morrison (Arundel), E. Bellefleur (St. Adolphe), J. Donaldson (Brownsburg), S. Cavanagh (Grenville), L. Chantal (Calumet), G. Laurier (Huberdeau), W. M. Cottingham, M.L.A. (St. Jerusalem), and the secretary, E. M. Jones. The meeting was opened under the chairmanship of the County Warden, Chas. Campbell.

It was moved by Councillor McRae, seconded by Councillor Kyle, that the minutes of the last meeting be accepted as read.

The following approximate figures covering the value of the Court House, Lachute, were prepared for the Council by J. Daigneault, adjuster, of the firm of Andrew Hamilton (Montreal) Limited. The report, dated September 3, 1953, gave the replacement cost as $118,161.60 and a depreciation of 30%, making the sound value $82,713.12. This includes the main building, the front and Sanitary Department extensions, and the vault.

After some discussion, it was moved by Councillor Cottingham, seconded by Councillor Chantal, that the secretary-treasurer be instructed to increase the fire insurance to a minimum of $70,000, slightly over 80% of the sound value; that the secretary-treasurer endeavor to get an 80% co-insurance rate, if possible, and that the Council insure their rentals to include an approximate figure for the Court Room and the Registry Office with attached vault.

Councillor Laurier, seconded by Councillor Cavanagh, moved that Councillor Chantal, Mayor of the Village of Calumet, be appointed Warden for the ensuing year. Councillor Laurier, seconded by Councillor Cottingham, moved that a vote of thanks be extended the retiring warden, Chas. Campbell, for the efficient manner in which he had served during his two-year term of office.

It was moved by Councillor Cottingham, seconded by Councillor Cavanagh, that Warden Chantal, Councillors Campbell and Laurier, and the secretary-treasurer, E. M. Jones, represent Argenteuil County at the Quebec Union of County Councils conference to be held October 12 and 13 at Rivière du Loup. Councillors A. Dawson, E. Bellefleur and R. B. Morrison were appointed substitutes. The secretary-treasurer was instructed to send a cheque of $40 covering annual fees to the Union of County Councils.

Councillors G. E. Arnold and R. B. Morrison were appointed delegates for the coming year, while Councillors R. B. Morrison, A. Kyle, E. Bellefleur and G. E. Arnold were appointed to the revising committee for the in-coming year.

It was moved by Councillor Laurier, seconded by Councillor Dawson, that a letter of thanks be sent to Mr. A. G. Munich for all the services he had rendered to the County Council while he was a member and to express the Council's regrets that he no longer was a member of this body.

The circular letter received from the Executive Board of the Union of County Councils was considered as read, since each of the members had received a copy. The letter was in connection with a memorandum to the Commission of Inquiry on Constitutional Problems, concerning relations between Federal and Provincial governments in the field of taxation. After some discussion, it was moved by Councillor Campbell, seconded by Councillor Morrison, that due to shortage of time to discuss the question, and inexperience in distribution of taxes, it was felt this question should be left with the delegates to enter into the discussion at the Union of County Councils.

Accounts to the total of $378.51 were passed for payment.

There being no further business, the meeting was adjourned.

Automobiles today contain more light bulbs than the average five-room home according to a recent booklet, "Automobile Facts" put out by the Automobile Manufacturers Association. Current models have an average of 20 lights and some makes as many of 38, compared with five or six lights in the car of 25 years ago.

Grocery stores won't open their doors until noon and will stay open until 9.00 p.m. in another four years, said Mrs. Marie Kiefer, secretary manager of the National Association of Retail Grocers. Another trend noted is that home deliveries are on the way out — due to grocery shopping with the family car. — Marketing

New Catholic Girls' School For Ayersville

Work Under Way for Modern $275,000 Two-Storey Structure

Work commenced recently on the construction of a new Catholic girls' school in Ayersville. Main entrance of the building will be on Hammond Street, and the school will occupy an entire block bounded by four thoroughfares near the baseball stadium.

This imposing building will provide accommodation for 390 or 400 pupils in 16 classrooms and a household economics department.

Direction will be under the Grey Nuns (Soeurs de la Croix, Ottawa), who also operate the present Immaculate Conception School in the same parish. The parish, which started with 70 pupils, now has 400 school-age children.

Details of the new building include stucco finish, oil-heating and fire-proof construction. The two-storey school will have a play-room, a sewing and crafts room, with an annex for occupancy of the resident staff — the overall cost to approximate $275,000. Plans were prepared by Maurice Champagne, architect, and Lucien St. Jacques is the general contractor. Without unforeseen delays, it is expected the school will be ready to accommodate its first pupils by next spring, when it is hoped to have four of the classrooms in readiness. The entire job will take about a year and a half.

The Ayersville school commission comprises the Rev. Léo Clément, parish priest (chairman), William Wilks, John Deschamps, Philippe Joly and Georges Rochon, with Edouard Lavoie as secretary.

Members Hear Talk On International Rotary Convention

Rotarian Herb Hewittson, of Montreal, was the guest speaker at last week's meeting of the Brownsburg Rotary Club. Mr. Hewittson, who is the secretary of the Montreal club, gave a very interesting description of his trip to the International Convention of Rotary, held in Paris during May of this year.

About 600 of the 5,000 delegates to the convention sailed together from New York on the Cunard liner "Mauretania". They were met by special trains in LeHavre and immediately whisked off to Paris. Mr. Hewittson specially commended the very efficient way in which the convention was handled by the French staff of clerks in charge of registration and accommodation arrangements.

Eleven main resolutions were presented at the general meetings. Of these five came from India, and though they received very eloquent support from their sponsors, they were all deferred or rejected, as it was the opinion of most delegates that the constitution of Rotary would not recognize the class segregation so common in India as being consistent with the general principles of the organization.

An annual expenditure of $300,000 by Rotary Foundation was approved by the convention, thus indicating the intention of the organization to carry on with its program of public service.

Special guests of the club were Keith Clark and Keith Hickson, of Lachute, and Irvine Bolsted, of Marelan.

STRANGE DISAPPEARANCE

Standard, Alta. (CP) — Police are baffled over the disappearance of Lorne E. Armstrong, local grain buyer missing since April 4. Leaving his company books in perfect order, Armstrong vanished after chatting with a local barber. His car was later discovered a few miles from Calgary.

Bogus Cheques Circulating Here

Warning to local merchants on the passing of worthless cheques, is issued by Police Chief Donat Villeneuve. Several complaints have latterly been received by the police department from victims of this practice. Business men are advised to be sure of the identity of anyone tendering a cheque, and if in doubt, to consult the local police without delay.

With the co-operation of merchants, business men and bankers, it is hoped to curb this evil before others in the locality are victimized.

Morin Hts. Legion Acquires Disused School Building

(Our District Correspondent)

Morin Heights — Following a special meeting of the Roman Catholic school board here to consider tenders for the purchase of their disused school situated on Lot 37 in Range III, Morin Heights, together with the land — the Canadian Legion Branch 171 tender, for $2,000, was accepted by unanimous vote of the commissioners. This purchase is now posted for the necessary 30 days' notice, as required by law, then the deeds should be passed. This means that Morin Heights Legion has acquired a home of its own, which has been the ambition of the members for the past few years. The schoo! building will require minor repairs and alterations to meet the Legion's requirements, and to this end a financial campaign will start immediately for further funds to cover all eventualities.

Maitland, Mrs. Sid Seary, Mrs. R. Summers and Mrs. F. Brunelle.

Weather Frowns on Lions Club District Annual Golf Tourney

Charity Drawing Won By Resident of Greenfield Park

A number of local Lions and golf fans saw a star attraction last week-end when Paul Hahn, of Ormond Beach, Florida, celebrated trick-shot artist, gave his show at the Lions C.P.G.A. of Quebec Golf Tournament at the LaSalle Golf Club. Hahn did more tricks with a golf ball than the late Harry Houdini could do with a rabbit.

Top-prize winner at the drawing on Sunday — climaxing a ticket-sales campaign for Lions charities to which many local suporters contributed — was Doug Munro, of 57 Greenfield Avenue, Greenfield Park. Mr. Munro was the happy winner of a 1953 Chevrolet car.

Paul Hahn, travelling pro and showman, is a wizard of the golf links with a million dollar personality and an equal golfing talent. He gave an amazing show with the woods and irons and spiced his performance with a running commentary of quips and jokes. Perhaps the most spectacular of Hahn's 30 trick shots was the "William Tell" shot in which he drove a ball more than 200 yards down the fairway from a tee held in the lips of an assistant lying prone on the ground. So hazardous is the William Tell shot that Hahn has to check everything carefully, even the dirt under his cleats, to see that nothing changes his height even a fraction of an inch.

In other shots, Hahn drove the pellet far down the fairway while seated, left-handed, blindfolded, from tees up to three feet high. He used a swivel-shafted driver, a rubber hose having the head of a driver tied on it, and varied the performance by clouting four balls at once, then driving the balls with clubs in both hands at the same time. His equipment was housed in the world's largest golf bag that contained an assortment of sticks, golfing hats and gloves of various shapes, sizes and colors and a broom and dust pan (for the sandtraps), a plunger (for the water holes) and a special mallet-headed club for playing in rocky areas.

The former tournament pro preceded his trick show exhibition with a serious golf clinic. "Good golf is easy golf", he told the crowd, and then proceeded to prove it by sailing many tee shots up to 300 yards down the fairway.

Bill Kerr Winner

Playing in sub-par fashion, Bill Kerr, the Beaconsfield pro, walked off with major honors in the annual Lions' 54-hole tournament, when he posted an aggregate of 212, four under par for the distance.

Kerr finished out in front all by himself, his nearest rival, Diamond Gauthier, of Municipal, winding up in the runner-up slot four strokes back of the winner with 216.

The new champion had rounds of 70-72-70 against a par of 72. The competition started Saturday with two 18-hole rounds and ended Sunday with a single round, in frigid, rainy weather.

Jules Huot, Laval-sur-le-Lac, took third place with 218, a single stroke in advance of Jack Kay, Mount Bruno, and diminutive Johnny Hendrick of Gatineau.

Stan Horne, defending champion, from Islemere, who underwent an operation early in the spring, finished with 223.

Senior Champion

Redvers Mackenzie, of Elm Ridge, won the seniors' title with Jimmy Patton, from Seigniory Club, as runner-up. Ben Kerr, of Ottawa, was third in this division, followed by Frank Grant, Country Club, and Jimmy Anderson.

PLEASANT SCENE

Stettler, Alta. (CP) — A local store had the right idea during a recent chilly spell on the prairies. Displayed in the show window was a fine collection of flowers from Hawaii.

Poultry Building at Macdonald College Damaged by Fire

Macdonald College authorities said Monday that fire of unknown origin destroyed the east wing of the poultry building during the early morning of September 13.

The fire was discovered at 2.15 a.m. and, with the quick turn-out of the college fire department, aided by students and staff members, was confined to one section of the building.

Destroyed in the blaze was a considerable amount of experimental equipment, as well as a small quantity of feed and other supplies. The loss of stock was smaller than it would have been had the fire occurred during the winter, when the hens are kept indoors.

On the Livestock Front

Exhibitors Win Many Honors at Ste. Scholastique

A tractor driving contest, a large parade of cattle, and all types of agricultural and livestock honors were competed for by 75 exhibitors at the Ste. Scholastique Exposition last week.

The Lachute district was well represented, with awards in the horse classes being divided between Gilbert Arnold, Belgians and Percherons, and A. T. Cleland, who showed Clydesdales and Agricultural horses.

W. Erksine Rodger copped the Junior and Reserve Junior Champion Ayrshire Bull, the Grand Champion Reserve Bull, the Junior, Reserve Junior, and Reserve Senior Champion Females, and the Reserve Grand Champion Female. Clifford Oswald, Ste. Scholastique, was awarded the Senior and Grand Champion Bull prizes. Paul St. Jacques, Lachute, and Albert Daoust, St. Hermas, were the only local winners in the Holstein breed.

Champion, Grand Champion, Senior and Junior bulls and female Jersey awards were divided between R. H. McElroy and Dr. G. R. McCall, both of Lachute. Dr. McCall took all honors in Aberdeen Angus.

Guernsey prizes were also divided among Lachute exhibitors, and Remi St. Jacques and J. Philippe St. Jacques walked away with all awards.

Kilwin Farm, Lachute, took all Beef Shorthorn awards.

Hogs were exhibited by Carson Tomalty, Brownsburg, Norman Leblanc, St. Philippe, and Victor Leduc, Ste. Scholastique. There was a large number of both local and distant poultry exhibitors.

Awards were presented to the owners of the best bred and best presented stable herds. Winners of these competitions were — 1 Dr. G. R. McCall (Jersey), 2 R. H. McElroy, 3 Dr. G. R. McCall (Aberdeen Angus), 4 Erskine Rodger, (Ayrshire), 5 Clifford Oswald, 6 Albert Daoust (Holstein), 7 Remi St. Jacques (Guernsey), and 8 F. H. Wilson, Ste. Lucie (Ayrshire).

Lachute Jersey Milker Leads R.O.P. Class

In the Jersey R.O.P. class leaders for August, the junior four-year-old leader was Glenmar Valiant Ember, owned by S. G. Patterson, manager of the annual Lachute Spring Fair. She leads with 10,734 pounds of milk and 52 pounds of fat.

Ten of the 17 divisions were headed by British Columbia Jerseys.

Committee All-Out to Pass Objective, 600 Donations at County Blood Clinic

Two weeks hence, a concerted effort on behalf of the Red Cross blood transfusion service will be reaching its climax, when the mobile clinic and technical staff — together with volunteer physicians, nurses and helpers from this locality — will be active at Brownsburg and in the Lachute Auditorium to receive donors and collect blood, to the anticipated quantity of 600 bottles.

A committee has been busily occupied in organizing for this county effort, and we reproduce in part a letter from the chairman, Horace Lamarche, addressed to prospective volunteers:

CONGRATULATIONS! YOU SAVED A LIFE!

(A Letter of Appreciation to Previous Blood Donors)

If it should happen that you suddenly witnessed a terrible accident or a drowning, when a friend or a child was calling for help, we know that without hesitation you would risk your own life to save another!

Immediately after, you would be known as a hero in your community. Your name and picture would appear in the local paper and you would become the talk of the town. Everyone you might meet would shake your hand and congratulate you for such a heroic gesture! . .

You probably have not had the opportunity of showing what you could do in such circumstances, but your past generous and charitable contribution as a blood donor to the Red Cross has also contributed to SAVE A LIFE! On behalf of the one who has benefitted by your great generosity without having the advantage of knowing you, we say THANK YOU and we offer you our most sincere congratulations!

The fact that you have consented to give blood to the Red Cross shows that you realize the importance of these voluntary blood clinics. If we could only impress upon you now, that the need for blood increases every day, and that all citizens in good health from 18 to 65 must contribute generously as blood donors, our objective could be surpassed.

The Red Cross Mobile Unit will be at Brownsburg Legion Hall on September 29, and at the Lachute Auditorium on September 30 - October 1. We hope that you will contribute this year again, so that we may have the best possible success.

Please return to us, at your earliest convenience, the self-addressed post-card after giving your name and address, the date and time preferred to donate.

While saluting you as a generous contributor to the Argenteuil Blood Donor Clinic, we hope that you will convince one of your friends to join in, so that we may exceed our objective of 600 bottles of blood.

Very sincerely yours,

— THE ARGENTEUIL BLOOD CLINIC

Former Police Chief At St. Andrews Gets Jail Term

Charges in Five Cases, Head of Safe-Cracking And Burglary Gang

A former police chief of St. Andrews East was exposed in Criminal Court at St. Jerome last week as the head of a safe-cracking gang and received a 23-month jail sentence.

The double-life of Jean Paul St. Denis, 37, who, until 1951, served for four years as police officer at St. Andrews, was described before Judge Edouard Archambault. He was charged with five cases of burglary and being in possession of burglary tools.

Provincial Police testified that he was the leader of a five-man safe-cracking gang, and said his offences went back to 1951 when he entered the CNR station at St. Andrews and Grenville and stole a typewriter worth $50.

Two accomplices, Paul St. Julien, 41, and Paul Faillant, 21, each received 12 months in prison after pleading guilty to charges of stealing merchandise valued at $445 at the Grenville station.

André Boismenue, 30, Dick Satove, 40, and Joseph Lemieux, all of Montreal, pleaded not guilty to charges of being accomplices. Their preliminary hearing was set for September 30.

Boismenue and Satove were granted $2,000 bail each. Lemieux was refused bail.

Regina (CP) — Damage caused by pale western cutworms during the current crop season was confined to light, spotty infestations in west-central Saskatchewan and east-central Alberta.

"Get Into Textiles", Expert Advises Youth

Young people seeking interesting and exciting careers were advised to "get into textiles" by Dr. Richard Beeching, a director of Imperial Chemical Industries of Canada Limited, at the 25th annual dinner of the Silk and Rayon Institute.

"I know that for the past few years the textile industry of Canada has been experiencing difficult times. Nevertheless I am convinced, as are many other people, that there is a future for the Canadian textile industry, if it is given proper encouragement and leadership."

The production of textiles today involves something more than the basic operations of spinning and weaving, Dr. Beeching said. "It can be an interesting and exciting business worthy of becoming the life work of anyone.

"There are careers in the industry today for top flight technicians and scientists equal to those available in other trades and professions.

"There are excellent schools in Canada for the training of textile technicians and I think it would be worth the while of any young person to make enquiries about these schools.

"This is the era of the synthetic textile fibre and the leaders in that field will be leaders in clothing and equipping the country."

St. Jerome Group at Ch. of Commerce Regional Congress Submits Resolution 5% Sales Tax in All Municipalities

Suggestion Excepts Towns and Villages Situated Within 20 Miles of Other Provincial Boundaries

Annual Conference of Laurentide Organization Held Here Sunday, Successful Gathering

Approximately 40 delegates attended the annual sessions of the Laurentide Regional Chambers of Commerce, whose conference was held here in Lachute last Sunday.

Executive officers for the ensuing term were elected after the main business session. Horace Lamarche, vice-president of the Lachute Chamber, was named Administrator, succeeding Adelard Ratel, of St. Jerome, while Gérard Lefèbvre, ex-president of the Lachute Chamber, was elected secretary. Elected vice-president of the Laurentide group was J. Georges Dunningan, head of the Chamber at St. Jerome.

An important resolution presented by the St. Jerome delegates was that the Quebec Government be requested to impose a five percent sales tax in all municipalities where such does not already exist, with the exception of towns and villages within a distance of 20 miles from adjoining provinces.

The gathering was voted a notable success. A tour of Lachute and mass celebrated at the Notre Dame de Lourdes shrine set the day's program in motion, followed by a luncheon for the delegates and their lady guests, at the Legion Hall. The business proceedings were held during the afternoon, and an evening banquet concluded this successful event.

Mayor Dr. Jules Lafleur extended an official welcome to the gathering. Speaker at the mid-day luncheon was Huet Massue, professional engineer, whose topic was the Canadian Economy. The banquet speaker was the Hon. L. P. Cecile, minister of the Tourist Department, Province of Ontario. Gérard Lefèbvre presided at the luncheon, and Horace Lamarche was chairman for the banquet. The retiring Administrator, Adelard Ratel, of St. Jerome, conducted the business session.

Bernard Larocque of the provincial highways embellishment service, outlined the government's policy on erection of advertising-signs along the highways.

Groups represented were the Chambers of Commerce of St. Jovite, Ste. Agathe, Ste. Rose, Ste. Adele, St. Donat, St. Jerome and Lachute. A vote of thanks was expressed to the local group for their hospitality and organizing of the day's program.

Prov'l Executive Plans Farm Forum Policy and Action

On Saturday, September 12, the Provincial Council of the Quebec Farm Forums Association held its first meeting of the 1953-54 season at Macdonald College. Argenteuil Farm Forums were represented by Stuart Armstrong. The meeting was chaired by Mrs. Gilbert Telford, the president.

The more important decisions concerning policy and action are as follows:

1. The Quebec Farm Forum Association will request that the Quebec Department of Agriculture increase the annual grant to schools where Agriculture is taught. The Q.F.F.A. feels that this will encourage schools in farming areas to engage Agriculture teachers, who in turn could also act as part-time agronomes in English-speaking communities. A Farm Forum committee will meet with the Macdonald College Diploma Course committee to make further recommendations concerning the teaching of Agriculture in Quebec schools.

2. On the request of the Federal Department of Labour through the Canadian Federation of Agriculture, the Q.F.F.A. will make a complete investigation of the farm labour problem among English-speaking farmers in Quebec. The purpose of the investigation will be to provide information and recommendations. The farm labour situation is worse than it has ever been before. Local Farm Forum groups will be called upon to assist in the investigation.

3. The Q.F.F.A. will assist the Canadian Federation of Agriculture in making a thorough study of the factors causing the high price and unsteady supply of protein concentrates. The feeling of the Council is that the supply of protein concentrates is being controlled by brokers, and that the feeder is being forced to buy ready-mixed feeds at prices too high to pay.

4. The various Q.F.F.A. committees reported their progress since the last meeting of the Council. Among these, the Credit Committee is setting up a plan to provide increased credit facilities for farmers. The Insurance Committee is studying the policies of different companies with respect to farm liability insurance. Other committees that reported were the Coarse Grains Committee, and the Livestock Producers Committee. Reports were also heard from delegates to the Eastern Agricultural Conference and the semi-annual meeting of the Canadian Federation of Agriculture.

5. The Provincial Secretary, Keith Russell, presented his findings and recommendations following a recent survey of Quebec Farm Forums. In his summary, he stated that, "We must take advantage of every opportunity to increase the number, size, and activity of our community Farm Forum groups".

The Government of India has invited the World Forest Congress to meet in Uttar Pradesh in 1954 to discuss the role of forest areas in the country's general economy, proper use of forest products and erosion control.

B'burg Red Cross Discusses Details Of Blood Clinic

Brownsburg — A general meeting of the Brownsburg Red Cross branch was held in the Consolidated School on Monday evening, with Mrs N. E. Smillie in the chair and Mrs. R. W. Davidson as secretary.

King Amos reported on the Red Cross course in swimming which had been conducted at the Rotary Community Pool. He stated that they had been fortunate in learning that Lundy Pearson, who resides in Lachute, was a qualified Red Cross swimming instructor, and although cool weather had interfered to some extent, this gentleman had instructed all the children who took the course. Certificates had been earned by several boys and girls in the various groups, but these had not been received to date.

Following the routine business of the meeting, the chairman announced that a Blood Clinic would be held in the Legion Hall in Brownsburg, Tuesday, September 29, from 2 to 5 and 7 to 9 p.m.

Louis M. Poitras, of Red Cross headquarters in Montreal, explained the services of the Red Cross Blood Bank. He pointed out that 380 c.c. is the amount taken from each donor, after checking a blood smear in order to ascertain that it is satisfactory. The donor is also asked several questions to establish whether or not he has suffered from such ailments as jaundice or malaria.

In reply to a question regarding frequency of donations, the speaker advised that man may give blood four times and women three times a year, but the three or four-month period should elapse between donations.

Mrs. N. E. Smillie pointed out that this would be the first Blood Clinic held in Brownsburg by the Red Cross, and expressed the hope that it would be well patronized.

Horace Lamarche, who is in charge of the Blood Clinic to be held in Lachute, was present and thought that there was such enthusiasm that Brownsburg should even exceed Lachute's clinic, which is scheduled for the next following days.

Sidney A. Darey, secretary of the Blood Clinic committee for Brownsburg, explained the details of the arrangements to be made, and asked for the assistance of the ladies and gentlemen present.

Gatineau LINES

Stones and Bullets

The transmission lines on which all of us depend to get our electricity are inclined to take a beating in the early fall. Between the stones thrown by children — and sometimes by adults — and bullets of hunters, insulators are broken and wires snapped each year.

Every broken insulator or snapped wire means an interruption of electrical service, which in turn means annoying trouble for somebody. And that somebody is often a friend or acquaintance of the person responsible for the trouble.

Persons who use electric wires for targets are poor friends indeed to their neighbors.

GATINEAU POWER COMPANY

Canada Leads Wheat Exporters to Lebanon

Canada was the principal supplier of wheat to the Lebanon in 1952, with 63,000 tons, as compared with 14,000 tons in 1951, according to Lebanese statistics, reports the Canadian Trade Commissioner in Beirut. Syrian exports to Lebanon amounted to 38,000 tons, compared with 9,000 tons in 1951. Other suppliers were the United States, with approximately the same quantity as in 1951 — 20,000 tons — and Rumania, 3,621 tons, compared with 101 tons in 1951. Total imports of all cereals showed a considerable increase over the previous year, 139,938 tons against 106,321 tons in 1951.

on the Brownsburg Road,
Saturday, Sept. 19, 1 p.m. sharp:

14 Head of cattle, 6 cows freshened since July 10, 2 more to freshen, 4 1½-year-old heifers, 1 Reg. Ayrshire cow 3-years-old, Reg. Ayrshire bull 2 years-old, 14 sheep, 2 work horses.

Mowing machine, Massey-Harris grain binder, Oliver tractor plow, 2 walking plows, 4-section smoothing harrow, hay loader, horse rake, disc seeder, double wagon & rack, set express sleighs, 2 sets heavy sleighs, 2 sets heavy double harness, 2 cream separators, 2 ice-saws, 2 sets ice tongs, 1,600 lb. platform scales, circular saw and frame, 60-in. circular log saw, 75-ft. endless rubber 6" belt, cutter, set light harness, double harness, 4 collars, cement mixer.

2 Sets disc harrows, a lot of second-hand tin roofing, 3 cross-cut saws, axes, wrapping chains, cant hooks, Stenn saw, grindstone, heavy block & tackle, 1936 Dodge car.

Sewing machine, Quebec heater, 3-ft. box stove, cook stove, gasoline washing machine, 2 bureaus, 2 washstands, settee and five chairs, 3 bedsteads, and a lot of other articles not mentioned.

Terms, cash.

Ferguson tractor and plow (almost new) — terms on tractor made day of sale.

FARM TOPICS

Why Fertilize

Before the introduction of chemical fertilizers, farm manures, guanos, fish meal, dried blood, composts and sewage sludge were used generally as plant foods. When factory-made fertilizers appeared on the farm scene, they were dubbed "synthetic" or "chemical salts". Even though they were derived from natural materials, they were first regarded by farmers with suspicion, prejudice and even contempt.

Although much of this prejuice has died out, some still exists and there are farmers who have never used chemical fertilizers despite their proven value to agriculture. Wheat yields have been more than doubled. Fertilized corn crops have produced tremendous yields. One thousand bushels of potatoes per acre from fertilized land have been recorded while 500 and 600 bushels are quite common. At present prices of potatoes it has been estimated that for every dollar invested in chemical fertilizer, a net return of $15 is realized.

When farm prices are high, most farmers who operate their farm on a businesslike basis have no hesitancy in fertilizing their acres according to recommendations. However, when prices decline, there is a tendency to cut fixed costs. Historically, expenditures on fertilizers decline with the decline in farm prices.

According to economists, this is an extremely illogical practice. The basis of good business is that when unit selling prices are down, unit costs of production must be kept down. By reducing fertilizer applications and, consequently, reducing yields, the farmer pushes up his unit cost of production. In the face of declining agricultural prices, the individual farmer should not let rising unit production costs hurry him into red ink.

15 Per Cent Less Labor On Farms Due to Mechanization

Mechanization of farm operations has taken place at an increasingly rapid rate during the past 10 or more years due to farm labor shortages, the financial ability of farmers to purchase equipment and to an increasing knowledge of capabilities of particular machines. The Experimental Farms Service has contributed to this knowledge by the use of many of the newer designs of tractors, tillage tools, seeding and spraying equipment and a variety of havesting machines. Experiments are being conducted to determine the value of various farming practices and the suitability of different types of machines to the varying farm conditions throughout the country.

The introduction, in 1946, of ground equipment for low volume spraying for weed control by the Experimental Farms at Ottawa, Indian Head and Regina, sparked a development that has resulted in chemical treatment of over 14 million acres of crop land per year for weed control. Similarly, extensive Experimental Farm tests of forage harvesting methods, equipment and feeding and housing facilities have contributed to more efficient means of handling feed and livestock.

There is 15 per cent less labor on farms than before the war. Increasing industrial activity may be expected to further decrease the supply of labor in rural communities, thus all means of reducing the labor required in farm operations should continue to be explored. That farmers are increasingly aware of the value of labor saving equipment is indicated by the fact that the amount of equipment on farms has nearly doubled in the past 10 years. There are 2½ times as many tractors in Western Canada and 4 times as many in Eastern Canada as there were 10 years ago. There is now approximately one tractor per farm in the West and one tractor for 2½ farms in the East. Combines have increased by 4½ times in the West and 11½ times in the East. The number of motor trucks used by farmers has about doubled in the past 10 years and electric power has been made available to nearly twice as many farms.

The Perennial Border

Fall is the time to prepare the ground for the perennial border. It looks best placed along a boundary of the lawn with a background of shrubs or evergreens. It should be where it will get plenty of sunshine and some protection from the prevailing winds.

The majority of perennials should be planted in the spring. Iris and peonies, however, are best moved during August and early September, and many other perennials may be planted a little later. No protection other than snow is necessary. In situations where snow plows off the border, brush may be used to hold the snow, but usually, such a spot is not a suitable one.

The cost of maintaining fences can be materially reduced by the use of chemical wood preservatives. Tests at Michigan State College, U.S.A., show that by treating a post with 25 cents worth of chemical preservatives its life can be extended 10 years. That is, the average life of an untreated post is five years and that of a treated one 15 years.

National Plowing Trophy

Canada's first national tractor plowing champion will be chosen from competing provincial champions at the Ontario Plowmen's Association International Match at Cobourg, Ont., October 6 to 9. Above, Emmanuel Hahn, the internationally-famous Canadian sculptor, who has designed many of Canada's stamps and coins, is putting the finishing touches to the clay model of the winner's trophy, the Esso Silver Plow. In addition to the trophy, the Canadian champion and the runner-up will travel each year as guests of Imperial Oil to the world plowing match where they will compete on behalf of Canada. The first world match is being held at Cobourg; the second, next year in the Republic of Ireland.

Stumped by Stumps ?

Stumps can be tough. Every farmer knows there are times when a stump can be more stubborn than a mule and will, under certain conditions, scorn the best efforts of man, horse or mechanical equipment. When this happens it is time to consider blasting — under any conditions one of the quickest and cheapest ways of removing stumps.

Actual procedure for stump blasting should be determined by the size and condition of the stump and nature of the soil in which it is anchored, says J. E. Carson of the explosives division of C-I-L. Usually, stumps can be removed cleanly by blasting alone, but on occasion some pulling will be required for complete removal.

While preparation of the stump for blasting is not difficult, it should be done with extreme care. Loading must suit the nature of the roots and charges placed to break their hold on the soil. A diagonal hole should be punched with a crowbar or drilled with a soil auger until its bottom is a fair distance below and just beyond the centre of the stump. The explosives charge should be loaded right to the bottom of the hole, the cartridges being tamped in with a wooden rod. A broom handle is ideal.

Where a heavy charge is required, it will be necessary to first "spring" the hole by firing with a very small charge in order to provide a pocket of sufficient size to accommodate the larger charge.

For stump blasting Mr. Carson recommends the use of stumping powder of 20 per cent strength or "Blastol" of 60 per-cent strength. If stumps are in dry ground, cartridges should be slit and tamped well into the bottom of the hole. In wet ground stumping powder should not be slit but loaded intact. "Blastol" cartridges, on the other hand, being water-resistant, may be split even when holes are wet, provided charges are fired reasonably soon after loading. All holes should be filled right to the collar with sand or earth before firing.

Broilers — Sideline To Egg Production

The trend in broiler production is toward large units specializing in the production of 10 to 12-week-old chickens. Producers in districts with comparatively small market outlets, however, may hesitate to establish a specialized broiler business on a scale sufficiently large to insure efficient production. This prompts an examination of the possibilities for profit in growing broilers as a sideline to egg production.

Studies at the Experimental Station in Fredericton, N.B., have shown that there are significant differences in rate of growth to 12 weeks of age between strains of the heavy breeds. A few egg producing strains of the heavy breeds make reasonably good gains, but if broilers are to be raised profitably they should be of a good broiler strain capable of producing meat economically.

Brooder house space can be utilized for broilers when it is not required for pullet chicks. This practice makes use of buildings and equipment for a longer period of the year than would be the case if only laying stock were raised, with a resulting lower cost of overhead.

Winter brooding presents no additional problems, and in fact, less trouble is usually encountered with winter lots than with summer broods. The slight extra cost for fuel required for winter brooding over late spring brooding might easily be offset by lower mortality or other factors, such as market conditions.

The specialized broiler grower usually grows three or four crops of broilers a year. The part time broiler grower without an established market, however, should consider the situation carefully before growing broilers in the summer. Such broilers would be marketed in the fall. Fowl and heavy roasting chicken are in good supply at that time, when processing facilities and market conditions may be unfavorable for profitable disposal of broilers.

The consumption of broilers in the large cities is increasing rapidly, points out Leonard Griebach, poultry officer at Fredericton, and people in less thickly populated areas are beginning to appreciate the economy and high quality of this product. This situation deserves careful consideration by progressive poultrymen.

Drought and Rain; Summer's End Brings Schooldays' Varied Needs

"SUNNYACRES SKETCHES"
By Margaret Cook

We never thought to extol the beauty of rain, but we think you will all agree that the sound of rain on the roof and the sight of those crystal drops after a period of drought were a matter of rejoicing and thankfulness. Not since election day had we in the Laurentians seen any rain, and the earth and its inhabitants both wearied of the brassy sun and the dry earth. Everybody — well nearly everybody — was wary of cigarettes out-of-doors, no one dared to have a picnic fire and some were even afraid of sparks from chimneys. We applaud the authorities who ordered a cessation of logging operations, but people being what they are, it would have been better if "snoopers" had been put on the road to enforce the regulation. Not a mile from Sunnyacres, business was as usual, or rather more than usual, for there seemed to be two trucks hauling where one sufficed to chew up the road before. Anyway, the rains came and the rose bushes that we had hopefully transplanted two weeks before, showed signs of life, and the little wild creatures no longer came to the bowl of water that Betty had put out for their refreshment. Not till we found a mouse drowned in the water butt, and saw a squirrel nearly commit suicide in his attempt to reach the water then two feet below the top of the tank, did we realize the plight of our fellow tenants at Sunnyacres. The man of the house, off on an expedition to the fascinating hinterland around Lake Sir John, reported that each little brook and spring bore the marks of harried paws, seeking the elusive liquid.

* * *

This back-country is a wonderland of natural science, the greatest wonder being an underground river. A copious spring gives birth to a considerable brook which, because of some distant natural disturbance, has changed its course and plunges underground, runs through a cave and emerges again some 300 yards ahead. It is possible to explore the cave if one is willing to hitch along on knees and elbows. A flashlight reveals fishes in the underground pools. All this is told to us, but come favorable weather and a nice week-end, and we mean to explore these wonders ourselves. There are all kinds of ferns in this district, even the delicate maidenhair, of which our adventurer brought back a sample and planted it in what he fondly thinks is a replica of its original habitat, that is, at the foot of a cliff in open woods, but our cliff faces north whereas the home rock faced south, so we wonder — but, of course, that is half the fun.

On this jaunt, too, the man of the house picked up a novel idea for intimidating trespassing hunters. The large bracket fungi, as every child knows, make excellent billboards, so our exasperated neighbors have posted them at strategic places and they bear interesting slogans and warnings, such as "City slickers, go home; you know you are trespassing." Other messages are more salty and we must leave them to the readers' imagination. We are thinking of putting up one at our lake, reading "Now, now, Johnny!"

* * *

But these are all in the future, the present is cluttered up with apples. There is a good crop as to quantity, but the quality is poor, so that many hours of work go into the preparation for jelly or applesauce. The jelly knows nothing of this and glows as warmly on the cellar shelves, which are not quite as full as usual, due to the scant strawberry crop and the failure of the blackberries. The latter dried up on the bushes; this must have been a blow to the skunks, raccoons and other small creatures. The raccoons consoled themselves by eating the corn crop of a neighbor. In fact, the wild life has been particularly active the last two weeks, a phenomenon which occurs always at the full of the moon; this time the prolonged drought probably added to the restlessness. Each night, we hear the quick, hysterical bark of what must be a fox, as he circles the house; even our old friend, the loon, laughs loudly; he has been silent for some two years. As the bipeds move in, the quadrupeds move out, a sad commentary on our predatory nature.

* * *

We are happy to see that some work is being done on the road to Lachute; some of the more dangerous curves are being straightened or at least 'brushed' back so that it is possible to see around them. The net result, at present, is to make the highway worse than ever but we can endure that if there is hope for the future. Of course, hope is easily come by if there is an optimistic nature, and so far it has been hope and faith and no fulfilment. We reiterate that nothing is so valuable to these parts as are good roads. Everything benefits by a good road, produce gets out and tourists get in. Some of the tourists and visitors stay, and all talk. Talk is one of the great forces of the world, especially male talk. If a guest from Ontario or the United States returns home and says to his neighbor, "Route 30 is beautiful, mountains, lakes, picnic places, adequate hotels, but, BROTHER, the ROADS, it's no pleasure for the driver", then next year we do not see that man or any of his friends. Multiply that incident by ten and we have lost a considerable potential income. Even Hitler knew the value of good roads to a nation.

* * *

That is probably our last pep talk about roads, for the summer is over and we depart, reluctantly, for the city. We anticipate the move with a fluttery feeling in the general direction of the stomach; Victorian writers would undoubtedly attribute this peculiarity to the heart, but this is the candid age and we repeat, the stomach feels queer. The thought that thousands of other people are experiencing similar disturbances does not really console. We have always thought that "Misery likes company" is a thoroughly nasty maxim. It should be "Selfishness likes company". Anyway, thousands, like the writer, will be hearing, "Mommy, the teacher wants my report; the teacher wants my vaccination certificate, we have to have WHITE shoes, this year". "Mommy, get me a cinch belt so my skirt will stay up." This last, because authority decrees the scholastic costume include a skirt and blouse, and at 11, few girls have the requisite hip to hold up the skirt. The poor things look as if they are at a masquerade. Uniforms are fine after they are assembled, but they must impose a heavy expense on those who can ill afford them. We knew a mother who spent $40 on the required costume, but we hope that is a unique case. We do not tot up the total, on the principle that what the eye does not see, the heart does not grieve over.

We shall be together sometime in the near future, but it will not be a report from Sunnyacres. It has been a lovely summer, let us be thankful and approach the winter with caution.

Never Before a Working Team So Handy... So Practical!

The JOHN DEERE "40" TRACTORS and New Line of 3-Point Hitch Working Tools

Take a good look! Make a good test! Check all the wonderful features of the John Deere "40" Series Tractors and look over the great line of quick-change, Quik-Tatch "pickup" tools for the new 3-point hitch. When you do this—and we'll be happy to demonstrate any time you say—you'll agree that you have never seen a working team that's so handy, so practical.

Here, in one simple compact package, you get all the well-balanced advantages of John Deere engineering plus new power to handle two plow bottoms in most soils, the great new system of implement Load-and-Depth Control, time-proved John Deere Touch-o-matic for precision hydraulic control of implements, full swinging drawbar, new comfort and convenience, new ease of servicing, and many, many others.

Let us demonstrate the tractor and Quik-Tatch tools for your farm. There's no obligation!

Rural Fire Hazards

WITH THE approach of winter it is a good time to give some extra thought to fire protection. Furnaces will soon be lit and fire hazards can be reduced by having them in good working order. Among the most common causes of fire in rural Canadian homes are those originating from heating and cooking equipment. Fire insurance companies list the following as frequent causes of farm fires: chimneys of substandard construction; sparks from dirty chimneys; faulty smoke-pipes and stove installations; seasonal grass and bush fires; spontaneous ignition of hay; worn-out shingle roofs; lighted lanterns; mis-use of electrical equipment; threshing and other operations with gasoline powered engines; matches or smoking in barns and other farm buildings; lightning.

Most fires originating from this list could be prevented by checking on faulty construction or equipment, for the time to prevent a fire is before it starts. Chimneys and smoke pipes can be inspected, gasoline can be stored away from main buildings, oily rags never left lying about. Even lightning can be guarded against with arrestors.

An excellent fire prevention on a farm is a roof ladder. Keep a few buckets of water ready for use and a number of water barrels at suitable points as an added precaution. But they are worse than useless if the water is frozen solid should a sudden emergency arise, so choose a relatively warm place.

A reliable fire extinguisher is a good investment, particularly if equipped to handle gasoline fires. It will often be enough to scotch an incipient fire and prevent disaster.

◇ ◆ ◇

School Children's Safety

WITH resumption of the school sessions, it should be emphasized again that drivers of vehicles are required to come to a stop at a safe distance from a school bus which is stopped and either loading or discharging passengers. This requirement is in force with regard to vehicles travelling in either direction when meeting a stationary school bus. This is a law of Quebec Province and is in force anywhere in the province. Anyone not observing this law and becoming involved in an accident as the result of not stopping, is liable to prosecution and punishment.

These buses are quite plainly marked and they can be plainly seen, so there is no excuse for not complying with the law in this respect.

It might also be mentioned that drivers of vehicles are required to drive with caution when within a school zone.

Many drivers do not observe this rule; this is particularly dangerous, since children have to cross streets when leaving the school for home and going to school.

◇ ◆ ◇

Yea, Football!

IT'S SO seldom that the Americans pay much attention to anything going on in Canada that, when they do, it's worth taking note of it.

Many Americans don't know Ottawa from Ogopogo, but if the current trend keeps up they may develop a crop of youngsters that will even know that Canada isn't a colony.

The new interest in us arises from the fact that dozens of top American football stars have crossed the border to play football in Canada. They found higher salaries and better treatment here and many are staying on to become permanent citizens.

This has been going on since the mid '30s when Fritz Hanson and a few others came up from the States and won the West's first Grey Cup for Winnipeg. But the Americans have been slow to realize that a revolution affecting them has been taking place in the Canadian game.

Now that several lawsuits are in progress over the right of Americans to jump American leagues to play in Canada and that top players like Billy Vessels, the former Oklahoma Sooners star, have emigrated here, football followers over the border have turned their eyes to Canada with interest.

American newspapers, even in the deep mid-west, are running long stories about the trek across the border, the way the game is played in Canada and why Americans should leave large cities to play in such comparatively small places as Regina, Edmonton and Calgary.

Which is all to the good, of course. If American followers of Vessels learn he is playing in Edmonton they are also apt to learn that Edmonton is a thriving oil city in Canada's north; that there are really cities up here and land isn't peopled exclusively by red-coated Mounties chasing Eskimos across the Arctic ice with dog teams.

We may even reach the happy day when Americans all learn that Canada paid her own way during the war and hasn't accepted any American aid then or since. It's too much, of course, to hope that Americans will ever learn our dollar is worth as much as theirs.

◇ ◆ ◇

Cost of Democracy

IN ROUGH but fairly accurate figures, Canada's national income approximates $1,140 for every man, woman and child. This figure is based on the national income for 1951 of $17,097,000,000 divided by a population of about fifteen million.

As Canadians this year will pay $1,250,000,000 in personal income taxes, it is obvious that every person in Canada, on an average, is paying at a rate of $83 whether he is a grown man or an infant.

But income taxes are only the beginning. There is an item of about $5,250 million in other taxes. That figures out at $350 for each individual, old and young. So out of the average income of $1,140, before the individual begins to pay for needs of food and clothing and housing and minor luxuries, there is an item of $433, or about 40 per cent of all earnings.

Democracy is worth paying for, worth paying a good deal for. Maybe what Canadians pay is not too much. Certainly plenty of people would be ready to change places with us, taxes or no.

But, however that may be, it doesn't change the fact that Canadians should be aware that out of every dollar received from any source, government takes 38 cents, leaving 62 cents for needs and moderate comforts.

This is a fact that seems impressive enough to be of vital import. If it is necessary there should be no complaint.

If it is not necessary — if it is the result of carelessness and waste and a recklessness, then only crass stupidity would argue that Canadians should bear with it. And it isn't enough to argue "why should we care when someone else does the paying?" Because even to accept so crassly selfish a viewpoint would be accepting something that wasn't true.

Everybody pays, not in similar amounts but in amounts that are roughly proportionate. Everybody pays in some proportion to his resources.

Before asking or permitting governments to do more for us, we should know what it will cost, because it comes out of that portion of our resources out of which we must live.

— J. L. R.

◇ ◆ ◇

SOME people still mistakenly spell the chief city of New Brunswick St. John. It is Saint John, this by municipal ordinance, and to save confusion with other communities of similar names. But the river which flows through the city and down the valley to the sea is the St. John River.

◇ ◆ ◇

CONTESTS between a small group of Alberta mayors determining a winner in events ranging from meat-cutting to booting a pigskin, have reached a point causing irritation to thousands of civic-minded Albertans. A mayor is hardly treating his office with the deserved dignity as he becomes contestant in such child-like sports — argues the Drumheller (Alta.) Mail.

ALL ABOARD

By Our Columnist,
G. E. MORTIMORE

The superhighway drills straight across country, ignoring the landscape. Quaint bends and gnarled, rickety bridges are foreign to its nature. The superhighway hurries from one town to the next, stopping only for hot dogs and hamburgers.

Because it follows the shortest route, the superhighway is often accused of being a sterile monster among roads, as soulless as a tunnel. Yet the charge is most unfair.

Somewhere in the hinterland to the right or left of the broad new highway is the old road which it replaced. Like an old workhorse in semi-retirement, assigned to light duties, the old road is still available when it is wanted. It dawdles across country, free at last from the dust, smell and punishment of heavy traffic.

When the old road was the main highway, gangs of public works ruffians were attacking it all the time, lopping off its elbows, crushing its shoulders, pummelling, widening and straightening.

Now the old road is left in peace. The superhighway is its protector. The new road takes the main shock. Behind its shelter, the old road winds along the way it did before, a happy case of arrested development.

Sometimes people have cause to travel through the country around their old home to reach some other place. Likely as not they drive along the new highway.

Then one day when they are in less of a rush they get to wondering whether the old haunts are still the same. So they turn down the old road, and there it is as they remember it, a stretch of the past neatly preserved alive.

Some changes have taken place, but the chief outlines and many of the details are still there: the same house, the same barn with an advertising sign on it, the paint faded and flaking now; the same dip and turn of the road, the same big tree.

Recently I turned aside and drove along the old road which I had known in early childhood. The soft sweet country extended thorns and twigs to scratch the heart.

The old humpback bridge was gone, and there was a new one, but it was the same river, and behind the church stood the same house where I used to live, a small lonely boy who had no one to play with.

Further along, the road had changed little. It was this road that I used to follow when I went on expeditions with the dog Towser, carrying something I called "lunch" — raisins and crumbs packed in a matchbox. This scanty nourishment I used to share with the dog. He pretended he liked it.

The little stream appeared to be dry, and there was a culvert instead of a bridge. The old schoolhouse had been converted into a dwelling. With the dog sniffing along at my side, I used to circle the old schoolhouse on summer days, looking into the vacant windows, finding berries in the bushes nearby.

But all that was a long time ago. I turned the car back to the new highway and stepped on the gas, watching the speedometer needle move upward as the car hummed along the smooth blacktop toward the north.

Can't understand why they call money "dough". Dough is something that sticks to your fingers.

The new U.S. superliner "United States", is 100 per-cent fireproof — there is no wood in her at all. Also, says Fillmore Hyde in the Reader's Digest, she can be converted quickly from a swank 2,000-passenger peacetime ship to a troopship capable of carrying an army division. Kitchen, plumbing and ventilation facilities are built to accommodate 14,000 men. She is fast enough to outrun any submarine, could go from San Francisco to Asia and back without refueling, and can get through the Panama Canal.

It is reported that in this day and age the old custom of parents kissing their children good night is dying out — the children get home too late.

SCOTT'S SCRAP BOOK By R. J. SCOTT

MONTREAL — MAELSTROM AND MILLSTREAM

By GEOFF.

My friend Milligan once remarked that the medical profession was a racket. And, after paying some medical bills hereabouts over the past year or so, I'm inclined to agree!

"The reason for the high charges", I told Milligan, "is due, the medics say, to their overhead."

"Overhead!" Milligan echoed. "Maybe they call it overhead, but I call it underhand!"

Milligan, you know, may be right. Where else, I ask you, but in the big cities do you pay $65 for a bout of chicken-pox? And where, but in Montreal, would anyone be asked to lay out $75 to find out that one should be on a diet? Yes, indeed, Milliagan may be right.

In view of the high prices obtaining here for medical services, I decided when my stomach went on the fritz last June, that I would traffic with a medic somewhere else. My sister in the Townships, suggested that I visit her doctor there. And, after discovering that the man was a graduate of Edinburgh and had a mass of degrees from other universities, I decided I'd give him a try.

"Nerves", he said, after tapping, sounding, pounding and listening, "nothing but nerves. I'll give you some powder to fix your digestion up for now and then we'll set to work to trim off some of that fat you're lugging around."

Within fifteen minutes, therefore, I was equipped with a huge box of stomach powder, an order to take life a bit easier, and a 1,000 calorie per day diet.

"How much do I owe you?"

I had a considerable sum in my wallet but I reached for the cheque book instead.

"Three dollars", the good man replied.

"Three dollars? Are you sure?"

"Sure I'm sure", he replied. "I don't live in Montreal, you know!"

So I gladly returned the cheque book to my pocket and paid the man his three dollars. But as I left his office, I had the distinct impression that there must be a catch in it somewhere. I found out what the catch was last Saturday.

Having trimmed off some 25 pounds since he handed me the diet sheet in June, I thought I should have a chat with him again. Accordingly, I went to his home, rang the office bell and walked in.

"My goodness", he cried as he caught sight of me, have you ever lost weight!"

"I guess I have", I replied. "Twenty-five pounds to be exact."

"Well", the doctor said as he led me to his consulting room, "I've got just the thing to fix you up. It will add a pound a day. Have you back in shape in no time."

For a minute I was worried. However, he soon put me at my ease.

"Drop another 20 pounds", he said, "and then see me again. And put the wallet away, lad. There's no charge. Remember, I don't live in Montreal."

Remember it? How could I forget? That man's address is etched forever in my mind — and my pocketbook!

Across the Country

Jim Greenblat

Taking a leaf from the books of the ancients, the New Liskeard, Ont., Golden Anniversary committee entombed seeds of the district in lasting cement, sealed in bottles for some future generation to find and exclaim over.

William Stumpf, of Walkerton, Ont., discovered new knocks in his car, stopped to investigate, found under the hood a pigeon pecking at the grillwork in an attempt for freedom; how did it get there?

At Fort MacLeod, Alta., they were elevating a 58-foot high screen for a drive-in theatre with a dragline and pulley, when suddenly a steel cable cut through a thick timber and the screen came crashing down. There will now be a delay before the theatre opens.

Fred Williams, of Windsor Forks, N.S., has a hobby, finding clovers; he found 20 four-leaf clovers in one session, besides picking a number with 5, 6 and 7 leaves, reports the Hants Journal.

THE WEEKLIES SAY

OLDSTERS HARD HIT

Hardest hit financially by the radical changes in the economy of Canada in the past decade are the senior citizens, who pioneered, built and founded the vast communities of the nation. Many of these people are facing actual hardships as they strive to spread the old-age pension cheques from month to month.

— Drumheller (Alta.) Mail

MISUSED BABY BONUS

The baby bonus, supposed to provide better nutrition for Canadian children, doesn't seem to be having that effect. Dr. E. W. McHendry, University of Toronto nutritionist, says that children are getting too little milk, citrus fruit and cereals. What is it being spent for?

— Huntingdon (Que.) Gleaner

PARKING PROBLEM

The parking problem on Saturday nights is going from bad to worse. Main street business men could ease the congestion somewhat by parking their vehicles at the rear of buildings. Drivers can also assist by parking at the proper angle and closing the gaps between cars.

— Rainy River (Ont.) Record

FAIR CRITICISM

Keeping our government representatives up to the mark by just and honest criticism is one thing; constant haranguing of their every move is still another. Criticism of their work comes easily, and praise is given all too rarely and then grudgingly.

BIRTHS

COWAN — To Archie and Ida Cowan, at Providence Hospital, Lachute, on September 12, 1953, a daughter.

KENNEDY — To Mr. and Mrs. Grant Kennedy (née Gertrude Wilson), at the Providence Hospital, on September 14, 1953, a son, Ronald Joseph. Both well.

LANGILLE — At the Providence Hospital, Sept. 11, 1953, to Mr. and Mrs. Bud Langille (née Bertie Morrison), a daughter, Nancy Gail.

DEATH

DAVIS — At Winnipeg, Sept. 9, 1953, Louise M. Davis, aged 93, born at St. Andrews East, Que., eldest daughter of the late Mr. and Mrs. Crosby Davis. Burial at Winnipeg. . . Survived by one sister, Mrs. R. A. Graham, of Winnipeg.

ACKNOWLEDGMENTS

GREEN — The family of the late Mrs. Green wish to thank all kind friends and neighbors who extended sympathy, sent flowers and cards, and assisted in so many ways, in the loss of their loved one.

MILLER — Mr. and Mrs. David Rowe and George wish to thank neighbors and friends for their assistance and many acts of kindness during the illness of the late Charles R. Miller.

IN MEMORIAM

McKAY — In fond and loving memory of our dear husband and father, Allan McKay, who left us Sept. 15, 1952. — Inserted by his wife and daughter, Charlton and her husband, Bellamy Maxsom.

"Every hour we dearly miss him,
Sadly do we feel his loss,
Lonely is our home without him —
Help us Lord, to bear the cross."

DISTRICT NEWS FROM OUR COUNTY CORRESPONDENTS

Brownsburg

Miss Ada Cowley, of Victoria, B.C., and Mr. and Mrs. H. Cowley, of Winnipeg, Man., are guests of Mr. and Mrs. M. Cowley this week.

Mr. M. V. Trayers is at present a patient in the Royal Victoria Hospital, Montreal. Friends wish him a speedy recovery.

Mr. and Mrs. Bernard Petley and family have returned to Pittsburg, Penn., after visiting relatives here.

Sympathy is extended to Mrs. Walter Townsend and other relatives of the late Mrs. James Green, who passed away at her home in Windsor, Conn., last week Her funeral service, conducted by the Rev. N. H. Brock, pastor of the Maple Avenue Baptist Church, was held at the MacKimmie Funeral Home in Lachute, interment following in the Lachute Cemetery.

The Ladies' Aid of the Maple Avenue Baptist Church held their meeting Tuesday evening. Plans were made to have a Hallowe'en tea, sale of food and fancy work, in the church hall, Saturday, October 31. (Further particulars will be given in Coming Events.)

Tolerance is the suspicion that the other fellow might be right after all. — Anonymous

IN MEMORIAM

NIXON — In loving memory of a dear mother and grandmother, Mrs. James Nixon, who passed away Sept. 17, 1946. — Always remembered by her dauughter and son-in-law, Bill and Myrtle, and entire family, Bessie, Archie, Jane, Delwin and Willie.

'Asleep in God's garden.
No worry nor pain;
God bless you, dear Mother.
Till we meet again."

SINCLAIR — In loving memory of our dear mother and grandmother, Jane W. Sinclair, who departed this life Sept. 17, 1952. — Ever remembered by Thomas, William, Grace and Jimmy.

Bell Falls

Mrs. Sydney Swail spent the week-end at her home in Arundel.

Mrs. Joseph Page spent the previous week in Montreal.

Mr. Henry Page, Miss Maisie Page and Mr. Gerald Page motored to Montreal to visit Mr. Glendon Page, who is a patient in the General Hospital. Glendon is reported to be progressing favorably.

Mr. and Mrs. David McNeil, of Port Colborne, were recent guests of Mr. and Mrs. Thomas McNeil.

Guests of Mr. and Mrs. Clarence Bennett last week-end were the Misses Suzanne Bateman and Mary Bennett, and Master George Bennett.

Mr. Howard Smith, of Montreal, was the week-end guest of his parents, Mr. and Mrs. Clayton Smith.

Mr. and Mrs. Gerald Tomalty, of Lachute, were guests of Mr. and Mrs. John Fox on Sunday. Other guests were Mr. and Mrs. Raymond Madden.

Mr. and Mrs. Joseph Stewart called on friends in Kilmar on Sunday.

Mrs. Flora Brown returned to Lachute last Saturday after spending the week with her brother, Mr. Neil MacCallum and Mrs. MacCallum.

Visitors at Warren's cottage last week were Mr. and Mrs. Percy Simpson, of Rose Bridge, Gaspé.

Mr. Wendell MacLean, of Montreal, was the guest of Mr. and Mrs. Scott MacLean last week-end.

Miss Cecilia Campbell, of Montreal, is here to spend a week or two with Mrs. W. H. Warren and her mother.

Mr. and Mrs. Dougald MacLean, of Ottawa, were guests of Mr. and Mrs. Irving MacLean during the week-end.

Sunday service will be held at 11 a.m. in the Harrington United Church; Sunday School at 10 a.m.

OBITUARY

Funeral Service Here For Late James Fish, Burial at Sorel, Que.

James Alexander Fish, a long-time summer resident of this district, died at the home of his daughter, Mrs. Gavin Walker, on Wednesday, September 9. He was 72 years of age.

Born in Sorel, Que., on June 12, 1881, he married Edith Isabell Williams. They had three children.

The late Mr. Fish was an active member of the Church of England and of various other organizations. He was connected with Dominion Textiles for 33 years, until his retirement, and has since spent much time in Florida, whence he had just returned to Lachute.

Left to mourn his loss are his wife, a son, William, of Montreal, a daughter (Vida) Mrs. Gavin Walker, and a granddaughter, Miss Joan Walker, all of Lachute; also one sister, Mrs. H. H. Eaton, of Montreal. His elder son, Garth, was killed in action at Caen in 1944.

The funeral was held at the residence of his daughter, Mrs. Gavin Walker, on Friday morning, September 11; the Rev. H. Hertzler, of St. John the Evangelist Church, Montreal, officiated. Burial was at Sorel, Que.

The honorary pall-bearers were — Dr. F. S. Swaine, Dr. F. W. FitzGerald, Messrs. Blair Gordon, Donald Hay, Frank Brennian and Lorne McCoy.

Pall-bearers were — Messrs. James McGibbon, Ross Muir, Leonard Gain, Joe Penna, George McCoy, Charles Harbeson and Douglas Percy.

Old B'burg Resident Laid to Rest

Late Mrs. Jas. Green

Mrs. Kate Green, a former resident of Brownsburg, passed away at the Hartford Hospital on Friday morning, September 11.

Born at Mount Maple, Que., on October 12, 1879, she was the daughter of the late Neil MacQuaig and his wife, Margaret Calder.

The late Mrs. Green was predeceased by her husband James Green, 23 years ago. She is survived by two daughters, Mrs. R. B. Waldie (Ruby), of Bloomfield, Conn., and Mrs. T. Nagle (Violet), of Windsor, Conn., and three sons, Charles and George, of Hartford, Conn., and Robert of Windsor, Conn.; also six grandchildren and three great grandchildren, and one sister, Mrs. Walter Townsend, of Brownsburg.

The funeral was held on Monday, September 14, from the MacKimmie Funeral Home in Lachute. The many floral tributes showed the esteem in which the deceased was held.

Pall-bearers were Messrs. George Green, Jr., Charles Green, Jr., Roy Jackson, Edward MacLeod, Fred Barker and Gerald Vary. Interment was in the Lachute Cemetery.

Sentiments From Conventions in Prov. of Quebec

"WEEK IN QUEBEC"
By Bernard Dufresne

Quebec, Sept. 15 (CP) — Conventions took the news spotlight in Quebec this week.

Meetings included those of the Canadian Catholic Confederation of Labor, and of the Amalgamated Civil Servants of Canada. Last week, the Canadian Bar Association held its annual meeting here.

At the CCCL convention, President Gerard Picard said Canadian unions with United States affiliation are an obstacle to national sovereignty.

He cited this example: The International Union of Ladies Garment Workers (AFL) kept their ties with the central body in the U.S. yet protested the "dumping" of American goods on the Canadian market, causing serious unemployment in the Canadian textile industry.

"It is time a royal commission of inquiry gathered the facts and brought the truth to light", he said.

Jean Marchand, secretary general of the CCCL, said the Quebec labor relations board "threatens the very life" of the 100,000-member union.

He said the five-man board's "unjust, arbitrary and sometimes fantastic decisions can no longer be numbered."

He cited the case of the board's refusal to grant certification to a CCCL union for employees of aluminum rolling mills of Cap de la Madeleine because the parish priest had urged the workers to adhere to the Catholic union.

The decision, on the grounds that workers had "not adhered freely" to the Catholic union was "extremely dangerous" for the CCCL.

"It means" he said, "that each time a priest or a member of the Catholic hierarchy will ask workers to stay with our unions the right of certification will be contested."

• • •

National President A. H. Helm, of Kitchener, told the Amalgamated Civil Servants Association that the Federal Government's failure to meet its "promises" for higher wages had created "distrust" in the minds of civil servants.

He quoted statistics showing civil servants' average weekly wage June 1, was $53.30, compared with the national average of $57.67 — a lag of $4.37.

He quoted Prime Minister St. Laurent as saying on separate occasions that the government was considering "readjustments . . to create the feeling that all were being treated with equal fairness" and that "the Liberal party believes that promises should be made only when they can be kept. . . " he added: "The record of the government . . does not jibe with the last statement . . and has created in our minds a certain distrust towards our employer which can only be annulled if the Prime Minister will live up to his promise of considering salary adjustments. . . "

• • •

Prime Minister St. Laurent told the Canadian Bar Association last week that not one of the eight commonwealth countries is prepared to give up its right to its own separate decisions in world affairs.

He said these countries have a right to handle their affairs in their own way, as long as they do not menace the freedom of their neighbors.

These ideals, which were based on understanding and co-operation could be extended to the world with advantage to all nations, he added.

Lord Simonds, High Chancellor of Great Britain, said at the same time he personally regretted Canada had decided in 1949 to abolish appeals to the judicial committee of the Privy Council. The appeals had provided a link between Canada and Great Britain, but now it was no more, he urged: "Let us find other links to take its place."

He said no one could question Canada was entitled to abolish appeals to the judicial committee.

Northern Grenville

Mr. and Mrs. Russell Owens and Mr. and Mrs. Roy Nixon, with little Clifton, spent last week in Thetford Mines.

Mr. and Mrs. H. B. Hurley motored to Ste. Agathe on Sunday.

Joanne Owens entertained a number of her little friends on the occasion of her third birthday last Monday.

Friends are pleased to hear that Mrs. Thos. Brazeau, who is a patient at the Smiths' Clinic, Hawkesbury, is now recovering favorably.

Mr. and Mrs. K. Robson were recent guests of Mr. and Mrs. Harold Reeves.

Mr. James Tomalty, of Niagara Falls, spent the week-end here with his wife and infant daughter.

Mr. and Mrs. Lawson Taylor, of Lachute, visited Mr. and Mrs. Reginald Bennett recently.

Friends are glad to know that Mr. Edward Matthew, of Kilmar, is much improved since his recent illness and treatment in a Montreal hospital. Mr. and Mrs. Matthew have been occupying their summer residence here since his return.

Mr. and Mrs. James Baxter and daughter, Karen Lee, of Montreal, spent the week-end with Mr. and Mrs. Ulysse Beauchamp.

Mr. and Mrs. Bernard McCart and Mr. Hilary McCart motored to Ottawa on Sunday.

Recent visitors at Mr. and Mrs. Wyman Young's were Mr. and Mrs. James Waite and Mr. Clarence Milner, of Vankleek Hill, Mr. Shoddie Young, of Avoca, Mrs. Dick Young, of Kilmar, and Mrs. John Noonan and Mrs. George Bennett, both of Niagara Falls, Ont.

Miss Elsie Cousins and Miss Minnie Rainey, of Ottawa, spent the week-end with the former's parents, Mr. and Mrs. Fred Cousins.

Mr. and Mrs. Royce Prendergast, of Ottawa, were week-end guests of Mr. and Mrs. Hubert MacIntyre.

Morin Heights

Mr. and Mrs. Thos. E. Seale, also Mr. and Mrs. Keith Seale and daughter, Donna, were vacationing this week at Old Orchard Beach. They toured a part of the Northeastern States, visiting Mr. Chas. Seale at Fair Haven, Vt.

Mr. and Mrs. Geo. Watchorn and family, also Mrs. E. Watchorn and Miss Doris Watchorn, have returned home after spending two weeks' vacation at Old Orchard Beach.

Tuna Missing at Annual Tournament

The last place in Canada to buy tuna last week was in the little Nova Scotia town of Wedgeport. The occasion for the gathering there of more wealthy sportsmen than you can count on both hands and feet was the annual "world" tuna tournament.

At a cost of $52 daily for guides, chummers and captains plus transportation from several corners of the world, the price of tuna hauled out of famed Soldiers' Rip by the well-to-do anglers was estimated at $50 a pound.

Brownsburg Couple Feted On 25th Anniversary

Mr. and Mrs. Russel Sutton, of Brownsburg, who were married 25 years on September 12, were honored at a surprise party the evening previous to their anniversary, given by their son, Carmen, in Brownsburg Legion Hall. Immediate relatives helped to make this occasion a success in every way.

Mr. and Mrs. A. Stewart, of Lachute, having invited Mr. and Mrs. Sutton to accompany them on a drive to Hawkesbury, brought them back, not to their home as was expected, but to the Hall, where their many friends were there to greet them and proffer their good wishes. A total of 110 persons signed the guest book.

Dancing was enjoyed, and a mock wedding was staged, with the bride, the former Thelma May Graham (daughter of William A. Graham of North River) supported by her sister, Ruby, Mrs. Irvin Clark, and the groom by Mr. Clark. Mr. and Mrs. Clark had acted as bridesmaid and groomsman for the couple, 25 years ago. Mr. Alwyn Stewart, of Brownsburg, acted the part of officiating minister, offering the "brice and groom" some humorous advice.

The bridal bouquets looked very effective and realistic — but on closer scrutiny proved to be clever arrangements of snowy cauliflowers in their green casings, from which protruded quaint little radish roses on long, slim spikes, and asparagus fern. The small white boutonnieres for the gentlemen were composed of a snowy white onion surmounted with small fronds of the fern, and like the bridal bouquets looked quite the part.

Many attractive gifts adorned the table, which was centred with a beautifully decorated three-tier wedding cake. The "bride's" immediate family presented them with a chest of silver.

Guests were present from Montreal, Montebello, Thurso and Pointe au Chene, as well as local residents. Seated at the bride and groom's table were Mr. and Mrs. Sutton, Sr., Mr. W. A. Graham, Mr. and Mrs. Archie Graham, Mrs. Jas. Clark and Mrs. D. W. Candlish.

The happy evening closed with the best wishes of all that there might be a "repeat performance" in their 50th year, with many happy experiences in the years between.

Appreciation

The Ladies' Legion Branch 71, B.E.S.L., of Brownsburg, wish to thank the following for their cooperation in their recent fall Fashion Show:

Mrs. Dorothy Beaudry, Mr. L. Lupien, Brownsburg Drugstore, Mrs. Marcoux, Mlle. Decaire, Miss A. Lapp, Margo's Beauty Parlor, Mr. L. Perreault, Mrs. G. Todd, Mrs. Poche, Mrs. Giroux, Miss E. Malacket. -1c

TOUGH GROUSE

Duncan, B.C. (CP) — A large grouse recently left Miss Connie Bonner's home as quickly as it had entered, breaking two windows in the process. The bird apparently was not even scratched.

An advertisement in a New Jersey paper: "Visit our clothing department. We can outwit the whole family."

If you want to replace out-of-date or worn-out plumbing in your farm-house . . . there's good news for you at the Bank of Montreal.

Lack of ready cash need not hold up those much-needed improvements. A B of M Farm Improvement Loan can put the latest plumbing equipment on tap in your home. And there's no substitute for the comfort and convenience made possible by modern plumbing.

B of M Farm Improvement Loans are available for financing such worthwhile purchases as modern furnaces, hot-water systems, improved toilet facilities and many others.

Don't put off your plumbing improvement program any longer! Talk over your needs with the manager of your nearest branch of the B of M. He'll be glad to show you what a B of M Farm Improvement Loan can do for your farm . . . and how little it costs.

WORKING WITH CANADIANS IN EVERY WALK OF LIFE SINCE 1817

"NOW ON TOUR"

Correspondence From Overseas

Brighton, Sept. 11, 1953

Dear Readers:

Time has gone so quickly, and we have done so much since my last letter that I really have forgotten just where I left off. However, I believe we were on our way to the Continent and boarded our huge BEA plane at 10.30 a.m. Monday. It was a beautiful day and as the sun shone brightly we looked down on the green fields, many of which were under cultivation and in all presenting a most picturesque scene. Travelling at over 250 miles an hour we soon reached Paris, refreshments being served to 40 passengers en route. Once settled in our hotel we looked up Doug Willmott, who married Miss Anne McOuat, and who is in Paris with the Cunard S.S. Co. It was nice meeting someone from home and we had an enjoyable chat. That evening we took a night tour of the city, passing many of the important buildings and viewing the illuminations. Included in the trip was a visit to the Latin Quarter, the tough part of Paris, where we saw night life as experienced by the less prosperous, and then in contrast a visit to the Lido, a fashionable Night Club where they put on a real entertaining floor show. This is considered one of Paris' best. In the morning another tour took us down the Grand Boulevards with their famous sidewalk cafés, which are generally crowded with people enjoying their national drink "wine", or having other refreshments. This was of course novel to us and seemed quite strange at first. History is connected with all the older buildings and attention is centered on the wonderful architecture which graces them. One of these, the Church of St. Mary - Magdalene was planned by Napoleon as a temple to the glory of his armies and patterned after ancient Greek architecture. Louis XVIII converted it into a place of worship and its central location and majestic appearance have made it one of the notable churches of the world. Passing down the rue Royale to the Place de la Concorde, we now see the obelisk which was brought from Egypt and is a sister of Cleopatra's Needle in New York's Central Park. The Palace of the Invalides, our next call, was built by Louis XIV as a home for crippled French soldiers, and here we saw the tombs of Napoleon and Harshal Foch, the former resting in a majestic, sculptured crypt, with a pale blue light from the dome making it a scene of solemn and impressive grandeur. Then there is the Eiffel Tower built for the Exhibition in 1889 and rising to a height of 984 feet, which no doubt symbolizes Paris more than any other structure; and these are only a few of the many buildings which make this city famous.

From Paris our next stop was Lille, by electric train, and these travel at speeds of about 80 miles per hour. After all, it is a small world, and in conversation with a Mr. Brodeur, sitting opposite us, we found that he once lived at St. Hyacinthe, only 100 miles from Lachute. Naturally, we were pleased to meet him and he took us to our hotel in the car that was meeting him. There is nothing particular to mention about Lille other than it was fairly close to the old war scenes which I wanted to visit, so hiring a drive yourself car, which was just large enough for we two and our luggage, our own tour was on, and we were off to revive memories of over 35 years ago. In the short time at our disposal it was impossible to visit all the old familiar spots, but we did pass through Bethune on our way to Lillers. It was at this latter place that we had bought presents to send home at Christmas time. Close by was Bourecq and I located the old Estaminet which was still open for business, although madame had passed on. Quite often, when stationed here, we would get some hot water and shave at night in preference to breaking the ice in the creek early next morning. The old barn close by I could not find and presume it was demolished to allow passage of a fine new highway. Other places on our route were St. Hilaire, Auchez-au-Bois, Ferfay, and Bruay where we stayed overnight, and which has more than doubled in population with of course many new and up-to-date buildings, Estrée Cauchy, Camblain l'Abbé, Villers-au-Bois, Carency, Mont St. Eloi, with the ruins of the old church on the hill standing out just as they were, and Nouville St. Vaast. At Noeux les Mines we called at the old farm house where we were billeted in the lean-to shed. At the time we were there, the presnt owner was a prisoner in Germany. His mother who was there in our time had passed on, but we received a welcome and took a few pictures of the present family. At Vimy we spent some time at the Canadian Memorial, which is a grand structure and a most fitting testimonial to the thousands of Canadians who paid the supreme sacrifice. Close by, the trenches are still kept as they were, and we brought back a few pebbles and bits of chalk from way down deep. At Arras we had a look at the cemetery where on the last push we had spent the best part of a night. Naturally it presented a much different appearance than when scathed by war. On to Cambrai we took the Douai Road and passed the spot where on September 29 I was wounded. Quite close we stopped at a cemetery and found the names of many men of the 42nd Battalion, killed the same day. It seemed strange but we were brought close to home again for here Sgt. Harry Hammond, of the P.P.C.L.I. was also buried. He was killed on September 30, and we were very pleased to have accidentally found his grave. Off again in our midget car we were back in Lille by 6 p.m. having spent two days in fulfilling a long wished for desire. Back to our same hotel, we had dinner and went to bed tired but happy with our experience. Cemeteries are well kept and flowers are always present. A guide to the names is in each one, together with a visitors' autograph book.

Early next morn we had breakfast in our room and were soon on our way to Brussels, which is also a most historic city and the capital of Belgium. Here again we viewed the ancient and beautiful Cathedral with its wonderful architecture, and colored windows, reminding us of the years and years of labor spent in the construction of these grand buildings. Just as we entered the large Public Square we noticed considerable excitement in front of the City Hall which is a huge building and contains within a magnificent ball-room. Cause of all the running to and fro was that marriages were being conducted consecutively by a lady alderman and no time was being wasted. As soon as one couple was joined in holy matrimony another stepped up for a similar ceremony. As in Canada there was much style to some of the participants, while others were dressed quite ordinarily. The large Square, surrounded by tall buildings, is symbolic of the earlier days when each trade was here represented and figures representing all kinds of occupations are carved or shown by columns or figures pertaining to each class of work. Having a friend in Antwerp was very nice and we were met by Mr. and Mrs. J. Ashton at 4.30 o'clock, Mr. A. driving one of the latest models of Ford. During the last war he served with the U.S. Army in Belgium and during his sojourn met a charming young lady with the result that they were married and now have two young boys and a little girl, really a wonderful family, and so well behaved.

Saturday evening we witnessed a large display of fire-works which was put on to celebrate their day of Liberation, for let it not be forgotten this city was also in the midst of both wars. On Sunday morning while on tour of the city we witnessed a magnificent Roman Catholic Parade which represented all the different branches connected therewith and their varied and colored banners. This was miles long and presented a most colorful spectacle. I was surprised to see the modern and up-to date buildings of General Motors and Ford Auto Companies. All parts are of course shipped over here, then assembled, but according to agreement, anything manufactured here, such as upholstery, batteries, etc., must be used to finish the car ready for the road. England and France favor the small cars similar to the Baby Austins, but in Belgium and Holland, the larger cars are in much greater demand. Throughout our trip we viewed with interest new construction of roads and buildings and the very great number of apartment houses which as in Canada are being constructed to cope with the shortage of dwellings. Beautiful parks and mile after mile of avenues and roads lined on each side with gorgeous trees make the cities and countryside of the continent a most picturesque place in which to live or visit. Mr. and Mrs. S. De Groof, parents of Mrs. Ashton, were also most kind to us and we were their guests for dinner after a very pleasant drive through the suburbs of Antwerp. This city of course also boasts of its ancient and modern buildings which to say the least are most attractive.

Leaving Antwerp at 7 a.m. we reached Amsterdam in time to take the morning trip to the famous island of Marken. Here the Dutch people have a little settlement all of their own, and look quite primitive, still wearing their wooden shoes, heavy baggy pants and colorful garb. The ladies also dress in a similar fashion as do the children, and everyone seems to be perfectly happy in their humble but picturesque surroundings. It was wash day when we arrived and all the lines were full of clean white clothes. Most of the men folk make a living fishing, while their wives take care of their homes and families. Houses are painted in bright colors and with the sun shining it leaves a very impressive picture in one's mind.

We were quite surprised to see the great number of canals in Holland, and astounded to know that the station at which we arrived, along with hundreds of other structures, were built on piles driven deep into the ground. Then throughout the city barges travel back and forth with their produce which they often unload at the back door of the warehouse. In the city itself there are 80 canals and 400 bridges. Sight-seeing motor boats run throughout the day taking tourists to see what we thought existed chiefly in Venice. Then there are the house boats, many of which are quite elaborate, where people live permanently and comfortably. Wednesday was spent in a full day's tour calling at a Wooden Shoe Factory and watching the simple process of manufacture. Proceeding onwards we passed sections where homes were built on piles and completely surrounded by small canals with bridges connecting across the front to the main road. This has all been brought about owing to the smallness of the country and it has been necessary to reclaim the land which was at one time covered with water. Holland is famous for its big variety of flowers and we were taken to visit the premises of the co-operative society, "Central Aalsmeer Auction Mart", which was organized in 1912. It operates somewhat as follows: In the morning the newly cut roses, carnations or lilacs are conveyed and distributed on the different flower trollies by the staff. On these trollies the flowers are carried and placed before the buyers, who comprise wholesalers, retailers and exporters. Several dealers have packing-places which they hire, and where they have an opportunity to prepare the flowers in a quick way for despatch. These packing-places are provided with packing-tables, racks for the cases, telephones, etc. In the localities where the sales take place, opposite the platform, you find the electric auctioneering apparatus, which automatically performs the work of the auctioneer. Furthermore, there is a gallery on which the auction-master and the clerk are sitting during the auction. All the seats of the buyers on the platform have a number and near every seat there is a press-button, which enables the buyers to come into contact with the auctioneering apparatus. When a trolley with flowers has come in front of the platform the auction-master mentions the name of the grower and the quantity of the lot which is to be sold, while an assistant holds up the flowers to show them to the buyers and points out any deficiencies. The hand of the auctioneering apparatus, which resembles a huge clock, begins to move and passes in an anti-clock wise direction, the numbers from 100 to 1 which are to be found along the edge of the dial plate and as soon as this hand has come to the numbers indicating the price which a buyer wants to spend on a parcel of cut-flowers, he presses the button near his seat, the hand stops and the lot is his. It is immediately seen who the buyer is, as an electric light begins to glow behind the corresponding number on the dial plate. The clerk jots down the various data on vouchers, which together with the auction books are automatically transported to the paying office and everything must be paid for immediately after the auction is over. A great part of this transport takes place by the typical Aalsmeer barges, nearly all provided with outboard motors, and these are unloaded in a covered harbour. Canals seem to abound everywhere and on farms the barges are used for transportation of hay or any other produce that may be garnished from the fields. And as we looked from our speeding bus it was common to see masses of flowers of different colors and covering quite large areas.

Passing through Susdeck, our attention was drawn to Queen Juliana's residence, a most attractive building of pure white. She was in residence that day as the Royal Standard was flying. The following day she visited Amsterdam, but we were off on another tour. At the Hague we were greatly impressed with the International Palace of Justice Building, a majestic structure built of materials largely donated by the various countries. Floors were all in mosaic and done by workmen from France. The marble used came from Italy. A huge and spectacular vase was a gift from the Czar of Russia; there were large tusks from the King of Siam and many more donations. In the main room where once or twice in the year representatives gather to discuss world affairs each chair had its own coat of arms and presented a most impressive appearance. At this point we had a drive along the shore of the North Sea where people were still summering and many in bathing.

Returning to Amsterdam at about 6 p.m. we were amazed at the thousands of bicycles being used. With a population of about 900,000 we learned that there were some 400,000 cycles in use and that the person without one was considered poor. We spent an hour and a half reaching the Hook of Holland by electric train, and boarded the steamer Amsterdam, arriving at Harwich next morning. Within two hours we were back to London again and viewed numerous places which were bombed and have still to be rebuilt. And so ended our tour of the Continent, which was packed full of adventure and excitement. Our only regret was that we could not remain longer.

There are many things we have missed telling you about, such as the cheapness of living in Holland, making it an ideal place to spend a holiday; the fact that their new houses are very modern with large picture windows, all of which are spotlessly clean. Wages are less than half of Canadians', but rents and cost of living run in proportion.

In Belgium there is a population of some eight millions with 3 to 400,000 on relief; here as well as in Holland there is compulsory voting; in Antwerp there is a dock area of 25 miles around the city; during the war every bridge was destroyed by enemy bombs and replaced by army substitutes; there was pleasure at the result of the German elections. At present there are hundreds of thousands of Americans and Canadians in Germany in government positions and trying to maintain good relations in case of another war. Bombings in the last war took place in different cities at exactly the same time after which the Germans made announcements and simply took possession; 50% of Italy's and France's population is communistic and could not be relied upon should another war occur.

And so back in England again we will visit relatives and friends and possibly drop a few more lines before leaving again for Canada.

Until then — Cheerio.

— R. A. Giles

GO TO CHURCH ON SUNDAY

Brownsburg Regular Baptist Church
Rev. Geo. Hicks, B.Th., Pastor
Bible School 10.00 a.m.
11 a.m. Church Service.

New Heavens and A New Earth

At the New World Society Assembly of Jehovah's Witnesses, Yankee Stadium, New York City, this splendid and encouraging book was first released for distribution. It has a first edition of two million copies. Illustrated, with gold-embossed dark-blue binding, it contains 384 pages of valuable information.

"New Heavens and a New Earth" is a Bible study publication designed to help you see and appreciate that a new world is now at hand, a world of God's building, and a world to be maintained in perfection by Him. It tells how entry into and everlasting life in that new world are to be gained by persons now alive on earth. Read about a new-world society that is now forming and learn how you may become a part of this great gathering for survival.

Send a remittance of only 50 cents, and a copy of "New Heavens and a New Earth" will be sent direct to you, postpaid. Get your copy as soon as possible by writing today — The Watch Tower, 40 Irwin Ave., Toronto.

AMONG THE CHURCHES

Harvest Thanksgiving At Morin Heights

Morin Heights — An inspiring service was held at Trinity Anglican Church on Sunday morning, when the annual harvest thanksgiving festival was observed. A large congregation was present, and the service was conducted by the rector, the Rev. Horace G. Baugh, with Mrs. R. Seale as organist. Flowers, vegetables, fruit and other donations gave the church a pleasing harvest atmosphere, and a substantial offering was realized — this to be devoted to the furnace fund.

Renovations on Avoca Churches

(Our District Correspondent)

Avoca — The Baptist Church, which has recently been painted inside and outside by Mr. Bryant Smith (student in charge) and a few of the members, is a great credit to their efforts.

Work on the Anglican Church of St. Mary, Avoca, which was begun some time ago, including repairs to foundation, the chimney, windows, the porch, and interior painting, has been completed for the present, at a cost of $350, which has been met by a grant from the Associated Parish of Christ Church, Montebello, and by donations from members of the Seigniory Club, and work will be completed in the spring, when the little church will be 100 years old, and services will be resumed in this church after a formal re-opening by the Bishop and other clerical dignitaries.

Legion Auxiliary Resumes Activities

The Ladies' Auxiliary, Branch No. 70, of the Canadian Legion, held their opening meeting of the season on Monday evening at the Legion Hall with the president, Mrs. R. Burns, in the chair.

General business was discussed and plans were made for a "military whist" to be held on Wednesday evening, September 30.

Following the meeting a social time was spent, with Mrs. H. Ward and Mrs. R. Burns in charge. Refreshments were served by Mrs. D. Ogilvie and Mrs. C. Ward as hostesses.

Social and Personal

Mrs. Franco Consiglio, of Piedmont, Que., spent Monday and Tuesday of this week as the guest of Mr. and Mrs. George McGibbon at Dalesville.

~

Miss McGuire, of Western Australia, sailed for England on Tuesday after spending several days with Mrs. Geo. Leggett. Miss McGuire was one of the Australian delegates to the A.C.W.W. Convention held in Toronto.

~

Mr. and Mrs. Eugene Billey and little daughter, Brenda-Lee, of Flint, Mich., have taken a cottage for a short vacation while visiting in and around Lachute.

~

Mr. and Mrs. Orvil Johnson and daughter, of Bala, Ont., have been visiting with Mrs. Johnson's parents, Mr. and Mrs. W. K. McArthur, prior to taking up residence in this vicinity for the winter months.

~

11,000-Mile Auto Tour

A thrilling motor trip was enjoyed by three girls — Miss Vivian Barker, Lachute, Miss Marion Dixon, Dalesville, and Miss Margaret Entwistle, Town of Mount Royal — who returned recently from a two-months' tour via Chicago to Mexico and California, visiting Banff, Alta., and returning through the northern States. The girls travelled 11,000 miles in a 1947 Chevrolet car, experiencing no flat tires or auto trouble throughout the trip.

~

Birthday Party

A surprise party, given by the family, was held at the home of Mrs. William Jackson on Sunday, September 13, to celebrate her 64th birthday. Mrs. Jackson received many lovely gifts, among which was a bouquet of flowers decorating the table for the buffet supper, which was held at 6 o'clock. The birthday cake, also a gift, was tastefully decorated in white and pink with candles outlining the number "64".

Mr. and Mrs. John Nichol returned home last Sunday after spending a pleasant vacation at Miami Beach, Florida.

~

The Rev. G. T. Spriggs is in Toronto this week attending the annual alumni conference at Wycliffe College.

~

Miss Mary Ruth MacKimmie, Bill Steeves and Stanley Alexander left this week to commence studies at Bishop's University, Lennoxville. The Misses Louise and Evelyn Laurin are returning to Bishop's to continue their courses.

~

Mrs. R. Pillage, of Montreal, is spending several days with her son and daughter-in-law, Mr. and Mrs. J. A. Pillage.

~

Miss Mary Miller and Miss L. Harrison, R.N., are spending a couple of weeks at Lake Louisa.

~

Mr. and Mrs. John C. Miller and Miss Joyce Miller, of Prince Albert, Sask., are visiting relatives and friends in Lachute and vicinity.

~

Attends Convention Of Fire Chiefs

Fire Chief Geo. Y. Deacon left Sunday for Toronto to attend the Canadian Association of Fire Chiefs convention. The annual Dominion conference was held Monday, preceding a four-day conclave of the International Association of Fire Chiefs. At the latter convention delegates are attending from England, the United States, Puerto Rico, Japan and the Philippines.

~

Wins Scholarship

Miss Constance (Connie) A. Dunn, of Lakefield, 1950 graduate of Lachute High School, has been awarded a Quebec Women's Institute scholarship. Connie is in the graduating class of the Household Science course at Macdonald College. The award, the Mrs. Alfred Watt Memorial, is in memory of the Canadian woman who took the Institute to Gt. Britain and later became the first president of the Associated Country Women of the World. . . The scholarship is in the Household Science course at Macdonald.

Mr. and Mrs. W. K. McArthur left by auto Saturday for Atlanta, Georgia, where they will attend a meeting of the Odd Fellows' Sovereign Grand Lodge. They will be absent for several weeks.

~

Mrs. Elizabeth Bott, of Yarrawonga, Victoria, Australia, visited with Mrs. Geo. Leggett prior to spending last week with Mr. and Mrs. Geo. McGibbon in Dalesville. A delegate at the A.C.W.W. Convention in Toronto, Mrs. Bott has since returned home by air-route.

"Tigers' Night"

Don't Forget — THURSDAY, 17th, 9 p.m.

Don't Forget — Come and meet the Tigers.

Don't Forget—For Tickets, Rex Café, Main Street.

Don't Forget — to come, and bring your wife or best girl.

Lachute Tigers' Night will be at the local Auditorium this evening, Thursday. The event is under auspices of the Gagnon Club. (Dance and refreshments, $2.)

All Tigers supporters should rally round, to make the evening a success and to meet all the players.

Tonight, at the Auditorium!

* * *

For my last column this season, I want to thank especially the undermentioned:

Dick Brayley, publicist of Laurentide League.

Oscar Major, of Le Petit Journal.

Bert Soulieres, Horizons Sportifs, Le Canada.

Roland Gauvreau, A Coup Sur, Joliette Journal.

J. J. Dupré, Ici et la dans les sports, L'Argenteuil.

Jacques Beauchamp, Le sport en General, Montreal Matin.

Jean Seguin, Clairon Sportif, Montreal Matin.

Bob Chicoine, Echo Sportif, Montreal Matin.

Paul Parizeau, Du soir au matin, Montreal Matin.

J. P. Sarault, Le coin des Sports, Canada.

Jerry Trudel, Bonjour les Sportifs, Montreal Matin.

These gentlemen have certainly helped the Lachute Tigers to be known all around.

I also want to thank Lachute Baseball Fan No. 1, none other than that expert on baseball, René "Rex Café" Gagnon, for all that he has done for the Tigers, never sparing his time, money, co-operation, enthusiasm, etc.

Thanks to all (except a few) of the local merchants for their entire co-operation, either financially or by gifts, etc.; and special note should be made of Yvon Cadieux, Main Street, and Albert Malacket, Main Street — two of the most generous donors this season.

To the members and directors of "La Jeunesse Sportive de Lachute Inc.", under R. Laurin, L. Lamarche, and Ted Vachon, not forgetting Gaby Valois, etc. — thanks for giving us all a wonderful baseball season. They can rest assured that the summer of '53 will be remembered for a long time to come.

To Jerry "Jerome" Cotnoir, the best coach — thanks, and good luck in Sherbrooke.

To Stan Breard — Well, old timer, you certainly showed us how a second baseman should play.

To Paules — Let's hope to see you at 1st Base again in 1954.

To Walter Hardy, the best at Short — Take a good rest, Walter, and let's hope that in 1954 you will lead the league at bat, as well as in the field.

To Bud — Thanks for your sporting spirit and enthusiasm. Let's hope you will be back in a Tigers' uniform next summer.

To Ricciani — You came late, but you certainly filled the place.

To Eddie — Well, Eddie, you're still the Basket; keep it up!

To Claude "Tiger" Groulx — Baseball is an American game, but you certainly showed them that a "Quebecois" could be the BEST, and you certainly deserve the Player of Distinction Trophy. And don't forget to be back in Lachute!

To Fritz Luciano — Well, next year come early, for the fans like to see your pitch.

To Hoffman — Good luck at university, but keep in good shape.

To Malone — Let's see you in good condition, and the other clubs won't have a chance.

To Fred Bourbeau — I hear that Drummondville needs you, but I hope you will still prefer old Lachute.

Haig — We did not see much of you, but the little we saw indicated that you will be back early next spring.

To Maesch — Your enthusiasm and cheers were a big help.

To one and all in the organization — our warm appreciation for this fine baseball season.

"Gorgeous George" Grant, Bob and Ray Lortie, on B'burg Arena Mat Card

Attractions in Wrestling Program Next Monday

The perfumed and coiffured "Gorgeous George" Grant, complete with his valet Tito (Geoffrey the midget) — who puts on an effeminate front but stages awesome tactics in his wrestling — is announced as a star attraction for the mat program at Brownsburg Arena next Monday evening. His opponent is the popular Bob Lortie, champion in his class.

The promoters of these bouts, in addition to a preliminary contest, have matched Ray and Donald Lortie against the Couture brothers, Ray and Jean-Louis, in a team set-to which will fill the bill for thrills and spills. There should be nothing lacking for excitement in this program.

Grenville Consolidated School News

By Willis Young

School has re-opened again and there are many new faces among the pupils. The enrolment is somewhat larger than last year, with approximately 250 pupils. An outstanding feature in the school is the addition of Grade XI this year, which enables pupils from Grade X to complete their studies here.

* * *

The annual School Fair was held at the school on Monday, September 14. There were over 100 entries, including a large gander and an exquisite budgie bird. There was a beautiful display of garden flowers and the cooking, which was all creditably done, made is difficult to select the prize-winners. Both Mr. and Mrs. A. Bothwell, in commenting on the event, said it was the largest School Fair in the county, and they congratulated the pupils on having such a fine showing of exhibits.

Auction Sale

At the farm of
THOMAS WHITE,

Inspirational Film, Produced in Canada, At St. Simeon's Church

A new sound color-film, entitled "The Power Within" will be shown at St. Simeon's Church, Lachute, Thursday evening, September 24, at 8 o'clock.

This is a film of great beauty and inspiration. Its purpose is to inform the people of the Church of England in Canada what they are doing through their own Missionary Society to bring the power of the Spirit of Christ into the lives of the people of their own country and in lands abroad. The problems and the opportunities of church expansion, the joys and difficulties of the missions, are all brought out to encourage the audience to take their own share of responsibility in the primary and still unfilled duty of the Church.

The film opens with a scene in St. Bartholomew's Church, Ottawa, (the Governor General's church) where the preacher gives the sermon in the form of a story. After a few introductory remarks on the need for the Power of the Spirit of Christ in the life of every individual, the scene fades out into the pictures of "The Power Within" as it is seen at work in the lives of people in the Arctic, Japan, India, along the B.C. Coast, amongst the Canadian Indians and in all types of Canadians.

The public are invited to see this film, produced by Crawley Films of Ottawa, Canada.

Quick Canadian Quiz

1—How do these three islands rank in compartive area: Anticosti, Prince Edward, Cape Breton?

2—Will the ten provincial governments collect more or less than the federal government in taxes this year?

3—What one industry uses one third of all electric power generated in Canada?

4—Farmers in what province have the greatest cash income from the sale of farm products?

5—Manufacturing is the leading producer of wealth in what provinces?

ANSWERS: 5—In all provinces but P.E.I., Sask., and Alta. 3—Pulp and paper. 1—Cape Breton, Anticosti, Prince Edward. 4—Ontario. 2—The provinces will collect about $1.2 billion; Ottawa will collect about $4.5 billion.

NEWS AND SHORT SUBJECTS

Rockies Attract Australian Artist

Trail, B.C. (CP) — Pioneers came to this Kooteney valley district despite the mountains which ring it. But Leon Blumer, an Australian mountain climber came here because of them.

A mountaineer who has scaled peaks in 11 countries, the Sydney man has five Canadian "first ascensions" to his credit. He hopes to form a west Kooteney club of kindred souls who aren't happy unless they're looking down on other people from 8,000 feet or higher.

Already the quiet-spoker Australian has gathered together a group of six fellow-climbers and with them spends week-ends hopping from peak to peak through the Cascade range.

Mr. Blumer's mountain experience began when he was a boy of 17 in Sydney. Since then, he has been mountain climbing all over the world. He recently scaled Mont Blanc in the French Alps.

One of the most famous United States peaks he has topped is Mount Rainier in Washington State. Rainier, on the Pacific coast, is 14,000 feet.

He came to Canada in October, 1952, and went directly to Vancouver. He forsook the comparatively low hills (3,000 to 5,000 feet) in that vicinity and a month later was chipping away with his alpenstock in the Kootenay.

He has been at it ever since. His reason? "Climbing is a great sport and is attractive for the scenery alone. However, friendships are formed on the way up and the climb is made into something real and valuable."

Gounod's "Faust" On Montreal TV

Irving Guttman is convinced that TV is "the answer", when it comes to opera, because the camera can bring into alignment within a relatively small space all the salient dramatic moments, thus making the action more convincing. "This is especially true", he says, "of many of the older operas which have always been hard to stage are now full of loopholes as to their credibility."

Guttman is the stage director for the CBC-TV production of Gounod's "Faust", to be presented from Montreal September 20, from 9.30 to 11.00 p.m. It will be CBC-TV's second full-length operatic production, the first having been Mozart's "Don Giovanni" from Toronto last May when the Montreal-Toronto TV network was inaugurated.

This is Guttman's first CBC production, but his experience in opera includes three years as assistant stage director for the Opera Festival in Toronto; another year in Central America; and two seasons at the New Orleans Opera. Two summers ago he directed the Montreal Festivals production, "Romeo and Juliet", and before embarking on his career he had spent five years at the opera school of the Royal Conservatory of Music of Toronto, working with Hermann Geiger-Torel.

Sets for the TV production have been designed by Pierre Delanoe, a young artist who was well known in France as a sculptor and painter before he came to Canada three years ago. The opera has been in preparation at CBC Montreal since last June. Set and costume designs went on the boards and the coaching of soloists began at that time. Altogether there will have been 70 hours of full-scale rehearsals before the opera goes on the air.

Leading singers in "Faust" include two with whom Guttman worked in "Romeo and Juliet": Irene Salemka, who was born in Manitoba, but is claimed as an artistic product of Montreal; and Yoland Guerard, who returned to Montreal recently after eight months with the Lyons Opera Company in France, where he sang some 30 different roles. The Mephisto costume he will wear in the CBC production was made for him in Paris. Irene Salemka will sing the role of Marguerite. Pierre Boutet, appearing as Faust, is an established member of the CBC Opera Company, having sung in the radio productions of "Carmen", "Rigoletto" and "La Traviata".

The producer of "Faust" for CBC-TV will be Pierre Mercure, also a composer of note.

Jackie Rae

"Produced by Jackie Rae" has long been the signature for many of the CBC's top variety shows. Best known for his handling of the Wayne and Shuster show, he also master-minds many other mirth and melody programs such as Mr. Show-business, Holiday Inn, and Cables Concert Band. The 31-year-old producer can call on a wealth of experience; he was on the stage at the age of three and has been actively engaged in show business ever since. Turning his spare time to song-writing, Rae, with partner Lou Snider, hit the jackpot a short time back with the popular ballad "Valley of the Saints".

RESTAURANT GUIDE

Meal maps may soon flicker around Paris. The device consists of a list of food specialties with a button next to each. Press the button and a light flashes on an adjacent map to indicate the location of the best restaurants for that delicacy. The inventor has one of the gastronomic guides on exhibition now, and plans a string of them throughout the city.
— Marketing

Foreman: "How is it that you carry only one plank and all the other workmen carry two?"
Worker: "They're too lazy to make two trips like I do."

Canadian Dancer Sets New Fashion In Scottish Games

London 15-year-old Patricia Ewen, of Toronto, created a stir when she competed in the dancing events at the Aboyne (Scotland) Games on September 2. She not only took first prize in the Highland Fling and second in the Sword Dance competitions in her class, but she appeared in an entirely new type of Highland costume. The Games Committee were particularly impressed as they have for some time been giving thought to a new type of dress for women competitors. Miss Ewen's outfit, first introduced in Canada last year, consists of a light-weight tartan (worn over a white petticoat) and plaid of the same material. A tight-fitting sleeveless velvet "corsage" is worn over a white blouse. Most of the other dancers were the old official dress — white blouse and tartan skirts with long black stockings.

CALLING ALL WOODSTOCKS

London — The little town of Woodstock, eight miles from Oxford University, is inviting the Woodstocks of the world to join in the restoration of the bells in its ancient church tower. The first three Woodstocks to respond were: the largest overseas Woodstock (in Ontario), the oldest (in Connecticut) and one of the smallest (in Tasmania).

HONORS WRITER

Milton, N.S. (CP) — A tablet erected by the Historic Sites and Monuments Board was unveiled here in remembrance of Margaret Marshall Saunders, whose book "Beautiful Joe", about a dog, became an animal classic. Native of Milton, Miss Saunders died in Toronto in 1947.

Wrestling Showman

Gorgeous George, who adapts all the showmanship arts to the wrestling game. Complete with valet, Gorgeous George (Grant) appears next Monday at the Brownsburg Arena, matched in a feature bout against Bob Lortie.

Consistent Winner

Cliff Lumsden at 22 has found a way to earn $5,000 a year by working only 4½ hours a day — once a year. That's how long it took the big guy from New Toronto, a suburb of Toronto, to win his fourth 10-mile swim at the Canadian National Exhibition. First prize is a cool $5,000.

Of course, Lumsden puts in many gruelling hours of training. But in becoming the first man to win four CNE marathon swims, he finished strongly in four hours, 26 minutes and 46 seconds, which compares with the record of 4:19:27 set by Frank Pritchard some years ago.

Here's Your Proof—
There's None So New As Nash!

Styled by Pinin Farina, world's foremost custom car designer, the new Nash Airflytes have introduced the continental trend to America.

CANADIAN STATESMAN

NEW CONTINENTAL STYLING! NEW POWERFUL ENGINE!
NEW LUXURY INSIDE AND OUT!

CONTINENTAL STYLING!
Functional design of Pinin Farina styling means more interior roominess, more all-round luxury, more driving pleasure than in any other car built in Canada today.

AIRFLYTE CONSTRUCTION!
Only Nash builds cars with the double rigidity of Airflyte Construction for greater strength, long, rattle-free life and higher resale value.

ROOM AND VISION GALORE!
Here are the widest seats, front and rear, of any car. With the widest windshield and rear window, you enjoy the best go-level visibility.

NEW POWERFLYTE ENGINE!
Brand new Duoflo carburetor and other improvements bring you 22% greater "passing" acceleration and amazing gasoline economy. In the Ambassador, you may choose from two great new powerplants—"Le Mans" Dual Jetfire Engine and the Super Jetfire Engine.

RECLINING SEATS AND TWIN BEDS!
No other car in the world has them! Nash Airliner Reclining Seats adjust to five comfortable positions at the flick of a lever . . . can even become spacious Twin Beds in seconds!

Canadian Grapes

Grapes are among the oldest fruit in the world. Probably second only to the apple. We have grapes from California, from Spain or from Italy, on the market most of the year — but right now, our own good Canadian grapes are ripening on the vines. Most of the grapes grown in Canada are known as Native-American bunch-type grapes or "slip skin grapes". They are called Native-American because the roots for this standard variety are from Native-American vines that grew wild along the coast where the first colonists landed.

Ontario takes the honors for producing over 90% of our annual grape crop with British Columbia a very distant second. As a matter of fact, last year our Canadian grape production was about 87 million pounds and of this amount Ontario produced about 85 million pounds and British Columbia, 2 million. The grapes grown in Canada are all purpose grapes, for they can be eaten out of hand or they can be made into jams, jellies or wines. Probably the most common variety of grape grown is the Concord. It is a large black grape with an abundant blue bloom. It is spherical and has a tough flesh and is very juicy. The Frendonia is another black variety of grape and there is also the Warden and the President. The Delaware is an excellent variety of red grape, the berries are smaller than the Concord and it has a sort of lilac colored bloom. Some varieties of green grapes are also produced in Canada.

The best way to enjoy the rich flavor of grapes is to eat them out of hand. So often, homemakers are so busy making grape jelly or grape jam that they forget to serve the fruit fresh when it is in season and after all, if we do not eat plenty now, then it is too late when winter comes. Be sure to keep a bowl of well-washed grapes on the table at all times now, because there are plenty on the market and they are excellent in quality. When buying grapes, look for plump firm fruit. If the grapes are for table use, make certain that they do not drop off the stem at the slightest touch. Avoid grapes that are mouldy and wet and have soft flesh.

One good Canadian grapes are perfect for grape juice, jam or jelly and if you plan to make any this year, now is the time to do it. Even if you have not planned to make say grape jelly, or grape jam, why not make some anyway, because next December, your family will think it was well worth your effort as they spread grape jam on hot breakfast toast or when you serve shimmering grape jelly with a roast chicken.

Grape jam is delicious and this is the recipe from the Consumer Section at Ottawa:

Grape Jam

Wash and stem grapes. Press pulp from skins. Cook pulp 10 minutes and put through a sieve to remove seeds. Add skins to pulp and measure the mixture. Measure the sugar to be added later, allowing ¾ cup to each cup of fruit. Bring skins and pulp to boil and boil, uncovered, about 10 minutes or until skins are tender. Add sugar, bring to boil and boil to jam stage — about 20 minutes, stirring frequently. Pour into hot sterilized jars. Cool slightly and seal.

Veal Loaf in Most Seasonable Form

By Betty Barclay

Here's a veal loaf that will be the star of any party, whether it's for the youngster's gang or your own friends. Shape the meat like a football (now right in season) and "lace it up" with gay strips of red pimiento. This main dish is just as pretty when it's cut, because hard-cooked eggs and pimiento rolls are placed so they will show in every slice. Note: You can also press this loaf into a regular loaf pan or into any other shape you might wish.

Pimiento Veal Loaf

2 Pounds veal (ground), ½ pound pork (ground), ½ green pepper (chopped), 1 onion (chopped), 1 tablespoon lemon juice, 1 teaspoon salt, 1 cup fresh bread crumbs (packed), 1 egg, ½ cup milk, 1 tablespoon Worcestershire sauce, 6 strips bacon, 3 hard-cooked eggs, 1 4-oz. can or jar of pimiento.

Mix all ingredients except bacon, hard-cooked eggs, and pimiento. Divide the mixture in half and press one half into baking dish in the shape of a football. Press a hollow down the centre and place eggs in it, end to end. Make rolls of pimiento and place on each side of the eggs. Now place remainder of meat mixture over this and finish patting into a football shape. Place strips of bacon over top. Cover and bake 40 minutes at 300 degrees F. Remove cover and bake 30 minutes longer. Garnish with pimiento lacings on football. Serves six. Serve with:

Pimiento Mushroom Sauce

Heat 1 can condensed mushroom soup, ½ cup milk, and 2 whole pimientos chopped into bits. Season to taste and serve in side dish.

Attractive Souvenirs Of Coronation Year

The Watchman publishers have a number of Coronation spoons for any who would care to own these attractive souvenirs. Purchased to fill requests following our subscription premium dates — these teaspoons are now on sale, at practically cost price, 50 cents each, or six for $2.50. Readers may order by mail or call.

Customer: "I want to buy a plow."

Clerk: "Sorry, we have no plows."

Customer: "This is a heck of a drug store."

A Red Cross nurse and a volunteer worker in attendance on youngsters in the children's ward of a Montreal hospital. The child in the foreground is being prepared for a blood transfusion, and has just had an alcohol swab applied to his arm.

For Junior Hostess

By Betty Barclay

Here is a dessert so easy to make that even the Junior hostess can handle it without any trouble. The recipe directions are given and when followed, the result is a delicious and nutritious "Raisin Apple Rennet Custard" — one that may be served to your Junior guests, or to adults, too, for that matter. Excellent with cake or cookies for television snacks, parties, or as desserts for any meal, these rennet custards are as easy to digest as they are to prepare.

"Would you care to try some?" the young lady in the illustration asks. Follow her suggestion and enjoy a real treat.

Raisin Apple Rennet Custard

¼ Cup chopped raisins, ½ cup thick applesauce, 2 cups milk (not canned), 1 package vanilla rennet powder.

Mix raisins and applesauce. Divide among 4 dessert glasses. Warm milk slowly until lukewarm, stirring constantly. When comfortably warm (110°F.) not hot, remove at once from heat. Stir in entire contents of package vanilla rennet powder at one time. Mix until powder is dissolved — not over one minute. Pour at once, while still liquid, into dessert glasses. Do not disturb for about 10 minutes, when milk sets. Then chill in refrigerator until serving time. Serve plain or with whipped cream.

Wife Preservers

You may wash your nylon, rayon and vinyon garments, fabrics which are in common use, in your washing machine, but the wash time should not exceed three minutes for these synthetic fibers.

Local Girl Wins Q.W.I. Scholarship

Announcement of the two scholarships awarded annually by the Quebec Women's Institutes, in the School of Household Science, Macdonald College, has just been made. Both go to girls from rural districts, one of the provisions of these awards. Miss Doris M. Hayes, Shawville, wins the Campbell MacFarlane Memorial, established in memory of the first Q.W.I. demonstrator.

The second scholarship goes to Miss Constance A. Dunn, Lakefield. This is the Mrs. Alfred Watt Memorial, created three years ago in memory of the Canadian woman who took the Institute to Great Britain and later became the first president of the Associated Country Women of the World.

Both scholarships are given in the first three years of the degree course at that School. Miss Dunn will be in the graduating class this coming year and Miss Hayes is entering the third year. The best wishes of the Q.W.I. go with them as they return to their studies.

BROTHERS, SISTERS, IN DOUBLE WEDDING

Regina (CP) — Weddings can result in plenty of confusion.

A sister and a brother were married to a brother and a sister in an unusual double wedding in Swift Current, Sask.

Liane Jean Moen, of Stewart Valley, became the bride of Harry Lloyd Tedrick, of Calgary. His sister, Eleanor, of Swift Current, exchanged vows with Miss Moen's brother, Neil, of Stewart Valley.

And speaking of weddings, a little girl's dream came true at the wedding of Frederick Gsellman, of Regina to Jurgen Zarek.

Miss Gsellman, daughter of a baker, used to say as a child that she wanted her father to bake her a cake as tall as she when she was married.

And that's what she got — a seven-tiered cake, as tall to the inch as the five-foot, three-inch bride.

Fish Ponds Offer Important Food Source

A carp goes into a basket for moving to a breeding pond in Indonesia, where fish culture in ponds is highly developed. A school of fish culture techniques will soon open a six-week long session at Djakarta in Indonesia for students from the Indo-Pacific area. The U.N. Food and Agriculture Organization sponsors the training course to open new food possibilities for people of hungry lands

Woman War Veteran Operates Own Farm

Australian Girl a Former Air Force Transport Driver

Walcha, Australia (CP) — An Australian woman has realized a life-long dream to own her own farm through the federal government scheme to settle war veterans on the land.

Maisie Schaefer of this New South Wales town, a former transport driver in the Woman's Australian Air Force, put her name down for a farm under the scheme. She recently learned she had won a 1,200-acre grazing block under a ballot held for the farm properties.

Maisie is a fifth generation Australian and every generation has been on the land.

When war broke out her brother joined the Army and Maisie then became her father's "right-hand man". At one stage she ran the 3,000-acre property alone while her father was in the hospital. She joined the Woman's Air Force when her brother came home in 1945.

When she was discharged, among the "career" pamphlets she received was one concerning her eligibility for land under the Federal Settlers' Scheme.

After gruelling interviews and oral examination by the War Services Land Settlement Classification Committee about her farming knowledge and experience, she received her qualification certificate.

Fine Estate

Her property is part of a fine Walcha grazing estate which has been sub-divided for close settlement. When she took it over it comprised a few empty paddocks, five dams and a set of old stockyards.

With no other helpers but "Teddy" her kelpie and "Bally" a cattle dog, she musters, brands and dips her own sheep. At shearing time, she classes her own wool clip, her father's and some of her neighbors.

Her 40 Red Face cattle need little attention, but there is always plenty of clearing, plowing and fencing to be done.

Her father has a high opinion of Maisie's business ability. In one deal, of which he disapproved at the time, she spent $450 on Red Face cattle when prices were very low. But as the herd increased she sold them off making in all $3,500 on the transaction.

Fellow graziers respect her judgment and ability, saying, "Maisie could manage any property anywhere". Now that she at last possesses her own holding she plans to make it a model property.

FOR PARENTS ONLY...

A Weekly Feature of Helpful Hints on Child Training

For the Family!

— By NANCY CLEAVER — (Copyright)

Robert C. Hermes, an Audubon lecturer, tells a delightful story about his meeting with a little French Canadian girl in the Gaspe peninsula. He asked her how to reach the next village and while she replied he looked at her earnest little face, her poor, but clean, mended gingham dress. She belonged to a large family and he knew that candy would be a real treat for her. So he took out a handful of toffee and thrust them into her small open fist. He expected her immediately to stuff several candies in her mouth. But no — she carefully selected one piece and put all the rest in her pocket. Joking, Mr. Hermes asked her in French "Don't you like candy?" Quickly she protested that she loved sweets, but patting the pocket with the toffee in it she explained, "C'est pour la famille!"

* * *

"It is for the family!" — That little girl's mother was doing a good job in training her daughter not just to think in terms of herself, but to remember the other members in the home circle. Willingness to share an unexpected treat with brothers and sisters is a pretty good test of the family bond. Would your son or daughter, in a similar position, have shown this kind of generosity?

A child is naturally self-centred and acquisitive. If he is an only child he doesn't get much practice in dividing up with other relatives his own age. Even if he belongs to a large family, his parents may sometimes feel quite gloomy about the strength of family affection. "Youngsters do so much scrapping!" one mother of a small family sighed to her friend, who answered comfortingly, "It's their nature — and they likely don't do any more quarrelling than we did when we were kids — only we've forgotten our fights!"

A certain amount of friction between brothers and sisters seems inevitable. With normal children in an ordinary household, everything certainly is not what Ruskin called "sweetness and light"! Each child struggles for his own share of his parent's affection. Each youngster is jealous of his own rights and keeps a wide-awake eye on his own possessions.

Bickerings and tiffs within the home walls are not all together bad. They give a child experience in give and take, in being a good sport about failure and success. These home battles help to prepare a child to make his own way in the face of opposition in the outside world.

If arguments become too frequent or too heated, parents can always impose a period of separation. One mother of three active small boys used to say firmly to squablers: "If you can't play happily together, then you'll just have to go to your own rooms and play away from each other!"

When a member of the family is abused by someone outside the home, or if the household is facing some unexpected crisis, then the strength of the family bond is usually apparent. Parents as a rule can depend on Junior to look out for sister Janie if she is being bullied on the way home from school. A threat from an outsider, or anxiety, if it is shared, help to make each member of the family conscious of the home unit.

Some form of Family Council, either a formal or informal one, on major problems and expenditures help the children to think in terms of the good of the whole family, and not just of their own selfish interests. The discussions may not be as effective as those in "Cheaper by the Dozen", but they do point up the claims of the home on each member's time and thought and energy.

Once in a while mother has made home so pleasant and the bond between the members in the family so strong, that the sons and daughters, when they become adults, are in no hurry to set up their own homes. But parents who are mature people want to see their children accept increasing responsibility for their own lives, and eventually for their own homes. One of the finest tributes to a mother and father came from a man who grew up in a home where there was a particularly warm and loving atmosphere — Albert Switzer said of his parents: "They trained us for freedom."

Excessive Worry Means Ill Health

Toronto (CP) — Fortune-tellers are still being asked to pronounce on life and love, but those who are worried can help themselves more by adopting a better mental attitude towards their problems.

That's the advice of Dr. John Griffen, director of the Canadian Mental Health Association. He says life and love are matters of vital importance to the mental health and adjustment of the individual. Many persons of course take their troubles to their clergyman or doctor, but some put their trust in the crystal-gazers.

Dr. Griffen said everyone lives with a certain amount of worry, tension and frustration. Up to a point, all three stimulate the individual to greater efforts. "But when they start interefering with sleep, appetite and general well-being, the time has come to sit down and start thinking things out."

As a guide to mental health, he recommends: "List all the frustrating worrisome things about your life in two lists — those you can do something about and those you can't."

Thinking over which are which, he said, helps to clear up a lot of the worries.

Many things are good for both physical and emotional health. Top of the list are rest, diet and exercise, followed by occupation and a wide program of activities.

A sense of humor is an important qualification, he said. "Worries melt before a man who can laugh at himself and laugh with others."

HAVE MORE BEAUTIFUL WALL-TO-WALL CARPETING with our Smoothedge TACKLESS INSTALLATION

Solar stove

IN INDIA, scientists have worked out a way to cook food by sunpower. A polished aluminum bowl suspended above a cooking pot directs the sun's rays to a mirror, which reflects the heat to the bottom of the pot. It sounds a bit complicated to us — but the fact is that the solar cooker turns out a meal as fast as a 300-watt electric stove.

It's just one more indication that food and aluminum go together — in containers, utensils, foil and in the equipment used by the dairying and food processing industries. Aluminum Company of Canada, Ltd. (Alcan)

September Session Of Morin Heights Municipal Council

(Our District Correspondent)

Morin Heights — The regular monthly meeting of Morin Heights Municipal Council was held on Tuesday, September 8 (Monday being a public holiday). Mayor Chas. D. Campbell was in the chair, with Councillors R. E. Jamieson, Paul Baumel and Edward Greer in attendance.

The mayor opened the meeting with prayer, in the customary manner, and after adoption of the minutes the meeting was declared open to the public for any matters which they wished to place before the Council.

Mrs. Emile Guenette stated a case in which her son's property had been sold by the County Council for non-payment of taxes. The mayor explained that in accordance with Articles 754 to 757 of the Municipal Code this matter should be taken up with the secretary-treasurer of the County Council, as it was now out of the hands of the local authorities.

The Rev. H. G. Baugh spoke about a sidewalk being placed upon the south side of the main street, and Mr. A. Hamilton also spoke on the same matter. The mayor stated that at the present time the Council did not have this improvement in mind.

On resumption of the regular business, the secretary presented the accounts, which were passed for payment.

The Fire and Police reports were then presented and accepted.

The secretary advised the Council of certain property transfers that had taken place, and was authorized to make the necessary corrections to the records. A request to close a portion of a montée road in the First Range was received, and Mr. J. E. Brown was appointed special representative to make the necessary procès-verbal and carry out the work in accordance with the Municipal Code.

The mayor was authorized to sign a hospitalization card, which was presented.

A resolution was passed asking that the Department of Roads take over Millard Street and Second Avenue for maintenance and repair, as it was now asphalted.

Letters were read from the Sanitary Unit, which had been addressed to various persons in the municipality.

The question of larger bulbs in the street-lights was discussed and a committee of the mayor, Councilor Baumel and the secretary were appointed to look into the situation and report at the October meeting.

A letter received from Mr. J. H. McMahon accepting his appointment as auditor for 1953 was read, as also were two letters received from a proprietor, Mr. Gibson, regarding questions which he wished to have clarified.

A petition was read from certain proprietors at Lake Echo and Lake Britton to have the road in that section of the municipality widened, and the secretary was instructed to forward a copy to W. M. Cottingham, M.L.A.

The question of signs for the protection of school children in school areas was discussed, and the secretary was instructed to write to both school boards upon this matter.

Authorization was given for the work of laying an extension to the water main along 6th Avenue, together with a hydrant to service the properties in that area; also for the cleaning of the waterworks system and the covering of the main at Davis Creek and Lawson Kennedy's.

The secretary was further instructed to write to certain persons regarding their non-purchase of dog licenses and to advise them that the by-law would be applied immediately.

The secretary was instructed to post notices calling for tenders for the winter cleaning of roads, these tenders to be opened at the October meeting, with provision that neither the highest, lowest, nor any tender need be accepted.

Authorization for the placing of a hydrant at the four crossroads in the village was also given, and there being no further business, the meeting was closed.

DISTRICT NEWS FROM OUR COUNTY CORRESPONDENTS

Mabel

Mrs. David McDonald, of Verdun, spent Monday of this week with Mr. and Mrs. George H. Murdoch.

Friends of Mrs. Cecil Clark will be happy to know she is recovering satsifactorily, after being confined to bed with pneumonia.

Mrs. Donald MacDonald and children, Malcolm and Mary, of Lachute, visited Mr. and Mrs. John Black recently.

Avoca

Mrs. Neil McCallum has left for Montreal to spend the winter months.

Mr. and Mrs. Jos. H. Bates, of Montreal, spent the week-end at their home in Calumet. They had as their guests Mrs. Thos. J. Young, of Grenville, Mr. and Mrs. Archie McPhee, of Vancouver, B.C., Mr. and Mrs. Allan McPhee, of Avoca.

Mr. Cecil Young has purchased the farm owned by the late Thos. J. Young. The community join in welcoming Mr. and Mrs. Young as residents.

Guests of Mr. and Mrs. Geo. Andrews were Mr. and Mrs. Davis Shaw and family, of Presque Isle, Maine, Mr. and Mrs. John Noonan and family, of Port Colborne, Mr. and Mrs. Mervin Kelly and family, of Calumet.

Guests of Mr. and Mrs. Jos. J. Young were Mr. and Mrs. John Noonan and family, Mrs. Geo. Bisset, all of Port Colborne. Mrs. Jos. J. Young returned home with them for a short visit.

Visitors of Mr. and Mrs. Wm. McLeod last week-end were Mr. and Mrs. Arthur Ball and daughter, Maureen, Miss Dorothy McLeod and Mrs. Donna Currie and sons, all of Verdun, Mr. and Mrs. Garnet MacLeod and little son, of St. Laurent.

Mr. Archie McPhee spent Monday with his brother, Mr. Allan McPhee.

Members of the Church of St. Mary will meet at the home of Mr. and Mrs. James R. Young, Pte. au Chene, for their next service on September 20, at 2.30. The Rev. Mark Beanfoy, M.A., will officiate.

Miss Barbara Andrews entertained a number of her friends from Calumet, Grenville and Kilmar to a "corn-boil" at the home of her aunt, Mr. Howard Smith, last Friday evening.

Mr. and Mrs. Larry Fox visited the latter's parents, Mr. and Mrs. George Nixon. Miss Catherine Nixon left to spend some time in Montreal.

Friends are glad to know that Mrs. Everett Young is home from hospital, much improved in health.

Cushing

Mrs. Jas. McAllister, of Hawkesbury, spent the past week with Mrs. L. M. Gaston.

Mrs. R. T. Holmes, of Montreal, was the guest of Miss Alice Davidson this week.

Mrs. S. H. Beecher, Mrs. Jas. Chambers, Mrs. J. L. Maw and Miss A. Eadies, of Montreal, spent Wednesday at "Lilac Lodge".

The monthly meeting of the W.C.T.U. is postponed until the end of this month.

Callers on Saturday at the home of Mr. and Mrs. Archie Graham were Miss Maguire, from Australia, Mrs. C. L. Duncan and Mrs. A. Geo. Leggett, of Lachute.

An interesting W.M.S. meeting was held Tuesday at the home of Mrs. J. Owens, Stonefield Heights, with Miss E. Botterell, of Ottawa (recently of South Africa), as guest speaker.

The family of Mr. and Mrs. D. Riddell, of Pointe Claire, occupied their Cushing home on Sunday.

Miss E. M. Graham, of Verdun, visited her parents on Friday evening.

Mr. and Mrs. McGain, Mr. and Mrs. J. Brown, also Mr. and Mrs. A. Hollingworth and family, of Montreal, occupied the McGain summer cottage over the week-end.

50th Wedding Anniversary

Hearty congratulations are extended to Mr. and Mrs. Andrew R. Graham, of Monalea Road, former Cushing residents, who will have been married 50 years on September 23.

Lyn Ashbrook, editor of the Rodney Mercury, Ontario, looks happy and he has reason to be. He's holding one of the larger fish caught recently during the C.W.N.A. tour of parts of northern Saskatchewan. This fish wasn't quite big enough, however, and Jack Pinckney, editor of the Rosetown (Sask.) Eagle, walked off with the fish derby prize. (Photo by Mike Kesterton)

A Red Cross volunteer worker is looking through the Blood Bank 'frig for the proper type of blood for a needy patient. All bottles are checked for the type of blood contained in them, and then carefully marked with this information, as well as the number of the bottle. By checking this number with the key list, the Red Cross can tell you the name of the person who gave the blood that saved your life.

St. Andrews East

The many friends of Mrs. Walter H. Scott are pleased to see her home again after her serious illness.

Miss Audrey Entwistle spent the week-end with her parents, Mr. and Mrs. W. Entwistle.

Miss Agnes Sutherland, of Montreal, is visiting Miss Mary Lamb.

Mr. J. W. Jeffrey spent a few days last week with his parents, Mr. and Mrs. W. R. Jeffrey.

Miss Elizabeth Wales, accompanied by two friends, was in town Saturday to attend the golf competition.

Mr. and Mrs. Percy Hall were in town on Saturday attending the wedding of their cousin.

Miss Ruth Wallerstein returned to Madison by plane on Thursday.

Mr. and Mrs. Benj. Howell are spending three weeks at their cottage here.

Mr. and Mrs. Garnet Pride spent the week-end as guests of Mr. and Mrs. Pat Mellers.

Mr. and Mrs. F. Rejall and two children, Linda and Robert, spent the week-end with Mr. and Mrs. Rejall.

People who say that you cannot fool nature, have never watched a beauty-shop operator at work.

Winners at Recent 4-H Calf Club Arundel Show

Following are the results of the Boys' and Girls' 4-H Calf Club Show held in Arundel on Friday, September 11:

Holstein Calves — 1 Darryl Rathwell, 2 Ronnie Swail, 3 Val Morrison, 4 Berrier Bates, 5 Douglas Staniforth, 6 David Batty, 7 Brian Staniforth.

Ayrshire Calves — 1 Charles Johnston, 2 Murray Staniforth, 3 Ronald Alan, 4 Ronald Hess.

Shorthorn & Guernsey Calves — 1 Joan Williams, 2 Ron Williams, 3 Edward Godin, 4 Stuart Godin.

One-Year-Olds — 1 Val Morrison, 2 Ronnie Swail, 3 Brian Staniforth, 4 Edward Godin, 5 Douglas Staniforth.

Two-Year-Old — 1 Ronnie Swail.

Championship — 1 Charles Johnston, 2 Darryl Rathwell.

Showmanship — 1 Charles Johnston, 2 Murray Staniforth, 3 Val Morrison, 4 Ronald Alan, 5 Ronnie Swail, 6 Douglas Staniforth.

The judging was done by Alex Bothwell, county agronomist, and Donald Robertson, Federal livestock promoter.

Weir

Mr. Earl Pennington, of Montreal, spent the past week at the home of Mr. and Mrs. Wm. Owen.

Mr. and Mrs. B. Graham, also Mr. and Mrs. G. Carrol, of Montreal, were recent guests at Mr. and Mrs. Harold Craig's.

Mrs. K. Cowan, of Montreal, is spending the present week at the home of her mother, Mrs. A. Larose. Mrs. Val Swail, of Arundel, also spent a few days with Mrs. Larose this week.

Mr. and Mrs. W. Dubeau spent the past week visiting friends in Granby and Montreal.

Mrs. T. H. Greenbank entertained the ladies of the Women's Auxiliary at her home on Thursday afternoon.

Mrs. G. R. Beaven and son, Ralph, are spending a few days with her parents, Mr. and Mrs. C. Smith, in Montreal.

Grenville

Mr. Walter Bigelow, of Val Barrette, Que., spent the week-end here with his family, at the home of Mr. and Mrs. Cori Gauley. Messrs. Vernon and Lionel Farrell, of Kinburn, Ont., were also guests at the Gauley home. Miss Esther Gauley has returned to her teaching duties in Rivington, Que.

Mr. Charles Jolicoeur, of Toronto, called on Mr. and Mrs. Thomas Canning last week, and found many changes had taken place in his home town; he had not visited here for 40 years.

Mr. and Mrs. Hugh Mortimer, accompanied by Mr. and Mrs. Stanley Dewar, were guests Monday evening of Mr. and Mrs. Walter Dewar in Brownsburg.

Mr. and Mrs. John Canning are on a holiday trip and are visiting with their son, Mr. Innes Canning and Mrs. Canning, at Sudbury, Ont.

The Rev. and Mrs. R. Watson, of Cushing, were guests Sunday evening of the Rev. and Mrs. P. R. Stote.

Mr. Keith Canning spent Tuesday in Ottawa.

Mr. and Mrs. J. Colby, of Westmount, are spending a month's holiday at the home of Mr. and Mrs. Ed Barron.

Are you having troubles? Let a Want Ad help you solve them!

School Fair at Grenville Proves Successful Event

Produce and Handicrafts, Pets and Poultry, Exhibited By Over 100 Pupils

Monday of this week saw the largest school fair to be held in Argenteuil County this year, at the Consolidated School in Grenville. Over 100 pupils exhibited vegetables, field crops, flowers, cooking, canning, sewing, woodwork, poultry and pet stock.

Following are the prize-winners, as listed by the county agronomist, Alex Bothwell:

Beets — 1 Hannah Keatley, 2 Carol Barkley, 3 Vera Keatley, 4 Eunice McMichael, 5 Murray Bennett, 6 Doris Nevers, 7 Margaret Bates, 8 Ann Bevan, 9 Olive Kennedy, 10 Helen Kennedy.

Carrots — 1 Hannah Keatley, 2 Helen Kennedy, 3 Vera Keatley, 4 Margaret Bates, 5 Doreen McRae, 6 Graham Murphy, 7 Jeffrey Murphy, 8 Joan Owens, 9 Murray Bennett, 10 Ann Bevan.

Beans — 1 Kathleen Bennett, 2 Ronnie Crooks, 3 Drummond Hall, 4 Wanda Hall, 5 Olive Kennedy, 6 Jerry Smith.

Cucumbers — 1 Margaret Bates, 2 Helen Kennedy, 3 Olive Kennedy, 4 Vera Keatley, 5 Hannah Keatley, 6 Ronnie Crooks, 7 Wanda Hall, 8 Phyllis Crooks, 9 Kathleen Bennett.

Corn — 1 John Prophet, 2 Vera Keatley, 3 Hannah Keatley, 4 Eunice McMichael, 5 Deanna Hall, 6 Kathleen Bennett, 7 Drummond Hall, 8 Ronnie Crooks, 9 Wanda Hall, 10 Phyllis Crooks.

Lettuce — 1 Graham Murphy, 2 Jeffrey Murphy, 3 Vera Keatley, 4 Hannah Keatley.

Radishes — 1 Hannah Keatley, 2 Vera Keatley, 3 Helen Kennedy, 4 Graham Murphy, 5 Jeffrey Murphy.

Onions — 1 Wanda Hall, 2 Drummond Hall, 3 Hannah Keatley, 4 Ann Bevan, 5 Gloria Andrews, 6 Vera Keatley, 7 Jerry Smith.

Cabbage — 1 Heather Stone, 2 Marilyn Carol, 3 Violet Bennett, 4 Murray Bennett, 5 Danny Stote.

Cauliflower — 1 Margaret Bates.

Parsnips — 1 Hannah Keatley.

Parsley — 1 Euphemia Kelly.

Potatoes (12 in basket) — 1 Murray Bennett, 2 Hannah Keatley, 3 Harvey Hoare, 4 Eunice McMichael, 5 Euphemia Kelly.

Potatoes (6 in basket) — 1 Drummond Hall, 2 Deanna Hall, 3 Wanda Hall, 4 Everett Arthurs.

Tomatoes — 1 Olive Kennedy, 2 Hannah Keatley, 3 Westover Stote, 4 Danny Stote, 5 Phyllis Crooks, 6 Ronnie Crooks, 7 Marilyn Carol, 8 Judy Cowan, 9 Carol Barkley, 10 Eunice McMichael.

Turnips — 1 May Keatley, 2 Vera Keatley.

Squash — 1 Vera Keatley, 2 Hannah Keatley.

Melons — 1 Ronnie Crooks.

Citrons — 1 Ronnie Crooks, 2 Phyllis Crooks.

Large Pumpkin — 1 Shirley Young, 2 Eunice McMichael, 3 May Keatley, 4 Joyce Andrews, 5 Jerry Andrews, 6 Norman Andrews, 7 Carol Bates, 8 Euphemia Kelly.

Small Pumpkin — 1 Nancy Vaillancourt, 2 Phyllis Crooks, 3 Ronnie Crooks, 4 Vera Keatley.

Apples — 1 Diana Foreman, 2 Michael White.

Woodwork

Hammer Handles — 1 Murray Bennett, 2 Everett Kennedy, 3 Everett Arthurs, 4 Doris Bennett, 5 David Reeves.

Bird House — 1 Clyde Morrow.

Shelf — 1 Kelvin Rourke.

Cooking

Decorated Cake — 1 Helen Kennedy, 2 Judy Ann Smith.

Plain Cake (not iced) — 1 Carol Barkley, 2 Penny Foreman, 3 Margaret Stewart, 4 Barbara Cowan, 5 Vera Beauchamp, 6 Gloria Bigelow, 7 Helen Kennedy, 8 Hannah Keatley.

Pie — 1 Beverley Young.

Oatmeal Cookies — 1 Doris Nevers, 2 Helen Kennedy, 3 Olive Kennedy, 4 Margaret Stewart.

Peanut Butter Cookies — 1 Jean Kennedy, 2 Eunice McMichael.

Ginger Bread Cup-Cakes — 1 Helen Kennedy, 2 Olive Kennedy, 3 Vera Keatley, 4 Beverley Young.

6 Cup-Cakes (all same kind) — 1 Carol Barkley, 2 Vera Beauchamp, 3 Hannah Keatley, 4 Eunice McMichael.

Bran Muffins — 1 Olive Kennedy, 2 Helen Kennedy, 3 Hannah Keatley.

Candy — 1 Carol Dubord, 2 Margaret Bates, 3 Eunice McMichael, 4 Vera Beauchamp, 5 Hannah Keatley, 6 Frances Tomaschevsky.

Canning

Carrots — 1 Lorna Morrow, 2 Betty Beauchamp.

Beets — 1 Marlyn Carol, 2 Lorna Morrow.

Corn — 1 Lorna Morrow.

Beans — 1 Lorna Morrow, 2 Betty Beauchamp, 3 Barbara Cowan.

Onions — 1 Graham Murphy.

Sewing

Aprons — 1 Margaret Bates, 2 Doris Nevers, 3 Ann Bevan.

Pot Holders — 1 Margaret Bates, 2 Margaret Rourke, 3 Joan Owens, 4 Gloria Bigelow, 5 Ann Bevan.

Embroidery Work — 1 Olive Kennedy, 2 Heather Stone, 3 Heather Lessard, 4 Phyllis Crooks, 5 Judy Cowan, 6 Marlyn Carol.

Knitting — 1 Barbara Cowan, 2 Carol Dubord.

Flowers

Dahlias — 1 Olive Kennedy, 2 Violet Bennett, 3 Nancy Don McLeod, 4 Patsy Provincial, 5 Bernice Bigelow.

Snapdragons — 1 Bernice Bigelow, 2 Vera Keatley, 3 Jerry Smith.

Pansy — 1 Helen Kennedy.

Marigolds — 1 Hannah Keatley, 2 Doris Bennett.

Sweet Peas — 1 May Keatley.

Zinnias — 1 Olive Kennedy, 2 Jerry Smith, 3 Judy Cowan.

Asters — 1 Deanna Hall, 2 Drummond Hall, 3 Wanda Hall, 4 Vera Keatley, 5 Hanaah Keatley, 6 Marjorie Vaillancourt.

Cosmos — 1 Hannah Keatley, 2 Doris Bennett, 3 Willard McLean, 4 Joan Vaillancourt, 5 Gail Boyd, 6 Marjorie Vaillancourt.

Gladiolus — 1 Barbara Andrews, 2 Vera Keatley, 3 Jeffrey Murphy, 4 Marlyn Carol, 5 Barbara Andrews, 6 Marjorie Arthurs.

Petunias — 1 Deanna Hall, 2 Graham Murphy, 3 Violet Bennett.

Mixed Bouquet — 1 Patricia Druce, 2 Jeremy Druce.

House Plants (Special) — 1 Marjorie Arthurs, 2 Doris Nevers, 3 Olive Kennedy, 4 Helen Kennedy.

Pet Show

Kittens (Group) — 1 May Keatley.

Kittens (Pairs) — 1 Heather Stone, 2 Charlie Boyd, 3 Brannan Boyd.

Mother Cat and Kittens — 1 Judy Cowan.

Kittens (Single) — Wendy Boyd, Shirley Young, Valarie Cooke, Wm. Stringer, Peter Lessard, Linda Bennett, Doreen McRae, Murray Mills, James Provincel.

Kittens (Pairs) — 1 Heather Stone, 2 Charlie Boyd, 3 Brannan Boyd.

Mother Cat and Kittens — 1 Judy Cowan.

Cats — Diane Beauchamp, D. Welburn, Carol Cowan, Norma Cowan, H. Lessard, P. McMichael, Norma Cowan, Shirley Crooks.

Rabbits — 1 R. Timothee, 2 M. Nevers, 3 R. Andrews.

Banties — 1 Deanna Hall.

Fish — 1 S. Crooks, 2 J. Boyd.

Pigeons — 1 Donald Cowan, 2 Gordon Crawford, 3 Gary Cowan.

Budgie Bird — 1 Harry Trineer.

Poultry Show

Leghorns — 1 Drummond Hall, 2 Douglas Dubord.

Barred Plymouth Rocks — 1 Hannah Keatley, 2 Lorna Morrow, 3 Beverley Young, 4 Dougall Trineer.

Light Sussex — 1 Ronnie Prophet, 2 Jean McMichael, 3 Gary Cowan, 4 Kathleen Bennett.

New Hampshire — 1 Hartland Dewar, 2 Violet Bennett, 3 Verna Beauchamp, 4 Euphemia Kelly.

Champion Cage — Hartland Dewar.

The following acted as judges for the numerous exhibits:

Vegetables and Flowers — H. Reid, Vaudreuil.

Field Crops — Alex Bothwell, Lachute.

Poultry — D. Desjardins, St. Jerome.

Cooking, Canning and Sewing — Mrs. Alex Bothwell and Miss G. Noble, Lachute.

Woodwork and Pets — Mr. McGerrigle.

Arundel

Mr. and Mrs. Ross Swail and family, Mr. and Mrs. Billy Swail and family, Mr. and Mrs. Dennis Swail and family, Miss Marion Dixon and Mr. Don Griffith, spent Labor Day week-end with Mrs. Wm. Swail.

Mr. and Mrs. Gilbert Boyd and family, of Ste. Genevieve, visited friends and relatives in this district recently.

LAC. Clark Graham and family, of Trenton, Ont., were week-end guests of Mr. and Mrs. Alvin Graham.

Dr. and Mrs. R. Ward and family, and Mr. Leslie May, were week-end guests of Mrs. James May.

The annual school fair was held on Friday, September 11. Perfect weather helped to make it a most satisfactory and enjoyable event.

HOUSEWIFE EXPLOITS DOLL-MAKING HOBBY

Vancouver (CP) — Mrs. Francis Wise, a 55-year-old grandmother, has started a doll factory in her Vancouver home. She also manufactures monkeys, teddy bears, rabbits and other stuffed animals that delight the hearts of children.

This work has always been her hobby, but it was not until her children had grown up and married that she decided to make it a business, first enrolling for a training course in an established doll hospital.

"I wanted to study making doll faces from moulds", she said. "Up to then I'd been making them from fabrics."

CPR Had First Domes

A long forgotten genius in the Canadian Pacific Railway's motive power and rolling stock department came up with an idea at the turn of the 20th century that blossomed into additional passenger revenues for rail lines throughout the continent.

It was the first "dome" car to be used on railway lines and was designed to give passengers a bird's eye view of Canada's spectacular Rocky Mountain scenery.

Today the idea has spread throughout the world, particularly in the United States where railway dome cars are a feature of several lines.

In a recent $38,000,000 order for 155 new stainless steel cars, the C.P.R. included 36 scenic-dome cars, such as the one shown above in top picture, which will give travellers an unmatched view of this country's scenery from coast to coast. The cars will be placed in service on transcontinental trains next year.

Although the designer of the dome car prototype, shown in bottom picture above, remains unknown, he gave Canada's first transcontinental rail line a head start in railway design. In July, 1902, the world's first dome car rolled out of the shops and into service.

In it, railway passengers could sit in revolving parlor car chairs or reversible seats and have a clear view of Canada's scenery.

The car proved an immediate hit and three others, with modified improvements, were put into service. But the C.P.R.'s unknown designer had outstripped his era.

Air conditioning and Polaroid glass were unknown and the sun's ultra-violet rays proved uncomfortably warm. The cars were replaced with open-air observation cars, several years later.

The railway reverted back to its original idea recently when it ordered the 36 dome cars—more than 50 years after it first had them on the road.

"Canada's scenery is hard to beat in any corner of the land," a railway official said. "We admit the Rocky Mountain area is the most spectacular, but we believe the cars can be used to advantage from coast to coast."

SNOW GEESE BREED ON REMOTE ISLAND IN ARCTIC CIRCLE

Edmonton Physiologist Makes Summer Survey of Wild Life On Banks Island

Edmonton (CP) — Dr. E. O. Hohn, associate professor of physiology at the University of Alberta, describes Banks Island, about 400 miles north of the Arctic Circle, as having four-inch vegetation, a population of 32 persons, and a colony of 100,000 snow geese.

Dr. Hohn returned recently from Banks Island, where he conducted a summer survey of wild life. Two other members of the party are still on the remote island. They are T. H. Manning of Ottawa, and Capt. I. M. Sparrow, of the Royal Engineers, England, who are conducting a coastal survey for the defence research board.

Travelling on the island by dog team early in June, Dr. Hohn discovered a breeding colony of 30,000 snow geese. He estimated that when all the geese had arrived, they would number about 100,000.

The most important part of the trip for the physiologist was the discovery of a number of blue geese and one Ross Goose among the snow geese. Blue geese had not previously been known to breed west of Perry's River, about 500 miles east of the Banks Island breeding grounds.

To assist in tracing migration flights, Dr. Hohn banded about 80 snow geese, a blue goose and a Ross goose with United States fish and wildlife service bands.

Dwarf Vegetation

Tallest vegetation on the island he said, is only four inches high this year, although in a year with a good spring it may reach as high as a foot. The most common vegetation is "dryas", a plant that grows "in greyish clumps with a flower of sorts."

The only trees were willows that grow flat along the ground. In a sheltered place, they might reach a height of about six inches.

The highest temperature was 45. Snow didn't disappear until the middle of July, and usually returns about the end of September.

Only the natives on the island are allowed to hunt and trap there, Dr. Hohn said. The diet of the few Eskimos on the island consists almost entirely of meat, possibly with the addition of bread, some dehydrated vegetables and tea or coffee without milk or sugar.

Nevertheless, he said, Eskimos on the island are "quite civilized". Almost all have learned to speak English at two mission schools at Aklavik.

Dr. Hohn plans to co-operate with Mr. Manning in writing an article on the plant and animal life of the island. He has taken movie and still pictures, and hopes to return to the island for more material at a later date.

Authorized Bottlers for 7-UP MONTREAL CO.

Says Braille Reading Not Hard to Learn

Regina (CP) — Margaret W. Liggett, who has been teaching the blind in Saskatchewan for 32 years, says it really isn't difficult to learn to read Braille print.

Braille is not just the letters of the alphabet raised so they can be read by touch. Braille has symbols — dots placed in different patterns.

"It is the psychological problem of the brain to accustom a person to reading by touch instead of eyesight", said Miss Liggett. The length of time it takes varies from three weeks to a year.

Only about 15 per cent of blind persons read Braille. Many are too old, and others have additional handicaps which prevent them from learning.

Large Library

For those who have mastered the system, there is a library of 22,000 volumes in Braille at Toronto, sponsored and operated by the Canadian National Institute for the Blind, available to all sightless persons. Subjects range from the classics to poultry and bridge-playing.

Not all of those who read Braille are able to write it. However, by means of a stylus, a tool resembling a nail with a handle, and a Braille slate, which is a board equipped with notches to keep the writer on the right line, many are able to write their own letters, make grocery lists and jot down memos.

Some are able to manipulate the Braille writer, a sort of typewriter. It consists of six keys which type dots.

There are three home teachers instructing in Braille, typing, handicrafts and other tasks. Books they use are printed in the United States. There is a monthly Braille magazine and a weekly newspaper which doesn't enter Canada much because it deals primarily with United States news.

For the 85 per cent of blind persons who are not able to read, the "talking book" machine has been a real boon. Recordings of popular books are made by professional readers who offer their services free.

"Gone with the Wind" by Margaret Mitchell ran to 80 records; Tolstoy's "War and Peace", 119.

UNITY IS STRENGTH

Acting separately, the eastern provinces of Canada have been unable to get anything like their share of industries or public monies from the central government. Now, acting together, they might be able to exert the necessary pressure to assure Maritimers a brighter future than is sometimes apparent.

— Campbellton (N.B.) Tribune

The man who remembers what he was taught at his mother's knee, was probably face down across it.

— Exchange

Jet Pilot Flew Planes 50 mph, 40 Years Ago

Middle Wallop, Hants., England (CP) — Warrant Officer Sidney Richard Pegg, who joined the Air Force when planes flew at 50 miles an hour, bowed out by flying a jet fighter at 12 times that speed.

The two speeds encompassed an interval of 40 years, the length of Pegg's air force service.

He joined the military wing of the Royal Flying Corps in 1913 and took the salute in a farewell parade August 9 this year. His air force number, 910, was the lowest in the RAF. He was the senior non-commissioned officer in the service and at five feet three inches, probably the smallest.

In a farewell flight Pegg flew in a Meteor jet fighter at more than 600 miles an hour. He said he could recall flying in his early days at 50 miles an hour.

First Liberian Textbook Deals With U.N.

Looking over the first school textbook ever published in the West African Republic of Liberia are Mrs. Beatrix P. Ronquillo, chief of United Nations educational liaison, and Richard S. S. Bright, Permanent Representative of Liberia to U.N. The book, written by Miss Dora Lee Allen, an American teacher who is now working in the Liberian school system, bears the title, "Our United Nation

Friends Big Asset Of Weekly Editor

Wife of B.C. Publisher Is Versatile Assistant

Victoria (CP) — Mrs. Al Hardy says one needs friends to run a successful country newspaper and she should know.

A few years ago her husband, a former sports editor, retired as secretary of the British Columbia Turf Club, and announced that he had a hankering to own a country weekly.

Sadie Hardy, who had always lived either in Victoria or Vancouver, didn't know what a country newspaper was, but she was game to find out.

"So we bought the Bridge River - Lillooet News, in 1949", she said on a visit here. "That was the coldest year Lillooet (120 miles north of Vancouver) had seen in 50 years. We had five stoves going round the clock in the building but still everything froze.

"When we tried to get the one and only plumber, he simply said to fix the things ourselves. He was busy trying to thaw out his own pipes.

Frozen Press

"The north wind blew for five solid weeks. . . The press froze solid and we had to thaw it with electric heaters, but we never missed an issue.

"That was my initiation to a country newspaper. . . A lot of ink has run over the press since then . . . and over me."

Mrs. Hardy reports weddings and funerals, records comings and goings, and has a folksy column she describes as "pure corn". On press days she helps in the make-up room and assists with the mailing, sends out the bills and keeps accounts.

"We simply can't keep printers for long", she said. "They drift into town, stay for a few months and then go on their way. You've got to have friends when you run a country newspaper. If you don't you might as well fold up and forget it."

Watchman Want Ads bring results.

Canada Population Now at 14,781,000; Living Cost Higher 3 Successive Months

"THE WEEK AT OTTAWA"

By Don Haworth, Canadian Press Staff Writer

Ottawa, Sept. 14 (CP) — The first cabinet meeting held since Prime Minister St. Laurent returned from his Quebec holiday produced gifts of many sorts.

For 60,000 federal office workers there is a five-day week, and this is promised also for operating staffs shortly.

For quake-torn Greece there is $500,000 worth of aid in building materials, salt cod and powdered milk.

Eight former parliamentary assistants — just below cabinet rank — were confirmed in their jobs for the new parliament, and a ninth was appointed. W. G. Weir, 57-year-old member for Portage-Neepawa, Man., will be assistant to the prime minister.

The eight who resume as parliamentary assistants ($4,000 a year in addition to normal indemnities of $4,000 a session and $2,000 tax-free expense allowance) are:

Paul E. Cote, 44, Montreal-Verdun (Labor); Robert McCubbin, 41, Middlesex West (Agriculture); J. Watson MacNaught, 49, Prince, P.E.I. (Fisheries); J. A. Blanchette, 60, Compton-Frontenac (Defence); W. M. Benidickson, 42, Kenora-Rainy River (Transport); Leopold Langlois, 40, Gaspe, Que. (Post Office); J. W. Dickey, 39, Halifax, (Production); and Jean Lesage, 41, Montmagny-L'Islet, Que. (Finance).

Then the 71-year-old Prime Minister announced that he was giving himself an air tour round the world, 30,000 miles long, the biggest trip ever undertaken by a Canadian Government leader.

Mr. St. Laurent takes off next January, probably in the RCAF luxury aircraft C5, will likely make stops in India, Pakistan and Ceylon and possibly in Australia, New Zealand and places in Europe.

It is a courtesy trip, to return visits here by heads of overseas governments, but those who know Mr. St. Laurent say he will take the opportunity to discuss the cold war with other leaders and do what he can to strengthen ties among the democratic powers.

Missing Canadians

What has happened to the 16 Canadians still unaccounted for in Korea? The Army is working on every clue to find out.

The 30 Canadian prisoners returned by the Communists will be asked if they saw any of these men alive in the prison compounds. They will be asked to pick out photographs. Their answers will be cross-checked.

The Army does not want to raise false hopes. It has yet no reliable information that any of the missing men are alive, and the check will take a long time.

The United Nations believe the Communists still hold 3,000 prisoners.

External Affairs Minister Pearson, Retiring President of the UN General Assembly, said at a press conference that if the 3,000 are not returned "it would be pretty hard to gloss over such an important breach of the armistice."

Population Up

Canada's population on June 1 reached 14,781,000, an increase of 351,000 in a year, and Alberta became the fourth Canadian province to pass the 1,000,000 mark. Largest group of immigrants in the first seven months of this year were Germans — 19,939 of them.

Notes in News

Otawa enjoys the last gay days of decorated Parliament buildings. The Coronation decorations, put up in May and left there for the tourist season, are coming down any time now.

A nation-wide Fire Prevention Week starts October 4. In 10 years 539,697 fires have killed 4,798 persons, injured 15,000 and destroyed property worth $591,000,000.

Life Gets Dearer

The cost of living went up in July for the third successive month. The consumer price index rose from 115.4 to 115.7 in the July table just announced recently.

Up went men's clothes, rent, fuel oil, gasoline, hospital rates and knitting yarn.

Down went farm products, reflecting the shift in the initial payment for wheat to western farmers on August 1, and lower prices for potatoes, rye, peas and raw leaf tobacco. This overbalanced small gains for eastern barley, corn and western flax.

Tass Returns

Back to the Parliamentary Press Gallery comes the representative of Tass, the Soviet News Agency. He is Evan Tsvetkov.

Mr. Tsvetkov made the mistake of turning up last March with a diplomatic passport. The gallery lets in no government agency employees.

So Mr. Tsvetkov got himself a non-immigrant visa. And the gallery executive opened the door.

Music Marches On

The Army has authorized the formation of another military band — the eighth on its active list.

It will be for the Corps of Royal Canadian Engineers, will be based at Vedder Crossing, near Chilliwack, B.C., and will be 35 strong.

If there aren't enough qualified men in Canada to play in the band, the Army may bring some more musicians over from Britain and Holland. It recently brought in a batch of 75.

Rocket Range

Regular tests are expected to start early next year at the new guided missile range in northeastern Alberta. (Area 4,000 square miles, cost $35,000,000).

Two thousand airmen, technicians and their families will live there. No atom bombs will be let off; just guided missiles of the type fired from one aircraft at another.

LOTS OF GEESE

The Pas, Man. (CP) — Prof. Graham Gooch of Cornell University recently returned from Southampton Island at the top of Hudson Bay, where he and assistants banded 8,400 geese. Gooch was working for the Canadian Wild Life Service on the project.

EDITOR DIES SUDDENLY

Norwich, Ont. (CP)—John Keogh, who was associated with the Norwich Gazette for more than 40 years, died suddenly at age 66. He had been editor of the weekly newspaper since 1946.

Move Big Stove By Helicopter

Atikokan, Ont. (CP) — Moving a 400-pound cook stove into the dense bush country near here is all in a day's work for helicopter pilot Bob Gillies.

The bulky cook stove was one of many items taken by helicopter recently to a small hydro camp at Margaret Lake, about seven miles east of here. The camp will be the home of several hundred men employed constructing a new power line beetween Atikokan and the Lakehead.

Jockeying the huge stove over hill and dale was no easy feat. The first step was to fly in one man to the camp site. Then Gillies returned to Atikokan where pilings had been placed so that the helicopter could land on them, allowing space beneath so the stove could be tied to the undercarriage.

Meanwhile, the man at the camp set about digging a hole large enough to hold the stove. Gillies simply landed the plane over the hole and deposited his cargo.

UNRULY PRISONER

Hastings, Ont. (CP) — A prisoner who escaped from a cell in the village hall by kicking a hole in the wooden door was picked up a few hours later hitch-hiking along the highway. The man had first been picked up for fighting.

BREW FOR NEWFOUNDLAND

Port Stanley, Ont. (CP) — On its second visit to this Lake Erie port, the ocean freighter Perth loaded Ontario beer and ale for shipment to St. John's, Nfld. On a previous visit the Perth took canned goods and canned milk for Newfoundland points.

The fellow who sows grass seed with such enthusiasm in the fall, is the same fellow who groans about mowing the lawn next season.

Elected Canadian Business Head

W. J. Borrie, Vancouver, who was elected president of the Canadian Chamber of Commerce at its 24th annual meeting, in Edmonton this week. Mr. Borrie is president of Pemberton Securities Limited, Vancouver, and director of a number of companies. During the past year he has served as first national vice-president of the Canadian Chamber of Commerce, director of the Pacific National Exhibition, vice-president of the Vancouver Executive Association, past-chairman of the Advertising and Sales Bureau of the Vancouver Board of Trade; past-president of the Vancouver Board of Trade; past-president for B.C. of the Canadian Chamber of Commerce. In 1951, he was president of the Investment Dealers Association of Canada, being the first man from western Canada elected to this post. He takes over from Lewis W. Simms, of Saint John, N.B., former president of the Canadian Chamber of Commerce.

Have You A Question ON UNEMPLOYMENT INSURANCE OR EMPLOYMENT?

In this column we publish questions about unemployment insurance and employment, together with answers received from the Unemployment Insurance Commission.

If you are uncertain about any point do not hesitate to send your question to your district Unemployment Insurance office. We will obtain an answer and publish it in this column.

Q. I am unable to work owing to my wife's illness. Can I draw benefits?

A. One of the conditions for drawing benefit is that you must be available for work. If your wife's illness is such that you must be with her and are thus not available for work, you are not eligible for benefit.

• • •

Q. I have been paying contributions for five years to the unemployment insurance fund. Today, for the sole reason that I am getting married, I am refused the right to draw benefit. This does not seem fair. What is the reason?

A. Unemployment insurance benefit is payable only if a person, willing to work, is unable to obtain it. Usually if a woman quits her employment to get married, she is admitting that she is not going to continue to work. Otherwise she would not quit her job. If she works for at least 60 days following marriage or the first separation after marriage and so demonstrates shat she is in the labour market, she would be entitled to benefit upon again becoming unemployed.

HARD-UP THIEF

Kingston, Ont. (CP) — Some people will steal anything. Joseph McEwen reported to police that someone stole a block of salt which had been placed in his field for the benefit of cattle. He valued the block at $1.85.

High School Annual Commencement, Keynote Address on Co-operation

Principal speaker at the Lachute High School opening ceremonies, last Friday evening in the school auditorium, was the Rev. Dr. W. H. Reid, who developed the theme of Co-operation — between teachers, parents and pupils — in practical terms.

Highlight of the exercises for both the pupils and their parents was the presentation of prizes, for last year's effort in academics, progress, leadership and sportsmanship.

Jas. W. McGibbon, chairman of the school commission, conducted the proceedings. Seated with him on the platform were members of the Protestant clergy; fellow school commissioners; W. M. Cottingham, M.L.A., chairman of the Central School Board; Principal F. H. J. Royal; prize donors and their representatives, including members of the Women's Institutes; and others prominent in local education.

Mr. McGibbon introduced to the assembly two new members of the local board, Sam Milnes and Nat W. Boyd; he also paid public tribute to the devotion of a past member, Ross Muir, who had served several years with responsibility for the safe transportation of pupils to and from Lachute High School.

Mr. Cottingham deplored the dearth of candidates at the board election last month, as indicative of a certain lack of interest in the educational work to which a small body of commissioners was giving much time and effort.

Principal Royal gave a creditable report of scholastic achievements last year. He referred to the questionnaire sent out to parents, in which the majority had expressed a desire for "basic training of pupils for a vocation, for the purpose of earning a living". As a result of this, Commerce was re-established on the curriculum for those less adapted to academic subjects. To meet the views of parents and taxpayers "we have done the best we can — arranging courses to suit the majority and meet university entrance requirements", he said. Principal Royal mentioned the subject of Latin in terms of its cost ($900 for each pupil who had successfully graduated) and mentioned that, for the same reasons of economy, Grade XII, Agriculture, and Music in the upper grades, had been dropped this year. Mr. Royal enumerated the new teachers, giving a few biographical notes on each. The staff this year numbers 26, four less than last year. The report concluded with a word of appreciation to the school board and to members of the community, for their fine collaboration with the teaching staff.

Commissioner S. Milnes gave the traditional expression of thanks to the prize donors, and Mrs. Angus Taylor, president of Lachute Women's Institute, responded. The parents, she stated, had appreciated the Teachers' Association sponsoring a public speaking contest, for self-expression should be an aim of education. Similarly, parents had welcomed the opportunity to pronounce their views on school courses, through the principal's questionnaire. There are many opportunities for women to co-operate in education, and it is for this purpose that the Institutes, through their Education committees, keep in closest touch with school affairs — hoping through their active interest to serve the community more effectively, Mrs. Taylor stated.

Rev. Dr. W. H. Reid

Referring first to the Teachers, the Rev. Dr. Reid in his address remarked that "a school is only as good as its staff", but what the teachers ARE is far more important than anything they SAY, for example is the greatest moulder of the child's character.

To Parents, the speaker stressed the importance of discipline. He wished they might sometimes step into the classroom to "see how your little angels behave"; for too true, a teacher has not only to deal with the problem of teaching, but has sometimes to "overcome the deficiencies of the home, as well". Lack of discipline is generally attributable to home atmosphere.

To the Boys and Girls (third link in the co-operative chain), the Rev. Dr. Reid commended for their studies the same "zeal to win" as they exercise in their games. Hard work has no substitute; there is no other way to get ahead. "You tolerate no loafing in your sports . . . let there be no loafing in school", he concluded.

The presentation of the prizes concluded the program, which lacked only the musical interludes of previous years — signifying the curtailment of this study in the regular syllabus this term.

We have committed the golden rule to memory; let us now commit it to life. — Edwin Markham

Man Drowned As Car Plunges In Stonefield Canal

Dieudonne Turpin, 36, of Hawkesbury, met his death last Sunday when his car plunged into the canal at Stonefield. The accident occurred at approximately 11.30 p.m., but neither the body nor the car were recovered until late on Tuesday afternoon. Turpin, who lost control of his car, was alone in the vehicle at the time of the mishap.

When the victim did not arrive home Sunday night, his wife notified her brother, Eugene Proulx, also of Hawkesbury, who came to the Lachute district in search of Turpin. He was informed that a car similar to the one the man was driving had been seen turning off onto the canal road, and he searched that area, accompanied by Edmond McGuire. They obtained permission to have the canal drained and then discovered the car, which had been under six feet of water. The body was still in the car.

An inspection of the automobile proved it to be in good order; the only apparent damage was that caused by submersion under water.

District Coroner Dr. Jules Lafleur presided at the inquest, and pronounced the death due to accidental drowning.

Det. Maurice Lamoureux investigated the fatality.

'Open Door' Is Symbol of Current Red Shield Appeal

Symbol of the Salvation Army Red Shield Appeal, currently in progress for this district, is "The Open Door" to Help and Hope on all fronts of human need.

The Army represents the Open Door to men adrift, brought to a dead-end by circumstance or misdeed. The Open Door to girls betrayed by weakness or guile, facing unwed motherhood. The Open Door to children bearing the burden of handicap — orphaned, neglected, illegitimate. The Open Door to lonely old age, the lack of relatives, friends and sheltering care in the sunset years.

The Army spreads mercy to prison and hospital, holds out the hand of help and hope. The Army gladdens countless hearts through fresh-air camps for city children and their mothers.

The local campaign continues to October 3. This is your chance to help the Salvation Army to help others. Mail or hand in your contribution, big or small, to the campaign chairman, Donald M. Hay, manager of the Bank of Montreal, Lachute.

Man Missing, Believed Drowned, At Weir, Que.

David Henderson, 65, of Weir, Que., has been reported missing, and a search and dragging operations are in progress in Beaven Lake area. Henderson went sailing on the lake and his overturned sail boat was discovered on Sunday.

Local Pear Tree Bears Good Fruit

Sidney L. Elliot, Bedard Blvd., who is in the advanced class of amateur horticulturists (in fact, some years ago he planted his garden while his new home, adjoining, was still in the blueprint stage), has grown a small crop of pears — which is unusual in this northerly latitude.

On one of two trees which he imported from the Niagara Peninsula, he gathered six quarts of well-formed Bartlett pears this week. The other tree, incidentally, did not weather the climate to fruition.

Community Concert Season Opening With Piano Team

First Recital Here Booked for October 5

The Community Concerts Association reports that the New York office has confirmed the selection of artists and the dates for the current season in Lachute.

The Mauney Brothers, duo pianists.

The first concert will take place on Monday, October 5, when the artists will be the Mauney Brothers, pianists. For the past several seasons, the Mauney twins have been touring as soloists with orchestras and in recitals. As one reviewer described it, their work is "a blend of playing that makes the two instruments seem as one".

The second concert will take place on Wednesday, November 11, and the artists will be David and Maria Lloyd, tenor and violinist. David Lloyd continues to be the favorite tenor for the American orchestras. To this, David adds joint recitals with his wife, Maria, an accomplished violinist.

The third concert will take place on Tuesday, April 20, 1954, and will feature the Trapp Family, the world's most famous musical family, in unforgettable programs of music sung and played.

Admission will be by means of the regular membership. All concerts will be held in the Lachute High School Auditorium and will begin promptly at 8.30 p.m. The doors of the hall will be opened at 7.45 p.m., and late comers will be obliged to wait until the end of the first group of numbers or until the first intermission before entering the hall.

A Community Concerts Association has also been formed in Hawkesbury, and the Lachute members will be able to attend these concerts also, without charge.

Following are the season's engagements in Hawkesbury:

Sunday, November 15 — The Angelaires, harpists.

Thursday, December 3 — Pierrette Alarie, soprano.

Monday, February 8, 1954 — Conrad Thibault, baritone.

Thursday, April 1, 1953 — Mario Braggiotti, pianist.

Of every 100 Canadians, 67 speak English only, 20 speak French only, 12 speak both English and French.

Three Arrested in Traffic Offences

After striking an automobile on the interprovincial bridge in the early hours of Sunday, Lionel Sauvé, of Hawkesbury was arrested by Traffic Officer Howard Jones and will appear at St. Jerome court on a double charge, namely, of leaving the scene of an accident in which he was involved, and of driving with his faculties impaired.

The accident occurred at 4 a.m., when a car owned by Gerard Lafrance, of Hawkesbury, was struck from the rear by Sauvé's car, proceeding towards Grenville. The latter failed to stop after the collision. On his arrest later, he was taken to St. Jerome.

* * *

Jean Baptiste Lamoureux was arrested by Traffic Officer Roger Massie and charged with driving "under the influence". He was taken to St. Jerome, where he was released on bail; the hearing will be held this Friday. A companion, Germain Seguin, 19, was arrested at the same time for attempting to assault the police officer. This case will also be heard on Friday. Both men are residents of Lachute Mills.

Opening Parade And Ceremony for Blood Donor Clinic

An official opening ceremony is to be held at the Legion Hall, Brownsburg, September 29, on the first day of the Argenteuil Blood Donor Clinic. An inaugural parade is planned for Lachute, where the clinic is being held in the Auditorium the two following days.

"The response has been favorable so far, and it is hoped that many more people will return their cards by the end of this week", said Lachute Chairman Horace Lamarche. "We have the people, now we need cars to transport them", he added. Anyone with cars available on these dates is asked to contact Mr. Lamarche (phone 197).

It is interesting to note that a Brownsburg woman received blood this past week at the Royal Victoria Hospital, Montreal. This blood was supplied through the Red Cross Blood Bank in Montreal and obtained through the Argenteuil Branch.

"The Mobile Unit that will visit both Brownsburg and Lachute is to be well staffed, and donors will not be detained any longer than necessary", according to Louis M. Poitras, director of the Provincial Red Cross Blood Service. Mr. Poitras has been keeping close contact with the local organizations since the start of the drive.

Everyone is urged to attend, and in this manner to "help save a life."

Quebec Population Increases 95,000

Quebec (BUP) — A government estimate has put the population of Quebec Province at 4,269,000, an increase of 95,000 over a year ago.

Killed by Tractor At St. Augustin

Montreal — Normand Sullivan, 41-year-old farmer of St. Augustin, Que., died instantly last week-end when a tractor he was driving upset and pinned him to the ground.

Injuries Slight, Damage Heavy, In Triple Crash

Damage estimated at $4,000 resulted from a three-way crash on Route 8 near Marelan late Monday afternoon. None of the occupants was seriously injured, however.

The accident occurred when a sedan car driven by Guy Lalonde, of Matane, Que., slowed down behind a fruit truck (unidentified) parked on the side of the pavement. Lalonde, accompanied by Miss Louisette Puize, also of Matane, had just brought his car to a stop when another car crashed into him from the rear. This auto was driven by Miss Aurore Berthel, 54, of Outremont, who was accompanied by the owner of the car, Miss Blanche Boucher, also of Outremont, and Miss Madeleine Gagnon, of St. Jerome. Damage to the first car, driven by Lalonde, was estimated at $600, while the other, valued at $1,500, was demolished.

After striking the halted car, Miss Berthel swerved onto the other lane of the highway into the path of an oncoming Cadillac. The driver of this car, Louis Houle, of Montreal, took the ditch in an attempt to avoid a collision, but sideswiped the car in his path. The Cadillac jumped a 6-8 foot culvert and slid some 50 feet in the ditch before coming to a stop.

The injured were treated at the Smiths' Clinic and Notre Dame Hospital, Hawkesbury.

Traffic Officers Howard Jones and Roger Massie investigated.

Change of Time This Week-End

Lachute, Brownsburg and surrounding centres which adopted Advanced Time for the summer months, will revert to Standard at midnight this Saturday. The annual reminder is given as regards church services and rail schedules on Sunday — and that extra hour of sleep available to all who dutifully set back the hands of their clocks Saturday night.

Dominion Champ Plowman to Judge In Local Contest

Argenteuil Association Elects Directors, Lays Plans For Annual Plowing Match

The annual meeting of the members of the Argenteuil Plowmen's Association was held last week at the office of Alex Bothwell, Agronomist, and the following officers were elected:

President, Wm. Brass; vice-president, Stuart Armstrong; secretary-treasurer (pro tem), Alex Bothwell.

Directors — Wyman Strong, Fred Pring, Allan Hammond, Watson Berry, Stuart Armstrong, Bud McGeorge, Ben Hammond, Bazil Clark, Keith Gordon.

It was decided to hold the Plowing Match on October 3 at the farm of Mrs. Myrtle Thorburn, Vide Sac.

The meeting adjourned until September 28, to make further plans for the big event.

The following have agreed to act as judges at the Plowing Match:

Carlyle Watt, Lancaster, Ont.; Donald Cumming, Lancaster, Ont.; Algie Wallace, North Gower, Ont.

It is interesting to note that Mr. Wallace was Grand Champion Plowman of Canada, and represented the Dominion at the International Match in Great Britain last year.

Week's Food Cost $23.91 City Family; General Adoption of D.S.T. Is Urged

"The Week at Ottawa"

By Don Haworth, Canadian Press Staff Writer

Ottawa, Sept. 21 (CP) — The seven per cent, $38,500,000-a-year freight rate increase of last March is here to stay.

The Cabinet in a three-hour meeting last week turned down the request of eight provinces — all but Ontario and Quebec — to rescind it. But two things the provinces asked for — uniformity of accounts and equalization of freight rates — are being considered by the Transport Board.

The Cabinet deferred decision on the Canadian Pacific Airlines application to operate a cargo service between Montreal and Vancouver. Agreement to the application would end Trans-Canada Airlines' monopoly of the east-west transcontinental services.

Cost of Eating

The average family in five major Canadian cities spends $23.91 on food each week.

So says the Bureau of Statistics which made a survey in the metropolitan areas of Halifax, Montreal, Toronto, Winnipeg and Vancouver in the last four months of 1952.

The average size of families was 3.18 persons giving an average food expenditure of $7.52 for each. Biggest item was meat — $1.68 apiece.

One Time, Please

The Brotherhood of Locomotive Firemen and Enginemen want all Canada to go on daylight-saving time next summer. The way it has been with some areas on standard time and others on fast time has caused "absolute confusion", they say.

More Houses

Total of 46,319 housing units were completed in the first seven months of the year, and starts made on 58,580. Completion rate is 40 per cent higher than last year's; starts are 33 per cent more.

Cabinet Changes

Prime Minister St. Laurent announced a small reshuffle inside the cabinet, bringing a new figure into the government ranks. Jean Lesage, 41, (Montmagny-L'Islet) becomes Minister of Resources and Development. Hon. Robert Winters, 43, who has been Resources Minister since 1950, becomes Works Minister in succession to Alphonse Fournier, who was appointed to the exchequer court bench before the August election.

Other appointments:

Robert Bryce, Deputy Finance Minister, will be clerk of the Privy Council.

Gordon Robertson, assistant clerk of the Privy Council, will be Deputy Resources Minister.

Maj.-Gen. H. A. Young, Deputy Resources Minister, will be Deputy Public Works Minister, succeeding E. P. Murphy who is retiring.

Prime Minister St. Laurent said he hopes Premier Lanier of France will be able to visit Ottawa when he comes over to the United States soon. President Eisenhower has been invited here for about the same time, if he can make it. Mr. St. Laurent's own world trip to the Antipodes will start in February and last five weeks.

Grain Payments Soon

The Government came up with a new crop forecast and the announcement of a $100,000,000 Wheat Board payment to farmers on the 1952-53 crop.

Many Prairie farmers will need the money to tide them over the coming months.

Britain, Canada's largest wheat market, still isn't showing interest in wheat at a maximum price of $2.05 a bushel, and last month Canada's exports under the International Wheat Agreement were only 12,000,000 bushels, a fifth of the August 1952 amount.

The Wheat Board payment includes $64,000,000 covering an interim payment of 12 cents a bushel on all grades shipped to the board, and $36,000,000 to cover the close-out of the 1952-53 oats and barley pool.

Wheat cheques will start moving out on October 1, followed by oats and barley payments. All payments will be completed by the end of the year.

Trade Minister Howe, who announced this, gave no indication of any special government help to encourage farm storage. It now seems there'll be just a little less to store. The Bureau of Statistics has scaled down its August 1 estimate of the wheat crop by 9,525,000 bushels.

Its September 1 estimate, modified by the lower production now expected in Manitoba and Alberta because of late maturing, forecasts

(Continued on page 4)

A volunteer doctor and nurse are shown with an RCAF World War II paraplegic, who is giving blood in a Montreal Clinic. The vet lost both legs in war service, but turns out three times a year to give blood to the Red Cross. It was Red Cross blood that saved his life when his legs were amputated.

Womenfolk for Betterment Of Home and Community; Institutes Resume Activities

The following report of September meetings, opening a new season of activity for the Women's Institute branches, is submitted by the county convener of Publicity.

At Brownsburg, report was given on a trip to the Shawbridge Boys' Farm, also a report on "Canada Day" at the A.C.W.W. conference, Toronto, and on Brownsburg members assisting with the county representation at Harrington Forest Farm. A life-membership was given to Mrs. T. Zimmer for outstanding work in this branch. Sick members were remembered.

Upper Lachute - East End had 17 members present. Mrs. Ross Muir, convener of Citizenship, arranged for a speaker in the person of Mr. Geo. F. Calder, who discussed the making of wills. The roll-call was answered by payment of $1 per member as a means of augmenting the funds of the branch.

Pioneer branch had an attendance of 10 members. A letter from Mrs. Taylor was presented, thanking members for making scrapbooks. A report on "Canada Day" was given by members who had attended at the Maple Leaf Gardens in Toronto. Mrs. Jos. Bradley reported on the Harrington Farm C.I.P. gathering.

Frontier members heard talks on the A.C.W.W. convention and "Canada Day", by Mrs. N. Morrison and Mrs. Archie Graham. A letter from Queen Elizabeth II was read, being a gracious reply to a letter from this branch expressing good wishes on her Coronation and with an expression of loyalty from their meeting on that date. A project was planned to raise money for the funds by means of socials, whist parties, moving pictures, etc.

Jerusalem - Bethany members answered as their roll-call, "What I like most about this month", Mrs. Bott, from Australia, visited this branch after attending the A.C.W.W. Conference, and gave a talk on her homeland. This being an Agriculture meeting, Mrs. H. Hildenbrand gave a talk on her country, Guatemala, which also proved interesting. Mrs. George Leggett, provincial convener of Health & Welfare, also attended and exhibited souvenirs of the A.C.W.W. Conference. This branch was entertained by the ladies of the Upper Lachute - East End W.I., and enjoyed the talk given by Mr. Geo. Calder.

Lakefield reports nine members and three visitors present. The roll-call was, "Name a flower beginning with the initial of your name". A report on "Canada Day" at Toronto was given by Mrs. C. W. P. Baugh. Plans were made for a "military whist". Meetings are to be held the first Tuesday of each month instead of the second Tuesday.

Arundel W.I. had 20 members present. This meeting dealt chiefly with plans for the school fair on September 11. Mrs. Gordon Cooke, county president, gave a talk on her trip to the A.C.W.W. Conference. A letter of thanks was read from the recipient of an overseas parcel.

The Mille Isles membership also heard a talk on "Canada Day", at Toronto, by Mrs. C. W. P. Baugh. After a short meeting, dancing was enjoyed by the members and their friends in the community.

In Lachute branch, the roll-call for September was the title of a favorite poem. The painting course held in June was completed and proved very satisfactory. Lachute W.I. members had won the highest number of prizes at the Lachute Exhibition. The sum of $5 was donated to the School Fair. Mrs. E. B. Jost gave a brief description of a decoration course which she attended at the June convention. Guest speaker was Mrs. Bott, from Australia, who gave a brief outline of Australian farm life. Mrs. A. G. Leggett spoke on her visit to the A.C.W.W. Conference and showed souvenirs given by the various provinces and countries represented.

Unusual But Interesting Topic At Lions Club

Marcel Coté, now in the prosaic business of Insurance (as superintendent of Montreal district agencies for the American Four companies) unfolded an interesting story at the Lions Club this week — his topic, "Evolution of the Parachute", revealing a wartime experience of adventure and considerable hazard. Mr. Coté left the military service after World War II with the rank of captain in the 1st Canadian Parachute Battalion. . . Among guests at the meeting was Dick MacLean, of Lachute, who also served overseas as a sergeant paratrooper in that battalion.

It needed no eloquence to dramatize this unusual subject. The development of the parachute from early times, its use in peace and war, and the training of paratroopers for their dangerous role, made an engaging topic — the speaker, in a facile conversational manner, sharing with his listeners the misgivings, the doubts, the sweat of the brow as "parashooters" took their first leaps into space during their training period. This training, he explained, was largely a matter of physical conditioning. A paratrooper had to be self-sufficient, competent and equipped to carry on in alien territory until re-inforced by infantry support. Out of that training developed many airborne manoeuvres, notable feats in the warfare of both the Allies and the enemy. An interesting observation by the speaker was that the Canadian record of casualties in parachute leaps compared favorably, due to stronger ankles developed in winter sports such as skating and skiing.

The speaker, introduced by President E. M. Jones, was thanked in conclusion by Lion Ian Gordon.

The president announced that, at a recent meeting of Zone officials, Lion Horace Lamarche had been appointed Zone chairman and Lion Léopold Carrière Club chairman — the purpose of this group being to foster visits and interchanges among district Lions Club branches.

Léopold Carrière, committee chairman, reported the top prizewinners in the Golf Tournament drawing. (A complete list of these awards is published on page 6 for the information of local subscribers.)

Police Chief D. Villeneuve gave final impetus to the Lions' participation in the coming Blood Donor Clinic.

THE WATCHMAN IS ON SALE AT 7 CENTS A COPY AT THE FOLLOWING STORES: —

LACHUTE — Beaton's Pharmacy, Rex Café, Main Street. Cliff Cunningham, Tobacconist. P. Delorme, Bethany St. Fernando Carrière Grocery. Lachute Pharmacy, Main Street. Laurentien Restaurant. Tourist Inn Restaurant. (Wilfrid Raymond)

BROWNSBURG — Chas Maurice. Brownsburg Pharmacy. Kilgour's Store. Paul Tassé Restaurant Chartrand

ST. ANDREWS — A. E. Lalonde.

MORIN HTS. — T-Bar Restaurant.

ARUNDEL — Graham's Store.

Notable Visitors At St. Andrews East

(Our District Correspondent)

The Lady Patricia Ramsay and Admiral Sir Alexander Ramsay, G.C.V.O., K.C.B., D.S.O., have arrived at Strathearn Farm, St. Andrews East, to stay with Colonel W. H. Owen, C.B.E., and Mrs. Owen. The Lady Patricia is the Colonel-in-Chief of the Princess Patricia's Canadian Light Infantry and has been in Calgary to present the Queen's Color and her own Color to the regiment. They fly back to England on Saturday.

Gatineau Town Employee Victim of Grim Fatality

The assistant foreman of the town of Gatineau was fatally burned when he plunged into a smouldering pit at the Gatineau dump Saturday night.

The victim, Maurice Beaudoin, 26, was pulled out immediately and drove nearly two miles in a truck to his home at 8.30 p.m. He was taken from there to hospital in Hull and died at 9.30 a.m. Sunday. His clothing was not burned but his body was covered with third degree burns.

Beaudoin had been called, with his brother, Raymond, to extinguish a fire which had smouldered all day Saturday, at the dump on the outskirts of the town. They were walking across the smoking dump when the surface gave way. Maurice dropped into a white-hot hole, shoulder-deep.

Raymond pulled his brother free in seconds, burning his feet. Then despite intense pain, Maurice crawled in behind the wheel of his truck and managed to get to the home of his father, Eugene Beaudoin, seven kilometres away. Mr. Beaudoin drove his son to hospital, where his death occurred 12 hours later. No inquest was held.

Gatineau LINES

Work undertaken within the City of St. Jerome this year includes improvements to give better voltage on Labelle, St. Andre and St. George Streets, St. Paul Avenue, and Lachapelle and Groulx Boulevards — as well as the erection of distribution lines in St. Jerome and St. Antoine des Laurentides, south of the City — to provide electric services to the many new homes under construction this year.

In addition, a 10,000 kva regulator was put into service in June — for better voltage regulation on the transmission lines extending from the Company's 17,500 kva substation.

Further north, the capacity of the Nomingue substation was increased from 150 kva to 300 kva — to meet the indicated growth in that area's electric service requirements.

GATINEAU POWER COMPANY

MORE FARM POWER

Piece by piece, Saskatchewan farming communities are obtaining the benefits of electricity, removing one considerable objection to rural life and at the same time adding immeasurably to the strong right arm of the farming community.

— Indian Head (Sask.) News

The federal government employs about 165,000 persons at an estimated annual payroll of $450 million.

Auction Sale

At the farm of
THOMAS WHITE,
LACHUTE EAST
corner Routes 30 and 41,

Thursday, Oct. 1, at 1 p.m.:

the new proprietor, WILLIAM DAVIS, also Netherdale Farms Reg., offer the following for sale:

8 Milch cows (6 milking), 1 to freshen Oct. 18, 1 to freshen Dec. 24, 1 2-year-old heifer to freshen Dec. 15, 2 1-year-old heifers, 1 5-months-old heifer.

Grain binder, mowing machine, horse rake, smoothing harrow, disc harrow, spring-tooth harrow, gang plow, walking plow, cultivator, disc-drill seeder, truck wagon, bob-sleighs and rack, rack sleigh, 2 light cutters, buggy, express, tumbril cart, double harness, cart harness, large iron cooler, cream separator, horse clippers, manure sleighs, also quantity of hay, oats and straw, and a 1951 Ferguson tractor.

Washing machine, electric refrigerator, some household furniture, and other articles too numerous to mention.

* * *

Offered by Netherdale Farms Reg.

15 Holstein cows and heifers, and a few head of registered Hereford cattle, including registered bull calves, 2 saddle horses and saddles.

Seasonal Farm Topics

Our Changing Poultry Scene

The passing years have witnessed changes in all phases of poultry husbandry, says T. M. MacIntyre of the Experimental Farm, Nappan. Egg production has increased from about 70 eggs per bird in 1887 to nearly 200 eggs per bird today. At the same time the backyard flock of these early years, which supplied the family with eggs only during the long days of spring and summer, has now changed into a real money earner for the farmer.

Incubation has changed from the setting hen with 14 eggs, to the mammoth incubator of today, and hatchability has increased from about 30 per cent when the first artificial incubation work was done at Ottawa in 1895 to about 80 per cent of all eggs set today. Improved incubators and hatching technique, determined by experimentation, have been a major factor in this great increase in hatchability.

Progress in artificial brooding has followed progress in artificial incubation. Early bulletins put out by the Poultry Department for the guidance of poultrymen, show the proper type of coop for the broody hen and her small brood. This was followed by small brooders heated by kerosene lamps designed to simulate the conditions of the mother hen. As flocks grew larger, the need for changes in brooding practices became apparent and larger units were designed.

The movable colony house with one coal or wood burning brooder, designed to house from 200 to 500 chickens, was introduced early in the present century, and still is regarded by many as the best method of rearing chickens. However, many large poultry farmers prefer permanent brooder houses from which chicks are moved at 8 to 10 weeks of age into small range shelters on a good grass range, while others prefer to raise their chickens in confinement in the same house from the time they are day-old until they complete the laying cycle.

Many changes have also been noted in the housing of the laying flock. The flock has moved out of the dark and dingy corner of the cow barn, into clean, airy, well lighted houses, designed as permanent quarters for the laying flock. It is no longer considered necessary to have outside yards for laying hens, so that two, three and four storey houses have become quite common.

The whole poultry scene has changed over the past 75 years, from one of small flocks, hatched and brooded by hens, and housed in small quarters, to an industry where the technique of mass production is successfully applied even on small farms.

Of all persons at work in Canada, agriculture directly employs 15 per cent and manufacturing directly employs 25 per cent.

Death of Noted Holstein Sire

One of the most famous bulls in Canadian Holstein history, Montvic Rag Apple Marksman, is dead at the age of 13 years.

Bred by the late T. B. Macaulay, Hudson Heights, Que., he was purchased as a calf by J. J. E. McCague, Alliston, and C. J. Cerswell, Beeton, and spent his entire lifetime in the herds of those two men.

"Marksman" suffered a stroke which paralyzed his hind legs and is became necessary to destroy him. He was buried in a prominent spot on the farm of Mr. McCague and it is planned to suitably mark his grave.

The claims of Marksman to fame are legion. Although he himself was purchased back in 1940, for only $1,325 (which was considered a very high figure at that time) his progeny have sold for well over half a million dollars.

The Farm A "Governor" In Age of Speed

Toronto — Canada has regained the immigration vision she lost in the 1930's and is now adding a million people to her population every three years, J. S. McGowan, director of colonization and agriculture, C.N.R., Montreal, told a Farmers' Day audience recently at the Canadian National Exhibition.

Unlike the first period of immigration that was based on land settlement, the second great period now proceeding was founded on the needs of industry, he said. With a population of 25 million by 1975 the domestic market would assume added significance for the farmer.

"No one can view our present position without a feeling of optimism. We have a very big house with a very big overhead for our comparatively small family", said the railway officer.

For the future, Mr. McGowan suggested a thickening of settled areas to provide an even greater working force, and a policy of "economic soundness" that would attract and hold the best rural citizens on the land.

He described the farm and farm home as a "governor in an age of speed". The farm immigrant, he said, should be given a good environment and a strong helping hand to become absorbed into the national life. "We are short only one commodity, only one resource, and that is people."

Shifting Soils

Reminiscent of the early and mid-thirties in the prairie provinces, the soils are on the move in Texas. Clouds of dust roll across the country, obscuring the sun, covering the highways and fences, seeping into homes, leaving in their wake scenes of despair and desolation.

Farmers, who have prospered in the past, look with worry upon their bare, parched acres. Merchants carry an over-burden of credit in their books. Banks no longer welcome the rural loan-seeker.

While Canadians have been fortunate this year to escape widespread damage from wind erosion, they nevertheless have erosion problems in many districts. Priceless top soil is being washed away by rain and uncontrolled spring floods due to the lack of sound soil conservation practices.

At one time no one thought of soil as a natural resource. Soil, it was generally considered, was an inexhaustible birthright and was used as such. In recent years, however, Canadian soil scientists have come to realize that our soils could be depleted like other resources.

This fall a formal course in soil conservation will be established for the first time at the Ontario Agricultural College at Guelph. The Conservation Council of Ontario has been set up, one of its prime functions being the promotion of soil conservation. Canadian chapters of the Soil Conservation Society of America are being formed. Provincial and Federal departments of agriculture have launched long range research programs dealing with soil conservation.

But the problem of soil erosion cannot be licked solely by agricultural scientists, and conservation groups or governments. The man who holds the key to the success of any soil conservation program is the farmer because he owns the soil these various bodies are trying to conserve. His co-operation therefore is essential.

Auction Sale

At the farm of —
MAURICE ALLAIRE
St. Francois de Salles,
Laval County,
(830 Main Highway)
Monday, Sept. 28, at 1 p.m.

1949 GMC 2-ton truck, new 6 ft. Keith Russell Secretary Of Joint Committee On Agriculture Study

The problems involved in establishing agriculture as an important part of the school program in Quebec rural areas will be studied by a recently organized Joint Committee. Known as the Joint Committee for the Study of Agricultural Education, the committee is made up of several Macdonald College staff members and persons named by the Provincial Council of Quebec Farm Forum Association.

The secretary of the Joint Committee, Keith Russell, who is also Quebec Farm Forum secretary, outlined the purpose of the five-part study in an interview:

1—To outline the reasons why agriculture should form a part of the rural high school curriculum.

2—To outline a broad curriculum for teaching agriculture that will allow for more training right on the farm.

3—To establish a working relationship between high school vocational agriculture courses and the 2-year Diploma Course at Macdonald College.

4—To study the financial and related problems which hold back the establishment of courses in agriculture.

5—To work out a scheme whereby Agriculture teachers might be hired as full-time specialists; to investigate the possibilities of developing a system whereby Agriculture teachers might act as part-time Agronomes in English-speaking rural areas.

Interesting Facts About Quebec's Blood Donor Service

1—The Canadian Red Cross is now supplying 80% of the hospital beds with FREE blood and PLASMA to ALL patients requiring them.

2—The Providence Hospital in Lachute is one of the 77 hospitals in Quebec supplying free blood through Red Cross.

3—Red Cross must collect 250 bottles of blood every day to ensure an adequate supply for the participating hospitals and to stockpile plasma for emergencies.

4—The Department of National Defence has also asked Red Cross to collect blood and blood products for the Armed Services, and to build up substantial reserves of Blood Plasma for civil defence purposes.

5—The Red Cross Blood Transfusion Service is endorsed by Church and Civil Authorities, by Provincial and Municipal Departments of Health, Collège des Médicins et Chirurgiens du Québec, the Canadian Medical Association and similar bodies.

At Prince George, B.C., thieves removed a heavy office desk from the basement of a downtown office building in broad daylight, a feat that would have taxed the strength and ingenuity of experienced truckers, according to The Citizen. . . Boasts the Wadena, Sask, News, it is truly the town of churches; with 1300 population, it has eight church buildings, representing almost all Christian faiths.

Don Langrock, who farms near Lacombe, Alta., one day got a triple-yolk egg; then a Siamese, two joined together by a thin membrane. . . Another oddity at Reston, Man., where farmer Jack Mare came up with a triple head of cabbage. . . When the temperature soared to 92 above on Fred Bisko's farm near Weekes, in northern Saskatchewan, there was a terrific explosion; glass blew completely out of the family car, which had been standing with tightly closed windows, causing this unusual phenomenon.

MEMBER AUDIT BUREAU OF CIRCULATIONS

Easy to Make Mistake

TOMORROW the deer hunting season opens. The thrills that await our sportsmen are matched in intensity only by those tragedies to be unfolded in the coroners' inquests — but which unfortunately do not end there.

Way back last winter we filed a news clipping, a story with a forceful moral which deserves the attention of all sportsmen, both sane and insane.

Commenting on "Why Hunters Get Shot", the Brockville Recorder and Times referred to an incident typical of the erratic certainty of some members of the human clan. . . "This week we had a bit of a local stir on the St. Lawrence River", the story reads. "A deer was seen floundering on the ice floes about 500 yards from the Canadian shore. This report was confirmed by several reliable witnesses, and this newspaper went so far as to send a reporter and cameraman to witness the spectacle.

"Two members of the Brockville police force, equipped with poles and a light punt, went out on the treacherous ice to rescue the stricken animal. During the rescue operation various comments were heard from spectators on the shore: 'He's a buck alright, you can see his rack of horns'; another, 'You can see his head moving alright, it must be a deer'; and yet another, 'The way he's waving his legs and head you can see he's badly hurt'. And so on.

"May it be recorded that the members of the police force returned to the shore empty-handed. The 'deer' was nothing but a big piece of tar paper flapping in the breeze. There is a moral and a lesson here. It is far too easy to 'see' a deer, if you really want to see a deer, whether the animal is actually there or not. And this is precisely why every year far too many hunters shoot each other."

◇ ◆ ◇

"Comfortable" Season

SOON you'll be sniffing the aroma of burning leaves — and reading the warnings on fire hazard. . .

Right now, however, we are imbued with that certain "comfortable" feeling which attends the fading of summer and the onset of fall. The comings and goings of vacation time are over, the organizations are getting into swing, the school children are back in their familiar routine and, generally speaking, the community is all in order. There will be no complaint that "things are quiet" hereabouts — the card parties, the plowing match, a big dance and regular club meetings already announce that the home-town season's underway, a season which will be so occupied with events that, to attend them all, one soon would be worn to a frazzle. Watch the "Coming Events" in the next few weeks and see that column grow. If you don't meet all your neighbors and fellow townsfolk, appreciate their worth, and understand them a little better — you will be veritably of the hermit species.

Yes, despite the joys of a summer which has seemed too brief and ends too soon, we like this time of year; and we hope you feel the same.

◇ ◆ ◇

Memberships or Members?

MEMBERS are peculiar people — just like everyone else; and the Canadian Chamber of Commerce in its current bulletin makes timely observations which are applicable to the general order of clubs and organizations. We quote the following excerpts:

. . . While some few members (usually the same few) are always bustling about looking for more things to do, the majority sit back. WHY? Because they feel that financial support is all that is expected of them, or all they can give; or because they haven't been sold on the organization, just a membership in it; or, in a few cases, because they want to be coaxed! Members have been known to complain because they haven't been invited to do something, although they make no effort to offer their help. . . And there are, of course, other reasons for non-participation.

In any organization it is the secretary's lot to be expected to know how to deal with each type of member, which means the secretary is expected to be able to recognize each type. This is not always easy to do when he is not in almost daily contact with all the members.

Fortunately, the secretary has several tested methods of selling an organization to its members — one of the big obstacles to membership participation. But while it is often good, and effective, to make use of a bulletin for this purpose, or to mail an analysis of the program of work, or to report carefully at general meetings on program and progress — it still remains that the organization's best salesman (as in membership campaigns) is the member who is "sold". Organize these members to attack the general apathy, and you're on the way over the hump.

◇ ◆ ◇

Fascinating Farms

WHEN harvesting is over, the farmer should have a little spare time once he's got the barn tightened up for the winter and attended to a few score other odd jobs.

He might even find time to ponder the fascinating farm problems of far-distant Malaya, where farmers wonder about such things as what type of carp to put in the ponds that are the backbone of the whole farm operation. Out there, they grow such things as mangoes, bananas and mandarin oranges.

Malaya has been experimenting with the aim of making small holdings self-sufficient, an aim that anyone can understand. They want farms yielding a variety of produce from pigs and fish to fruit and vegetables. The idea is to develop a farm on which everything helps the growth of everything else, and that also makes sense.

They've found the best combination in fish, fruit trees, vegetables, pigs and a kind of waterweed. The weed feeds both fish and pigs; the pigs provide manure to grow more weeds, and the silt from the pond nourishes the fruit trees and vegetables.

Nothing is wasted on the model farm. They chose not one type of carp, but three. One feeds on the ivy-like greenery floating on the water. Another type feeds on the plankton in the water, and the third burrows in the mud for its food. So each pond has three levels of production instead of one.

As for the pigs, they took what are known as Middle-White stud boars from Britain and crossed them with the prolific Chinese sow. This gives them a big pig with plenty of meat, and a habit of producing two litters of 12 or 14 piglets each year.

These holdings are proving successful. Deryck Le Mare, director of fisheries in Malaya, says "there is great satisfaction in seeing the farmers going about their business — scooping silt from the bottom of the ponds and spreading it among the fruit trees; every day cutting the waterweed to feed the pigs."

Oh yes, the carp. They're sold on the market as a regular food item.

◇ ◆ ◇

Argument for Population

THAT THE people of Canada "do, and will for a long time, labor under the serious handicap of a relatively narrow market" is the conclusion of a study prepared by Economist Gilbert E. Jackson on the question of whether certain industrial workers in Canada can reasonably expect their jobs to pay the same wage rates as do similar jobs in the United States.

It is Mr. Jackson's opinion that the demand of the Canadian Steelworkers Union for wage parity with workers in basic steel plants in the United States is unrealistic, in view of the vast differences existing in the two countries, in population totals and mass production opportunities.

Mr. Jackson's study points out that the great difference in population between Canada and the U.S. results in a narrow market here that is a serious handicap because it prevents the people of Canada from taking the same full advantage of mass production methods employed in the United States. Thus the Canadian, who is in no way inferior as a working man to his opposite number south of the border, produces less per working day.

Anywhere, mass production results in lower unit costs, but always the larger market is able to get unit costs lower. This allows U.S. workers to earn somewhat more in "real" income than Canadians in similar jobs.

Since Canadians are not able to produce as much goods and services per man-hour as are Americans, the consumption of goods and services in Canada clearly must be less than in the United States. In Canada, in the United States, and in any country, both the size of the national income and the size of the individual income — in "real" terms — are controlled by the rate at which goods and services can be produced for consumption.

In Mr. Jackson's opinion, only more population, increased production per man-hour, speeding of development of our newly-discovered natural resources — plus the passing of time — can bring Canadian workers closer to equality, or parity, with their U.S. counterparts.

EDITOR of the Hartland, N.B., Observer says a man told him there was a time when those who thought ruled those who labored; but now "those who think and labor are ruled by those who do neither."

ALL ABOARD

With G. E. Mortimore

Thousands of people who live in trailers can hold their heads a little higher now, at the risk of bumping them on the ceiling. Royalty has put the mark of social acceptance on the trailer as a dwelling-place.

Queen Mother Elizabeth recently bought a $2,500 luxury trailer (or caravan, as they say in Britain). Supplied with hot water, gas and electric light, the trailer will be parked in the grounds of the Queen Mother's castle in Scotland for use as an extra guest house.

This stamp of Royal favor marks the last stage in the evolution of the trailer, or caravan. At one time, happy gypsies jogged along in caravans drawn by sleepy old nags. Then came the automobile and the motor-drawn trailer. Every year bigger cars roared across the country pulling bigger trailers. Trailers acquired trailers of their own.

The older families, stubbornly clinging to traditional ways, continued to live in houses. But now we may expect a rush on the caravan market as social leaders both sides of the Atlantic go shopping for trailers equipped with ballrooms, servants' quarters, tradesmen's entrances and door chimes.

Before the trailer went respectable, my wife and I lived in a trailer for about three years. If the Queen Mother's mobile palace is a Rolls among trailers, ours was a Model A Ford.

Our trailer was one of about 20 in a trailer camp. Outside people regarded the camp as a sort of picturesque slum on wheels. Each Sunday, squadrons of tourists drove to the camp and looked the trailer folk over, nudging one another in the ribs when they spotted a particularly colorful looking vagabond painting the roof or hanging out the clothes.

We residents of the trailer camp would have been glad to sit on stumps and offer the visitors some quaint, homespun philosophy, but we were too busy with our textbooks. All the trailer folk were students and their wives and children.

The camp was run on a co-operative system. All the residents took turns shirking the work of cleaning up the central hut and feeding the fires. Occasionally we had parties in our trailer, squeezing a dozen or more people into a space the size of a small closet. One of our visitors had a fine baritone voice, which he loved to use at 4 a.m.

Because of shortage of chairs and floor space, we fell into the habit of lying down on the bed while receiving people. A habit like this, once it takes hold, is difficult to shed. If a man removes his shoes during a cocktail party and reclines on a chesterfield, you can bet the olive in your martini that he's an ex-trailerite.

When people of the smart set take to trailer life, they will have to solve a problem of etiquette: Is a trailer a house or a vehicle? If a trailer is a house, a gentleman will open the door and let a lady out ahead of him. If a trailer is a vehicle, a gentleman will get out first and give a lady his hand.

My wife and I tackled this question in a fairly simple manner. Whoever could push harder got out first. Both of us developed good shoulder muscles that way, but we are getting flabby since we moved to a house.

Enroll As Blood Donor!

Everyone in good health from 18 to 65 years old can safely give 380 c.c. of blood to the Red Cross Clinic.

There is no pain. It will take only a short time. No special diet is needed.

Cars will be provided for those who need transportation.

After the donation, you will receive a card showing your blood grouping and Rh factor. Carry this with you always. It is useful in case of accident.

Your Blood Donor Committee, with representatives at St. Andrews, Brownsburg, Lachute and elsewhere in the County of Argenteuil, are at your service.

MONTREAL — MAELSTROM AND MILLSTREAM

By GEOFF.

Westmount's First Baptist Church, like all good places of worship, boasts a sign-board. Week by week, the services and activities of the church are chalked up. Also, each Thursday, the sermon theme for the coming Sunday morning and evening is displayed. And it is this latter feature that makes for the greatest amount of eyebrow-lifting hereabouts.

At close range, the sign-painter's words stand out. But to the passing tram rider, much is lost. For example, the sermon theme or themes are printed boldly; the times of the services are in smaller script and cannot be seen except at close range. Thus, two different sermons appear as one. It's not hard to imagine, therefore, why many a person took a second and closer look recently when the church's sign informed one and all that Sunday's homily was "Pull Yourself Together" — "From The Other Side of The Door". And this was followed a short time later by a notice which read, in effect, "Run The Straight Race" — "Catch Up With Your Body".

Yesterday, on passing the doors of this church once more, I read the following: "Members of all Faiths, or none, welcomed". It was, indeed, a happy sentiment. However, the sign-painter had miscued the upper and lower case again. The tram-rider's version read "MEMBERS OF ALL FAITHS or NONE WELCOMED". Eyebrows are raised again in Westmount. But, perhaps, it's a good thing they are. If people notice things like that, they'll take another look later. And still later, they may attend a service.

* * *

It was a clerk in a small St. Catherine Street haberdashery that first got me interested in nylon wearing apparel. I was on the lookout for a good pair of socks, preferably wool with iron toes and heels. He suggested nylon and, in the voice that sales-people usually reserve for sucker-sales, said: "I always wear nylon socks. I just can't wear them out."

Well, the socks did look good, and I reasoned that I ought to get more wear out of them than I got out of wool socks. If I'm very careful with a pair of woollen socks, I can contrive to keep them free of holes for a month. So I made the purchase and started wearing the much vaunted nylon footwear. Those socks were purchased one year ago last April, and they're still going strong. In all probability, they'll still be going strong a year from next April. At all events, they were such a success that I immediately bought six more pairs of nylon socks and heaved out twenty pairs of woollen socks, each of which sported a large hole in the heel and toe.

From nylon socks, I graduated to nylon shirts. And, for the men who have not yet invested in a nylon shirt, I suggest that you do so immediately. I have four of them now and have saved so much money on laundry bills in the past six months, I'm positively rich.

Of course, the fellows with wives don't need nylon shirts and socks, et cetera. They can wear any old thing they like and browbeat the wife into washing and ironing. But for the bachelors I suggest that you switch to nylon and join the daily-dippers. Who knows, with the money you save on laundry, you may be able to support a wife. Then you can switch back to broadcloth.

The freshman's father paid his son a surprise visit. Arriving at one a.m. he banged on the fraternity door. A voice from the second floor yelled, "Whadya want?"

The father answered: "Does Joe Jones live here?"

The voice answered: "Yeah, bring him in."

Quick Canadian Quiz

1—Are most Canadian furs taken from wild life, or ranch raised?

2—How much of Ottawa's spending last year was on welfare payments?

3—How many Canadians participate in the country's professionally-sponsored nonprofit plans for medical care?

4—The CBC operates television stations in what cities?

5—Is the average number of persons per dwelling in Canada higher or lower than in former years?

ANSWERS: 5—At 4.07 persons per dwelling it is the lowest number in history. 3—About 1,500,000. 1—Less than 10 per cent of pelts are ranch raised. 4—In Montreal, Toronto and Ottawa. 2—About one fourth of the total $4,826,000,000 federal budget.

OBITUARY

Old Avoca Resident Buried at Cassburn, Ont.

Late Mrs. Richard Stringer

Impressive tribute to the late Mrs. Richard Stringer was paid by many friends and relatives from far and near, at the funeral held in Desforges' Funeral Home, Grenville, Que., last Monday.

Mrs. Stringer, a well known former resident of Plantagenet, Ont., passed peacefully away at the home of her son, Sherwood, in Avoca. She was in her 92nd year.

Daughter of the late Nathaniel Wright of County Armagh, Ireland, and his wife, the former Ann Jane Campbell, Mrs. Stringer (the former Maria Wright) was born in Plantagenet and lived there until 38 years ago when she, with her family, came to reside in Avoca. Her husband, to whom she was married in 1892, predeceased her in 1939.

As a young girl she worked in Toronto, and about twelve years ago returned there to visit some old acquaintances. She enjoyed good health until one month previous to her death, when she suffered a paralytic stroke.

Surviving are three sons — Kenneth, of Russell, Ont.; Sherwood, of Avoca, Que.; and Roy, of Hawkesbury, Ont.; five grandchildren; four nieces, Mrs. Efie Erratt, Miss Annie Stringer and Mrs. Flossie Stonehouse, all of Hawkesbury, and Mrs. Mamie Bancroft, of Vankleek Hill; and one nephew, Mr. James Waite, also of Vankleek Hill.

The funeral service was conducted by the Rev. Dr. B. T. Holden, of L'Orignal, Ont., assisted by Mr. David Stewart from Renfrew, Ont.

Pall-bearers were Messrs. Asa, Harry and Shoddie Young, of Avoca; James Waite and David Mooney, of Vankleek Hill; and Douglas Patterson, of Lachute. Those acting as honorary pall-bearers were Mrs. Harry Young and Mrs. Melbourne Young, of Avoca; Mrs. Wyman Arthurs, of Calumet; Mrs. Ross Thorburn and Mrs. Fred Stansfield, of Lachute; Miss Mabel Young, of Renfrew; Mr. Kelly; Mr. Canam, of Montreal; Mr. Wyman Young, of Grenville Bay; Mr. Wyman Arthurs, of Calumet; Mr. Ross Thorburn, of Lachute; Mr. Melbourne Young, of Avoca; and Mr. Raymond Noel, of Montreal.

The large profusion of floral tributes bore token of the esteem in which the deceased was held.

Interment took place in Cassburn Cemetery.

"The Week at Ottawa"

(Continued from page 1)

594,268,000 bushels. This would still be the second largest harvest on record.

Stocks of Canadian wheat July 31 were estimated at 362,700,000 bushels. Farmers are expected to harvest their second largest crops of barley (273,005,000 bushels) and rye (29,300,000 bushels) and the biggest crop of soybeans on record (4,800,000 bushels).

Defence: Little Saving

Next year's defence budget is likely to call for the same amount again — around $2,000,000,000.

The Government may try for a small reduction — say around $100,000,000 — but that would have little effect on the individual taxpayer.

There will be a smaller outlay for such primary things as factories and airfields, but production of fighting equipment has to go on.

However, there is a chance of a substantial cut the year after.

DISTRICT NEWS FROM OUR COUNTY CORRESPONDENTS

Northern Grenville

Week-end visitors at Mr. and Mrs. Thos. McMichael's were Miss June Cameron, Mr. Calvin McAndrew and Pte. Stan Greely.

Mr. and Mrs. Rupert Cooke, of Ottawa, and Misses Sandy and Bonnie Lee Bradshaw, of Kingston, were Sunday guests of Mr. and Mrs. L. Champagne.

Mr. L. S. Campbell, Mr. H. B. Hurley, Mr. Victor Gauley and Mr. Russell Owens attended a recent rugby match in Montreal.

Mrs. H. B. Hurley and Mrs. Victor Gauley spent Sunday with Mr. and Mrs. H. Lalonde at Monkland, Ont.

Mr. Gordon Campbell, who has spent some time at his home here, left recently for Fredericton, N.B., where he will take up Civil Engineering at U.N.B.

Friends are pleased to hear that Mrs. Thos. Brazeau, who had been a patient at the Smiths' Clinic, has now returned home, much improved in health.

Miss Minnie Rainey and Miss Elsie Cousins, of Ottawa, spent the week-end at their home here.

Mrs. Fred Cousins visited Mr. and Mrs. Wm. Burke in Cornwall last Sunday.

Friends are sorry to hear that Mrs. Hubert McIntyre has been ill for the past several days; all join in wishing her a speedy recovery.

Sunday visitors at Mr. and Mrs. Wyman Young's were — Mrs. Wm. Waite, Mr. and Mrs. Lyle Waite, Mrs. Don Nolan and Aurey, all of Cornwall.

Mr. and Mrs. James McIntyre, of Toronto, called on Mr. Walter Murray on Tuesday.

Messrs. Lorne and Cecil Mott left recently for Western Canada, where they planned to work on the harvest.

The sympathy of this community is extended to the family of the late Mrs. Richard Stringer, who passed away recently in Avoca.

NOT QUITE PERFECT

Winter gives you the zest to live, but it's usually too cold to do anything about it. Boiled down, we have a wonderful climate — just enough cold to make you wish it was warm, and just enough heat to make you wish it was cold.

Births, Marriages, Deaths and In Memoriam, etc., 75c; 5c per type line extra for verses with In Memoriam (estimate 6 words per type line).

(Payable in advance)

Deadline, Wednesday, 5 p.m.

DEATHS

DEMERSE — At Truax, Sask., on Sept. 5, 1953, Peter C. Demerse, in his 65th year.

MacGREGOR — At Toronto, September 10, 1953, Martha Caroline Gauley, formerly of Lachute, beloved wife of the late William MacGregor, in her 83rd year. Funeral in Montreal, interment at Ogdensburg.

ACKNOWLEDGMENT

STRINGER — The family of the late Mrs. Richard Stringer wish to thank all neighbors, friends and relatives who extended sympathy, sent flowers and cards, or assisted in so many acts of kindness during the illness and death of their dear mother.

IN MEMORIAM

BOYD — In loving memory of a dear husband and father, Leonard J. Boyd, who passed away three years ago today, Sept. 21, 1950. — Always remembered by his wife (Blanche), Lucy, Brannan, Charles, Leonard and Nancy.

"The stars are shining brightly
Upon a silent grave,
In it lies a precious one,
One whom we could not save.
Our hearts still ache with sadness,
Our eyes fill up with tears,
Only God knows how much we miss him
At the end of three long years."

BRYSON — In loving memory of a dear wife and mother, Christena Macfarlane, who passed away Sept. 26, 1951. — Ever remembered by George and family.

"The month of September again is here,
To us the saddest of the year,
The blow was hard, the shock severe,
To part with one we loved so dear."

BRYSON — A tribute of love and devotion to the memory of my dear mother, Christena A. Bryson, who passed away Sept. 26, 1951. — Ever remembered by her daughter, Eileen, U.S.A.

"You left behind an aching heart
That loved you most sincere;
I never did, nor ever will.
Forget you, Mother dear."

McVICAR — In loving memory of a dear son and brother, who passed away Sept. 26, 1947. — Mum, Dad, sisters and brothers.

"Asleep in God's beautiful garden,
Sheltered from sorrow and pain,
Safe in God's wonderful keeping,
Until we meet again."

Grenville

Mr. Dwight Matthew, of Montreal, spent the week-end here with his brother, Mr. Gordon Matthew, also visiting Mr. and Mrs. Ross Matthew on Sunday.

Messrs. Donald Allingham and David Harding, of White Plains, N.Y., are the guests of Mr. and Mrs. Thomas Canning.

Mr. and Mrs. David Riley and son, Mr. David Riley, Jr., the Misses Violet, Audrey and Dorothy Riley, of Rosemount, and Mr. Hartland Dewar, of Pointe-aux-Trembles School, were Sunday guests of Mr. and Mrs. Stanley Dewar.

Mrs. Leslie Wilburn, of St. Laurent, was the week-end guest of Mr. and Mrs. Hugh Mortimer.

Mrs. A. H. Clark visited the Rev. and Mrs. A. E. Hawes, in Valois, Que., on Monday.

Mr. and Mrs. Jack Ryan, and Mr. and Mrs. Wilbert Bailey, of Roxboro, Que., were week-end guests of Mr. and Mrs. R. B. White.

Mrs. Hazel Robinson, of Montreal, spent the week as the guest of Miss Eva White.

Mrs. Jessie MacKan has returned home from a two weeks' visit with her daughter, Mrs. Bill Wilson, at Frenchman's Bay, Ont.

Friends of Mrs. Lorne Cooke are sorry to hear that she is a patient in the Smiths' Clinic, Hawkesbury; hopes are extended for her speedy recovery.

Mr. and Mrs. Nolan McLean and children, of Ottawa, have moved here and taken up residence in Mr. H. Lagarde's house at Stonefield Heights.

Mr. and Mrs. Arthur King, of Rosemount, were recent guests of the Rev. and Mrs. P. R. Stote.

88th Birthday

Congratulations are extended to Mrs. J. F. Owens, who will celebrate her 88th birthday on Sunday, September 27, and is still enjoying good health.

Morin Heights

Mr. Jos. Brown travelled by plane to Winnipeg on Wednesday (returning on Sunday) to attend the funeral of his niece, the late Miss Jean Thomson. Miss Thomson, 21, daughter of Mr. and Mrs. Albert Thomson (the latter formerly Aldyth Brown, of Morin Heights) died in hospital in Winnipeg on Tuesday of polio. Sympathy of the community is extended to the bereaved family.

Miss Mary Goodfellow, nurse-in-training at the Montreal General Hospital, returned to her duties on Sunday after spending a month's vacation here with her parents, Mr. and Mrs. R. N. Goodfellow.

Mr. and Mrs. Wm. Nesbitt, Mr. and Mrs. L. Kennedy, Mrs. J. H. Davis and Miss Margaret, and Mr. and Mrs. M. Dey, were in Montreal on Saturday attending the wedding of Miss Laura Diollo and Mr. Keith Nesbitt.

Mr. and Mrs. A. Hamilton had Mrs. E. Johnson, Mrs. E. Greene and Mr. A. Smeille as guests for the week-end.

Mr. and Mrs. Wm. Bennett and Miss Grace, of Montreal, spent the week-end at their cotage here.

Mr. and Mrs. Jas. Flux, of Bayside, Long Island, N.Y., returned home last week after spending a week with her sister and brother-in-law, Mr. and Mrs. M. S. Kirkpatrick.

Mrs. Leslie Davis and daughter, Miss Sheila, spent the week-end at their cottage.

Mr. and Mrs. Don Smyth and daughter, Caroline, of Timmins, Ont., returned home last week after spending a week with his sister, Mrs. Elwood Kirkpatrick and Mr. Kirkpatrick.

Mr. and Mrs. L. G. Hollingworth and children, of Dixie, Que., spent the week-end with Mrs. Hollingworth's mother, Mrs. J. E. Seale.

Mrs. C. E. Seale has received word that her sister-in-law, Mrs. Norman Michie, of Winnipeg, is in a critical condition in hospital at Toronto. Mrs. Michie was stricken with polio while visiting her parents there.

Injured in Mishap

Norman Woods had the misfortune to crush one of his fingers in a freight car door while loading lumber. After receiving first aid, he was rushed to the St. Jerome Hospital, where it was found necessary to amputate the finger on Friday. Friends wish him a speedy recovery.

Mrs. F. C. Cameron, Mrs. J. Watchorn and Mrs. M. Dey attended an executive meeting of the County Women's Institutes in Brownsburg on Friday.

Miss Barbara Brown, accompanied by her uncle, Mr. Jas. Houston, of Montreal, visited Sunday with Mr. and Mrs. J. E. Brown.

Mr. and Mrs. R. Sicusco, of Mille Isles, left Monday for a week's vacation in Boston, Mass.

Messrs. Cammy Paquette, of Montreal, and Albert Basler, spent the week-end in Boston.

The Game and Fisheries Act forbids the use of artificial lights in catching fish of any kind.

EX-PRISONERS OF WAR RECEIVE KEYS TO C.N.E. — The Canadian National Exhibition in Toronto paid tribute to the fighting efforts of five recently repatriated prisoners-of-war at a directors' luncheon, followed by a free rein as to what they wanted to do at the C.N.E. Above the Korean veterans, all members of the Royal Canadian Regiment and from Ontario, enjoy hamburgers on the house. Left to right are Pt. Tom Rothwell of Dundas, Pte. George Griffiths of Brighton, Cpl. Don Orson of Ridgetown, Cpl. Jim Pelletier of Chatham, and Pte. Alan Cranston of Hamilton.

Morin Heights Couple Feted on Anniversary

(Our District Correspondent)

Morin Heights — Mr. and Mrs. Fred Watchorn were honored at a surprise party on Saturday, September 19, on the occasion of their 25th wedding anniversary. Mr. and Mrs. Watchorn, Miss Barbara and Mr. and Mrs. Thos. Watchorn, of St. Jovite, dined at the Alpino Lodge and returned to find their many friends assembled to greet them.

On behalf of the guests Mrs. Ethel Johnson and Mrs. Ethel Greene presented them with a coffee table and a purse of money, also a boutonnière for Mr. Watchorn and a corsage for Mrs. Watchorn.

Music during the evening was provided by Mrs. Geo. Watchorn and Albert Routledge. Refreshments were served later, with a three-tier wedding cake placed on the new coffee table. Guests were present from Montreal, Harrington, Lachute, Dalesville and St. Jovite, as well as local residents.

Brownsburg

Mr. and Mrs. Leonard Wilson left this week for Sault Ste. Marie, Ont., where they will be the guests of Mr. and Mrs. Wallace Wilson.

Sympathy is extended to Mrs. Donald Graham, whose mother, Mrs. John A. McDonald, of Apple Hill, passed away last week.

The W.I. meeting will be held in the school next Thursday evening, October 1, at 7.30. Mrs. C. E. Prosser, convener of Education, will have charge of the program, and the Rev. Dr. W. Harold Reid, of Lachute, will be guest speaker, also showing pictures of the Maritimes. Visitors are welcome.

Proficient Boy Scout

Congratulations to Scout Bernard Golphin, who won his Red Cords and six proficiency badges while at Camp Tamaracouta this summer. Scout Golphin assisted Capt. Edgell with the boys from Laurentian district. Bernard left recently for Victoria, B.C., where he will attend Royal Roads Military College.

Mr. Harry Murdoch was in Montreal Sunday visiting his wife, who is a patient in the Royal Victoria Hospital.

Mrs. Agnes Haskell, of Dedham, Mass., is visiting her nieces, Mrs. H. Graham and Mrs. M. Low.

Paper Salvage Collection

The Brownsburg Boy Scouts Group Committee has scheduled a salvage paper collection for Saturday, October 3. Residents are asked kindly to retain all magazines and newspapers until that date.

The daughter of Mr. and Mrs. Jas. H. Murdoch was recently baptized by the Rev. S. J. Pike and given the names Norine Faye.

The many friends of Mrs. W. J. Graham, who has been a patient in the Western Division of the Montreal General Hospital, wish her a speedy recovery.

The United Church Sunday School will hold its Rally Service next Sunday at 11 a.m., in which the congregation will join, with parents and friends.

Weir

Mrs. Jas. Manzochi, of Montreal, spent a few days recently as the guest of Mr. and Mrs. Frank Thompson.

Mrs. A. Larose is spending the present fortnight in Montreal at the home of her daughter, Mrs. K. Cowan and Mr. Cowan.

Mr. and Mrs. George Tomalty, of Brownsburg, visited friends here last week.

Mrs. E. J. Craig is spending the present week with her son, Ray and Mrs. Craig, at Valois, Que.

Among those who spent the week-end here and attended the Richer-Williams were — Mr. and Mrs. Stanley Craig and family, of Joliette, Mr. and Mrs. D. Dubeau and Miss Jean Dubeau, of Ottawa, Mr. and Mrs. Roy Williams and daughter, Linda, Mr. and Mrs. Geo. Clifton, Mrs. John MacLean and Mr. Wendell MacLean, all of Montréal.

Mrs. Wm. Bennett left Tuesday to spend some time in Montreal visiting friends.

Mr. and Mrs. W. D. Morrison with their son, Mr. Val Morrison, and granddaughter Gayle, were in Montreal on Saturday, where they attended the wedding of their son, Glen Morrison.

This Week in Quebec

By Bertrand Thibault

Quebec, Sept. 22 (CP) — Maple syrup production in Quebec Province in 1953 was estimated at 1,815,000 gallons, compared to 2,979,000 in 1953, the Quebec Statistics Bureau reported last week.

The decrease in production was attributed to unfavorable weather conditions last spring — rain and lack of frost at night.

Average price paid to producers for syrup in 1953 was $3.69 a gallon, against $3.33 last year. Despite lower volume of production, average price of sugar was 39 cents, compared to 42 cents in 1952.

Total value of maple products was estimated at $6,723,000 in 1953, against $10,095,000 in 1952, a decrease of 33.4 per cent.

The statistics bureau reported Quebec farmers expect increased crops of oats, barley, mixed grains and buckwheat.

Crops of peas, beans, field roots, tame hay and fodder corn are expected to be lower. The average yield per acre of potatoes is the same as last year but the total production will be larger, due to increased acreage.

* * *

Emery Boucher, director of the Quebec Exhibition, reported last week an estimated 320,000 persons attended the 42nd annual show which ended September 12.

Although figures were not official for the week-long exhibition, Mr. Boucher said they represented a drop from last year's total of 363,764 visitors. Rainy weather was blamed.

Pierre Normandeau, of Outremont, Que., was the winner of the $1,500 first prize in a Provincial Government scholarship contest, it was announced last week.

Second prize of $1,000 goes to Armand Filion of St. Vincent de Paul, Que. Three sculptors placed third, winning $500 each. They are — Mario Bartolini, Montreal, Gerard Desbiens and Raymond Begin, both of Levis, Que.

Normandeau, Filion and Bartolini teach at Montreal's Beaux Arts School, while Desbiens and Begin teach at Quebec Beaux Arts.

* * *

Quebec's 100,000-member labor movement, the Canadian Catholic Confederation of Labor, last week voted to set up a strike fund committee and increase the fund from $100,000 to $300,000 annually.

Holding its 32nd annual convention here, the more than 400 delegates re-elected Gerard Picard as president, and Jean Marchand as secretary-general of the powerful group.

A CANADIAN GESTURE OF GOOD FRIENDSHIP TO U.S.

—Central Press Canadian

In a gesture of friendship toward their American neighbors, officers and crew of two Royal Canadian naval vessels celebrated their first visit to New York with a mass donation of whole blood aboard HMCS Quebec. Sailors aboard both the Quebec and the Magnificent volunteered their blood when the Canadian consul general in New York informed the task commander by cable that donors were urgently needed to provide blood for immediate processing into gamma globulin and serum albumin as an anti-polio weapon. On their arrival in New York the vessels were met by a Red Cross blood-mobile, which was set up on the quarterdeck of the cruiser Quebec. Adjutant-A.D. William Gaunt, of Port Credit, Ont., one of the blood donors, receives a "visit" from Commander Herbert Sharpless Rayner, left, of the Magnificent, the Hon. Ray Lawson, consul-general of Canada in New York, and Capt. Patrick D. Bunch, commanding officer of the Quebec. Red Cross nurse is Eileen O'Brien.

New World Society Assembly Lectures in "The Watchtower"

More than 100,000 heard them at the Yankee Stadium July 19-26 last!

All the important lectures delivered at the New World Society Assembly of Jehovah's Witnesses will be published in the Watchtower Magazine during the next six months. This will provide an excellent opportunity for reflective study of the splendid talks given to vast audiences at the stadium.

If you missed attending the assembly, you will not want to miss reading these lectures in The Watchtower. Even if you did attend one or more sessions of the convention, but are not yet a Watchtower subscriber, now is the time for you to send in your subscription. Do not delay the matter, lest you forget.

Send $1 for a year's subscription of 24 issues; or 50 cents for a six-month subscription of 12 issues. The Watchtower will be mailed direct to your home every two weeks. Act immediately so as not to miss any of these lectures delivered at Yankee Stadium. They will bring you comfort and hope for a better world. —Write The Watchtower, 40 Irwin Ave., Toronto, Ont.

AMONG THE CHURCHES

New Pastor of Lachute Baptist

Rev. Donald C. Merrett

The Rev. Donald C. Merrett began his ministry in the Lachute Baptist Church on the first of this month. He succeeds the Rev. Hartley Britton, a beloved pastor and an ardent worker.

Mr. Merrett has been ministering in the Dalesville Baptist Church since May. It was in August that he was called to take the Lachute church as well. It is his belief that the church is the true centre of all Christian enterprises, and the pillar and ground of the truth. With two churches "of like faith and order" he anticipates happy times of blessing and fellowship.

Mr. and Mrs. Merrett and baby Ruth have come to Quebec from Toronto, where Mr. Merrett was pastor of Faith Baptist Church.

Jesus Cares

1—If your heart is sad and weary,
And the days are dark and drear,
O'er life's sky dark clouds have drifted,
Making gladness disappear,
There is One who knows your sorrow,
One who all your suffering shares;
Roll your heavy load upon Him,
He will help you — Jesus cares.

2—Has some great distress assailed you?
Are you pressed by trials sore?
Do you think the path you're treading
Never has been trod before?
Through the vale the Shepherd leadeth,
And the little ones He bears
Safely o'er the thorn-strewn pathway,
Nestle closely — Jesus cares.

3—Have you faced some great temptation,
And, through weakness have you failed?
Have you yielded to the tempter,
When you ought to have prevailed?
Christ, our High-Priest in the Glory,
Knoweth how His tried ones fares,
And because He, too, was tempted,
He will succour — Jesus cares.

4—Soon life's journey will be closing,
Soon the tears will fall no more,
Soon we'll see the morning dawning
On the happy golden shore.
When we hear Christ's loving welcome,
When praise takes the place of prayers,
Then we'll understand His purpose,
Till then, Trust Him . . . Jesus cares.

Pigskin Pointers For Befuddled Fans

Football and befuddled fans are as common as apple pie and ice cream. If you are a TV fan or a ringside-seater, here are a few hints on watching the game, given by an authority in one of our exchanges:

Kick-Off Opener

Opening of game is started from the 45-yard line. The players of the kicking team line up in a straight line behind the kicker. The ball must travel forward at least five yards and must not go into touch, i.e., out of bounds. Failure to do this results in a ten-yard penalty and the kick is taken over.

Players of the kicking team move down the field in order to tackle the ball carrier, thus preventing him from gaining further yardage. The receiving team lines up on kick-offs with the six to seven men on the 45-yard line, two to three between the 30 and 40-yard lines, with a third row behind them.

Offensive Plays

The attacking team (the team which has the ball) has three downs to make 10 yards. Plays receive their name from point and manner of the attack; i.e., line bucks, reverses, forward passes, quarterback sneaks. The combination and variation of these plays will depend on the ability of the players and the coach.

The attacking formations in general use are single wing, double wing, and the T. Ryerson uses a modified double wing with a quarterback handling the ball. Thus you get the power of the double wing and still retain the quick-opening plays of the T.

The man to watch on the offensive is the quarterback, for the success of the attack depends largely on his ability to deceive the opposing team. On receiving the ball he has the option of handing off to any of the three backs, or pitching out to a man running wide, or hold the ball and fade for a pass, or he can carry the ball himself. Each basic play has many combinations or series, e.g., line buck can slant through the centre, tackle or guard.

There are many variations to the pass play. Ryerson sends the ends deep on their long plays and then they criss-cross to evade the defending backs. On their short pass plays the ends go down and out, i.e., the end runs straight for 10 yards and then cuts for the sidelines.

Another series of pass plays is that of sending two men deep and one man short. In this play the quarterback has the option of throwing to either of the ends playing deep, or if they are covered, of throwing a short pass to the man "button-hooking" in. The short pass is hard to defend and can gain that necessary yardage. Again the success of the attack depends on the skill of the "faking" of the quarterback. He will exploit the weakness of the defending team and the strength of his own.

Good blocking is essential for a smooth, swift attack. To block a man is to take him out of the play. Here is where the offensive linemen play an important part. It is their job to "punch holes" in the defending line so that the backs carrying the ball can get through. Take time out to watch the line play. Each backfield man has a job of blocking the line backers on the defending team. Long runs depend on good team blocking.

Defensive Tactics

Essentially the defensive team must be mobile and easily directed. One player calls the defensive signals and he must predict the type of play of attack the opponents will run. He then concentrates his defense at that point, while keeping the rest of the field generally covered.

The defense tries to break up running plays by evading the blockers and tackling the ball carrier. On pass plays they must knock down or intercept the ball to prevent gained yardage.

The basic defense is a 6-3-2-1 formation and is the best all-over defense. Six linemen form the primary defense on the line of scrimmage, with the centre and two backs backing up the line in the secondary position. Two more backs form the tertiary defense and the final backfielder playing safety. A 5-4-2-1 formation is commonly used against short passes and plunges, while on a goal-line stand an 8-4 defense may be used.

This and That

Touchdown is the major score and counts five points. Team earns a touchdown by carrying the ball across the opponent's goal line, by falling on a loose ball behind the opponent's goal line, or by receiving a pass behind the line.

Convert is worth one point and is made by kicking the ball through the uprights, or by passing or carrying the ball over the line after a touchdown has been scored.

Field goal is worth three points and is accomplished by place-kicking the ball over the crossbar.

A safety touch is worth two points and occurs when the ball carrier is tackled behind his goal line during a scrimmage.

Rouge, worth one point. Occurs when the ball is kicked over deadline, or if receiver is tackled and stopped behind his goal line.

Watch for fumbles as these can result in touchdqwns.

County Couple Wed In Pretty Ceremony At Weir, Que.

Richer - Williams

The Church of the Redeemer at Weir, Que., attractively decorated with seasonal flowers and autumn leaves, was the scene of a pretty wedding on Saturday evening, September 19, when Shirley Anne, younger daughter of Mr. and Mrs. Douglas Williams, of Weir, was united in marriage to Mr. Stanley A. Richer, son of Mr. and Mrs. Archibald Richer, of Lost River, Que. The Rev. P. W. Busing officiated at the double-ring ceremony.

The bride — wearing a floor-length dress of white nylon net lace over taffeta, her fingertip veil of nylon net held in place by a tiara of seed pearls, and carrying a semi-cascade bouquet of American Beauty roses — entered the church on the arm of her father to the strains of the Wedding March, played by Mrs. Willard Dubeau.

The bride was attended by her sister, Miss Norma Williams, who wore a floor-length dress of pale pink nylon lace and net with matching headdress, and carried a nosegay of pink and white carnations.

Little Patricia Laurin, cousin of the bride, made a charming little flower girl, in a floor-length dress of blue taffeta, with matching headdress of blue flowers, and carrying a Victorian posy of yellow baby mums.

The groom was attended by Mr. Wendell McMillan, of Lost River, and the ushers were Mr. Neil McCluskey, of Lost River, and Mr. Roy Williams, of Montreal.

Both Mrs. Williams, mother of the bride, and Mrs. Richer, mother of the groom, were attired in navy blue with matching accessories and wore corsages of red and white carnations.

During the signing of the register the congregation sang "O Perfect Love".

Immediately following the ceremony, Piper Wendell MacLean, of Montreal, cousin of the bride, piped the wedding party and attendants to the church hall, where they received congratulations and good wishes from a large gathering of friends, who were then entertained with several popular and lively bagpipe tunes until an orchestra arrived for the evening.

Later Mr. and Mrs. Richer left on a motor trip to Ottawa and other points, the bride travelling in a grey suit with navy accessories and wearing a shoulder spray of American Beauty roses. On their return they will reside in Lost River.

Out-of-town guests were present from Montreal, Ottawa, Lachute, Kilmar and elsewhere.

The bride's bouquet was sent to Mrs. Robt. Williams in Montreal, grandmother of the bride, who was unable to be present owing to illness.

Social and Personal

Recent guests of Mrs. David Steele, Lachute, were her brother, Mr. Russell Thompson and Mrs. Thompson, of Pompano Beach, Florida, and Mr. and Mrs. Wm. Barnett, of Detroit, Mich.

~

2nd Lieut. Gordon McGibbon, of McGill University COTC, has returned home from Chilliwack, B.C., where he has been stationed for the past three months. He is resuming his studies at McGill this week.

~

Mr. and Mrs. Clifford, of Dunany, LAC. James Clifford, of the RCAF, Ottawa, were recent weekend guests of Mr. and Mrs. Leslie Clifford and daughter, Heather, at Brockville, Ont. While there they enjoyed a motor trip on the scenic highway to the Ivy Lee International Bridge.

~

AC-1 Rolland Scott is spending a month's leave with his parents, Mr. and Mrs. Gordon Scott, prior to leaving for Portage la Prairie, where he will be stationed for some time. "Rollie" has been training at Camp Borden, Ont., for the past year.

~

84th Birthday

Friends extend wishes for the recovery of Mrs. Duncan McPhail, who attained her 84th birthday yesterday, September 23, and is presently in ill health at her home in Lachute Mills.

~

Pre-Nuptial Showers

Those who have entertained for Miss Clarice Mason, whose marriage to Mr. William Muir takes place on Saturday, September 26, are — Miss Frances Murdoch, who gave a tea-cup shower; Mrs. Earl Rogers, a kitchen shower; Mrs. Douglas Sheen, of Montreal, a bathroom shower; and Mrs. N. E. Smillie, Mrs. Chas. Prosser, Mrs. W. Petley and Mrs. P. McAdam, of Brownsburg, who were joint hostesses at a shower presenting the bride-elect with a pressure-cooker and other miscellaneous articles. Mrs. Ross Muir also entertained at a tea in honor of Miss Mason.

To Hold Art Classes Again This Season

Parents will be interested to know that Miss Irene Adshead, of St. Eustache, is again enrolling High School pupils for a weekly Art class. Pupils may register at the school for this junior class (ages 5 to 15). Fees $15 for the full term, including materials.

There will also be an evening Art class each week for adults, if students enter in sufficient number to warrant this course; cost will be $20 for the season. (Adults please communicate with Mrs. C. R. Lang, tel. 124).

Mrs. Will Runyan, in her late seventies, at Vauxhall, Alta., killed a 44-inch rattler in her yard with a hoe.

The Alberta Wheat Pool has $300,000 in cash belonging to members who cannot be located.

Jacob Walter, of Standoff Colony, Alta., brought a freak egg laid by a hen, to the experimental laboratory in Lethbridge. It was in the shape of a chicken with long neck and head. He wanted expert advice on why such a freak should be born. It was the product of a Leghorn hen and a Rhode Island rooster.

LAC. Buddy Cook, of the RCAF base at Aylmer, Que., is spending two weeks' leave with his parents in Lachute.

~

Mr. F. H. J. Royal was in Montreal on Saturday for an executive meeting of the High School Principals' Association (of which he is vice-president), to discuss plans for their fall conference. It is interesting to note that Mr. Eric King, principal at Ormstown, and formerly of Brownsburg, is president of this group.

~

O/C. Kenneth Trickey returned home this week, having completed his first phase of COTC training at La Citadelle, Quebec City. He will leave for McGill University next Monday to begin his third year Arts course.

~

Mr. Lawson O'Brien, of Ottawa, visited his mother, Mrs. H. A. O'Brien, and also Mrs. May Thompson, on Saturday. Later Mr. O'Brien, accompanied by his mother, motored to St. Eustache and spent the remainder of the week with Mrs. Tooke, St. Eustache-sur-le-Lac.

~

WO. S. S. Langille spent Monday with his parents, Mr. and Mrs. R. H. Langille, en route to Winnipeg, where he will act as judge during the inter-command finals of the RCAF skilled driving competition.

~

Approaching Marriage

Mrs. E. Russell and the Rev. G. T. Spriggs announce their approaching marriage. The ceremony will take place in St. Luke's Church, Rosemount.

~

L.O.B.A. Whist Party

Under auspices of the L.O.B.A., a successful and enjoyable whist party was held at the Legion Hall on September 15.

First prize-winners were: Mr. and Mrs. Stanley Dewar, Mr. Irving and Mrs. Gertrude Moncrieff.

Second prize-winners: Mr. and Mrs. Edgar Morrow, Mrs. W. Dawson and Mrs. A. Billingham.

The novelty prize was won by Mrs. Ivy Dewar.

Refreshments were served on conclusion of the games.

Jim Campbell left Monday for Boston, Mass., where he is commencing a four-year course in Business Administration.

~

Miss Phyllis MacDougall, nurse-in-training at the Queen Elizabeth Hospital, Montreal, is spending a month's vacation with her mother, Mrs. Marion MacDougall, North River Road.

~

For Prospective Bride

Mrs. Allan Boa, of Upper Lachute, entertained some 45 ladies last Thursday evening at a kitchen shower in honor of Miss Margaret Dorion, whose marriage takes place early in October.

NOTICE
Catholic School Commission of Lachute

The following notice is given in the interests of sound financial administration of Catholic School Commission;

Article 397 of the Education Act decrees that 5% interest is chargeable on school taxes after 30 days of date due.

It is not within the power of a school commission to revoke such interest charge.

Catholic School taxpayers are accordingly notified that, in future, interest at the rate of 5% will be charged on school taxes not paid by January 1 of each year.

For the current year, those who pay the amount due before October 25, 1953, will be charged only at the rate of ½% interest. Thereupon, the rate of 5% will be charged, effective 30 days from that date on said taxes.

Taxes are payable to the secretary-treasurers of respective school municipalities.

SPORTS AND JUVENILE ACTIVITIES

Contender for World Heavyweight Title?

By Don Peacock,
Canadian Press Sports Writer

Canada seems to have developed a good contender for the world's heavyweight championship in Earl Walls, of Edmonton, Canadian heavyweight champion. The only Canadian who ever held the world title was Tommy Burns (Noah Brusso), who wore the crown from 1906 to 1908.

Now Walls moves right to the front ranks of contenders by virtue of his second victory over Rex Layne, the Salt Lake City fighter, who was ranked as No. 2 contender. There were rumors before the second Walls-Layne fight that the winner would get a title shot at the winner of the September 24 fight between champion Rocky Marciano and Roland Lastarza. But Walls and his co-manager, Jimmy Jones, aren't making any predictions.

In their first battle Walls put Layne to sleep in Edmonton on July 3, in 53 seconds of the first round. Layne was said then to be overweight and carrying much excess baggage around the middle.

After that first beating, Layne went home, started thyroid treatment and trained hard for his next meeting with Walls.

He was 20 pounds lighter at 190 when he entered the ring September 8 in Salt Lake City and afterwards, his manager, Marv Jensen, said he fought "the best I have ever seen him fight."

But in the sixth round, Walls got far enough away from the bully boy to land a couple of his powerful, long-arm punches. On his third trip to the canvas, Layne stayed down.

Across the Country

Jim Greenblat

Bill Krause working in a gravel pit out of Bentley, Alta., found a tooth "that was a tooth", probably from some prehistoric animal, weighing 11 pounds, and will send it to the University of Alberta for identification.

Marlyn Murphy, 22, was in Memorial Hospital at Bowmanville, Ont., for observation while running a high temperature; tuned in a "give-away" program, earned $525 in cash as the prize winner; now she can surely pay her hospital bill.

Six western cattle growers' associations have agreed to a levy of 3 cents per head on animals marketed, to provide a fund to advertise beef.

It was purely coincidental, says the editor of the MacLeod, Alta., Gazette, that Sunday morning at the Anglican Church the rector announced his resignation, and the first words of the closing hymn were, "On our way rejoicing, as we onward go."

The Napanee (Ont.) Post-Express charges the Ontario department of highways should cancel licenses for those trucks which do not abide by all regulations regarding the muffling of noise.

Wrestlers Stage All-Round Show At B'burg Arena

For clean-cut wrestling, the preliminary bout — Victor Delamarre versus Jim Burnett — was the least spectacular but the pick of the program, at Brownsburg Arena last Monday. Delamarre took the honors with a single fall in 18 minutes 30 seconds.

The remainder of the card was a variety show to please all tastes, with grunts, groans, villainy and acrobatics.

The popular Donald and Ray Lortie won the day in two falls out of three against Ray and Jean-Louis Couture — a team match in which all the tricks and crafts were involved, and rules were only theory.

"Gorgeous George" and his midget valet fulfilled the role of drug-store dandies; George, however, proved his muscle-power in a rough-house work-out with powerful Bob Lortie — and the latter, of course, lost the one-fall decision as expected.

Most unbelievable sidelight of the fiesta was that some folks took it all seriously, and a real battle ensued between two fans at the edge of the crowd! This was, in fact, the top sensation of the show. . . . All went away well satisfied.

Winners in Annual Lions Club Drawing

Winners in the Lions Club annual golf tournament drawing, held at LaSalle Golf Club last Sunday, were as follows:

Car, ticket No. 125758, D. Munro, 49 Greenfield Ave., Greenfield Park.

Robin Roberts Rated "A Great Pitcher"

SPORTS CAMERA
By Gerry Lougheed,
Canadian Press Staff Writer

A lot of baseball experts are stacking Robin Roberts up alongside baseball's greatest pitchers.

Babe Pinelli, National League umpire with 36 years in the game as a player and official, calls Roberts at 26 "the best right-hander in baseball today."

Pinelli ranks Grover Cleveland Alexander, Dazzy Vance and Dizzy Dean as the three greatest right-handers of all time. Roberts he put just a step lower.

Says Hans Lobert, a team-mate of Alexander and Christy Mathewson: "Roberts is every bit as good as Alex and Matty were at the same stage of their career."

Bennie Bengough, former star catcher with New York Yankees who now serves as a coach with Roberts' team, the Philadelphia Phillies, terms Robin "the kind of pitcher who comes along every 50 years."

Cy Perkins, another Philly coach who put in 15 years behind the plate with the Philadelphia Athletics and the Yankees, goes even further.

"Robbie is the greatest pitcher I've ever seen in my career", he says. "And I caught such great pitchers as Lefty Grove, George Earnshaw, Lefty Gomez, Charlie Ruffing, Herb Pennock, Bob Shawkey and Sam Jones."

There is no way of knowing right now whether Roberts will ever live up to all those expectations. But indications are he will.

30-Game Winner?

This marks his fifth full year in the major leagues. Already he has turned in four 20-victory seasons — in succession.

He won 20 games in 1950, 21 in 1951, soared to 28 wins last season and is rated about an even bet to capture 30 this year.

If he hits that mark it will put him in a class with Dizzy Dean, the last hurler to win 30 games in a single season (he did it in 1934). In fact, only 11 pitchers since the turn of the century have hit that number.

Roberts has a lot of things in his favor — size (6-1½), weight (198 pounds), endurance, stuff on the ball, brains, heart and determination.

His pitching style is seemingly effortless with complete muscular co-ordination.

He has an excellent fast ball, a good curve, a fair change-up and magnificent control (in three games early last month he didn't walk a man!)

His manager, Steve O'Neil, sums up the general opinion pretty closely: "Before he is through, Robbie may be as good as any pitcher who ever lived."

* * *

Prospects to Become A Major Leaguer

Tom Burgess, a London, Ont., outfielder who voluntarily gave up playing baseball for three years, seems on the verge of realizing his ambition — playing in the major leagues.

Tom played semi-pro ball around London then turned professional and started working his way up through the minors. Along the way he became discouraged and threw in the sponge. His bride of six months talked him into picking up the trail again after three years on the sidelines.

Indications now are that he'll be one of the leading candidates for an outfield berth with St. Louis Cardinals next spring. That's based on his first season of AAA competition — just one step below the majors — with Rochester Red Wings of the International League, a St. Louis farm club. Burgess made quite a mark.

He was runner-up to the batting champion during the regular season, was selected as one of the International's all-star out-fielders and came close to winning the 1953 rookie award from Bob Trice, pitching standout with Ottawa Athletics.

Majors or Nothing

Tom's wife, Dorrie, a London school teacher, explained: "I always thought that maybe later on he would wish he had gone back to baseball.

"He had gone half way up the baseball ladder and to quit then seemed silly to me. Actually, we figured he was only going to lose six months (the ball season) to find out if he had it in baseball or not."

Dorrie and Tom decided they would put a two-year limit on his attempt to make good.

"If he didn't go up to the Cardinals by then, he would quit. We figure you should go to the top, or give it up."

His showing this season is no fluke. Last year — his first out retirement — he hit .328 for Columbus, Ga., and was voted the most valuable player in the Class A South Atlantic (Sally) League.

He took spring training with the Cardinals and then was sent to Rochester, where he helped the Red Wings win the International League pennant.

Dorrie's teaching job doesn't let her follow her husband's career as closely as she'd like.

She said: "This season when he hit three home runs in one game, I was only listening to the radio because the game was in Montreal. I think the biggest thrill possible for me would be to see Tom playing for the Cardinals. If he makes the team next spring, I certainly will take time off to go to St. Louis to see him play."

BLUE GOOSE DEVELOPS FAST

Research indicates that a blue goose gosling increases its birthweight by 16 to 20 times during its first two months of life. At this rate of growth, an average human infant would weigh between 130 and 160 pounds when seven or eight weeks old.

RECRUIT COASTAL PLANE SPOTTERS

Vancouver (CP) — A speedy little RCAF crash boat — the M850 — has returned here after a 1,400-miles voyage along the coast to recruit civilian aircraft spotters in 50 ports between here and Kitimat, 600 miles north of Vancouver.

The three men who man the trim all-steel vessel joined the Air Force to go to sea. They average about 14 years service in the marine unit and all were seamen in civilian life.

The crew's chief duty is to wait for disaster to strike and rush to the rescue. The 40-foot craft's two 200-horsepower diesels push her ahead with greyhound speed. She cruises at 18 knots and can do up to 25.

NOTICE

From this date I will not be responsible for bills contracted by my wife in my name, at any place of business.

WALTER HENRY JACKSON

Specially contributed and exclusive to The Watchman

Greetings, Aunt Mary!

I have just received a letter signed "Auntie Mary", forwarded to me by The Watchman, which ran as follows:

Dear Editor,

Please do tell us how Uncle Walt is getting along. Last thing I heard was that he was going into hospital for treatment.

We miss his letters each week. We need something to make us laugh in this wicked old world.

— Auntie Mary.

Well, Auntie, I got more kick out of your letter than I have had for some time. Nobody else bothered to inquire how I was getting along, but to set your mind at rest I am now full of vim and vigor and just bubbling over with juvenile delinquency. In fact, I look more like me than I do myself. I made an amazing recovery from a surgical operation plus pleurisy and pneumonia resulting from it. To spend 23 days in a hospital is not my idea of fun and laughter, but even this ordeal had its lighter moments. The other patients (those that were still conscious) had some jokes that I had never heard. F'r instance . .

On nearly every farm there stands a small building sometimes called "the Outhouse". A certain farmer was being pestered by a plumbing salesman who tried in vain to sell him something a little more modern, with running water. The mention of running water gave the farmer an idea. He had a small pier, or wharf, jutting into a rapidly-flowing stream so he cut a square hole in the end of the pier and got his two sons to help move the outhouse to its new location. The sons disliked the change, and argued that it was too far from the house. But the old man insisted. So that night the sons expressed their displeasure by pushing the building off into the river. Next morning the father asked them if they knew anything about it. They admitted their little joke, and each received a good old-fashioned licking. The eldest son said: "Father, you're not fair to us. When George Washington's father asked him if he had cut down the cherry tree, George admitted it and his father congratulated him on being an honest boy and not telling a lie. We admit what we did, and you punish us."

"Yes", said the father. "I've heard that story. But George Washington's father did not happen to be sitting in the cherry tree!"

So you want to laugh, Auntie Mary? Don't let me stop you!

— Be seein' ya!

— Uncle Walt

Tourist Officials Get Queer Queries

Owen Sound (CP)—Tourists may want to consult a fortune teller or have their teeth pulled, but whatever they want it can't surprise the Owen Sound tourist information bureau.

Officials at the bureau said a woman came in recently and asked if they could make an appointment for her with a card-reader. Unfortunately the request could not be filled on the spur of the moment and the lady departed — her future still a blank.

The bureau did locate one farm for a man who said his great grandfather had been born on it but had left at an early age. The bureau dug up old deeds and mortgages and located the farm.

The bureau often makes appointments at hairdressers for women tourists and at dentists for families stricken with tooth troubles.

Wally, the Incurable Bach, says sometimes a man marries the apple of his eye, only to find out she's of the crab variety, and not a pippin at all.

CURRENT SHOWS AND ENTERTAINMENT

'Anne of Green Gables' As A Radio Serial

When "Anne of Green Gables" first appeared in 1908, readers eyevrwhere seemed to lose their hearts to the charming little red-headed girl. Among her admirers was Mark Twain, who hailed her as "the dearest and most moving and delightful child of fiction since the immortal Alice". Forty-five years later, the book is still one of the most-thumbed volumes in North American libraries.

Starting next week, L. M. Montgomery's radio story will be presented as a dramatized serial, under the direction of Andrew Allan. Patricia Joudry wrote the adaptation. The programs will be heard from 5.30 - 6.00 on Trans-Canada each Friday afternoon.

The story behind the publication of the books sounds like one of L. M. Montgomery's own tales. Her mother died when she was very young, and soon afterwards her father moved from their Prince Edward Island home to Saskatchewan, leaving his daughter in the care of her grandfather, the local postmaster. Her first manuscripts were written on the backs of post-office forms, and concerned the local gossip her sharp ears picked up when people came to get their mail.

When she was 17, one of her efforts, a poem, was accepted. In payment she received a package of flower seeds! Then for two more years she accumulated rejection slips. After her 19th birthday she received $5 for a short story and promptly invested it in five volumes of the standard poets. She said later that she had wanted to buy something that she could keep forever in memory of having "arrived"!

After she had written steadily for several years for a growing clientele of editors, one of them, the editor of a Sunday School weekly, asked for a seven-chapter serial. At once she dug into her notebook of ideas and read "Elderly couple apply to orphan asylum for a boy; by mistake a girl is sent them." That was the start of Anne of Green Gables. But Anne Shirley quickly outgrew seven chapters, and forced her creator to develop the story into a full-length book which was much too long for a Sunday School paper. Six publishers rejected it, and L. M. Montgomery had decided to throw it away if L. C. Page and Company — her seventh trial — sent it back. They didn't. And her success was magical.

The story of "Anne of Green Gables" plucks persistently at the heart-strings in a blending of sadness, humor and romance. When Anne's foster parents discover that the orphanage has sent them a scrawny little red-headed girl instead of the boy they wanted, they take their time about getting to like her, puzzled at first by her fanciful language and vivid imagination. But she wins their affection eventually, and captivates the interesting assortment of people in the rural community where she lives.

BRITISH RIDERS TO VISIT CANADA

London — The British Show Jumping Association has accepted an invitation to send a team of three riders and six horses to Canada and the United States. The party is due in Toronto on October 13 and will spend a week there.

The team is described by the Association as "probably the strongest ever to travel abroad to represent this country." It consists of Miss Pat Smythe (with her horses Tosca and Prince Hal), Lieut.-Col. H. M. Llewellyn (with his horses Foxhunter and Lady Jane), Mr. W. H. White (who will ride his own horse Nizefela and Talisman which belongs to William Hanson, the reserve rider, at present in Canada).

"My little boy is very polite", said Brown. "Only the other day in a bus he pointed out an empty seat to a dear old lady and then raced her for it."

Psychologists stress the importance of the association of ideas, but one place it doesn't work is on a baseball diamond when it's the batter's idea to hit a home run, and the pitcher's idea to strike him out.

How to Conserve Our Fields and Streams

The conservation of Canada's recreational resources is the subject of a new series of radio talks starting next Tuesday night, September 29, on CBC Trans-Canada. The time: 10.15 - 10.30. The broadcaster will be Roderick Haig-Brown, who has gained international fame by writing and talking about his life on Vancouver Island — exploring its fields and streams as an outdoorsman, and helping and getting to understand its people. He has served for many years as a magistrate, and his writings have a strong philosophical strain reflecting his broad experience.

British Columbia and the conservation problems of that province will be the focal point of his talks, but similar problems exist all over Canada. To start with, Haig-Brown will state the problem as he sees it. He considers our recreational resources as a part of the Canadian way of life, a part of our national heritage. He regards these resources, collectively, to be our one great national luxury. The problem is one of conservation. We have a chance to develop our recreational resources in a way scarcely paralleled in any other country; yet there is a danger that they will be laid waste. The question is, he says, how do we go about conserving and developing them?

In his second talk, on the subject of parks, he concludes: "With any stage of industrial development, with every increase of population, the demand for outdoor recreation is greater. Unless the right areas are selected within the next few years and fully protected from encroachment, the chance will be gone forever. Painfully, and at excessive cost, later generations may be able to win back some of what we have lost for them. But unless we set lands aside and protect them now, our grandchildren will never have the benefit of primitive, unspoiled samples of their own country."

Wild life and game fish will be the subjects of two further talks by Haig-Brown. "My own view on wild life", he says, "may be a bit specialized, but I believe a chance to see wild life under natural conditions is one of the important rights of man. It is a real enrichment of living. Believing this, I often feel that the right to hunt and kill is far more questionable than the right simply to see it and watch it for the pleasure of seeing and watching, and perhaps learning a little". On the question of game fish, he does not see why Canada cannot have pure lakes, clean streams and healthy watersheds for ever, if proper thought and care and planning are brought to bear on the problem.

Finally, he will sum up and present a plea for sane thinking about the enlarging and conserving of our recreational resources. "Canada is a young and healthy country", he says. "Planning, and public support of that planning, can save our recreational resources for future generations, for always."

Songs of My People

Basso Jan Rubes sings a European folk song while conductor-violinist Ivan Romanoff listens carefully, during a rehearsal of the CBC Friday night show "Songs of My People". The famous traditional music of the peoples of Europe is presented on the program, as well as the occasional folk tune from the Carribean and Latin America. Rubes is featured not only as a vocalist, but he introduces the numbers as well. Besides the orchestra, he is assisted by a chorus and a guest star every week.

Won TV Set at Local Theatre

Winner of a television set September 13 in a contest held by the Rio Theatre, was Miss Laurette Seguin, of Ayersville. Announcement of the winner is given by the theatre management.

Over 40 acres of Christmas trees, west of Orono in Manvers Township, Ontario, were destroyed by fire; an estimated 50,000 trees with a market value of $60,000, they were owned by Charles Tyrrell, Arono druggist.

At Nokomis, Sask., The Times reports, they had a farewell stag party for L. C. Reynolds; they did something "different", played snap and old maid and enjoyed the evening.

Shown above are some of the rapids in the Montreal River, in northern Saskatchewan. This spot was visited by delegates who attended a recent Canadian Weekly Newspaper Association post-convention trip to Prince Albert National Park and Lac la Ronge, Saskatchewan. (Photo by Mike Kostarton)

Reduced Rail Fares, Sherbrooke Winter Fair And Horse Show

Montreal — Reduced rail fares for persons travelling to the Sherbrooke Winter Fair and Horse Show to be held at Sherbrooke, October 12 to 17, inclusive, are announced by J. A. Brass, chairman of the Canadian Passenger Association.

Reduced fare tickets may be purchased from stations in the Province of Quebec, Montreal and south of the St. Lawrence River as far east as Riviere du Loup, Monk and Megantic, and also north of the St. Lawrence River on the main lines between Montreal and Quebec City.

Round trip tickets will be sold for the normal one-way fare plus one half for both first class and coach class travel. Tickets will be honored going from Saturday, October 10, to Saturday, October 17, inclusive. On the return trip, tickets will be accepted leaving Sherbrooke up to midnight, EST, of Monday, October 19.

Women's Interests -- The Homemaker's Section

Squash for Flavor

Everywhere about this time of year there is a family reunion on vegetable markets. It is quite a big family too when they get together. Some botanists call certain members of this family pumpkins, but generally they go by the name of squash. The family is divided into two branches, summer and winter squash. You've probably already used summer squash, such as vegetable marrow, etc., for summer squash ripens early in July and August, but the winter varieties do not ripen until later in the fall. Among the winter squash are the Acorn squash or Table Queen as they are often called. As the name implies, it is shaped very much like an acorn and is small and deeply ribbed. The Acorn squash weighs about one and one half pounds to two pounds and is around six inches in length. It is usually the first type of winter squash to appear on the market. Then there is the Buttercup squash, sometimes called the Turban squash because of its shape. It has a thick orange flesh and a nutty flavor. Probably the most popular type of winter squash is the Hubbard. It is a large, heavy squash with a warty skin. The skin may be a variety of colors, dark green, bluish green or even bright orange.

The home economists of the Consumer Section mention that housewives often overlook squash when shopping, in spite of the bright colors that beckon them. All homemakers should become acquainted with squash, and when they go to pick one out, they should look for squash that is heavy for its size and that has a hard shell and firm flesh which is free from bruises and blemishes. Hubbard squash will keep well during the winter, provided that it is kept in a coool, dry place, preferably at a temperature of about 50 degrees.

Squash may be cooked by any of the standard methods for cooking vegetables, but baking is the easiest and most popular method. To bake squash, simply cut the squash in serving-size pieces and remove stringy portions and seeds. Place the pieces of squash cut-side down on a greased baking sheet and bake in a moderate 375°F. oven until tender, about 45 minutes. When nearly done, turn cut-side up, sprinkle with brown sugar, salt and pepper, dot with butter and finish baking.

Another way to cook squash is to steam or boil it until it is tender. To boil it takes around 35 minutes, to steam squash, it takes longer, about one hour.

There are many other ways of serving squash. For instance, it is awfully good if the pieces of squash are filled with creamed ham and served as a luncheon dish. If you like steamed or boiled squash, here is a good way to serve it; put the cooked squash through a sieve or ricer, season with salt and pepper and place in a greased casserole. Cover the squash with strips of bacon and bake in a hot oven until the squash is thoroughly heated through. If you prefer squash to have a slightly sweet flavor, sprinkle a little brown sugar on top before you place the bacon on the squash.

Squash and Pepper Casserole

3 Cups peeled sliced squash, 1 cup sliced green pepper (about 2 peppers), ¼ cup sliced onion, ½ cup fine dry bread crumbs, 2 tablespoons butter.

Arrange vegetables in layers in a greased casserole, sprinkle each layer with salt, pepper. Top with bread crumbs, dot with butter, cover and bake in a moderate oven, 350°F., about 35 minutes. Remove cover and continue baking about 10 minutes longer or until crumbs are brown and vegetables tender.

Squash Fricassee

Peel squash and cut into ½" cubes, let dry for a few hours (2-10 hours) depending on the moisture content or degree of ripeness.

3 Tablespoons fat, ½ cup diced onion, ¾ cup diced celery, 3 cups squash, 1 cup fresh or canned tomatoes, 1 teaspoon salt, 3 tablespoons chopped parsley.

Brown onion lightly in hot fat. Add celery and cook until transparent. Add squash, tomatoes, and salt; cover and cook slowly until vegetables are tender. Since some sauce must be left when the "fricassee" is cooked, extra tomatoes may be needed during the cooking. Serve hot, garnished with chopped fresh or dry parsley. Yield: six servings.

Chicken-Squash Bake

3 Cups diced yellow squash, 2 tablespoons butter, 1 10-oz. can cream of chicken soup, ½ cup diced celery, 2 tablespoons diced green pepper, ½ cup buttered crumbs.

In a greased 6-cup casserole, arrange alternate layers of squash, pieces of butter, soup, celery and green pepper. Top with buttered crumbs and bake in a moderately hot oven, 375°F., 50 minutes or until squash is done. Yield: 6 to 8 servings.

FOR ROYAL CHILDREN

London (CP) — The Queen has accepted a Shetland pony from the Highland Pony Society. She has told the secretary, George Cheyne, that she would like a filly three to four years old. Mr. Cheyne hopes Prince Charles and Princess Anne will ride it.

An estate agent bought his little girl a beautifully furnished doll's house, and on his return after a week's absence asked her how she liked it.

"Oh, it's very nice, Daddy", she replied.

"But where is it, Betty?"

"Oh, I rented it furnished to Cousin Jill for a quarter a week."

U.K. Policewomen Thorough, Patient

Recruits from All Walks of Life Work at Specialized Tasks

London (CP) — Metropolitan London has nearly 500 women police serving its 500 square miles and there are more than 1,000 in other parts of Britain. But wherever they serve they have the same standards of training, discipline and responsibilities as policemen.

They specialize, of course, in the kind of work for which women are particularly suited — work with children and young people and other women. But they are always police officers, not welfare workers, and have the same powers of arrest as policemen. But unlike policemen, they do not carry a wooden truncheon. Only when taking into custody a person known to be intractable, do they carry hand-cuffs.

These policewomen, whose minimum age of entry is 20, are recruited from all walks of life. Among them are ex-teachers, nurses, midwives, clerks, shop-assistants and university graduates. All enter on the same footing as constables, with a 13-week initial training course, followed by a two-year probationary period.

At the eight recruit training centres set up in various parts of Britain men and women are trained together in mixed classes; they cover the same syllabus, take the same examinations, but the women have additional instruction in their own specialized tasks.

Women also work in the criminal investigation departments and have shown themselves to be well equipped with the patience and thoroughness essential to the investigation of crime.

Fashions

Never have transition clothes been more attractive or more practical. Mostly, the clothes designed to bridge the gap between the airy, filmy frocks of summer and the wools of winter, are of cotton in sturdy weaves in deep colors with pretty detail. This one, which fills the bill nicely, is of tweed cotton in a purplish cast with black velveteen trim at the collar, the cuffs and for the belt. Silvered buttons for the double-breasted closing, and dolman sleeves. The full skirt is made of unpressed pleats.

A Red Cross volunteer is shown packing bottles of blood for shipment to one of the 77 hospitals affiliated with the Red Cross Blood Donor organization in the western part of Quebec Province. The blood shipped to the Providence Hospital, Lachute, is packed in the same manner.

Let's Eat

BY IDA BAILEY ALLEN

"It is what you call a 'crying shame' the way the public has turned up the nose at the white potato. Is it because North Americans feel the potato is a common food, madame? Or is it the waistline?"

"Both, chef. Many people consider potatoes just a common food. They are usually persons who do not understand nutritive values, for white potatoes contribute essential calcium, phosphorous and iron, as well as vitamins A, B and C. As these are contained next to the potato skin, potatoes should be cooked in their jackets, or be well scrubbed and baked, so the crisp skins can be eaten. It is true that an average potato rates 83 calories, mostly starch, but at that rate, one potato a day can be included even in a reducing regime."

"In the old countries they use potatoes in many interesting ways, madame, especially in the pot-au-feu. With your permission, I would like to present recipes from France, Central Europe and Italy."

Potato Omelets Central Europe

Mix 3 c. warm mashed white potato, ½ c. heated milk, 2 beaten eggs, ½ tsp. salt, and ¼ tsp. pepper. Drop by heaping tablespoonfuls, not too close together on a hot griddle oiled with fat. When browned, turn to brown the reverse side. Serve with crisp bacon, sausages or salami saute.

French Potatoes Rissolee

Rub peeled medium-sized white potatoes with melted fat. Place in a well-oiled casserole. Dust with salt. Cover and bake in a hot oven, 400 deg. F. about 30 minutes, or until browned all over. Turn twice for even browning.

Braised Potatoes Italian

Peel 6 large white potatoes and cut in halves crosswise. Brush with olive oil. Place in a casserole rubbed with a cut section garlic. Sprinkle with 2 tbsp. minced onion. Add 1 c. tomato juice mixed with ½ c. water and 1 beef bouillon cube. Cover and bake 40 minutes in a hot oven, 400 deg. F.

Turn the potatoes and bake uncovered until slightly crusty on top. Or braise together with a little meat, and you have a savory dish par excellence.

Tomorrow's Dinner

Cooked Vegetable Salads
Creamed Chicken on Halved Crisp Baked Potatoes
Green Peas with Button Onions
Pineapple Chiffon Pie
Coffee Tea Milk

All Measurements Are Level

Recipes Serve 4 to 6

Pineapple Chiffon Pie

Bake a 9 inch piecrust shell. Add 1½ envelopes unflavored gelatin to 2 tbsp. cold water. Heat 1 c. fresh, canned or diluted frozen orange juice, 1 tbsp. lemon juice, a few grains salt, and ¼ c. granulated sugar. Stir in the gelatin. When dissolved, add 1 buffet can pineapple and juice.

Separate 2 large eggs; beat the whites until stiff, the yolks until lemon-colored. Add the yolks to the pineapple mixture. Fold in the beaten egg whites. Cool until tepid; pour into the baked piecrust shell. Refrigerate at least 3 hours or until firm.

Just before serving, spread with a thin layer of slightly sweetened whipped cream flavored with lemon juice, or spread with a thin layer grated dry cake.

Trick of the Chef

When creaming chicken, make the white sauce with chicken fat instead of butter, and with ⅓ chicken stock to ⅔ milk, to bring out the flavor.

Piano Tuner's Woes Include Mice, Dirt

Montreal (CP) — Maxime Deslauriers is firmly convinced after 52 years in the business, that piano tuning is fraught with dangers for the sympathetic artisan.

Take the case of the woman who telephoned Maxime's firm to complain that the 67-year-old tuner had insulted her.

"Insulted!" he exclaimed in an interview. "I told them to get the piano disinfected before I was called in. There were 5,000 cockroaches clinging to the inside of it and all I did was slam the top shut and leave."

Another big problem that seems to disrupt the placid life of a tuner is "mouses", according to Deslauriers.

"We get mouses all the time. They get into pianos through the hole near the pedal."

"The other day I opened a convent piano and found a baby mouse sitting on a hammer. I chased and caught it and put it in my pocket. When one of the sisters came in I held it up by the tail - to show her. She went screaming from the room."

Nor are "mouses" the only things the distraught tuner finds in his pianos: "You never know what to find next — bobbypins, tooth picks, money."

But a piano tuner sure gets around: "One day I spend in a convent, the other in a night-club."

Professional pride is foremost: "Tuning a piano is not a trade and it's not a profession. It's an art."

Spare Parts for Humans

The transplanting of live tissue from one human being to another and "banks" for tissue storage mark the opening of a new era in medicine, says the October Reader's Digest.

In New York recently a young woman died of heart failure during an operation. With the consent of her parents a segment of her artery was removed and placed in the body of another young woman suffering from a faulty artery near her heart. She was restored to health and now has every prospect of a long life.

Such surgery, once impossible, is now performed regularly because of artery banks in about a dozen cities. Heretofore, surgeons could cut out the defective portion of artery and try to stitch the remaining ends together, or merely tie off the artery ends, hoping a by-pass circulation would result. In such cases, transplants from artery banks are lifesavers, the Digest says. The banks have only one source of arteries: the dead. Arteries must be taken within six hours of death, from persons who were under 45 and free of infectious or wasting disease. Recent research indicates that arteries may be "freeze-dried" and stored for periods up to a year.

Bone banks, now available in most large cities, supply the bone needed to repair accident injuries, to lengthen legs shortened by disease and to stabilize weakened spines. For such work surgeons formerly had to rely on bone taken from the patient's body. Today's sources of bone include ribs removed in surgery, bone from "clean" amputations and bone from the dead. Shipped to hospitals throughout the world, such bone has saved hundreds of war-wounded from lives of disability.

Newest is the "skin bank", still in the earliest experimental stage, The Reader's Digest says. Tests indicate, however, that skin may be successfully sorted for several weeks. Such skin provides an excellent dressing, in cases of severe burns, until replaced by the patient's own.

Cartilage banks are used mainly by surgeons in repairing noses, ears and foreheads. Recent work in England shows that cartilage from young cattle is as satisfactory for this purpose as human cartilage.

Most deaths are due to a single weakness in an otherwise sound body, this Digest article points out. It is the aim of the tissue banks to replace the weak link with a strong one.

BACKACHE
May be Warning

Backache is often caused by lazy kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest or that tired-out and heavy-headed feeling may soon follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to natural action. Then you feel better—sleep better—work better. Get Dodd's Kidney Pills now. 61

Apple for You, Teacher!

— By NANCY CLEAVER — (Copyright)

"Apple for you, teacher!" Six-year-old Tommy's eyes are shining, and he has an engaging grin as he thrusts a big red MacIntosh on her desk. She looks at her small pupil and she remembers, not so very many years ago when she was in First Grade and adored the older woman who taught her. As a little girl she was much too shy to present her teacher openly with a gift. But how much she owed to this older woman's kindness and patience! It was then that she told her mother, "I'm going to be a teacher, when I grow up!"

• • •

During the years since the last World War in Canada there has been a great increase in the number of boys and girls attending elementary schools. Outstanding educationalists are alarmed at the shortage of qualified teachers to look after this ever-growing school population.

Each provincial Department of Education, because education is a provincial responsibility, tries to attract the right kind of people into the teaching profession. Short courses, some of them during the summer, have been established in a few centres in an attempt to train extra recruits for this profession.

But the lack of trained teachers is a serious threat to the education of many of our boys and girls. As parents, we are concerned, not only with the schooling of our own youngsters. We should be interested in the education of ALL young Canadians. What can we do about our need for good "teacher material"?

We can make the lot of the teachers in our own community happier by being a little more appreciative of them. We can discover what are their salaries, and if they are inadequate in these days of rising prices, we can speak to the members of our School Board. One of the difficulties of paying teachers a good wage, for one of the most important tasks in any democracy, is the limited budget for education. Local school boards have no other source of money than provincial grants and the tax on property. They have no "hidden taxes" by which they can increase their treasury.

As mothers and fathers, we can make a greater effort to get to know our child's teacher through Home and School activities or by making an appointment after school hours and having a talk with the teacher. If our "Junior" is in trouble with his teacher, we can withhold our judgment. As mature people, surely we can refuse to "blame teacher" until we hear the other side of Junior's complaint!

Perhaps most important of all we can look at the individual teacher's good points, and concentrate on them instead of on his or her faults. We can firmly suggest to our son or daughter, when complaints are made, that a teacher usually has a very good reason for what he or she does. Teacher isn't perfect — but neither is a scholar — and the failings of a whole class of pupils can be pretty hard to take!

When we are talking with our friends we can say something good about our child's teacher, if at all possible. It is rather mean to criticize and condemn a teacher behind his or her back! The light of public interest shines without much mercy on the lives of professional people — and the perfection expected of teachers is nothing short of ridiculous in some communities! This is one of the reasons many young people are not attracted to the teaching vocation.

Look back on your own childhood. You likely had both good, medium and even poor teachers, but weren't the able ones in the majority? What teacher do you remember most vividly? Was it not someone who really liked children and passed on his or her enthusiasm for some subject to you?

We can remember one teacher who really loved reading poetry aloud. She was able to make the poetry period one which everyone enjoyed. We had the chance to read aloud, too, and hear the music of the words as well as see the pictures painted in our imaginations by the poet's lines. If ever a teacher deserved an apple, it was this one!

A survey in the United States in which over a thousand scholars participated, brought to light the traits in teachers which the pupils really appreciated. The boys and girls wrote a letter on "The Teacher Who Has Helped Me Most". There were twelve characteristics which were mentioned over and over again. In order of frequency they were as follows: A Co-operative Democratic attitude; Kindliness and Consideration for the individual; Patience; Wide Interests; Pleasing Personal Appearance and Manners; Fairness and Impartiality; Sense of Humor; Good Disposition and Consistent Behavior; Interest in Pupil's Problems.

Quite an imposing list! Surely an inspiration to anyone in the teaching profession! These American boys and girls are not so different from our Canadian ones. It would be interested to know what characteristics in teachers our scholars appreciate most! Why not ask your boy or girl? If he appreciates the teacher he has this term, let the teacher know! She likes "an apple" from parents as well as from scholars!

Competition for Your Child

A book prize is offered to the readers of this feature for the best description by a Public School student on the subject, "The Teacher Who Has Helped Me Most". Replies must be written on a plain post-card. State age and school grade. A book will also go to the teacher.

DISTRICT NEWS FROM OUR COUNTY CORRESPONDENTS

Avoca

Mr. and Mrs. Archie McPhee, of Vancouver, who have been visiting the former's brother, Allan McPhee, and sister, Mrs. Thos. Young, left for their home Monday morning.

Mrs. Thos. J. Young is spending a short holiday at the home of Mrs. Wm. H. Kelly in Aylmer, Que.

Mrs. McCaskill, of Vankleek Hill, spent the week-end with her daughter, Mrs. Herbert Brown and Mr. Brown, at Pointe au Chene.

Mr. and Mrs. Hugh Bates, with their daughter and son, and Mr. and Mrs. Chas. Bates, attended a surprise party at the home of Mr. and Mrs. Alvin Campbell in Lachute on Saturday evening.

The sympathy of this community goes out to the three sons of the late Mrs. Richard Stringer, who passed away Saturday night at the home of her son, Sherwood. The late Mrs. Stringer was in her 92nd year.

Cushing

Mr. and Mrs. C. Hammond were week-end guests of Mrs. J. Robson.

Miss Jakes, of Toronto, is the guest of Mrs. W. Y. King this week.

Mrs. R. T. Holmes, of Montreal, who has been the guest of Miss A. Davidson for several weeks, left for home on Sunday.

Mr. and Mrs. A. Hooper, of Montreal, spent several days at "Cedar Ridge".

Miss Annie and Mr. Jack McDowell, of Montreal, were week-enders at "Glenifer".

Mrs. Emerson Cooke spent several days during the week with Miss Joan Pollock at Lachute.

Miss E. M. Graham, of Verdun, was a week-end guest of her parents, Mr. and Mrs. A. Graham.

Mrs. W. Y. King entertained at a dinner party Friday evening for Mr. and Mrs. Maurice Genest, of London, Ont., also Miss Jean Genest and Mrs. C. Grece, of "Chart Lodge".

The Rev. DeWitt Scott, of Montreal, was guest speaker in St. Mungo's Church on Sunday.

Mrs. A. Graham, Mrs. R. Dobbie and Mrs. W. Y. King were delegates to the Provincial Woman's Christian Temperance Union convention, held in Dawson Hall last week.

Mrs. Jas. O'Brien entertained the W.A. of St. Mungo's Church on Thursday of this week.

Mr. and Mrs. F. Pitt occupied their cottage over the week-end, also having their daughter, Edith, and son, Danny, as guests. Danny occupied the cottage during the week, and Mr. Pitt is in residence this week.

Cushing West

Mr. and Mrs. R. Casement and family, of the Town of Mount Royal, were guests of Capt. and Mrs. T. W. Weir on Sunday.

Mrs. Wm. Usher attended the Quebec Provincial W.C.T.U. Convention in Montreal last week.

Mr. and Mrs. C. F. Watson, accompanied by Mr. and Mrs. M. Akeson, of Ottawa, attended the Watson - Wickenden wedding in Three Rivers on Saturday.

Mrs. Wm. Usher accompanied Mr. and Mrs. Geo. Wishart, of Belleville, Ont., and daughters, Miss Elspeth Wishart, of Ottawa, and Miss Carol Wishart, of Kingston, to Three Rivers, where they attended the Watson - Wickenden wedding. Mr. Franklin Keatley, of Arnprior, visited with his mother, Mrs. Usher, on his return from Three Rivers on Sunday.

The Rev. and Mrs. R. Watson and son, John, left for their vacation trip to Detroit, Windsor and other points on Wednesday last.

Miss Ruth Nash, of Montreal, Mr. Charles Leaman, of Toronto, and son, Mr. Edward Leaman, of Montreal, are spending this week as guests of Mrs. A. E. Usher.

Mr. W. O'Brien, of Boston, Mass., is spending a few days this week as the guest of Mrs. Henry Villeneuve.

Mrs. MacKenzie and Mr. W. Collins, of Moose Jaw, Sask., arrived last Wednesday and are guests of Mr. and Mrs. C. Edgerton at present.

Mrs. H. Villeneuve and daughter, Maureen, visited friends in East Hawkesbury last week.

Miss M. Whelehan is spending a few days at the "Old Homestead".

Miss Helen Rayson, of Montreal, spent the week-end at her home here.

* * *

(Intended for last issue)

Capt. and Mrs. T. W. Weir spent the week-end in the Eastern Townships, and attended the Higginson-Allen wedding in Granby, on Saturday.

Mr. and Mrs. M. J. Spencer and family, of Baltimore, were guests of Mrs. Spencer's parents, Mr. and Mrs. W. Hartley, for the week-end.

Lakefield

Mrs. C. W. P. Baugh was in Montreal last week as delegate attending the 68th annual convention of the Woman's Christian Temperance Union, which was held in Dawson Hall of St. James United Church.

Harvest Festival

The harvest festival in Lakefield recently was a decided success, both socially and financially. This event, held annually, is of long standing, and proves more popular each year. The Rev. M. A. Beaufoy, M.A., of Montreal, was the guest speaker, and delivered a very fine address on "Co-operation".

Over the past fifty years the Canadian railways have more than doubled their miles of track.

St. Andrews East

Miss Gladys Hyde spent last week in Boston.

Mr. and Mrs. V. Lloyd Lilly and family, of Como, Que., were guests of Mrs. Lilly on Saturday.

Mrs. J. A. Lalonde, who occupied Wales' bungalow during the summer, has now returned to Montreal.

Mr. and Mrs. Littlejohn spent the week-end at their home on Queen Street.

Miss Edith Simpson returned to the city on Monday after spending the summer here.

Mrs. Douglas Roberts, of Montreal, accompanied by Misses Liane and Valerie Roberts, spent the week-end with her mother, Mrs. Larmonth.

Mr. S. Archibald L. MacDonald, Berkeley, Cal., visited Miss Lamb on his 81st birthday on Sunday. Mr. MacDonald was born in St. Andrews and was looking for old familiar places.

Miss Patricia Liddell, of Montreal, spent the week-end with Miss Audrey Eaton.

Mrs. A. R. Choules spent the week-end with Mr. and Mrs. D. Morrison.

Mrs. R. C. Eaton spent the week-end with her mother, Mrs. V. Winters.

In the absence of the minister, the Rev. Ralph Watson, who is on holidays, service last Sunday in the United Church was conducted by the Rev. DeWitt Scott, D.D., secretary of the Montreal Presbytery.

Mabel

Sunday guests at the home of Mr. and Mrs. John Black were Mr. and Mrs. Dave Black, of Brownsburg, Mr. and Mrs. John Mahon, of Calumet, also Mr. and Mrs. Ellis Carkner and son, Donald, of Vankleek Hill.

Mr. and Mrs. Wallace Cunning and Miss Ruth Cunning, of Vankleek Hill, visited with friends here on Sunday.

Mr. Carson Tomalty exhibited swine at the Vankleek Hill Fair last week, and won several valuable prizes.

Miss Lillian Warwick spent the week-end with her parents, Mr. and Mrs. Raymond Warwick.

Bell Falls

Mr. Bryant Smith, student pastor of the Rivington Baptist Church, preached his farewell sermon on Sunday last. Mr. Smith is resuming his studies at McMaster University.

Mr. and Mrs. Neil MacCallum, Mr. and Mrs. Dougald MacTavish, and Mr. William Horsnall attended the Stone - Morrison wedding in Montreal.

Mr. and Mrs. Guy Nixon, of Grenville, were guests of Mr. and Mrs. Joseph Page on Sunday last.

Messrs. Ross and Frank Page visited their parents, Mr. and Mrs. George Page, last Sunday.

Mr. and Mrs. Nolin MacLean, of Hawkesbury, were guests of Mr. and Mrs. David MacLean on Sunday.

Mr. and Mrs. Wesley Cameron, of Gatineau, were recent guests of Mr. and Mrs. Irving MacLean.

Mrs. John McRae visited with her daughter, Mrs. Edmund Nixon, in Calumet.

Mr. Ernest MacTavish is home from the Royal Edward Sanatorium at Ste. Agathe, where he was a patient. Friends extend a warm welcome on his return.

Service will be held at the usual hour, 11 a.m., on Sunday in the Harrington United Church; Sunday School at 10 a.m. (Please note, the services will be on Standard Time.)

Arundel

Miss Muriel Graham, of Montreal, was the week-end guest of her mother, Mrs. Thos. Graham.

Mr. and Mrs. Roy Cooke, accompanied by Mrs. T. Sevigny and son, Trevor, and Miss Joan Beers, of Sherbrooke, spent the week-end at their home.

Mr. and Mrs. Frank Davis, of Valleyfield, Que., spent the week-end at their home here.

Mr. and Mrs. Hugh Simon, of Dorval, Que., spent the week-end at their Arundel home.

Miss Doreen Howell, of Montreal, was a week-end guest of Mr. and Mrs. John Macaulay.

Mr. and Mrs. Everett Noall and family are spending their holidays with relatives in New Jersey, U.S.A., and Antigonish, N.S.

Christening

The infant daughter of LAC. Clark Graham and Mrs. Graham, of Trenton, Ont., was baptized in the United Church on Sunday, receiving the names Gloria May.

Mr. and Mrs. Gerald Proudlock and family, of Montreal, occupied their cottage over the week-end.

Car Accident Lucky For Lithuanian DP

Montreal (CP) — Victor Kijonka considers it lucky that he was hit by a car last March.

"Except for the accident", he explains, "I would never have found my family."

Kijonka was separated from his parents and three sisters in 1941 when the Nazi Army overran Lithuania and pressed him into active service. He fought the Russians for three years and retreated into Germany as the war ended.

Kijonka came to Canada in 1948 as a displaced person, bringing with him a Lithuanian wife he had met in a DP camp. He continued to advertise in European newspapers for his family but never received any word as to their whereabouts.

Then he was hit by a car. A brief report of his accident was carried in a New York Lithuanian newspaper and a short while later Victor received a letter from his sister, Mrs. Lena Wold of Brooklyn.

He immediately made plans to visit her and to learn more of the fate of his parents.

Rodger's Canned Chicken Products

RODGER'S CHICKEN IN BROTH, 7 oz. and 16 oz., is made from the best of chickens freshly killed and packed in their own juice, (BROTH) — No cold-storage chickens are used and no synthetic flavoring or gelatine is added.

If jellied chicken is desired chill can in refrigerator for an hour or more before serving.

To remove broth for salads or sandwiches warm slightly and broth will pour off.

Do not stir while heating. Chicken is cooked ready to serve and stirring will break it up.

If more broth is desired for sauce try Rodger's Chicken Broth, 20-oz. can, which is of the same quality used on the canned chicken.

Try "Rodger's Whole Chicken" and "Chicken Sandwich Spread" which is of the same fine quality as the boneless chicken. Canned food is the purest food obtainable.

When you buy "RODGER'S CANNED CHICKEN PRODUCTS" you are buying the best.

Garden-Graph

The health of next year's "glad" bulbs depends to a considerable extent on the first aid you give the plants now.

When cutting flower stalks, for example, leave three or four or more of the larger leaves at the base of each plant. Cutting away all or most of the foliage interferes with the manufacture of food needed by the bulbs.

First aid for "glad" bulbs also calls for the cutting of flower spikes as soon as they fade, as shown in the accompanying Garden-Graph. Do not permit seed pods to develop.

Do not be in too great a hurry to dig the bulbs for storage. They can remain in the ground well into October in most sections. However, if the leaves turn yellow or brown, it indicates the bulbs have matured and are ready to lift.

Loosen the soil with a spading fork, then lift out the bulbs and bulblets which have formed about the parent bulb. Cut off the tops to within an inch or so of the bulb, as illustrated. Dry the bulbs in the sun. Then clean off the soil, break off the old, withered bulb, and remove the bulblets.

The large bulbs may be stored loosely in shallow boxes. The bulblets should be stored in boxes of dry sand.

Late planted bulbs should be dug before frosts, even though not mature. Leave the stalks attached to these, and hang in an airy, frost-proof place until matured. Then cut away the stalks and store the bulbs.

Canada's Modern Fighting Airforce

Air Force Day gives the citizens of Canada an opportunity to look over their RCAF stations and see what their Air Force is doing. This year's Air Force Day finds the RCAF embarking on a latter phase in its current expansion program, which is aimed at producing a modern fighting air force with some of the world's finest aircraft and with the most modern equipment. With squadrons serving the cause of world freedom and peace in England, France and Germany as well as the homeland, the RCAF is playing a decisive role in Canada's growing strength and authority. Upper left shows a dead-on view of the CF-100, the RCAF's all weather long-range jet fighter. Upper right, RCAF aero engine technicians replace an engine cowling on a CF-100. Lower left, Airwomen are playing an increasingly important part in the RCAF. A flight of airwomen are seen at attention on the parade square at RCAF Station at Clinton, Ont. Lower right, Some of the pilots of No. 4 Fighter Wing are seen climbing into the cockpit of their F-86 Sabre jet fighters before taking off for Baden-Soellingen, Germany. Inset is Air Marshal C. Roy Slemon, Chief of the Air Staff.

Blood Donors Save Lives

A Paraplegic Speaks From Experience

By Bob Giles, Jr.

"Blood donors save lives" is a slogan of the Canadian Red Cross blood transfusion service. In the words of a paraplegic World War II veteran, Bill Johnson, at Toronto's Sunnybrook Veterans' Hospital, "If you CAN give blood, give."

"I know", said Bill, "that if your readers had ANY knowledge of the good they do by contributing a bottle of blood (380 c.c.) they wouldn't pause a second. When it's a question of one human being helping another to live, factors like color, creed and religion don't even enter the picture."

Bill Johnson was a member of the Second Division of the Canadian Signal Corps in the Second World War. In the spring of 1941, while stationed in England, Bill was injured during a bombing raid and was left paralyzed from the waist down. He was admitted to the Christie Street Hospital on April 3, 1941.

Bill, who has since received a number of transfusions from the Blood Bank, is well qualified to stress the need for volunteer donors. Not so long ago Bill underwent a serious operation. On each of the two days prior to the operation he received one pint of blood. More was needed during the operation. Three people contributed towards making that one operation a success.

According to Nurse Valerie Chapman, a great number of veterans undergoing operations at Sunnybrook hospital require blood transfusions. More than two-thirds of the patients have had transfusions at one time or another. All of Sunnybrook's "patient population" are veterans of wars dating back as far as the Boer War up to the more recent Korean War.

On the seventh floor of the hospital, in proximity to the operating rooms, is Sunnybrook's Blood Bank, which is supplied by volunteer donors. All "deposits" for the banks are channelled through the Red Cross.

Dr. A. J. Blanchard, Chief of Laboratory Services, explained the operation of the Blood Bank:

"The whole blood, brought in by the Red Cross, must be refrigerated as soon as possible", Dr. Blanchard stated. He pointed out that blood, which is an extremely vital fluid, may become infected or deteriorate if its temperature is not regulated. The Blood Bank refrigerator is approximately the same temperature as a domestic refrigerator — about 40 degrees.

"Whole blood", said Dr. Blanchard, "can only be kept three weeks, as the life of the red blood cell is limited. Then the red blood cells settle to the bottom of the bottle, leaving a straw colored liquid known as blood plasma." The plasma is then siphoned off, frozen and stored in a sort of deep-freeze at 10 degrees below zero.

Plasma can be cooled because the type properties are lost with the red blood cells. Dr. Blanchard stated that plasma is used to replace the fluid lost in the case of severe burns, and it is used to a limited extent for operative shock as long as there is not much haemorrhaging. Its efficiency is only moderate.

"In the event of gross blood loss", Dr. Blanchard continued, "whole blood is necessary for a transfusion because the red cells are essential for transmission of oxygen in the blood stream. Plasma can only replace fluid."

Before plasma is stored, it is pooled and set aside in glass containers to stand for one week at room temperature. If the plasma has become infected in any way, it will be evident in a week's time. Dr. Blanchard said that one of the most common signs of infection was a bubbling of the plasma in the container. If the plasma is free from infection it is put into smaller containers and frozen. The frozen plasma can be kept indefinitely. When needed it is melted to room or body temperature for use in transfusion.

The whole blood is kept in a Roto Blood Bank and refrigerated at 40 degrees. The bottles of blood are stored on revolving circular trays or shelves, with each blood type on a different shelf. "All blood is used in order of date to limit spoilage", said Dr. Blanchard.

According to Dr. Blanchard, the days of direct blood transfusion are over. "With the establishment of Blood Banks", he said, "there is no longer any need for it." Blood Banks have been in operation a little more than 15 years.

It is necessary to have a surplus of blood on hand at all times in case of emergencies. For example, in the case of an operation for a bleeding ulcer, there might be a need for 50 pints of blood to replace what is lost in the course of the operation. In other words, 50 people would have to give one pint of blood each to save one life. This would be an exceptional case, Dr. Blanchard pointed out, but similar emergencies do arise.

An extra list of volunteer donors is kept on hand to supplement the Red Cross donation, if necessary.

"Whether whole blood or plasma is used, the need for volunteer donors is urgent", said Dr. K. E. Hollis, Superintendent at Sunnybrook, "so let's get out and give; the life you save may be your own."

FINE CATCH

Peterborough, Ont. (CP) — After an hour-long battle on Chemong Lake, H. J. Epps of Ottawa landed a 53-pound muskellunge. He didn't have a net or gaff, and had to boat the fish by grabbing it under the gills.

Mayor A. C. Wilde reported at Vernon, B.C., council that debentures issued 50 years ago to build the city hall had finally fallen due and been redeemed . . principal was $6,500 ,and total interest charges at 5% over the half century amounted to $16,250.

Digby County Forest Ranger Alf Banks has a hobby collecting semi-precious stones along banks of beaches and rivers, and polishes them himself. He now can hardly keep up with the orders, which pay from $3 to $100. Rockerfeller Centre in New York recently displayed some of his stones, most popular of which are jasper and agate.

Picketing the Churches

By Lewis Milligan

A group of people who had been holding Christian services in temporary buildings in a growing suburban district of Toronto, decided to build a church to accommodate their increasing congregation and Sunday School. Being working-folk, they could not afford the cost of raising such a structure at the present rates and they agreed to use what money they had in purchasing materials and do the work of building themselves.

The work was getting under way when the business agent of the A.F. of L. Bricklayers Union made a speech in Toronto in which he threatened to picket churches for using "unfair labor practices."

The complaint was that the men employed were not working union hours or getting union wage rates. As a result of this, said the labor leader, the Church was getting some "unfortunate advertising", and it was no wonder that the Church and Labor were growing further apart.

When I came to Canada over forty years ago I lived for several years among farmers in Eastern Ontario, where it was a common practice for neighbors to get together and form a "bee" in "barn-raising." The work was usually directed by an old hand at the job, and the neighbors worked all hours like bees to complete the building in record time.

The same process was followed in erecting a church for the community. An economical way of enlarging a barn was by building a lean-to along each side and another across the rear. The barn then took the form of a Gothic church, with nave, side aisles, choir, and clerestory. It has been suggested that the church, like the home, was influenced by the barn. The barn certainly came first in the early days and was often used for church services.

When I moved to Toronto it was a common sight to see newly-arrived immigrants working in their spare time to build a home for themselves on the outskirts of the city in what was called "shack-town". Many of these rude structures were later enlarged and developed into modern homes, and I happen to know that at least one immigrant, a mechanic who lived in shack-town, became a prominent labor leader in after years. I can well imagine what he would have said forty years ago if the unions of that day had picketed his building job.

As for the statement by the bricklayers union business agent, that Church and Labor were growing further apart, the answer is that the Church is not a closed shop, but is an open Christian fellowship for all sorts and conditions of men.

There are no fixed dues for membership and the services and ministrations of the Church are free to all. Some labor union leaders may have drifted away from the Church, but union members and their families are connected more or less with local congregations. Even those who do not contribute regularly to church funds expect a clergymen to marry them, baptize their children and bury their dead decently.

The Very Rev. W. E. Jackson, Dean and Rector of Christ Church Cathedral, Hamilton, in replying to the criticism of the business agent of the Bricklayers Union, said: "It is a strange thing that labor leadership can so easily forget, if indeed it ever knew, that the whole program for social service belongs to, is part of, took its rise from, and was encouraged by Christian teaching. In fact social justice has no reality and no justification apart from Christianity.

"If Labor deliberately separates itself from the Church, it is merely cutting away its own fundations. In countries where the Church is frowned on or outlawed so also is the freedom it teaches, and Labor should realize that it can only operate where freedom is recognized. The downfall of the Church would be accompanied by the downfall of Labor as well."

COSTLY TREES

Sydney, N.S. (CP) — Charged with violating a provincial act by felling small trees, mill operator C. S. Robinson was fined $100 and costs here. The complaint was laid by the district forest ranger.

CAREERS IN PARKS

Banff, Alta. (CP) — B. I. Strong, superintendent of this south-western Alberta national park, says there is an opportunity for young men to make a career in Canada's park services. In 20 years Mr. Strong has risen from a clerk's job in the stores office at Prince Albert national park.

Ford Trucks cost less to run!

Ford Economy Trucks save you money on every ton-mile of hauling—on any job you can name . . . because Fords have more time-saving, money-saving features than your trucking dollar ever bought before! Ford's great V-8 engines pack plenty of *dependable* performance for rugged hauling, while Power Pilot economy makes every gallon of gas go farther. Ford's Driverized Design—with shorter turning circles, greater manoeuvrability, easier steering, improved brakes and unmatched cab comfort—cuts operating costs to the bone!

Ford Trucks cost less to maintain!

Ford Economy Trucks stay on the job faithfully, day after day, mile after mile. They work harder, last longer, keep repair and service costs to a minimum. Ford chassis construction, with new, sturdier deep-channel frames, provides more strength and rigidity without excess weight. Ford's big choice of Synchro-Silent transmissions—plus Automatic Transmission* or Overdrive* available on all ½-ton models—give smooth, quiet operation and longer service! The extra strength built right into every truck part pays off in durability and long life!
